The Commission shall have power and is hereby authorized to issue bonds from time to time in its discretion for any of its purposes, including the payment of all or any part of the cost of any of its facilities and the refunding of any bonds previously issued by it.

The Commission shall not issue bonds unless and until the maximum amount of each issue and the general purposes thereof have been approved by the governing body of each participating political subdivision. Subject to the foregoing, bonds may be issued under this act notwithstanding any debt or other limitation prescribed in any other statute and without obtaining the consent of any city, town, or county government or any commission, board, bureau, or agency of the Commonwealth or of any of the foregoing, and without any other proceedings or the happening of other conditions or things other than those proceedings, conditions, or things that are specifically required by this act.

Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political

subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, copartnership, association, or individual, as such participating political subdivision, or other entities may be authorized to make under general law or by pledge of any income or revenues of the Commission, or where such mortgage has been approved by the participating political subdivisions, a mortgage of any facilities of the Commission.

In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this act, or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the Commission may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the conversion and reconversion into coupon bonds of any bonds registered as to both principal and interest and vice versa. The Commission may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Commission.

Prior to the preparation of definitive bonds, the Commission may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. (2008, c. [421](#))

§ 21. Taxation.

The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project that the Commission is authorized to undertake will constitute the performance of an essential governmental function, the Commission shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act and the bonds issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. The region for which such Authority shall exist shall be coterminous with the boundaries of the participating political subdivisions.

§ 15. Authority to issue bonds.

The Authority shall have power and is hereby authorized to issue bonds from time to time in its discretion for any of its purposes, including the payment of all or any part of the cost of any of its facilities and the refunding of any bonds previously issued by it.

The Authority shall not issue bonds unless and until the maximum amount of each issue and the general purposes thereof have been approved by the governing body of each participating political subdivision. Subject to the foregoing, bonds may be issued under this act notwithstanding any debt or other limitation prescribed in any other statute and without obtaining the consent of any city, town, or county government or any commission, board, bureau, or agency of the Commonwealth or of any of the foregoing, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things that are specifically required by this act.

The Authority may issue such types of bonds as it may determine, specifically bonds payable as to principal and interest: (i) from its revenue generally; (ii) exclusively from the income and revenues of a particular project; or (iii) exclusively from the income and revenues of certain designated projects, whether or not they are financed in whole or in part from the proceeds of such bonds. Subject to the limitations set forth in § 7 of this act, any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, copartnership, association, or individual, as such participating political subdivision, or other entities may be authorized to make under general law or by pledge of any income or revenues or the Authority, or where such mortgage has been approved by the participating political subdivisions, a mortgage of any facilities of the Authority.

Bonds of the Authority shall be authorized by resolution and may be issued in one or more series, shall be dated, shall mature at such time or times not exceeding 40 years from their date or dates and

shall bear interest at such rate or rates as may be determined by the Authority, and may be made redeemable before maturity at the option of the Authority at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this act, or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the conversion and reconversion into coupon bonds of any bonds registered as to both principal and interest and vice versa. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. (2004, c. [39](#))

§ 16. Resolution or trust indenture to secure bonds.

In connection with the issuance of bonds and in order to secure the payment of such bonds, the Authority shall have power:

1. To pledge by resolution, trust indenture, or other agreement, all or any part of its fees, rents, or revenues;
2. To covenant to impose and maintain such schedule of fees, rents and charges as will produce funds sufficient to pay operating costs and debt service;

such interest, security and priority as may be provided in any trust indenture, lease or contract of the Authority with reference thereto;

19. To covenant to surrender possession of all or any part of any facility or facilities acquired or constructed from bond proceeds, the revenues from which have been pledged upon the happening of any event of default, as defined in the contract, and to vest in a bondholder the right without judicial proceeding to take possession and to use, operate, manage, and control such facility or any part thereof, and to collect and receive all fees, rents, and revenues arising therefrom in the same manner as the Authority itself might do and to dispose of the moneys collected in accordance with the agreement of the Authority with such obligee, subject to the continued use of such facilities for airport purposes;

21. To make covenants other than and in addition to the covenants herein expressly authorized, of like or different character;

22. To execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of its covenants or duties, which may contain such covenants and provisions, in addition to those above specified, as any purchaser of the bonds of the Authority may reasonably require; and

23. To make such covenants and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds, or in the absolute discretion of the Authority which tend to make the bonds more marketable; notwithstanding that such covenant, acts or things may not be enumerated herein, it being the intention hereof to give the Authority power to do all things in the issuance of bonds, and in the provisions for their security that are not inconsistent with the Constitution of the Commonwealth or this act. (2004, c. [39](#))

§ 17. Fees, rents and charges.

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents and other charges for the use and services of any facilities. Such fees, rents, and other charges shall be so fixed

and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and other charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary, be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest of such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need to be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. (2004, c. [39](#))

§ 18. Credit of Commonwealth and political subdivisions not pledged.

The bonds of the Authority shall not be a debt of the Commonwealth or any political subdivision thereof, other than the Authority, and neither the Commonwealth nor any political subdivision thereof, other than the Authority, shall be liable thereon, nor shall such bonds be payable out of any funds or properties other than those of the Authority. All bonds of the Authority shall contain on the face thereof a statement to such effect. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. (2004, c. [39](#))

§ 19. Directors and persons executing bonds not liable thereon.

Neither the Board of Directors nor any person executing the bonds shall be liable personally on the Authority's bonds by reasons of the issuance thereof. (2004, c. [39](#))

§ 20. Remedies of bondholder.

Any holder of bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust indenture agreement or the resolution

authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this act or by such trust indenture or agreement or resolution to be performed by the Authority or by any officer or agent thereof, including the fixing, charging and collection of fees, rents and other charges. Any resolution authorizing the issuance of the Authority's bonds or trust indenture or agreement securing the same may limit or abrogate the individual right of action by the holders of such bonds or coupons appertaining thereto. (2004, c. [39](#))

§ 21. Taxation.

The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project that the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act and the bonds issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property and machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling and taxes upon consumers of gas, electricity, telephone and other public utility services. (2004, c. [39](#))

§ 22. Bonds as legal investments.

Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law. (2004, c. [39](#))

§ 23. Appropriation by political subdivision.

Any participating political subdivision, or other political subdivision of the Commonwealth all or a part of which is located within 60 miles of an Authority facility, is authorized to provide services, to donate

real or personal property and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issues its bonds, including general obligation bonds, in the manner provided in the Public Finance Act (§ [15.2-2600](#) et seq) of the Code of Virginia or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority. (2004, c. [39](#))

§ 24. Authority budget.

A. The Authority shall annually prepare and submit to the participating political subdivision (i) a proposed operating budget showing its estimated general fund revenues and expenses on an accrual basis for the forthcoming fiscal year, and if such estimated expenses exceed such estimated revenues, the portion of the deficit proposed to be borne by each participating political subdivision, and (ii) a proposed capital budget showing its estimated expenditures for such fiscal year for assets costing more than \$20,000 (or such higher amount as the Authority and the participating political subdivisions may determine) and having an estimated useful life of 20 years or more and the source of funds for such expenditures, including any amount requested from the participating political subdivisions. No depreciation shall be included in the Authority's operating budget with respect to assets purchased by the Authority with funds appropriated to it for such purpose by a participating political subdivision and, for this determination, it shall be assumed that any appropriation so made is for the purchase of assets set forth in the applicable Authority budget to the extent such purchase price is included in the approved budget. Assets purchased by the Authority with bond proceeds shall be depreciated over the term of the bond issue in proportion to the maturities, including sinking fund installments, of the bond issue.

B. If the governing body of a participating political subdivision shall approve the Authority's proposed operating budget, it shall appropriate to the Authority such political subdivision's portion of such budget.

C. If the governing body of a participating political subdivision shall approve the Authority's proposed capital budget, it shall appropriate to the Authority such participating political subdivision's portion of the expenditures set forth therein. Any such appropriation may be reduced by the participating political subdivision's proportionate share of any grant funds received by the Authority for the purchase of assets included in the Authority's approved capital budget in excess of the grant funds shown in such capital budget as a source of funds for such expenditure, unless prohibited by the basic provider of the grant funds.

D. The Authority may expend any and all moneys within its control without obtaining the approval of the participating political subdivisions, but, except as otherwise provided in this act with respect to contracts and agreements between the Authority and any political subdivision, the Authority shall not

commit any participating political subdivision in an amount in excess of that appropriated to the Authority by the governing body of such political subdivision.

E. If at any time during any fiscal year it shall appear that the cash disbursements of the Authority will exceed its cash receipts for such fiscal year, including amounts appropriated to it by the participating political subdivisions, the Authority may request supplemental appropriations from the participating political subdivision and any other political subdivision. (2004, c. [39](#))

§ 25. Allocation of deficit; denial of voting privileges.

A. Any deficit budgeted by the Authority in any fiscal year, i.e., any excess of its estimated general fund expenses over its estimated general fund revenues, and the cost of any budgeted capital expenditures in excess of the amount shown as available therefor, as shown on Authority's operating and capital budgets approved by the participating subdivisions, shall be allocated among the participating political subdivisions in the following manner:

1. During the five fiscal years beginning July 1, 2004, the Town of Luray, Virginia, a Virginia Municipal Corporation, and Page County, Virginia, shall each contribute half of the amount budgeted annually by the Authority for capital expenditures in excess of the amounts shown as available therefor after subtracting from such amount the annual contribution of the other participating political subdivision.
2. No later than the fifth fiscal year, the participating political subdivisions shall evaluate the division of capital contributions made by each such subdivision and shall agree as to the division of such contributions for the fiscal year beginning July 1, 2009, and thereafter.
3. In the event the appropriation of any participating political subdivision is insufficient to pay its portion of the deficit incurred in any fiscal year, the allocation of any deficit for any succeeding fiscal year shall take into account the cumulative deficiency attributable to such participating political subdivision; however, no participating political subdivision shall be required to pay the Authority in any fiscal year any amount in excess of that appropriated to the Authority by the governing body of such participating political subdivision.

B. Any participating political subdivision not contributing its proportionate share of any deficit as determined by the Authority pursuant to § 25 of this act, either of the Authority's operating budget or capital budget in accordance with a schedule established by the Authority, shall automatically be denied voting privileges. The denial of voting privileges shall terminate upon the delivery of its proportionate share by such political subdivision. (2004, c. 39)

§ 26. Contract with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions, which contracts may restrict the powers of the Authority otherwise granted by this act. Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located

within 60 miles of an Authority facility, is authorized to enter into contracts with the Authority, pursuant to which the Authority undertakes to provide the facilities and render the services specified therein. Any such contract or agreement may provide that the political subdivision will make payments to the Authority based on the services rendered by the Authority to the residents of such political subdivision, determined in such reasonable manner as the Authority and the political subdivision may mutually agree. Each political subdivision entering into such a service contract with the Authority is authorized to do everything necessary or proper to carry out and perform such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations. (2004, c. [39](#))

§ 27. Retirement benefits for certain employees by a participating political subdivision.

When a local political subdivision joins the Authority, any employee of such local political subdivision who then becomes an employee of the Authority, if such employee is a member of a local retirement system, may elect to and may continue to be eligible to remain a member of such local retirement system in lieu of becoming a member of any retirement system with which the Authority may affiliate. Such election to remain a member of a local retirement system shall be made in writing within 120 days of such employee's political subdivision becoming a member of the Authority. In such event, service of such employee with the Authority shall be creditable as service with the participating political subdivision and shall be pursuant to all duly adopted ordinances and rules and regulations governing such retirement system. Any employee so electing shall not be entitled to any benefit under the Authority's retirement system, and the Authority shall pay the employer share of benefits provided the Authority's employees by such political subdivision. Nothing herein shall apply to any health and accident insurance plan or to the Federal Old-Age and Survivors' Insurance System. (2004, c. [39](#))

§ 28. Dissolution of Authority.

Whenever it shall appear to the Authority, or to any participating political subdivision that the need for the Authority no longer exists, the Authority, or in the proper case, any such subdivision may petition the circuit court of a participating political subdivision for the dissolution of the Authority. If the court shall determine that the need for the Authority as set forth in this act no longer exists and that all debts and pecuniary obligations of the Authority have been fully paid or provided for, it may enter an order dissolving the Authority.

Upon dissolution, the court shall order any real property contributed to the Authority by a participating political subdivision, together with any improvements thereon, returned to such participating political subdivisions. The remaining assets of the Authority shall be distributed to the participating political subdivisions in proportion to their respective contributions theretofore made to the Authority.

Each participating political subdivision and all holders of the Authority's bonds shall be made parties to any such proceeding and shall be given notice as provided by law. Any party defendant may reply

to such petition at any time within six months after the filing of the petition. From the final judgment of the court, an appeal shall lie to the Supreme Court of Virginia. (2004, c. [39](#))

§ 29. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds. (2004, c. [39](#))

§ 30. Liberal construction.

Neither this act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of this Commonwealth, and this act is cumulative to any such powers. This act does and shall be construed to provide a complete, additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this act need not comply with the requirements of any other law applicable to the issuance of bonds, notes, or other obligations. No proceedings, notice or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this act. The provisions of this act are severable, and if any of its provision shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this act. (2004, c. [39](#))

§ 31. Application of local ordinances, service charges and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom. (2004, c. [39](#))

§ 32. Existing contracts, leases, franchises, etc., not impaired.

No provisions of this act shall relieve, impair or affect any right, duty, liability or obligation arising out of any contract, concession, lease or franchise now in existence except to the extent that such contract, concession, lease or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of or otherwise modify at any time any contract, concession, lease or franchise now in existence in such manner and on such terms and

conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease or franchise consents to said renegotiations, renewal, extension or modification. (2004, c. [39](#))

§ 33. That the Luray-Page County Airport Authority, as provided for in this act, shall in all respects be the successor in interest to the Luray-Page County Airport Commission created by the Town of Luray, Virginia, a Virginia Municipal Corporation, and Page County, Virginia. (2004, c. [39](#))

It is hereby determined and declared that the free circulation of traffic of all kinds through the streets of the city of Lynchburg in the Commonwealth is necessary to the health, safety and general welfare of the public, whether residing in the municipality or traveling to, through or from such municipality in the course of lawful pursuits; that in recent years the greatly increased use by the public of motor vehicles of all kinds has caused serious traffic congestion in the streets of the municipality; that the parking of motor vehicles in the streets has contributed to this congestion to such an extent as to constitute at the present time a public nuisance; that such parking prevents the free circulation of traffic in, through and from the municipality and endangers the health, safety and welfare of the general public; that this traffic congestion is not capable of being adequately abated except by provisions for sufficient off-street parking facilities; that adequate off-street parking facilities have not been heretofore provided; and that the enactment of the provisions of this act is hereby declared to be a public necessity. The offices of Secretary and Treasurer may be combined. The terms of office of the Chairman, Vice-Chairman, Secretary and Treasurer shall be as provided in the bylaws of the Authority.

A majority of the members of the Authority shall constitute a quorum and the affirmative vote of a majority of all of the members of the Authority shall be necessary for any action taken by the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the Authority. The members of the Authority shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties. (1974, c. 76; 1995, c. [289](#); 2021, c. [4](#))

§ 6. General grant of powers.

The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each such Authority is hereby authorized and empowered:

- (a) to adopt bylaws for the regulation of its affairs and the conduct of its business;
- (b) to adopt an official seal and alter the same at pleasure;
- (c) to maintain an office at such place or places as it may designate;
- (d) to sue and be sued in its own name, plead and be impleaded;

- (e) to construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate parking facilities within the corporate limits of the organizing municipality;
 - (f) to issue revenue bonds of the Authority as hereinafter provided to pay the cost of such construction, reconstruction, equipment, improvement, extension or enlargement;
 - (g) to issue revenue refunding bonds of the Authority as hereinafter provided;
 - (h) to fix and revise from time to time and to charge and collect rates, rentals, fees and other charges for the services and facilities furnished by such parking facilities, and to establish and revise from time to time regulations in respect to the use, operation and occupancy of such parking facilities or part thereof;
 - (i) to acquire in the name of the Authority by gift, or purchase, any lands or rights in lands and interest therein, and to acquire such personal property, as it may deem necessary in connection with the construction, reconstruction, improvement, extension, enlargement or operation of any parking facilities;
 - (j) to lease (as lessor or lessee) all or any part of such parking facilities upon such terms and conditions and for such term of years as it may deem advisable to carry out the provisions of this act; provided, however, that no enterprise involving the sale or dispensation of any product or commodity used in or for the servicing of motor vehicles shall be conducted on any space thereon;
 - (k) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this act, including a trust agreement or trust agreements securing any revenue bonds issued hereunder, and to employ such consulting and other engineers, superintendents, managers, construction and financial experts, accountants and attorneys and such employees and agents as may, in the judgment of the Authority, be deemed necessary, and to fix their compensation; provided, however, that all such expenses shall be payable solely from funds made available under the provisions of this act; and
 - (l) to do all acts and things necessary or convenient to carry out the powers granted by this act.
- (1974, c. 76; 1995, c. [289](#))

§ 7. Revenue bonds.

The Authority is hereby authorized to issue at one time or from time to time, revenue bonds of the Authority for the purpose of paying the cost of constructing, reconstructing, equipping, improving, extending or enlarging any one or more parking facilities. The bonds of each issue shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall

determine the form of the bonds and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Any bond may bear the facsimile signature of, or may be signed by, the person who at the actual time of the execution of the bond is the proper officer to sign the bond although at the date of the bond the person may not have been such officer. When all signatures on bonds are facsimiles, the bonds shall be authenticated by an agent appointed by the Authority or in such manner as the Authority may provide. Notwithstanding any of the other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The bonds may be issued in registered form as the Authority may determine. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority.

The proceeds of the bonds of each issue shall be used solely for the purpose for which such bonds shall have been authorized and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of such bonds, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the authorizing resolution or in the trust agreement securing such bonds, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the Authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

Bonds may be issued under the provisions of this act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this act.

Revenue bonds issued under the provisions of this act shall not be deemed to constitute a debt of the Commonwealth or of any municipality or other political subdivision of the Commonwealth, or a pledge of the faith and credit of the Commonwealth or of any municipality or other political subdivision, but such bonds shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the bonds. (1974, c. 76; 1995, c. [289](#))

§ 8. Revenues.

The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by any parking facilities or parts thereof owned or operated by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times (a) to pay the cost of maintaining, repairing and operating the parking facilities or parts thereof owned or operated by the Authority, including reserves for such purposes, and (b) to pay the principal of and the interest on all bonds issued by the Authority under the provisions of this act as the same shall become due and payable and to provide reserves therefor. Notwithstanding any of the foregoing provisions of this section, the Authority may enter into contracts relating to use of the services and facilities of the parking facilities on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1974, c. 76)

§ 9. Trust Agreement.

In the discretion of the Authority, each or any issue of revenue bonds may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. The resolution authorizing the issuance of the bonds or such trust agreement may pledge the revenues to be received. In connection with the issuance of such bonds or in order to secure the payment thereof, the Authority shall have power under such agreement to mortgage all or any part of its property, real or personal then owned or thereafter acquired, to vest in the trustee thereunder the right to foreclose such mortgage and to provide the terms and conditions upon which such trustee or the holders of bonds or any proportion thereof may exercise the right of foreclosure. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the construction, reconstruction, equipment, improvement, maintenance, repair, operation and insurance of any parking facilities, the fixing and revising of rates, rentals, fees and charges, and the custody, safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such construction, reconstruction, improvement, maintenance and operation. It shall

be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Such resolution or trust agreement may set forth the rights and remedies of the bondholders and of the trustees, if any, and may restrict the individual right of action by bondholders. Such resolution or trust agreement may contain such other provisions in addition to the foregoing as the Authority may deem reasonable and proper for the security of the bondholders. Except as in this act otherwise provided, the Authority may provide for the payment of the proceeds of the sale of bonds and the revenues of any parking facilities or part thereof to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursements thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of such resolution or trust agreement may be treated as a part of the cost of operation.

All pledges of revenues under the provisions of this act shall be valid and binding from the time when such pledge is made. All such revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledges without any physical delivery thereof or filing with respect thereto or further action, and the lien of such pledges shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. (1974, c. 76; 1995, c. [289](#))

§ 10. Trust funds.

All moneys received pursuant to the authority of this act shall be deemed to be trust funds, to be held and applied solely as provided in this act. Any officer to whom, or bank, trust company or fiscal agent to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes thereof, subject to such regulations as this act and the resolution authorizing the issuance of bonds or trust agreement securing such bonds may provide. (1974, c. 76)

§ 11. Remedies.

Any holder of revenue bonds issued under the provisions of this act and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds or such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this act or by such resolution or trust agreement to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of rates, rentals, fees and charges for the use of or for the services and facilities furnished by any parking facilities. (1974, c. 76; 1995, c. [289](#))

§ 12. Exemption from taxation.

As adequate off-street parking facilities are essential to the health, safety and general welfare of the public, and as the exercise of the powers conferred by this act to effect such purposes constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this act constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this act constitute public property and are used for municipal purposes, the Authority shall not be required to pay any taxes or assessments upon any such parking facilities or any part thereof, or upon the income therefrom, and any bonds issued under the provisions of this act, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation by the Commonwealth or by any political subdivision thereof. (1974, c. 76; 1995, c. [289](#))

§ 13. Revenue refunding bonds.

The Authority is hereby authorized to issue from time to time revenue refunding bonds for the purpose of refunding any revenue bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. The Authority is further authorized to issue from time to time revenue bonds of the Authority for the combined purpose of (a) refunding any revenue bonds or revenue refunding bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and (b) paying all or any part of the cost of constructing any additional parking facilities or part thereof, or any improvements, extensions or enlargements of any parking facilities. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and the rights, powers, privileges, duties and obligations of the Authority with respect to the same, shall be governed by the foregoing provisions of this act insofar as the same may be applicable. (1974, c. 76)

§ 13-a. Competing parking facilities.

So long as any bonds issued under the provisions of this act are outstanding, the municipality shall not construct, operate or maintain any parking facilities, other than such parking facilities as may be operated or maintained by the municipality on the date of passage by the municipality of a resolution organizing the Authority, which competes with parking facilities of the Authority. The prohibition against competing parking facilities shall not apply to parking facilities that are constructed as part of a municipal building or facility. (1974, c. 76; 1995, c. [289](#))

§ 14. Contributions.

The municipality is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this act from any available moneys for any purpose of the Authority, including payment of principal and interest on its bonds. The municipality is hereby further authorized to enter into agreements with the Authority obligating the municipality to pay to the Authority any part or all of the receipts from the operation of on-street parking meters and making such covenants as

may be deemed necessary or desirable to assure the successful and profitable operation of the on-street parking meters for so long as any bonds of the Authority remain outstanding. (1974, c. 76)

§ 15. Actions taken by Authority.

Any action taken by the Authority under the provisions of this act may be authorized by resolution at any regular or special meeting and each such resolution shall take effect immediately and need not be published or posted. (1974, c. 76)

§ 16. Additional method.

This act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of or as repealing any powers now existing under any other law, either general, special or local; provided, however, that the issuance of revenue bonds or revenue refunding bonds under the provisions of this act need not comply with the requirements of any other law applicable to the issuance of bonds. (1974, c. 76)

§ 17. Construction.

This act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purpose thereof. (1974, c. 76)

(e) The word "owner" shall include all individuals, copartnerships, associations or corporations and also municipalities, political subdivisions and all public agencies and instrumentalities having any title or interest in any property, rights, easements and interests authorized to be acquired by this act. (1966, c. 288)

§ 2. Credit of Commonwealth and political subdivisions not pledged.

Revenue bonds issued under the provisions of the act shall not be deemed to constitute a debt of the Commonwealth of Virginia or of any county, city, town, district or political subdivision thereof, or a pledge of the faith and credit of the Commonwealth or of any county, city, town, district or political subdivision thereof, but such bonds shall be payable solely from the funds herein provided therefor from tolls and revenues. The issuance of revenue bonds under the provisions of this act shall not directly or indirectly or contingently obligate the Commonwealth or any county, city, town or district therein or any political subdivision thereof to levy or to pledge any form of taxation whatever therefor. All such revenue bonds shall contain a statement on their face substantially to the foregoing effect.

All expenses incurred in carrying out the provisions of this act shall be payable solely from funds provided under the provisions of this act and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall have been provided under the provisions of this act. (1966, c. 288)

§ 3. "Manassas Airport Authority."

If the governing body of the town of Manassas shall by resolution declare that there is need for an airport authority to be created for the purpose of establishing and operating one or more airports or landing fields for such political subdivision, an airport authority shall upon adoption of such resolution, be created and constituted a political subdivision of the Commonwealth to be known as the "Manassas Airport Authority". The governing body of Prince William County may by resolution declare

that there is need for its participation in the Manassas Airport Authority and may participate therein if the terms of its participation be approved by the Authority and the governing body of the town of Manassas. The exercise by the Authority of the powers conferred by this act in the purchase, construction, expansion, operation and maintenance of the project authorized by this act shall be deemed and held to be the performance of an essential governmental function.

The Authority shall consist of not more than six members, all of whom shall be appointed by the governing body of the town of Manassas, unless the county of Prince William becomes a participant therein, in which event one-half of the members shall be appointed by the governing body of the town of Manassas and one-half by the governing body of Prince William County. Two of the members of the Authority first appointed shall continue in office for terms expiring one year from the date that this act shall have become effective, two for terms expiring two years from the date that this act shall have become effective, and two for a term expiring three years from the date that this act shall have become effective, as appropriate, the term of each such member to be designated by said governing body, or bodies, and to continue until his successor shall be duly appointed and qualified. The successor of each such member shall be appointed for a term of four years and until his successor shall be duly appointed and qualified, except that any person appointed to fill a vacancy shall serve only for the unexpired term. Any member of the Authority shall be eligible for reappointment. Members of the Authority shall be subject to removal from office in like manner as are State, county, town and district officers under the provisions of §§ [15.1-63](#) to 15.1-66, inclusive, of the Code of Virginia. The Authority shall annually elect one of its members as chairman and another as vice chairman and shall also elect annually a secretary-treasurer, who may or may not be a member of the Authority.

The secretary-treasurer shall keep a record of the proceedings of the Authority and shall be custodian of all books, documents and papers filed with the Authority and of the minute book or journal of the Authority and of its official seal. He shall have authority to cause copies to be made of all minutes and other records and documents of the Authority and to give certificates under the official seal of the Authority to the effect that such copies are true copies, and all persons dealing with the Authority may rely upon such.

A quorum shall be a majority of the members appointed to the Authority and affirmative vote of a majority present shall be necessary for any action taken by the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the Authority.

Before the issuance of any revenue bonds under the provisions of this act the secretary-treasurer of the Authority shall execute a surety bond in the penal sum of fifty thousand dollars, such surety bond to be conditioned upon the faithful performance of the duties of his office, to be executed by a surety company authorized to transact business in the Commonwealth as surety and to be approved by the Attorney General and filed in the office of the Secretary of the Commonwealth.

The members of the Authority may be reimbursed for their expenses incurred in attendance upon the meetings of the Authority or while otherwise engaged in the discharge of their duties. Each member may also be paid an amount as determined by the governing body or bodies participating. (1966, c. 288)

§ 4. General grant of powers.

The Authority is hereby authorized and empowered:

- (a) To adopt bylaws for the regulation of its affairs and the conduct of its business;
- (b) To adopt an official seal and alter the same at pleasure;
- (c) To determine the location of the project, to determine, in its discretion, the design standards and the materials of construction, and to construct, expand, maintain, repair and operate the project;
- (d) to issue revenue bonds of the Authority for any of its purposes, payable solely from the tolls and revenues pledged for their payment, and to refund its bonds, all as provided in this act;
- (e) to fix and revise from time to time and charge and collect tolls, rates, fees, rentals and other charges for the use of the project;
- (f) to acquire, accept, hold and dispose of real and personal property including gifts and contributions from political subdivisions, persons or corporations, in the exercise of its powers and the performance of its duties under this act;
- (g) to employ, in its discretion, consulting engineers, attorneys, accountants, construction and financial experts, superintendents, managers, and such other employees and agents as may be necessary in its judgment, and to fix their compensation;
- (h) to enter upon any lands and premises for the purpose of making such surveys, soundings, borings and examinations as the Authority may deem necessary or convenient for its purposes, and such entry shall not be deemed a trespass, nor shall an entry for such purposes be deemed an entry under any condemnation proceedings; provided, however, the Authority shall pay any actual damage resulting to such lands and premises as a result of such entry and activities as a part of the cost of the project;
- (i) to sue and be sued in its own name, plead and be impleaded;
- (j) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this act, and to enter into grant agreements with the United States government and the Commonwealth of Virginia for airport planning, development and operation under the Federal Airport Act and other appropriate federal laws; and/or State laws;
- (k) to do all acts and things necessary or convenient to carry out the powers expressly granted in this act; and

(l) to borrow money and to issue bonds, refunding bonds, notes, certificates or other evidence of indebtedness of the Authority. (1966, c. 288)

§ 4.-a. In addition to the powers conferred by the preceding section, the Authority is hereby empowered to lease, sell or encumber any real property owned by the Authority. (1966, c. 288)

§ 5. Acquisition of property.

(a) The Authority is hereby authorized and empowered to acquire by purchase solely from funds provided under the provisions of this act, such lands, structures, property, rights, rights of way, franchises, easements and other interests in lands as it may deem necessary or convenient for the construction and operation of the project, upon such terms and at such prices as may be considered by it to be reasonable and can be agreed upon between it and the owner thereof.

All public agencies and the commissions of the Commonwealth, with the approval of the Governor, and the town of Manassas, and the county of Prince William, notwithstanding any contrary provisions of law, are hereby authorized and empowered to lease, lend, grant or convey to the Authority at its request upon such terms and conditions as may be mutually agreed upon, without the necessity for any advertisement, order of court or other action or formality, any real property or personal property, tangible or intangible, which may be necessary or convenient to the effectuation of the authorized purposes of the Authority, including public highways and other real property already devoted to public use. The town of Manassas and the county of Prince William are hereby authorized to appropriate, from available funds, such funds as either may deem necessary to effectuate the authorized purposes of the Authority.

(b) The Authority is authorized and empowered to acquire by the exercise of the power of eminent domain limited to the definition of "project" as set forth herein, any lands, property, rights, rights of way, franchises, easements and other property, including public lands, parks, playgrounds, reservations, highways or parkways or parts thereof or rights therein of any person, copartnership, association, public service, public utility or other corporation, or of the county, deemed necessary or convenient for the construction or the efficient operation of the project or necessary in the restoration, replacement or relocation of public or private property damaged or destroyed, whenever a reasonable price cannot be agreed upon or whenever the Authority cannot agree on the terms of purchase or settlement with the owner or owners because of the incapacity of such owner or owners or because of the inability to agree on the compensation to be paid or other terms of settlement or purchase, or because such owner or owners are nonresidents of the Commonwealth, or are unknown, or are unable to convey valid title to such property. Such proceedings shall be in accordance with and subject to the provisions of any and all laws of the Commonwealth applicable to the exercise of the power of eminent domain in the name of the State Highway Commissioner and subject to the provisions of § 25-233 of the Code of Virginia, as fully as if the Authority were a corporation possessing the power of eminent domain; provided, however, that title to any property condemned by the Authority shall

immediately vest in the Authority, and the Authority shall be entitled to the immediate possession of such property upon the deposit with the clerk of the court in which such condemnation proceedings are originated, of the total amount of the appraised price of the property and court costs and fees as provided by said laws, notwithstanding that any of the parties to such proceedings shall appeal from any decision in such condemnation proceedings. Whenever the Authority shall make such deposit in connection with any" condemnation proceeding, the making of such deposit shall not preclude the Authority from appealing any decision rendered in such proceedings. Upon the deposit with the clerk of the court of the appraised price, any person or persons entitled thereto may, upon petition to the court, be paid his or their lawful share of such appraised price. The acceptance of such payment shall not preclude such person or persons from appealing any decision rendered in such proceedings. If the appraisalment is greater or less than the amount finally determined by the decision in such proceeding or by an appeal, the amount of the increase or decrease shall be paid by or refunded to the Authority.

The terms "appraised price" and "appraisalment" as used in this section mean the value determined by two competent real estate appraisers appointed by the Authority for such purposes.

The acquisition of any such property by condemnation or by the exercise of the power of eminent domain shall be and is hereby declared to be a public use of such property.

(c) Title to any property acquired by the Authority shall be taken in the name of the Authority.

(d) In any eminent domain proceedings the court having jurisdiction of the suit, action or proceeding may make such orders as may be just to the Authority and to the owners of the property to be condemned and may require an undertaking or other security to secure such owners against any loss or damage by reason of the failure of the Authority to accept and pay for the property, or by reason of the taking of property occupied by such owners, but neither such undertaking or security nor any act or obligation of the Authority shall impose any liability upon the Commonwealth or upon any county, or other political subdivision of the Commonwealth.

(e) If the owner, lessee or occupier of any property to be condemned or otherwise acquired shall refuse to remove his property therefrom or give up possession thereof, the Authority may proceed to obtain possession in any manner provided by law.

(f) The Commonwealth, with the written approval of the Governor of Virginia first obtained, hereby consents to the use of any lands or property owned by the Commonwealth which are deemed by the Authority to be necessary for the construction or operation of the project. (1966, c. 288)

§ 6. Revenue bonds.

The Authority is hereby authorized to provide by resolution for the issuance, at one time or from time to time, of revenue bonds of the Authority for the purpose of paying all or any part of the cost of the project. The principal of and the interest on such bonds shall be payable solely from the funds herein

provided for such payment. The bonds of each issue shall be dated, shall bear interest at such rate or rates not exceeding six per centum (6%) per annum, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the Authority, and may be made redeemable before maturity at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form and the manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any other provision of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The Authority may sell such bonds in such manner, either at public or negotiated sale, and for such price, as it may determine will best effect the purposes of this act.

The proceeds of the bonds shall be used solely for the payment of the cost of the project, and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this act without obtaining the consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the

happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this act. (1966, c. 288)

§ 7. Trust agreement.

In the discretion of the Authority any bonds issued under the provisions of this act may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the Powers of a trust company within or without the Commonwealth. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the tolls and other revenues to be received, but shall not convey or mortgage the project or any part thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the project, the rates of toll or other charges to be charged, and the custody, safeguarding and application of all moneys. It shall be lawful for any bank or trust Company incorporated under the laws of the Commonwealth, which may act as depository of the proceeds of bonds or of revenues, to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the project. (1966, c. 288)

§ 8. Revenues.

The Authority is hereby authorized to fix, revise, charge and collect tolls or other charges for the use of the project and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right of way adjoining the airport for placing thereon telephone, telegraph, electric light or power lines, and to fix the terms, conditions, rents and rates of charges for such use. Such tolls or other charges shall be so fixed and adjusted in respect of the aggregate of tolls or other charges from the project as to provide a fund sufficient with other revenues, if any, to pay (a) the cost of maintaining, repairing and operating such project and (b) the principal of and interest on such bonds as the same shall become due and payable, and to create reserves for such purposes. The tolls and all other revenues derived from the project, except such part thereof as may be necessary to pay such cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the

payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the tolls and other revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. (1966, c. 288)

§ 9. Trust funds.

All moneys received pursuant to the provisions of this act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this act. (1966, c. 288)

§ 10. Remedies.

Any holder of bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given, may be restricted by such trust agreement, may either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust agreement or the resolution authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this act or by such agreement or resolution to be performed by the Authority or by any officer or agent thereof including the fixing, charging and collection of tolls or other charges. (1966, c. 288)

§ 11. Exemption from taxation.

The exercise of the powers granted by this act shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their safety, health, welfare, convenience and prosperity, and as the operation and maintenance of the project by the Authority will constitute the performance of essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon the project or any property acquired or used by the Authority under the provisions of this act or upon the income therefrom; and the bonds issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any municipality, county, or other political subdivision thereof. (1966, c. 288)

§ 12. Revenue refunding bonds.

The Authority is hereby authorized to provide by resolution for the issuance of its revenue refunding bonds for the purpose of refunding any bonds then outstanding which shall have been issued under the provisions of this act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Authority, for the additional purpose of constructing improvements, extensions or enlargements of the project. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same, shall be governed by the provisions of this act in so far as the same may be applicable. (1966, c. 288)

§ 13. Act liberally construed.

This act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purposes thereof. (1966, c. 288)

§ 14. Constitutional construction.

The provisions of this act are severable and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decisions of such court shall not affect or impair any of the remaining provisions of this act. It is hereby declared to be the legislative intent that this act would have been adopted had such unconstitutional provisions not been included therein. (1966, c. 288)

§ 15. Inconsistent laws inapplicable.

All other general or special laws inconsistent with any provisions of this act are hereby declared to be inapplicable to the provisions of this act. (1966, c. 288)

Mecklenburg-Brunswick Airport Commission

Created

1975 Acts of Assembly, c. 271 (includes Mecklenburg, La Crosse, Hill, Brunswick).

Amendments

1982, c. 42 (§§ 2, 7, 9)

§ 1. If the governing bodies of each of the counties of Mecklenburg and Brunswick, and the towns of South Hill and LaCrosse, or any two or more of them, shall by resolution declare that there is a need for an airport commission to be created for the purpose of establishing and operating one or more airports or landing fields for all such political subdivisions, an airport commission, to be known as "The Mecklenburg-Brunswick Airport Commission", shall thereupon exist for such counties and towns, and shall exercise its powers and functions therein.

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of The Mecklenburg-Brunswick Airport Commission, such commission shall be conclusively deemed to

have become created as a body corporate, and to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body of each of the counties and towns creating the airport commission declaring that there is need for such commission and that it unites with the other political subdivisions in its creation. A copy of such resolution duly certified by the clerk of the governing body of the county or town by which it is adopted, shall be admissible in evidence in any suit, action or proceeding. (1975, c. 271)

§ 2. The Mecklenburg-Brunswick Airport Commission, hereinafter referred to as the "Commission", shall consist of members from the participating counties and towns, the membership being composed of one member from the county of Mecklenburg, one from the town of LaCrosse, two from the town of South Hill, and three from the county of Brunswick, one of whom shall be a resident of the Town of Brodnax. Each member shall be appointed by the governing bodies thereof, except the Brunswick County member from the Town of Brodnax shall be appointed by the Brodnax town council. Original appointments of members shall be for terms as follows: From the county of Mecklenburg, one year; from the town of La Crosse, two years; from the county of Brunswick, one, two and three years; from the town of South Hill, two and four years. Thereafter all appointments shall be for four-year terms, except appointments to fill vacancies which shall be for the unexpired terms. The Brodnax member shall be appointed to the first Brunswick County vacancy arising after calendar year 1981.

The governing body appointing any member may remove such member at any time and appoint his successor. The Commission shall have power to elect its chairman, and to adopt rules and regulations for its own procedure and government. The members of the Commission so appointed shall constitute the Commission, and the powers of such Commission shall be vested in and exercised by the members in office from time to time. A majority of the members in office shall constitute a quorum. (1975, c. 271; 1982, c. 42)

§ 3. The Commission established hereunder shall have all powers necessary or convenient to carry out the general purposes of this act, including the following powers in addition to others herein granted:

- A. To sue and be sued; to adopt a seal and alter the same at pleasure; to have perpetual succession; and to make and execute contracts and other instruments necessary or convenient to the exercise of its powers.
- B. To employ such technical experts, and such other officers, agents and employees as it may require, and to fix their qualifications and duties, and their compensation within the limits of available funds.
- C. To accept gifts and make application for and receive grants from the State of Virginia or any political subdivision thereof, and from the United States and any of its agencies.

D. To acquire within the territorial limits of the region for which it is formed, by purchase, lease, gift, condemnation or otherwise, whatever land may be reasonably necessary for the purpose of establishing, constructing, enlarging, maintaining and operating one or more airports or landing fields.

E. To acquire, establish, construct, enlarge, improve, maintain, equip, operate and regulate the use of any airports, air landing fields, structures, air navigation facilities and other property incidental thereto, within the area for which it is created; provided, however, that no such airport shall be established or operated without the permission of the State Corporation Commission first had and obtained as now or hereafter provided by law.

F. To construct, install, maintain and operate facilities for the servicing of aircraft, and for the accommodation of cargo, freight, mail, express, etc., and comfort of air travelers, and to purchase and sell equipment and supplies as an incident to the operation of its airport facilities.

G. To determine rates and charges for the use of its airport and other facilities.

H. To enforce all rules, regulations and statutes relating to its airports, including airport zoning regulations

I. To exercise within its area such powers and authority with respect to airports and air navigation facilities as may be conferred by law upon the governing bodies of the counties and towns of the Commonwealth.

J. To make and enforce rules and regulations for the management and regulation of its business and affairs and for the use, maintenance and operation of its facilities and properties.

K. To engage directly or through its agents or employees in the operation for profit of concessions in connection with its airports or other facilities, including the sale of airplanes and aircraft fuel, or to grant such privileges and concessions to others.

L. To comply with the provisions of the laws of the United States and the Commonwealth of Virginia and any rules and regulations made thereunder for the expenditure of federal moneys in connection with airports, landing fields and air navigation facilities, and to accept, receive and receipt for federal moneys granted the commission, or granted any of the political subdivisions by which it is formed, for airport purposes. (1975, c. 271)

§ 4. The Commission established hereunder is hereby granted full power to exercise within its area the right of eminent domain in the acquisition of any lands, easements and privileges which are necessary for airport and landing field purposes, including the right to acquire, by eminent domain, aviation easements over lands or water outside the boundaries of its airport or landing fields where necessary or desirable in the interests of safety for aircraft to provide unobstructed air space for the landing and taking off of aircraft utilizing its airport and landing fields even though such aviation

easement be inconsistent with the continued use of such land for the same purposes for which it had been used prior to such acquisition, or inconsistent with the maintenance, preservation and renewal of any structure or any tree or other vegetation standing or growing on said land at the time of such acquisition; provided, however, such power of eminent domain shall not extend to the taking of any radio or television towers or installation in existence on the effective date of this act. Proceedings for the acquisition of such lands, easements and privileges by condemnation may be instituted and conducted in the name of the Commission, and the procedure shall be the same as in the acquisition of land by condemnation proceedings instituted by councils of counties and towns; provided, that the provisions of § 25-233 of the Code of Virginia, 1950, shall apply to any property owned by a corporation possessing the power of eminent domain that may be sought to be taken by condemnation. (1975, c. 271)

§ 5. The counties and towns for which the Commission is formed are hereby authorized to appropriate to the Commission from available funds, or from funds provided for the purpose by bond issues, such funds as may be necessary for the acquisition, constructing, maintenance and operation of airports, air landing fields and other air navigation facilities. The basis of financial participation by the counties and towns shall be determined by agreement between their governing bodies. (1975, c. 271)

§ 6. The Commission shall prepare annually and submit to the governing bodies of the respective counties and towns for which it is formed for their approval, a budget showing the estimated revenues it may reasonably expect to receive for such year, and its estimated expenses for all purposes for such period. After the approval of such budget the Commission shall be limited in its expenditures for such year to the estimated expenses shown therein, and shall not commit the participating subdivisions beyond appropriations actually made. If the estimated expenditures exceed the estimated revenue from the operation of the Commission for such year the governing bodies of the participating local subdivisions may appropriate, in any amount the particular county or town determines it can contribute, the funds necessary to supply the deficiency. If the actual revenue received shall be less than the estimated revenue as approved in the budget, the governing bodies of the participating local subdivisions may appropriate, in the same manner, the funds necessary to supply the deficiency. (1975, c. 271)

§ 7. If the funds received by the Commission in any year, including money appropriated for its use by the participating subdivisions, shall exceed its expenditures for such year, the surplus shall be set aside in a separate fund for capital improvements and extensions. Such fund shall be used for such purpose only with the approval of all the participating subdivisions. Whenever such surplus fund shall amount to \$100,000, any additional revenue received in any year in excess of operating costs shall be applied towards repaying the participating counties' and towns' contributions to the Commission in amounts proportionate to each county's and town's financial interest in the Commission. The financial interest of a county or town shall consist of the proportionate share of the total financial contributions,

including those made for capital outlay and for any other reason whatsoever, each participating county or town has made to the Commission. Thereafter any profits derived from the operations of the Commission shall be distributed to the participating subdivisions in proportion to their financial interest in the Commission. (1975, c. 271; 1982, c. 42)

§ 8. The Commission shall be an independent body corporate, invested with the rights, powers and authority and charged with the duties set forth in this act, and the political subdivisions by which it is created shall not be responsible for its acts. No pecuniary liability of any kind shall be imposed upon any county or town creating the Commission because of any act, agreement, contract, tort, malfeasance or misfeasance by or on the part of the Commission or any member thereof, or its agents, servants or employees, except as otherwise provided in this act with respect to contracts and agreements between the Commission and any such county or town. (1975, c. 271)

§ 9. Except in cases of emergency, all contracts of more than \$5,000 that the Commission may let for construction or materials shall be let after public advertising for at least thirty days, stating the place where bidders may examine the plans and specifications and the time and place where bids for such work or materials will be opened. Reasonable deposits may be required of all bidders, and the contract shall be let to the lowest responsible bidder, who shall give bond or other security for the faithful performance of the contract. (1975, c. 271; 1982, c. 42)

§ 10. No member, agent or employee of the Commission shall contract with the Commission or be interested, either directly or indirectly, in any contract with the Commission, or in the sale of any property to the Commission. (1975, c. 271)

§ 11. The Commission shall keep and preserve complete records of its operations, dealings and transactions, which records shall be open to inspection by the participating subdivisions at all times. It shall make reports to such subdivisions annually, and at such other times as they may require. (1975, c. 271)

§ 12. Any county or town creating the Commission may withdraw therefrom upon giving one year's notice to the Commission and to all other participating counties and towns. The political subdivision so withdrawing shall forfeit its rights to any further revenue from the operations of the Commission, and to the repayment of any of its financial interest in the Commission. The operations of the Commission may be discontinued at any time and its property disposed of by the unanimous action of all counties and towns participating therein at the time of the action, due regard being had for existing contracts and obligations. Upon the cessation of its activities all of the assets of the Commission shall be distributed to the counties and towns participating therein at the time of liquidation in the proportion equal to their financial interest in the Commission as defined in § 7 herein. (1975, c. 271)

§ 13. If any provision of this act, or the application thereof to any person or circumstances, is held invalid, the remainder of this act and the application of such provision to other persons or circumstances shall not be affected thereby. (1975, c. 271)

§ 14. Existing facilities.--The provisions of this act and all rules and regulations adopted hereunder shall not apply to any airport, air landing field, structure, air navigation facilities and other property incidental thereto, created or set aside for such purposes prior to the effective date of this act. (1975, c. 271)

§ 5.1-157. Authority rules and regulations; penalty

A. The Authority shall have the power to adopt, amend, and repeal rules and regulations pertaining to use, maintenance and operation of its facilities and governing the conduct of persons and organizations using its facilities.

3. Hold the public hearing on the day and at the time specified in such notice or any adjournment thereof, and hear persons appearing for or against such rule, regulation, alteration, amendment or modification.

E. The violation of any rule or regulation of the Authority establishing a noise limitation on aircraft that operate at the Authority Facilities shall subject the violator, in the discretion of the circuit court of any political subdivision where the facility is located, to a civil penalty not to exceed \$5,000 for each violation. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth of Virginia which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. The fees and other charges and all other revenues derived from the airports, except such part thereof as may be necessary to pay such cost of maintenance, repair and operation and provide such reserves as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. and other charges and other revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another.

The exclusive remedy for such breach of contracts and torts for which the Authority shall be liable, as herein provided, shall be by suit against the Authority. Nothing in this act shall be construed as a waiver by the Commonwealth of Virginia or the District of Columbia or of their political subdivisions of any immunity from suit.

C. The Authority shall be responsible for all executory contracts entered into by the United States with respect to the former Metropolitan Washington Airports before the date of acquisition of those airports, except that the procedure for disputes resolution contained in any such contract shall continue to govern the performance of the contract unless otherwise agreed to by the parties to the contract.

1. Make such rule, regulation, alteration, amendment or modification in convenient form available for public inspection in the office of the Authority for at least ten days; and
2. Post in a public place a notice declaring the board of directors' intention to consider adopting such rule, regulation, alteration, amendment or modification and informing the public that the Authority will at a public meeting consider the adoption of such rule or regulation or such alteration, amendment, or modification, on a day and at a time to be specified in the notice, after the expiration of at least ten days from the first day of the posting of the notice thereof. The Authority's rules and regulations shall be available for public inspection in the Authority's principal office.

The Authority's rules and regulations relating to: (i) traffic, including but not limited to motor vehicle speed limits and the location of and charges for public parking; (ii) access to Authority facilities, including but not limited to solicitation, handbilling, and picketing; and (iii) site management and maintenance shall have the force of law, as shall any other rule or regulation of the Authority, which

shall contain a determination by the Authority that it is necessary to accord the same force and effect of law in the interest of the public safety. However, with respect to motor vehicle traffic rules and regulations, the Authority shall obtain the approval of the appropriate official of the political subdivision in which such rules or regulations are to be enforced. The violation of any rule or regulation of the Authority relating to motor vehicle traffic shall be tried and punished in the same manner as if it had been committed on the public roads of the participating political subdivision in which such violation occurred. All other violations of the rules and regulations having the force of law shall be punishable as misdemeanors.

2002, c. [766](#).

§ 15.2-6609.Reports

The Authority shall keep minutes of its proceedings, which minutes shall be open to public inspection during normal business hours. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually by an independent certified public accountant. Copies of each such audit shall be furnished to each participating political subdivision and shall be open to public inspection.

2002, c. [766](#).

§ 15.2-6610.Procurement

All contracts that the Authority may let for professional services, nonprofessional services, or materials shall be subject to the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.).

2002, c. [766](#).

§ 15.2-6611.Deposit and investment of funds

Except as provided by contract with a participating political subdivision, all moneys received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this act. All moneys of the Authority shall be deposited as soon as practicable in a separate account or accounts in one or more banks or trust companies organized under the laws of the Commonwealth or national banking associations having their principal offices in the Commonwealth. Such deposits shall be continuously secured in accordance with the Virginia Security for Public Deposits Act (§ [2.2-4400](#) et seq.).

Funds of the Authority not needed for immediate use or disbursement may, subject to the provisions of any contract between the Authority and the holders of its bonds, be invested in securities that are considered lawful investments for fiduciaries.

2002, c. [766](#).

§ 15.2-6612.Authority to issue bonds

The Authority shall have the power to issue bonds from time to time in its discretion, for any of its purposes, including the payment of all or any part of the cost of Authority facilities and including the payment or retirement of bonds previously issued by it. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest: (i) from its revenues and receipts generally and (ii) exclusively from the revenues and receipts of certain designated facilities or loans whether or not they are financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, co-partnership, association, or individual, as such participating political subdivision, or other entities, may be authorized to make under general law or by pledge of any income or revenues of the Authority or by mortgage or encumbrance of any property or facilities of the Authority. Unless otherwise provided in the proceeding authorizing the issuance of the bonds, or in the trust indenture securing the same, all bonds shall be payable solely and exclusively from the revenues and receipts of a particular facility or loan. Bonds may be executed and delivered by the Authority at any time and from time to time may be in such form and denominations and of such terms and maturities, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times not exceeding 40 years from the date thereof, may be payable at such place or places whether within or without the Commonwealth, may bear interest at such rate or rates, may be payable at such time or times and at such places, may be evidenced in such manner, and may contain such provisions not inconsistent herewith, all as shall be provided and specified by the board of directors in authorizing each particular bond issue.

If deemed advisable by the board of directors, there may be retained in the proceedings under which any bonds of the Authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing herein contained shall be construed to confer on the Authority any right or option to redeem any bonds except as may be provided in the proceedings under which they shall be issued. Any bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the board of directors of the Authority to be most advantageous, and the Authority may pay all costs, premiums, and commissions that its board of directors may deem necessary or advantageous in connection with the issuance thereof. Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facility or any other facility, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount

as the board of directors may deem necessary, but not exceeding an amount sufficient to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon and any costs, premiums, or commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof to the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby, with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or on different dates or shall be due serially or otherwise.

All bonds shall be signed by the chairman or vice-chairman of the Authority or shall bear his facsimile signature, and the corporate seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the signature of the secretary (or the secretary-treasurer) or the assistant secretary (or assistant secretary-treasurer) of the Authority or shall bear his facsimile signature, and any coupons attached thereto shall bear the facsimile signature of said chairman. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be an officer before delivery of such bonds, such signature, or such facsimile, shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. When the signatures of both the chairman or the vice-chairman and the secretary (or the secretary-treasurer) or the assistant secretary (or the assistant secretary-treasurer) are facsimiles, the bonds must be authenticated by a corporate trustee or other authenticating agent approved by the Authority.

If the proceeds derived from a particular bond issue, due to error of estimates or otherwise, shall be less than the cost of the Authority facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall exceed such cost, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements, or enlargements of the Authority facilities for which such bonds shall have been issued.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds that shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this act without obtaining the consent of any department, division,

commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions, or things that are specifically required by this act; provided, however, that nothing contained in this act shall be construed as affecting the powers and duties now conferred by law upon the State Corporation Commission.

All bonds issued under the provisions of this act shall have and are hereby declared to have all the qualities and incidents of and shall be and are hereby made negotiable instruments under the Uniform Commercial Code of Virginia (§ [8.1A-101](#) et seq.), subject only to provisions respecting registration of the bonds.

In addition to all other powers granted to the Authority by this act, the Authority is authorized to provide for the issuance, from time to time of notes or other obligations of the Authority for any of its authorized purposes. All of the provisions of this act that relate to bonds or revenue bonds shall apply to such notes or other obligations insofar as such provisions may be appropriate.

2002, c. [766](#); 2003, c. [353](#).

§ 15.2-6613.Fees, rents, and charges

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents, and other charges for the use and services of any facilities or access site. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit

of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement.

2002, c. [766](#).

§ 15.2-6614.Credit of Commonwealth and political subdivisions not pledged

Bonds issued pursuant to the provisions of this act shall not be deemed to constitute a debt of the Commonwealth, or any political subdivision thereof other than the Authority, but such bonds shall be payable solely from the funds provided therefor as herein authorized. All such bonds shall contain on the face thereof a statement to the effect that neither the Commonwealth, nor any political subdivision thereof, nor the Authority, shall be obligated to pay the same or the interest thereon or other costs incident thereto except from the revenues and money pledged therefor and that neither the faith and credit nor the taxing power of the Commonwealth, or any political subdivision thereof, is pledged to the payment of the principal of such bonds or the interest thereon or other costs incident thereto.

All expenses incurred in carrying out the provisions of this act shall be payable solely from the funds of the Authority and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall be available to the Authority.

Bonds issued pursuant to the provisions of this act shall not constitute an indebtedness within the meaning of any debt limitation or restriction.

2002, c. [766](#).

§ 15.2-6615.Directors and persons executing bonds not liable thereon

Neither the board of directors nor any person executing the bonds shall be liable personally for the Authority's bonds by reasons of the issuance thereof.

2002, c. [766](#).

§ 15.2-6616.Security for payment of bonds; default

The principal of and interest on any bonds issued by the Authority shall be secured by a pledge of the revenues and receipts out of which the same shall be made payable, and may be secured by a trust indenture covering all or any part of the Authority facilities from which revenues or receipts so pledged may be derived, including any enlargements of any additions to any such projects thereafter made.

The resolution under which the bonds are authorized to be issued and any such trust indenture may contain any agreements and provisions respecting the maintenance of the projects covered thereby, the fixing and collection of rents for any portions thereof leased by the Authority to others, the creation and maintenance of special funds from such revenues and the rights and remedies available in the event of default, all as the board of directors shall deem advisable not in conflict with the provisions hereof. Each pledge, agreement, and trust indenture made for the benefit or security of any of the bonds of the Authority shall continue effective until the principal of and interest on the bonds for the

benefit of which the same were made shall have been fully paid. In the event of default in such payment or in any agreements of the Authority made as a part of the contract under which the bonds were issued, whether contained in the proceedings authorizing the bonds or in any trust indenture executed as security therefor, may be enforced by mandamus, suit, action, or proceeding at law or in equity to compel the Authority and the directors, officers, agents, or employees thereof to perform each and every term, provision and covenant contained in any trust indenture of the Authority, the appointment of a receiver in equity, or by foreclosure of any such trust indenture, or any one or more of said remedies.

2002, c. [766](#).

§ 15.2-6617.Taxation

The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project that the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act and the bonds issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations, and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted including, but not limited to, any leasehold tax on real property and taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling, and taxes upon consumers of gas, electricity, telephone, and other public utility services.

2002, c. [766](#).

§ 15.2-6618.Bonds as legal investments

Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital, in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.

2002, c. [766](#).

§ 15.2-6619.Appropriation by political subdivision

Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act (§ [15.2-2600](#) et seq.) or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority.

The Authority may agree to assume, or reimburse a participating political subdivision for any indebtedness incurred by, such participating political subdivision with respect to facilities conveyed by it to the Authority.

2002, c. [766](#).

§ 15.2-6620.Contracts with political subdivisions

The Authority is authorized to enter into contracts with any one or more political subdivisions.

2002, c. [766](#).

§ 15.2-6621.Agreement with Commonwealth and participating political subdivisions

The Commonwealth and, by participating in the Authority, each participating political subdivision, pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds.

2002, c. [766](#).

§ 15.2-6622.Liberal construction

Neither this act nor anything contained herein is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of the Commonwealth, and this act is cumulative to any such powers. This act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws.

2002, c. [766](#); 2015, c. [709](#).

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom.

2002, c. [766](#).

§ 15.2-6624.Existing contracts, leases, franchises, etc., not impaired

No provisions of this act shall relieve, impair, or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession, lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification.

2002, c. [766](#).

§ 15.2-6625.Withdrawal of membership

A copy of such resolution duly certified by the clerks of the counties and town by which it is adopted shall be admissible as evidence in any suit, action, or proceedings. § 9. Rules, regulations, and minimum standards.

The Authority shall have the power to adopt, amend, and repeal rules, regulations, and minimum standards, for the use, maintenance, and operation of its facilities and governing the conduct of persons and organizations using its facilities.

Unless the Authority shall by unanimous vote of the board of directors determine that an emergency exists, the Authority shall, prior to the adoption of any rule or regulation or alteration, amendment or modification thereof:

1. Make such rule, regulation, alteration, amendment or modification in convenient form available for public inspection in the office of the Authority for at least ten days; and
2. Post in a public place a notice declaring the board of directors' intention to consider adopting such rule, regulation, alteration, amendment or modification and informing the public that the Authority will at a public meeting consider the adoption of such rule or regulation or such alteration, amendment, or modification, on a day and at a time to be specified in the notice, after the expiration of at least ten days from the first day of the posting of the notice thereof. The Authority's rules and regulations shall be available for public inspection in the Authority's principal office.

The Authority's rules and regulations relating to: (i) traffic, including but not limited to motor vehicle speed limits and the location of and charges for public parking; (ii) access to Authority facilities, including but not limited to solicitation, handbilling, and picketing; and (iii) aircraft operation and maintenance shall have the force of law, as shall any other rule or regulation of the Authority which shall contain a determination by the Authority that it is necessary to accord the same force and effect of law in the interest of the public safety. However, with respect to motor vehicle traffic rules and regulations, the Authority shall obtain the approval of the appropriate official of the political subdivision in which such rules or regulations are to be enforced. The violation of any rule or regulation of the Authority relating to motor vehicle traffic shall be tried and punished in the same manner as if it had been committed on the public roads of the participating political subdivision in which such violation occurred. All other violations of the rules and regulations having the force of law shall be punishable as misdemeanors.

All ordinances, rules, regulations, and minimum standards duly adopted for the regulation, administration and operation of Middle Peninsula Regional Airport, in force at the effective date of this Act, shall remain in full force insofar as they or any part thereof are not inconsistent with the provisions of this Act until amended or repealed in accordance with this Act. (1997, c. [871](#))

§ 10. Eminent domain.

The Authority is hereby granted full power to exercise the right of eminent domain within the participating political subdivisions in the acquisition of any lands, easements, privileges, or other property interests which are necessary for airport purposes, including, where necessary to provide unobstructed air space for the landing and taking off of aircraft utilizing its airport, aviation easements over lands or water outside the boundaries of its airport, even though such aviation easement may be either inconsistent with the continued use of such land for the same purposes for which it had been used prior to such acquisition, or inconsistent with the maintenance, preservation, and renewal of any structure or any tree or other vegetation standing or growing on said land at the time of such acquisition. Proceedings for the acquisition of such land, easements, and privileges by condemnation may be instituted and conducted in the name of the Authority in accordance with Title 25 of the Code of Virginia. (1997, c. [871](#))

§ 11. Reports.

The Authority shall keep minutes of its proceedings, which minutes shall be open to public inspection during normal business hours. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually by an independent certified public accountant. Copies of each such audit shall be furnished to each participating political subdivision and shall be open to public inspection. (1997, c. [871](#))

§ 12. Procurement.

All contracts that the Authority may let for professional services, nonprofessional services, or materials shall be subject to the Virginia Public Procurement Act (§ [11-35](#) et seq) of the Code of Virginia. (1997, c. [871](#))

§ 13. Deposit and investment of funds.

Except as provided by contract with a participating political subdivision, all moneys received pursuant to the authority of this Act, whether as proceeds from the sale of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this Act. All moneys of the Authority shall be deposited as soon as practicable in a separate account or accounts in one or more banks or trust companies organized under the laws of the Commonwealth or national banking associations having their principal offices in the Commonwealth. Such deposits shall be continuously secured in accordance with the Virginia Security for Public Deposits Act (§ [2.1-359](#) et seq).

Funds of the Authority not needed for immediate use or disbursement may, subject to the provisions of any contract between the Authority and the holders of its bonds, be invested in securities which are considered lawful investments for fiduciaries. (1997, c. [871](#))

§ 14. Authority to issue bonds.

The Authority shall have the power to issue bonds from time to time in its discretion, for any of its purposes, including the payment of all or any part of the cost of Authority facilities and including the

payment or retirement of bonds previously issued by it. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest: (i) from its revenues and receipts generally and (ii) exclusively from the revenues and receipts of certain designated facilities or loans whether or not they are financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, and federal agency or any unit, private corporation, co-partnership, association, or individual, as such participating political subdivision, or other entities may be authorized to make under general law or by pledge of any income or revenues of the Authority or by mortgage or encumbrance of any property or facilities of the Authority. Unless otherwise provided in the proceeding authorizing the issuance of the bonds, or in the trust indenture securing the same, all bonds shall be payable solely and exclusively from the revenues and receipts of a particular facility or loan. Bonds may be executed and delivered by the Authority at any time and from time to time, may be in such form and denominations and of such terms and maturities, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times not exceeding forty years from the date thereof, may be payable at such place or places whether within or without the Commonwealth, may bear interest at such rate or rates, may be payable at such time or times and at such places, may be evidenced in such manner, and may contain such provisions not inconsistent herewith, all as shall be provided and specified by the board of directors in authorizing each particular bond issue.

If deemed advisable by the board of directors, there may be retained in the proceedings under which any bonds of the Authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing herein contained shall be construed to confer on the Authority any right or option to redeem any bonds except as may be provided in the proceedings under which they shall be issued. Any bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the board of directors of the Authority to be most advantageous, and the Authority may pay all costs, premiums, and commissions which its board of directors may deem necessary or advantageous in connection with the issuance thereof. Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facility or any other facility, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount as the board of directors may deem necessary, but not exceeding an amount sufficient to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon and any costs,

premiums, or commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof to the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby, with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or on different dates or shall be due serially or otherwise.

All bonds shall be signed by the chairman or vice-chairman of the Authority or shall bear his facsimile signature, and the corporate seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the signature of the secretary (or the secretary-treasurer) or the assistant secretary (or assistant secretary-treasurer) of the Authority or shall bear his facsimile signature, and any coupons attached thereto shall bear the facsimile signature of said chairman. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be an officer before delivery of such bonds, such signature, or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. When the signatures of both the chairman or the vice-chairman and the secretary (or the secretary-treasurer) or the assistant secretary (or the assistant secretary-treasurer) are facsimiles, the bonds must be authenticated by a corporate trustee or other authenticating agent approved by the Authority.

If the proceeds derived from a particular bond issue, due to error of estimates or otherwise, shall be less than the cost of the Authority facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall exceed such cost, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements, or enlargements of the Authority facilities for which such bonds shall have been issued.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this Act without obtaining the consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions, or things

which are specifically required by this Act; provided, however, that nothing contained in this Act shall be construed as affecting the powers and duties now conferred by law upon the State Corporation Commission.

All bonds issued under the provisions of this Act shall have and are hereby declared to have all the qualities and incidents of and shall be and are hereby made negotiable instruments under the Uniform Commercial Code of Virginia (§ 8.1-101 et seq), subject only to provisions respecting registration of the bonds.

In addition to all other powers granted to the Authority by this Act, the Authority is authorized to provide for the issuance, from time to time of notes or other obligations of the Authority for any of its authorized purposes. All of the provisions of this Act which relate to bonds or revenue bonds shall apply to such notes or other obligations insofar as such provisions may be appropriate. (1997, c. [871](#))

§ 15. Fees, rents, and charges.

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents, and other charges for the use and services of any facilities. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary, be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. (1997, c. [871](#))

§ 16. Credit of Commonwealth and political subdivisions not pledged.

Bonds issued pursuant to the provisions of this Act shall not be deemed to constitute a debt of the Commonwealth, or any political subdivision thereof other than the Authority, but such bonds shall be payable solely from the funds provided therefor as herein authorized. All such bonds shall contain on the face thereof a statement to the effect that neither the Commonwealth, nor any political subdivision thereof, nor the Authority shall be obligated to pay the same or the interest thereon or other costs incident thereto except from the revenues and money pledged therefor and that neither the faith and credit nor the taxing power of the Commonwealth, or any political subdivision thereof, is pledged to the payment of the principal of such bonds or the interest thereon or other costs incident thereto.

All expenses incurred in carrying out the provisions of this Act shall be payable solely from the funds of the Authority and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall be available to the Authority.

Bonds issued pursuant to the provisions of this Act shall not constitute an indebtedness within the meaning of any debt limitation or restriction. (1997, c. [871](#))

§ 17. Directors and persons executing bonds not liable thereon.

Neither the board of directors nor any person executing the bonds shall be liable personally on the Authority's bonds by reasons of the issuance thereof. (1997, c. [871](#))

§ 18. Security for payment of bonds; default.

The principal of and interest on any bonds issued by the Authority shall be secured by a pledge of the revenues and receipts out of which the same shall be made payable, and may be secured by a trust indenture covering all or any part of the Authority facilities from which revenues or receipts so pledged may be derived, including any enlargements of any additions to any such projects thereafter made.

The resolution under which the bonds are authorized to be issued and any such trust indenture may contain any agreements and provisions respecting the maintenance of the projects covered thereby, the fixing and collection of rents for any portions thereof leased by the Authority to others, the creation and maintenance of special funds from such revenues and the rights and remedies available in the event of default, all as the board of directors shall deem advisable not in conflict with the provisions hereof. Each pledge, agreement, and trust indenture made for the benefit or security of any of the bonds of the Authority shall continue effective until the principal of and interest on the bonds for the benefit of which the same were made shall have been fully paid. In the event of default in such payment or in any agreements of the Authority made as a part of the contract under which the bonds were issued, whether contained in the proceedings authorizing the bonds or in any trust indenture executed as security therefor, may be enforced by mandamus, suit, action, or proceeding at law or in equity to compel the Authority and the directors, officers, agents, or employees thereof to perform each and every term, provision and covenant contained in any trust indenture of the Authority, the appointment of a receiver in equity, or by foreclosure of any such trust indenture, or any one or more of said remedies. (1997, c. [871](#))

§ 19. Taxation.

The exercise of the powers granted by this Act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project which the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this Act and the bonds issued under the provisions of this Act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations, and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted including, but not limited to, any leasehold tax on real property and taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling, and taxes upon consumers of gas, electricity, telephone, and other public utility services. (1997, c. [871](#))

§ 20. Bonds as legal investments.

Bonds issued by the Authority under the provisions of this Act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law. (1997, c. [871](#))

§ 21. Appropriation by political subdivision.

Any participating political subdivision, or other political subdivision of the Commonwealth, is authorized to provide services, to donate real or personal property and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act (§ 15.1-227.1 et seq) or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority.

The Authority may agree to assume, or reimburse a participating political subdivision for any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Authority. (1997, c. [871](#))

§ 22. Contracts with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions. (1997, c. [871](#))

§ 23. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds. (1997, c. [871](#))

§ 24. Liberal construction.

Neither this Act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers which the Authority might otherwise have under any laws of the Commonwealth, and this Act is cumulative to any such powers. This Act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act. (1997, c. [871](#))

§ 25. Application of local ordinances, service charges, and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom. (1997, c. [871](#))

§ 26. Existing contracts, leases, franchises, etc., not impaired.

No provisions of this Act shall relieve, impair, or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provision of this

section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession, lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification. (1997, c. [871](#))

§ 27. Withdrawal of membership.

Any member jurisdiction may withdraw from membership in the Authority by resolution or ordinance of its governing body; however, no member jurisdiction shall be permitted to withdraw from the Authority after any obligation has been incurred except by unanimous vote of all member jurisdictions. (1997, c. [871](#))

Proceedings for the acquisition of such lands, easements and privileges by condemnation may be instituted and conducted in the name of such county, city or town, and the procedure shall be mutatis mutandis the same as in the acquisition of land by condemnation proceedings instituted by railroads and may acquire in like manner, for a term of years or perpetually, the right of easement to remove and control the growth of any tree or vegetation standing or growing in said land outside the boundaries of any airport or landing field and the right of easement to place and maintain suitable signs or markers or lights to adequately locate and mark objects or structures that are hazardous to aircraft using such airports or landing fields, of ingress and egress to and from such airport hazards for the purpose of maintaining and repairing such signs, markers and lights and cutting of trees or other growing vegetation penetrating the approach and departure slope easement. The right of condemnation granted herein shall be subject to the same provisions as are provided in § [25.1-102](#) concerning the condemnation of property belonging to a corporation possessing the power of eminent domain by another public service corporation.

§ 1. Short title.

This may be cited as the "Virginia Naval Museum Authority Act." (1975, c. 488)

§ 2. Virginia Naval Museum Authority.

There is hereby created and constituted a political subdivision of the Commonwealth to be known as the Virginia Naval Museum Authority. The exercise by the Authority of the powers conferred by this act in the construction, operation and maintenance of a project authorized by this act shall be deemed and held to be the performance of an essential governmental function.

The Authority shall consist of the nine members, three of whom shall be appointed by the Speaker of the House of Delegates from the membership of the House of Delegates, two of whom shall be appointed by the Committee on Privileges and Elections of the Senate from the membership of the Senate, and four of whom shall be appointed by the Governor. At least three of those appointed by the Governor shall be residents of the city of Newport News. All vacancies in the membership of the Authority, whether caused by expiration of term of office, death, resignation, or otherwise, shall be filled in the same manner in which the position was originally filled. The legislative members of the Authority shall serve for terms concurrent with the terms for which they have been elected to office. The terms of those members appointed by the Governor shall be for four years each. Any member of the Authority may be appointed to succeed himself. All members, duly appointed, shall hold office until his or her successor shall be appointed and duly qualified. Any member, appointed to fill an unexpired term, shall serve only for the term of the member he or she replaced.

The members shall elect a chairman and vice-chairman of the Authority to serve for such terms as the membership shall decide. The Authority shall also elect a secretary and treasurer who does not necessarily have to be a member of the Authority and, if not a member, he or she shall have no voting rights and shall be elected to serve for such term as may be determined by the Authority. If a member of the Authority is elected to serve as secretary and treasurer he or she shall be elected in the same manner and for the same term as the chairman and vice-chairman. No member of the Authority shall hold more than one office except that of secretary and treasurer. Five members of the Authority eligible to vote shall constitute a quorum. A majority of the quorum is empowered to exercise all the rights and perform all the duties of the Authority and no vacancy on the Authority shall impair the right of the quorum to act. The members of the Authority shall serve without compensation except that they shall be reimbursed for actual expenses incurred in the performance of their duties. The Authority shall make rules and regulations for its own government. It shall have perpetual existence. The Authority shall meet as soon as possible after the effective date of this act, and thereafter as often as necessary to perform its purpose as defined under this act, but shall in no event meet less than once in a twelve month period. (1975, c. 488)

§ 6. Revenue bonds.

The Authority is hereby authorized to provide by resolution for the issuance, at one time or from time to time, of revenue bonds of the Authority for the purpose of paying all or any part of the cost of the project. The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment. The bonds of each issue shall be dated, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form and the manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bond and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any other provision of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The Authority may sell such bonds

in such manner, either at public or negotiated sale, and for such price, as it may determine will best effect the purposes of this act.

The proceeds of the bonds shall be used solely for the payment of the cost of the project, and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this act without obtaining the consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this act. (1975, c. 488)

§ 7. Trust agreement.

In the discretion of the Authority any bonds issued under the provisions of this act may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the tolls and other revenues to be received, but shall not convey or mortgage the project or any part thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the project, the rates of toll or other charges to be charged, and the custody, safeguarding and application of all moneys. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depositary of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In

addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the project. (1975, c. 488)

§ 8. Revenues.

The Authority is hereby authorized to fix, revise, charge and collect tolls or other charges for the use of and admission to the project and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right-of-way adjoining the project for placing thereon telephone, telegraph, electric light or power lines, and to fix the terms, conditions, rents and rates of charges for such use. Such tolls or other charges shall be so fixed and adjusted in respect of the aggregate of tolls or other charges from the project as to provide a fund sufficient with other revenues, if any, to pay (a) the cost of maintaining, repairing and operating such project and (b) the principal of and interest on such bonds as the same shall become due and payable, and to create reserves for such purposes. The tolls and all other revenues derived from the project, except such part thereof as may be necessary to pay such cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the tolls and other revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution or any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. (1975, c. 488)

§ 9. Trust funds.

All moneys received pursuant to the provisions of this act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this act. The Authority shall, in the resolution authorizing the bonds or in the trust agreement securing such bonds, provide for the payment of the proceeds of the sale of the bonds and the revenues to be

received by a trustee, which shall be any trust company or bank having the powers of a trust company within or without the Commonwealth, which shall act as trustee of the funds, and hold and apply the same to the purposes of this act, subject to such regulations as this act and such resolution or trust agreement may provide. The trustee may invest and reinvest such funds in such securities as may be provided in the resolution authorizing the bonds or in the trust agreement securing such bonds. (1975, c. 488)

§ 10. Remedies.

Any holder of bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given, may be restricted by such trust agreement, may either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust agreement or the resolution authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this act or by such agreement or resolution to be performed by the Authority or by any officer or agent thereof including the fixing, charging and collection of tolls or other charges. (1975, c. 488)

§ 11. Exemption from taxation.

The exercise of the powers granted by this act shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their safety, health, welfare, convenience and prosperity, and as the operation and maintenance of the project by the Authority will constitute the performance of essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon the project or any property acquired or used by the Authority under the provisions of this act or upon the income therefrom; and the bonds issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any municipality, county or other political subdivision thereof. (1975, c. 488)

§ 12. Revenue refunding bonds.

The Authority is hereby authorized to provide by resolution for the issuance of its revenue refunding bonds for the purpose of refunding any bonds then outstanding which shall have been issued under the provisions of this act, including the payment of any redemption premium thereon and any interest accrued to or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Authority, for the additional purpose of constructing improvements, extensions or enlargements of the project. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same, shall be governed by the provisions of this act insofar as the same may be applicable. (1975, c. 488)

§ 13. Purpose of the Authority.

(1975, c. 488)

§ 18. Inconsistent laws inapplicable.

Created

2010 Acts of Assembly, c. [638](#); memorandum of understanding signed by Towns of Blacksburg and Christiansburg, County of Montgomery, Virginia Tech, November 2010.

Amendments

2018, cc. [472](#), [473](#) (§§ 3, 20, 28, 29)

§ 1. Title.

This Act shall be known and may be cited as the New River Valley Emergency Communications Regional Authority Act. (2010, c. [638](#))

§ 2. Creation; public purpose.

If the governing bodies of the Towns of Blacksburg and Christiansburg, the County of Montgomery, and the Board of Visitors for Virginia Polytechnic Institute and State University (Virginia Tech) by resolution support the formation of a regional authority to provide 911 dispatch and emergency communications services to the people of each jurisdiction and campus, an authority known as the New River Valley Emergency Communications Regional Authority Act (hereinafter the Authority) shall thereupon exist for such participating entities and shall exercise its powers and functions as prescribed herein.

In any suit, action, or proceeding relating to or involving the validity or enforcement of any contract of the Authority, the Authority shall be deemed to have been created as a political subdivision and body corporate and to have been established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution as aforesaid by the governing bodies of such towns, county, and university supporting the formation of such Authority. A copy of such resolution duly certified by the clerk or secretary of the governing body of the towns, county, and university by which it is adopted shall be admissible as evidence in any suit, action, or proceedings. Any political subdivision of the Commonwealth is authorized to join such Authority pursuant to the terms and conditions of this Act.

The ownership and operation by the Authority of emergency communications services and the exercise of powers conferred by this Act are proper and essential governmental functions and public purposes and matters of public necessity for which public moneys may be spent and private property acquired through the power of eminent domain as hereinafter provided. The purposes of such Authority shall be to develop a consolidated system for the receipt of and response to 911 emergency calls and communications that will improve response time, quality of service, and coordination of available resources for the citizens of the affected localities.

The Authority and its members, officers, employees, and agents shall all enjoy sovereign immunity for torts committed in exercise of its governmental and proprietary functions. Nothing in this Act shall be construed as a waiver of the sovereign immunity enjoyed by any of the participating political subdivisions.

The courts of the Commonwealth of Virginia shall have original jurisdiction of all actions brought by or against the Authority, which courts shall in all cases apply the law of the Commonwealth of Virginia. (2010, c. [638](#))

§ 4. Participating political subdivision.

At the time of creation of the Authority, each participating political subdivision shall have entered or shall enter into a memorandum of understanding by and among each of the participating political subdivisions setting forth the terms and conditions of the intended formation of the Authority.

No pecuniary liability of any kind shall be imposed upon any participating political subdivision because of any act, omission, agreement, contract, tort, malfeasance, misfeasance, or nonfeasance by or on the part of the Authority or any member thereof, or its agents, servants, or employees, except as otherwise provided in this Act with respect to contracts and agreements between the Authority and any other political subdivision. (2010, c. [638](#))

§ 5. Joinder.

Membership in the Authority may be expanded only in accordance with the terms of a joinder agreement adopted by the governing bodies of all participating political subdivisions. Only another political subdivision may become a participating political subdivision of the Authority. The governing body of any locality wishing to become a member of the Authority shall by concurrent resolutions or ordinances and by agreement provide for the joinder of such locality. The agreement creating the expanded Authority shall specify the number and terms of office of members of the Board of the expanded Authority that are to be appointed by each of the participating political subdivisions and the names, addresses, and terms of office of initial appointments to Board membership. (2010, c. [638](#))

§ 6. Appointment of members of the Board.

The powers of the Authority shall be vested in the members of the Board. The Board shall consist of five persons. Each participating political subdivision shall have the right to appoint one member of the Board and all participating political subdivisions shall jointly appoint the fifth member of the Board by unanimous approval of the participating political subdivisions. Each member of the Board shall be appointed for a term of four years, except that the initial members of the Board representing the participating political subdivisions shall be appointed for the following staggered terms to be selected by lot by the members of the Board at its initial meeting: one member shall be appointed for a term of one year; one member shall be appointed for a term of two years; one member shall be appointed for a term of three years; and one member shall be appointed for a term of four years. The jointly appointed member shall be appointed for an initial term of four years. Upon the expiration of the original term of office of a member of the Board, that member may continue to exercise all powers as a member of the Board until that person's successor is duly appointed and qualified.

Any vacancy in the membership of the Board other than by expiration of term shall be filled by the governing body that appointed the member or, in the case of the jointly appointed member, by approval of the governing bodies. The person appointed to fill such vacancy shall serve for the unexpired term only. Each participating political subdivision shall have the absolute right to remove its appointee to the Board, with or without cause, at any time. The participating political subdivisions shall have the absolute right to remove their joint appointee to the Board, with or without cause, at any time by resolution adopted by a majority of the governing bodies of the participating political subdivisions. Except as may be prohibited by the Constitution of Virginia, members of the Board may

include elected or appointed officials, employees, managers, administrators, or officers of any participating political subdivision.

Each member of the Board may be reimbursed by the Authority for the amount of actual expenses incurred by him in the performance of his duties in addition to such other salary or benefit, or both, to be determined by the Authority. (2010, c. [638](#))

§ 7. Organization.

A majority of the members of the Board shall constitute a quorum, and the vote of a majority of members of the Board shall be necessary for any action taken by the Board. Each member of the Board shall be entitled to one vote except as otherwise set forth herein. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all the duties of the Authority. The Board shall elect from its membership a chairman, vice-chairman, and secretary-treasurer of the Board, such officers to serve in these capacities for terms of two years, except that an initial member of the Board whose term on the Board is for one year may be elected to serve in such capacity for a term of one year and if reappointed to the Board may thereupon be reelected to the Board to serve in such capacity.

The Authority shall hold regular meetings at such times and places as may be established by its bylaws.

The Board may make and from time to time amend and repeal bylaws, not inconsistent with this Act, governing the manner in which the Authority's business may be transacted and in which the power granted to it may be enjoyed. The Board may appoint such committees as it may deem advisable and fix the duties and responsibilities of such committees. (2010, c. [638](#))

§ 8. Powers.

The Authority is hereby granted all powers necessary or appropriate to carry out the purposes of this Act, including the powers to:

1. Adopt bylaws for the regulation of its affairs and the conduct of its business;

3. Have perpetual succession;

To this end the Authority shall have the power to render such services, comply with such conditions, and execute such agreements and legal instruments as may be necessary, convenient, or desirable or imposed as a condition to such financial aid, loans, grants, or other assistance;
9. Appoint, employ, or engage such officers, employees, architects, engineers, attorneys, accountants, financial advisors, investment bankers, and other advisors, consultants, and agents as may be necessary or appropriate and fix their duties and compensation;
10. Establish personnel rules;

12. Sell, lease, grant options upon, exchange, transfer, assign, or otherwise dispose of any property, real or personal, or any interest therein;
13. Make, assume, and enter into all contracts, leases, and arrangements necessary or incidental to the exercise of its powers, including contracts for the management or operation of all or any part of its facilities;
14. Adopt, amend, and repeal rules and regulations for the use, maintenance, and operation of its facilities and governing the conduct of persons and organizations using its facilities and to enforce such rules and regulations and all other rules, regulations, ordinances, and statutes relating to its facilities;
15. Purchase and maintain insurance and provide indemnification on behalf of any person who is or was a director, officer, employee, or agent of the Authority against any liability asserted against or incurred by him in any such capacity or arising out of his status as such;
16. Place a lien upon any or all of its property or otherwise secure its debts; and
17. Do all things necessary or convenient to the purposes of this Act. (2010, c. [638](#))

§ 9. Rules, regulations, and minimum standards.

The Authority shall have the power to adopt, amend, and repeal rules, regulations, and minimum standards for the use, maintenance, and operation of its facilities and governing the conduct of persons and organizations using its facilities.

The Authority's rules and regulations shall be available for public inspection in the Authority's principal office.

The Authority's rules and regulations shall have the force of law, as shall any other rule or regulation of the Authority that shall contain a determination by the Authority that it is necessary to accord the same force and effect of law in the interest of the public safety. (2010, c. [638](#))

§ 10. Reports.

The Authority shall keep minutes of its proceedings, which shall be open to public inspection during normal business hours. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually by an independent certified public accountant. Copies of each such audit shall be furnished to each participating political subdivision and shall be open to public inspection. The Authority shall be deemed a local governmental agency subject to the requirements of the State and Local Government Conflict of Interests Act (§ [2.2-3100](#) et seq.) of the Code of Virginia. (2010, c. [638](#))

§ 11. Procurement.

All contracts that the Authority may let for professional services, nonprofessional services, or materials shall be subject to the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.) of the Code of Virginia. (2010, c. [638](#))

§ 12. Deposit and investment of funds.

Except as provided by contract with a participating political subdivision, all moneys received pursuant to the authority of this Act, whether as proceeds from the sale of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this Act. All moneys of the Authority shall be deposited in a qualified public depository and secured in accordance with the Virginia Security for Public Deposits Act (§ [2.2-4400](#) et seq.) of the Code of Virginia.

Funds of the Authority not needed for immediate use or disbursement may, subject to the provisions of any contract between the Authority and the holders of its bonds, be invested in securities that are considered lawful investments for public sinking funds or other public funds as set forth in the Investment of Public Funds Act (§ [2.2-4500](#) et seq.) of the Code of Virginia. (2010, c. [638](#))

§ 13. Authority to issue bonds.

The Authority shall have the power to issue bonds in its discretion, for any of its purposes, including the payment of all or any part of the cost of Authority facilities and including the payment or retirement of bonds previously issued by it. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and

interest (i) from its revenues and receipts generally and (ii) exclusively from the revenues and receipts of certain designated facilities or loans, whether or not they are financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth, or any political subdivision, agency, or instrumentality thereof; any federal agency; or any unit, private corporation, copartnership, association, or individual as such participating political subdivision or other entities may be authorized to make under general law or by pledge of any income or revenues of the Authority or by mortgage or encumbrance of any property or facilities of the Authority. Unless otherwise provided in the proceeding authorizing the issuance of the bonds or in the trust indenture or agreement securing the same, all bonds shall be payable solely and exclusively from the revenues and receipts of a particular facility or loan. Bonds may be executed and delivered by the Authority at any time and from time to time, may be in such form and denominations and of such terms and maturities, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times not exceeding 40 years from the date thereof, may be payable at such place or places whether within or without the Commonwealth, may bear interest at such rate or rates, may be payable at such time or times and at such places, may be evidenced in such manner, and may contain such provisions not inconsistent herewith, all as shall be provided and specified by the Authority in authorizing each particular bond issue.

If deemed advisable by the Authority, there may be retained in the proceedings under which any bonds of the Authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing herein contained shall be construed to confer on the Authority any right or option to redeem any bonds except as may be provided in the proceedings under which they shall be issued. Any bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the Authority to be most advantageous and the Authority may pay all costs, premiums, and commissions that it may deem necessary or advantageous in connection with the issuance thereof. Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facility or any other facility, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount as the Authority may deem necessary, but not exceeding an amount sufficient to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon and any costs, premiums, or commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the

proceeds thereof to the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby, with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or on different dates or shall be due serially or otherwise.

All bonds shall be signed by the chairman or vice-chairman of the Authority or shall bear his facsimile signature, and the corporate seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the signature of the secretary (or the secretary-treasurer) or the assistant secretary (or assistant secretary-treasurer) of the Authority or shall bear his facsimile signature, and any coupons attached thereto shall bear the facsimile signature of said chairman. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be an officer before delivery of such bonds, such signature, or such facsimile, shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. When the signatures of both the chairman or the vice-chairman and the secretary (or secretary-treasurer) or the assistant secretary (or the assistant secretary-treasurer) are facsimiles, the bonds must be authenticated by a corporate trustee or other authenticating agent approved by the Authority.

If the proceeds derived from a particular bond issue, due to error of estimates or otherwise, shall be less than the cost of the Authority facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall except such cost, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements, or enlargements of the Authority facilities for which such bonds shall have been issued.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds that shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this Act without obtaining the consent of any department, division, commission, board, bureau, or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions, or things that are specifically required by this Act; provided that nothing contained in this Act shall be construed as affecting the powers and duties now conferred by law upon the State Corporation Commission.

All bonds issued under the provisions of this Act shall have and are hereby declared to have all the qualities and incidents of and shall be and are hereby made negotiable instruments under the Uniform Commercial Code (§ [8.1A-101](#) et seq.) of the Code of Virginia, subject only to provisions respecting registration of the bonds.

In addition to all other powers granted to the Authority by this Act, the Authority is authorized to provide for the issuance from time to time of notes or other obligations of the Authority for any of its authorized purposes. All of the provisions of this Act that relate to bonds shall apply to such notes or other obligations insofar as such provisions may be appropriate. (2010, c. [638](#))

§ 14. Credit of Commonwealth and political subdivisions not pledged.

Bonds issued pursuant to the provisions of this Act shall not be deemed to constitute a debt of the Commonwealth or any political subdivision thereof other than the Authority, but such bonds shall be payable solely from the funds provided therefore as herein authorized. All such bonds shall contain on the face thereof a statement to the effect that neither the Commonwealth, nor any political subdivision thereof, nor the Authority, except as may be otherwise stated, shall be obligated to pay the same or the interest thereon or other costs incident thereto except from the revenues and money pledged therefore and that neither the faith and credit nor the taxing power of the Commonwealth, nor any political subdivision thereof, is pledged to the payment of the principal of such bonds or the interest thereon or other costs incident thereto.

Bonds issued pursuant to the provisions of this Act shall not constitute indebtedness within the meaning of any debt limitation or restriction. (2010, c. [638](#))

§ 15. Members of the Board and persons executing bonds not liable thereon.

Neither the members of the Board nor any person executing the bonds shall be liable personally on the Authority's bonds by reasons of the issuance thereof. (2010, c. [638](#))

§ 16. Security for payment of bonds; default.

The principal of and interest on any bonds issued by the Authority may be secured by a pledge of the revenues and receipts out of which the same shall be made payable, and may be secured by a trust indenture or agreement covering all or any part of the Authority facilities from which revenues or receipts so pledged may be derived, including any enlargements or any additions to any such projects thereafter made. The resolution under which the bonds are authorized to be issued and any such trust indenture or agreement may contain any agreements and provisions respecting the maintenance of the projects covered thereby, the fixing and collection of rents for any portions thereof leased by the Authority to others, the creation and maintenance of special funds from such revenues, and the rights and remedies available in the event of default, all as the Authority shall deem advisable not in conflict with the provisions hereof. Each pledge, agreement, and trust indenture made for the benefit or security of any of the bonds of the Authority shall continue to be effective until the principal of and

interest on the bonds for the benefit of which the same were made shall have been fully paid. In the event of default in such payment or in any agreements of the Authority made as a part of the contract under which the bonds were issued, whether contained in the proceeding authorizing the bonds or in any trust indenture or agreement executed as security therefor, may be enforced by mandamus, suit, action, or proceeding at law or in equity to compel the Authority and the members, officers, agents, or employees thereof to perform each and every term, provision, and covenant contained in any trust indenture or agreement of the Authority, the appointment of a receiver in equity, or by foreclosure of any such trust indenture, or any one or more of said remedies. (2010, c. [638](#))

§ 17. Taxation.

The exercise of the powers granted by this Act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience, and prosperity, and as the operation and maintenance of any project that the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this Act and the bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the same thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. (2010, c. [638](#))

§ 18. Bonds as legal investments.

Bonds issued by the Authority under the provisions of this Act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law. (2010, c. [638](#))

§ 19. Appropriation by political subdivision.

Any participating political subdivision or other political subdivision of the Commonwealth is authorized to provide services, to donate real or personal property, and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including, but not limited to, general obligation bonds, in the manner provided in the Public Finance Act (§ [15.2-2600](#) et seq.) of the Code of Virginia or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority.

The Authority may agree to assume or reimburse a participating political subdivision for any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Authority. (2010, c. [638](#))

§ 20. Annual budget.

A. The Board shall have full authority to adopt its annual budget on an annual fiscal year (July 1 through June 30) basis and to amend the same from time to time.

B. The Board shall have the full authority to develop and adopt a formula for allocating to the participating political subdivisions the responsibility to pay for the annual budget. Such allocation formula shall be presented to the participating political subdivisions on or before February 1, 2019. The participating political subdivisions shall consider and make a decision as to the approval of the allocation formula on or before May 1, 2019. If each of the participating political subdivisions approves the allocation formula, each shall pay its annual contribution as allocated by the formula. If all participating political subdivisions do not approve the allocation formula by July 1, 2019, each participating political subdivision's annual contribution shall be equal to the Authority's annual budget for fiscal year 2019 divided by the number of participating political subdivisions and shall continue to be so calculated for each fiscal year thereafter unless and until an allocation formula is approved by each participating political subdivision. Once approved by each participating political subdivision, the Board shall use the allocation formula to determine each political subdivision's annual contribution. The Board shall have full authority to amend the allocation formula, but any amendment shall be submitted to each participating political subdivision on or before the next February 1 after the amendment is adopted by the Board and shall be approved by each political subdivision by the May 1 preceding the fiscal year in which the amendment is to go into effect.

C. Each participating political subdivision shall contribute its annual contribution each year and otherwise as required; however, such obligation shall be subject to and dependent upon annual appropriations being made from time to time by the governing body of each such respective participating political subdivision, and as to the university by normal approval of appropriations, and shall not be deemed to constitute a debt of such participating political subdivisions within the meaning of Article VII, Section 10 of the Constitution of Virginia, and as to the university, within the meaning of Article X, Section 9 of the Constitution of Virginia, or any applicable statutory debt limitation. Should any participating political subdivision fail to contribute in full its annual contribution, it shall remain a member of the Authority, but its representative on the Board shall not be entitled to cast a vote on any Authority matter until that participating political subdivision's annual contribution has been paid in full. Further, should any participating political subdivision fail to contribute in full its annual contribution, the Authority shall have a lien on any share of the Authority's profit or surplus revenues otherwise entitled to be distributed to the participating political subdivision. A participating political subdivision

may contribute a portion or all of its annual contribution through "in-kind" contributions, subject to the approval of such contribution and valuation by the Authority. (2010, c. [638](#); 2018, cc. [472](#), [473](#))

§ 21. Contracts with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions. (2010, c. [638](#))

§ 22. Authority as political subdivision.

The Authority is a political subdivision whose actions are exempt from the Commonwealth's rules and regulations on its agencies and commissions as to demolition, alteration, capital outlay requirements, temporary building use requirements, and like regulations and requirements. The Authority is subject to local building code requirements. (2010, c. [638](#))

§ 23. Fees for service.

The Authority is authorized to charge a fee for service to individuals who are not members of the participating political subdivisions and is, likewise, authorized to determine a fee schedule. (2010, c. [638](#))

§ 24. Liberal construction.

Neither this Act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of the Commonwealth, and this Act is cumulative to any such powers; however, the borrowing of money or issuance of bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds, notes, or other obligations. This Act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act. (2010, c. [638](#))

§ 25. Application of local ordinances, service charges, and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia. (2010, c. [638](#))

§ 26. Existing contracts; leases, franchises, etc., not impaired.

No provisions of this Act shall relieve, impair, or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provision of this

section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification. (2010, c. [638](#))

§ 27. Employees of the Authority.

A. Employees of the Authority shall be employed on such terms and conditions as are established by the Authority. The Board of the Authority shall develop and adopt personnel rules, policies, and procedures to give its employees grievance rights, ensure that the employment decisions shall be based upon the merit and fitness of applicants, and prohibit discrimination because of race, religion, color, sex, or national origin.

B. In cooperation with the Board, each participating political subdivision shall determine which of its current positions will remain under their individual employ and which will be recreated as part of the Authority. Any employee of Virginia Tech who (i) is not offered a position with the Authority for which the employee is qualified or is offered a position that requires relocation or a reduction in salary or (ii) is not offered the opportunity to remain employed with Virginia Tech shall be eligible for the severance benefits conferred by the provisions of the Workforce Transition Act (§ [2.2-3200](#) et seq.) of the Code of Virginia. Any employee of Virginia Tech who accepts employment with the Authority shall not be considered to be involuntarily separated from state employment and shall not be eligible for the severance benefits conferred by the Workforce Transition Act.

C. Notwithstanding any other provision of law to the contrary, any person whose employment is recreated in the Authority as a result of this Act and who is a member of any plan for providing health insurance coverage pursuant to Chapter 28 (§ [2.2-2818](#) et seq.) of Title 2.2 of the Code of Virginia shall be eligible to continue to be a member of such health insurance plan. Notwithstanding subsection A of § [2.2-2818](#) of the Code of Virginia, the Authority shall pay the employer contribution, the amount of which is determined by negotiated agreement with the provider, of the costs of providing health insurance coverage to its employees who elect to continue to be members of the state employees' insurance plan. Alternatively, an employee may elect to become a member of any health insurance plan established by the Authority. The Authority is authorized to (i) establish a health insurance plan for the benefit of its employees and (ii) enter into agreements with the Department of Human Resources Management providing for the coverage of its employees under the state employees' health insurance plan, provided that such agreement shall require the Authority to pay the costs described above of providing health insurance coverage under such a plan.

D. Notwithstanding any other provision of law to the contrary, any person whose employment is transferred to the Authority as a result of this Act and who is a member of the Virginia Retirement System, or other retirement plan as authorized by Article 4 (§ [51.1-125](#) et seq.) of Chapter 1 of Title

51.1 of the Code of Virginia, shall continue to be a member of the Virginia Retirement System or other such authorized retirement plan under the same terms and conditions as if no transfer had occurred. Alternatively, such employee may elect, during an open enrollment period, to become a member of the retirement program established by the Authority for the benefit of its employees by transferring assets equal to the value to the actuarially determined present value of the accrued basic benefit as of the transfer date. The Authority shall reimburse the Virginia Retirement System for the actual cost of actuarial services necessary to determine the present value of the accrued basic benefit of employees who elect to transfer to the Authority's retirement plan. The following rules shall apply:

1. With respect to any transferred employee who elects to remain a member of the Virginia Retirement System or other such authorized retirement plan, the Authority shall collect and remit any employer and employee contributions to the Virginia Retirement System or other such authorized retirement plan for retirement for such transferred employees.
2. Transferred employees who elect to become members of the retirement program established by the Authority for the benefits of its employees shall be given full credit for their creditable service as defined in § [51.1-124.3](#) of the Code of Virginia, vesting and benefit accrual under the retirement program established by the Authority. For any such employee, employment with the Authority shall be treated as employment with any nonparticipating employer for purposes of the Virginia Retirement System or other retirement plan as authorized by Article 4 of Chapter 1 of Title 51.1 of the Code of Virginia.
3. For transferred employees who elect to become members of the retirement program established by the Authority, the Virginia Retirement System or other such authorized plan shall transfer to the retirement plan established by the Authority assets equal to the actuarially determined present value of the accrued basic benefits as of the transfer date. For purposes hereof, the basic benefits shall be the benefit accrued under the Virginia Retirement System or other such authorized retirement plan, based on creditable service and average final compensation as defined in § [51.1-124.3](#) of the Code of Virginia and determined as of the transfer date. The actuarial present value shall be determined on the same basis, using the same actuarial factors and assumptions used in determining the funding needs of the Virginia Retirement System or other such authorized retirement plan, so that the transfer of assets to the retirement plan established by the Authority will have no effect on the funded status and financial stability of the Virginia Retirement System or other such authorized retirement plan. (2010, c. [638](#))

§ 28. Withdrawal of membership.

A participating political subdivision may withdraw its membership in the Authority at the end of any fiscal year if the withdrawing participating political subdivision has given notice to the Authority and all other participating political subdivisions of its intention to withdraw at least one year before the end of such fiscal year and the withdrawing participating political subdivision has paid in full its annual

Newport News and Hampton Parking Authority

contribution, if any, provided that no participating political subdivision may withdraw its membership in the Authority if the Authority has any outstanding debt without written approval of each participating political subdivision. As used in this section, the term "debt" shall mean a monetary obligation, whether general or limited in any way, to repay a loan or bond, or any long-term obligation, whether absolute or contingent in any way, to refund or reimburse any agency or entity for grant funds received by the Authority. (2010, c. [638](#); 2018, cc. [472](#), [473](#))

§ 29. Dissolution of Authority.

Whenever it shall appear to the Board or to all participating political subdivisions that the need for the Authority no longer exists, all participating political subdivisions may petition the Circuit Court of Montgomery County, Virginia, for the dissolution of the Authority. If the court determines that the need for the Authority as set forth in this Act no longer exists and that all debts and other obligations of any kind have been fully paid or provided for:

1. The Court shall enter an order dissolving the Authority; and
2. The remaining assets of the Authority shall be distributed to the participating political subdivisions in proportion to their respective annual contributions less any amounts owed to the Authority by each such participating political subdivision.

Each participating political subdivision and all holders of the Authority's bonds shall be made parties to any such proceeding and shall be given notice as provided by law. Any party defendant may reply to such petition at any time within six months after the filing of the petition. An appeal from the final judgment of the court shall lie to the Supreme Court of Virginia. (2010, c. [638](#); 2018, cc. [472](#), [473](#))

§ 1. Short title.

This act shall be known and may be cited as the "Newport News and Hampton Parking Authority Act." (1968, c. 200)

§ 2. Declaration of public necessity.

It is hereby determined and declared that the free circulation of traffic of all kinds through the streets of the cities of Newport News and Hampton in the Commonwealth is necessary to the health, safety and

general welfare of the public, whether residing in the municipality or traveling to, through or from such municipality in the course of lawful pursuits; that in recent years the greatly increased use by the public of motor vehicles of all kinds has caused serious traffic congestion in the streets of the municipality; that the parking of motor vehicles in the streets has contributed to this congestion to such an extent as to constitute at the present time a public nuisance; that such parking prevents the free circulation of traffic in, through and from the municipality, and endangers the health, safety and welfare of the general public; that this traffic congestion is not capable of being adequately abated except by provisions for sufficient off-street parking facilities; that adequate off-street parking facilities have not been heretofore provided; and that the enactment of the provisions of this act is hereby declared to be a public necessity. (1968, c. 200)

§ 3. Definitions.

As used in this act the following words and terms shall have the following meanings, unless the context shall indicate another or different meaning or intent:

Any obligation or expense incurred by the Authority or by the organizing municipality prior to the issuance of bonds under the provisions of this act in connection with any of the foregoing items of cost may be regarded as a part of such cost.

(c) The words "governing body" shall mean the board, commission, council or other body by whatever name it may be known in which the general legislative powers of the municipality are vested.

(d) The word "municipality" shall mean the city of Newport News or the city of Hampton in the Commonwealth of Virginia.

(1968, c. 200)

§ 4. Creation of the Authority.

(a) The governing body of the municipality may by resolution signify its determination to organize an Authority under the provisions of this act. Such resolution may be adopted only after a public hearing thereon, notice of which hearing shall be given by publication at least once, not less than 10 days prior to the date fixed for such hearing, in a newspaper having a general circulation in the municipality. Such notice shall contain a brief statement of the substance of the proposed resolution, shall set forth the proposed articles of incorporation of the Authority and shall state the time and place of the public hearing to be held thereon. Such municipality shall not be required to make any other publication of such resolution under the provisions of any other law.

(b) Such resolution shall include articles of incorporation which shall set forth:

(1) the name of the Authority;

(2) a statement that such Authority is organized under this act;

(3) the name of the organizing municipality; and

(4) the names and addresses of the first members of the Authority appointed by the organizing municipality.

(c) Passage of such resolution by the governing body shall constitute the Authority a public body and a body politic and corporate of the commonwealth of Virginia. (1968, c. 200)

§ 5. Membership of the Authority.

The Authority organized under the provisions of this act shall consist of five members selected by the governing body of the organizing municipality who shall serve for terms expiring one, two, three, four, and five years, respectively, from the date of appointment, the term of each such member to be designated by said governing body. The successor of each member of the Authority shall be appointed for a term of five years but any person appointed to fill a vacancy shall be appointed to serve only for the unexpired term and any member of the Authority may be reappointed.

Each member of the Authority before entering upon his duties shall take and subscribe an oath or affirmation to support the constitution of the United States and of the Commonwealth and to discharge faithfully the duties of his office and a record of each such oath shall be filed with the Secretary of the Authority.

The Authority shall select one of its members as Chairman and another as Vice Chairman and shall also select a Secretary and a Treasurer who may but need not be members of the Authority. The offices of Secretary and Treasurer may be combined. The terms of office of the Chairman, Vice Chairman, Secretary and Treasurer shall be as provided in the bylaws of the Authority.

A majority of the members of the Authority shall constitute a quorum and the affirmative vote of a majority of all of the members of the Authority shall be necessary for any action taken by the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all of the duties of the Authority. The members of the Authority shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties.

The city manager of the organizing municipality shall serve as an ex-officio, nonvoting member of the Authority. (1968, c. 200; 1983, c. 57)

§ 6. General grant of powers.

The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each such Authority is hereby authorized and empowered:

- (a) to adopt bylaws for the regulation of its affairs and the conduct of its business;
- (b) to adopt an official seal and alter the same at pleasure;
- (c) to maintain an office at such place or places as it may designate;
- (d) to sue and be sued in its own name, plead and be impleaded;
- (e) to construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate parking facilities within the corporate limits of the organizing municipality;
- (f) to issue revenue bonds of the Authority as hereinafter provided to pay the cost of such construction, reconstruction, equipment, improvement, extension or enlargement;
- (g) to issue revenue refunding bonds of the Authority as hereinafter provided;
- (h) to fix and revise from time to time and to charge and collect rates, rentals, fees and other charges for the services and facilities furnished by such parking facilities, and to establish and revise from time to time regulations in respect of the use, operation and occupancy of such parking facilities or part thereof;

(i) to acquire in the name of the Authority by gift, or purchase, any lands or rights in lands and interest therein, and to acquire such personal property, as it may deem necessary in connection with the construction, reconstruction, improvement, extension, enlargement or operation of any parking facilities;

(j) to lease all or any part of such parking facilities upon such terms and conditions and for such term of years as it may deem advisable to carry out the provisions of this act; provided, however, that no enterprise involving the sale or dispensing of any product or commodity used in or for the servicing of motor vehicles shall be conducted on any space thereon;

(k) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this act, including a trust agreement or trust agreements securing any revenue bonds issued hereunder, and to employ such consulting and other engineers, superintendents, managers, construction and financial experts, accountants and attorneys and such employees and agents as may, in the judgment of the Authority, be deemed necessary, and to fix their compensation; provided, however, that all such expenses shall be payable solely from funds made available under the provisions of this act;

(l) to do all acts and things necessary or convenient to carry out the powers granted by this act;

(m) [Repealed.]

(n) to make and enter into all contracts without competition with respect to any item of cost of parking facilities, including parking structures; and

(o) to sell, exchange, donate, and convey any or all of its facilities or properties whenever its members shall find any such action to be in furtherance of the purposes for which the authority was organized. (1968, c. 200; 1983, c. 69; 1984, c. 596)

§ 7. Revenue bonds.

The Authority is hereby authorized to issue at one time or from time to time, revenue bonds of the Authority for the purpose of paying the cost of constructing, reconstructing, equipping, improving, extending or enlarging any one or more parking facilities. The bonds of each issue shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates not exceeding the maximum rate allowed by law, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall

cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than the maximum rate allowed by law to be paid by public bodies, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the purpose for which such bonds shall have been authorized and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of such bonds, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the authorizing resolution or in the trust agreement securing such bonds, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the Authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

Bonds may be issued under the provisions of this act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this act.

Revenue bonds issued under the provisions of this act shall not be deemed to constitute a debt of the Commonwealth or of any municipality or other political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any municipality or other political subdivision, but such bonds shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the bonds. (1968, c. 200; 1983, c. 57)

§ 8. Revenues.

The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by any parking facilities or parts thereof owned or operated by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times (a) to pay the cost of maintaining, repairing and operating the parking facilities or parts thereof owned or operated by the Authority, including reserves for such purposes, and (b) to pay the principal of and the interest on all bonds issued by the Authority under the provisions of this act as the same shall become due and payable and to provide reserves therefor. Notwithstanding any of the foregoing provisions of this section, the Authority may enter into contracts relating to use of the services and facilities of the parking facilities on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1968, c. 200)

§ 9. Trust agreement.

In the discretion of the Authority, each or any issue of revenue bonds may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. The resolution authorizing the issuance of the bonds or such trust agreement may pledge the revenues to be received. In connection with the issuance of such bonds or in order to secure the payment thereof, the Authority shall have power under such agreement to mortgage all or any part of its property, real or personal, then owned or thereafter acquired, to vest in the trustee thereunder the right to foreclose such mortgage and to provide the terms and conditions upon which such trustee or the holders of bonds or any proportion thereof may exercise the right of foreclosure. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the construction, reconstruction, equipment, improvement, maintenance, repair, operation and insurance of any parking facilities, the fixing and revising of rates, rentals, fees and charges, and the custody, safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such construction, reconstruction, improvement, maintenance and operation. It shall be lawful for any bank or trust

company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Such resolution or trust agreement may set forth the rights and remedies of the bondholders and of the trustee, if any, and may restrict the individual right of action by bondholders. Such resolution or trust agreement may contain such other provisions in addition to the foregoing as the Authority may deem reasonable and proper for the security of the bondholders. Except as in this act otherwise provided, the Authority may provide for the payment of the proceeds of the sale of the bonds and the revenues of any parking facilities or part thereof to such officer board or depository as it may designate for the custody thereof, and for the method of disbursements thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of such resolution or trust agreement may be treated as a part of the cost of operation.

All pledges of revenues under the provisions of this act shall be valid and binding from the time when such pledge is made. All such revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledges without any physical delivery thereof or further action, and the lien of such pledges shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. (1968, c. 200)

§ 10. Trust funds.

All moneys received pursuant to the authority of this act shall be deemed to be trust funds, to be held and applied solely as provided in this act. Any officer to whom, or bank, trust company or fiscal agent to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this act and the resolution authorizing the issuance of bonds or trust agreement securing such bonds may provide. (1968, c. 200)

§ 11. Remedies.

Any holder of revenue bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds or such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this act or by such resolution or trust agreement to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of rates, rentals, fees and charges for the use of or for the services and facilities furnished by any parking facilities. (1968, c. 200)

§ 12. Exemption from taxation.

As adequate off-street parking facilities are essential to the health, safety and general welfare of the public, and as the exercise of the powers conferred by this act to effect such purposes constitute the

performance of essential municipal functions, and as parking facilities constructed under the provisions of this act constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this act constitute public property and are used for municipal purposes, the Authority shall not be required to pay any taxes or assessments upon any such parking facilities or any part thereof, or upon the income therefrom, and any bonds issued under the provisions of this act, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the Commonwealth. (1968, c. 200)

§ 13. Revenue refunding bonds.

The Authority is hereby authorized to issue from time to time revenue refunding bonds for the purpose of refunding any revenue bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. The Authority is further authorized to issue from time to time revenue bonds of the Authority for the combined purpose of (a) refunding any revenue bonds or revenue refunding bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and (b) paying all or any part of the cost of constructing any additional parking facilities or part thereof, or any improvements, extensions or enlargements of any parking facilities. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and the rights, powers, privileges, duties and obligations of the Authority with respect to the same, shall be governed by the foregoing provisions of this act insofar as the same may be applicable. (1968, c. 200)

§ 13-a. Competing parking facilities.

So long as any bonds issued under the provisions of this act are outstanding, the municipality shall not construct, operate or maintain any parking facilities competing with parking facilities of the Authority. (1968, c. 200)

§ 14. Contributions.

The municipality is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this act from any available moneys for any purpose of the Authority, including payment of principal and interest on its bonds. The municipality is hereby further authorized to enter into agreements with the Authority obligating the municipality to pay to the Authority any part or all of the receipts from the operation of on-street parking meters and making such covenants as may be deemed necessary or desirable to assure the successful and profitable operation of the on-street parking meters for so long as any bonds of the Authority remain outstanding. (1968, c. 200)

§ 15. Actions taken by Authority.

Any action taken by the Authority under the provisions of this act may be authorized by resolution at any regular or special meeting and each such resolution shall take effect immediately and need not be published or posted. (1968, c. 200)

§ 16. Additional method.

This act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of or as repealing any powers now existing under any other law, either general, special or local; provided, however, that the issuance of revenue bonds or revenue refunding bonds under the provisions of this act need not comply with the requirements of any other law applicable to the issuance of bonds. (1968, c. 200)

§ 17. Construction.

This act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purpose thereof. (1968, c. 200)

(c) Passage of such resolution by the governing body shall constitute the Authority a public body and a body politic and corporate of the Commonwealth of Virginia. (1964, c. 208)

§ 5. Membership of the Authority.

The Authority organized under the provisions of this Act shall consist of five members selected by the governing body of the organizing municipality who shall serve for terms expiring one, two, three, four, and five years, respectively, from the date of appointment, the term of each such member to be designated by said governing body. The successor of each member of the Authority shall be appointed for a term of five years but any person appointed to fill a vacancy shall be appointed to serve only for the unexpired term and any member of the Authority may be reappointed.

Each member of the Authority before entering upon his duties shall take and subscribe an oath or affirmation to support the Constitution of the United States and of the Commonwealth and to discharge faithfully the duties of his office and a record of each such oath shall be filed with the Secretary of the Authority.

The Authority shall select one of its members as Chairman and another as Vice-Chairman and shall also select a Secretary and a Treasurer who may but need not be members of the Authority. The offices of Secretary and Treasurer may be combined. The terms of office of the Chairman, Vice-Chairman, Secretary and Treasurer shall be as provided in the by-laws of the Authority.

A majority of the members of the Authority shall constitute a quorum and the affirmative vote of a majority of all of the members of the Authority shall be necessary for any action taken by the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all of the duties of the Authority. The members of the Authority shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties. (1964, c. 208)

§ 6. General grant of powers.

The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each such Authority is hereby authorized and empowered:

- (a) to adopt by-laws for the regulation of its affairs and the conduct of its business;
- (b) to adopt an official seal and alter the same at pleasure;

- (c) to maintain an office at such place or places as it may designate;
- (d) to sue and be sued in its own name, plead and be impleaded;
- (e) to construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate parking facilities within the corporate limits of the organizing municipality;
- (f) to issue revenue bonds of the Authority as hereinafter provided to pay the cost of such construction, reconstruction, equipment, improvement, extension or enlargement;
- (g) to issue revenue refunding bonds of the Authority as hereinafter provided;
- (h) to fix and revise from time to time and to charge and collect rates, rentals, fees and other charges for the services and facilities furnished by such parking facilities, and to establish and revise from time to time regulations in respect of the use, operation and occupancy of such parking facilities or part thereof;
- (i) to accept from any authorized agency of the Federal Government loans or grants for the planning, construction or acquisition of any parking facilities and to enter into agreements with such agency respecting any such loans or grants, and to receive and accept aid and contributions from any source of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such loans, grants or contributions may be made;
- (j) to acquire in the name of the Authority by gift or purchase, any lands or rights in lands and interest therein, and to acquire such personal property, as it may deem necessary in connection with the construction, reconstruction, improvement, extension, enlargement or operation of any parking facilities;
- (k) to lease all or any part of such parking facilities upon such terms and conditions and for such term of years as it may deem advisable to carry out the provisions of this Act; provided, however, that no enterprise involving the sale or dispensing of any product or commodity used in, or for the servicing of, motor vehicles shall be conducted on any space thereon;
- (l) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this Act, including a trust agreement or trust agreements securing any revenue bonds issued hereunder, and to employ such consulting and other engineers, superintendents, managers, construction and financial experts, accountants and attorneys and such employees and agents as may, in the judgment of the Authority, be deemed necessary, and to fix their compensation; provided, however, that all such expenses shall be payable solely from funds made available under the provisions of this Act;
- (m) to do all acts and things necessary or convenient to carry out the powers granted by this Act; and

(n) nothing in this Act shall be construed as authorizing the Authority or any lessee to furnish or dispense at, or in connection with, any parking lot or area authorized by this Act, any product or service other than the parking of vehicles, nor shall anything in this act operate to allow the Authority to exercise its powers outside that area of the municipality lying south of the southern line of Brambleton Avenue, and the prolongation westwardly of Camp Avenue to the eastern line of the property of the Elizabeth River Tunnel Authority. (1964, c. 208)

§ 7. Revenue bonds.

The Authority is hereby authorized to issue at one time or from time to time, revenue bonds of the Authority for the purpose of paying the cost of constructing, reconstructing, equipping, improving, extending or enlarging any one or more parking facilities. The bonds of each issue shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates not exceeding five per centum (5%) per annum, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this Act or any recitals in any bonds issued under the provisions of this Act, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than five per centum (5%) per annum, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the purpose for which such bonds shall have been authorized and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust

agreement hereinafter mentioned securing the same. If the proceeds of such bonds, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the authorizing resolution or in the trust agreement securing such bonds, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the Authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

Bonds may be issued under the provisions of this Act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this Act.

Revenue bonds issued under the provisions of this Act shall not be deemed to constitute a debt of the Commonwealth or of any municipality or other political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any municipality or other political subdivision, but such bonds shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the bonds. (1964, c. 208)

§ 8. Revenues.

The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by any parking facilities or parts thereof owned or operated by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times (a) to pay the cost of maintaining, repairing and operating the parking facilities or parts thereof owned or operated by the Authority, including reserves for such purposes, and (b) to pay the principal of and the interest on all bonds issued by the Authority under the provisions of this Act as the same shall become due and payable and to provide reserves therefor. Notwithstanding any of the foregoing provisions of this section, the Authority may enter into contracts relating to use of the services and facilities of the

parking facilities on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1964, c. 208)

§ 9. Trust agreement.

(a) The Authority shall have no power to pledge its revenues to secure the payment of bonds without the prior approval of the governing body of the municipality. Such governing body may, but need not, require the Authority, under any trust agreement referred to in this act to which the Authority is a party, to provide in any such trust agreement that excess of revenues over the amount required to pay the principal and interest of its revenue bonds, operating costs and the expenses of the Authority as determined by such governing body, shall be paid from time to time to the city treasurer and deposited by him in such manner as the governing body may direct.

(b) Subject to the foregoing, in the discretion of the Authority, each or any issue of revenue bonds may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. The resolution authorizing the issuance of the bonds or such trust agreement may pledge the revenues to be received, but shall not convey or mortgage any parking facilities or any part thereof, and may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the construction, reconstruction, equipment, improvement, maintenance, repair, operation and insurance of any parking facilities, the fixing and revising of rates, rentals, fees and charges, and the custody, safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such construction, reconstruction, improvement, maintenance and operation. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Such resolution or trust agreement may set forth the rights and remedies of the bondholders and of the trustee, if any, and may restrict the individual right of action by bondholders. Such resolution or trust agreement may contain such other provisions in addition to the foregoing as the Authority may deem reasonable and proper for the security of the bondholders. Except as in this Act otherwise provided the Authority may provide for the payment of the proceeds of the sale of the bonds and the revenues of any parking facilities or part thereof to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursements thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of such resolution or trust agreement may be treated as a part of the cost of operation.

All pledges of revenues under the provisions of this Act shall be valid and binding from the time when such pledge is made. All such revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledges without any physical delivery thereof or further

action, and the lien of such pledges shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. (1964, c. 208)

§ 10. Trust funds.

All moneys received pursuant to the authority of this Act shall be deemed to be trust funds, to be held and applied solely as provided in this Act. Any officer to whom, or bank, trust company or fiscal agent to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this Act and the resolution authorizing the issuance of bonds or trust agreement securing such bonds may provide. (1964, c. 208)

§ 11. Remedies.

Any holder of revenue bonds issued under the provisions of this Act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds or such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this Act or by such resolution or trust agreement to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of rates, rentals, fees and charges for the use of or for the services and facilities furnished by any Parking Facilities. (1964, c. 208)

§ 12. Exemption from taxation.

As adequate off-street Parking Facilities are essential to the health, safety and general welfare of the public, and as the exercise of the powers conferred by this Act to effect such purposes constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this Act constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this Act constitute public property and are used for municipal purposes, the Authority shall not be required to pay any taxes or assessments upon any such parking facilities or any part thereof, or upon the income therefrom, and any bonds issued under the provisions of this Act, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the Commonwealth. (1964, c. 208)

§ 13. Revenue refunding bonds.

The Authority is hereby authorized to issue from time to time revenue refunding bonds for the purpose of refunding any revenue bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. The Authority is further authorized to issue from time to time revenue bonds of the Authority for the combined purpose of (a) refunding any revenue bonds or revenue refunding bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued

or to accrue to the date of redemption of such bonds, and (b) paying all or any part of the cost of constructing any additional parking facilities or part thereof, or any improvements, extensions or enlargements of any parking facilities. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and the rights, powers, privileges, duties and obligations of the Authority with respect to the same, shall be governed by the foregoing provisions of this Act in so far as the same may be applicable. (1964, c. 208)

§ 14. Contributions.

The municipality is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this Act, from any moneys which may be available for such purpose, to provide for the preliminary expenses of such Authority in carrying out the provisions of this Act or to pay any item of cost of any parking facilities. (1964, c. 208)

§ 15. Actions taken by Authority.

Any action taken by the Authority under the provisions of this Act may be authorized by resolution at any regular or special meeting and each such resolution shall take effect immediately and need not be published or posted. (1964, c. 208)

§ 16. Additional method.

This Act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of or as repealing any powers now existing under any other law, either general, special or local; provided, however, that the issuance of revenue bonds or revenue refunding bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds. (1964, c. 208)

§ 17. Provisions of act severable.

The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions. (1964, c. 208)

A copy of such resolution duly certified by the clerks of the counties and towns by which it is adopted shall be

admissible as evidence in any suit, action, or proceeding. Any political subdivision of the Commonwealth is authorized to join such Authority pursuant to the terms and conditions of this act.

The ownership and operation by the Authority of any public access sites and related facilities and the exercise of powers conferred by this act are proper and essential governmental functions and public purposes and matters of public necessity for which public moneys may be spent and private property acquired. The Authority is a regional entity of government by or on behalf of which debt may be contracted by or on behalf of any county or town pursuant to Section 10 (a) of Article VII of the Constitution of Virginia.

Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth, or any political subdivision, agency, or instrumentality thereof, any federal agency or any unit, private corporation, co-partnership, association, or individual, as such participating political subdivision, or other entities, may be authorized to make under general law or by pledge of any income or revenues of the Authority or by mortgage or encumbrance of any property or facilities of the Authority. Unless

otherwise provided in the proceeding authorizing the issuance of the bonds, or in the trust indenture securing the same, all bonds shall be payable solely and exclusively from the revenues and receipts of a particular facility or loan. Bonds may be executed and delivered by the Authority at any time and from time to time may be in such form and denominations and of such terms and maturities, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times not exceeding 40 years from the date thereof, may be payable at such place or places whether within or without the Commonwealth, may bear interest at such rate or rates, may be payable at such time or times and at such places, may be evidenced in such manner, and may contain such provisions not inconsistent herewith, all as shall be provided and specified by the board of directors in authorizing each particular bond issue.

If deemed advisable by the board of directors, there may be retained in the proceedings under which any bonds of the Authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing herein contained shall be construed to confer on the Authority any right or option to redeem any bonds except as may be provided in the proceedings under which they shall be issued. Any bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the board of directors of the Authority to be most advantageous, and the Authority may pay all costs, premiums, and commissions that its board of directors may deem necessary or advantageous in connection with the issuance thereof. Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facility or any other facility, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount as the board of directors may deem necessary, but not exceeding an amount sufficient to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon and any costs, premiums, or commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof to the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby, with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or on different dates or shall be due serially or otherwise.

All bonds shall be signed by the chairman or vice-chairman of the Authority or shall bear his facsimile signature, and the corporate seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the signature of the secretary (or the secretary-treasurer) or the assistant secretary (or assistant secretary-treasurer) of the Authority or shall bear his facsimile signature, and any coupons attached thereto shall bear the facsimile signature of said chairman. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be an officer before delivery of such bonds, such signature, or such facsimile, shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. When the signatures of both the chairman or the vice-chairman and the secretary (or the secretary-treasurer) or the assistant secretary (or the assistant secretary-treasurer) are facsimiles, the bonds must be authenticated by a corporate trustee or other authenticating agent approved by the Authority.

If the proceeds derived from a particular bond issue, due to error of estimates or otherwise, shall be less than the cost of the Authority facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall exceed such cost, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements, or enlargements of the Authority facilities for which such bonds shall have been issued.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds that shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this act without obtaining the consent of any department, division, commission, board, bureau, or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions, or things that are specifically required by this act; provided, however, that nothing contained in this act shall be construed as affecting the powers and duties now conferred by law upon the State Corporation Commission.

All bonds issued under the provisions of this act shall have and are hereby declared to have all the qualities and incidents of and shall be and are hereby made negotiable instruments under the Uniform Commercial Code of Virginia (§ [8.1A-101](#) et seq.), subject only to provisions respecting registration of the bonds.

In addition to all other powers granted to the Authority by this act, the Authority is authorized to provide for the issuance, from time to time, of notes or other obligations of the Authority for any of its authorized purposes. All of the provisions of this act that relate to bonds or revenue bonds shall apply to such notes or other obligations insofar as such provisions may be appropriate.

§ 15.2-6639.Fees, rents, and charges

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents, and other charges for the use and services of any facilities or access site. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement.

2005, c. [842](#).

§ 15.2-6640.Credit of Commonwealth and political subdivisions not pledged

Bonds issued pursuant to the provisions of this act shall not be deemed to constitute a debt of the Commonwealth, or any political subdivision thereof other than the Authority, but such bonds shall be payable solely from the funds provided therefor as herein authorized. All such bonds shall contain on the face thereof a statement to the effect that neither the Commonwealth, nor any political subdivision thereof, nor the Authority, shall be obligated to pay the same or the interest thereon or other costs

incident thereto except from the revenues and money pledged therefor and that neither the faith and credit nor the taxing power of the Commonwealth, or any political subdivision thereof, is pledged to the payment of the principal of such bonds or the interest thereon or other costs incident thereto.

All expenses incurred in carrying out the provisions of this act shall be payable solely from the funds of the Authority and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall be available to the Authority.

Bonds issued pursuant to the provisions of this act shall not constitute an indebtedness within the meaning of any debt limitation or restriction.

2005, c. [842](#).

§ 15.2-6641. Directors and persons executing bonds not liable thereon

Neither the board of directors nor any person executing the bonds shall be liable personally for the Authority's bonds by reasons of the issuance thereof.

2005, c. [842](#).

§ 15.2-6642. Security for payment of bonds; default

The principal of and interest on any bonds issued by the Authority shall be secured by a pledge of the revenues and receipts out of which the same shall be made payable, and may be secured by a trust indenture covering all or any part of the Authority facilities from which revenues or receipts so pledged may be derived, including any enlargements of any additions to any such projects thereafter made.

The resolution under which the bonds are authorized to be issued and any such trust indenture may contain any agreements and provisions respecting the maintenance of the projects covered thereby, the fixing and collection of rents for any portions thereof leased by the Authority to others, the creation and maintenance of special funds from such revenues and the rights and remedies available in the event of default, all as the board of directors shall deem advisable not in conflict with the provisions hereof. Each pledge, agreement, and trust indenture made for the benefit or security of any of the bonds of the Authority shall continue effective until the principal of and interest on the bonds for the benefit of which the same were made shall have been fully paid. In the event of default in such payment or in any agreements of the Authority made as a part of the contract under which the bonds were issued, whether contained in the proceedings authorizing the bonds or in any trust indenture executed as security therefor, may be enforced by mandamus, suit, action, or proceeding at law or in equity to compel the Authority and the directors, officers, agents, or employees thereof to perform each and every term, provision, and covenant contained in any trust indenture of the Authority, the appointment of a receiver in equity, or by foreclosure of any such trust indenture, or any one or more of said remedies.

2005, c. [842](#).

§ 15.2-6643. Taxation

The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience, and prosperity, and as the operation and maintenance of any project that the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act and the bonds issued under the provisions of this act, their transfer, and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations, and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted including, but not limited to, any leasehold tax on real property and taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation, or calling, and taxes upon consumers of gas, electricity, telephone, and other public utility services.

2005, c. [842](#).

§ 15.2-6644. Bonds as legal investments

Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital, in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.

2005, c. [842](#).

§ 15.2-6645. Appropriation by political subdivision

Any participating political subdivision, or other political subdivision of the Commonwealth, is authorized to provide services, to donate real or personal property, and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act of 1991 (§ [15.2-2600](#) et seq.) or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority.

The Authority may agree to assume, or reimburse a participating political subdivision for any indebtedness incurred by, such participating political subdivision with respect to facilities conveyed by it to the Authority.

2005, c. [842](#).

§ 15.2-6646.Contracts with political subdivisions

The Authority is authorized to enter into contracts with any one or more political subdivisions.

2005, c. [842](#).

§ 15.2-6647.Agreement with Commonwealth and participating political subdivisions

The Commonwealth and, by participating in the Authority, each participating political subdivision, pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds.

2005, c. [842](#).

§ 15.2-6648.Liberal construction

Neither this act nor anything contained herein is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of the Commonwealth, and this act is cumulative to any such powers. This act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws.

2005, c. [842](#); 2015, c. [709](#).

§ 15.2-6649.Application of local ordinances, service charges, and taxes upon leaseholds

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom.

2005, c. [842](#).

§ 15.2-6650.Existing contracts, leases, franchises, etc., not impaired

No provisions of this act shall relieve, impair, or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession, lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification.

2005, c. [842](#).

§ 15.2-6651. Withdrawal of membership

Any member jurisdiction may withdraw from membership in the Authority by resolution or ordinance of its governing body. However, no member jurisdiction shall be permitted to withdraw from the Authority after any obligation has been incurred except by unanimous vote of all member jurisdictions.

Northern Virginia Transportation Authority

§ 33.2-2500. Northern Virginia Transportation Authority created

There is hereby created a political subdivision of the Commonwealth known as the Northern Virginia Transportation Authority, for purposes of this chapter referred to as "the Authority."

In addition to such other powers vested in the Authority by this chapter, the Authority shall have the following powers and functions:

1. The Authority shall prepare a regional transportation plan for Planning District 8 that includes transportation improvements of regional significance and those improvements necessary or incidental thereto and shall revise and amend the plan. The provisions of Article 7 (§ [33.2-1928](#) et seq.) of Chapter 19 shall apply, mutatis mutandis, to preparation of such transportation plan.
2. The Authority shall evaluate all significant transportation projects, including highway, mass transit, and technology projects, in and near Planning District 8, to the extent that funds are available for such purpose. The evaluation shall provide an objective, quantitative rating for each project according to the degree to which the project is expected to reduce congestion and, to the extent feasible, the degree to which the project is expected to improve regional mobility in the event of a homeland security emergency. Such evaluation shall rely on analytical techniques and transportation modeling, including those that employ computer simulations currently and customarily employed in transportation planning. The Authority may rely on the results of transportation modeling performed by other entities, including the Department of Transportation and private entities contracted for this purpose, provided that such modeling is in accordance with this section. The Authority shall publicize the quantitative ratings determined for each project on its website and complete the evaluation at least once every four years, with interim progress reports provided on the website at least once every six months.

For purposes of this section, the significant transportation projects to be evaluated may include:

- a. Projects included in the version of the Financially Constrained Long-Range Transportation Plan of the National Capital Region Transportation Planning Board in effect when the evaluation is made, plus additional projects in the plan adopted according to subdivision 1; and
- b. Other highway, rail, bus, and technology projects that could make a significant impact on mobility in the region, including additional Potomac River crossings west and south of Washington, D.C.; extension of the Metro Orange Line, Metro Yellow Line, and Metro Blue Line; bus rapid transit on Interstate 66; vehicle capacity and mass transit improvements on the U.S. Route 1 corridor; and implementation of relevant portions of the Statewide Transportation Plan established pursuant to § [33.2-353](#).

3. The Authority may, when a transportation plan is adopted according to subdivision 1, construct or acquire, by purchase, lease, contract, or otherwise, the transportation facilities specified in such transportation plan.
4. The Authority may enter into agreements or leases with public or private entities for the operation of its facilities or may operate such facilities itself.
5. The Authority may enter into contracts or agreements with the counties and cities embraced by the Authority, with other transportation commissions of transportation districts adjoining any county or city embraced by the Authority, with any transportation authority, or with any federal, state, local, or private entity to provide, or cause to be provided, transportation facilities and services to the area embraced by the Authority. Such contracts or agreements, together with any agreements or leases for the operation of such facilities, may be used by the Authority to finance the construction and operation of transportation facilities and such contracts, agreements, or leases shall inure to the benefit of any creditor of the Authority.

Notwithstanding subdivisions 1 through 5, the Authority shall not have the power to regulate services provided by taxicabs, either within municipalities or across municipal boundaries; such regulation is expressly reserved to the municipalities within which taxicabs operate.

6. Notwithstanding any other provision of law to the contrary, the Authority may:
 - a. Acquire land or any interest therein by purchase, lease, or gift and provide transportation facilities thereon for use in connection with any transportation service;
 - b. Acquire land or any interest therein by purchase, lease, or gift in advance of the need for sale or contribution to an agency, for use by that agency in connection with an adopted transportation plan; and
 - c. Prepare a plan for mass transportation services with persons, counties, cities, agencies, authorities, or transportation commissions and may further contract with any such person or entity to provide necessary facilities, equipment, operations and maintenance, access, and insurance pursuant to such plan.

2002, c. [846](#), § 15.2-4830; 2014, c. [805](#); 2019, c. [749](#).

The Authority shall embrace the Counties of Arlington, Fairfax, Loudoun, and Prince William and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park.

2002, c. [846](#), § 15.2-4831; 2014, c. [805](#).

§ 33.2-2502. Composition of Authority; membership; terms

1. The chief elected officer of the governing body of each county and city embraced by the Authority or, in the discretion of the chief elected officer, his designee, who shall be a current elected officer of such governing body;
2. Two members who reside in different counties or cities embraced by the Authority, appointed by the Speaker of the House who may be from the membership of the House Committee on Appropriations, the House Committee on Finance, or the House Committee on Transportation;
3. One member of the Senate who resides in a county or city embraced by the Authority, appointed by the Senate Committee on Rules and, to the extent practicable, from the membership of the Senate Committee on Finance and Appropriations and the Senate Committee on Transportation;
4. Two nonlegislative citizen members who reside in different counties or cities embraced by the Authority, appointed by the Governor. One such gubernatorial appointment shall be a member of the Commonwealth Transportation Board and one shall be a person who has significant experience in transportation planning, finance, engineering, construction, or management; and
5. The following three persons who shall serve as nonvoting ex officio members of the Authority: the Director of the Department of Rail and Public Transportation, or his designee; the Commissioner of Highways, or his designee; and the chief elected officer of one town in a county embraced by the Authority to be chosen by the Authority.

All members of the Authority shall serve terms coincident with their terms of office, except that the gubernatorial appointee who is not a member of the Board shall serve for a term of four years. A vacancy occurring other than by expiration of a term shall be filled for the unexpired term. Vacancies shall be filled in the same manner as the original appointments. The Authority shall appoint a chairman and vice-chairman from among its members.

No such person shall contemporaneously serve as a member of the Authority. The Department of Transportation and the Department of Rail and Public Transportation shall make their employees available to assist the Authority, upon request.

§ 33.2-2504. Decisions of Authority

A majority of the Authority, which majority shall include at least a majority of the representatives of the counties and cities embraced by the Authority, shall constitute a quorum. Decisions of the Authority shall require a quorum and shall be in accordance with voting procedures established by the

Authority. In all cases, decisions of the Authority shall require the affirmative vote of two-thirds of the members of the Authority present and voting and two-thirds of the representatives of the counties and cities embraced by the Authority who are present and voting and whose counties and cities include at least two-thirds of the population embraced by the Authority; however, no motion to fund a specific facility or service shall fail because of this population criterion if such facility or service is not located or to be located or provided or to be provided within the county or city whose representative's sole negative vote caused the facility or service to fail to meet the population criterion. The population of counties and cities embraced by the Authority shall be the population as determined by the most recently preceding decennial census, except that once the population estimates for July 1 of the fifth year are made available then the population of each county and city shall be adjusted on the basis of population estimates made by the Weldon Cooper Center for Public Service of the University of Virginia.

§ 33.2-2505. Allocation of certain Authority expenses among component counties and cities

Notwithstanding the provisions of subdivision C 1 of § [33.2-2510](#), the administrative and operating expenses of the Authority shall be provided in an annual budget adopted by the Authority, to the extent funds for such expenses are not provided from other sources, shall be paid from the Fund. Such budget shall be limited solely to the administrative and operating expenses of the Authority and shall not include any funds for construction or acquisition of transportation facilities or for the performance of any transportation service.

2002, c. [846](#), § 15.2-4835; 2014, c. [805](#); 2019, c. [749](#).

§ 33.2-2506. Payment to members of Authority

The members of the Authority may be paid for their services compensation in either (i) the amount provided in the general appropriation act for members of the General Assembly engaged in legislative business between sessions or (ii) a lesser amount as determined by the Authority. Members may be reimbursed for all reasonable and necessary expenses as provided in §§ [2.2-2813](#) and [2.2-2825](#), if approved by the Authority. Funding for the costs of compensation and expenses of the members shall be provided by the Authority.

2002, c. [846](#), § 15.2-4836; 2004, c. [1000](#); 2014, c. [805](#).

§ 33.2-2507. Formation of advisory committees

A. The Authority shall have a technical advisory committee, consisting of nine individuals who reside or are employed in counties and cities embraced by the Authority and have experience in transportation planning, finance, engineering, construction, or management. Six members shall be appointed by localities embraced by the Authority and three members shall be appointed by the Chairman of the Commonwealth Transportation Board. The technical advisory committee shall advise

and provide recommendations on the development of projects as required by § [33.2-2508](#) and funding strategies and other matters as directed by the Authority.

B. The Authority also shall have a planning coordination advisory committee that shall include at least one elected official from each town that is located in any county embraced by the Authority and receives street maintenance payments under § [33.2-319](#).

C. The Authority may form additional advisory committees.

2002, c. [846](#), § 15.2-4837; 2014, c. [805](#).

§ 33.2-2508. Responsibilities of Authority for long-range transportation planning

In fulfilling the requirements of subdivision 1 of § [33.2-2500](#), the Authority shall be responsible for long-range transportation planning for regional transportation projects in Northern Virginia. In carrying out this responsibility, the Authority shall, on the basis of a regional consensus whenever possible, set regional transportation policies and priorities for regional transportation projects and, at least once every five years, shall consider for revision and revise as necessary the regional transportation plan. The policies and priorities shall have reducing congestion in Planning District 8 as their primary objective to the greatest extent practicable and shall be guided by performance-based criteria such as the ability to improve travel times, reduce delays, connect regional activity centers, improve safety, improve air quality, and move the most people in the most cost-effective manner. Any obstacles to achieving this objective shall be specified in writing, including any reason relating to the need for cooperation by any locality embraced by (i) the Authority, (ii) the District of Columbia, (iii) the State of Maryland, or (iv) any other regional entity in the metropolitan Washington area. Each locality embraced by the Authority shall annually inform the Authority about and the Authority shall annually publish on its website any land use or transportation elements of its comprehensive plan that are not consistent with the plan required by subdivision 1 of § [33.2-2500](#). No change in such comprehensive plan shall compel the Authority to alter the plan prepared according to this section.

2002, c. [846](#), § [15.2-4838](#); 2014, c. [805](#); 2015, cc. [477](#), [496](#); 2017, c. [351](#).

§ 33.2-2509. Northern Virginia Transportation Authority Fund

There is hereby created in the state treasury a special nonreverting fund for Planning District 8 to be known as the Northern Virginia Transportation Authority Fund, referred to in this chapter as "the Fund." The Fund shall be established on the books of the Comptroller. All revenues dedicated to the Fund pursuant to §§ [33.2-2400](#), [58.1-638](#), and [58.1-802.4](#), any other funds that may be appropriated by the General Assembly, and any funds that may be received for the credit of the Fund from any other source shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund.

The amounts dedicated to the Fund pursuant to §§ [33.2-2400](#), [58.1-638](#), and [58.1-802.4](#) shall be deposited monthly by the Comptroller into the Fund and thereafter distributed to the Authority as soon as practicable for use in accordance with § [33.2-2510](#). If the Authority determines that such moneys distributed to it exceed the amount required to meet the current needs and demands to fund transportation projects pursuant to § [33.2-2510](#), the Authority may invest such excess moneys to the same extent as provided in subsection A of § [33.2-1525](#) for excess funds in the Transportation Trust Fund.

The amounts deposited into the Fund and the distribution and expenditure of such amounts shall not be used to calculate or reduce the share of federal, state, or local revenues otherwise available to participating jurisdictions. Further, such revenues and moneys shall not be included in any computation of, or formula for, a locality's ability to pay for public education, upon which appropriations of state revenues to local governments for public education are determined.

2013, c. [766](#), § 15.2-4838.01; 2014, c. [805](#); 2018, cc. [854](#), [856](#); 2020, cc. [1230](#), [1275](#).

§ 33.2-2510. Use of certain revenues by the Authority

A. All moneys received by the Authority and the proceeds of bonds issued pursuant to § [33.2-2511](#) shall be used by the Authority solely for transportation purposes benefiting those counties and cities that are embraced by the Authority.

B. 1. Except as provided in subdivision 2, 30 percent of the revenues received by the Authority under subsection A shall be distributed on a pro rata basis, with each locality's share being the total of such fee and taxes received by the Authority that are generated or attributable to the locality divided by the total of such fee and taxes received by the Authority. Of the revenues distributed pursuant to this subsection, as determined solely by the applicable locality, such revenues shall be used for additional urban or secondary highway construction, for other capital improvements that reduce congestion, for other transportation capital improvements that have been approved by the most recent long-range transportation plan adopted by the Authority, or for public transportation purposes. None of the revenue distributed by this subsection may be used to repay debt issued before July 1, 2013. Each locality shall create a separate, special fund in which all revenues received pursuant to this subsection and from the tax imposed pursuant to § [58.1-3221.3](#) shall be deposited. Each locality shall provide annually to the Authority sufficient documentation as required by the Authority showing that the funds distributed under this subsection were used as required by this subsection.

2. If a locality has not deposited into its special fund (i) revenues from the tax collected under § [58.1-3221.3](#) pursuant to the maximum tax rate allowed under that section or (ii) an amount, from sources other than moneys received from the Authority, that is equivalent to the revenue that the locality would receive if it was imposing the maximum tax authorized by § [58.1-3221.3](#), then the amount of revenue distributed to the locality pursuant to subdivision 1 shall be reduced by the difference between the

amount of revenue that the locality would receive if it was imposing the maximum tax authorized by such section and the amount of revenue deposited into its special fund pursuant to clause (i) or (ii), as applicable. The amount of any such reduction in revenue shall be redistributed according to subsection C. The provisions of this subdivision shall be ongoing and apply over annual periods as determined by the Authority.

C. 1. The remaining 70 percent of the revenues received by the Authority under subsection A, plus the amount of any revenue to be redistributed pursuant to subsection B, shall be used by the Authority solely to fund transportation projects selected by the Authority that are contained in the regional transportation plan in accordance with subdivision 1 of § [33.2-2500](#) and that have been rated in accordance with subdivision 2 of § [33.2-2500](#). For only those regional funds received in fiscal year 2014, the requirement for rating in accordance with subdivision 2 of § [33.2-2500](#) shall not apply. The Authority shall give priority to selecting projects that are expected to provide the greatest congestion reduction relative to the cost of the project and shall document this information for each project selected. Such projects selected by the Authority for funding shall be located (i) only in localities embraced by the Authority or (ii) in adjacent localities but only to the extent that such extension is an insubstantial part of the project and is essential to the viability of the project within the localities embraced by the Authority.

2. Not less than 15 days prior to any decision by the Authority for the expenditure of funds pursuant to subdivision 1 for any project to create or improve any transportation facility, the Authority shall make the following publicly available: (i) the project evaluation pursuant to subdivision 2 of § [33.2-2500](#), (ii) the total amount of funds from the Authority to be used for the project, (iii) the total amount of funds from sources other than the Authority to be used for the project, and (iv) any other rating or scoring of other factors to be taken into account by the Authority related to each such transportation facility.

3. All transportation projects undertaken by the Authority shall be completed by private contractors accompanied by performance measurement standards, and all contracts shall contain a provision granting the Authority the option to terminate the contract if contractors do not meet such standards. Notwithstanding the foregoing, any locality may provide engineering services or right-of-way acquisition for any project with its own forces. The Authority shall avail itself of the strategies permitted under the Public-Private Transportation Act (§ [33.2-1800](#) et seq.) whenever feasible and advantageous. The Authority is independent of any state or local entity, including the Department and the Commonwealth Transportation Board, but the Authority, the Department, and the Commonwealth Transportation Board shall consult with one another to avoid duplication of efforts and, at the option of the Authority, may combine efforts to complete specific projects. Notwithstanding the foregoing, at the request of the Authority, the Department may provide the Authority with engineering services or right-of-way acquisition for the project with its own forces.

4. With regard to the revenues distributed under subdivision 1, each locality's total long-term benefit shall be approximately equal to the proportion of the total of the fees and taxes received by the Authority that are generated by or attributable to the locality divided by the total of such fees and taxes received by the Authority.

D. For road construction and improvements pursuant to subsection B, the Department may, on a reimbursement basis, provide the locality with planning, engineering, right-of-way, and construction services for projects funded in whole by the revenues provided to the locality by the Authority.

§ 33.2-2511. Authority to issue bonds

The Authority may issue bonds and other evidences of debt as may be authorized by this section or other law. The provisions of Article 5 (§ [33.2-1920](#) et seq.) of Chapter 19 shall apply, mutatis mutandis, to the issuance of such bonds or other debt. The Authority may issue bonds or other debt in such amounts as it deems appropriate. The bonds may be supported by any funds available except that funds from tolls collected pursuant to subdivision 7 of § [33.2-2512](#) shall be used only as provided in that subdivision.

§ 33.2-2512. Other duties and responsibilities of Authority

In addition to other powers granted in this chapter, the Authority shall have the following duties and responsibilities:

1. Providing general oversight of regional programs involving mass transit or congestion mitigation, including carpooling, vanpooling, and ridesharing;
2. Providing long-range regional planning, both financially constrained and unconstrained;

7. Imposing, collecting, and setting the amount of tolls for use of facilities in the area embraced by the Authority, when the facility is either newly constructed or reconstructed solely with revenues of the

Authority or solely with revenues under the control of the Authority in such a way as to increase the facility's traffic capacity, with the amount of tolls variable by time of day, day of the week, vehicle size or type, number of axles, or other factors as the Authority may deem proper, and with all such tolls to be used for programs and projects that are reasonably related to or benefit the users of the applicable facility, including for the debt service and other costs of bonds whose proceeds are used for such construction or reconstruction;

8. Providing general oversight of regional transportation issues of a multijurisdictional nature, including intelligent transportation systems, signalization, and preparation for and response to emergencies;

9. Serving as an advocate for the transportation needs of Northern Virginia before the state and federal governments;

10. Applying to and negotiating with the government of the United States, the Commonwealth, or any agency, instrumentality, or political subdivision thereof for grants and other funds available to carry out the purposes of this chapter and receiving, holding, accepting, and administering from any source gifts, bequests, grants, aid, or contributions of money, property, labor, or other things of value to be held, used, and applied to carry out the purposes of this chapter subject, however, to any condition upon which gifts, bequests, grants, aid, or contributions are made. Unless otherwise restricted by the terms of the gift, bequest, or grant, the Authority may sell, exchange, or otherwise dispose of such money, securities, or other property given or bequeathed to it in furtherance of its purposes;

11. Acting as a "responsible public entity" for the purpose of the acquisition, construction, improvement, maintenance, or operation, or any combination thereof, of a "qualifying transportation facility" under the Public-Private Transportation Act of 1995 (§ [33.2-1800](#) et seq.); and

12. Deciding on and voting to impose certain fees and taxes authorized under law for imposition or assessment by the Authority, provided that any such fee or tax assessed or imposed is assessed or imposed in all counties and cities embraced by the Authority. The revenues from such certain fees and taxes shall be kept in a separate account and shall be used only for the purposes provided in this chapter.

§ 3. The Authority shall be governed by a commission composed of nine commissioners, appointed by the council of the city. All powers and duties of the Authority shall be exercised and performed by the commission. (1962, c. 632)

§ 4. The commission shall meet at least monthly and at such other times as may be required. The commissioners shall receive no salary but shall be reimbursed for necessary traveling and other expenses incurred in the performance of their duties. The commission shall keep detailed minutes of its proceedings, which shall be open to public inspection at all times. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually. Copies of each such audit shall be furnished to the council of the city and shall be open to public inspection. (1962, c. 632)

§ 6. The Authority shall have the following powers:

- (a) To contract and be contracted with; to sue and to be sued; and to adopt and use a corporate seal, and to alter the same at pleasure;
- (b) To acquire, hold and dispose of personal property necessary for its purposes;

§ 7. The Authority may foster and stimulate the development of industry in the area within its jurisdiction. To this end, the Authority may appoint an Industrial Advisory Committee to advise it, consisting of such number of persons as it may deem advisable; such persons shall not receive any compensation for their services, but may be reimbursed their necessary traveling and other expenses incurred while on business of the Authority. The Authority may accept, and expend for the purposes stated above, money from any public or private source, and may accept, maintain, operate and use, or sell or lease any property conveyed to it for such purposes. (1962, c. 632)

§ 8. In selling, disposing of or leasing for a period of more than one year any of the facilities owned by the Authority, bids therefor shall be first advertised for by publication in one or more newspapers of general circulation published in the city for at least five consecutive days. The Authority shall have the right to reject any and all bids. (1962, c. 632)

§ 9. The council of the city is authorized and empowered to transfer to the Authority the operation and maintenance of such suitable facilities as are now or may be hereafter owned by the city, on such terms and conditions which it may prescribe; but this section shall not be construed as authorizing the Authority to maintain and operate such facilities unless and until the operation thereof has been transferred by the council. (1962, c. 632)

§ 10. The city is authorized and empowered to make appropriations and to provide funds for the operation of the Authority. (1962, c. 632)

§ 11. The Authority shall have the power to issue bonds from time to time in its discretion, for any of its purposes, including the payment or retirement of bonds previously issued by it. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest: (a) from its revenues generally; (b) exclusively from the income and revenues of a particular "facility"; which term shall mean a particular building or structure or particular building or structures including all equipment, appurtenances and accessories necessary or appropriate for the operation of such facility; or (c) exclusively from the income and revenues of certain designated facilities whether or not they are financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contributions from the federal government, Commonwealth of Virginia or any political subdivision which is a part of the Authority, or a pledge of any income or revenues of the Authority, or a mortgage of any particular facility or facilities or other property of the Authority. (1962, c. 632)

§ 12. Neither the commissioners of the Authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of the Authority (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof and neither the Commonwealth nor any political subdivision thereof other than the Authority shall be liable thereon, nor, shall such bonds or obligations be payable out of any funds or properties other than those of the Authority. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. Bonds of the Authority are declared to be issued for an essential public and governmental purpose. (1962, c. 632)

§ 13. Bonds of the Authority shall be authorized by resolution adopted by the commission and may be issued in one or more series and shall bear such date or dates, mature at such time or times, bear interest at such rate or rates, not exceeding six per centum per annum, be in such denomination or denominations, be in such form, either coupon or registered, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such place or places, and be subject to such terms of redemption (with or without premium) as such resolution or its trust indenture or mortgage may provide. The bonds may be sold at public or private sale. (1962, c. 632)

§ 14. In case any of the commissioners or officers of the Authority whose signatures appear on any bonds or coupons shall cease to be such commissioners or officers before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued pursuant to this act shall be fully negotiable within the meaning and for all the purposes of Chapter 10 of Title 6 of the Code of Virginia. (1962, c. 632)

§ 15. In order to secure the payment of such bonds the Authority shall have power by provision or provisions included in any resolution authorizing such bonds or in any indenture made to secure their payment:

- (g) To covenant as to the use of any or all of its real or personal property; and to covenant as to the maintenance of its real and personal property, the replacement thereof, the insurance to be carried thereon and the use and disposition of insurance moneys.
- (h) To covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition, or obligation; and to covenant and prescribe as to events of default and terms and conditions upon which any or all of its bonds or obligations shall become or may be declared due before maturity, and as to the terms and conditions upon which such declaration and its consequences may be waived.
- (i) To vest in a trustee or trustees or the holders of bonds or any proportion of them the right to enforce the payment of the bonds or any covenant securing or relating to the bonds; to vest in a trustee or trustees the right, in the event of a default by the Authority, to take possession and use, operate and manage any facility or part thereof, and to collect the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the Authority with said trustee; to provide for the powers and duties of a trustee or trustees or the holders of bonds or any proportion of them who may enforce any covenant or rights securing or relating to the bonds.

§ 16. An obligee of the Authority shall have the right in addition to all other rights which may be conferred on such obligee, subject only to any contractual restrictions binding upon such obligee:

(a) By mandamus, suit, action or proceeding at law or in equity to compel the Authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of the Authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants and agreements of the Authority and the fulfillment of all duties imposed upon the Authority by this chapter.

(b) By suit, action or proceedings in equity, to enjoin any acts or things which may be unlawful, or the violation of any of the rights of such obligee of the Authority. (1962, c. 632)

§ 17. The Authority shall fix and revise from time to time the rents, fees and other charges to be paid by persons for the use of the various facilities of the Authority and for any other service furnished or provided by the Authority. Such rents, fees and charges shall be fixed so as to provide at least sufficient funds to pay the cost of maintaining, repairing and operating such facilities and the principal and interest of any bonds issued by the Authority or other debts contracted as the same shall become due and payable. A reserve may be accumulated and maintained out of the revenues of such Authority for extraordinary repairs and expenses and for such other purposes as may, be provided in any resolution authorizing a bond issue or in any trust indenture securing such bonds. Subject to such provisions and restrictions as may be set forth in the resolution or in the trust indenture authorizing or securing any of the bonds or other obligations issued hereunder, the Authority shall have exclusive control of the revenues derived from any facility or facilities operated and controlled by it and the right to use such revenues in the exercise of its powers and duties set forth in this section. No individual, firm, association or corporation shall receive any profit or dividend from the revenues, earnings or other funds or assets of such authority other than for debts contracted, for services rendered, for materials and supplies furnished and for other value actually received by the Authority. (1962, c. 632)

§ 18. In addition to the other powers conferred by this act, the Authority shall have the power to borrow money and to accept contributions, grants and other financial assistance from the federal government and agencies or instrumentalities thereof for or in aid of the construction and equipment of its facilities or the retirement or refunding of its bonds. To these ends the Authority shall have the power to comply with such conditions and to execute such mortgages, trust indentures and agreements as may be necessary, convenient or desirable. (1962, c. 632)

§ 19. Nothing contained in this act shall be deemed to authorize the Authority to occupy or use any land, streets, buildings, structures or other property of any kind, owned or used by any political subdivision within its jurisdiction, or any public improvement or facility maintained by such political subdivision for the use of its inhabitants, without first obtaining the consent of the governing body thereof. (1962, c. 632)

§ 19-a. The commissioners of the Authority shall not issue any bonds under the provisions of § 11 unless they find, and enter upon the records of the Authority, that financing from private sources for a facility, as defined in § 11, is not available. (1962, c. 632)

§ 19-b. Provided, further, that the Commissioners of the Authority shall not issue any bonds for the construction of factories or manufacturing facilities under the provisions of § 11 hereof, after July 1, 1966, unless the Governor of Virginia shall determine that Norton is still a distressed area. (1962, c. 632)

§ 20. The powers granted and the duties imposed in this act shall be construed to be independent and severable. (1962, c. 632)

§ 15.2-5701.Definitions

As used in this chapter, the following words and terms shall mean unless the context shall indicate otherwise:

"Authority" means an authority created under the provisions of § [15.2-5702](#) or, if any such authority shall be abolished, the entity succeeding to the principal functions thereof.

"Federal agency" means the United States of America and any department or bureau thereof, and any other agency or instrumentality of the United States of America heretofore established or which may be established hereafter.

§ 15.2-5702.Creation of authorities

A. A locality may by ordinance or resolution, or two or more localities may by concurrent ordinances or resolutions, signify their intention to create a park authority, under an appropriate name and title, containing the word "authority" which shall be a body politic and corporate.

Whenever an authority has been incorporated by two or more localities, any one or more of the localities may withdraw therefrom, but no locality shall be permitted to withdraw from any authority that has outstanding obligations unless United States securities have been deposited for their payment or without unanimous consent of all holders of the outstanding obligations.

Other localities may join the authority as provided in the ordinances or resolutions.

B. Each ordinance or resolution shall include articles of incorporation setting forth:

1. The name of the authority and the address of its principal office.
2. The name of each incorporating locality, together with the names, addresses and terms of office of the first members of the board of the authority.
3. The purpose or purposes for which the authority is created.

C. Each participating locality shall cause to be published at least one time in a newspaper of general circulation in its locality, a copy of the ordinance or resolution together with a notice stating that on a day certain, not less than seven days after publication of the notice, a public hearing will be held on

such ordinance or resolution. If at the hearing substantial opposition to the proposed park authority is heard, the members of the participating localities' governing bodies may in their discretion call for a referendum on the question of establishing such an authority. The request for a referendum shall be initiated by resolution of the governing body and filed with the clerk of the circuit court for the locality. The court shall order the referendum as provided for in § [24.2-681](#) et seq. Where two or more localities are participating in the formation of an authority the referendum, if any be ordered, shall be held on the same date in all such localities so participating. In any event if ten percent of the registered voters in such locality file a petition with the governing body at the hearing calling for a referendum such governing body shall request a referendum as herein provided.

D. Having specified the initial plan of organization of the authority, and having initiated the program, the localities organizing such authority may, from time to time, by subsequent ordinance or resolution, after public hearing, and with or without referendum, specify further parks to be acquired and maintained by the authority, and no other parks shall be acquired or maintained by the authority than those so specified. However, if the governing bodies of the localities fail to specify any project or projects to be undertaken, and if the governing bodies do not disapprove any project or projects proposed by the authority, then the authority shall be deemed to have all the powers granted by this chapter.

Code 1950, § 15-714.3; 1950, p. 1244; 1952, c. 401; 1962, c. 623, § 15.1-1230; 1975, c. 517; 1997, c. [587](#); 2023, cc. [506](#), [507](#).

§ 15.2-5703. Members of authority; appointment, terms, compensation, etc.; officers, quorum

Each authority created hereunder, whether created by single or multiple localities, shall be governed by a board of not less than six members, but always an even number, appointed by the governing body of the locality. The board members shall be appointed for staggered four-year terms. Members of the governing body may be appointed to the board but shall not comprise a majority thereon.

When an authority is created by participating localities, each shall appoint at least two members, one of whom may be a member of the governing body. One-half of the members first appointed by each governing body shall serve for two years and one-half shall serve for four years. After the first appointment, the term of office of all members shall be four years. When one or more additional localities join an existing authority, each of such participating localities shall have not less than two members on the authority's board. The first members shall be appointed immediately upon the admission of the locality into the authority in the same manner as were the first members of the authority.

The members of the board of the authority shall elect one of their number chairman and shall elect a secretary and a treasurer who need not be members of the board of the authority. The offices of secretary and treasurer may be combined. A majority of the members of the authority shall constitute a

quorum and the vote of a majority of such quorum shall be necessary for any action taken by the authority. No vacancy in the membership of the board of the authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the authority.

Localities which created or thereafter joined the authority, by ordinance or resolution or concurrent ordinances or resolutions, may provide for the payment of compensation to the members of the authority; provided no compensation shall be paid for meetings not attended and for the reimbursement to each member of the authority the amount of his actual expenses necessarily incurred in the performance of that member's duties.

9. To issue revenue bonds and revenue refunding bonds of the authority, such bonds to be payable solely from revenues derived from the use of the facilities or the furnishing of park services;

10. To accept grants and gifts from the localities forming or thereafter joining the authority, the Commonwealth, the federal government or any other governmental bodies or political subdivisions, and from any other person;
11. To enter into contracts with the federal government, the Commonwealth, any political subdivision, or any agency or instrumentality thereof, or with any other person providing for or relating to the furnishing of park services or facilities;

13. To exercise the same rights for acquiring property for the construction or improvement, maintenance or operation of a park as the locality or localities by which such authority is created may exercise. The governing body of any participating locality, notwithstanding any contrary provision of law, general or special, is authorized and empowered to transfer jurisdiction over, to lease, lend, grant or convey to the authority, upon the request of the authority, upon such terms and conditions as the governing body of such locality may agree with the authority as reasonable and fair, real or personal property as may be necessary or desirable in connection with the acquisition, construction, improvement, operation or maintenance of a park, including public roads and other property already devoted to public use. Agreements may be entered into by the authority with the Commonwealth, or any agency acting on behalf of the Commonwealth, for the acquisition of any lands or property, owned or controlled by the Commonwealth, for the purposes of construction or improvement, maintenance or operation of a park;
14. the income derived therefrom; and to use any revenues and other income of the authority for payment of interest and retirement of principal of such obligations provided that prior approval of the governing body of the locality shall be obtained by an authority that was created by a single locality. Any locality which has formed or joined an authority may lend money to the authority. The power to borrow set forth in this subdivision shall be in addition to the power to issue revenue bonds and revenue refunding bonds set forth in subdivision 9 and § [15.2-5712](#). Notes, bonds or other obligations issued under this subdivision shall not be deemed to constitute a debt of the Commonwealth or of any political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any political subdivision of the Commonwealth; and

18. To adopt such rules and regulations from time to time, not in conflict with the laws of this Commonwealth, concerning the use of properties under its control as will tend to the protection of such property and the public thereon. No such rule or regulation shall be adopted until after descriptive notice of an intention to propose such rule or regulation for passage has been published in accordance with the procedures required for the adoption of general county ordinances and emergency county ordinances as set forth in § [15.2-1427](#), mutatis mutandis. The full text of any proposed rule or regulation shall be available for public inspection and copying during regular office hours of the authority at a place designated in the published notice.

§ 15.2-5711. Conveyance or lease of park to authority; contract for park services; when referendum required before certain contracts made

1. To convey or lease to any authority created hereunder, with or without consideration, any park upon such terms and conditions as the governing body thereof shall determine to be for the best interests of such locality or other public body; and
2. To contract with any authority created hereunder for park services; provided, that no locality shall enter into any contract with an authority involving payments by such locality to such authority for park services which requires the locality to incur an indebtedness extending beyond one fiscal year, unless the question of entering into such contract shall first be submitted to the voters of the locality for approval or rejection by a majority vote. Nothing herein shall prevent any locality from making a voluntary contribution to any authority.

In the event that a locality shall desire to contract with an authority under this subdivision, such governing body shall adopt a resolution stating in brief and general terms the substance of the proposed contract for park services and requesting the circuit court for the locality to order an election upon the question of entering into such contract. A copy of such resolution, certified by the clerk of the governing body, shall be filed with the judge of the circuit court who shall thereupon enter an order in accordance with § [24.2-681](#) et seq. Notice of such election entered and paid for by the locality shall be published at least once in a newspaper of general circulation in the locality at least seven days before the election.

Each authority is authorized to issue, at one time or from time to time, revenue bonds of the authority for the purpose of acquiring, purchasing, constructing, reconstructing, improving or extending parks and acquiring necessary land or equipment therefor, and revenue refunding bonds of the authority for the purpose of refunding any revenue bonds outstanding. The bonds of each issue shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates as authorized by law, as may be determined by the authority. Bonds may be made redeemable before maturity, at the option of the authority at such price or prices and under such terms and conditions as may be fixed by the authority prior to the issuance of the bonds. The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or outside the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this chapter or any recitals in any bonds issued under the provisions of this chapter, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The bonds may be issued in coupon or registered form or both, as the authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The authority may sell such bonds in such manner, either

at public or private sale, and for such price, as it may determine to be for the best interests of the authority.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Bonds may be issued under the provisions of this chapter without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this chapter.

Bonds issued under the provisions of this chapter shall not be deemed to constitute a debt of the Commonwealth or of any political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any political subdivision of the Commonwealth, but such bonds shall be payable solely from revenues of the authority as provided herein.

The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment. The bonds of each issue shall be dated, shall bear interest at such rate or rates as may be authorized by law, shall mature at such time or times not exceeding twenty years from their date or dates, as may be determined by the authority, and may be made redeemable before maturity, at the option of the authority, at such price or prices and under such terms and conditions as may be fixed by the authority prior to the issuance of the bonds.

substitution for, and upon cancellation of, such mutilated bond and its coupons, or in lieu of and in substitution for such lost or destroyed bond and its unmatured coupons. Such new bond or coupon shall not be executed or delivered until the holder of the mutilated, lost or destroyed bond (i) has paid the reasonable expense and charges in connection therewith; (ii) in the case of a lost or destroyed bond, has filed with the authority and its treasurer satisfactory evidence that such bond was lost or destroyed and that the holder was the owner thereof; and (iii) has furnished indemnity satisfactory to its treasurer.

Parking Authorities Act

Created

1958 Acts of Assembly, c. 383.

Amendments

1972, c. 337 (§§ 2, 3)

Editor's note: Applies to counties with certain populations; applicable to Counties of Arlington and Fairfax.

§ 1. This Act shall be known and may be cited as the "Parking Authorities Act." (1958, c. 383)

§ 2. It is hereby determined and declared that the free circulation of traffic of all kinds through the streets of any county having a density of population in excess of four thousand per square mile or a population exceeding four hundred thousand is necessary to the health, safety and general welfare of the public, whether residing in such county or traveling to, through or from such county in the course of lawful pursuits; that in recent years the greatly increased use by the public of motor vehicles of all kinds has caused serious traffic congestion in the streets of such counties; that the parking of motor vehicles in the streets has contributed to this congestion to such an extent as to constitute at the present time a public nuisance; that such parking prevents the free circulation of traffic in, through and from such county, and endangers the health, safety and welfare of the general public; that this traffic congestion is not capable of being adequately abated except by provisions for sufficient off-street parking facilities; that adequate off-street parking facilities have not been heretofore provided; and that the enactment of the provisions of this act is hereby declared to be a public necessity. (1958, c. 383; 1972, c. 337)

§ 3. As used in this act the following words and terms shall have the following meanings, unless the context shall indicate another or different meaning or intent:

- (a) The word "Authority" shall mean the Authority created under the provisions of this act, or, if the Authority shall be abolished, the board, body or commission succeeding to the principal functions thereof or to whom the powers given by this act to the authority shall be given by law.

(b) The word "cost" as applied to Parking Facilities or to extensions or additions thereto shall include the cost of construction or reconstruction, the cost of all labor, materials, machinery and equipment, the cost of all lands, property, rights, easements and interest acquired by the Authority for such construction or reconstruction or the operation thereof, the cost of demolishing or removing any buildings or structures on land so acquired, including the cost of acquiring any lands to which such building or structures may be moved, finance charges, interest prior to and during construction, and, if deemed advisable by the governing body, for one year after completion of construction, reasonable provision for working capital, cost of engineering and legal services, cost of plans and specifications, surveys and estimates of cost and of revenues, administrative expense and such other expenses as may be necessary or incident to such construction or reconstruction, the financing thereof and the placing of the Parking Facilities in operation. Any obligation or expense incurred by the Authority or by the organizing municipality prior to the issuance of bonds under the provisions of this act in connection with any of the foregoing items of cost may be regarded as a part of such cost.

(c) The words "governing body" shall mean the board, commission, or other body by whatever name it may be known in which the general legislative powers of such county are vested.

(d) The word "county" shall mean any county having a density of population in excess of four thousand per square mile or a population exceeding four hundred thousand.

(e) The words "Parking Facilities" shall mean and shall include lots, garages, parking terminals, or other facilities or structures for the off-street parking of motor vehicles, open to public use for a fee, and may also include terminal facilities for trucks and busses, waiting rooms, lockers, and offices catering primarily to those using such parking facilities, and all facilities appurtenant thereto and all property, rights, easement and interests relation thereto which are deemed necessary for the construction or operation thereof; provided, however, the words "Parking Facilities" shall not mean or include the sale or dispensing of products used in or for the servicing of motor vehicles. (1958, c. 383; 1972, c. 337)

§ 4. (a) The governing body of any such county may by resolution signify its determination to organize an Authority under the provisions of this Act. Such resolution may be adopted only after a public hearing thereon, notice of which hearing shall be given by publication at least once, not less than 10 days prior to the date fixed for such hearing, in a newspaper having a general circulation in the county. Such notice shall contain a brief statement of the substance of the proposed resolution, shall set forth the proposed articles of incorporation of the authority and shall state the time and place of the public hearing to be held thereon. Such county shall not be required to make any other publication of such resolution under the provisions of any other law.

(b) Such resolution shall include articles of incorporation which shall set forth:

Parking Authorities Act

- (1) the name of the Authority;
- (2) a statement that such Authority is organized under this Act;
- (3) the name of the organizing county; and
- (4) the names and addresses of the first members of the Authority appointed by the organizing county.

(c) Passage of such resolution by the governing body shall constitute the Authority a public body and a body politic and corporate of the Commonwealth of Virginia. (1958, c. 383)

§ 5. The Authority organized under the provisions of this Act shall consist of five members selected by the governing body of the organizing county who shall serve for terms expiring one, two, three, four, and five years, respectively, from the date of appointment, the term of each such member to be designated by said governing body. The successor of each member of the Authority shall be appointed for a term of five years but any person appointed to fill a vacancy shall be appointed to serve only for the unexpired term and any member of the Authority may be reappointed.

Each member of the Authority before entering upon his duties shall take and subscribe an oath or affirmation to support the Constitution of the United States and of the Commonwealth and to discharge faithfully the duties of his office and a record of each such oath shall be filed with the Secretary of the Authority.

The Authority shall select one of its members as Chairman and another as Vice-Chairman and shall also select a Secretary and a Treasurer who may but need not be members of the Authority. The offices of Secretary and Treasurer may be combined. The terms of office of the Chairman, Vice-Chairman, Secretary and Treasurer shall be provided in by the by-laws of the Authority.

A majority of the members of the Authority shall constitute a quorum and the affirmative vote of a majority of all of the members of the Authority shall be necessary for any action taken by the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all of the duties of the Authority. The members of the Authority shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties. (1958, c. 383)

§ 6. The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each such Authority is hereby authorized and empowered:

- (a) to adopt by-laws for the regulation of its affairs and the conduct of its business;
- (b) to adopt an official seal and alter the same at pleasure;
- (c) to maintain an office at such place or places as it may designate;

- (d) to sue and be sued in its own name, plead and be impleaded;
- (e) to construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate parking facilities within the limit of the organizing county;
- (f) to issue revenue bonds of the Authority as hereinafter provided to pay the cost of such construction, reconstruction, equipment, improvement, extension or enlargement;
- (g) to issue revenue refunding bonds of the Authority as hereinafter provided;
- (h) to fix and revise from time to time and to charge and collect rates, rentals, fees and other charges for the services and facilities furnished by such parking facilities, and to establish and revise from time to time regulations in respect of the use, operation and occupancy of such parking facilities or part thereof;
- (i) to accept from any authorized agency of the Federal Government loans or grants for the planning, construction or acquisition of any parking facilities and to enter into agreements with such agency respecting any such loans or grants, and to receive and accept aid and contributions from any source of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such loans, grants or contributions may be made;
- (j) to acquire in the name of the Authority by gift, purchase or the exercise of the right of eminent domain in accordance with the laws of the Commonwealth of Virginia which are applicable to the exercise of such powers by counties, any lands or rights in lands and interest therein, and to acquire such personal property, as it may deem necessary in connection with the construction, reconstruction, improvement, extension, enlargement or operation of any parking facilities, provided, however, that the Authority shall not condemn any lands or personal property or right or interest therein, unless authorized so to do by resolution of the governing body of the county; and provided, further, that the property of any public service corporation may not be condemned without the approval of the State Corporation Commission pursuant to § [25-233](#) of the Code of Virginia, and provided, further, that no property may be condemned without the approval of the county board.
- (k) to lease all or any part of such parking facilities upon such terms and conditions and for such term of years as it may deem advisable to carry out the provisions of this act; provided, however, that no enterprise involving the sale or dispensing of any product or commodity used in or for the servicing of motor vehicles, shall be conducted on any parking facility or any space leased thereon.
- (l) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this Act, including a trust agreement or trust agreements securing any revenue bonds issued hereunder, and to employ such consulting and other engineers, superintendents, managers, construction and financial experts, accountants and attorneys and such employees and agent as may, in the judgment of the Authority, be deemed

necessary, and to fix their compensation; provided, however, that all such expenses shall be payable solely from funds made available under the provisions of this Act;

(m) to do all acts and things necessary or convenient to carry out the powers granted by this Act; and

(n) nothing in this Act shall be construed as authorizing the Authority or any lessee to furnish or dispense at, or in connection with, any parking lot or area authorized by this Act, any product or service other than the parking of vehicles. (1958, c. 383)

§ 7. The Authority is hereby authorized to issue at one time or from time to time, revenue bonds of the Authority for the purpose of paying the cost of construction, reconstructing, equipping, improving, extending or enlarging any one or more parking facilities. The bonds of each issue shall be dated, shall mature at such time or time not exceeding forty years from their date or dates and shall bear interest at such rate or rates not exceeding five per centum per annum, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes of the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this Act, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and proviso may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at a more than five per centum per annum, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the purpose for which such bonds shall have been authorized and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of such bonds, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to

provide the amount of such deficit, and, unless otherwise provided in the authorizing resolution or in the trust agreement securing such bonds, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the Authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

Bonds may be issued under the provisions of this Act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happenings of other conditions or things than those proceedings, conditions or things which are specifically required by this Act.

Revenue bonds issued under the provisions of this Act shall not be deemed to constitute a debt of the Commonwealth or of any political subdivision, of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any political subdivision, but such bonds shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the bonds. (1958, c. 383)

§ 8. The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by any parking facilities or parts thereof owned or operated by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times (a) to pay the cost of maintaining, repairing and operating the parking facilities or parts thereof owned or operated by the Authority, including reserves for such purposes, and (b) to pay the principal of and the interest on all bonds issued by the Authority under the provisions of this Act as the same shall become due and payable and to provide reserves therefore. Notwithstanding any of the forgoing provisions of this section, the Authority may enter into contracts relating to use of the services and facilities of the parking facilities on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1958, c. 383)

§ 9. In the discretion of the Authority, each or any issue of revenue bonds may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. The resolution authorizing the issuance of the bonds or such trust agreement may pledge the revenues to be received, but shall not convey or mortgage any parking facilities or any part thereof, and may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the construction, reconstruction, equipment, improvement, maintenance, repair, operation and insurance of any parking facilities, the fixing and revising of rates, rentals, fees and charges, and the custody, safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such construction, reconstruction, improvement, maintenance and operation. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Such resolution or trust agreement may set forth the rights and remedies of the bondholders and of the trustee, if any, and may restrict the individual right of action by bondholders. Such resolution or trust agreement may contain such other provisions in addition to the foregoing as the Authority may deem reasonable and proper for the security of the bondholders. Except as in this Act otherwise provided, the Authority may provide for the payment of the proceeds of the sale of the bonds and the revenues of any parking facilities or part thereof to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursements thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of such resolution or trust agreement may be treated as a part of the cost of operation.

All pledges of revenues under the provisions of this Act shall be valid and binding from the time when such pledge is made. All such revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledges without any physical delivery thereof or further action, and the lien of such pledges shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. (1958, c. 383)

§ 10. All moneys received pursuant to the Authority of this Act shall be deemed to be trust funds, to be held and applied solely as provided in this Act. Any officer to whom, or bank, trust company or fiscal agent to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this Act and the resolution authorizing the issuance of bonds or trust agreement securing such bonds may provide. (1958, c. 383)

§ 11. Any holder of revenue bonds issued under the provisions of this Act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds or such trust agreement, may, either at law or in equity, by suit action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the commonwealth or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this Act or by such resolution or trust agreement to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of rates, rentals, fees and charges for the use of or for the services and facilities furnished by any Parking Facilities. (1958, c. 383)

§ 12. As adequate off-street Parking Facilities are essential to the health, safety and general welfare of the public, and as the exercise of the power covered by this Act to effect such purposes constitute the performance of essential county functions, and as parking facilities constructed under the provisions of this Act constitute the performance of purposes, the Authority shall not be required to pay any taxes or assessments upon any such parking facilities or any part thereof, or upon the income therefrom, and any bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation within the Commonwealth. (1958, c. 383)

§ 13. The Authority is hereby authorized to issue from time to time revenue refunding bonds for the purpose of refunding any revenue bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. The Authority is further authorized to issue from time to time revenue bonds of the Authority for the combined purpose of (a) refunding any revenue bonds or revenue refunding bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and (b) paying all or any part of the cost of constructing any additional parking facilities or part thereof, or any improvements, extensions or enlargements of any parking facilities. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and the rights, powers, privileges, duties and obligations of the Authority with respect to the same, shall be governed by the foregoing provisions of this Act insofar as the same may be applicable. (1958, c. 383)

§ 14. Any such county is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this Act, from any moneys which may be available for such purpose, to provide for the preliminary expenses of such Authority in carrying out the provisions of this Act or to pay any item of cost of any parking facilities. (1958, c. 383)

§ 15. Any action taken by the Authority under the provisions of this Act may be authorized by resolution at any regular or special meeting and each such resolution shall take effect immediately and need not be published or posted. (1958, c. 383)

§ 16. This Act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of or as repealing any powers now existing under any other law, either general, special or local; provided, however, that the issuance of revenue bonds or revenue refunding bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds. (1958, c. 383)

§ 17. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions. (1958, c. 383)

(2000, c. [242](#); 2006, c. [658](#))

§ 3. The Authority shall be deemed to be a public instrumentality, exercising public and essential governmental functions to provide for the public health, welfare, convenience and prosperity of the residents of the County of Patrick and such other persons who might be served by the Authority (its service area) and to provide improved medical care and related services to such residents and persons and is hereby authorized to exercise the powers conferred by the following sections. (2000, c. [242](#))

§ 4. The Authority may plan, design, construct, renovate, enlarge, equip, maintain and operate projects for the purpose of providing medical care and related services and other appropriate purposes. The Authority may lease, sell or otherwise convey any or all of its projects to others who agree to provide for the operation of the same if the Authority determines that such sale, lease or other conveyance will assist, promote or further the purposes and intent of this act, subject to the provisions of § 5 below.

"Projects" as used in this act shall mean any medical facilities and approaches thereto and appurtenances thereof. Medical facilities shall include any and all medical facilities and equipment, including, without limitation, hospitals, nursing homes, continuing care facilities, self-care facilities, medical office facilities, clinics, outpatient surgical centers, alcohol, substance abuse and drug treatment centers, laboratories, research facilities, sanitariums, hospices, facilities for the residence or care of the elderly, the handicapped or the chronically ill, residential facilities for nurses, interns, and physicians and any other kind of facility for the treatment of sick, disturbed or infirm persons, together with all related and supporting facilities and equipment necessary and desirable in connection therewith or incidental thereto, or equipment alone, including, without limitation, parking facilities, kitchen, laundry, laboratory, pharmaceutical, administrative, communications, computer and recreational facilities and equipment, storage space, mobile medical facilities, vehicles and other equipment necessary or desirable for the transportation of medical equipment or the transportation of patients.

§ 5. The Authority may acquire property, real or personal, by purchase, gift or devise, on such terms and conditions, and in such manner as it may deem proper, and such rights, easements or estates therein as may be necessary for its purposes, and sell, lease and dispose of the same, or any portion thereof or interest therein, whenever it shall become expedient to do so and in any manner it deems appropriate, including without limitation by the granting of mortgages and other liens, the conveyance of property to related entities and the disposition of property no longer necessary or desirable for its operations; provided, however, that the Authority may not sell or otherwise dispose of all, or substantially all, of its property providing hospital care, other than to an entity controlled by the Authority, without the approval of the Board, expressed in a resolution. For purposes of the previous sentence, the granting of mortgages, deeds of trust, security interests, and other liens as security for indebtedness or other obligations of the Authority shall not be considered a sale or other disposition nor shall approval of the Board be required for any sale or other disposition resulting from the execution or foreclosure or other enforcement of such liens or other security devices. (2000, c. [242](#))

§ 6. The Authority may fix and revise from time to time and charge and collect rates, rentals, fees and other charges for the services and facilities furnished by the Authority, and establish and revise from time to time regulations, in respect to the use, occupancy or operation of any such facility or part thereof, or service rendered. (2000, c. [242](#))

§ 7. The Authority may accept loans, grants or assistance from the federal government, the Commonwealth, any municipality thereof, or from any other sources, public or private, to carry out any of its purposes and may enter into any agreement or contract regarding or relating to the acceptance or use or repayment of any such loan, grant or assistance. This power shall include the power to refinance all or any portion of the Authority's debt, to renegotiate the terms of all or any portion of such debt, and to retire all or any portion of such debt prior to its maturity date. (2000, c. [242](#); 2006, c. [658](#))

§ 7.1. The Authority shall have the following powers to carry out the purposes and intent of this act:

- (1) To provide or assist in providing medical care and related services in its service area.
- (2) To promote, develop, improve and increase the commerce and economic development of the County of Patrick and its environs.
- (3) To assist in or provide for the creation of domestic or foreign stock and nonstock corporations, limited liability companies, partnerships, limited partnerships, associations, foundations or other supporting organization or other entities, and to purchase, receive, subscribe for or otherwise acquire, own, hold, vote, use, employ, sell, mortgage, lend, pledge, or otherwise dispose of, shares

of or other interests in, or obligations of, any domestic or foreign stock and nonstock corporations, limited liability companies, partnerships, limited partnerships, associations, foundations or other supporting organizations, joint ventures or other entities organized for any purpose, or direct or indirect obligations of the United States, or of any other government, state, territory, governmental district or municipality or of any other obligations of any domestic or foreign stock or nonstock corporation, limited liability company, partnership, limited partnership, association, foundation or other supporting organization, joint venture or other entity organized for any purpose or any individual. The investments of any entity wholly owned or controlled by the Authority that is an "institution," as such term is defined in § [55-268.12](#), shall be governed by the Uniform Prudent Management of Institutional Funds Act (§ [55-268.11](#) et seq.) of the Code of Virginia.

(4) To provide domestic or foreign stock and nonstock corporations, limited liability companies, partnerships, limited partnerships, associations, foundations or other supporting organizations, joint ventures or other entities owned in whole or in part or controlled, directly or indirectly, in whole or in part, by the Authority with appropriate assistance, including making loans and providing time of employees, in carrying out any activities authorized by this act.

(9) To conduct or engage in any lawful business, activity, effort or project, necessary or convenient for the purposes of the Authority or for the exercise of any of its powers.

(10) To exercise all other powers granted to nonstock corporations pursuant to § [13.1-826](#) of the Code of Virginia as amended.

(11) To procure such insurance, participate in such insurance plans, or provide such self-insurance, or any combination thereof, as it deems necessary or convenient to carry out the purposes and provisions of this act. The purchase of insurance, participation in an insurance plan, or creation of a self-insurance plan by the Authority shall not be deemed a waiver or relinquishment of any sovereign immunity to which the Authority or its members, officers, directors, employees, or agents are otherwise entitled. (2000, c. [242](#); 2006, c. [658](#))

§ 7.2. Notwithstanding the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.) of the Code of Virginia, the Authority shall be permitted to conduct executive or closed meetings to discuss or consider the condition, acquisition or use of real or personal property or plans for the future of the Authority which could affect the value of property, real or personal, owned or desirable for ownership by the Authority; for discussion or consideration of matters relating to gifts, bequests and fund-raising activities; grants and contracts for services or work to be performed by the Authority; marketing and operational strategies that will affect competitive position; and the discussion or consideration of members of its medical staff, and qualifications and appointments thereto. The Authority shall follow the provisions of § [2.2-3712](#) when convening executive or closed meetings.

The Authority shall not be required to disclose records pertaining to the qualifications for or continued membership on its medical staff; proprietary information gathered by or in the possession of the Authority from third parties; contract cost estimates prepared for confidential use and awarding contracts for construction or the purchase of goods or services; data, records, or information of a proprietary nature produced or collected by or for the Authority or members of its staff; financial statements not publicly available which may be filed with the Authority from third parties; customer account information; consulting or other reports paid for by the Authority to assist the Authority in connection with its strategic planning and goals; and the determination of marketing and operational strategies that affect competitive position.

The Authority's exemptions from the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.) shall be limited to those activities specifically described in this section and those exemptions otherwise granted under the provisions of the Act. Except as specifically provided in this section, the Authority shall be subject to the provisions of the Virginia Freedom of Information Act.

Notwithstanding the exemptions from the Virginia Freedom of Information Act granted by this section, the Authority shall comply with all applicable state reporting requirements. (2000, c. [242](#); 2006, c. [658](#))

§ 7.3. The provisions of the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.) shall not apply to the Authority in the exercise of any power conferred under this chapter. The Authority shall not discriminate against any person on the basis of race, color, religion, national origin, sex, pregnancy, childbirth or related medical conditions, age, marital status, or disability in the procurement of goods or services. (2000, c. [242](#))

§ 8. The Authority may borrow money and issue bonds as hereinafter provided. (2000, c. [242](#))

§ 9. In addition to the powers granted by general law or by charter, any county or municipality in the Commonwealth is empowered to cooperate with the Authority as follows:

- (a) To make such appropriations and provide such funds for the operation of and carrying out the purposes of the Authority as the governing body may deem proper, either by outright donation or by loan, or the governing body may agree with such Authority to take such action.
- (b) To dedicate, sell, convey or lease any of its interest in property, or grant easements, licenses or any other privileges therein to any such Authority.
- (c) To cause parks, playgrounds, recreational, community, educational, water, sewer or drainage facilities, or any other works which it is otherwise empowered to undertake, to be furnished adjacent to or in connection with property of or any facility or project of such Authority.
- (d) To furnish, dedicate, close, pave, install, grade or regrade, plan or replan streets, roads, roadways, alleys, sidewalks or other places which it is otherwise empowered to undertake.
- (e) To plan or replan, zone or rezone any part of such county or municipality in connection with the use of any property of such Authority or any property adjacent to the property of such Authority or any of its facilities or projects which it is otherwise empowered to undertake, in accordance with general laws.
- (f) To cause services to be furnished to the Authority of the character which such county or municipality is empowered to furnish.
- (g) To purchase any of the bonds of such Authority or legally invest in such bonds any funds belonging to or within the control of such county or municipality and exercise all the rights of any holder of such bonds.
- (h) To do any and all things necessary or convenient to aid or cooperate in the planning, undertaking, construction or operation of any of the plans, projects or facilities of such Authority.
- (i) To enter into agreements with such Authority respecting action to be taken by such county or municipality pursuant to any of the above powers. (2000, c. [242](#))

§ 10. The Authority is hereby authorized to issue bonds from time to time in its discretion for the purpose of paying all or any part of the cost of any project within its service area or for the purpose of paying or refunding, at or prior to the maturity thereof, any bonds previously issued by the Authority, the Commonwealth or any agency or political subdivision thereof. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable as to principal and interest from any one or more of the following: (a) its revenues generally; (b) the income and revenues of a particular project (including revenues from the sale of or lease of

such project); (c) the income and revenues of certain designated projects, whether or not they are financed in whole or in part from the proceeds of such bonds; (d) the proceeds of the sale or lease of any project or projects, whether or not they are financed from the proceed of such bonds; (e) funds realized from the enforcement of security interests or other liens securing such bonds; (f) proceeds from the sale of bonds of the Authority; (g) payments due under letters of credit, policies of bond purchase agreements or other credit enhancements securing payment of bonds of the Authority; (h) any reserve or sinking funds created to secure such payment; or (i) other available funds of the Authority; however, bonds issued to finance the construction or acquisition of projects that are not operating projects of the Authority shall not be payable from revenues of the Authority generally or from any revenues derived from operating projects.

"Bonds" as used in this act shall include bonds, notes, revenue certificates and other evidences of indebtedness.

"Cost" as used in this subsection shall mean costs of construction, acquisition of lands, structures, rights-of-way, franchises, easements and other property rights and interests; costs of demolition, removal or relocation of buildings or structures; costs of labor, materials, machinery and all other kinds of equipment; financing charges; interest on bonds and other borrowing in connection with a project prior to and during construction thereof and for a period not exceeding one year after the completion of such construction; costs of engineering, financial and legal services, plans, specifications, studies, surveys, estimates of costs and of revenues, feasibility studies, administrative expenses, including administrative expenses during the start-up of any facility; provision of working capital to be used in connection with any project; reserve funds and other reserves for the payment of principal and interest on bonds; and all other expenses necessary, desirable or incidental to the construction and acquisition of projects, the financing of the same or placing of the same in operation.

Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, copartnership, association, or individual, or a pledge of any income or revenues of the Authority, or a mortgage or a deed of trust or other lien on or a security interest in, any particular project or projects or other property of the Authority.

Neither the members of the Authority nor any person executing any bonds issued under the provisions of this act shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of the Authority (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof and neither the Commonwealth nor any political subdivision thereof other than the Authority shall be liable thereon, nor shall such bonds or obligations be payable out of any funds or properties other than those of the

Authority. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. Bonds of the Authority are declared to be issued for an essential public and governmental purpose. (2000, c. [242](#))

§ 11. Bonds of the Authority shall be authorized by resolution and may be issued in one or more series, shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest payable at such time or times at such rate or rates, as may be determined by the Authority, or as may be determined in such manner as the Authority may provide, including the determination by agents, designated by the Authority under guidelines established by the Authority, and may be made redeemable before maturity, at the option of the Authority at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before delivery of such bond, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery.

Notwithstanding any of the other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. Bonds issued in registered form may be issued under a system of book-entry for recording the ownership and transfer of ownership of rights to receive payments of principal of and premium, if any, and interest on such bonds. The Authority may contract for the services of one or more banks, trust companies, financial institutions or other entities or persons, within or outside the Commonwealth, for the authentication, registration, transfer, exchange and payment of the bonds, or may provide such services itself. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be in the best interests of the Authority.

Prior to the preparation of definitive bonds the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost.

Bonds may be issued under the provisions of this act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth or of any political subdivision, and

without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this act. (2000, c. [242](#))

§ 12. In the discretion of the Authority, any bonds issued under the provisions of this act may be secured by a trust indenture by way of conveyance, deed of trust or mortgage of any project or any other property of the Authority, whether or not financed in whole or in part from the proceeds of such bonds, or by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth or by both such conveyance, deed of trust or mortgage and indenture or trust agreement. Such trust indenture or agreement, or the resolution providing for the issuance of such bonds may pledge or assign fees, rents and other charges to be received. Such trust indenture or agreement, or resolution providing for the issuance of such bonds, may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants providing for the repossession and sale by the Authority or any trustees under any trust indenture or agreement of any project, or part thereof, upon any default under the lease or sale of such project, setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of any project or other property of the Authority, the amounts of fees, rents and other charges to be charged, the collection of such fees, rents, and other charges, and the custody, safeguarding and application of all moneys of the Authority, and conditions or limitations with respect to the issuance of additional bonds. It shall be lawful for any national bank with its main office in the Commonwealth or any other state or any bank or trust company incorporated under the laws of the Commonwealth or another state which may act as depository of the proceeds of such bonds or of other revenues of the Authority to furnish indemnifying bonds or to pledge such securities as may be required by the Authority. Such trust indenture or agreement or resolution may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders.

In addition to the foregoing, such trust indenture or agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders, including, without limitation, provisions for the assignment to a corporate trustee or escrow agent of any rights of the Authority in any project owned by, or leases or sales of any projects made by, the Authority. All expenses incurred in carrying out the provisions of such trust indenture or agreement or resolution or other agreements relating to any project, including those to which the Authority may not be a party, may be treated as a part of the cost of a project. (2000, c. [242](#))

§ 13. The Authority is hereby authorized to fix, revise, charge and collect fees, rents and other charges for the use of any project. Such fees, rents and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the principal and any interest on bonds secured by or otherwise to be paid by such revenues, as the same shall become due and payable, to create

reserves for such purposes and for other purposes of the Authority and to pay the cost of maintaining, repairing and operating the project. Such fees, rents and charges shall not be subject to supervision or regulation by any commission, board, bureau or agency of the Commonwealth or any such participating political subdivision. The fees, rents and other charges received by the Authority may be applied and set aside from time to time in the order and in the manner as may be provided in such resolution or trust indenture or agreement including application to a sinking fund which may be pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. All pledges of such fees, rents and other charges to payment of bonds shall be valid and binding from the time when the pledge is made. The fees, rents and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. Except as may otherwise be provided in such resolution or such trust indenture or agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. (2000, c. [242](#))

§ 14. All moneys received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this act. (2000, c. [242](#))

§ 15. Any holder of bonds, notes, certificates or other evidence of borrowing issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, except to the extent of the rights herein given may be restricted by such trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust indenture or agreement or the resolution authorizing the issuance of such bonds, notes or certificates, and may enforce and compel the performance of all duties required by this act or by such trust indenture or agreement or resolution to be performed by the Authority or by any officer or agent thereof, including the fixing, charging and collection of fees, rents and other charges. (2000, c. [242](#))

§ 16. The exercise of the powers granted by this act shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the promotion of their safety, health, welfare, convenience and prosperity, and as the operation and maintenance of any project which the Authority is authorized to

undertake will constitute the performance of an essential governmental function, no authority shall be required to pay any taxes or assessments upon any project acquired and constructed by it under the provisions of this act; and the bonds, notes, certificates or other evidences of debt issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. (2000, c. [242](#))

§ 17. Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. The Commission may expend any and all funds received from the participating subdivisions and any and all revenues derived from the airport or derived from revenue-producing operations of the Commission, without obtaining the approval of the participating subdivisions, but the Commission shall not commit the participating subdivisions beyond appropriations actually made by the governing bodies of said subdivisions. Prior to the preparation of definitive bonds the Commission may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such

bonds shall have been executed and are available for delivery. The Commission may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost.

(1964, c. 270; 1989, c. 270)

§ 18. Bonds issued by the Commission under breach provisions of this Act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents and charges so pledged and thereafter received by the Commission shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Commission, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Commission. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. Except as may otherwise be provided in such resolution or such trust indenture or agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. (1989, c. 270)

§ 19. All moneys received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this act. (1964, c. 270)

Any resolution authorizing the issuance of Commission's bonds or trust indenture or agreement securing the same may limit or abrogate the individual right of action by the holders of such bonds or coupons appertaining thereto. (1964, c. 270; 1989, c. 270)

§ 21. The exercise of the powers granted by this Act shall be in all respects for benefit of the inhabitants of the Commonwealth, for the increase of their commerce, for the promotion of their safety, health, welfare, convenience and prosperity, and as operation and maintenance of any project which the authority is authorized to under will constitute the performance of an essential governmental function, the Commission not be required to pay any taxes or assessments upon any facilities acquired constructed by it under the provisions of this Act, including but not limited to, its real estate, tangible personal property and machinery and tools. The bonds, notes, certificates or other evidences of debt issued under the provisions of this Act, their transfer and the income therefrom including any

profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof.

Persons, firms, partnerships, associations, corporations and organizations leasing property of the Commission or doing business on property of the Commission shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property, machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling and taxes upon consumers of gas, electricity, telephone and other public utility services. (1964, c. 270; 1989, c. 270)

§ 22. No provision of this Act shall relieve, impair or affect any right, duty, liability or obligation arising out of any contract, concession, lease or franchise now in existence except to the extent that such contract, concession, lease or franchise may permit. Notwithstanding the foregoing provisions of this section, the Commission may renegotiate, renew, extend the term of or otherwise modify at any time any concession, lease or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease or franchise consents to said renegotiation, renewal, extension or modification. (1964, c. 270; 1989, c. 270)

§ 23. This Act shall constitute full and complete authority, without regard provisions of any other law, for the doing of the acts and things herein authorized, and shall be liberally construed to effect the purposes hereof. Neither this Act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers which the Commission might otherwise have under any laws of this Commonwealth, and this Act is cumulative to any such powers. This Act does and shall be construed to provide a complete, additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds, notes or other obligations. No proceedings, notice or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this Act. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act. § 11. The improvement and development of Port Facilities for the purpose of increasing trade and commerce beneficial to the economy, prosperity and welfare of the Commonwealth conform to the overall state policy of promoting the development and operation of adequate, modern and efficient seaports and harbors through such aids and other encouragement as may be authorized by the General Assembly. To promote and encourage the acquisition, construction, operation and maintenance of Port Facilities and to enable the Authority to sell its bonds for paying the cost of such Port Facilities, the Authority is authorized to pledge for the payment of such bonds, in addition to other revenues, moneys from time to time (i) appropriated to or for the use of the Authority by the General Assembly and available for such purpose and (ii) paid to the Authority by the City of Newport News or the City of Hampton or both cities as provided in this section. Notwithstanding any charter or statutory provision to the contrary, the Cities of Newport News and Hampton are, or either of them is, authorized to pay to the Authority for each fiscal year during which any of such bonds are outstanding an amount not exceeding the Bond Requirement Deficiency, as hereinafter defined, incurred in such fiscal year

and the City of Newport News and the City of Hampton, or either of them, and the Authority are empowered to enter into any contract or contracts, for such period of years as they determine to be necessary, providing for such payments and further providing that in consideration of the assumption by the City of Newport News or the City of Hampton, or both cities, as the case may be, of such contingent liability to make such payments the Authority may convey to the respective city or cities, when all bonds of the Authority payable from any revenues of such Port Facilities, including interest thereon, shall have been paid or sufficient funds for such payment shall have been deposited in trust therefor, title to such Port Facilities of the Authority, subject to any leasehold interests, licenses, liens or other lawful encumbrances thereon. The term "Bond Requirement Deficiency" as used in this act means for any fiscal year an amount equal to one-half of the total amount required for such fiscal year to provide for payment of principal of and interest on, and for amortization and reserves for, the bonds of the Authority that are issued under this act to pay the cost of such Port Facilities, less the amount of any funds appropriated by the General Assembly to or for the use of the Authority for such fiscal year and available for such purpose.

Any liability to make any payment assumed by the City of Newport News or the City of Hampton under any such contract or contracts, being contingent upon the existence of a Bond Requirement Deficiency caused by inadequate appropriations to or for the use of the Authority by the General Assembly, shall not constitute or create an obligation or an indebtedness within the meaning of any constitutional, statutory or charter limitations upon obligations or debts of such city, and the execution of any such contract or contracts by the City of Newport News or the City of Hampton shall not be deemed to create any obligation or debt contrary to any such limitations. (1952, c. 46; 1964, c. 39; 1984, c. 249)

§ 12. (a) through (e). [Repealed.]

(f) The Authority shall have the power to issue bonds from time to time in its discretion, for any of its purposes, including the payment of all or any part of the cost of Authority Facilities and including the payment or retirement of bonds previously issued by it. All bonds issued by the Authority shall be payable solely from the revenues and receipts derived from the leasing or sale by the Authority of its facilities or any part thereof or from other funds provided for such payment and the Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest: (i) from its revenues and receipts generally; (ii) exclusively from the revenues and receipts of a particular facility; or (iii) exclusively from the revenues and receipts of certain designated facilities whether or not they are financed in whole or in part from the proceeds of such bonds. Unless otherwise provided in the proceeding authorizing the issuance of the bonds, or in the trust indenture securing the same, all bonds shall be payable solely and exclusively from the revenues and receipts of a particular facility. Bonds may be executed and delivered by the Authority at any time and from time to time, may be in such form and denominations

and of such terms and maturities, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times not exceeding forty (40) years from the date thereof, may be payable at such place or places whether within or without the Commonwealth, may bear interest at such rate or rates (which may change, within specified limits, pursuant to provisions or procedures approved by the board of directors), may be payable at such time or times and at such place or places, may be evidenced in such manner, and may contain such provisions not inconsistent herewith, all as shall be provided and specified by the board of directors in authorizing each particular bond issue. If deemed advisable by the commissioners, there may be retained in the proceedings under which any bonds of the Authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing herein contained shall be construed to confer on the Authority any right or option to redeem any bonds except as may be provided in the proceedings under which they shall be issued. Any bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the board of directors of the Authority to be most advantageous, and the Authority may pay all costs, premiums and commissions which its commissioners may deem necessary or advantageous in connection with the issuance thereof. Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facility or any other facility, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount as the commissioners may deem necessary, but not exceeding an amount sufficient to refund principal of the bonds so to be refunded, together with any unpaid interest thereon and any costs, premiums or commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof to the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby, with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or on different dates, or shall be due serially or otherwise.

(g) All bonds shall be signed by the chairman or vice chairman of the Authority or shall bear his facsimile signature, and the corporate seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the signature of the secretary (or the secretary-treasurer) or the assistant secretary (or assistant secretary-treasurer) of the Authority or shall bear his facsimile signature, and any coupons attached thereto shall bear the facsimile signature or said chairman. In

case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be an officer before delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. When the signatures of both the chairman or the vice-chairman and the secretary (or the secretary-treasurer) or the assistant secretary (or the assistant secretary-treasurer) are facsimiles, the bonds must be authenticated by a corporate trustee or other authenticating agent approved by the Authority.

(h) If the proceeds derived from a particular bond issue, due to error of estimates or otherwise, shall be less than the cost of the Authority Facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall exceed such cost, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements or enlargements of the Authority Facilities for which such bonds shall have been issued.

(i) Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this chapter without obtaining the consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions or things which are specifically required by this chapter; provided, however, that nothing contained in this chapter shall be construed as affecting the powers and duties now conferred by law upon the State Corporation Commission.

(j) All bonds issued under the provisions of this chapter shall have and are hereby declared to have all the qualities and incidents of and shall be and are hereby made negotiable instruments under the Uniform Commercial Code of Virginia, subject only to provisions respecting registration of the bonds.

(k) In addition to all other powers granted to the Authority by this chapter, the Authority is authorized to provide for the issuance, from time to time, of notes or other obligations of the Authority for any of its authorized purposes. All of the provisions of this chapter which relate to bonds or revenue bonds shall apply to such notes or other obligations insofar as such provisions may be appropriate. (1952, c. 46; 1964, c. 39; 1974, c. 495; 1984, c. 249)

§ 13. Revenue bonds issued under the provisions of this act shall not be deemed to constitute a debt or a pledge of the faith and credit of the State but shall be payable solely from the funds provided therefor as herein authorized. All such revenue bonds shall contain on the face thereof a statement to the effect that neither the State nor the Authority shall be obligated to pay the same or the interest thereon except from the revenues and moneys pledged therefor and that neither the faith, and credit nor the taxing power of the State is pledged to the payment of the principal of or the interest on such bonds.

All expenses incurred in carrying out the provisions of this act shall be payable solely from funds of the Authority and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall be available to the Authority. (1952, c. 46; 1964, c. 39)

§ 14. (a) In the discretion of the Authority any bonds issued under the provisions of this act may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. Such trust agreement or the bond resolution providing for the issuance of such bonds may pledge or assign the revenues of the Authority Facilities (or any part thereof). Such trust agreement or bond resolution may contain such provisions for protecting and enforcing the rights and remedies of the holders of the bonds as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the Authority Facilities, the rates to be charged, the custody, safeguarding and application of all moneys and conditions or limitations with respect to the issuance of additional bonds. It shall be lawful for any national bank with its main office in the Commonwealth or any bank or trust company incorporated under the laws of the Commonwealth or another state which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the holders of the bonds and of the trustee, and may restrict the individual right of action by such bondholders. In addition to the foregoing, any such trust agreement or bond resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the holders of bonds. All expenses incurred in carrying out the provisions of such trust agreement or bond resolution may be treated as part of the cost of the operation of the Authority Facilities.

(b) All moneys received pursuant to the provisions of this act, whether as proceeds from the sale of bonds, revenues or other moneys made available hereunder shall be deemed to be trust funds to be held and applied solely as provided in this act. The Authority may provide in the bond resolution or in the trust agreement for the payment of the proceeds derived from the sale of the bonds and the revenues to be received to a trustee, which shall be any trust company or bank having the powers of a trust company within or without the Commonwealth, that shall act as trustee of such funds and hold

and apply the same to the purposes of this act, subject to such requirements as may be provided in this act, the bond resolution or the trust agreement. The trustee may invest and reinvest such funds, pending their disbursement for the Authority Facilities, in securities that are legal investments under the laws of the Commonwealth for funds held by fiduciaries or are otherwise approved by the Authority. (1952, c. 46; 1964, c. 39; 1974, c. 495; 1984, c. 249)

§ 15. (a) The exercise of the powers granted by this act shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their safety, health, welfare, convenience and prosperity. The bonds, notes or other obligations issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any municipality, county or other political subdivision thereof. Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.

(b) As the operation and maintenance of Port Facilities will constitute the performance of essential governmental functions, no taxes or assessments shall be levied by the Commonwealth or by any county, city, political subdivision, district or other agency or instrumentality of the Commonwealth upon any Port Facilities or upon any leasehold or other interest or property acquired or used in connection with, or any income derived from, the operation and maintenance of any Port Facilities by the Authority or any lessee or other holder of any right to or interest in the Port Facilities pursuant to any contract with the Authority.

(c) The operation and maintenance of Authority Facilities within the meaning of § 6(f) of this act constitute the performance of essential governmental functions and are for a public purpose promoting the industry and economy of the State Commonwealth and thereby providing employment, stimulating business, increasing tax revenues, contributing to the general welfare of the State Commonwealth and promoting the health, welfare and education of the inhabitants of the Commonwealth. No taxes or assessments shall be levied by the Commonwealth or by any county, city, political subdivision, district or other agency or instrumentality of the State Commonwealth upon Authority Facilities within the meaning of § 6(f) or upon any leasehold or other interest or property acquired or used in connection with, or any income derived from, the operation and maintenance of any such facilities by the Authority or any lessee or other holder of any right to or interest in such facilities pursuant to any contract with the Authority. The Authority is authorized to agree to make and may make, out of any revenues or

other funds available therefor, payments in lieu of taxes or assessments to the City of Newport News, the City of Hampton or any other political subdivision of the State Commonwealth. (1952, c. 46; 1964, c. 39; 1984, c. 249)

§ 16. In order to secure the payment of such bonds the Authority shall have power by provisions included in any bond resolution or trust agreement:

- (a) to pledge all or any part of the gross or net revenues of the Authority Facilities (or any part thereof) and to pledge all or any part of any other moneys then or thereafter available to the Authority;
- (b) to covenant against pledging all or any part of such revenues and other moneys or against permitting or suffering any lien on such revenues or moneys or against the Authority Facilities; to covenant with respect to limitations on its right to sell, lease or otherwise dispose of any Authority Facilities (or any part thereof) or any other property; and to covenant as to what other or additional bonds or obligations may be issued by it;
- (c) to covenant as to the bonds to be issued and as to the issuance of such bonds in escrow or otherwise, and as to the use and disposition of the proceeds thereof; to covenant against extending the time for the payment of its bonds or interest thereon; and to redeem the bonds, covenant for their redemption and provide the terms and conditions thereof;
- (d) to covenant as to the rents and fees to be charged in the operation of any Authority Facilities, the amount to be raised each year or other period of time by rates, fees, rents, tolls, charges and other revenues and as to the use and disposition to be made thereof; to create or to authorize the creation of special funds for moneys held for acquisition, construction or operating cost, payment of the bonds and interest thereon, reserves, or other purposes, and to covenant as to the use and disposition of the moneys held in such funds;
- (e) to prescribe the procedure, if any, by which the terms of any contract with the holders of the bonds may be amended or abrogated, the amount of bonds the holders of which must consent thereto and the manner in which such consent may be given;
- (f) to covenant as to the use of any or all of its real or personal property; and to covenant as to the maintenance of its real and personal property, the replacement thereof, the insurance to be carried thereon and the use and disposition of insurance moneys;
- (g) to covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition or obligation; and to covenant and prescribe as to events of default and conditions upon which any or all of its bonds or obligations shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived;

(h) to vest in a trustee or trustees or the holders of bonds or any proportion of them the right to enforce the payment of the bonds or any covenant securing or relating to the bonds; to vest in a trustee or trustees the right, in the event of a default by the Authority, to take possession and use, operate and manage any facility or part thereof, and to collect and use the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the Authority with said trustee; to provide for the powers and duties of a trustee or trustees or the holders of bonds or any proportion of them who may enforce any covenant or rights securing or relating to the bonds; and

(i) to exercise all or any part or combination of the powers herein granted; to make covenants other than and in addition to the covenants herein expressly authorized, of like or different character; to make such covenants and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds or, in the absolute discretion of said Authority, as will tend to make the bonds more marketable notwithstanding that such covenants, acts or things may not be enumerated herein. (1952, c. 46; 1964, c. 39)

§ 17. An obligee of the Authority shall have the right in addition to all other rights which may be conferred on such obligee, subject to any contractual restrictions binding upon such obligee:

(a) By mandamus, suit, action or proceeding at law or in equity to compel the Authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of the Authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants or agreements of the Authority and the fulfillment of all duties imposed upon the Authority by this chapter.

(b) By suit, action or proceedings in equity, to enjoin any acts or things which may be unlawful, or the violation of any, of the rights of such obligee of the Authority. (1952, c. 46)

§ 18. The Authority is hereby authorized to establish, maintain, revise, charge and collect such rates, fees, rents, tolls or other charges for the use, services and facilities of the Authority Facilities and to contract with any person, partnership, association or corporation desiring the use of any part thereof, and to fix the terms, conditions, rates, fees, rents, tolls and charges for such use. Such rates, fees, rents, tolls and charges shall be so fixed and adjusted so that the revenues of the Authority Facilities, including moneys to be provided by the State, the city of Newport News, the city of Hampton or any other public agency or donor shall be sufficient to pay (a) the cost to the Authority of maintaining, repairing and operating the Authority Facilities and (b) the principal of and the interest on such bonds as the same shall become due and payable, and to create reserves for such purposes. Such rates, fees, rents, tolls and charges shall not be subject to supervision or regulation by any commission, board, bureau or agency of the State or of any municipality, county, or other political subdivision of the State. The revenues derived from or in connection with the ownership or operation of the Authority

Facilities, except such part thereof as may be necessary to pay the cost of maintenance, repair and operation thereof and to provide such reserves thereof as may be required under the bond resolution or the trust agreement, shall be set aside at such regular intervals as may be provided in the bond resolution or the trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. The revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the bond resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the bond resolution or the trust agreement. Such sinking fund shall be a fund for all such bonds without distinction or priority of one over another or with such distinctions and priorities among such bonds as may be provided in the bond resolution or the r trust agreement. A reserve may be accumulated and maintained out of the revenues and other moneys available to the Authority for extraordinary repairs and expenses and for such other purposes as may be provided in the bond resolution or trust agreement. Subject to such provisions and restrictions as may be set forth in the bonds resolution or trust agreement the Authority shall have exclusive control of the revenues derived from or in connection with the Authority Facilities and the right to use such revenues in the exercise of its powers and duties et forth in this act. (1952, c. 46; 1964, c. 39)

§ 19. In addition to other powers conferred by this act, the Authority shall have the following additional authority and powers:

- (a) to borrow money and to accept contributions, grants and other financial assistance from the United States of America and agencies or instrumentalities thereof, the State, the cities of Newport News and Hampton, or any other political subdivision, agency or public instrumentality of the State, for or in aid of the construction, acquisition, operation, maintenance or repair of the Authority Facilities or for the payment of principal of or interest on any revenue bonds of the Authority, and to this end the Authority shall have the power to comply with such conditions and to execute such agreements, trust agreements and other legal instruments as may be necessary, convenient or desirable and to agree to such terms and conditions as may be imposed;
- (b) to exercise the powers vested under this act free of the jurisdiction or control of any other State agency or instrumentality empowered to exercise powers and duties relating to harbors, seaports or port facilities; and

(c) to use, apply and expend funds appropriated by the General Assembly in conformity with the requirements of the respective appropriation; provided, however, that no such appropriated funds shall be used, applied or expended in connection with any property or facilities other than property or facilities owned by the State or the Authority or in which the Authority has a leasehold interest extending at least to the final maturity date of any bonds of the Authority then outstanding.

Any provision of this act which is found to be in conflict with any other statute or city charter shall be controlling and shall supersede such other statute or charter to the extent of such conflict. (1952, c. 46; 1964, c. 39)

§ 20. Whenever the commission of the Authority declares and finds that the purposes for which the Authority was created have been completed or are impractical or impossible, or that substantially all of its functions have been taken over or are being undertaken by one or more political subdivisions and that the Authority should be dissolved, it shall adopt and file with the governing body of the City of Newport News a resolution declaring such findings. If the governing body of the City of Newport News concurs with such declaration and findings that the Authority should be dissolved, it shall so resolve and the Authority shall stand dissolved.

Notwithstanding the provisions of the preceding paragraph, the Authority shall continue in existence and shall not be dissolved unless all of the Authority's obligations have been paid or have been assumed by one or more political subdivisions, or by an authority created thereby, or cash or United States government securities have been deposited for their payment. "Indian tribe" means an Indian tribe or band that is recognized by federal law.

"Planning district" means a contiguous area within the boundaries established by the Department of Housing and Community Development.

"Population," unless a different census is clearly set forth, means the number of inhabitants according to the United States census latest preceding the time at which any provision dependent upon population is being applied, or the time as of which it is being construed, unless there is available an annual estimate of population prepared by the Weldon Cooper Center for Public Service of the

1968, c. 224, § 15.1-1402; 1976, c. 760; 1986, c. 164; 1990, c. 722; 1995, cc. [732](#), [796](#); 1997, c. [587](#); 2017, c. [377](#).

§ 15.2-4203. Organization of planning district commission

A. At any time after the establishment of the geographic boundaries of a planning district, the localities or Indian tribes embracing at least 45 percent of the population within the district acting by their governing bodies may organize a planning district commission by written agreement. Any locality not a party to such charter agreement shall continue as a part of the planning district, but, until such time as such locality elects to become a part of the planning district commission as hereinafter provided, shall not be represented in the composition of the membership of the planning district commission. Any Indian tribe (i) whose land is located within the boundaries of the planning district and (ii) that is not a party to such charter agreement may elect to become part of the planning district commission at any time after its formation, and may negotiate the terms of such membership with the planning district commission. Whenever a planning district is created which contains only two counties, the governing body of either county may organize a planning district commission in accordance with the provisions of this chapter if the governing body of the other county does not agree to organize such a planning district commission.

B. The charter agreement shall set forth:

1. The name of the planning district. An entity organized as a planning district commission under this act may employ the name "regional council" or "regional commission" as a substitute for the name "planning district commission."
2. The locality in which its principal office shall be situated.
3. The effective date of the organization of the planning district commission.
4. The composition of the membership of the planning district commission. At least a majority of its members shall be elected officials of the governing bodies of the localities within the district, or members of the General Assembly, with each county, city and town of more than 3,500 population having at least one representative. In any planning district other than planning district number 23, a town of 3,500 or less population may petition the planning district commission to be represented thereon. The planning district commission may, in its discretion, grant representation to such town by a majority vote of the members of the commission. Other members shall be qualified voters and residents of the district. In planning districts number 4 and 14, the membership may also include representatives of higher education institutions. Should the charter agreement, as adopted, so provide, an alternate may serve in lieu of one of the elected officials of each of the governing bodies of the participating localities.

5. The term of office of the members, their method of selection or removal and the method for the selection and the term of office of a chairman.

6. The voting rights of members. Such voting rights need not be equal and may be weighed on the basis of the population of the locality represented by the member, the aggregation of the voting rights of members representing one locality, or otherwise.

7. The procedure for amendment, for addition of other localities within the planning district which are not parties to the original charter agreement, and the withdrawal from the charter agreement by localities within the planning district electing to do so.

C. The governing body of any locality which is a member of the planning district commission may provide for compensation to be paid by it for its commission members, except for any full-time salaried employees of the locality. The amount of such compensation shall not exceed the amount fixed by the planning district commission.

1968, c. 224, § 15.1-1403; 1970, cc. 303, 703; 1972, c. 595; 1973, c. 176; 1982, c. 660; 1989, c. 49; 1993, c. 838; 1995, cc. [732](#), [796](#); 1997, c. [587](#); 1998, cc. [668](#), [686](#); 2000, c. [984](#); 2005, c. [819](#); 2017, c. [377](#).

§ 15.2-4204. Disposition of earnings and assets of planning district commissions

No part of the net earnings of any planning district commission organized under the provisions of this chapter shall inure to the benefit of, or be distributable to, any of its members, officers or other private persons, other than to its member localities as provided in this chapter. However, the commission may pay reasonable compensation for services rendered and make payments and distributions in furtherance of the purposes of a planning district commission as set forth in this chapter and in its charter and bylaws. Upon the dissolution or termination of any planning district commission, it shall, after paying or making provisions for the payment of its liabilities, distribute its assets to its member localities, pro rata, based upon the formula used to determine local government dues to the commission.

1989, c. 178, § 15.1-1403.1; 1995, cc. [732](#), [796](#); 1997, c. 587.

§ 15.2-4205. Powers of commission generally

A. Upon organization of a planning district commission, pursuant to charter agreement, it shall be a public body corporate and politic, the purposes of which shall be to perform the planning and other functions provided by this chapter, and it shall have the power to perform such functions and all other powers incidental thereto.

B. Without in any manner limiting or restricting the general powers conferred by this chapter, the planning district commission may:

1. Adopt and have a common seal and to alter the same at pleasure.

2. Sue and be sued.
3. Adopt bylaws and make rules and regulations for the conduct of its business; however, a planning district commission shall not amend its budget once adopted during the applicable fiscal year except pursuant to an affirmative vote of the same number of the entire membership of the planning district commission required to adopt the budget.
4. Make and enter into all contracts or agreements, as it may determine, which are necessary or incidental to the performance of its duties and to the execution of the powers granted under this chapter.
5. Apply for and accept, disburse and administer, for itself or for member localities so requesting, loans and grants of money or materials or property at any time from any private or charitable source or the United States of America or the Commonwealth, or any agency or instrumentality thereof.

The strategic plan shall include those subjects necessary to promote the orderly and efficient development of the physical, social and economic elements of the district such as transportation, housing, economic development and environmental management. The plan shall become effective with respect to all action of a planning district commission upon approval by the planning district commission. The plan shall not become effective with respect to the action of the governing body of any locality within the district until adopted by the governing body of such locality.

E. The adopted strategic plan shall be submitted within thirty days of adoption to the Department of Housing and Community Development for information and coordination purposes.

employment with the Authority shall be treated as employment with any nonparticipating employer for purposes of the Virginia Retirement System or other retirement plan authorized pursuant to Article 4 (§ [51.1-125](#) et seq.) of Chapter 1 of Title 51.1.

3. For employees who elect to become members of the alternative retirement plan established by the Authority, the Virginia Retirement System or other such authorized plan shall transfer to the alternative retirement plan established by the Authority, assets equal to the actuarially determined present value of the accrued basic benefits as of the transfer date. For purposes hereof, the "basic benefits" means the benefits accrued under the Virginia Retirement System or other such authorized retirement plan based on creditable service and average final compensation as defined in § [51.1-124.3](#). The actuarial present value shall be determined by using the same actuarial factors and assumptions used in determining the funding needs of the Virginia Retirement System or other such authorized retirement plan so that the transfer of assets to the alternative retirement plan established by the Authority will have no effect on the funded status and financial stability of the Virginia Retirement System or other such authorized retirement plan. The Authority shall reimburse the Virginia Retirement System for the cost of actuarial services necessary to determine the present value of the accrued basic benefit of employees who transfer to an Authority retirement plan.

4. The Authority may provide that employees of the Authority who are eligible to participate in the deferred compensation plan sponsored by the Authority shall be enrolled automatically in such plan, unless such employee elects, in a manner prescribed by the Board, not to participate. The amount of the deferral under the automatic enrollment and the group of employees to which the automatic enrollment shall apply shall be set by the Board; provided however, that such employees are provided the opportunity to increase or decrease the amount of the deferral in accordance with the Internal Revenue Code of 1986, as amended.

§ 62.1-129.2. Trust for postemployment benefits authorized; administration

A. The Authority is hereby authorized to establish and maintain a trust or equivalent arrangement for the purpose of accumulating and investing assets to fund postemployment benefits other than pensions, as defined herein. Such trust or equivalent arrangement shall be irrevocable; the assets of such trust or similar arrangement shall be dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the plan or programs providing postemployment benefits other than pensions; and the assets of such trust or equivalent arrangement shall be exempt from taxation and execution, attachment, garnishment or any other process against the Authority or a retiree or beneficiary. The funds of the trust or similar arrangement shall be deemed separate, and independent trust funds shall be segregated from all other funds of the Authority, and shall be invested and administered solely in the interests of the active or former employees (and their dependents or beneficiaries) entitled to postemployment benefits other than pensions covered by the Fund.

B. The Authority may make appropriations to any such trust or equivalent arrangement, and the Authority may require active and former employees covered by a postemployment benefit program to contribute to the trust or equivalent arrangement through payments or deductions from their wages, salaries, or pensions.

C. Nothing in this section shall be construed to inhibit the Authority's right to revise or discontinue its plans or programs providing such postemployment benefits other than pensions for its active and former officers and employees as it may deem necessary. If all plans or programs providing such postemployment benefits other than pensions for which the trust or equivalent arrangement is established are repealed or terminated by the Authority, then there shall be no continuing responsibility for the Authority to continue to make appropriations to such trust or equivalent arrangement, and the assets of such trust or equivalent arrangement shall be used to provide any benefits continuing to be due to active or former employees (and their dependents or beneficiaries) under such plans or programs. If there are no active or former employees (or dependents or beneficiaries) due a benefit under any plan or program providing such postemployment benefits other than pensions for which the trust or equivalent arrangement was established, then any remaining assets may revert to the Authority.

D. Postemployment benefits other than pensions shall be defined by the Authority pursuant to applicable accounting standards and law. Such benefits may include, but are not limited to, medical, prescription drug, dental, vision, hearing, life or accident insurance (not provided through a pension plan), long-term care benefits, long-term disability benefits (not covered under a pension plan) provided to individuals who have terminated their service and to the dependents of such individuals, and may be provided by purchasing insurance, by a program of self-insurance, or by a combination of both. However, postemployment benefits other than pensions shall not include defined benefit pension plans for retirees and eligible dependents of retirees, termination benefits or other pension benefits. Such postemployment benefits other than pensions may be provided to the officers and employees or to their dependents, estates, or designated beneficiaries. Any benefits arising from any postemployment benefits other than pension programs shall be clearly defined and strictly construed.

E. Notwithstanding any other provision of law, the moneys and other property comprising the trust or equivalent arrangement established hereunder and the moneys or other properties comprising the retirement program established pursuant to § [51.1-126.4](#) shall be invested, reinvested and managed by the Authority or the trust company or bank having powers of a trust company within or without the Commonwealth who is selected by the Board to act as a trustee for the fund, with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with the same aims. Such investments shall be diversified so as to minimize the risk of large losses

unless under the circumstances it is clearly prudent not to do so. Such investments shall not be limited by Chapter 45 (§ [2.2-4500](#) et seq.) of Title 2.2.

§ 62.1-132.3:1.Port Opportunity Fund

A. There is hereby created in the state treasury a special nonreverting fund that is a subfund of the Commonwealth Port Fund, known as the Port Opportunity Fund, referred to in this section as "the Fund." The Fund shall be established on the books of the Comptroller. All funds appropriated for such purpose and any gifts, donations, grants, bequests, and other funds received on its behalf shall be

Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Executive Director of the Virginia Port Authority or his designee. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Moneys in the Fund shall be used solely for the purposes enumerated in subsection C.

B. If the Authority's revenues from terminal operations during a fiscal year exceed its terminal operating expenditures for that year by at least five percent, the Authority shall request that the Treasurer transfer to the Port Opportunity Fund an amount of up to five percent of that year's revenues from terminal operations, not to exceed \$2 million, unless the Secretary of Transportation determines that such a transfer is not in the long-term interest of the Authority. Such determination shall be made in writing by the Secretary of Transportation to the Executive Director of the Authority. Requests to transfer such revenues shall be made by August 30 of the ensuing fiscal year.

C. Moneys in the Fund shall be used to fund the development and implementation of a national and international marketing program and to provide incentives, as prescribed by the Board of Commissioners, for expanding the use of Virginia Port Authority facilities for the import and export of containerized and noncontainerized cargoes.

§ 62.1-132.3:2.Port of Virginia Economic and Infrastructure Development Grant Fund and Program

A. From such funds as may be appropriated by the General Assembly and any gifts, grants, or donations from public or private sources, and any funds transferred at the request of the Executive Director from the Port Opportunity Fund created pursuant to § [62.1-132.3:1](#), there is hereby created in the state treasury a special nonreverting, permanent fund to be known as the Port of Virginia Economic and Infrastructure Development Grant Fund (the Fund), to be administered by the Virginia Port Authority. The Fund shall be established on the books of the Comptroller. Any moneys remaining in the Fund at the end of each fiscal year, including interest thereon, shall not revert to the general fund but shall remain in the Fund. Expenditures and disbursements from the Fund, which shall be in the form of grants, shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Executive Director. Moneys in the Fund shall be used solely for the purpose of grants to qualified applicants to the Port of Virginia Economic and Infrastructure Development Grant Program.

B. As used in this section, unless the context requires a different meaning:

"New, permanent full-time position" means a job of an indefinite duration, created by a qualified company as a result of operations within the Commonwealth, requiring a minimum of 35 hours of an

employee's time per week for the entire normal year of the company's operations, which normal year shall consist of at least 48 weeks, or a position of indefinite duration that requires a minimum of 35 hours of an employee's time per week for the portion of the taxable year in which the employee was initially hired for the qualified company's location within the Commonwealth. "New, permanent full-time position" includes security positions as required within a foreign trade zone, established pursuant to Foreign Trade Zones Act of 1934, as amended (19 U.S.C. §§ 81a through 81u). "New, permanent full-time position" does not include seasonal or temporary positions, jobs created when a position is shifted from an existing location in the Commonwealth to the qualified company's new or expanded location, or positions in building and grounds maintenance or other positions that are ancillary to the principal activities performed by the employees at the qualified company's location within the Commonwealth.

"Qualified company" means a corporation, limited liability company, partnership, joint venture, or other business entity that (i) locates or expands a facility within the Commonwealth; (ii) creates at least 25 new, permanent full-time positions for qualified full-time employees at a facility within the Commonwealth during its first year of operation or during the year when the expansion occurs; (iii) is involved in maritime commerce or exports or imports manufactured goods through the Port of Virginia; and (iv) is engaged in one or more of the following: the distribution, freight forwarding, freight handling, goods processing, manufacturing, warehousing, crossdocking, transloading, or wholesaling of goods exported and imported through the Port of Virginia; ship building and ship repair; dredging; marine construction; or offshore energy exploration or extraction.

"Qualified full-time employee" means an employee filling a new, permanent full-time position in the qualified company's location within the Commonwealth. A "qualified full-time employee" does not include an employee (i) for whom a tax credit was previously earned pursuant to § [58.1-439](#) or [58.1-439.12:06](#) by a related party as listed in § 267(b) of the Internal Revenue Code or by a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code; (ii) who was previously employed in the same job function at an existing location in the Commonwealth by a related party as listed in § 267(b) of the Internal Revenue Code; or (iii) whose job function was previously performed at a different location in the Commonwealth by an employee of a related party as listed in § 267(b) of the Internal Revenue Code or a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code.

C. Beginning January 1, 2014, but not later than December 31, 2024, and subject to appropriation, any qualified company that locates or expands a facility within the Commonwealth shall be eligible to apply for a one-time grant from the Fund, in an amount determined as follows:

1. One thousand dollars per new, permanent full-time position if the qualified company creates at least 25 new, permanent full-time positions for qualified full-time employees during its first year of operation or during the year in which the expansion occurs;

2. Fifteen hundred dollars per new, permanent full-time position if the qualified company creates at least 50 new, permanent full-time positions for qualified full-time employees during its first year of operation or during the year in which the expansion occurs;
 3. Two thousand dollars per new, permanent full-time position if the qualified company creates at least 75 new, permanent full-time positions for qualified full-time employees during its first year of operation or during the year in which the expansion occurs; and
 4. Three thousand dollars per new, permanent full-time position if the qualified company creates at least 100 new, permanent full-time positions for qualified full-time employees during its first year of operation or during the year in which the expansion occurs.
- D. The maximum amount of grant allowable per qualified company in any given fiscal year is \$500,000. The maximum amount of grants allowable among all qualified companies in any given fiscal year is \$5 million.
- E. To qualify for a grant pursuant to this section, a qualified company must apply for the grant not later than March 31 in the year immediately following the location or expansion of a facility within the Commonwealth pursuant to an application process developed by the Virginia Port Authority. Within 90 days after the filing deadline, the Executive Director shall certify to the Comptroller and the qualified company the amount of grant to which the qualified company is entitled under this section. Payment of each grant shall be made by check issued by the State Treasurer on warrant of the Comptroller within 60 days of such certification and in the order that each completed eligible application is received. In the event that the amount of eligible grants requested in a fiscal year exceeds the funds available in the Fund or \$5 million, such grants shall be paid in the next fiscal year in which funds are available.
- F. A qualified company that has received a grant in accordance with the requirements provided in this section shall be eligible for a second grant from the Fund if it (i) locates or expands an additional facility in a separate location, as determined by the Virginia Port Authority, within the Commonwealth; (ii) creates at least 300 new, permanent full-time positions at the additional facility over and above those agreed upon in the qualified company's original memorandum of understanding with the Virginia Port Authority; and (iii) increases cargo volumes through the Port of Virginia by at least five percent, not including any volume increase resulting from the original grant, from the additional facility. If the qualified company satisfies the requirements provided in this subsection and receives a grant consistent with the requirements of this section, then the qualified company shall enter into another separate memorandum of understanding with the Virginia Port Authority as provided in subsection G.
- G. Prior to receipt of a grant, the qualified company shall enter into a memorandum of understanding with the Virginia Port Authority establishing the requirements for maintaining the number of new, permanent full-time positions for qualified employees at the qualified company's location within the

Commonwealth. If the number of new, permanent full-time positions for any of the three years immediately following receipt of a grant falls below the number of new, permanent full-time positions created during the year for which the grant is claimed, the amount of the grant must be recalculated using the decreased number of new, permanent full-time positions and the qualified company shall repay the difference.

H. No qualified company shall apply for a grant nor shall one be awarded under this section to an otherwise qualified company if (i) a credit pursuant to § [58.1-439](#) or [58.1-439.12:06](#) is claimed for the same employees or for capital expenditures at the same facility by the qualified company, by a related party as listed in § 267(b) of the Internal Revenue Code, or by a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code or (ii) the qualified company was a party to a reorganization as defined in § 368(b) of the Internal Revenue Code, and any corporation involved in the reorganization as defined in § 368(a) of the Internal Revenue Code previously received a grant under this section for the same facility or operations.

I. The Virginia Port Authority, with the assistance of the Virginia Economic Development Partnership, shall develop guidelines establishing procedures and requirements for qualifying for the grant, including the affirmative determination that each applicant is a qualified company, as defined above, engaged in a port-related business. The guidelines shall be exempt from the Administrative Process Act (§ [2.2-4000](#) et seq.). For the purposes of administering this grant program, the Virginia Port Authority and the Department of Taxation shall exchange information regarding whether a qualified company, a related party as listed in § 267(b) of the Internal Revenue Code, or a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code has claimed a credit pursuant to § [58.1-439](#) or [58.1-439.12:06](#) for the same employees or for capital expenditures at the same facility.

Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. 2. The International Trade Facility Grant Program established by § 62.1-132.3:2.3.

C. 1. Except as provided in subdivision 3, for the Economic and Infrastructure Development Grant Program, the maximum amount of grants allowable among all qualified companies, as that term is defined in § 62.1-132.3:2.2, in any fiscal year shall be \$5 million plus any amounts carried over from a prior fiscal year.

2. Except as provided in subdivision 3, for the International Trade Facility Grant Program, the maximum amount of grants allowable among all international trade facilities, as that term is defined in § 62.1-132.3:2.3, in any fiscal year shall be \$1.25 million plus any amounts carried over from a prior fiscal year.

3. In the event that the amount of grants claimed for either of the programs described in subdivision 1 or 2 in any fiscal year is less than the maximum allowable amount, the excess amount may (i) be used to provide grants by the other program if that program is oversubscribed or (ii) be carried over to the next fiscal year.

§ 62.1-132.3:2.2. Economic and Infrastructure Development Grant Program

In areas that have an unemployment rate of one and one-half times the statewide average unemployment rate, the wage rate minimum may be waived by the Authority. Only full-time positions that qualify for benefits shall be eligible for assistance.

"Qualified full-time employee" means an employee filling a new, permanent full-time position in the qualified company's location within the Commonwealth. "Qualified full-time employee" does not include an employee (i) for whom a tax credit was previously earned pursuant to § [58.1-439](#) or [58.1-439.12:06](#) by a related party as listed in § 267(b) of the Internal Revenue Code or by a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code; (ii) who was previously employed in the same job function at an existing location in the Commonwealth by a related party as listed in § 267(b) of the Internal Revenue Code; or (iii) whose job function was previously performed at a different location in the Commonwealth by an employee of a related party as listed in § 267(b) of the Internal Revenue Code or a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code.

Payment of each grant shall be made by check issued by the State Treasurer on warrant of the Comptroller within 60 days of such certification and in the order that each completed eligible application is received.

F. A qualified company that has received a grant in accordance with the requirements provided in this section shall be eligible for a second grant from the Fund if it (i) locates or expands an additional facility in a separate location, as determined by the Virginia Port Authority, within the Commonwealth; (ii) creates at least 300 new, permanent full-time positions at the additional facility over and above those agreed upon in the qualified company's original memorandum of understanding with the Virginia Port Authority; and (iii) increases cargo volumes through the Port of Virginia by at least five percent, not including any volume increase resulting from the original grant, from the additional facility. If the qualified company satisfies the requirements provided in this subsection and receives a grant consistent with the requirements of this section, then the qualified company shall enter into another separate memorandum of understanding with the Virginia Port Authority as provided in subsection G.

G. Prior to receipt of a grant, the qualified company shall enter into a memorandum of understanding with the Virginia Port Authority establishing the requirements for maintaining the number of new, permanent full-time positions for qualified employees at the qualified company's location within the Commonwealth. If the number of new, permanent full-time positions for any of the three years immediately following receipt of a grant falls below the number of new, permanent full-time positions created during the year for which the grant is claimed, the amount of the grant shall be recalculated using the decreased number of new, permanent full-time positions, and the qualified company shall repay the difference.

H. No qualified company shall apply for a grant, nor shall one be awarded under this section to an otherwise qualified company, if (i) a credit pursuant to § [58.1-439](#) or [58.1-439.12:06](#) or a grant pursuant to § [62.1-132.3:2.3](#) is claimed for the same employees or for capital expenditures at the

same facility by the qualified company, by a related party as listed in § 267(b) of the Internal Revenue Code, or by a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code or (ii) the qualified company was a party to a reorganization as defined in § 368(b) of the Internal Revenue Code, and any corporation involved in the reorganization as defined in § 368(a) of the Internal Revenue Code previously received a grant under this section for the same facility or operations.

I. The Virginia Port Authority, with the assistance of the Virginia Economic Development Partnership, shall develop guidelines establishing procedures and requirements for qualifying for the grant, including the affirmative determination that each applicant is a qualified company, as defined above, engaged in a port-related business. The guidelines shall be exempt from the Administrative Process Act (§ [2.2-4000](#) et seq.). items of local cooperation as contemplated by Congress and as stipulated in the congressional acts or documents concerned.

A. The Authority is authorized to acquire, construct, maintain, equip, and operate marine terminals, port facilities, wharves, docks, ships, piers, quays, elevators, compressors, refrigeration storage plants, warehouses, and other structures necessary for the convenient use of the same in the aid of commerce. The Authority is further authorized to undertake or make arrangements for the dredging of approaches to each facility and the construction of shipping facilities and transportation facilities incident thereto. The Authority shall have the power to issue revenue bonds for such acquisitions and purposes.

B. When such facilities or equipment is acquired from any political subdivision of the Commonwealth, the Authority is authorized to give written assurances, including agreements to reconvey properties to such political subdivision, for the installment payments for any terminals, facility, or equipment thus acquired.

B. The Authority may lease to another such part or all of its real or personal property for such period and upon such terms and conditions as the Authority may determine.

C. The Authority shall neither expend funds nor incur any indebtedness for any improvement, repair, maintenance, or addition to any real or personal property owned by anyone other than the Authority, the Commonwealth, or a political subdivision of the Commonwealth, unless either (i) the use of such property is guaranteed to the Authority or the Commonwealth by a lease extending beyond the useful life of the improvement, repair, maintenance, addition, or new facility, or (ii) such expenditure or indebtedness is approved in writing by the Governor.

§ 62.1-132.20.Craney Island Disposal Area

A. No agency of the Commonwealth, including the Virginia Port Authority, shall have the authority to expand the Craney Island Disposal Area northward or westward. However, the Commonwealth and the Virginia Port Authority are authorized to expend state funds for the construction and development of Craney Island to the east for an additional marine terminal.

B. The Virginia Port Authority is hereby directed, in coordination with other state and federal agencies, including the United States Army Corps of Engineers, to locate, establish, and use ocean disposal areas for ocean-suitable dredge materials from the Hampton Roads Harbor, or some other suitable site, and to use the existing Craney Island Disposal Area for dredge material suitable or unsuitable for alternate disposal, including ocean disposal, with priority given to materials dredged from the Southern Branch of the Elizabeth River. The construction of a marine terminal on the eastern side of Craney Island Disposal Area using dredge material to extend the disposal area eastward, as defined in the U.S. Army Corps of Engineers Feasibility Study approved on October 24, 2006, and authorized by Congress in the Water Resources Development Act of 2007, is hereby authorized.

C. Prior to the disposal of any dredged material either at an ocean area or on the Craney Island Disposal Area, after the Craney Island Disposal Area has attained its capacity limit, the appropriate state agencies shall investigate and consider the cost and availability of beneficial uses of the dredged material. The appropriate state agencies shall consult with state and federal agencies to

ensure the environmental acceptability of any beneficial use. When such environmentally acceptable beneficial use is available and economically feasible, the appropriate state agencies shall pursue such use.

For purposes of this section, "Craney Island Disposal Area" means that parcel of land lying and being in the body of water known as Hampton Roads Harbor, within the City of Portsmouth and adjacent to the City of Suffolk.

1. From a railway company or any subsidiary thereof involved in the shipment or storage of coal -- the inland origin; the identity of any transshipper, the rail destination; the route; the car movement record, whether such movement was pursuant to permit or agreement; the date of issuance of permits; the date and time of vessel registration; the position in vessel queue at the time of registration and at the time such vessel was ordered to berth for loading; and date such vessel was loaded;
2. From any railway company, supplier, mining company, or transshipper -- the tonnage and classification of coal loaded aboard such vessel;
3. From any transshipper -- the identity of any supplier, broker, transshipper, or purchaser of coal for shipment by railway;
4. From any ship line, shipping company, ship agent, wholesaler, retailer, broker, transshipper, or operator of any coal storage facility -- the identity of any vessel loaded with coal, the date of such vessel's arrival at port, the date such vessel departed and the tonnage and classification of coal loaded aboard such vessel; and
5. From any of the parties mentioned in subdivisions 1, 2, 3, or 4 -- any other information which is relevant and necessary to such analysis of shipment of coal through the ports of the Commonwealth provided such information is maintained in the ordinary course of business of such person, firm, or corporation.

B. Notwithstanding any provisions of law to the contrary, any person, firm, corporation or agent thereof engaged in the mining, consignment, sale, transportation, loading, unloading, storage, or handling of coal for shipment through any port of this Commonwealth, whether as a mining company, railway company, ship line, shipping company, ship agent, wholesaler, retailer, broker, transshipper, operator

of any coal storage facility, or facility for the loading or unloading of railroad cars or ships, or any entity otherwise engaged in an activity which directly affects the transportation of coal to or from any port of this Commonwealth, within forty-five days after receiving a written request from the Authority, shall furnish the Authority with any such information as is described in subsection A of this section as is maintained in the ordinary course of business of the party requested to provide the information. In the event of willful noncompliance with the provisions of this section by any person, firm, or corporation, the Authority may petition an appropriate circuit court for injunctive relief or, in the alternative, for recovery of a civil penalty, payable to the Authority, in an amount no less than \$100 per day and no more than \$1,000 per day for each day noncompliance continues. Upon a finding that the defendant's noncompliance was willful, the court shall order compliance or payment of the civil penalty, as the case may be.

C. The aforesaid information and data shall be supplied to the Executive Director of the Authority and shall be for the exclusive use of the Executive Director and the staff of the Authority. Neither the Executive Director nor any staff member of the Authority shall disclose this information and data to any member of the Board of Commissioners of the Authority; nor to any person, firm, corporation or agent thereof engaged in the mining, consignment, sale, transportation, loading, unloading, storage, or handling of coal, whether such person, firm, corporation or agent be public or private and whether or not such person, firm, corporation, or agent be a subsidiary or unit of the Authority; nor to anyone outside the Authority.

D. In carrying out the functions heretofore described the Authority shall be deemed to be performing essential governmental functions as an agent of the Commonwealth of Virginia.

The Authority is hereby vested with the power of eminent domain to acquire property or any interest therein, however held, but not property of the Commonwealth or its agencies, and may exercise the same for the purposes set forth in §§ [62.1-132.18](#) and [62.1-132.19](#) in the manner and to the extent set forth in, and subject to the provisions of, Chapter 2 (§ [25.1-200](#) et seq.) of Title 25.1; provided that the Authority shall have no power to condemn any property belonging to any other political subdivision of the Commonwealth, or to any common carrier, or public utility or other public service corporation which is being devoted to public use or service. Whether property is being devoted to public use or service in the case of a public service corporation, common carrier, or public utility, shall be decided by the State Corporation Commission in a proceeding under § [25.1-102](#); and in the case of a political subdivision shall be decided by the court in which the proceeding is brought.

§ 62.1-139. Forms of accounts and records; annual report

A. The accounts and records of the Authority showing the receipt and disbursement of funds from whatever source derived shall be in a form prescribed by governmental generally accepted accounting principles. Such accounts shall correspond as nearly as possible to the accounts and records for such matters maintained by enterprises.

B. The accounts of the Authority shall be audited annually by a certified public accounting firm selected by the Auditor of Public Accounts with the assistance of the Authority through a process of competitive negotiation. The cost of such audit and review shall be borne by the Authority.

C. The General Assembly may request the Auditor of Public Accounts to conduct audits at any time.

D. The Authority shall submit an annual report to the Governor and General Assembly on or before November 1 of each year. Such report shall contain the audited annual financial statements of the Authority for the year ending the preceding June 30.

E. The Authority shall submit a detailed annual operating plan and budget to the Secretary of Transportation and the Director of the Department of Planning and Budget by November 1 of each year. Notwithstanding any other provision of this chapter, the form and content of the operating plan and budget shall be determined by the Director of the Department of Planning and Budget and shall include information on salaries, expenditures, indebtedness, and other information as determined by the Director of the Department of Planning and Budget.

§ 62.1-140. Definitions; bond resolution; form and requisites of bonds; sale and disposition of proceeds; temporary bonds

A. As used in this section and in §§ [62.1-141](#) through [62.1-146](#), the term "port facility" means harbors, seaports and all facilities used in connection therewith and shall include all those facilities named in §§ [62.1-132.18](#) and [62.1-132.19](#).

The term "cost" as used in this chapter embraces the cost of construction, the cost of the acquisition of all land, rights-of-way, property, rights, easements and interests acquired by the Authority for such construction, the cost of all machinery and equipment, financing charges, interest prior to and during

construction and, if deemed advisable by the Authority, for one year after completion of construction, engineering and legal expenses, cost of plans, specifications, surveys and estimates of cost and of revenues, other expenses necessary or incident to determining the feasibility or practicability of constructing any port facility, administrative expense, the creation of a working capital fund for placing the port facility in operation and such other expense as may be necessary or incident to the construction of such port facility, the financing of such construction and the placing of the same in operation.

The term "bonds" as used in this chapter means obligations of the Authority for the payment of borrowed money. For purposes of the limitations imposed by subsections B and C of § [62.1-140](#), contingent obligations to reimburse providers for amounts drawn under credit facilities, letters of credit, lines of credit, guarantees, standby bond purchase agreements, or other credit or liquidity enhancement facilities, including any such enhancement facility obtained by the Authority for deposit into any reserve account or fund relating to any bonds, shall not constitute bonds.

For purposes of the limitations imposed by subsections B and C of § [62.1-140](#), the term "revenue bonds" means bonds for which only the revenues of port facilities are pledged to the payment of the principal of and interest on said bonds.

B. The Authority is hereby authorized to provide by resolution for the issuance, at one time or from time to time, of bonds of the Authority for the purpose of paying all or any part of the cost of any Authority project for the acquisition, construction, reconstruction or control of port facilities or of any portion or portions thereof, provided that the total principal amount of bonds, including refunding bonds, outstanding at any time shall not exceed \$200 million, excluding from such limit any revenue bonds.

All of the bonds of one or more series of the bonds of the Authority at any time outstanding may be refunded by the Authority by the issuance of its refunding bonds in such amount as the Authority may deem necessary, but not exceeding an amount sufficient to provide for the payment of the principal of the bonds so to be refunded, together with all unpaid interest accrued and to accrue and with any redemption premium thereon and all costs and expenses incident to the authorization and issuance of such bonds as determined by the Authority. The proceeds of any such refunding bonds may, in the discretion of the Authority, be applied to the purchase or retirement at maturity or redemption of such outstanding revenue bonds either on their earliest or any subsequent redemption date or upon the purchase or at the maturity thereof, and may, pending such application, be placed in trust in accordance with the provisions of § [62.1-143](#) of this chapter to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the Authority. All refunding bonds may have all of the attributes of revenue bonds to the extent that such other provisions of this chapter relating to revenue bonds may be applicable to refunding bonds.

C. The principal of and the interest on all bonds issued by the Authority pursuant to the provisions of this chapter shall be payable solely from the funds herein provided for such payment. The bonds of each issue shall be dated, shall bear interest at the prevailing rate of interest at the time, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth.

All bonds shall be signed by the Executive Director of the Authority or shall bear his facsimile signature, and the official seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the secretary of the Authority, and any coupons attached thereto shall bear the facsimile signature of the Executive Director of the Authority. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All bonds issued under the provisions of this chapter shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the Commonwealth. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine will best effect the purposes of this chapter.

The proceeds of the bonds of each issue shall be used solely for the payment of the cost of acquisition, construction, reconstruction and control of port facilities or the portion thereof for which such bonds shall have been issued, or, in the case of refunding bonds, to refund such bonds including any unpaid interest accrued and to accrue and any redemption premium thereon and all costs and expenses incident to the authorization and issuance of such bonds as shall be determined by the Authority upon the issuance of such refunding bonds, and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing

the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds, or, if such bonds shall have been issued for paying the cost of a portion of the project, such surplus may be applied to the payment of the cost of any remaining portion of the project.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost.

The Authority shall not issue any bonds, other than revenue bonds or any refunding bonds issued by the Authority pursuant to the second paragraph of subsection B of § [62.1-140](#), which are not specifically authorized by a bill or resolution passed by a majority vote of those elected to each house of the General Assembly. Refunding bonds may only be issued with the consent of the Governor. However, the Governor, in his sole discretion, may approve bonds which have not been authorized by the General Assembly if such bonds are to finance capital projects that emerge between legislative sessions, provided the debt is required to stimulate commerce consistent with § [62.1-132.3](#) and provided that:

1. The total amount of such bonds added to the total amount of Virginia Port Authority bonds currently authorized does not exceed the limit in § [62.1-140](#) B;
2. Funds are available within the appropriations, if needed, without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances;
3. In the Governor's opinion such action may result in a measurable benefit to the Commonwealth;
4. The authorization includes a detailed description of the project, the project need, the total project costs, the estimated operating costs, and the fund sources for the project and its operating costs;
5. The requirements of Chapter 11.1 (§ [10.1-1182](#) et seq.), Title 10.1, regarding environmental impact statements, will be met as a precondition for the approval of the project; and
6. The authorization of any such debt as provided for in this section shall be promptly communicated to the Chairmen of the House Appropriations and Senate Finance Committees.

§ 62.1-141. Trust agreement securing bonds; provisions of agreement or bond resolution; depository of proceeds or revenues; expenses

In the discretion of the Authority any bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any

trust company or bank having the powers of a trust company within or without the Commonwealth. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received, but shall not convey or mortgage the port facilities or any part thereof; provided, however, the Authority may make a purchase-money agreement giving a chattel mortgage or lien on personal property or operating equipment purchased for use in its facilities. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the port facilities or the portion thereof in connection with which such bonds shall have been authorized, the rates to be charged, the custody, safeguarding and application of all moneys, and conditions or limitations with respect to the issuance of additional bonds. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the port facilities or portion thereof.

Code 1950, § 62-106.13; 1954, c. 667; 1968, c. 659; 1974, c. 148.

§ 62.1-142.Charges for use of port facilities; sinking fund created from revenues for payment of bonds

The Authority is hereby authorized to fix and revise charges for the use of the port facilities under its control and the different parts or sections thereof, and to contract with any person, partnership, association or corporation desiring the use of any part thereof, and to fix the terms, conditions, rents and rates of charges for such use. Such charges shall be so fixed and adjusted in respect of the aggregate of charges from the port facility or the portion or portions thereof in connection with which revenue bonds or refunding bonds shall have been issued under the provisions of this chapter as to provide a fund sufficient with other revenues, if any, to pay (a) the cost of maintaining, repairing and operating such port facility or portion or portions and (b) the principal of and the interest on such bonds as the same shall become due and payable, and to create reserves for such purposes. Such charges shall not be subject to supervision or regulation by any commission, board, bureau or agency of the Commonwealth or of any municipality, county or other political subdivision of the Commonwealth. The charges and all other revenues derived from the port facility or portion or portions in connection with which such bonds shall have been issued except such part thereof as may be necessary to pay such

cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the charges and other revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. In addition to all other powers granted to the Authority by this chapter, the Authority is hereby authorized to pledge to the payment of the principal of and the interest on any bonds under the provisions of this chapter any moneys received or to be received by it under any appropriation made to it by the General Assembly, unless the appropriation is restricted by the General Assembly to specific purposes of the Authority or such pledge is prohibited by the law making such appropriations; provided, however, that nothing herein shall be construed to obligate the General Assembly to make any such appropriation.

Code 1950, § 62-106.14; 1954, c. 667; 1958, c. 174; 1968, c. 659; 1981, c. 590.

§ 62.1-143.Proceeds of bonds and revenues held in trust for certain purposes

All moneys received pursuant to the provisions of this chapter, whether as proceeds from the sale of revenue bonds or refunding bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this chapter. The Authority shall, in the resolution authorizing such bonds or in the trust agreement securing such bonds, provide for the payment of the proceeds of the sale of the bonds and the revenues to be received to a trustee, which shall be any trust company or bank having the powers of a trust company within or without the Commonwealth, who shall act as trustee of the funds, and hold and apply the same to the purposes of this chapter, subject to such regulations as this chapter and such resolution or trust agreement may provide. In the case of the proceeds of the sale of revenue bonds or revenues, the trustee may invest and reinvest such funds pending their need for the construction of the project in securities that are legal investments under the laws of the Commonwealth for funds held by fiduciaries. In the case of the proceeds of the sale of refunding bonds, the trustee may invest and reinvest such funds in direct obligations of, or obligations

the principal of and the interest on which are guaranteed by, the United States of America. Such money and the interest, income and profits, if any, earned on such investment, shall be available for the payment of all or any part of the principal, interest, and redemption premium, if any, of the bonds being refunded. The proceeds of the sale of refunding bonds shall be so invested and applied as to assure that the principal, interest, and redemption premium, if any, on the bonds being refunded shall be paid in full on their respective maturity, redemption or interest payment dates. After the terms of the trust have been fully satisfied, and carried out, any balance of such proceeds and interest, income and profits, if any, earned or realized on the investments thereof may be returned to the Authority for use by it in any lawful manner.

Code 1950, § 62-106.15; 1954, c. 667; 1968, c. 1981, c. 590.

§ 62.1-144. Remedies of bondholders and trustee

Any holder of bonds, notes, certificates or other evidences of borrowing issued under the provisions of this chapter or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by such trust agreement, may either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this chapter or under such trust agreement or the resolution authorizing the issuance of such bonds, notes or certificates and may enforce and compel the performance of all duties required by this chapter or by such agreement or resolution to be performed by the Authority or by any officer or agent thereof, including the fixing of charges and collection of the same.

§ 62.1-145. Exercise of powers constitutes governmental functions; exemption from taxation

The exercise of the powers granted by this chapter shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their safety, health, welfare, convenience, and prosperity, and as the operation and maintenance of the project by the Authority will constitute the performance of essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon the project or any property acquired or used by the Authority under the provisions of this chapter or upon the income therefrom, including sales and use taxes on tangible personal property used in and about a marine terminal under the supervision of the Virginia Port Authority for handling cargo, merchandise, freight, and equipment; nor shall the agents, lessees, sublessees, or users of tangible personal property owned by or leased to the Authority be required to pay any sales or use tax upon such property or the revenue derived therefrom; and the bonds, notes, certificates, or other evidences of debt issued under the provisions of this chapter, their transfer and the income therefrom including any profit made on the sale thereof, shall be exempt from taxation by the Commonwealth and by any municipality, county, or other political subdivision thereof. The exemption from the retail sales and use tax shall apply to

property acquired or used by the Authority, or by a nonstock, nonprofit corporation that operates a marine terminal or terminals solely on behalf of the Authority. Service charge payments to any city, county, or town authorized pursuant to subsection D of § [58.1-3403](#) shall be paid from the general fund. Service charge payments to any county, city, or town authorized pursuant to subsection B of § [58.1-3403](#) shall be paid by the Authority.

§ 7. (1954, c. 157; 1968, c. 688)

§ 9. The Commission may sell any property owned by it which it deems to be no longer useful or necessary in its operations, provided, how ever, that the Commission shall first advertise for bids therefor by publication of the notice of receipt of such bids, once in a newspaper, published in or having a general circulation in the city of Portsmouth at least ten days prior to the receipt of such bids. The Commission shall have the right to reject any and all bids. Notwithstanding, and without being subject to the foregoing provisions of this section, the Commission may lease, assign, convey or otherwise transfer or dispose of to the Commonwealth of Virginia or any authority, commission or political subdivision thereof any of its property, real or personal, upon such terms as may be agreed upon, and may also lease, assign, convey or otherwise transfer or dispose of to any person, firm or corporation the facilities described in subparagraphs (d), (f) and (n) of § 6 of this act upon such terms as may be agreed upon. (1954, c. 157; 1966, c. 468; 1968, c. 688; 1977, c. 420)

§ 10. The council of the city of Portsmouth is authorized and empowered to transfer to the Commission the operation and maintenance of such suitable facilities as are now or may be hereafter owned by the city, on such terms and conditions which it may prescribe; but this section shall not be construed as authorizing the Commission to maintain and operate such facilities unless and until the

operation thereof has been transferred by the council. The council of the city of Portsmouth is also authorized and empowered by ordinance or resolution to lease, assign, convey or otherwise transfer or dispose of to the Commission any property, real or personal, or rights or estates therein, now or hereafter owned by the city, on such terms and conditions which the council may prescribe and no provision of the charter of the city, or any other law to the contrary, shall be applicable to such lease, assignment, conveyance or disposition. Any and all leases, assignments, conveyances, transfers or other dispositions of personal or real property heretofore made by the city of Portsmouth to the Commission, and the making thereof, are hereby validated, ratified and confirmed. (1954, c. 157; 1966, c. 468; 1968, c. 688)

§ 11. The city of Portsmouth is authorized and empowered to make appropriations and to provide funds for the carrying out by the Commission of any of its powers and purposes, and any such appropriations heretofore made by the city of Portsmouth to the Commission are hereby validated, ratified and confirmed. The Commission shall pay to the city of Portsmouth in lieu of taxes a sum equal to five per cent per annum of the net annual income received by the Commission exclusive of the proceeds of bonds, notes, or other obligations of the Commission and any grants or contributions received from the federal government, the Commonwealth of Virginia, or any political subdivision thereof or from any other source, public or private; provided, however, that the council of the city of Portsmouth may, from time to time, by resolution, waive the payment by the Commission of all or any part of such payment in lieu of taxes on all or any part of the income of the Commission for such period of time as may be prescribed therein. For the purposes of this paragraph "net annual income" shall mean the income received by the Commission in any year remaining after there shall have been deducted from the gross income of the Commission for such year the costs to the Commission of operation, repair and maintenance of its facilities and properties, including the administrative costs of the Commission; payment of, or accruals for the payment of, principal of and interest on its bonds, notes or other obligations of indebtedness; amounts required by its resolution or resolutions or trust agreements or indentures authorizing or securing its bonds, notes or other obligations, to establish, maintain or replenish the reserves required by such resolutions, trust agreements or indentures; payments to the State or any agency or instrumentality thereof or to the city of Portsmouth in reimbursement for grants, contributions or appropriations made to the Commission by the State or such agency or instrumentality or by said city, including therein any reimbursement by the Commission to the State or its agencies or instrumentalities or to said city, for the payment by the State or its agencies or instrumentalities or by the city, for the principal and interest of any bonds issued by the State or its agencies or instrumentalities or by said city, to derive the funds or moneys so granted, contributed or appropriated to the Commission. (1954, c. 157; 1966, c. 468; 1968, c. 688)

§ 12. The Commission shall have the power to issue bonds from time to time in its discretion for any of its purposes or to carry out any of its powers, including, without limiting the generality of the foregoing,

the payment or retirement of notes or obligations issued by it in anticipation of the issuance of its bonds. The Commission may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest, from any one or more of the following or any combination thereof: (a) from its income and revenues generally; (b) exclusively from the income and revenues of a "particular facility", which term shall mean a particular building or structure or particular buildings or structures, including all equipment, appurtenance and accessories necessary or appropriate for the operation of such facility; or (c) exclusively from the income and revenues of certain designated facilities. The bonds may be payable from any one or more, or combination, of the foregoing, income and revenues whether or not the facility or facilities from which is derived such revenue and income have been, or are, financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contribution from the federal government, Commonwealth of Virginia, or any authority, commission or political subdivision thereof, or a pledge of any income or revenues of the Commission, or a mortgage of any particular facility or facilities or other property of the Commission.

Without limiting in any way the provisions of this section as to the purposes for which the Commission may issue bonds, notes or other obligations, the proceeds of the sale of bonds, notes or other obligations of the Commission may be applied to the creation, maintenance or augmenting of such reserves as may be required to be created, maintained or increased by the resolution authorizing such bonds, notes or obligations or the trust agreement or indenture securing the same, which reserves may include (but shall not be limited to) reserves for costs of operation and maintenance, reserves for the payment of the principal of and interest on the bonds and reserves for extraordinary repairs and expenses. Such proceeds may also be applied to the payment of the cost of any facility or facilities of the Commission, and the word "cost" as used in this sentence and as applied to any facility or extension or addition thereto may include the purchase price of any facility or property acquired by the Commission or the cost of acquiring all the capital stock of any corporation, owning such facility or property so acquired and the amount to be paid to discharge all of its obligations in order to vest title to such facility or property or any part thereof in the Commission (which corporation shall be dissolved as soon as practicable after the acquisition by the Commission of such capital stock); the cost of construction or reconstruction; the cost of all labor, materials, machinery, furnishing and equipment, the cost of all lands, property, rights, easements, estates and franchises acquired; financing charges; interest prior to, during and after construction for such period as the Commission may determine; costs of plans, and specifications, surveys and estimates of costs and of revenues; cost of engineering services; cost of legal services; cost of all other expenses necessary or incident to determine the feasibility or practicality of such acquisition, construction, reconstruction; administrative expense; and such other expenses as may be necessary or incident to the financing of any facility. Any obligation or expense incurred by or for or &n behalf of the Commission in connection with any of the foregoing

items of cost may be regarded as a part of such cost and be reimbursed out of the proceeds of the bonds.

The Commission may borrow money for temporary use for any purpose for which it is authorized above to issue bonds, and in evidence of such borrowing may issue from time to time notes or other obligations. Any such temporary borrowing may be made in anticipation of the issuance and sale of bonds, and in such event the principal proceeds from the sale of such bonds shall, to the extent necessary, be used for the payment of the principal of and interest on the notes or other obligations issued in anticipation of the issuance and sale of such bonds. Such notes or other obligations may be renewed from time to time, either by the issuance of renewal notes or other obligations in exchange for the outstanding notes or obligations or by the issuance and sale of the renewal notes or obligations and the application of the proceeds of such sale in payment of the outstanding notes or obligations. The Commission, in its discretion, may also retire any notes or obligations by means of the application thereto of any moneys available for such purpose. All notes and obligations issued pursuant to this paragraph and the issuance and details thereof shall be governed by the provisions of this chapter with respect to bonds insofar as the same may be applicable; and, without limiting the generality of the provisions of this sentence, the provisions of sections 13, 14, 15, 16, 17, 18, 22 and 23 of this chapter shall be equally applicable to such notes or other obligations.

For the purpose of paying and retiring any of its bonds heretofore or hereafter issued, the Commission may from time to time issue its refunding bonds with which to pay, call and redeem all or any part of its outstanding bonds, and may include various series and issues of such outstanding bonds in a single issue of refunding bonds and may include refunding bonds and bonds otherwise to be issued by the Commission under this chapter in a single issue of bonds. Refunding bonds may be issued to pay principal, any redemption premium and interest to accrue and become payable on the outstanding bonds being refunded. The interest rate or rates of the refunding bonds shall not be limited by the interest rate or rates borne by any of the bonds to be refunded thereby. The refunding bonds may be issued and delivered at or at any time before the maturity or redemption date of the bonds to be refunded that the Commission determines to be in its best interest. The refunding bonds shall be issued in accordance with the provisions of this chapter applicable to the issuance of bonds, and all of the provisions of sections 12, 13, 14, 15, 16, 17, 18, 22 and 23 of this chapter shall be equally applicable to such refunding bonds; provided that, notwithstanding the provisions of Section 14 as to the sale of bonds issued under this chapter, in the discretion of the Commission refunding bonds may be exchanged at not less than the par value of such refunding bonds for an equal amount of the bonds to be refunded under the provisions of this chapter at not more than the par value of the bonds to be refunded. In the event of the sale of refunding bonds, the proceeds therefor shall be applied solely to the payment of the bonds to be refunded under the provisions of this Chapter, but nothing in this sentence shall prohibit the issuance and sale of a single issue of bonds, both for refunding purposes

and for other purposes of the Commission. All bonds so refunded and redeemed by the issue and sale or issue and exchange of refunding bonds shall be cancelled. (1954, c. 157; 1966, c. 468; 1968, c. 688)

§ 13. Neither the commissioners of the Commission nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of the Commission (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof other than the Commission and neither the Commonwealth nor any political subdivision thereof other than the Commission shall be liable thereon, nor, shall such bonds or obligations be payable out of any funds or properties other than those of the Commission. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. Bonds of the Commission are declared to be issued for an essential public and governmental purpose. (1954, c. 157)

§ 14. Bonds of the Commission shall be authorized by resolution adopted by the Commission and may be issued in one or more series and shall bear such date or dates, mature at such time or times, bear interest at such rate or rates, be of such tenor, be in such denomination or denominations be in such form, either bearer, coupon or registered, carry such conversion or registration privileges, have such rank or priority, be payable in such medium. of payment at such place or places within or without the Commonwealth, and be subject to such terms of redemption (with or without premium) as such resolution or the trust agreement or indenture or mortgage securing such bonds may provide. To secure the payment of the principal of and interest on the bonds the Commission shall have power to execute and deliver a trust agreement or indenture by and between it and any trust company, or any bank having the powers of a trust company, within or without the Commonwealth. Any such resolution, trust agreement or indenture and the provisions thereof shall be a part of the contract with the holders of the bonds. The bonds may be sold in such manner, either at public or private sale, and for such price, as the Commission may determine to be for its best interests. (1954, c. 157; 1968, c. 688; 1970, c. 138)

§ 15. The bonds and coupons and any certification or endorsement thereon may be executed with an engraved, imprinted, stamped or otherwise reproduced facsimile of any signature, seal or other means of authentication, certification or endorsement thereon, if so authorized by the Commission, so long as at least one signature thereon shall be manually subscribed, which manual signature may be that of any authenticating or certifying person, agent or trustee. In case any of the commissioners or officers of the Commission whose signatures appear on any bonds or coupons shall cease to be such commissioners or officers before the delivery of such bonds, such signatures shall nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued

pursuant to this act shall be fully negotiable within the meaning and for all the purposes of Chapter 10 of Title 6 of the Code of Virginia. (1954, c. 157; 1968, c. 688)

§ 16. In order to secure the payment of such bonds the Commission shall have power by provision or provisions included in any resolution authorizing such bonds or in any trust agreement or indenture made to secure their payment:

(1954, c. 157; 1968, c. 688)

§ 17. An obligee of the Commission shall have the right in addition to all other rights which may be conferred on such obligee, subject only to any contractual restrictions binding upon such obligee:

All bonds or notes issued by the Commission for the benefit of a § 501(c)(3) organization shall be payable solely from the revenues and receipts derived from the leasing or sale by the Commission of such facilities or from payments received by the Commission in connection with loans financing such facilities. Facilities may be located within or without the City of Portsmouth. The Commission shall not have the power to operate any facilities for a § 501(c)(3) organization other than as a lessor.

(b) To charge to conduit borrowers an administrative fee upon the issuance of its bonds and notes, whether issued to finance facilities for a § 501(c)(3) organization or to finance projects authorized elsewhere in Chapter 157, as amended, which administrative fee shall comply with the limitations imposed by § 148 of the Internal Revenue Code of 1986, as amended, and the regulations promulgated in connection therewith, and to enter into agreements with other bond-issuing authorities or localities to share or allocate administrative fee payments on such terms as may be agreed upon, either in a standing agreement or in separate agreements for each financing.

Potomac River Basin Commission of Virginia

§ 62.1-64. Authority to execute compact to create Potomac Valley Conservancy District and Interstate Commission on the Potomac River Basin

The Governor is hereby authorized and directed to execute, on behalf of the Commonwealth of Virginia, a compact with the states of Maryland and West Virginia, the Commonwealth of Pennsylvania and the District of Columbia, or with such of the same as shall, by their respective legislative bodies, enact legislation with like provisions to those of this chapter, but not with such of the same as shall not so enact such legislation, which compact shall be in form substantially as set out in [§ 62.1-65](#).

Code 1950, § 62-62; 1968, c. 659.

§ 62.1-65. Form and terms of compact

Whereas it is recognized that abatement of existing pollution and the control of future pollution of interstate streams can best be promoted through a joint agency representing the several states located wholly or in part within the area drained by any such interstate stream; and

Whereas the Congress of the United States has given its consent to the states of Maryland and West Virginia, the Commonwealths of Pennsylvania and Virginia, and the District of Columbia to enter into a compact providing for the creation of a conservancy district to consist of the drainage basin of the Potomac River and the main and tributary streams therein, for the purpose of regulating, controlling, preventing, or otherwise rendering unobjectionable and harmless the pollution of the waters of said Potomac drainage area by sewage and industrial and other wastes; and

Whereas the regulation, control and prevention of pollution is directly affected by the quantities of water in said streams and the uses to which such water may be put, thereby requiring integration and coordination of the planning for the development and use of the water and associated land resources through cooperation with, and support and coordination of, the activities of federal, state, local and private agencies, groups, and interests concerned with the development, utilization and conservation of the water and associated land resources of the said conservancy district:

Now, therefore, the states of Maryland and West Virginia, the Commonwealths of Pennsylvania and Virginia, and the District of Columbia, hereinafter designated signatory bodies, do hereby create the Potomac Valley Conservancy District, hereinafter designated the Conservancy District comprising all of the area drained by the Potomac River and its tributaries; and also, do hereby create, as an agency of each signatory body, the Interstate Commission on the Potomac River Basin, hereinafter designated the Commission, under the articles of organization as set forth below.

Article I

The Interstate Commission on the Potomac River Basin shall consist of three members from each signatory body and three members appointed by the President of the United States. Said Commissioners, other than those appointed by the President, shall be chosen in a manner and for the terms provided by law of the signatory body from which they are appointed and shall serve without compensation from the Commission but shall be paid by the Commission their actual expenses incurred and incident to the performance of their duties.

(A) The Commission shall meet and organize within thirty days after the effective date of this compact, shall elect from its number a chairman and vice-chairman, shall adopt suitable bylaws, shall make, adopt, and promulgate such rules and regulations as are necessary for its management and control, and shall adopt a seal.

(B) The Commission shall appoint and, at its pleasure, remove or discharge such officers and legal, engineering, clerical, expert and other assistants as may be required to carry the provisions of this compact into effect, and shall determine their qualifications and fix their duties and compensation. Such personnel as may be employed shall be employed without regard to any civil service or other similar requirements for employees of any of the signatory bodies. The Commission may maintain one or more offices for the transaction of its business and may meet at any time or place within the area of the signatory bodies.

(C) The Commission shall keep accurate accounts of all receipts and disbursements and shall make an annual report thereof and shall in such report set forth in detail the operations and transactions conducted by it pursuant to this compact. The Commission, however, shall not incur any obligations for administrative or other expenses prior to the making of appropriations adequate to meet the same nor shall it in any way pledge the credit of any of the signatory bodies. Each of the signatory bodies reserves the right to make at any time an examination and audit of the accounts of the Commission.

(D) A quorum of the Commission shall, for the transaction of business, the exercise of any powers, or the performance of any duties, consist of at least six members of the Commission who shall represent at least a majority of the signatory bodies; provided, however, that no action of the Commission relating to policy or stream classification or standards shall be binding on any one of the signatory bodies unless at least two of the Commissioners from such signatory body shall vote in favor thereof.

Article II

The Commission shall have the power:

(A) To collect, analyze, interpret, coordinate, tabulate, summarize and distribute technical and other data relative to, and to conduct studies, sponsor research and prepare reports on, pollution and other water problems of the Conservancy District.

(B) To cooperate with the legislative and administrative agencies of the signatory bodies, or the equivalent thereof, and with other commissions and federal, local governmental and nongovernmental agencies, organizations, groups and persons for the purpose of promoting uniform laws, rules or regulations for the abatement and control of pollution of streams and the utilization, conservation and development of the water and associated land resources in the said Conservancy District.

(C) To disseminate to the public information in relation to stream pollution problems and the utilization, conservation and development of the water and associated land resources of the Conservancy District and on the aims, views, purposes and recommendations of the Commission in relation thereto.

(D) To cooperate with, assist, and provide liaison for and among, public and nonpublic agencies and organizations concerned with pollution and other water problems in the formulation and coordination of plans, programs and other activities relating to stream pollution or to the utilization, conservation or development of water or associated land resources, and to sponsor cooperative action in connection with the foregoing.

(E) In its discretion and at any time during or after the formulation thereof, to review and to comment upon any plan or program of any public or private agency or organization relating to stream pollution or the utilization, conservation, or development of water or associated land resources.

(F) (1) To make, and, if needful from time to time, revise and to recommend to the signatory bodies, reasonable minimum standards for the treatment of sewage and industrial or other wastes now discharged or to be discharged in the future to the streams of the Conservancy District, and also, for cleanliness of the various streams in the Conservancy District.

(2) To establish reasonable physical, chemical and bacteriological standards of water quality satisfactory for various classifications of use. It is agreed that each of the signatory bodies through appropriate agencies will prepare a classification of its interstate waters in the District in entirety or by portions according to present and proposed highest use, and for this purpose technical experts employed by appropriate state water pollution control agencies are authorized to confer on questions relating to classification of interstate waters affecting two or more states. Each signatory body agrees to submit its classification of its interstate waters to the Commission with its recommendations thereon.

The Commission shall review such classification and recommendations and accept or return the same with its comments. In the event of return, the signatory body will consider the comments of the Commission and resubmit the classification proposal, with or without amendment, with any additional comments for further action by the Commission.

It is agreed that after acceptance of such classification, the signatory body through its appropriate state water pollution control agencies will work to establish programs of treatment of sewage and

industrial wastes which will meet or exceed standards established by the Commission for classified waters. The Commission may from time to time make such changes in definitions of classifications and in standards as may be required by changed conditions or as may be necessary for uniformity and in a manner similar to that in which these standards and classifications were originally established.

It is recognized, owing to such variable factors as location, size, character and flow and the many varied uses of the waters subject to the terms of this compact, that no single standard of sewage and waste treatment and no single standard of quality of receiving waters is practical and that the degree of treatment of sewage and industrial wastes should take into account the classification of the receiving waters according to present and proposed highest use, such as for drinking water supply, bathing and other recreational purposes, maintenance and propagation of fish life, industrial and agricultural uses, navigation and disposal of wastes.

Article III

For the purposes of dealing with the problems of pollution and of water and associated land resources in specific areas which directly affect two or more, but not all, signatory bodies, the Commission may establish sections of the Commission consisting of the Commissioners from such affected signatory bodies; provided, however, that no signatory body may be excluded from any section in which it wishes to participate. The Commissioners appointed by the President of the United States may participate in any section. The Commission shall designate, and from time to time may change, the geographical area with respect to which each section shall function. Each section shall, to such extent as the Commission may from time to time authorize, have authority to exercise and perform with respect to its designated geographical area any power or function vested in the Commission, and in addition may exercise such other powers and perform such functions as may be vested in such section by the laws of any signatory body or by the laws of the United States. The exercise or performance by a section of any power or function vested in the Commission may be financed by the Commission, but the exercise or performance of powers or functions vested solely in a section shall be financed through funds provided in advance by the bodies, including the United States, participating in such section.

Article IV

The moneys necessary to finance the Commission in the administration of its business in the Conservancy District shall be provided through appropriations from the signatory bodies and the United States, in the manner prescribed by the laws of the several signatory bodies and of the United States, and in amounts as follows:

The pro rata contribution shall be based on such factors as population; the amount of industrial and domestic pollution; and a flat service charge, as shall be determined from time to time by the

Commission, subject, however, to the approval, ratification and appropriation of such contribution by the several signatory bodies.

Article V

Pursuant to the aims and purposes of this compact, the signatory bodies mutually agree:

1. Faithful cooperation in the abatement of existing pollution and the prevention of future pollution in the streams of the Conservancy District and in planning for the utilization, conservation and development of the water and associated land resources thereof.
2. The enactment of adequate and, insofar as is practicable, uniform legislation for the abatement and control of pollution and control and use of such streams.
3. The appropriation of biennial sums on the proportionate basis as set forth in Article IV.

Article VI

This compact shall become effective immediately after it shall have been ratified by the majority of the legislatures of the states of Maryland and West Virginia, the Commonwealths of Pennsylvania and Virginia, and by the Commissioners of the District of Columbia, and approved by the Congress of the United States; provided, however, that this compact shall not be effective as to any signatory body until ratified thereby.

Article VII

Any signatory body may, by legislative act, after one year's notice to the Commission, withdraw from this compact.

[246](#), [311](#).

§ 2.2-2264. Revenue bonds generally

The Authority may, with the consent of the Governor, provide for the issuance of revenue bonds of the Authority for the purpose of paying all or any part of the cost of any one or more projects or portions thereof. The principal of and the interest on such bonds shall be payable solely from the funds provided in this article for such payment. Any bonds of the Authority issued pursuant to this article shall not constitute a debt of the Commonwealth, or any political subdivision thereof other than the Authority, and shall so state on their face. Neither the members of the Authority nor any person executing the bonds shall be liable personally by reason of the issuance thereof. The bonds of each issue shall be dated, shall bear interest, shall mature at such time not exceeding forty years from their date as determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price and under such terms and conditions as determined by the Authority, prior to the issuance of the bonds. The Authority shall determine the form and the manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denominations of the bonds and the places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature appears on any bonds or coupons shall cease to be such officer before the delivery of the bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes as if he had remained in office until such delivery. The bonds may be issued in coupon or in registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for

the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The Authority may sell such bonds in a manner, either at public or private sale, and for such price as it determines will best effect the purposes of this article.

The proceeds of the bonds of each issue shall be used solely for the payment of the cost of the projects for which such bonds shall have been issued, and shall be disbursed in the manner and under the restrictions, if any, the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement securing the bonds. If the proceeds of the bonds of any issue, by error of estimates or otherwise, is less than the cost, additional bonds may be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust agreement securing the bonds, shall be deemed to be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds, or may be applied to the payment of the cost of any additional projects.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds that shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this article without obtaining the consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things that are specifically required by this article.

1981, c. 569, § 2.1-234.14; 1998, cc. [498](#), [504](#); 2001, c. [844](#).

§ 2.2-2265.Trust agreement securing bonds

In the discretion of the Authority any bonds issued under the provisions of this article may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. The trust agreement or the resolution providing for the issuance of the bonds may pledge or assign the revenues to be received, but shall not convey or mortgage any project or any part thereof. The trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the acquisition, construction, establishment, improvement, extension, enlargement, maintenance, repair, operation and insurance of the project in connection with which the bonds have been authorized, the rates and fees to be charged, the custody, safeguarding and application of all moneys, and conditions or limitations with respect to the issuance

of additional bonds. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish the indemnifying bonds or to pledge the securities required by the Authority. Any such trust agreement may set forth the rights of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Authority deems reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of a trust agreement or resolution may be treated as a part of the cost of the operation of the project.

1981, c. 569, § 2.1-234.15; 2001, c. [844](#).

§ 2.2-2266. Rents, fees and charges for financing or refinancing, services or use of facilities; use and disposition of revenues

The Authority may fix, revise, charge, and collect rates, fees, and other charges for the financing or refinancing of, the use of or for the services and facilities furnished by each project and the different parts thereof, and to contract with any agency, commission, political subdivision or other entity desiring the use of any part thereof, and to fix the terms, conditions, rents, and rates of charges for such use or financing or refinancing. Such rates, fees, and other charges shall be fixed and adjusted so that revenues of the Authority, together with any other available funds, will be sufficient at all times to pay (i) the cost of maintaining, repairing and operating such project and (ii) the principal of and the interest on the related bonds as they become due and payable, and to create reserves for such purposes. Such rates, fees, and other charges shall not be subject to supervision or regulation by any other commission, board, bureau, or agency of the Commonwealth. The revenues derived from the project in connection with which the bonds have been issued, except such part thereof as may be necessary to pay the cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the bonds, shall be set aside at such regular intervals as may be provided in the resolution or trust agreement in a sinking fund which is pledged to, and charged with, the payment of the principal of and the interest on such bonds as they become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made, the revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of the bonds or of the trust agreement. Except as

may otherwise be provided in the resolution or trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another.

§ 2.2-2267.Moneys received deemed trust funds

All moneys received pursuant to the authority of this article, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this article. The resolution authorizing the bonds of any issue or the trust agreement securing the bonds shall provide that any officer with whom, or any bank or trust company with which, such moneys are deposited shall act as a trustee of the moneys and shall hold and apply the same for the purposes hereof, subject to the regulations as this article and the resolution or trust agreement may provide.

§ 2.2-2268.Proceedings by bondholder or trustee to enforce rights

Any holder of bonds issued under the provisions of this article or any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the trust agreement or the resolution authorizing the issuance of the bonds, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under the trust agreement or resolution, and may enforce and compel the performance of all duties required by this article or by the trust agreement or resolution to be performed by the Authority or by any officer thereof, including the fixing, charging, and collecting of rates, fees, and other charges.

§ 2.2-2269.Bonds made securities for investment and deposit

Bonds issued by the Authority under the provisions of this article shall be securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds shall be securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations of the Commonwealth is now or may be authorized by law.

The Authority may provide for the issuance of revenue refunding bonds of the Authority for the purpose of refunding any obligations then outstanding which have been issued under the provisions of this article or by other state and local authorities or political subdivisions of the Commonwealth where such obligations are secured by a lease or other payment agreement with the Commonwealth, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of the obligations, and, if deemed advisable by the Authority, for the additional purpose of constructing improvements, extensions, or enlargements of the project in connection with which the obligations to be refunded have been issued. The Authority may provide by resolution for the issuance of its revenue obligations for the combined purpose of (i) refunding any obligations then outstanding that have been issued under the provisions of this article or by other state and local authorities or political subdivisions of the Commonwealth where such obligations are secured by a lease or other payment agreement with the Commonwealth, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such obligations, and (ii) paying all or any part of the cost of any additional project or any portion thereof. § 2.2-2271.Grants or loans of public or private funds

The Authority may accept, receive, receipt for, disburse, and expend federal and state moneys and other moneys, public or private, including proceeds of the Authority's bonds, made available by grant or loan or both, to accomplish, in whole or in part, any of the purposes of this article. All federal moneys accepted under this section shall be accepted and expended by the Authority upon such terms and conditions as are prescribed by the United States and as are consistent with state law; and all state moneys accepted under this section shall be accepted and expended by the Authority upon such terms and conditions as are prescribed by the Commonwealth.

§ 2.2-2272.Moneys of Authority; audit

All moneys of the Authority, from whatever source derived, shall be paid to the treasurer of the Authority. Such moneys shall be deposited in the first instance by the treasurer in one or more banks or trust companies, in one or more special accounts, and each of such special accounts shall be continuously secured by a pledge of direct obligations of the United States or of the Commonwealth, having an aggregate market value, exclusive of accrued interest, at all times at least equal to the balance on deposit in such account. Such securities shall either be deposited with the treasurer or be held by a trustee or agent satisfactory to the Authority. All banks and trust companies are authorized to give such security for such deposits. The moneys in such accounts shall be paid out on the warrant or

other order of the treasurer of the Authority, or of such other persons as the Authority may authorize to execute such warrants or orders.

The Auditor of Public Accounts or his legally authorized representatives may examine the accounts and books of the Authority, including its receipts, disbursements, contracts, leases, sinking funds, investments, and any other matters relating to its finances, operation and affairs.

§ 2.2-2273. Contracts, leases and other arrangements

A. In connection with the operation of a facility owned or controlled by the Authority, the Authority may enter into contracts, leases, and other arrangements with any person (i) granting the privilege of using or improving the facility or any portion or facility thereof or space therein consistent with the purposes of this article; (ii) conferring the privilege of supplying goods, commodities, things, services, or facilities at the facility; (iii) making available services to be furnished by the Authority or its agents at the facility; and (iv) providing for the payment therefor.

In each case the Authority may establish the terms and conditions and fix the charges, rentals, or fee for the privilege or service, which shall be reasonable and uniform for the same class of privilege or service at each facility and shall be established with due regard to the property and improvements used and the expenses of operation to the Authority.

B. Except as may be limited by the terms and conditions of any grant, loan or agreement authorized by § [2.2-2271](#), the Authority may by contract, lease, or other arrangements, upon a consideration fixed by it, grant to any qualified person, for a term not to exceed thirty years, the privilege of operating, as agent of the Authority or otherwise, any facility owned or controlled by the Authority; provided that no person shall be granted any authority to operate a facility other than as a public facility or to enter into any contracts, leases, or other arrangements in connection with the operation of the facility that the Authority might not have undertaken under subsection A.

C. In connection with a project leased to or financed or refinanced for a trust instrumentality of the United States where payments or contributions by the Commonwealth and any political subdivision, together with amounts pursuant to an agreement with such trust instrumentality to pay rent or other amounts, are sufficient to pay the principal of and interest on the Authority's bonds issued to finance or refinance such project, the Authority may agree that such trust instrumentality shall assume all responsibility for the acquisition, construction, operation, maintenance, and repair of the project and may further agree that when the principal of all such bonds of the Authority and the interest thereon have been paid in full or provision made therefor satisfactory to the Authority, the trust instrumentality may acquire the Authority's interest in such project without payment of additional consideration.

No rule, regulation, order, or standard prescribed by the Authority shall be inconsistent with, or contrary to, any law of the Commonwealth or act of the Congress of the United States or any regulation adopted or standard established pursuant thereto. The Authority shall keep on file at the principal office of the Authority for public inspection a copy of all its rules and regulations.

§ 2.2-2275.Competition in award of contracts; contractors to give surety; terms of contracts

If any project or any portion thereof or any improvement thereof shall be constructed, or furnished pursuant to a contract and the estimated cost thereof exceeds \$10,000, such contract with the Authority shall be awarded to the lowest responsible bidder after advertisement for bids. The Authority may make rules and regulations for the submission of bids and the construction, furnishing, or improvement of any project or portion thereof to be owned by the Authority, the Commonwealth or any agency, institution, or department thereof. No contract shall be entered into by the Authority for construction, furnishing, or improvement of any project, or portion thereof, or for the purchase of materials, unless the contractor gives an undertaking with a sufficient surety approved by the Authority, and in an amount fixed by the Authority in accordance with § [2.2-4337](#), for the faithful performance of the contract. Such contract shall be accompanied by an additional bond for the protection of those who furnish labor and material or rental equipment for such amount and subject to the same terms and conditions as established by the Authority in accordance with § [2.2-4337](#). All construction contracts shall provide, among other things, that the person or corporation entering into such contract with the Authority will pay for all materials furnished, rental equipment used and services rendered for the performance of the contract, and that any person or corporation furnishing such materials, rental equipment or rendering such services may maintain an action to recover for the same against the obligor in the undertaking as though such person or corporation was named therein, provided the action is brought within one year after the time the cause of action accrued. The additional bond shall be conditioned upon the prompt payment of actual equipment rentals and shall not be conditioned upon or guarantee payment of equipment rentals, all or any part of which, directly or indirectly, apply on the purchase price of such equipment under the terms of a bailment lease or conditional sales contract or by any other arrangement by which title to the equipment will be transferred to the contractor and the rentals form any part of the consideration.

Subject to the foregoing, the Authority may, but without intending by this provision to limit any powers of the Authority, enter into and carry out such contracts, or establish or comply with such rules and regulations concerning labor and materials to rental equipment and other related matters in connection with any project, or portion thereof, as the Authority deems desirable.

§ 2.2-2276.Eminent domain; right of entry

The Authority is vested with the power of eminent domain and may exercise it for the purposes set forth in this article. If the owner, lessee, or occupier of any property to be condemned or otherwise acquired refuses to remove his property therefrom or give up possession, the Authority may proceed to obtain possession in any manner provided by law.

§ 2.2-2277.Jurisdiction of suits against Authority; service of process

The Circuit Court of the City of Richmond shall have exclusive jurisdiction of any suit brought in Virginia against the Authority, and process in any such suit shall be served either on the State Treasurer or the chairman of the Authority.

§ 2.2-2278.Exemption from taxes or assessments

The exercise of the powers granted by this article shall be in all respects for the benefit of the people of the Commonwealth, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of projects by the Authority constitutes the performance of essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon any project or any property acquired or used by the Authority under the provisions of this article or upon the income therefrom, and any bonds issued under the provisions of this article, their transfer and the income therefrom (including any profit made on the sale thereof), shall at all times be free from taxation within the Commonwealth. The exemption granted in this section shall not be construed to extend to persons conducting on the premises of a facility businesses for which local or state taxes would otherwise be required.

§ 15.2-5602. Creation of authorities

A. A locality may by ordinance or resolution, or two or more localities, may by concurrent ordinances or resolutions, signify their intention to create an authority under an appropriate name and title containing the word "authority." Each participating locality shall hold a public hearing, notice of which shall be given by publication at least once, not less than seven days prior to the date fixed for the hearing, in a newspaper having general circulation in the locality. The notice shall contain a brief statement of the substance of the proposed authority, shall set forth the proposed articles of incorporation of the authority and shall state the time and place of the public hearing. The locality, by resolution, may call for a referendum on the question of the creation of an authority, which shall be held as provided by § [24.2-681](#) et seq. When a referendum is to be held in more than one locality, the referendum shall be held on the same date in all of such localities.

B. The articles of incorporation shall set forth:

1. The name of the authority and address of its principal office.
2. A statement that the authority is created under this chapter.
3. The name of each participating locality.
4. The names, addresses and terms of office of the first members of the authority.
5. The purpose or purposes for which the authority is to be created.

C. Passage of such ordinance or resolution by the governing body or governing bodies shall constitute the authority a body politic and corporate of the Commonwealth.

D. Any locality may become a member of an existing authority, and any locality which is a member of an existing authority may withdraw therefrom, but no locality shall be permitted to withdraw from any authority that has outstanding obligations unless United States securities have been deposited for their payment or without the unanimous consent of all holders of the outstanding obligations.

E. Having specified the initial purpose or purposes of the authority in the articles of incorporation, the governing bodies of the participating localities may, from time to time by subsequent ordinance or resolution, after public hearing, modify the articles of incorporation and the purpose or purposes specified therein. Such modification may be made either with or without a referendum.

Officers and employees of the participating localities may be appointed to the board and may constitute a majority of the members of the board. The members of the board shall elect one of their number chairman and shall elect a secretary and treasurer who need not be members of the board. The members of the board shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties. The localities may provide for compensation of the members of the board; provided no compensation shall be paid for meetings not attended.

Alternate members of the board may also be selected. Such alternates shall be selected in the same manner as the members. The term of each alternate shall be the same as the term of the member for whom each serves as an alternate; however, the alternate's term shall not expire because of the member's death, disqualification, resignation or termination of employment with the member's locality. If a member is not present at a meeting of the authority, the alternate for the member shall have all the voting and other rights of a member and shall be counted for purposes of determining a quorum at any meeting of the authority.

The lease may be for a term ending not later than the end of the then current fiscal year of the locality and renewable for additional terms of one fiscal year each or as may be agreed upon by the parties provided that the total of the original term and any renewals shall in no event exceed fifty years. Each renewal shall be at the option of such locality and the lease may provide that it is renewed for an additional term if the locality fails to cancel the lease in writing on or prior to sixty days before the end of the then current term. Rentals under such lease may be computed at fixed amounts or by a formula based on any factors provided therein and the rentals payable may include provision for all or any part of or a share of the amounts necessary (i) to pay or provide for the expenses of operation and maintenance of a project, (ii) to provide for the payment of principal and interest on any bonds of the authority, and (iii) to maintain such reserves or sinking funds as may be required by the terms of any contract of the authority or as may be deemed necessary or desirable by the authority. Such payments shall be payable only from revenues of the locality available during the fiscal year during which the lease is in effect. Notwithstanding the provisions of § [15.2-5606](#) or any other provision hereof the authority or the locality leasing the project may contract with a person as sublessee or operator of the project at a compensation to be agreed upon by the parties.

The authority may acquire or construct and maintain and operate any one or more projects under this chapter in such manner as the authority may determine, and the authority may operate each project separately or it may operate one or more projects together. The authority shall have exclusive control over the revenues derived from its operations and may use revenues from one project in connection with any other project. No person shall receive any profit or dividend from the revenues, earnings or other funds or assets of the authority other than for debts contracted, for services rendered, for materials and supplies furnished and for other value actually received by the authority.

Code 1950, § 15-714.19; 1962, c. 393, § 7, § 15.1-1277; 1997, c. 587.

§ 15.2-5607. Authority to issue bonds; source of payment

The authority is authorized to issue bonds from time to time in its discretion for the purpose of paying all or any part of the cost of acquiring, purchasing, constructing, reconstructing, improving or extending

any project and acquiring necessary land and equipment therefor. The authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable as to principal and interest: (i) from its revenues generally; (ii) exclusively from the income and revenues of a particular project; or (iii) exclusively from the income and revenues of certain designated projects, whether or not they are financed in whole or in part from the proceeds of such bonds.

Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating locality, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, copartnership, association, or individual, or a pledge of any income or revenues of the authority, or a mortgage on any project or other property of the authority, or any contract obligation or undertaking, whether in the nature of a guaranty or otherwise, of any participating locality. However, any such contract obligation or undertaking by any participating locality which is a city or town shall not be considered an indebtedness within the meaning of any debt limitation or restriction and that any such contract obligation or undertaking by a participating locality which is a county shall be authorized in accordance with the provisions of Article VII, Section 10 (b) of the Constitution of Virginia.

Neither the members of the board of the authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of the authority (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof other than the participating localities which have entered into contract obligations or other undertakings with respect to the repayment thereof as authorized in the preceding paragraph, and neither the Commonwealth nor any political subdivision thereof other than the authority and, to the extent provided in the preceding paragraph, participating localities, shall be liable thereon, nor shall such bonds or obligations be payable out of any funds or properties other than those of the authority and those created by contract obligations or undertakings of any participating localities entered into pursuant to the preceding paragraph. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. Bonds of the authority are declared to be issued for an essential public and governmental purpose.

§ 15.2-5608. Bond resolution; terms, conditions, form and execution of bonds; sale; interim receipts or temporary bonds

Bonds of the authority shall be authorized by resolution of the board and may be issued in one or more series, shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates, as may be determined by the authority, and may be made redeemable before maturity, at the option of the authority at such price or prices and under such terms and conditions as may be fixed by the authority prior to the issuance of the bonds.

The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or outside the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before delivery of such bond, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this chapter or any recitals in any bonds issued under the provisions of this chapter, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the authority.

Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost.

Bonds may be issued under the provisions of this chapter without obtaining the consent of any commission, board, bureau or agency of the Commonwealth or of any political subdivision thereof, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this chapter.

§ 15.2-5609. Trust indenture or agreement to secure payment of bonds

In the discretion of the authority, any bonds issued under the provisions of this chapter may be secured by a trust indenture by way of conveyance, deed of trust or mortgage of any project or any other property of the authority, whether or not financed in whole or in part from the proceeds of such bonds, or by a trust agreement by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside the Commonwealth or by both such conveyance, deed of trust or mortgage and indenture or trust agreement. Such trust indenture or agreement, or the resolution providing for the issuance of such bonds may pledge or assign fees, rents, charges and receipts, collected by, payable to or otherwise derived by the authority, and all other moneys and income of whatever kind or character collected by, payable to or otherwise derived from any project. Such trust indenture or agreement, or resolution providing for the issuance of such bonds, may contain such provisions for protecting and enforcing the rights and

remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and issuance of any project or other property of the authority, and the rates of fees, rents and other charges to be charged, and the custody, safeguarding and application of all moneys of the authority, and conditions or limitations with respect to the issuance of additional bonds. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of such bonds or of other revenues of the authority to furnish indemnifying bonds or to pledge such securities as may be required by the authority. Such trust indenture or agreement or resolution may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders.

In addition to the foregoing, such trust indenture or agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust indenture or agreement or resolution may be treated as a part of the cost of a project.

The authority is authorized to fix, revise, charge and collect fees, rents and other charges for the use of any project and the facilities thereof. The fees, rents and other charges shall be fixed and adjusted so as to provide funds, which when added to other funds, are sufficient to pay: (i) the cost of maintaining, repairing and operating the project and (ii) the principal and any interest on the bonds as the same shall become due and payable. Reserves may be accumulated and maintained out of the revenues and receipts of the authority for extraordinary repairs and expenses and for such other purposes as may be provided in any resolution authorizing a bond issue or in any trust indenture securing the authority's bonds. Such fees, rents and charges shall not be subject to supervision or regulation by any commission, board, bureau or agency of the Commonwealth or any participating locality.

Any holder of bonds, notes, certificates or other evidences of borrowing or any coupons appertaining thereto issued under the provisions of this chapter and the trustee under any trust indenture or

agreement, except to the extent of the rights herein given may be restricted by such trust indenture, or agreement may protect and enforce their rights under (i) the laws of the Commonwealth; (ii) this chapter; (iii) the trust indenture or agreement; or (iv) the resolution authorizing the issuance of such bonds, notes or certificates. § 22.1-166. Purchase and sale of local school bonds

The Authority is authorized to purchase local school bonds with any funds of the Authority available for such purpose, at public or private sale and for such price and on such terms as it shall determine. The Authority may pledge to the payment of the interest on and the principal of any bonds of the Authority all or any part of the local school bonds so purchased, including payments of principal and interest thereon as they shall become due. The Authority may also, subject to any such pledge, sell any such local school bonds so purchased and apply the proceeds of such sale in the purchase of other like local school bonds or for such purpose and in such manner as shall be provided by any resolution authorizing the issuance of bonds of the Authority, or the Authority may transfer such proceeds to the Literary Fund. For the purpose of Article VII, Section 10(b) of the Constitution of Virginia, the Authority shall be deemed a state agency authorized to purchase bonds issued with the consent of the school board and the governing body of the county by or on behalf of a county or district thereof for capital projects for school purposes.

Notwithstanding the provisions of any general or special law to the contrary, any city completely surrounded by a county having the urban county executive form of government may finance capital projects for school purposes through the Authority without the requirement of a voter referendum if the financing for the capital project is requested by both the city council and the school board.

The proceeds of all local school bonds issued pursuant to this chapter prior to July 1, 1975, may be used for any capital project for public schools as provided in the resolution by which their issuance was authorized.

§ 22.1-166.1.Loans to local school boards

The Authority is authorized to make loans or loan interest rate subsidy payments, from any of the funds of the Authority available for such purpose, to local school boards for the purpose of acquiring and installing capital projects for school purposes for which loans from the Literary Fund are not immediately available. For the purpose of this section and § [22.1-166.2](#), capital projects for school purposes shall mean motor vehicles and educational technology equipment.

- A. No loan from the Authority shall exceed 100 percent of the cost of the capital project for school purposes for which such loan is made.
- B. A loan from the Authority shall be evidenced by notes payable to the Authority, executed or signed by the chairman of the school board, with the approval of the local governing body, attested by the clerk thereof and deposited with the State Treasurer. Payments of interest and principal on such notes shall be made to the State Treasurer. Any loan from the Authority shall be repayable in installments as shall be approved by the local school board, as appropriate, with the final installment being due not more than thirty years after the date of such loan. The time of payment may be extended in the discretion of the Authority.
- C. The local governing bodies and the local school boards of the several school divisions are authorized to borrow money from the Authority, at such rate or rates, fixed or variable, as shall be approved by the local school board; any local school board to borrow from the Authority shall first make written application to the Authority for such loan on a form to be prescribed by the Authority.
- D. The governing body of any county, city, or town, if the town constitutes the school division, in which the local school board has borrowed money from the Authority shall include in its levies, and appropriate to the local school board, a fund sufficient to meet the liabilities of the local school board on such loan if and to the extent such liabilities are not otherwise provided for by the General Assembly. The governing body of any county in which the local school board has borrowed money from the Authority for capital projects located in a town in such county constituting a separate school division shall have authority to include, in its levies for such town, a levy sufficient to meet the liabilities of the local school board on such loan if and to the extent such liabilities are not otherwise provided for by the General Assembly and shall levy a separate tax in the rest of the county to meet its liabilities on any contract for capital projects outside such town. In the event that such local school board shall fail to pay any installment of interest or principal promptly, upon notice in writing to that effect from the State Treasurer, the county, city, or town treasurer shall pay to the State Treasurer any such past due installment of interest or principal out of the funds in his hands belonging to such county, city, or town. The failure of such governing body to provide for the payment of such loan or the interest thereon when and as due shall be deemed a cause for removal of the members thereof from office on motion before the circuit court having jurisdiction in such county, city, or town, instituted by

the attorney for the Commonwealth of such county or city or by the Attorney General where the attorney for the Commonwealth refuses or neglects to act after demand on him to proceed.

E. The local school board of any school division composed of part or all of a county, with the approval of the governing body of the county, is authorized to borrow from the Authority for the purpose of financing capital projects in such county to serve a portion of such county. Taxes on property in the magisterial districts served by such capital projects shall be levied by the governing body of the county and collected for the purpose of repaying such loan; for the purposes of this section, a magisterial district shall not include a town constituting a separate school division but the governing body of the county may levy a separate tax on property in a town in such county constituting a separate school division to repay money borrowed by such county from the Authority for the purpose of financing capital projects in such town. Except as otherwise provided by this subsection, all other provisions of law relating to loans from the Authority shall apply to a loan authorized by this subsection.

F. Any local school board which is indebted for any money borrowed from the Authority may anticipate the payment of the principal amount of any such loans, or any part thereof, by the payment of such principal amount with interest thereon to the date of such anticipated payment and may borrow money and issue bonds for the purpose of raising funds to pay any notes or other obligations of the local school board now and hereafter held by the Authority.

1990, c. 909.

§ 22.1-166.2.Grants to local school boards

The Authority is authorized to make grants of money, from any of the funds of the Authority available for such purpose, to local school boards for the purchase of capital projects for school purposes.

1990, c. 909.

§ 22.1-167.Issuance of bonds of Authority

In order to provide funds for the purchase of local school bonds as authorized by § [22.1-166](#), to provide funds for the making of loans to local school boards as authorized by § [22.1-166.1](#), or to provide funds for the making of grants to local school boards as authorized by § [22.1-166.2](#), the Board of Commissioners is hereby authorized to provide by resolution, at one time or from time to time, for the issuance of bonds of the Authority in such amount or amounts as the Board of Commissioners shall determine. Such bonds of the Authority shall be payable solely from funds of the Authority, including, without limitation, all or any combination of the following sources: (i) payments of principal of and interest on local school bonds purchased by the Authority, (ii) the proceeds of the sale of any such local school bonds, (iii) payments of principal of and interest on obligations transferred to the Authority from the Literary Fund, (iv) the proceeds of the sale of any such obligations, (v) any moneys transferred to the Authority from the Literary Fund, (vi) payments of principal of and interest on loans

made to local school boards, and (vii) any funds authorized by the General Assembly from the Literary Fund or otherwise appropriated by the General Assembly, as shall be provided by the resolution of the Board of Commissioners authorizing any such bonds. Bonds of the Authority issued under the provisions of this chapter shall not be deemed to constitute a debt of the Commonwealth or a pledge of the faith or credit of the Commonwealth, and all bonds of the Authority shall contain on the face thereof a statement to the effect that neither the faith and credit nor the taxing power of the Commonwealth or of any political subdivision thereof is or shall be pledged to the payment of the principal of or the interest on such bonds.

The bonds of each issue shall be dated, shall bear interest and shall mature at such time or times, not exceeding thirty years from their date or dates, as may be determined by the Board of Commissioners and may be made redeemable before maturity, at the option of the Board of Commissioners, at such price or prices and under such terms and conditions as may be fixed by the Board of Commissioners prior to the issuance of the bonds. The principal and interest of such bonds may be made payable in any lawful medium. The Board of Commissioners shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof, which may be at the office of the State Treasurer or at any bank or trust company within or without the Commonwealth. If any officer whose signature or a facsimile of whose signature appears on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All bonds issued under the provisions of this chapter shall have and are hereby declared to have, as between successive holders, all the qualities and incidents of negotiable instruments under the negotiable instruments law of the Commonwealth. The bonds may be issued in coupon or in registered form or both, as the Board of Commissioners may determine, and provision may be made for the registration of any coupon bonds as to principal alone and as to both principal and interest and for the reconversion of any bonds registered as to both principal and interest into coupon bonds. The Board of Commissioners may sell such bonds in such manner, either at public or at private sale, and for such price as it may determine to be for the best interests of the Authority. The proceeds of such bonds shall be disbursed for the purposes for which such bonds were issued under such restrictions, if any, as the resolution authorizing the issuance of such bonds or the trust indenture provided for in § [22.1-171](#) may provide. Prior to the preparation of definitive bonds, the Board of Commissioners may under like restrictions issue temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Board of Commissioners may also provide for the replacement of any bond which shall become mutilated or shall be destroyed or lost. Such bonds may be issued without any other proceedings or the happening of any other conditions or things than the proceedings, conditions, and things which are specified and required by this chapter.

Code 1950, § 22-29.7; 1962, c. 194; 1972, c. 745; 1980, c. 559; 1990, c. 909.

§ 22.1-167.1. Refunding issues; pass-through of savings realized

A. In the event the Authority refunds any bonds previously issued to finance the purchase of local school bonds, the Authority shall pass-through to the issuers of such local school bonds, an allocable share of any savings realized. Such pass-through shall be accomplished, at the option of the Authority, by means of a debt service reduction over the remaining term of the local school bonds, by a lump sum payment of the present value of such allocable share of the savings, or by such other method as the Authority shall determine to be in the mutual best interests of the issuers of the local school bonds and the Authority.

B. For the purposes of this section, "savings" means the net reduction in debt service, if any, to be realized by the Authority, after subtracting the total costs, expenses, and equity contributions associated with the refunding and with the pass-through of such savings to the issuers of the local school bonds and of any Authority funds transferred, or required to be transferred, by mandate of the General Assembly, other than to the issuers of the local school bonds.

Notwithstanding the provisions of this section, no savings shall be passed-through to the issuers of local school bonds for which an interest rate subsidy has been paid or which were issued at below market interest rates. The savings in connection with the refunding of bonds issued by the Authority and allocable to local school bonds for which an interest rate subsidy has been paid, to the extent such subsidy was paid from the Literary Fund, shall be transferred to the Literary Fund and used exclusively for Literary Fund loans to local school boards pursuant to Chapter 10 (§ [22.1-142](#) et seq.) of Title 22.1.

C. This section shall have no application if it conflicts with a preexisting trust indenture.

D. Whenever the Authority shall defease its bonds previously issued to finance the purchase of local school bonds, the Authority may, consistent with the provisions of this section respecting the return of savings to the issuers of the related local school bonds, designate to such issuers of local school bonds which issues, series and maturities with which interest rates shall be deemed by the Authority to have been paid. Immediately upon such designation, the local school bonds so designated shall likewise be deemed defeased and no longer outstanding, the same as if the defeasance had occurred in accordance with the provisions of § [15.2-2623](#). Such defeasance shall not require any action by the issuer of the affected local school bonds, shall be effective immediately, and shall be duly noted on the records of the Authority which shall no longer have any right to payment with respect to the issues, series and maturities so deemed by the Authority to have been paid. The elected officials and financial officers of the affected locality are hereby authorized to execute and deliver such federal tax forms, certificates, and other documents as the Authority may request in connection with the defeasance of its local school bonds and the bonds of the Authority.

1994, c. [272](#); 2006, c. [223](#).

§ 22.1-167.2. Security for payment; appropriations

A. The Authority is authorized to issue bonds to finance and refinance acquisition of bonds, notes and other obligations of counties, cities and towns (local school bonds) issued for the purpose of financing and refinancing capital projects for school purposes and to pledge to the bonds all or any combination of the following sources: (i) payments of principal and interest on the local school bonds purchased by the Authority; (ii) payments to the localities by the Commonwealth as contemplated under the provisions of § [15.2-2659](#) (state aid intercept) of the Code of Virginia; (iii) funds in the Literary Fund available and appropriated for such purpose; and (iv) any funds in the general fund of the Commonwealth appropriated for such purpose.

B. The Governor's Budget Bill presented each year to the General Assembly shall include an appropriation to the Authority of a sum sufficient first, from funds in the Literary Fund available for such purpose, and second, from the general fund of the Commonwealth, to cure any shortfall in pledged primary revenues on any debt service payment date on the bonds of the Authority described by this section. A shortfall in pledged primary revenues shall exist when the sum of the payments made on local school bonds due on or before such date and any proceeds derived from the implementation of § [15.2-2659](#) (state aid intercept) of the Code of Virginia as of such date is less than required to pay the debt service due on the Authority's bonds on such date.

C. The Literary Fund and the general fund of the Commonwealth shall be subrogated to the rights of the Authority to the extent of any such funds paid to the Authority and shall be entitled to enforce the Authority's remedies with respect to the local school bonds and to full recovery of the amount of such shortfall.

D. On or before September 30 of each year, the Authority shall submit to the Governor and the chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations a report as of the end of the prior fiscal year detailing the total amount of the Authority's outstanding bonds secured by appropriations as described in subsection B. The report shall also describe any instances where any such appropriation has been used.

1998, cc. [4](#), [900](#).

§ 22.1-167.3. Bonds or notes issued for the purpose of making grants; security for payment; appropriations

A. The Authority is authorized to pledge to the bonds or notes of the Authority (i) authorized under the provisions of a resolution adopted subsequent to June 30, 2000, for the purpose described in § [22.1-166.2](#), (ii) issued subsequent to June 30, 2000, and (iii) not benefiting from the provisions of either clause (iii) or (iv) of § [22.1-168](#), or § [22.1-168.1](#), in addition to other sources available for such purpose, any funds in the general fund of the Commonwealth appropriated for such purpose.

B. The Governor's budget bill presented each year to the General Assembly pursuant to § [2.2-1509](#) shall include an appropriation to the Authority of a sum sufficient from the general fund of the Commonwealth to cure any shortfall in pledged primary revenues on any debt service payment date on the bonds or notes of the Authority described by this section. A shortfall in pledged primary revenues shall exist when the available moneys in the Literary Fund as of such date are less than the amount required to pay the debt service due on such bonds or notes on such date. For purposes of this subsection "available moneys in the Literary Fund" means moneys remaining after the payment, or provision for payment, of debt service on bonds or notes like those described in this section and payable from the Literary Fund, but issued prior to July 1, 2000.

C. On or before September 30 of each year, the Authority shall submit to the Governor and the chairmen of the House Committee on Appropriations, the House Committee on Finance, and the Senate Committee on Finance and Appropriations a report as of the end of the prior fiscal year detailing the total amount of the Authority's outstanding bonds and notes secured by an appropriation of a sum sufficient from the general fund of the Commonwealth as described in subsection B. The report shall also describe any instances where any such appropriation has been used.

§ 22.1-168. Security for payment and bonds; provisions of trust indenture or resolution of Board

In the discretion of the Board of Commissioners any bonds issued under the provisions of this chapter may be secured by a trust indenture by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. Such trust indenture or the resolution providing for the issuance of such bonds may pledge or assign all or any part of the funds of the Authority available for such purpose including, but without limitation, all or any combination of the following sources: (i) payments of principal of and interest on local school bonds purchased by the Authority, (ii) the proceeds of the sale of any such local school bonds, (iii) payments of principal of and interest on obligations transferred to the Authority from the Literary Fund, (iv) the proceeds of the sale of any such obligations, (v) any moneys transferred to the Authority from the Literary Fund, (vi) payments of principal of and interest on loans made to local school boards, and (vii) any funds authorized by the General Assembly for such purpose from the Literary Fund or otherwise appropriated by the General Assembly. Such trust indenture or resolution providing for the issuance of such bonds may provide for the creation and maintenance of such reserves as the Board of Commissioners shall determine to be proper and may include covenants setting forth the duties of the Board of Commissioners in relation to the acquisition of any local school bonds, the substitution of any local school bonds as security for payment of the bonds of the Authority, the collection of payments of principal and interest on (i) any local school bonds, (ii) on any obligations transferred to the Authority from the Literary Fund, and (iii) on any loans made to local school boards. Such trust indenture or resolution may include provisions requiring the

Authority or the trustee under such trust indenture or any depository to file a petition with the Governor and to take any and all other action required under § [15.2-2659](#) to secure payment of all sums necessary to cover any default as to any bonds or the interest thereon held by the Authority or by such trustee or depository to which § [15.2-2659](#) shall be applicable. Such trust indenture or resolution may contain provisions respecting the custody, safeguarding and application of all moneys and securities including local school bonds purchased by the Authority and obligations transferred to the Authority from the Literary Fund and may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of any other funds or obligations received on behalf of the Authority to furnish such indemnifying bonds or to pledge such securities as may be required by the Board of Commissioners. Any such trust indenture or resolution may contain such other provisions as the Board may deem reasonable and proper for the security of the bondholders. Any reference in this chapter to a resolution of the Board of Commissioners shall include any trust indenture authorized thereby.

Code 1950, § 22-29.8; 1962, c. 194; 1972, c. 745; 1980, c. 559; 1990, c. 909.

§ 22.1-168.1. Reserve fund; limitations

- A. If the Board of Commissioners deems it proper to create a reserve fund or funds from bond proceeds to support an issuance of bonds in accordance with the provisions of this section, all moneys held in such reserve fund, except as hereinafter provided, shall be pledged solely for the payment of the principal and interest on the bonds secured in whole or in part by such a fund. Any income or interest earned on, or increment to, any reserve fund may be transferred by the Board of Commissioners to other funds or accounts of the Authority to the extent it does not reduce the amount of the reserve fund below its minimum requirement.
- B. The Board of Commissioners shall not at any time issue bonds secured in whole or in part by any reserve fund referred to in subsection C, if upon the issuance of the bonds, the amount in the reserve fund will be less than its minimum requirement unless the Board of Commissioners, at the time of issuance of the bonds, deposits in the fund an amount which, together with the amount then in the fund, will not be less than the fund's minimum reserve requirement.
- C. In order to ensure further the maintenance of reserve funds established in accordance with the provisions of this section, the chairman of the Board of Commissioners shall annually, on or before December 1, make and deliver to the Governor and the Secretary of Administration a certificate stating the sum, if any, required to restore each reserve fund to its minimum requirement. Within five days after the beginning of each session of the General Assembly, the Governor shall submit to the presiding officer of each house of the General Assembly printed copies of a budget including the sum, if any, required to restore each reserve fund to its minimum requirement. All sums, if any, which may

be appropriated by the General Assembly for any restoration and paid to the Authority shall be deposited by the Authority in the applicable reserve fund. All amounts paid to the Board of Commissioners by the Commonwealth pursuant to the provisions of this section shall constitute and be accounted for as advances by the Commonwealth to the Authority and, subject to the rights of the holders of any bonds of the Authority, shall be repaid to the Commonwealth without interest from available revenues of the Authority in excess of the amounts required for the payment of bonds or other obligations of the Authority, the maintenance of reserve funds, and operating expenses.

D. Excluding bonds issued prior to July 1, 1991, the total principal amount of bonds outstanding at any one time, issued by the Board of Commissioners in accordance with the provisions of this section, shall not exceed the sum of \$800 million without the prior approval of the General Assembly.

E. Nothing in this section shall be construed as limiting the power of the Board of Commissioners to issue bonds (i) not secured by a reserve fund or (ii) secured by a reserve fund not described in this section.

Code 1950, § 22-29.9; 1962, c. 194; 1980, c. 559.

§ 22.1-170. Repayments to Literary Fund

All assets heretofore or hereafter transferred to the Authority from the Literary Fund pursuant to § [22.1-175](#) shall remain assets of the Literary Fund and shall be repaid to the Literary Fund pursuant to this section but, until so repaid, may be used for all purposes by the Authority to the same extent as if such assets were the sole property of the Authority.

On or before January 10 in each year the Authority shall set aside and repay to the Literary Fund an amount equal to the excess of the principal and interest collected by the Authority in the preceding year on account of obligations transferred to the Authority from the Literary Fund over such portion of such principal and interest as shall have been pledged by any trust indenture or resolution authorizing bonds of the Authority.

The principal collected by the Authority on account of obligations transferred to the Authority from the Literary Fund shall remain part of the principal of the Literary Fund subject to the provisions of Article VIII, Section 8 of the Constitution of Virginia and of this chapter, and the interest collected by the Authority on account of such obligations shall be deemed to be interest on the Literary Fund subject to the provisions of Article VIII, Section 8 of the Constitution of Virginia and of this chapter; provided,

however, that any such collected principal and interest pledged by any trust indenture or resolution authorizing bonds of the Authority shall continue to be held by the Authority until no longer so required by the terms of such trust indenture or resolution; and further provided that, on the next succeeding tenth day of January, any amount of such collected principal and interest no longer required to be held by the Authority shall be set aside and repaid to the Literary Fund as if it had been collected at the time it became no longer required to be held.

5. To adopt or alter or repeal any bylaws, rules or regulations as the Authority may deem necessary or expedient; and

B. The Authority is further authorized and empowered to issue notes and other obligations for any of its purposes in such form as may be authorized by resolution of the Authority. The issuance of such notes or other obligations shall be governed by the provisions of this chapter insofar as the same may be applicable.

§ 36-1. Title of chapter

This chapter may be referred to as the "Housing Authorities Law."

1938, p. 447; Michie Code 1942, § 3145(1).

§ 36-2. Findings and declaration of necessity

2. The elimination of blight and redevelopment of blighted areas through the designation of redevelopment areas and the adoption and implementation of redevelopment plans for such areas; the prevention of further deterioration and blight through the designation of conservation areas and the adoption and implementation of conservation plans for such areas; and the designation of individual properties as blighted under the "spot blight" provisions of this chapter are public uses and purposes for which public money may be spent and private property acquired by purchase or through the exercise of the power of eminent domain as authorized by this chapter, and are governmental functions of grave concern to the Commonwealth;
3. As a part of a redevelopment or conservation plan, it is a public purpose to provide public facilities including, but not limited to, roads, water, sewers, parks, and real estate devoted to open-space use as that term is defined in § [58.1-3230](#) within redevelopment and conservation areas; and
4. It is a public purpose to promote the availability of affordable housing for all citizens of the Commonwealth and in particular to provide safe, decent, and sanitary housing for those citizens with low or moderate incomes. To that end, (i) the clearance, replanning, and reconstruction of the areas in which unsanitary or unsafe housing conditions exist and the providing of safe and sanitary dwelling accommodations for persons of low or moderate income and (ii) the sale or lease of land and the acquisition, construction, rehabilitation, and operation of residential housing units for persons of low and moderate incomes are necessary for the public welfare and are public uses and public purposes for which public money may be spent and private property acquired by purchase or through the exercise of the power of eminent domain as authorized in this chapter and are governmental functions of grave concern to the Commonwealth.

B. The necessity and the public purpose for the provisions hereinafter enacted are hereby declared as a matter of legislative determination.

The provisions of this section shall not affect or impair the provisions of § [36-19.1](#), nor shall they apply to such low rent public housing units determined by the governing body of the city as necessary for the satisfactory relocation of families to be displaced by the city's urban renewal program.

1960, c. 490; 1975, c. 575.

§ 36-19.5.Additional powers

A. In addition to the powers otherwise granted, an authority may acquire, subject to prior approval, after public hearing, of each such acquisition by the governing body of the county, city or town wherein the property to be acquired is located, any single-family or multi-family dwelling unit within the authority's area of operation by purchase, lease, or gift or through the exercise of the power of eminent domain as provided in subsection B of this section, for development and redevelopment including, but not limited to, the renovation, rehabilitation and disposition thereof, when such authority has determined: (i) that such dwelling unit or other structure has deteriorated to such extent as to constitute a serious and growing menace to the public health, safety and welfare; (ii) that such dwelling unit or other structure is likely to continue to deteriorate unless corrected; (iii) that the continued deterioration of such dwelling unit or other structure may contribute to the blighting or deterioration of the area immediately surrounding the said dwelling unit or other structure; and (iv) that the owner of such dwelling unit or other structure, after sixty days' notice to the landowner by certified mail, citing § [36-19.5](#), has failed to correct the deterioration thereof.

B. A local governing body may, on behalf of an authority, acquire through the exercise of the power of eminent domain any single-family or multi-family dwelling unit within the authority's area of operation, but only for those purposes set forth in subsection A of this section.

§ 36-21. Housing projects not to be operated for profit

It is hereby declared to be the policy of this Commonwealth that each housing authority shall manage and operate its housing projects in an efficient manner so as to enable it to fix the rentals for dwelling accommodations at the lowest possible rates consistent with such authority providing decent, safe and sanitary dwelling accommodations, and that no housing authority shall construct or operate any such project for profit, or as a source of revenue to the city or the county. To this end an authority shall fix the rentals for dwellings in its projects at no higher rates than it shall find to be necessary in order to produce revenues which (together with all other available moneys, revenues, income and receipts of the authority from whatever sources derived) will be sufficient (a) to meet the cost of, and to provide for, maintaining and operating the projects (including the cost of any insurance) and the administrative expenses of the authority; (b) to pay, as the same become due, the principal and interest on the bonds of the authority; (c) to provide a margin of safety for making such payments of principal and interest; and (d) to create and maintain a reserve sufficient to ensure the authority can pay the principal of and the interest on the bonds of the authority as the same shall come due.

1938, p. 452; Michie Code 1942, § 3145(9); 1975, c. 78.

§ 36-22. Rentals and tenant selection

In the operation or management of housing projects an authority shall at all times observe the following duties with respect to rentals and tenant selection: (a) it may rent or lease the dwelling accommodations therein only to persons of low income and at rentals within the financial reach of such persons of low income; (b) it may rent or lease to a tenant dwelling accommodations consisting of the number of rooms (but no greater number) which it deems necessary to provide safe and sanitary accommodations to the proposed occupants thereof, without overcrowding; (c) it shall not accept any person as a tenant in any housing project if the person or persons who would occupy the dwelling accommodations have an aggregate annual income in excess of the maximum income limits

established by the authority for the purpose of determining what persons or families are of low income; and (d) at least thirty days before establishing or changing the aggregate annual maximum income limits for the purpose of determining what persons or families are persons of low income, an authority shall notify the governing body of the city or county thereof.

Nothing contained in this section or § [36-21](#) shall be construed as limiting the power of an authority to vest in an obligee the right, in the event of a default by the authority, to take possession of a housing project or cause the appointment of a receiver thereof, free from all the restrictions imposed by this section or § [36-21](#).

1938, p. 452; Michie Code 1942, § 3145(10); 1958, c. 116; 1972, cc. 466, 782.

§ 36-22.1. Conveyance of streets; no trespass policy

Each housing authority shall adopt a "no trespass" policy designed to protect the premises controlled by such authority and residents from nonresidents who enter the premises for unlawful purposes or without any lawful purpose. In adopting such policies, the authority shall determine whether to petition a locality or the Commonwealth to close to the public and convey to the authority any streets serving authority property. Neither a locality nor the Commonwealth shall be required to grant the conveyance.

2004, c. [585](#).

§ 36-23. Housing authority operations in other municipalities

In addition to its other powers, any housing authority may exercise any or all of its powers within the territorial boundaries of any municipality not included in the area of operation of such housing authority, for the purpose of planning, undertaking, financing, rehabilitating, constructing and operating a housing project or projects or a multi-family residential building or buildings within such municipality; provided that a resolution shall have been adopted (a) by the governing body of such municipality in which the housing authority is to exercise its powers and (b) by the authority of such municipality (if one has been theretofore established by such municipality and authorized to exercise its powers therein) declaring that there is a need for the aforesaid housing authority to exercise its powers within such municipality. A municipality shall have the same powers to furnish financial and other assistance to such housing authority exercising its powers within such municipality under this section as though the municipality were within the area of operation of such authority.

No governing body of a municipality shall adopt a resolution as provided in this section declaring that there is a need for the housing authority (other than a housing authority established by such municipality) to exercise its powers within such municipality, unless a public hearing has first been held by such governing body and unless such governing body shall have found in substantially the following terms: (a) that insanitary or unsafe inhabited dwelling accommodations exist in such municipality or that there is a shortage of safe or sanitary dwelling accommodations in such

municipality available to persons of low income at rentals they can afford; and (b) that these conditions can be best remedied through the exercise of the aforesaid housing authority's powers within the territorial boundaries of such municipality; provided that such findings shall not have the effect of establishing an authority for any such municipality under § [36-4](#) nor of thereafter preventing such municipality from establishing an authority or joining in the creation of a consolidated housing authority or the increase of the area of operation of a consolidated housing authority. The clerk of the city or other municipality shall give notice of the time, place and purpose of the public hearing at least seven days prior to the date on which the hearing is to be held, in a newspaper published in such municipality, or if there is no newspaper published in such municipality, then in a newspaper published in the Commonwealth and having a general circulation in such municipality. Upon the date fixed for such public hearing an opportunity to be heard shall be granted to all residents of such municipality and to all other interested persons.

During the time that, pursuant to these findings, the aforesaid housing authority has outstanding (or is under contract to issue) any evidences of indebtedness for a project within the municipality, no other housing authority may undertake a project within such municipality without the consent of the housing authority which has such outstanding indebtedness or obligation.

1942, p. 324; Michie Code 1942, § 3145(41); 1984, c. 350; 2023, cc. [506](#), [507](#).

§ 36-24.Cooperation of authorities

Any two or more housing authorities may join or cooperate with one another in the exercise, either jointly or otherwise of any or all of their powers for the purpose of financing (including the issuance of bonds, notes or other obligations and giving security therefor), planning, undertaking, owning, constructing, operating or contracting with respect to a housing project or projects located within the area of operation of any one or more of such authorities. For such purpose any authority may by resolution prescribe and authorize any other housing authority or authorities, so joining or cooperating with it, to act on its behalf with respect to any or all of such powers. Any authorities joining or cooperating with one another may by resolutions appoint from among the commissioners of such authorities an executive committee with full power to act on behalf of such authorities with respect to any or all of their powers, as prescribed by resolutions of such authorities.

§ 36-25.Payments by housing authorities to other bodies

An authority may agree to make such payments to the city or county, the Commonwealth, or any political subdivision thereof, which payments such bodies are hereby authorized to accept, and to otherwise expend its funds in such manner as the authority finds consistent with the maintenance of the low-rent character of housing projects or the achievement of the purposes of this Housing Authorities Law.

§ 36-26. Aid from federal government

In addition to the powers conferred upon an authority by other provisions of this chapter, an authority is empowered to borrow money or accept contributions, grants or other financial assistance from the federal government for or in aid of any housing project within its area of operation, to take over or lease or manage any housing projects or undertaking, within such area, constructed or owned by the federal government, and to these ends, to comply with such conditions and enter into such mortgages, trust indentures, leases or agreements as may be necessary, convenient or desirable.

1938, p. 457; Michie Code 1942, § 3145(19).

§ 36-27. Eminent domain

A. An authority shall have the right to acquire by the exercise of the power of eminent domain any real property pursuant to a duly adopted redevelopment or conservation plan, or otherwise only in accordance with this chapter, after the adoption by it of a resolution declaring that the acquisition of the real property described therein is necessary for such public purposes. An authority may exercise the power of eminent domain in the manner provided in Chapter 2 (§ [25.1-200](#) et seq.) of Title 25.1. In condemnation proceedings evidence may be presented as to the value of the property including but not limited to the owner's appraisal and the effect that any pending application for a zoning change, special use permit application or variance application may have on the value of the property. The court may also determine whether there has been unreasonable delay in the institution of the proceedings after public announcement by the condemnor of a project that necessitates acquisition by the condemnor of a designated land area consisting of or including the land sought to be condemned. If the court determines that such unreasonable delay has occurred, it shall instruct the commissioners or jurors in such proceedings to allow any damages proved to their satisfaction by the landowner or landowners to have been sustained to his or their land during and because of such delay, in addition to and separately from the fair market value thereof, but such damages shall not exceed the actual diminution if any in fair market value of the land in substantially the same physical condition over the period of the delay.

B. Prior to the adoption of any redevelopment plan for a redevelopment area pursuant to § [36-49](#) or any conservation plan for a conservation area pursuant to § [36-49.1](#), an authority shall send by certified mail, postage prepaid, to the record owner or owners of every parcel of property to be acquired pursuant to such plan, at their last known address as contained in the records of the treasurer, the current real estate tax assessment records, or the records of such other officer responsible for collecting taxes in that locality, a notice advising such owner that (i) the property owned by such owner is proposed to be acquired, (ii) such owner will have the right to appear before the local governing body and present testimony with respect to the proposed redevelopment or conservation area, and (iii) such owner will have the right to appear in any condemnation proceeding

instituted to acquire the property and present any defense which such owner may have to the taking. Such notice shall not be the basis for eligibility for relocation benefits. At the time it makes its price offer, the authority shall also provide to the property owner a copy of the appraisal of the fair market value of such property upon which the authority has based the amount offered for the property, which appraisal shall be prepared by a real estate appraiser licensed in accordance with Chapter 20.1 (§ [54.1-2009](#) et seq.) of Title 54.1.

C. In all such cases the proceedings shall be according to the provisions of Chapter 2 (§ [25.1-200](#) et seq.) of Title 25.1, so far as they can be applied to the same. No real property belonging to the city, the county, the Commonwealth or any other political subdivision thereof may be acquired without its consent.

§ 36-27.01. Plan for alternative housing of persons displaced by condemnation, conversion, etc

In any condemnation proceeding which involves the taking or conversion of properties populated by low and moderate income families in multi-family housing projects owned or controlled by the redevelopment and housing authority, or with respect to the development or redevelopment of any property owned or controlled by it, the authority shall adopt a plan of relocation identifying alternative housing for the persons who will be displaced. No conversion of multi-family housing complexes to industrial use shall be authorized prior to the identification of alternative housing required herein.

1983, c. 518.

§ 36-27.1. Damages to leasehold interests in the City of Waynesboro

In considering the damages to be allowed under § [36-27](#) for property located in the City of Waynesboro, the court shall instruct the commissioners that damages shall be allowable for injury to leasehold interests in property adjoining, and operated jointly with, the land being condemned.

1966, c. 383; 1975, c. 575.

§ 36-27.2. Limitations on certain housing authorities; exception

A. Notwithstanding the provisions of § [36-27](#) and except as provided in subsection B, no housing authority transacting business and exercising powers as provided in § [36-4](#) in the City of Norfolk shall be authorized after July 1, 2007, to acquire by the exercise of the power of eminent domain, any real property located within the boundaries set forth in the Conservation and Redevelopment Plan (the Plan) for the East Ocean View Conservation and Redevelopment Project adopted July 1989, as amended by Amendment No. 1 to such plan adopted September 1992.

The provisions of this subsection shall not apply to any such real property for which an offer has been made by such housing authority or for which such authority has initiated condemnation proceedings prior to July 1, 2007.

B. The City of Norfolk and the housing authority shall not be precluded from adopting (i) a new redevelopment plan, in accordance with the provisions of §§ [36-27](#), [36-49](#), and [36-51](#), which designates a redevelopment area that includes real property for acquisition that was previously included within the Plan, or (ii) a new conservation plan, in accordance with the provisions of §§ [36-27](#), [36-50.1](#), and [36-51.1](#), which designates a conservation area that includes real property for acquisition that was previously included within the Plan.

2002, c. [540](#); 2007, c. [786](#).

§ 36-28.Planning, zoning and building laws

All housing projects of an authority shall be subject to the planning, zoning, sanitary and building laws, ordinances and regulations applicable to the locality in which the housing project is situated. In the planning and location of any housing project, an authority shall take into consideration the relationship of the project to any larger plan or long-range program for the development of the area in which the housing authority functions.

1938, p. 453; Michie Code 1942, § 3145(13).

§ 36-29.Power to issue bonds; liability in general

An authority shall have power to issue bonds from time to time in its discretion, for any of its corporate purposes. An authority shall also have power to issue refunding bonds for the purpose of paying or retiring bonds previously issued by it or for the purpose of refunding loans made by another entity if such loans could have been made by the authority. An authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing):

(a) Bonds on which the principal and interest are payable:

(1) Exclusively from the income and revenues of the housing project financed with the proceeds of such bonds; or

(2) Exclusively from the income and revenues of certain designated housing projects whether or not they are financed in whole or in part with the proceeds of such bonds; or

(3) From its revenues generally.

(b) Bonds on which the principal is payable solely from annual contributions or grants received from the federal government or received from any other source, public or private.

Any such bonds may be additionally secured by a pledge of any grant or contributions from the federal government or other source, or a pledge of any income or revenues of the authority, or a mortgage of any housing project, projects or other property of the authority.

Neither the commissioners of an authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of an authority (and such bonds and obligations shall so state on their face) shall not be a debt of the city, the county, the Commonwealth or any political subdivision thereof (other than the authority) and neither the city or the county, nor the Commonwealth or any political subdivision thereof (other than the authority) shall be liable thereon, nor in any event shall such bonds or obligations be payable out of any funds or properties other than those of the authority. The bonds shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction.

Whenever federal law requires public hearings and public approval as a prerequisite to obtaining federal tax exemption for the interest paid on private activity bonds authorized by this section, unless otherwise specified by federal law or regulation, the public hearing shall be conducted by the authority and the procedure for the public hearing and public approval shall be consistent with the procedures set forth in § [15.2-4906](#).

An authority may require any application for private activity bond financing when submitted to the authority to be accompanied by a statement in the form set forth in § [15.2-4907](#), but the absence of any such form shall not affect the validity of a private activity bond.

1938, p. 454; Michie Code 1942, § 3145(14); 2002, c. [548](#); 2023, c. [130](#).

§ 36-30. Form and sale of bonds; presumption of validity

Bonds of an authority shall be authorized by its resolution and may be issued in one or more series and shall bear such date or dates, mature at such time or times, bear interest at such rate or rates, be in such denomination or denominations, be in such form, either coupon or registered, carry such conversion or registration privileges, have such rank of priority, be executed in such manner, be payable in such medium of payment, at such place or places, and be subject to such terms of redemption (with or without premium) as such resolution, its trust indenture or mortgage may provide.

The bonds may be sold at public or private sale at not less than par.

In case any of the commissioners or officers of the authority whose signatures appear on any bonds or coupons shall cease to be such commissioners or officers before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provisions of any law to the contrary notwithstanding, any bonds issued pursuant to this chapter shall be fully negotiable.

In any suit, action or proceedings involving the validity or enforceability of any bond of an authority or the security therefor, any such bond reciting in substance that it has been issued by the authority to aid in financing a housing project to provide dwelling accommodations for persons of low income shall be conclusively deemed to have been issued for a housing project of such character and such project shall be conclusively deemed to have been planned, located and constructed in accordance with the purposes and provisions of this chapter.

1938, p. 454; Michie Code 1942, § 3145(15); 1972, c. 466; 1980, c. 133.

§ 36-31.Provisions of bonds, trust indentures and mortgages

In connection with the issuance of bonds or the incurring of obligations under leases and in order to secure the payment of such bonds or obligations, an authority, in addition to its other powers, shall have power:

- (a) To pledge all or any part of its gross or net rents, fees or revenues to which its right then exists or may thereafter come into existence.
- (b) To mortgage all or any part of its real or personal property, then owned or thereafter acquired.

- (d) To covenant as to the bonds to be issued and as to the issuance of such bonds in escrow or otherwise, and as to the use and disposition of the proceeds thereof; to provide for the replacement of lost, destroyed or mutilated bonds; to covenant against extending the time for the payment of its bonds or interest thereon; and to redeem the bonds, and to covenant for their redemption and to provide the terms and conditions thereof.
- (e) To covenant (subject to the limitations contained in this chapter) as to the rents and fees to be charged in the operation of a housing project or projects, the amount to be raised each year or other period of time by rents, fees and other revenues, and as to the use and disposition to be made thereof; to create or to authorize the creation of special funds for moneys held for construction or operating costs, debt service, reserves, or other purposes, and to covenant as to the use and disposition of the moneys held in such funds.
- (f) To prescribe the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto and the manner in which such consent may be given.

(h) To covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition, or obligation; and to covenant and prescribe as to events of default and terms and conditions upon which any or all of its bonds or obligations shall become or may be declared due before maturity, and as to the terms and conditions upon which such declaration and its consequences may be waived.

(i) To vest in a trust or trustees or the holders of bonds or any proportion of them the right to enforce the payment of the bonds or any covenants securing or relating to the bonds; to vest in a trustee or trustees the right, in the event of a default by the authority, to take possession and use, operate and manage any housing project or part thereof, and to collect the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the authority with the trustee; to provide for the powers and duties of a trustee or trustees and to limit the liabilities thereof; and to provide the terms and conditions upon which the trustee or trustees or the holders of bonds or any portion of them may enforce any covenant or right securing or relating to the bonds.

(j) To exercise all or any part or combination of the powers herein granted; and to make covenants other than and in addition to the covenants herein expressly authorized, of like or different character.

1938, p. 455; Michie Code 1942, § 3145(16).

§ 36-32. Remedies of obligee of authority

An obligee of an authority shall have the right in addition to all other rights which may be conferred on such obligee, subject only to any contractual restrictions binding upon such obligee:

(a) By mandamus, suit, action or proceeding at law or in equity to compel the authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of the authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants and agreements of the authority and the fulfillment of all duties imposed upon the authority by this chapter.

(b) By suit, action or proceeding in equity, to enjoin any acts or things which may be unlawful, or the violation of any of the rights of such obligee of the authority.

1938, p. 456; Michie Code 1942, § 3145(17).

§ 36-33. Additional remedies conferrable by authority

An authority shall have power by its resolution, trust indenture, mortgage, lease or other contract to confer upon any obligee holding or representing a specified amount in bonds, or holding a lease, the right (in addition to all rights that may otherwise be conferred), upon the happening of an event of

default as defined in such resolution or instrument, by suit, action or proceeding in any court of competent jurisdiction:

- (a) To cause possession of any housing project or any part thereof to be surrendered to any such obligee.
- (b) To obtain the appointment of a receiver of any housing project of the authority or any part thereof and of the rents and profits therefrom. If such receiver be appointed, he may enter and take possession of such housing project or any part thereof and operate and maintain same, and collect and receive all fees, rents, revenues, or other charges thereafter arising therefrom, and shall keep such moneys in a separate account or accounts and supply the same in accordance with the obligation of the authority as the court shall direct.
- (c) To require the authority and the commissioners thereof to account as if it and they were the trustees of an express trust.

1938, p. 456; Michie Code 1942, § 3145(18).

§ 36-34. Housing bonds to be legal investments, legal security and negotiable

The Commonwealth and all public officers, municipal corporations, political subdivisions (other than housing authorities), and public bodies, all banks, bankers, trust companies, savings banks and institutions, building and loan associations, savings and loan associations, investment companies and other persons carrying on a banking business, all insurance companies, except domestic life insurance companies may legally invest any sinking funds, moneys or other funds belonging to them or within their control in any bonds or other obligations issued by a housing authority pursuant to the Housing Authorities Law, or issued by any public housing authority or agency in the United States, when such bonds or other obligations are secured by a pledge of annual contributions to be paid by the United States government or any agency thereof, and such bonds and other obligations shall be authorized security for all public deposits and shall be fully negotiable in this Commonwealth; it being the purpose of this act to authorize any persons, firms, corporations, associations, political subdivisions, bodies and officers, public or private, to use any funds owned or controlled by them, including (but not limited to) sinking, insurance, investment, retirement, compensation, pension funds, and funds held on deposit, for the purchase of any such bonds or other obligations and that any such bonds or other obligations shall be authorized security for all public deposits and shall be fully negotiable in this Commonwealth; provided, however, that nothing contained in this section with regard to legal investments shall be construed as relieving any person, firm or corporation from any duty of exercising reasonable care in selecting securities.

1942, p. 404; Michie Code 1942, § 3145(25).

§ 36-35. Contracts and covenants with federal government, etc.; agreements to sell

In any contract or amendatory or superseding contract for a loan and annual contributions heretofore or hereafter entered into between a housing authority and the federal government with respect to any housing project undertaken by the housing authority, any such housing authority is authorized to make such covenants (including covenants with holders of obligations of the authority issued for purposes of the project involved) and to confer upon the federal government such rights and remedies, as the housing authority deems necessary to assure the fulfillment of the purposes for which the project was undertaken. In any such contract, the housing authority may, notwithstanding any other provisions of law, agree to sell and convey the project (including all lands appertaining thereto) to which such contract relates to the federal government upon the occurrence of such conditions, or upon such defaults on obligations for which any of the annual contributions provided in such contract are pledged, as may be prescribed in such contract, and at a price (which may include the assumption by the federal government of the payment, when due, of the principal of and interest on outstanding obligations of the housing authority issued for purposes of the project involved) determined as prescribed therein and upon such other terms and conditions as are therein provided. Any such housing authority is hereby authorized to enter into such supplementary contracts, and to execute such conveyances, as may be necessary to carry out the provisions hereof. Notwithstanding any other provisions of law, any contracts or supplementary contracts or conveyances made or executed pursuant to the provisions of this section shall not be or constitute a mortgage within the meaning or for the purposes of any of the laws of this Commonwealth.

1942, p. 326; Michie Code 1942, § 3145(4o).

§ 36-36. Powers of county and regional housing authorities

County housing authorities and regional housing authorities are specifically empowered and authorized to borrow money, accept grants and exercise their other powers to provide housing for farmers of low income. In connection with such projects, any such housing authority may enter into such leases or purchase agreements, accept such conveyances and rent or sell dwellings forming part of such projects to or for farmers of low income, as such housing authority deems necessary in order to assure the achievement of the objectives of this Housing Authorities Law. Such leases, agreements or conveyances may include such covenants as such housing authority deems appropriate regarding such dwellings and the tracts of land described in any such instrument, which covenants shall be deemed to run with the land where such housing authority deems it necessary and the parties to such instruments so stipulate. Nothing contained in this section shall be construed as limiting any other powers conferred by this Housing Authorities Law.

1942, p. 322; Michie Code 1942, § 3145(4h).

§ 36-37. Same subject; tenant selection limitations; homestead exemption

A regional or county housing authority shall have power to rent, sell, or make loans to finance the cost of dwellings on farms or in other areas outside of cities and to make or accept such conveyances or

leases as it deems necessary to carry out the rural housing purposes of this chapter. With respect to such housing, county and regional housing authorities shall not be subject to the tenant selection limitations provided in clause (c) of § [36-22](#).

When an authority provides a dwelling on a farm hereunder, the owner of the farm living in the dwelling under a lease or purchase agreement shall be entitled to receive the same homestead exemption as if he had title to the dwelling.

1946, p. 277; Michie Suppl. 1946, § 3145(4p).

§ 36-38. Housing applications by farmers

The owner of any farm operated, or worked upon, by farmers of low income in need of safe and sanitary housing may file an application with a county housing authority or a regional housing authority requesting that it provide for a safe and sanitary dwelling or dwellings for occupancy by such farmers of low income. Such applications shall be received and examined by such housing authorities in connection with the formulation of projects or programs to provide housing for farmers of low income.

1942, p. 323; Michie Code 1942, § 3145(4i).

§ 36-40. Creation of regional housing authority

If the board of supervisors of each of two or more contiguous counties by resolution declares that there is a need for one housing authority to be created for all of such counties to exercise in such counties powers and other functions prescribed for a regional housing authority, a political subdivision of the Commonwealth to be known as a regional housing authority shall thereupon exist for all of such counties and exercise its public and corporate powers and other functions in such counties; and thereupon each housing authority created for each of such counties shall cease to exist except for the purpose of winding up its affairs and executing a deed to the regional housing authority as hereinafter provided; provided that the board of supervisors of a county shall not adopt a resolution as aforesaid if there is a county housing authority created for such county which has any obligations outstanding unless first, all obligees of such county housing authority and parties to the contracts, bonds, notes, and other obligations of such county housing authority consent in writing to the substitution of such regional housing authority in lieu of such county housing authority on all such contracts, bonds, notes, or other obligations; and second, the commissioners of such county housing authority adopt a resolution consenting to the transfer of all the rights, contracts, obligations, and property, real and personal, of such county housing authority to such regional housing authority as hereinafter provided; and provided further that when the above two conditions are complied with and such regional housing authority is created and authorized to exercise its powers and other functions, all rights, contracts, agreements, obligations, and property of such county housing authority shall be in the name of and vest in such regional housing authority, and all obligations of such county housing authority shall be

the obligations of such regional housing authority and all rights and remedies of any person against such county housing authority may be asserted, enforced, and prosecuted against such regional housing authority to the same extent as they might have been asserted, enforced, and prosecuted against such county housing authority.

When any real property of a county housing authority vests in a regional housing authority as provided above, the county housing authority shall execute a deed of such property to the regional housing authority which thereupon shall file such deed in the office provided for the filing of deeds, provided that nothing contained in this sentence shall affect the vesting of property in the regional housing authority as provided above.

The board of supervisors of each of two or more contiguous counties shall by resolution declare that there is a need for one regional housing authority to be created for all of such counties to exercise in such counties powers and other functions prescribed for a regional housing authority, if such board of supervisors finds (and only if it finds) (a) that insanitary or unsafe inhabited dwelling accommodations exist in such county or there is a shortage of safe or sanitary dwelling accommodations in such county available to persons of low income at rentals they can afford and (b) that a regional housing authority would be a more efficient or economical administrative unit than the housing authority of such county to carry out the purposes of this Housing Authorities Law in such county.

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of the regional housing authority, the regional housing authority shall be conclusively deemed to have become created as a public body corporate and politic and to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the board of supervisors of each of the counties creating the regional housing authority declaring the need for the regional housing authority. Each such resolution shall be deemed sufficient if it declares that there is need for the regional housing authority and finds in substantially the foregoing terms (no further detail being necessary) that the conditions enumerated above in (a) and (b) exist. A copy of such resolution of the board of supervisors of a county, duly certified by the clerk of such county, shall be admissible in evidence in any suit, action, or proceeding.

The area of operation of a regional housing authority shall include (except as otherwise provided elsewhere in this chapter) all of the counties for which such regional housing authority is created and established.

1942, p. 317; Michie Code 1942, § 3145(4a).

§ 36-41. Increasing area of operation of regional housing authority

The area of operation of a regional housing authority shall be increased from time to time to include one or more additional contiguous counties not already within a regional housing authority if the board of supervisors of each of the counties then included in the area of operation of such regional housing

authority, the commissioners of the regional housing authority and the board of supervisors of each such additional county or counties each adopt a resolution declaring that there is a need for the inclusion of such additional county or counties in the area of operation of such regional housing authority. Upon the adoption of such resolutions, the county housing authority created for each such additional county shall cease to exist except for the purpose of winding up its affairs and executing a deed to the regional housing authority as hereinafter provided; provided, however, that such resolutions shall not be adopted if there is a county housing authority created for any such additional county which has any obligations outstanding unless first, all obligees of any such county housing authority and parties to the contracts, bonds, notes, and other obligations of any such county housing authority consent in writing to the substitution of such regional housing authority in lieu of such county housing authority on all such contracts, bonds, notes, or other obligations; and second, the commissioners of such county housing authority adopt a resolution consenting to the transfer of all the rights, contracts, obligations, and property, real and personal, of such county housing authority to such regional housing authority as hereinafter provided; and provided further that when the above two conditions are complied with and the area of operation of such regional housing authority is increased to include such additional county, as hereinabove provided, all rights, contracts, agreements, obligations, and property of such county housing authority shall be in the name of and vest in such regional housing authority, all obligations of such county housing authority shall be the obligations of such regional housing authority and all rights and remedies of any person against such county housing authority may be asserted, enforced, and prosecuted against such regional housing authority to the same extent as they might have been asserted, enforced, and prosecuted against such county housing authority.

When any real property of a county housing authority vests in a regional housing authority as provided above, the county housing authority shall execute a deed of such property to the regional housing authority which thereupon shall file such deed in the office provided for the filing of deeds, provided that nothing contained in this sentence shall affect the vesting of property in the regional housing authority as provided above.

The board of supervisors of each of the counties in the regional housing authority, the commissioners of the regional housing authority and the board of supervisors of each such additional county or counties shall by resolution declare that there is need for the inclusion of such county or counties in the area of operation of the regional housing authority, if (a) the board of supervisors of each such additional county or counties finds that insanitary or unsafe inhabited dwelling accommodations exist in such county or there is a shortage of safe or sanitary dwelling accommodations in such county available to persons of low income at rentals they can afford and (b) the board of supervisors of each of the counties then included in the area of operation of the regional housing authority, the commissioners of the regional housing authority and the board of supervisors of each such additional

county or counties find that the regional housing authority would be a more efficient or economical administrative unit to carry out the purposes of this Housing Authorities Law if the area of operation of the regional housing authority is increased to include such additional county or counties.

1942, p. 318; Michie Code 1942, § 3145(4b).

§ 36-42. Decreasing area of operation of regional housing authority

The area of operation of a regional housing authority shall be decreased from time to time to exclude one or more counties from such area if the board of supervisors of each of the counties in such area and the commissioners of the regional housing authority each adopt a resolution declaring that there is a need for excluding such county or counties from such area; provided that no action may be taken pursuant to this section if the regional housing authority has outstanding any bonds, notes or other evidences of indebtedness, unless first, all holders of such evidences of indebtedness consent in writing to such action; and provided further that if such action decreases the area of operation of the regional housing authority to only one county, such authority shall thereupon constitute and become a housing authority for such county, in the same manner as though such authority were created by and authorized to transact business and exercise its powers pursuant to § [36-4](#), and the commissioners of such authority shall be thereupon appointed as provided for the appointment of commissioners of a housing authority created for a county.

The board of supervisors of each of the counties in the area of operation of the regional housing authority and the commissioners of the regional housing authority shall adopt a resolution declaring that there is a need for excluding a county or counties from such area if: (a) each such board of supervisors of the counties to remain in the area of operation of the regional housing authority and the commissioners of the regional housing authority find that (because of facts arising or determined subsequent to the time when such area first included the county or counties to be excluded) the regional housing authority would be a more efficient or economical administrative unit to carry out the purposes of this Housing Authorities Law if such county or counties were excluded from such area, and (b) the board of supervisors of each such county or counties to be excluded and the commissioners of the regional housing authority each also find that (because of the aforesaid changed facts) the purposes of this Housing Authorities Law could be carried out more efficiently or economically in such county or counties if the area of operation of the regional housing authority did not include such county or counties.

Any property held by a regional housing authority within a county or counties excluded from the area of operation of such authority, as herein provided, shall (as soon as practicable after the exclusion of the county or counties respectively) be disposed of by such authority in the public interest.

1942, p. 319; Michie Code 1942, § 3145(4c).

§ 36-43. Housing authority for county excluded from regional authority

At any time after a county or counties is excluded from the area of operation of a regional housing authority as provided above, the board of supervisors of any such county may adopt a resolution declaring that there is a need for a housing authority in the county, if the board shall find such need according to the provisions of § [36-4](#). Thereupon a political subdivision of the Commonwealth to be known as the housing authority of the county shall exist for such county and may transact business and exercise its powers in the same manner as though created by § [36-4](#). Nothing contained herein shall be construed as preventing such county from thereafter being included within the area of operation of a regional housing authority as provided in § [36-40](#) or [36-41](#).

1942, p. 320; Michie Code 1942, § 3145(4d).

§ 36-44. Public hearing to create regional authority or change its area of operation, and findings

The board of supervisors of a county shall not adopt any resolution authorized by §§ [36-40](#), [36-41](#) or [36-42](#) unless a public hearing has first been held. The clerk of such county shall give notice of the time, place, and purpose of the public hearing at least seven days prior to the day on which the hearing is to be held, in a newspaper published in such county, or if there is no newspaper published in such county, then in a newspaper published in the Commonwealth and having a general circulation in such county. Upon the date fixed for such public hearing an opportunity to be heard shall be granted to all residents of such county and to all other interested persons.

In determining whether dwelling accommodations are unsafe or insanitary the board of supervisors of a county shall take into consideration the safety and sanitation of dwellings, the light and air space available to the inhabitants of such dwellings, the degree of overcrowding, the size and arrangement of the rooms and the extent to which conditions exist in such dwellings which endanger life or property by fire or other causes.

In connection with the issuance of bonds or the incurring of other obligations, a regional housing authority may covenant as to limitations on its right to adopt resolutions relating to the increase or decrease of its area of operation.

1942, p. 320; Michie Code 1942, § 3145(4e); 2023, cc. [506](#), [507](#).

§ 36-45. Commissioners of regional housing authority

The board of supervisors of each county included in a regional housing authority shall appoint one person as a commissioner of such authority, and each such commissioner to be first appointed by the board of supervisors of a county may be appointed at or after the time of the adoption of the resolution declaring the need for such regional housing authority or declaring the need for the inclusion of such county in the area of operation of such regional housing authority. When the area of operation of a regional housing authority is increased to include an additional county or counties as provided above, the board of supervisors of each such county shall thereupon appoint one additional person as a commissioner of the regional housing authority. The board of supervisors of each county shall appoint

the successor of the commissioner appointed by it. A certificate of the appointment of any such commissioner shall be filed with the clerk of the county, and such certificate shall be conclusive evidence of the due and proper appointment of such commissioner. If any county is excluded from the area of operation of a regional housing authority, the office of the commissioner of such regional housing authority appointed by the board of supervisors of such county shall be thereupon abolished.

If a regional housing authority consists of only two counties, the boards of supervisors may agree to appoint two members each as commissioners of such authority. However, if the regional housing authority is changed to consist of three or more counties, the counties shall thereafter appoint one member each as a commissioner.

If the area of operation of a regional housing authority consists at any time of an even number of counties, the commissioners of the regional housing authority appointed by the boards of supervisors of such counties shall appoint one additional commissioner whose term of office shall be as herein provided for a commissioner of a regional housing authority except that such term shall end at any earlier time that the area of operation of the regional housing authority shall be changed to consist of an odd number of counties. The commissioners of such authority appointed by the boards of supervisors of such counties shall likewise appoint each person to succeed such additional commissioner; provided that the term of office of such person begins during the terms of office of the commissioners appointing him. A certificate of the appointment of any such additional commissioner of such regional housing authority shall be filed with the other records of the regional housing authority and shall be conclusive evidence of the due and proper appointment of such additional commissioner.

When a regional housing authority is required by federal housing law to appoint a commissioner satisfying the criteria specified in Section 2 (b) of the United States Housing Act of 1937, as amended, and the rules and regulations promulgated thereunder, at least one but not more than two such commissioners shall be appointed by the commissioners of the regional housing authority. The executive director of the regional housing authority shall prepare a slate of eligible candidates for appointment for the commissioners' consideration. However, the appointing commissioners shall not be required to make appointments from such slate. The term of such appointed commissioner shall be as herein provided for a commissioner of a regional housing authority. A certificate of the appointment of any such commissioner of a regional housing authority shall be filed with the other records of the regional housing authority and shall be conclusive evidence of the due and proper appointment of such commissioner.

The commissioners of a regional housing authority shall be appointed for terms of four years except that all vacancies shall be filled for the unexpired terms. Each commissioner shall hold office until his successor has been appointed and has qualified, except as otherwise provided herein.

The commissioners shall constitute the regional housing authority, and the powers of such authority shall be vested in such commissioners in office from time to time.

The commissioners of a regional housing authority shall elect a chairman from among the commissioners and shall have power to select or employ such other officers and employees as the regional housing authority may require. A majority of the commissioners of a regional housing authority shall constitute a quorum of such authority for the purpose of conducting its business and exercising its powers and for all other purposes.

For inefficiency or neglect of duty or misconduct in office, a commissioner of a regional housing authority may be removed by the board of supervisors appointing him, or in the case of the commissioner appointed by the commissioners of the regional housing authority, by such commissioners; provided that such commissioner shall be removed only after he shall have been given a copy of the charges against him at least 10 days prior to the hearing thereon and had an opportunity to be heard in person or by counsel. In the event of the removal of a commissioner by the board of supervisors appointing him, a record of the proceedings, together with the charges and findings thereon, shall be filed in the office of the clerk of the county; and in the case of the removal of the commissioner appointed by the commissioners of the regional housing authority, such record shall be filed with the other records of the regional housing authority.

1942, p. 321; Michie Code 1942, § 3145(4f); 2003, cc. [417](#), [535](#), [559](#), [809](#).

§ 36-46. Powers of regional housing authority

Except as otherwise provided herein, a regional housing authority and the commissioners thereof shall, within the area of operation of such regional housing authority, have the same functions, rights, powers, duties, privileges, immunities and limitations provided for housing authorities created for cities or counties and the commissioners of such housing authorities, and all the provisions of law applicable to housing authorities created for cities or counties and the commissioners of such authorities shall be applicable to regional housing authorities and the commissioners thereof; provided, that for such purposes, the term "mayor" or "governing body" as used in this Housing Authorities Law shall be construed as meaning "board of supervisors," unless a different meaning clearly appears from the context; and provided further that a regional housing authority, with respect to housing projects for farmers of low income, shall not be subject to the limitations provided in clause (c) of § [36-22](#). A regional housing authority shall have power to select any appropriate corporate name.

1942, p. 322; Michie Code 1942, § 3145(4g).

§ 36-47. Consolidated housing authority

If the governing body of each of two or more municipalities (whether or not contiguous) by resolution declares that there is a need for one housing authority to be created for all of the municipalities to exercise in the municipalities the powers and other functions prescribed for a consolidated housing

authority, a political subdivision of the Commonwealth to be known as a consolidated housing authority (with a corporate name it selects) shall thereupon exist for all of the municipalities and exercise its public and corporate powers and other functions within its area of operation (as herein defined), including the power to undertake projects therein. Thereupon, any housing authority created for each of the municipalities shall cease to exist except for the purpose of winding up its affairs and executing a deed of its real property to the consolidated housing authority. The creation of a consolidated housing authority and the finding of need therefor shall be subject to the same provisions and limitations of this chapter as are applicable to the creation of a regional housing authority. The provisions of this chapter applicable to regional housing authorities and the commissioners thereof shall be applicable to consolidated housing authorities and the commissioners thereof. The area of operation of a consolidated housing authority shall include all of the territory within the boundaries of each municipality joining in the creation of the authority, except that the area of operation may be changed to include or exclude any municipality or municipalities in the same manner and under the same provisions as provided in this chapter for changing the area of operation of a regional housing authority by including or excluding a county or counties. For all such purposes, the term "board of supervisors" shall be construed as meaning "governing body." The term "county" shall be construed as meaning "municipality" and the terms "county housing authority" and "regional housing authority" shall be construed as meaning "housing authority of the city" and "consolidated housing authority," respectively, unless a different meaning clearly appears from the context.

The governing body of a municipality for which a housing authority has not been created shall not adopt the above resolution unless it first declares that there is a need for a consolidated housing authority to function in the municipality, which declaration shall be made in the same manner and subject to the same conditions as the declaration of the governing body of a city required by § [36-4](#) for the purpose of authorizing a housing authority created for a city to transact business and exercise its powers.

Except as otherwise provided herein, a consolidated housing authority and the commissioners thereof shall, within the area of operation of the consolidated housing authority, have the same functions, rights, powers, duties, privileges, immunities and limitations as those provided for housing authorities created for cities, counties, or groups of counties and the commissioners of such housing authorities, in the same manner as though all the provisions of law applicable to housing authorities created for cities, counties, or groups of counties were applicable to consolidated housing authorities.

The term "municipality" as used in this chapter shall mean any county, city or town in the Commonwealth.

The term "residential buildings" as used in this chapter shall include, but not be limited to, any multi-family residential property in which no less than twenty percent of the units will be occupied by persons of low income and the remainder therein by persons of moderate income, both as determined

by the housing authority using the criteria set forth in the definition of "persons and families of low and moderate income" in § [36-55.26](#), and any nursing care facility, or any nursing home as defined in § [32.1-123](#).

§ 36-47.1.Compensation of commissioners

The commissioners of any housing authority created for or operating in two or more cities may, in addition to being reimbursed for their expenses as otherwise provided, be paid salaries not to exceed \$150 per month for each such commissioner.

§ 36-47.2.Consolidation of two or more housing authorities within same city

If the governing body of any city having two or more separate housing authorities created pursuant to this title shall, by resolution, declare it necessary and in the public interest to consolidate such authorities, or abolish the same and create a single or consolidated housing authority, then such new housing authority shall thereupon be created (with such corporate name as may be selected), and it shall exercise its public and corporate powers, and such other functions within such city pursuant to the provisions of this chapter, including the power to undertake projects applicable to housing authorities created for cities or counties. The governing body of any such city shall have the authority to terminate any one or more of such authorities and continue any other single authority, as a consolidated authority in which case any terminated authority shall cease to exist except for the purpose of winding up its affairs and executing the necessary documents for the transfer of its respective assets and liabilities, if any, to the new consolidated or surviving authority. If a new or consolidated authority is created, its membership shall be composed of seven commissioners, five of whom shall be the commissioners presently serving under existing law under any authority created within such city, and two of whom shall be commissioners selected from the other authority or the authority that is terminated. Each such commissioner shall continue to serve for the term for which he was appointed or until his successor has been appointed and has qualified.

1972, c. 124.

§ 36-48.Creation of Redevelopment Areas

A redevelopment area as defined in § [36-3](#) may be created by an authority as provided in this chapter and a redevelopment plan may be adopted to address conditions in such redevelopment area. The redevelopment plan shall (i) outline specific boundaries for the redevelopment area and designate for acquisition such properties as are necessary or appropriate for the clearance, replanning, rehabilitation, and reconstruction of the redevelopment area, (ii) be adopted in accordance with § [36-49](#), and (iii) satisfy the requirements as set forth in § [36-51](#).

1946, p. 278; Michie Suppl. 1946, § 3145(8a); 1975, c. 455; 1988, cc. 572, 591; 2006, c. [784](#).

§ 36-48.1. Creation of Conservation Areas

A conservation area as defined in § [36-3](#) may be created by an authority as provided in this chapter and a conservation plan may be adopted to provide for the conservation, rehabilitation, and revitalization of such conservation area. The conservation plan shall (i) outline specific boundaries for the conservation area, (ii) be adopted in accordance with § [36-49.1](#), and (iii) satisfy the requirements as set forth in § [36-51.1](#).

1964, c. 378; 1978, c. 360; 2006, c. [784](#).

§ 36-49. Adoption of Redevelopment Plans

A. An authority may adopt a redevelopment plan for a designated redevelopment area to address blighted areas and in particular is specifically empowered to carry out any work or undertaking in the redevelopment area, including any or all of the following:

1. Acquire blighted areas, which are hereby defined in § [36-3](#);
2. Acquire other real property for the purpose of removing, preventing, or reducing blight;
3. Acquire real property where the condition of the title, the diverse ownership of the real property to be assembled, the street or lot layouts, or other conditions prevent a proper development of the property and where the acquisition of the area by the authority is necessary to carry out a redevelopment plan;
4. Permit the preservation, repair, or restoration of buildings of historic interest; and to clear any areas acquired and install, construct, or reconstruct streets, utilities, and site improvements essential to the preparation of sites for uses in accordance with the redevelopment plan;
5. Provide for the conservation of portions of the project area and the rehabilitation to project standards as stated in the redevelopment plan of buildings within the project area, where such rehabilitation is deemed by the authority to be feasible and consistent with project objectives;
6. Make land so acquired available to nongovernmental persons or entities or public agencies (including sale, leasing, or retention by the authority itself) in accordance with the redevelopment plan;
7. Assist the reconstruction of project areas by making loans or grants of funds received from any public or private source, for the purpose of facilitating the construction, reconstruction, rehabilitation or sale of housing or other improvements constructed or to be constructed on land situated within the boundaries of a redevelopment project;
8. Acquire, construct or rehabilitate residential housing developments for occupancy by persons of low, moderate and middle income to be owned, operated, managed, leased, conveyed, mortgaged, encumbered or assigned by an authority. Income limits for such persons shall be determined for each

redevelopment project by an authority by resolution adopted by a majority of its appointed commissioners, shall be adjusted for household size and may be revised as an authority deems appropriate. In connection with a residential housing development, an authority shall have all rights, powers and privileges granted by subdivision 4 of § [36-19](#);

9. Accomplish any combination of the foregoing to carry out a redevelopment plan; and

10. Exercise such other powers as are authorized by law.

B. No redevelopment plan shall be effective until notice has been sent to the property owner or owners of record in accordance with subsection B of § [36-27](#) and the redevelopment plan has been approved by the local governing body.

1946, p. 278; Michie Suppl. 1946, § 3145(8b); 1962, c. 336; 1972, cc. 466, 782; 1980, c. 133; 1988, cc. 572, 591; 2006, c. [784](#).

§ 36-49.1. Adoption of Conservation Plans

A. An authority may adopt a conservation plan for a designated conservation area to address blight and blighting conditions, to conserve such area, prevent further deterioration and prevent such area from becoming blighted, and in particular is specifically empowered to carry out any work or undertaking in the conservation area, including any or all of the following:

1. Acquire property within such areas which is blighted, designated for public use in the conservation plan, or the use or condition of which is inconsistent with the purposes of the conservation plan or the provisions of the zoning ordinance or code of the locality;

2. Rehabilitate or clear property so acquired;

3. Provide for the installation, construction or reconstruction of streets, utilities, parks, parking facilities, playgrounds, public buildings and other site improvements essential to the conservation or rehabilitation planned;

4. Make land or improvements so acquired available to nongovernmental persons or entities or public agencies (by sale, lease or retention of ownership by the authority itself);

5. Assist the reconstruction of project areas by making loans or grants of funds received from any public or private source, for the purpose of facilitating the construction, reconstruction, rehabilitation or sale of housing or other improvements constructed or to be constructed on land situated within the boundaries of a conservation project;

6. Encourage and assist property owners or occupants within the conservation area to improve their respective holdings, by suggesting improved standards for design, construction, maintenance and use of such properties and offering encouragement or assistance in other ways including the power to

lend money and make grants to owners or occupants, directed toward prevention and elimination of blight;

7. Acquire, construct or rehabilitate residential housing developments for occupancy by persons of low, moderate and middle income to be owned, operated, managed, leased, conveyed, mortgaged, encumbered or assigned by an authority. Income limits for such persons shall be determined for each conservation project by an authority by resolution adopted by a majority of its appointed commissioners, shall be adjusted for household size and may be revised as an authority deems appropriate. In connection with a residential housing development, an authority shall have all rights, power and privileges granted by subdivision 4 of § [36-19](#); and

8. Exercise such other powers as are authorized by law.

B. No conservation plan shall be effective until notice has been sent to the property owner or owners of record in accordance with subsection B of § [36-27](#) and the conservation plan has been approved by the local governing body.

1964, c. 378; 1966, cc. 81, 418; 1968, c. 312; 1970, cc. 222, 491, 555, 596; 1972, c. 174; 1973, c. 29; 1974, c. 137; 1975, c. 532; 1976, c. 510; 1980, c. 133; 1988, cc. 572, 591; 2006, c. [784](#).

§ 36-49.1:1.Spot blight abatement authorized; procedure

A. Notwithstanding any other provision of this chapter, an authority, or any locality, shall have the power to acquire or repair any blighted property, as defined in § [36-3](#), whether inside or outside of a conservation or redevelopment area, by purchase or through the exercise of the power of eminent domain provided in Chapter 2 (§ [25.1-200](#) et seq.) of Title 25.1, and, further, shall have the power to hold, clear, repair, manage or dispose of such property for purposes consistent with this chapter. In addition, the authority and locality shall have the power to recover the costs of any repair or disposal of such property from the owner or owners of record, determined in accordance with subsection B of § [36-27](#). This power shall be exercised only in accordance with the procedures set forth in this section.

B. The chief executive or designee of the locality or authority shall make a preliminary determination that a property is blighted in accordance with this chapter. It shall send notice to the owner or owners of record determined in accordance with subsection B of § [36-27](#), specifying the reasons why the property is blighted. The owner or owners of record shall have 30 days from the date the notice is sent in which to respond in writing with a spot blight abatement plan to address the blight within a reasonable time.

C. If the owner or owners of record fail to respond within the 30-day period with a written spot blight abatement plan that is acceptable to the chief executive of the agency, authority or locality, the agency, authority or locality may request the locality to declare the property as blighted, which declaration shall be by ordinance adopted by the governing body.

D. No spot blight abatement plan shall be effective until notice has been sent to the property owner or owners of record and an ordinance has been adopted by the local governing body. Written notice to the property owner shall be sent by regular mail to the last address listed for the owner on the locality's assessment records for the property, together with a copy of such spot blight abatement plan prepared by the agency, authority, or locality. If the repair or other disposition of the property is approved, the authority, agency, or locality may carry out the approved plan to repair or acquire and dispose of the property in accordance with the approved plan, the provisions of this section, and the applicable law.

E. If the ordinance is adopted by the governing body of the locality, the locality shall have a lien on all property so repaired or acquired under an approved spot blight abatement plan to recover the cost of (i) improvements made by such locality to bring the blighted property into compliance with applicable building codes and (ii) disposal, if any. The lien on such property shall bear interest at the legal rate of interest established in § [6.2-301](#), beginning on the date the repairs are completed through the date on which the lien is paid. The lien authorized by this subsection may be recorded as a lien among the land records of the circuit court, which lien shall be treated in all respects as a tax lien and enforceable in the same manner as provided in Articles 3 (§ [58.1-3940](#) et seq.) and 4 (§ [58.1-3965](#) et seq.) of Chapter 39 of Title 58.1. The governing body may recover its costs of repair from the owner or owners of record of the property when the repairs were made at such time as the property is sold or disposed of by such owner or owners. If the property is acquired by the governing body through eminent domain, the cost of repair may be recovered when the governing body sells or disposes of the property. In either case, the costs of repair shall be recovered from the proceeds of any such sale.

F. Notwithstanding the other provisions of this section, unless otherwise provided for in Title 36, if the blighted property is occupied for personal residential purposes, the governing body, in approving the spot blight abatement plan, shall not acquire by eminent domain such property if it would result in a displacement of the person or persons living in the premises. The provisions of this subsection shall not apply to acquisitions, under an approved spot blight abatement plan, by any locality of property which has been condemned for human habitation for more than one year. In addition, such locality exercising the powers of eminent domain in accordance with Title 25.1, may provide for temporary relocation of any person living in the blighted property provided the relocation is within the financial means of such person.

G. In lieu of the acquisition of blighted property by the exercise of eminent domain, and in lieu of the exercise of other powers granted in subsections A through H, any locality may, by ordinance, declare any blighted property as defined in § [36-3](#) to constitute a nuisance, and thereupon abate the nuisance pursuant to § [15.2-900](#) or § [15.2-1115](#). Such ordinance shall be adopted only after written notice by certified mail to the owner or owners at the last known address of such owner as shown on the current real estate tax assessment books or current real estate tax assessment records. If the owner does not

abate or remove the nuisance and the locality abates or removes the nuisance at its expense, the costs of the removal or abatement of the nuisance shall be a lien on the property and such lien shall bear interest at the legal rate of interest established in § [6.2-301](#), beginning on the date the removal or abatement is completed through the date on which the lien is paid.

H. The provisions of this section shall be cumulative and shall be in addition to any remedies for spot blight abatement that may be authorized by law.

§ 36-49.2. Power to purchase or lease land for certain other redevelopment projects

In addition to the other powers to acquire real property by purchase or lease, an authority is specifically empowered to purchase or lease real property for immediate or future use, without the exercise of the power of eminent domain, for improvement and development for sale, lease, or sublease as industrial sites, scientific research laboratory sites, educational institution sites or sites for housing persons displaced from other lands of the authority.

1964, Ex. Sess., c. 16.

§ 36-50. Extension of general powers for actions taken pursuant to a redevelopment plan

In undertaking actions pursuant to a redevelopment plan, an authority shall have all the rights, powers, privileges, and immunities provided in this chapter. However, nothing contained in §§ [36-21](#) and [36-22](#) shall be construed as limiting the power of an authority, in the event of a default (including failure of compliance with a redevelopment plan) by a purchaser or lessee of land in a redevelopment plan, to acquire property and operate it free from the restrictions contained in §§ [36-21](#) and [36-22](#); and provided further, that any property which an authority leases to nongovernmental persons or entities for redevelopment under a redevelopment plan shall have the same tax status as if such leased property were owned by such nongovernmental persons or entities.

1946, p. 279; Michie Suppl. 1946, § 3145(8c); 2006, c. [784](#).

§ 36-50.1. Extension of general powers for actions taken pursuant to a conservation plan

In implementing a conservation plan, an authority shall have all the rights, powers, privileges, and immunities provided in this chapter. However, the power of eminent domain shall not be exercised in connection with a conservation project except to acquire (i) properties designated for use by the public or a public agency in the conservation plan, (ii) properties which are determined by the authority to be in violation of the standards for design, construction, maintenance and use of property set out in the conservation plan for the project in which such property is situate, and which have not been made to comply with such standards within one year after a written request to rehabilitate to project standards is given to the owner by the authority, (iii) properties as to which voluntary conveyance cannot be effected in the course of the execution of the conservation plan because of the inability of the owners

to convey marketable title, or (iv) properties which are infeasible of rehabilitation, blighted properties or properties which inhibit or prevent accomplishment of the purposes of the conservation plan.

1964, c. 378; 1972, c. 733; 2006, c. [784](#).

§ 36-51. Redevelopment plans

A. An authority shall not implement any redevelopment plan under this law until the governing body of the locality has approved the redevelopment plan, which provides an outline for the development or redevelopment of the redevelopment area and is sufficiently complete to indicate (i) its relationship to definite local objectives as to appropriate land uses and improved traffic, public transportation, public utilities, recreational and community facilities and other public improvements; (ii) proposed land uses and building requirements in the redevelopment area; (iii) the land in the redevelopment area that the authority does not intend to acquire; (iv) the land in the redevelopment area that will be made available after acquisition to nongovernmental persons or entities for redevelopment and that land which will be made available after acquisition to public enterprise for redevelopment; (v) anticipated funding sources that may be sufficient to acquire all property designated for acquisition within five years of the locality's approval; and (vi) the method for the temporary relocation of persons living in the redevelopment areas; and also the method for providing (unless already available) decent, safe and sanitary dwellings in the locality substantially equal in number to the number of substandard dwellings to be cleared from the redevelopment area, at rents within the financial reach of the income groups displaced from such substandard dwellings. Any locality is hereby authorized to approve redevelopment plans through their governing body or agency designated for that purpose.

B. No sooner than thirty months or later than thirty-six months following the date of the locality's approval of the redevelopment plan (hereinafter called the "approval date"), the locality shall review and determine by resolution whether to reaffirm the redevelopment plan. Where the locality fails to reaffirm the redevelopment plan, any real property within the redevelopment area that has not been acquired by the authority, or for which a petition in condemnation has not been filed by the authority, prior to the date of adoption of such resolution by the locality (hereinafter called the "termination date") shall no longer be eligible for acquisition by the authority unless the authority and the property owner mutually agree to the acquisition, in which case the authority shall be specifically empowered to acquire the property. For purposes of this section, a mediation request submitted by either the authority or the property owner, in accordance with § [36-27](#), prior to the termination date shall preserve the authority's right to file a petition in condemnation relating to such real property for a period of six months after the termination date.

C. Where the locality reaffirms the redevelopment plan, the authority shall continue to be authorized to acquire real property within the redevelopment area by purchase, or through the institution of eminent domain proceedings in accordance with § [36-27](#), until the fifth anniversary of the approval date. Any real property within the redevelopment area that has not been acquired by the authority, or for which a

petition in condemnation has not been filed by the authority, prior to the fifth anniversary of the approval date, shall no longer be eligible for acquisition by the authority unless the authority and the property owner mutually agree to the acquisition, in which case the authority shall be specifically empowered to acquire the property. For purposes of this section, a mediation request submitted by either the authority or the property owner, in accordance with § [36-27](#), prior to the fifth anniversary of the approval date, shall preserve the authority's right to file a petition in condemnation relating to the real property for a period of six months after the fifth anniversary of the approval date.

D. Notwithstanding the provisions of this section, a locality shall not be precluded from adopting a new redevelopment plan, in accordance with this section, which designates a redevelopment area that includes real property that was previously included within a redevelopment area under a previously adopted redevelopment plan.

E. If the authority decides against acquiring real property designated for acquisition under an approved redevelopment plan after having made a written purchase offer to the owner of the property, it shall, upon the written request of the property owner given no later than one year after the date of written notice from the authority to the property owner of its decision not to acquire his property, reimburse the owner of the property his reasonable expenses incurred in connection with the proposed acquisition of his property. Reasonable expenses shall include, but are not limited to, reasonable fees of attorneys and appraisers or other experts necessary to establish the value of the property to be appraised.

1946, p. 279; Michie Suppl. 1946, § 3145(8d); 2001, c. [729](#); 2006, c. [784](#).

§ 36-51.1.Requirements for "conservation plan" generally

An authority shall not implement any conservation plan under this law until the governing body of the locality has approved a conservation plan, which provides an outline for the conservation, development or redevelopment of the conservation area, affording maximum opportunity for conservation, rehabilitation or redevelopment by nongovernmental persons or entities consistent with the ends to be achieved, and is sufficiently complete to indicate (i) its relationship to definite local objectives as to appropriate land uses and improved traffic, public transportation, public utilities, recreational and community facilities and other public improvements; (ii) any conditions and limitations on acquisition of property; (iii) proposed land uses for the properties to be acquired; (iv) any conditions and limitations, including time limitation, under which property shall be made available for rehabilitation or redevelopment by public enterprise or nongovernmental persons or entities (by sale, lease or retention by the authority itself); (v) standards of design, construction, maintenance, and use of property and other measures to be taken or recommended toward elimination and prevention of blight and deterioration; (vi) the method for the temporary relocation of any persons living in the conservation area who will be displaced in accordance with the plan, as well as the method of providing (unless already available) decent, safe and sanitary dwellings in such city or county

substantially equal in number to the number of substandard dwellings to be cleared from the conservation area, at rents within the financial reach of the income groups displaced from such substandard dwellings; (vii) any limitation on the length of time within which project activities can be undertaken; (viii) a procedure for administrative review of the determination at staff level and prior to a final determination by the authority under § [36-50.1](#) that an individual property is in violation of project standards and, therefore, subject to condemnation; and (ix) the procedure by which such conservation plan may be amended.

1964, c. 378; 1966, c. 81; 2006, c. [784](#).

§ 36-52.Cooperation by localities

Any local government shall have the same rights and powers to cooperate with and assist authorities with respect to implementation of conservation or redevelopment plans that such locality has pursuant to §§ [36-6](#) and [36-7](#) and any other provision of the Housing Authorities Law.

1946, p. 280; Michie Suppl. 1946, § 3145(8e); 2006, c. [784](#).

§ 36-52.1.Authority for localities to create conservation or redevelopment areas

A locality has no authority to create conservation or redevelopment areas, except through a redevelopment and housing authority and only in accordance with this chapter.

1964, c. 378; 1966, c. 81; 2006, c. [784](#).

§ 36-52.2.Acquisition of property prior to adoption of development or conservation plan in certain cities

Whenever the governing body of any city of more than 300,000 population has approved an area for survey and planning preliminary to the adoption of a redevelopment or conservation plan, and the area includes property within such county, city or town duly designated by said governing body for educational, medical center or municipal uses, an authority may acquire such property by deed or by eminent domain.

1968, c. 710.

§ 36-52.3.Adoption and designation of "rehabilitation area."

A. Whenever it appears to the governing body of any locality that a portion of such locality adjacent to an area embraced in a "conservation plan," approved by such body pursuant to § [36-49.1](#), is in the early stages of deterioration and determines that if not rehabilitated such area is likely to continue to deteriorate and become eligible for designation as a conservation area, such governing body may create a rehabilitation area.

B. No rehabilitation area shall be effective until notice has been sent to the property owner or owners of record in such area in accordance with subsection B of § [36-27](#) and an ordinance approving such rehabilitation area has been adopted by the local governing body. The ordinance shall outline specific

boundaries for the rehabilitation area, establish that the rehabilitation area is adjacent to a conservation area and include such properties as are in need of rehabilitation in such area.

C. An authority is specifically empowered to encourage and assist property owners or occupants within the rehabilitation area so designated to improve their respective holdings, by suggesting improved standards for design, construction, maintenance, renovation and use of such properties and offering encouragement or assistance in other ways including the power to lend money and make grants to said owners or occupants, directed toward prevention and elimination of deteriorating conditions within such area.

D. In executing the powers provided in subsection C, an authority shall have all of the rights, powers and immunities granted in connection with conservation or redevelopment plans pursuant to this chapter except the power to acquire property through the exercise of the power of eminent domain.

1978, c. 360; 2006, c. [784](#).

§ 36-53. Making property available for conservation or redevelopment

An authority may make land in a conservation or redevelopment area available for purchase or use by nongovernmental persons or entities or public agencies in accordance with the conservation or redevelopment plan. Such land may be made available at its fair value, which represents the value at which the authority determines such land should be made available in order that it may be developed, conserved or redeveloped for the purposes specified in such plan.

To assure that land acquired in a conservation or redevelopment area is used in accordance with the conservation or redevelopment plan, an authority, upon the sale or lease of such land, shall obligate purchasers or lessees: (1) to use the land for the purpose designated in the conservation or redevelopment plan; (2) to begin the building of their improvements within a period of time which the authority fixes as reasonable; and (3) to comply with such other conditions as are necessary to carry out the purposes of this chapter. Any such obligations by the purchaser shall be covenants and conditions running with the land where the authority so stipulates.

1946, p. 280; Michie Suppl. 1946, § 3145(8f); 1970, c. 222; 2006, c. [784](#).

§ 36-54. Aid from federal government

An authority may borrow money or accept contributions from the federal government to assist in its undertaking redevelopment projects. An authority may do any and all things necessary or desirable to secure such financial aid (including obligating itself in any contract with the federal government for annual contributions to convey to the federal government the project to which the contract relates upon the occurrence of a substantial default thereunder), in the same manner as it may do to secure such aid in connection with slum clearance and housing projects.

1946, p. 280; Michie Suppl. 1946, § 3145(8g).

§ 36-55. Bonds to be legal investments and security

Bonds or other obligations issued by an authority in connection with projects authorized under this chapter shall be security for public deposits and legal investments to the same extent and for the same persons, institutions, associations, corporations and other bodies and officers as bonds or other obligations issued by an authority in connection with the development of slum clearance or housing projects.

1946, p. 280; Michie Suppl. 1946, § 3145(8h); 1964, c. 378.

§ 36-55.1. In certain counties

§ [36-55.1](#). through [36-55.6](#). These sections as set forth in Chapter 501 of the Acts of 1960, as amended by Chapter 303 of the Acts of 1973 and Chapter 95 of the Acts of 1975, relating to redevelopment and urban renewal authorities in counties having a density of population in excess of 4,000 per square mile, are incorporated in this Code by this reference.

Regional Industrial Facilities Act, Virginia

§ 15.2-6400. Definitions

As used in this chapter the following words have the meanings indicated:

"Authority" means any regional facility authority organized and existing pursuant to this chapter.

"Board" means the board of directors of an authority.

"Facility" means any structure or park, including real estate and improvements as applicable, for manufacturing, warehousing, distribution, office, or other industrial, residential, recreational or commercial purposes. A facility specifically includes structures or parks that are not owned by an authority or its member localities, but are subject to a cooperative arrangement pursuant to subdivision 13 of § [15.2-6405](#).

"Governing bodies" means the boards of supervisors of counties and the councils of cities and towns which are members of an authority.

"Member localities" means the counties, cities, and towns, or combination thereof, which are members of an authority.

"Region" means the area within the boundaries of the member localities.

1997, cc. [276](#), 587, § 15.1-1710; 1999, cc. [540](#), [804](#), [820](#), [837](#), [882](#); 2000, cc. [892](#), [915](#), [960](#), [965](#); 2001, cc. [391](#), [404](#); 2003, c. [874](#); 2004, cc. [603](#), [640](#); 2007, cc. [941](#), [947](#); 2009, c. [616](#).

§ 15.2-6401. Findings; purpose; governmental functions

A. The economies of many localities within the region have not kept pace with those of the rest of the Commonwealth. Individual localities in the region often lack the financial resources to assist in the development of economic development projects. Providing a mechanism for localities in the region to cooperate in the development of facilities will assist the region in overcoming this barrier to economic growth. The creation of regional industrial facility authorities will assist this area of the Commonwealth in achieving a greater degree of economic stability.

B. The purpose of a regional industrial facility authority is to enhance the economic base for the member localities by developing, owning, and operating one or more facilities on a cooperative basis involving its member localities.

C. The exercise of the powers granted by this chapter shall be in all respects for the benefit of the inhabitants of the region and other areas of the Commonwealth, for the increase of their commerce, and for the promotion of their safety, health, welfare, convenience and prosperity.

1997, cc. [276](#), 587, § 15.1-1711.

§ 15.2-6402. Procedure for creation of authorities

The governing bodies of any two or more localities within the region, provided that at least two or more of the localities are cities or counties or a combination thereof, may, in conformance with the procedure set forth herein, create a regional industrial facility authority by adopting ordinances proposing to create an authority which shall (i) set forth the name of the proposed regional industrial facility authority (which shall include the words "industrial facility authority"); (ii) name the member localities; (iii) contain findings that the economic growth and development of the locality and the comfort, convenience and welfare of its citizens require the development of facilities and that joint action through a regional industrial facility authority by the localities which are to be members of the proposed authority will facilitate the development of the needed facilities; and (iv) authorize the execution of an agreement establishing the respective rights and obligations of the member localities with respect to the authority consistent with the provisions of this chapter. However, with regard to Planning Districts 2, 3, 10, 11 and 12, the governing bodies of any two or more localities within the region, provided that one or more of the localities is a city or county, may adopt such an ordinance. Such ordinances shall be filed with the Secretary of the Commonwealth. Upon certification by the Secretary of the Commonwealth that the ordinances required by this chapter have been filed and, upon the basis of the facts set forth therein, satisfy such requirements, the proposed authority shall be and constitute an authority for all of the purposes of this chapter, to be known and designated by the name stated in the ordinances. Upon the issuance of such certificate, the authority shall be deemed to have been lawfully and properly created and established and authorized to exercise its powers under this chapter. Each authority created pursuant to this chapter is hereby created as a political subdivision of the Commonwealth. At any time subsequent to the creation of an authority under this chapter, the membership of the authority may, with the approval of the authority's board, be expanded to include any locality within the region that would have been eligible to be an initial member of the authority. The governing body of a locality seeking to become a member of an existing authority shall evidence its intent to become a member by adopting an ordinance proposing to join the authority that conforms, to the extent applicable, to the requirements for an ordinance set forth in clauses (i), (iii), and (iv) of this section.

§ 15.2-6403. Board of the authority

A. All powers, rights and duties conferred by this chapter, or other provisions of law, upon an authority shall be exercised by a board of directors. A board shall consist of two members for each member locality. The governing body of each member locality shall appoint two members to the board. Any person who is a resident of the Commonwealth may be appointed to the board. However, if an authority has only two member localities, the governing body of each locality may appoint three members each. However, in any instance in which the member localities are not equally contributing

funding to the authority, and upon agreement by each member locality, the number of appointments to be made by each locality may be based upon the percentage of local funds contributed by each of the member localities. Each member of a board shall serve for a term of four years and may be reappointed for as many terms as the governing body desires. However, the board may elect to provide for staggered terms, in which case some members may draw an initial two-year term. If a vacancy occurs by reason of the death, disqualification or resignation of a board member, the governing body of the member locality that appointed the authority board member shall appoint a successor to fill the unexpired term.

However, with regard to any authority created by Planning Districts 10, 11, and 12, only members of the appointing governing body of each member locality shall be appointed to the board. In the event such board members feel it is necessary to have an odd number of members, they may establish a rotation system that will allow one locality to appoint one extra member to serve for up to two years. Each locality will, in turn, appoint such extra member. Once the cycle is completed, the rotation shall be repeated.

Each member locality may appoint up to two alternate board members. Alternates shall be selected in the same manner as board members, and may serve as an alternate for either board member from the member locality that appoints the alternate. Alternates shall be appointed for terms that coincide with one or more of the board members from the member locality that appoints the alternate. If a board member is not present at a meeting of the authority, the alternate shall have all the voting and other rights of the board member not present and shall be counted for purposes of determining a quorum. Alternates are required to take an oath of office and are entitled to reimbursement for expenses in the same manner as board members.

B. Each member of a board shall, before entering upon the discharge of the duties of his office, take and subscribe to the oath prescribed in § [49-1](#). Members shall be reimbursed for actual expenses incurred in the performance of their duties from funds available to the authority.

C. A quorum shall exist when a majority of the member localities are represented by at least one member of the board. The affirmative vote of a quorum of the board shall be necessary for any action taken by the board. No vacancy in the membership of a board shall impair the right of a quorum to exercise all the rights and perform all the duties of the board. The board shall determine the times and places of its regular meetings, which may be adjourned or continued, without further public notice, from day to day or from time to time or from place to place, but not beyond the time fixed for the next regular meeting, until the business before the board is completed. Special meetings of a board shall be held when requested by members of the board representing two or more localities. Any such request for a special meeting shall be in writing, and the request shall specify the time and place of the meeting and the matters to be considered at the meeting. A reasonable effort shall be made to provide each member with notice of any special meeting. No matter not specified in the notice shall be

considered at such special meeting unless all the members of the board are present. Special meetings may be adjourned or continued, without further public notice, from day to day or from time to time or from place to place, not beyond the time fixed for the next regular meeting, until the business before the board is completed.

D. Each board shall elect from its membership a chairman for each calendar year. The board may also appoint an executive director and staff who shall discharge such functions as may be directed by the board. The executive director and staff shall be paid from funds received by the authority.

E. Each board, promptly following the close of the fiscal year, shall submit an annual report of the authority's activities of the preceding year to the governing body of each member locality. Each such report shall set forth a complete operating and financial statement covering the operation of the authority during such year.

§ 15.2-6404. Office of authority; title to property

Each board shall maintain the principal office of the authority within a member locality. All records shall be kept at such office. The title to all property of every kind belonging to an authority shall be titled to the authority, which shall hold it for the benefit of its member localities.

1997, cc. [276](#), 587, § 15.1-1714.

§ 15.2-6405. Powers of the authority

Each authority is vested with the powers of a body corporate, including the power to sue and be sued in its own name, plead and be impleaded, and adopt and use a common seal and alter the same as may be deemed expedient. In addition to the powers set forth elsewhere in this chapter, an authority may:

1. Adopt bylaws, rules and regulations to carry out the provisions of this chapter;
2. Employ, either as regular employees or as independent contractors, consultants, engineers, architects, accountants, attorneys, financial experts, construction experts and personnel, superintendents, managers and other professional personnel, personnel, and agents as may be necessary in the judgment of the authority, and fix their compensation;
3. Determine the locations of, develop, establish, construct, erect, repair, remodel, add to, extend, improve, equip, operate, regulate, and maintain facilities to the extent necessary or convenient to accomplish the purposes of the authority;
4. Acquire, own, hold, lease, use, sell, encumber, transfer, or dispose of, in its own name, any real or personal property or interests therein;
5. Invest and reinvest funds of the authority;

6. Enter into contracts of any kind, and execute all instruments necessary or convenient with respect to its carrying out the powers in this chapter to accomplish the purposes of the authority;
7. Expend such funds as may be available to it for the purpose of developing facilities, including but not limited to (i) purchasing real estate; (ii) grading sites; (iii) improving, replacing, and extending water, sewer, natural gas, electrical, and other utility lines; (iv) constructing, rehabilitating, and expanding buildings; (v) constructing parking facilities; (vi) constructing access roads, streets, and rail lines; (vii) purchasing or leasing machinery and tools; and (viii) making any other improvements deemed necessary by the authority to meet its objectives;
8. Fix and revise from time to time and charge and collect rates, rents, fees, or other charges for the use of facilities or for services rendered in connection with the facilities;
9. Borrow money from any source for any valid purpose, including working capital for its operations, reserve funds, or interest; mortgage, pledge, or otherwise encumber the property or funds of the authority; and contract with or engage the services of any person in connection with any financing, including financial institutions, issuers of letters of credit, or insurers;
10. Issue bonds under this chapter;
11. Accept funds and property from the Commonwealth, persons, counties, cities, and towns and use the same for any of the purposes for which the authority is created;
12. Apply for and accept grants or loans of money or other property from any federal agency for any of the purposes authorized in this chapter and expend or use the same in accordance with the directions and requirements attached thereto or imposed thereon by any such federal agency;
13. Make loans or grants to, and enter into cooperative arrangements with, any person, partnership, association, corporation, business or governmental entity in furtherance of the purposes of this chapter, for the purposes of promoting economic and workforce development, provided that such loans or grants shall be made only from revenues of the authority that have not been pledged or assigned for the payment of any of the authority's bonds, and to enter into such contracts, instruments, and agreements as may be expedient to provide for such loans, and any security therefor. The word "revenues" as used in this subdivision includes grants, loans, funds and property, as set out in subdivisions 11 and 12;
14. Enter into agreements with any other political subdivision of the Commonwealth for joint or cooperative action in accordance with § [15.2-1300](#); and
15. Do all things necessary or convenient to carry out the purposes of this chapter.

1997, cc. [276](#), 587, § 15.1-1715; 2002, c. [691](#); 2003, c. [874](#).

§ 15.2-6406. Donations to authority; remittance of tax revenue

A. Member localities are hereby authorized to lend or donate money or other property to an authority for any of its purposes. The member locality making the grant or loan may restrict the use of such grants or loans to a specific facility owned by the authority, within or without that member locality.

B. The governing body of the member locality in which a facility owned by an authority is located may direct, by resolution or ordinance, that all tax revenue collected with respect to the facility shall be remitted to the authority. Such revenues may be used for the payment of debt service on bonds of the authority and other obligations of the authority incurred with respect to such facility. The action of such governing body shall not constitute a pledge of the credit or taxing power of such locality.

1997, cc. [276](#), 587, § 15.1-1716; 2004, cc. [42](#), [603](#), [640](#).

§ 15.2-6407. Revenue sharing agreements

A. Notwithstanding the requirements of Chapter 34 (§ [15.2-3400](#) et seq.), the member localities may agree to a revenue and economic growth-sharing arrangement with respect to tax revenues and other income and revenues generated by any facility owned by an authority or a facility owned by a non-authority utilized as part of a cooperative arrangement entered into by an authority promoting economic and workforce development. Such member localities may be located in any jurisdiction participating in the Appalachian Region Interstate Compact or a similar agreement for interstate cooperation for economic and workforce development authorized by law. The obligations of the parties to any such agreement shall not be construed to be debt within the meaning of Article VII, § 10 of the Constitution of Virginia. Any such agreement shall be approved by a majority vote of the governing bodies of the member localities reaching such an agreement but shall not require any other approval.

B. With any such revenue and economic growth-sharing arrangement entered into by localities, the Department of Taxation's calculation of true values as applied to the Commonwealth's composite index of local ability-to-pay shall take into account an agreement whereby a portion of real property tax revenue is initially paid to one locality and redistributed to another locality. Such calculation shall properly apportion the percentage of tax revenue ultimately received by each locality. Each participating locality shall include in reports to the Department of Taxation of its taxable real estate the apportioned fair market value of the property upon which such revenue sharing is based. The Department of Taxation shall collect annually, from each participating locality, the taxable real estate value used to determine and apportion the fair market value of the property adjustments upon which such revenue sharing is based.

§ 15.2-6408. Applicability of land use regulations

In any locality where planning, zoning, and development regulations may apply, an authority shall comply with and is subject to those regulations to the same extent as a private commercial or industrial enterprise.

1997, cc. [276](#), 587, § 15.1-1718.

§ 15.2-6409. Bond issues; contesting validity of bonds

A. An authority may at any time and from time to time issue bonds for any valid purpose, including the establishment of reserves and the payment of interest. In this chapter, "bonds" includes notes of any kind, interim certificates, refunding bonds, or any other evidence of obligation.

B. The bonds of any issue shall be payable solely from the property or receipts of the authority, including, but not limited to:

1. Taxes, rents, fees, charges, or other revenues payable to the authority;
2. Payments by financial institutions, insurance companies, or others pursuant to letters or lines of credit, policies of insurance, or purchase agreements;
3. Investment earnings from funds or accounts maintained pursuant to a bond resolution or trust agreement; and
4. Proceeds of refunding bonds.

C. Bonds shall be authorized by resolution of an authority and may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. The bonds shall:

1. Be issued at, above, or below par value, for cash or other valuable consideration, and mature at a time or times, whether as serial bonds or as term bonds or both, not exceeding forty years from their respective dates of issue;
2. Bear interest at the fixed or variable rate or rates determined by the method provided in the resolution or trust agreement;
3. Be payable at a time or times, in the denominations and form, and carry the registration and privileges as to conversion and for the replacement of mutilated, lost, or destroyed bonds as the resolution or trust agreement may provide;
4. Be payable in lawful money of the United States at a designated place;
5. Be subject to the terms of purchase, payment, redemption, refunding, or refinancing that the resolution or trust agreement provides;
6. Be executed by the manual or facsimile signatures of the officers of the authority designated by the authority, which signatures shall be valid at delivery even for one who has ceased to hold office; and

7. Be sold in the manner and upon the terms determined by the authority including private (negotiated) sale.

D. Any resolution or trust agreement may contain provisions which shall be a part of the contract with the holders of the bonds as to:

1. Pledging, assigning, or directing the use, investment, or disposition of receipts of the authority or proceeds or benefits of any contract and conveying or otherwise securing any property rights;

2. Setting aside loan funding deposits, debt service reserves, capitalized interest accounts, cost of issuance accounts and sinking funds, and the regulation, investment, and disposition thereof;

3. Limiting the purpose to which, or the investments in which, the proceeds of the sale of any issue of bonds may be applied and restrictions to investments of revenues or bond proceeds in government obligations for which principal and interest are unconditionally guaranteed by the United States of America;

4. Limiting the issuance of additional bonds and the terms upon which additional bonds may be issued and secured and may rank on a parity with, or be subordinate or superior to, other bonds;

5. Refunding or refinancing outstanding bonds;

6. Providing a procedure, if any, by which the terms of any contract with bondholders may be altered or amended and the amount of bonds the holders of which must consent thereto, and the manner in which consent shall be given;

7. Defining the acts or omissions which shall constitute a default in the duties of the authority to bondholders and providing the rights of or remedies for such holders in the event of a default which may include provisions restricting individual right of action by bondholders;

8. Providing for guarantees, pledges of property, letters of credit, or other security, or insurance for the benefit of the bondholders; and

9. Addressing any other matter relating to the bonds which the authority determines appropriate.

E. No member of an authority, member of a board, or any person executing the bonds on behalf of an authority shall be liable personally for the bonds or subject to any personal liability by reason of the issuance of the bonds.

F. An authority may enter into agreements with agents, banks, insurers, or others for the purpose of enhancing the marketability of, or as security for, its bonds.

G. A pledge by an authority of revenues as security for an issue of bonds shall be valid and binding from the time the pledge is made.

The revenues pledged shall immediately be subject to the lien of the pledge without any physical delivery or further act, and the lien of any pledge shall be valid and binding against any person having any claim of any kind in tort, contract or otherwise against an authority, irrespective of whether the person has notice.

No resolution, trust agreement or financing statement, continuation statement, or other instrument adopted or entered into by an authority need be filed or recorded in any public record other than the records of the authority in order to perfect the lien against third persons, regardless of any contrary provision of public general or local law.

H. Except to the extent restricted by an applicable resolution or trust agreement, any holder of bonds issued under this chapter or a trustee acting under a trust agreement entered into under this chapter, may, by any suitable form of legal proceedings, protect and enforce any rights granted under the laws of Virginia or by any applicable resolution or trust agreement.

I. An authority may issue bonds to refund any of its bonds then outstanding, including the payment of any redemption premium and any interest accrued or to accrue to the earliest or any subsequent date of redemption, purchase or maturity of the bonds. Refunding bonds may be issued for the public purposes of realizing savings in the effective costs of debt service, directly or through a debt restructuring, for alleviating impending or actual default and may be issued in one or more series in an amount in excess of that of the bonds to be refunded.

J. For a period of thirty days after the date of the filing with the circuit court having jurisdiction over any of the political subdivisions that are members of the authority and in which the facility or any portion thereof being financed is located a certified copy of the initial resolution of the authority authorizing the issuance of bonds, any person in interest may contest the validity of the bonds, the rates, rents, fees and other charges for the services and facilities furnished by, for the use of, or in connection with, the facility or any portion thereof being financed, the pledge of revenues pledged to payment of the bonds, any provisions that may be recited in any resolution, trust agreement, indenture or other instrument authorizing the issuance of bonds, or any matter contained in, provided for or done or to be done pursuant to the foregoing. If such contest is not given within the thirty-day period, the authority to issue bonds, the validity of any other provision contained in the resolution, trust agreement, indenture or other instrument, and all proceedings in connection with the authorization and the issuance of the bonds shall be conclusively presumed to have been legally taken and no court shall have authority to inquire into such matters and no such contest shall thereafter be instituted.

Upon the delivery of any bonds reciting that they are issued pursuant to this chapter and a resolution or resolutions adopted under this chapter, the bonds shall be conclusively presumed to be fully authorized by all the laws of the Commonwealth and to have been sold, executed and delivered by the authority in conformity with such laws, and the validity of the bonds shall not be questioned by a

party plaintiff, a party defendant, the authority, or any other interested party in any court, anything in this chapter or in any other statutes to the contrary notwithstanding.

§ 15.2-6410. Investments in bonds

Any financial institution, investment company, insurance company or association, and any personal representative, guardian, trustee, or other fiduciary, may legally invest any moneys belonging to them or within their control in any bonds issued by an authority.

1997, cc. [276](#), 587, § 15.1-1720.

§ 15.2-6411. Bonds exempt from taxation

An authority shall not be required to pay any taxes or assessments of any kind whatsoever, and its bonds, their transfer, the interest payable on them, and any income derived from them, including any profit realized in their sale or exchange, shall be exempt at all times from every kind and nature of taxation by this Commonwealth or by any of its political subdivisions, municipal corporations, or public agencies of any kind.

1997, cc. [276](#), 587, § 15.1-1721.

§ 15.2-6412. Tax revenues of the Commonwealth or any other political subdivision not pledged

Nothing in this chapter shall be construed as authorizing the pledging of the faith and credit of the Commonwealth of Virginia, or any of its revenues, or the faith and credit of any other political subdivision of the Commonwealth, or any of its revenues, for the payment of any bonds issued by an authority.

1997, cc. [276](#), 587, § 15.1-1722.

§ 15.2-6413. Forms of accounts and records; audit of same

The accounts and records of an authority showing the receipt and disbursement of funds from whatever source derived shall be in such form as the Auditor of Public Accounts prescribes, provided that such accounts correspond as nearly as possible to the accounts and records for such matters maintained by corporate enterprises. The accounts and records of an authority shall be subject to audit pursuant to § [30-140](#), and the costs of such audit services shall be borne by the authority. An authority's fiscal year shall be the same as the Commonwealth's.

1997, cc. [276](#), 587, § 15.1-1723.

§ 15.2-6414. Tort liability

No pecuniary liability of any kind shall be imposed on the Commonwealth or on any other political subdivision of the Commonwealth because of any act, agreement, contract, tort, malfeasance or nonfeasance by or on the part of an authority, its agents, servants or employees.

1997, cc. [276](#), 587, § 15.1-1724.

§ 15.2-6415. Dissolution of authority

A member locality of an authority may withdraw from the authority only (i) upon dissolution of the authority as set forth herein, or (ii) with the majority approval of all other members of such authority, upon a resolution adopted by the governing body of a member locality and after satisfaction of such member locality's legal obligations, including repayment of its portion of any debt incurred, with regard to the authority, or after making contractual provisions for the repayment of its portion of any debt incurred, with regard to the authority, as well as pledging to pay general dues for operation of the authority for the current and succeeding fiscal year following the effective date of withdrawal. No member seeking withdrawal shall retain, without the consent of a majority of the remaining members, any rights to contributions made by such member, to any property held by such authority or to any revenue sharing as allowed by §§ [15.2-6406](#) and [15.2-6407](#). Upon withdrawal, the withdrawing member shall also return to the authority any dues or other contributions refunded to such member during its membership in the authority. Whenever the board determines that the purpose for which the authority was created has been substantially fulfilled or is impractical or impossible to accomplish and that all obligations incurred by the authority have been paid or that cash or a sufficient amount of United States government securities has been deposited for their payment, or provisions satisfactory for the timely payment of all its outstanding obligations have been arranged, the board may adopt resolutions declaring and finding that the authority shall be dissolved. Appropriate attested copies of such resolutions shall be delivered to the Governor so that legislation dissolving such authority may be introduced in the General Assembly. The dissolution of an authority shall become effective according to the terms of such legislation. The title to all funds and other property owned by such authority at the time of such dissolution shall vest in the member localities which have contributed to the authority in proportion to their respective contributions.

1997, cc. [276](#), 587, § 15.1-1725; 2010, c. [531](#).

§ 15.2-6416. Chapter liberally construed

This chapter, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purposes thereof.

Regional Juvenile Detention Commissions

§ 16.1-315. Joint or regional citizen detention commissions authorized

The governing bodies of three or more counties, cities or towns (hereinafter referred to as "political subdivisions") may, by concurrent ordinances or resolutions, provide for the establishment of a joint or regional citizen juvenile detention home, group home or other residential care facility commission. Such commission shall be a public body corporate, with such powers as are set forth in this article.

Code 1950, § 16.1-202.2; 1974, c. 645; 1977, c. 559.

§ 16.1-316. Number and terms of members; admission of additional local governing bodies

A juvenile detention home, group home or other residential care facility commission shall consist of not less than three members and shall be comprised of at least one member from each participating political subdivision. In addition, the participating political subdivisions may provide for the appointment of an alternate for each principal member of such a commission. The alternate members may attend and participate in all meetings of the commission and may vote in the absence of their respective principals. Such members and alternates, if any, shall be appointed, after consultation with the chief judge of the juvenile and domestic relations district court, by the governing body. Neither the chief judge nor any judge of the juvenile and domestic relations district court from his district shall be a member of the commission.

The term of office of all members and alternates, if any, shall be for four years. When additional local governing bodies desire to join the commission, they may do so upon the recommendation of the commission and with the approval of the sponsoring local governing bodies. The number of members which the applicant local governments will be entitled to appoint to such commission and other conditions relating to the expansion of sponsoring membership shall be determined by the agreement entered into between or among the sponsoring local governments and such applicant local governments.

Code 1950, § 16.1-202.3; 1966, c. 509; 1972, cc. 365, 430; 1974, c. 645; 1976, c. 448; 1977, c. 559; 1978, cc. 37, 717; 1984, c. 77; 1988, c. 885; 1992, c. 441; 1998, c. [488](#).

§ 16.1-317. Quorum; chairman; rules of procedure; compensation

The appointive members of the commission shall constitute the commission, and the powers of the commission shall be vested in and exercised by the members in office from time to time. Neither the chief judge nor any judge of the juvenile and domestic relations district court shall be a member of the commission.

A majority of the members in office shall constitute a quorum. The commission shall elect a chairman, and shall adopt rules and regulations for its own procedure and government. The governing bodies of the participating political subdivisions may by ordinance or resolution provide for the payment of

compensation to the members of the commission and for the reimbursement of their actual expenses incurred in the performance of their duties.

Code 1950, § 16.1-202.4; 1966, c. 509; 1977, c. 559; 1978, cc. 37, 717; 1988, c. 885; 1992, c. 441.

§ 16.1-318. Powers of commission generally; supervision by Director of Department of Juvenile Justice

Each commission created hereunder shall have all powers necessary or convenient for carrying out the general purposes of this article, including the following powers in addition to others herein granted, and subject to such supervision by the Director of the Department of Juvenile Justice as is provided in §§ [16.1-309.4](#), [16.1-309.9](#), and [16.1-309.10](#) of this law:

A. In general. -- To adopt a seal and alter the same at pleasure; to have perpetual succession; and to make and execute contracts and other instruments necessary or convenient to the exercise of its powers.

B. Officers, agents and employees. -- To employ such technical experts, and such other officers, agents and employees as it may require, to fix their qualifications, duties and compensation and to remove such employees at pleasure.

C. Acquisition of property. -- To acquire within the territorial limits of the political subdivisions for which it is formed, by purchase, lease, gift, or exercise of the right of eminent domain, subject to conditions hereinafter set forth, whatever lands, buildings and structures may be reasonably necessary for the purpose of establishing, constructing, enlarging, maintaining and operating one or more juvenile detention homes or facilities for the reception of juveniles committed thereto under the provisions of this chapter; however, such lands, buildings and structures may be acquired by purchase, lease or gift, although not within the territorial limits, if the location thereof is feasible and practicable with relation to the several political subdivisions for which such commission is formed. Such location shall be approved by resolution of the governing bodies of the participating political subdivisions and of the governing body of the political subdivision in which such lands, buildings and structures are to be located, and the consent in writing of the Director of the Department is given thereto.

D. Construction. -- To acquire, establish, construct, enlarge, improve, maintain, equip and operate any juvenile detention home or facility.

E. Rules and regulations for management. -- To make and enforce rules and regulations for the management and conduct of its business and affairs and for the use, maintenance and operation of its facilities and properties.

F. Acceptance of donations. -- To accept gifts and grants from the Commonwealth or any political subdivision thereof, and from the United States and any of its agencies; and to accept donations of

money, personal property or real estate, and take title thereto from any person, firm, corporation or association.

Any city or county participating in the commission may lend, advance or give money or materials or property of any kind to the commission.

I. Issuance of revenue bonds. -- To issue revenue bonds in accordance with, and subject to the terms and conditions of § [53.1-95.10](#), in the same manner in which jail authorities are authorized to issue such bonds.

Bonds issued under the provisions of this section shall not be deemed to constitute a pledge of the faith and credit of the Commonwealth or of any political subdivision thereof. All such bonds shall contain a statement on their face substantially to the effect that neither the faith and credit of the Commonwealth nor the faith and credit of any county, city, town, or other subdivision of the Commonwealth is pledged to the payment of the principal of or the interest on such bonds. The issuance of bonds under the provisions of this section shall not directly, indirectly or contingently obligate the Commonwealth or any county, city, town, or other subdivision of the Commonwealth to levy any taxes whatever therefor or to make any appropriation for their payment except from the funds pledged under the provisions of this section. Any reimbursement payments made pursuant to § [16.1-309.5](#) for juvenile detention homes or facilities for which bonds are issued pursuant to this section shall not (i) exceed the maximum reimbursement limits established by the Board of Juvenile Justice or (ii) include any sums for the payment of interest costs incurred by the Commission in connection with the issuance of such bonds.

§ 16.1-323. Governor to execute; form of compact

The Governor of Virginia is hereby authorized and requested to execute, on behalf of the Commonwealth of Virginia, with any other state or states legally joining therein, a compact which shall be in form substantially as follows:

Article I. Purpose.

The compacting states to this Interstate Compact recognize that each state is responsible for the proper supervision or return of juveniles, delinquents, and status offenders who are on probation or parole and who have absconded, escaped or run away from supervision and control and in so doing have endangered their own safety and the safety of others. The compacting states also recognize that each state is responsible for the safe return of juveniles who have run away from home and in doing so have left their state of residence. The compacting states also recognize that Congress by enacting the Crime Control Act, 4 U.S.C. § 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.

It is the purpose of this compact, through means of joint and cooperative action among the compacting states, to (i) ensure that the adjudicated juveniles and status offenders subject to this compact are provided adequate supervision and services in the receiving state as ordered by the adjudicating judge or parole authority in the sending state; (ii) ensure that the public safety interests of the citizens, including the victims of juvenile offenders, in both the sending and receiving states are adequately protected; (iii) return juveniles who have run away, absconded or escaped from supervision or control or have been accused of an offense to the state requesting their return; (iv) make contracts for the cooperative institutionalization in public facilities in member states for delinquent youth needing special services; (v) provide for the effective tracking and supervision of juveniles; (vi) equitably allocate the costs, benefits and obligations of the compacting states; (vii) establish procedures to manage the movement between states of juvenile offenders released to the community under the jurisdiction of courts, juvenile departments, or any other criminal or juvenile justice agency that has jurisdiction over juvenile offenders; (viii) ensure immediate notice to jurisdictions where defined offenders are authorized to travel or to relocate across state lines; (ix) establish procedures to resolve pending charges (detainers) against juvenile offenders prior to transfer or release to the community under the terms of this compact; (x) establish a system of uniform data collection on information pertaining to juveniles subject to this compact that allows access by authorized juvenile justice and criminal justice officials, and regular reporting of compact activities to heads of state executive, judicial, and legislative branches and juvenile and criminal justice administrators; (xi) monitor compliance with rules governing interstate movement of juveniles and initiate interventions to address and correct noncompliance; (xii) coordinate training and education regarding the regulation of interstate movement of juveniles for officials involved in such activity; and (xiii) coordinate the implementation and operation of the compact with the Interstate Compact on the Placement of Children, the Interstate Compact for Adult Offender Supervision, and other compacts affecting juveniles particularly in those cases where concurrent or overlapping supervision issues arise. It is the policy of the compacting states that the activities conducted by the Interstate Commission created herein are the formation of public policies and therefore are public business. Furthermore, the compacting states shall cooperate and observe their individual and collective duties and responsibilities for the prompt return and acceptance of juveniles subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed to accomplish the purposes and policies of the compact.

Article III. Interstate Commission for Juveniles.

A. The compacting states hereby create the "Interstate Commission for Juveniles." The commission shall be a body corporate and joint agency of the compacting states. The commission shall have all the responsibilities, powers and duties set forth herein and additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states in accordance with the terms of this compact.

B. The Interstate Commission shall consist of commissioners appointed by the appropriate appointing authority in each state pursuant to the rules and requirements of each compacting state and in consultation with the State Council for Interstate Juvenile Supervision created in Article IX. The commissioner shall be the compact administrator, deputy compact administrator, or designee from that state who shall serve on the Interstate Commission in such capacity under or pursuant to the applicable law of the compacting state.

C. In addition to the commissioners who are the voting representatives of each state, the Interstate Commission shall include individuals who are not commissioners but who are members of interested organizations. Such noncommissioner members shall include a member of the national organizations of governors, legislators, state chief justices, attorneys general, Interstate Compact for Adult Offender Supervision, Interstate Compact on the Placement of Children, juvenile justice and juvenile corrections officials, and crime victims. All noncommissioner members of the Interstate Commission shall be ex officio (nonvoting) members. The Interstate Commission may provide in its bylaws for such additional ex officio (nonvoting) members, including members of other national organizations, in such numbers as shall be determined by the commission.

D. Each compacting state represented at any meeting of the commission is entitled to one vote. A majority of the compacting states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

E. The commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the compacting states, shall call additional meetings. Public notice shall be given of all meetings and meetings shall be open to the public.

F. The Interstate Commission shall establish an executive committee, which shall include commission officers, members, and others as determined by the bylaws. The executive committee shall have the power to act on behalf of the Interstate Commission during periods when the Interstate Commission is not in session, with the exception of rulemaking or amendment to the compact. G. Each member of the Interstate Commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the Interstate Commission. A member shall vote in person and shall not delegate a vote to another compacting state. However, a commissioner, in consultation with the state council, shall appoint another authorized representative, in the absence of the commissioner from that state, to cast a vote on behalf of the compacting state at a specific meeting. The bylaws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication.

H. The Interstate Commission's bylaws shall establish conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure any information or official records to the extent that they would adversely affect personal privacy rights or proprietary interests.

I. Public notice shall be given of all meetings, and all meetings shall be open to the public except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and any of its committees may close a meeting to the public where it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;
2. Disclose matters specifically exempted from disclosure by statute;
3. Disclose trade secrets or commercial or financial information that is privileged or confidential;
4. Involve accusing any person of a crime or formally censuring any person;

7. Disclose information contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of the Interstate Commission with respect to a regulated person or entity for the purpose of regulation or supervision of such person or entity;

8. Disclose information the premature disclosure of which would significantly endanger the stability of a regulated person or entity; or

9. Specifically relate to the Interstate Commission's issuance of a subpoena or its participation in a civil action or other legal proceeding.

J. For every meeting closed pursuant to this provision, the Interstate Commission's legal counsel shall publicly certify that, in the legal counsel's opinion, the meeting may be closed to the public and shall reference each relevant exemptive provision. The Interstate Commission shall keep minutes that shall fully and clearly describe all matters discussed in any meeting and shall provide a full and accurate summary of any actions taken and the reasons therefor, including a description of each of the views expressed on any item and the record of any roll call vote (reflected in the vote of each member on the question). All documents considered in connection with any action shall be identified in the minutes.

K. The Interstate Commission shall collect standardized data concerning the interstate movement of juveniles as directed through its rules that shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall insofar as is reasonably possible conform to up-to-date technology and coordinate its information functions with the appropriate repository of records.

Article IV. Powers and Duties of the Interstate Commission.

The commission shall have the following powers and duties:

1. To provide for dispute resolution among compacting states;
2. To promulgate rules to effect the purposes and obligations as enumerated in this compact, which shall have the force and effect of statutory law and shall be binding in the compacting states to the extent and in the manner provided in this compact;
3. To oversee, supervise, and coordinate the interstate movement of juveniles subject to the terms of this compact and any bylaws adopted and rules promulgated by the Interstate Commission;
4. To enforce compliance with the compact provisions, the rules promulgated by the Interstate Commission, and the bylaws, using all necessary and proper means, including but not limited to the use of judicial process;

6. To purchase and maintain insurance and bonds;
7. To borrow, accept, hire, or contract for services of personnel;

the power to act on behalf of the Interstate Commission in carrying out its powers and duties hereunder;

To elect or appoint such officers, attorneys, employees, agents, or consultants and to fix their compensation, define their duties and determine their qualifications and to establish the Interstate Commission's personnel policies and programs relating to, inter alia, conflicts of interest, rates of compensation, and qualifications of personnel;
10. To accept any and all donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it;
11. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve or use, any property, real, personal, or mixed;
12. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed;
13. To establish a budget and make expenditures and levy dues as provided in Article VIII of this compact;
14. To sue and be sued;
15. To adopt a seal and bylaws governing the management and operation of the Interstate Commission;
16. To perform such functions as may be necessary or appropriate to achieve the purposes of this compact;

- e. Establishing the titles and responsibilities of the officers of the Interstate Commission;
- f. Providing a mechanism for concluding the operations of the Interstate Commission and the return of any surplus funds that may exist upon the termination of the compact after the payment or reserving of all its debts and obligations;

- h. Establishing standards and procedures for compliance and technical assistance in carrying out the compact.

B. Officers and staff.

1. The chairman or, in the chairman's absence or disability, the vice-chairman shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for any ordinary and necessary costs and expenses incurred by them in the performance of their duties and responsibilities as officers of the Interstate Commission.
2. The Interstate Commission shall, through its executive committee, appoint or retain an executive director for such period, upon such terms and conditions, and for such compensation as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission but shall not be a member and shall hire and supervise such other staff as may be authorized by the Interstate Commission.

C. Qualified immunity, defense and indemnification.

1. The commission's executive director and employees shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by, arising out of, or relating to any actual or alleged act, error, or omission that occurred or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; however, any such person shall not be

protected from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

2. The liability of any commissioner or the employee or agent of a commissioner, acting within the scope of such person's employment or duties, for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. Nothing in this subdivision shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

3. The Interstate Commission shall defend the executive director or the employees or representatives of the Interstate Commission and, subject to the approval of the attorney general of the state represented by any commissioner of a compacting state, shall defend such commissioner or the commissioner's representatives or employees in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

4. The Interstate Commission shall indemnify and hold the commissioner of a compacting state, the commissioner's representatives or employees, or the Interstate Commission's representatives or employees harmless in the amount of any settlement or judgment obtained against such persons arising out of any actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

Article VI. Rulemaking Functions of the Interstate Commission.

A. The Interstate Commission shall promulgate and publish rules in order to effectively and efficiently achieve the purposes of the compact.

B. Rulemaking shall occur pursuant to the criteria set forth in this article and the bylaws and rules adopted pursuant thereto. Such rulemaking shall substantially conform to the principles of the Model State Administrative Procedure Act, 1981 Act, Uniform Laws Annotated, vol. 15, p. 1 (2000), or such other administrative procedures act, as the Interstate Commission deems appropriate consistent with due process requirements under the U.S. Constitution as now or hereafter interpreted by the U.S. Supreme Court. All rules and amendments shall become binding as of the date specified, as published with the final version of the rule as approved by the commission.

C. When promulgating a rule, the Interstate Commission shall, at a minimum:

1. Publish the proposed rule's entire text, stating the reasons for that proposed rule;
2. Allow and invite any and all persons to submit written data, facts, opinions and arguments, which information shall be added to the record and be made publicly available;
3. Provide an opportunity for an informal hearing if petitioned by 10 or more persons; and
4. Promulgate a final rule and its effective date, if appropriate, based on input from state or local officials or interested parties.

D. Allow, not later than 60 days after a rule is promulgated, any interested person to file a petition in the United States District Court for the District of Columbia or in the federal district court where the Interstate Commission's principal office is located for judicial review of such rule. If the court finds that the Interstate Commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subsection, evidence is substantial if it would be considered substantial evidence under the Model State Administrative Procedure Act.

E. If a majority of the legislatures of the compacting states rejects a rule, those states may, by enactment of a statute or resolution in the same manner used to adopt the compact, cause that such rule shall have no further force and effect in any compacting state.

F. The existing rules governing the operation of the Interstate Compact on Juveniles superseded by this act shall be null and void 12 months after the first meeting of the Interstate Commission created hereunder.

G. Upon determination by the Interstate Commission that a state of emergency exists, it may promulgate an emergency rule that shall become effective immediately upon adoption, provided that the usual rulemaking procedures provided hereunder shall be retroactively applied to the rule as soon as reasonably possible, but no later than 90 days after the effective date of the emergency rule.

Article VII. Oversight, Enforcement and Dispute Resolution by the Interstate Commission.

A. Oversight.

1. The Interstate Commission shall oversee the administration and operations of the interstate movement of juveniles subject to this compact in the compacting states and shall monitor such activities being administered in noncompacting states that might significantly affect compacting states.
2. The courts and executive agencies in each compacting state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall be received by all the judges, public officers, commissions, and departments of the state government as evidence of the authorized

statute and administrative rules. All courts shall take judicial notice of the compact and the rules. In any judicial or administrative proceeding in a compacting state pertaining to the subject matter of this compact that may affect the powers, responsibilities or actions of the Interstate Commission, it shall be entitled to receive all service of process in any such proceeding and shall have standing to intervene in the proceeding for all purposes.

B. Dispute resolution.

2. The Interstate Commission shall attempt, upon the request of a compacting state, to resolve any disputes or other issues that are subject to the compact and that may arise among compacting states and between compacting and noncompacting states. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes among the compacting states.
3. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact using any means set forth in Article XI of this compact.

Article VIII. Finance.

- A. The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.
- B. The Interstate Commission shall levy on and collect an annual assessment from each compacting state to cover the cost of the internal operations and activities of the Interstate Commission and its staff that shall be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, taking into consideration the population of each compacting state and the volume of interstate movement of juveniles in each compacting state and shall promulgate a rule binding upon all compacting states that governs said assessment.
- C. The Interstate Commission shall not incur any obligations of any kind prior to securing the funds adequate to meet them; nor shall the Interstate Commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.
- D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

Article IX. The State Council.

Each member state shall create a State Council for Interstate Juvenile Supervision. While each state may determine the membership of its own state council, its membership shall include at least one representative from the legislative, judicial, and executive branches of government, victims groups, and the compact administrator, deputy compact administrator, or designee. Each compacting state retains the right to determine the qualifications of the compact administrator or deputy compact administrator. Each state council will advise and may exercise oversight and advocacy concerning that state's participation in Interstate Commission activities and other duties as may be determined by that state, including but not limited to development of policy concerning operations and procedures of the compact within that state.

Article X. Compacting States, Effective Date and Amendment.

A. Any state, the District of Columbia or its designee, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Northern Marianas Islands are eligible to become a compacting state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than 35 of the states. The initial effective date shall be the later of July 1, 2004, or upon enactment of the compact into law by the 35th jurisdiction. Thereafter it shall become effective and binding as to any other compacting state upon enactment of the compact into law by that state. The governors of nonmember states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states and territories of the United States.

C. The Interstate Commission may propose amendments to the compact for enactment by the compacting states. No amendment shall become effective and binding upon the Interstate Commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

Article XI. Withdrawal, Default, Termination, and Judicial Enforcement.

A. Withdrawal.

1. Once effective, the compact shall continue in force and remain binding upon each compacting state; provided that a compacting state may withdraw from the compact by specifically repealing the statute that enacted the compact into law.

2. The effective date of withdrawal is the effective date of the repeal.

3. The withdrawing state shall immediately notify the chairman of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate

Commission shall notify the other compacting states of the withdrawing state's intent to withdraw within 60 days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including any obligations the performance of which extends beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of any compacting state shall occur upon the withdrawing state's reenacting the compact or upon such later date as determined by the Interstate Commission.

B. Technical assistance, fines, suspension, termination, and default.

1. If the Interstate Commission determines that any compacting state has at any time defaulted in the performance of any of its obligations or responsibilities under this compact, the bylaws, or duly promulgated rules, the Interstate Commission may impose any or all of the following penalties:

a. Remedial training and technical assistance as directed by the Interstate Commission;

b. Alternative dispute resolution;

c. Fines, fees, and costs in such amounts as are deemed to be reasonable as fixed by the Interstate Commission; and

d. Suspension or termination of membership in the compact, which shall be imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted and the Interstate Commission has therefore determined that the offending state is in default.

Immediate notice of suspension shall be given by the Interstate Commission to the governor, the chief justice or the chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature, and the state council. The grounds for default include but are not limited to failure of a compacting state to perform such obligations or responsibilities imposed upon it by this compact, the bylaws, or duly promulgated rules and any other grounds designated in commission bylaws and rules. The Interstate Commission shall immediately notify the defaulting state in writing of the penalty imposed by the Interstate Commission and of the default pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state shall cure its default. If the defaulting state fails to cure the default within the time period specified by the commission, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination.

2. Within 60 days of the effective date of the termination of a defaulting state, the commission shall notify the governor, the chief justice or chief judicial officer, the majority and minority leaders of the defaulting state's legislature, and the state council.

3. The defaulting state is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including any obligations the performance of which extends beyond the effective date of termination.
4. The Interstate Commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.
5. Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the Interstate Commission pursuant to the rules.

C. Judicial enforcement.

The Interstate Commission may, by majority vote of the members, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its offices, to enforce compliance with the provisions of the compact, its duly promulgated rules, and bylaws, against any compacting state in default. In the event that judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

D. Dissolution of compact.

1. The compact dissolves effective upon the date of the withdrawal or default of the compacting state that reduces membership in the compact to one compacting state.
2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and any surplus funds shall be distributed in accordance with the bylaws.

Article XII. Severability and Construction.

- A. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.
- B. The provisions of this compact shall be liberally construed to effectuate its purposes.

Article XIII. Binding Effect of Compact and Other Laws.

A. Other laws.

1. Nothing herein prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.
2. All compacting states' laws other than state constitutions and other interstate compacts conflicting with this compact are superseded to the extent of the conflict.

B. Binding effect of the compact.

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the compacting states.
2. All agreements between the Interstate Commission and the compacting states are binding in accordance with their terms.

Resources Authority, Virginia

§ 62.1-197.Short title

This chapter shall be known and may be cited as the Virginia Resources Authority Act.

1984, c. 699; 1985, c. 67.

§ 62.1-198.Legislative findings and purposes

The General Assembly finds that there exists in the Commonwealth a critical need for additional sources of funding to finance the present and future needs of the Commonwealth for water supply; land conservation or land preservation, including land for parks and other recreational purposes; oyster restoration projects, including planting and replanting with seed oysters, oyster shells, or other material that will catch, support, and grow oysters; wastewater treatment facilities; drainage facilities; solid waste treatment, disposal, and management facilities; recycling facilities; resource recovery facilities; energy conservation and energy efficiency projects; professional sports facilities; certain heavy rail transportation facilities; public safety facilities; airport facilities; the remediation of brownfields and contaminated properties, including properties contaminated by defective drywall; the design and construction of roads, public parking garages, and other public transportation facilities, and facilities for public transportation by commuter rail; construction of local government buildings, including administrative and operations systems and other local government equipment and infrastructure; site acquisition and site development work for economic development projects; community development projects, to include projects related to the production and preservation of housing, including housing for persons and families of low and moderate income; recovered gas energy facilities; the location or retention of federal facilities in the Commonwealth and the support of the transition of former federal facilities from use by the federal government to other uses; and renewable energy projects, including solar, wind, biomass, waste-to-energy, and geothermal. This need can be alleviated in part through the creation of a resources authority. Its purpose is to encourage the investment of both public and private funds and to make loans, grants, and credit enhancements available to local governments to finance water and sewer projects; land conservation or land preservation programs or projects; oyster restoration projects; drainage projects; solid waste treatment, disposal, and management projects; recycling projects; energy conservation and energy efficiency projects; professional sports facilities; resource recovery projects; public safety facilities; airport facilities; the remediation of brownfields and contaminated properties, including properties contaminated by defective drywall; the design and construction of roads, public parking garages, and other public transportation facilities, and facilities for public transportation by commuter rail; site acquisition and site development work for the benefit of economic development projects; community development projects, to include projects related to the production and preservation of housing, including housing for persons and families of low and moderate income; technology; construction of local government buildings, including administrative and operations systems and other local

government equipment and infrastructure; infrastructure for broadband services; recovered gas energy facilities; federal facilities or former federal facilities; and renewable energy projects. The General Assembly determines that the creation of an authority for this purpose is in the public interest, serves a public purpose, and will promote the health, safety, welfare, convenience, or prosperity of the people of the Commonwealth.

§ 62.1-209.Provisions of resolution or trust indenture authorizing issuance of bonds

A. Bonds may be secured by a trust indenture between the Authority and a corporate trustee, which may be any bank having the power of a trust company or any trust company within or without the Commonwealth. A trust indenture may contain provisions for protecting and enforcing the rights and remedies of the bondholders that are reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the exercise of its powers and the custody, safekeeping and application of all money. The Authority may provide by the trust indenture for the payment of the proceeds of the bonds and all or any part of the revenues of the Authority to the trustee under the trust indenture or to some other depository, and for the method of their disbursement with whatever safeguards and restrictions as the Authority specifies. All expenses incurred in carrying out the trust indenture may be treated as part of the operating expenses of the Authority.

B. Any resolution or trust indenture pursuant to which bonds are issued may contain provisions, which shall be part of the contract or contracts with the holders of such bonds as to:

1. Pledging all or any part of the revenue of the Authority to secure the payment of the bonds, subject to any agreements with bondholders that then exist;
2. Pledging all or any part of the assets of, or funds under control of the Authority, including local obligations owned by the Authority, to secure the payment of the bonds, subject to any agreements with bondholders that then exist;
3. The use and disposition of the gross income from, and payment of the principal of and premium, if any, and interest on local obligations owned by the Authority;
4. The establishment of reserves, sinking funds and other funds and accounts and the regulation and disposition thereof;
5. Limitations on the purposes to which the proceeds from the sale of the bonds may be applied, and limitations pledging the proceeds to secure the payment of the bonds;
6. Limitations on the issuance of additional bonds, the terms on which additional bonds may be issued and secured, and the refunding of outstanding or other bonds;
7. The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds, if any, the holders of which must consent thereto, and the manner in which any consent may be given;
8. Limitations on the amount of money to be expended by the Authority for operating expenses of the Authority;
9. Vesting in a trustee or trustees any property, rights, powers and duties in trust that the Authority may determine, and limiting or abrogating the right of bondholders to appoint a trustee or limit the rights, powers and duties of the trustees;

10. Defining the acts or omissions which shall constitute a default, the obligations or duties of the Authority to the holders of the bonds, and the rights and remedies of the holders of the bonds in the event of default, including as a matter of right the appointment of a receiver; these rights and remedies may include the general laws of the Commonwealth and other provisions of this chapter;

11. Requiring the Authority or the trustees under the trust indenture to file a petition with the Governor and to take any and all other actions required under § [15.2-2659](#) or [62.1-216.1](#) to obtain payment of all unpaid sums on local obligations owned by the Authority or held by a trustee to which § [15.2-2659](#) or § [62.1-216.1](#) shall be applicable; and

12. Any other matter, of like or different character, relating to the terms of the bonds or the security or protection of the holders of the bonds.

1984, c. 699; 1986, c. 415; 1997, c. [319](#); 1998, c. [399](#); 2003, c. [561](#); 2011, c. [616](#).

§ 62.1-210.Pledge by Authority

Any pledge made by the Authority shall be valid and binding from the time when the pledge is made. The revenue, money or property so pledged and thereafter received by the Authority shall immediately be subject to the lien of such a pledge without any physical delivery thereof or further act.

Furthermore, the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether the parties have notice of the pledge. No recording or filing of the resolution authorizing the issuance of bonds or credit enhancements, the trust indenture securing bonds or any other instrument, including filings under Title 8.9A (§ [8.9A-101](#) et seq.) of the Uniform Commercial Code of Virginia, shall be necessary to create or perfect any pledge or security interest granted by the Authority to secure any bonds or credit enhancements.

1984, c. 699; 1998, c. [399](#).

§ 62.1-211.Purchase of bonds by Authority

The Authority, subject to such agreements with bondholders as may then exist, shall have the power to purchase bonds of the Authority out of any available funds, at any reasonable price. If the bonds are then redeemable, this price shall not exceed the redemption price then applicable plus accrued interest to the next interest payment date.

1984, c. 699.

§ 62.1-212.Bonds as negotiable instruments

Whether or not in form and character of negotiable instruments, the bonds of the Authority are hereby made negotiable instruments, subject only to provisions of the bonds relating to registration.

1984, c. 699.

§ 62.1-213.Validity of signatures of prior members or officers

In the event that any of the members of the board of directors or any officers of the Authority cease to be members or officers before the delivery of any bonds or credit enhancements signed by them, their signatures or authorized substitute signatures shall nevertheless be valid and sufficient for all purposes as if the members or officers had remained in office until delivery.

1984, c. 699; 1998, c. [399](#).

§ 62.1-214. Bondholder protection

Subsequent amendments to this chapter shall not limit the rights vested in the Authority with respect to any agreements made with, or remedies available to, the holders of bonds or the beneficiaries of credit enhancements issued under this chapter before the enactment of the amendments until the bonds, together with all premium and interest thereon, and the credit enhancements, and all costs and expenses in connection with any proceeding by or on behalf of the holders or the beneficiaries, are fully met and discharged.

1984, c. 699; 1998, c. [399](#).

§ 62.1-215. Establishment of capital reserve funds

A. 1. The Authority may create and establish one or more capital reserve funds and may pay into each capital reserve fund (i) any moneys appropriated and made available by the Commonwealth for the purpose of such a fund, (ii) any proceeds of the sale of bonds of the Authority, to the extent provided in the resolution authorizing the issuance of, or the trust indenture securing, the bonds, and (iii) any other moneys which may be made available to the Authority for the purpose of such a fund from any other source. All moneys held in any capital reserve fund, except as hereinafter provided, shall be used solely for the payment when due of the principal of and premium, if any, and interest on the bonds or obligations under credit enhancements issued by the Authority secured in whole or in part by such a fund. If, however, moneys in any such fund are ever less than the minimum capital reserve fund requirement established for the fund, the Authority shall not use the moneys for any optional purchase or redemption of bonds. Any income or interest earned on, or increment to, any capital reserve fund due to its investment may be transferred by the Authority to other funds or accounts of the Authority to the extent it does not reduce the amount of the capital reserve fund below its minimal requirement.

2. The Authority shall not at any time issue bonds or credit enhancements secured in whole or in part by any capital reserve fund, if upon the issuance of the bonds or credit enhancements, the amount in the capital reserve fund will be less than its minimal requirement unless the Authority, at the time of issuance of the bonds or credit enhancements, deposits in the fund an amount which, together with the amount then in the fund, will not be less than the fund's minimal capital reserve requirement.

B. In order to assure further the maintenance of capital reserve funds, the chairman of the Authority shall annually, on or before December 1, make and deliver to the Governor and the Secretary of Administration a certificate stating the sum, if any, required to restore each capital reserve fund to its

minimal requirement. Within five days after the beginning of each session of the General Assembly, the Governor shall submit to the presiding officer of each House of the General Assembly printed copies of a budget including the sum, if any, required to restore each capital reserve fund to its minimal requirement. All sums, if any, which may be appropriated by the General Assembly for any restoration and paid to the Authority shall be deposited by the Authority in the applicable capital reserve fund. All amounts paid to the Authority by the Commonwealth pursuant to the provisions of this section shall constitute and be accounted for as advances by the Commonwealth to the Authority and, subject to the rights of the holders of any bonds of the Authority or the beneficiaries of credit enhancements of the Authority, shall be repaid to the Commonwealth without interest from available operating revenues of the Authority in excess of amounts required for the payment of bonds, credit enhancements or other obligations of the Authority, the maintenance of capital reserve funds, and operating expenses. In addition, no bonds issued by the Authority to finance a professional sports facility shall be secured by a capital reserve fund.

C. The Authority may create and establish other funds as necessary or desirable for its corporate purposes.

D. Nothing in this section shall be construed as limiting the power of the Authority to issue bonds or credit enhancements not secured by a capital reserve fund.

1984, c. 699; 1998, c. [399](#); 2000, c. [790](#).

§ 62.1-216. Purchase and credit enhancements of local obligations

The Authority shall have the power and authority, with any funds of the Authority available for such a purpose, to purchase and acquire, on terms which the Authority determines, local obligations to finance or refinance the cost of any project. The Authority may pledge to the payment of any bonds all or any portion of the local obligations so purchased. The Authority may also, subject to any such pledge, sell any local obligations so purchased and apply the proceeds of such a sale to the purchase of other local obligations for financing or refinancing the cost of any project or for any other corporate purpose of the Authority.

The Authority shall also have the power and authority to issue credit enhancements, on terms which the Authority determines, to credit enhance local obligations issued to finance or refinance the cost of any project.

The Authority may require, as a condition to the purchase or credit enhancement of any local obligations, that the local government issuing the local obligations covenant to perform any of the following:

A. Establish and collect rents, rates, fees and charges to produce revenue sufficient to pay all or a specified portion of (i) the costs of operation, maintenance, replacement, renewal and repairs of the project; (ii) any outstanding indebtedness incurred for the purposes of the project, including the

principal of and premium, if any, and interest on the local obligations; and (iii) any amounts necessary to create and maintain any required reserve, including any rate stabilization fund deemed necessary or appropriate by the Authority to offset the need, in whole or part, for future increases in rents, rates, fees or charges;

B. Create and maintain a special fund or funds for the payment of the principal of and premium, if any, and interest on the local obligations and any other amounts becoming due under any agreement entered into in connection with the local obligations, or for the operation, maintenance, repair or replacement of the project or any portions thereof or other property of the local government, and deposit into any fund or funds amounts sufficient to make any payments as they become due and payable;

C. Create and maintain other special funds as required by the Authority; and

D. Perform other acts, including the conveyance of real and personal property together with all right, title and interest therein to the Authority, or take other actions as may be deemed necessary or desirable by the Authority to secure payment of the principal of and premium, if any, and interest on the local obligations or obligations to the Authority with respect to any credit enhancement and to provide for the remedies of the Authority or other holder of the local obligations in the event of any default by the local government in the payment, including, without limitation, any of the following:

1. The procurement of credit enhancements or liquidity arrangements for local obligations from any source, public or private, and the payment therefor of premiums, fees or other charges.
2. The payment of the allocable shares of the local governments, as determined by the Authority, of any costs, fees, charges or expenses attributable to liquidity arrangements incurred in connection with the issuance of bonds by the Authority to acquire local obligations of one or more local governments. The determination of such allocable shares may be made by the Authority on any reasonable basis.
3. The combination of one or more projects, or the combination of one or more projects with one or more other undertakings, facilities, utilities or systems, for the purpose of operations and financing, and the pledging of the revenues from such combined projects, undertakings, facilities, utilities and systems to secure local obligations issued in connection with such combination or any part or parts thereof.
4. The payment of the allocable shares of the local governments, as determined by the Authority on any reasonable basis, of rate stabilization funds established or required by the Authority in connection with the issuance of bonds by the Authority to acquire or provide credit enhancement for local obligations of two or more local governments.

All local governments issuing and selling local obligations to the Authority or to be credit enhanced by the Authority are authorized to perform any acts, take any action, adopt any proceedings and make

and carry out any contracts with the Authority that are contemplated by this chapter. Such contracts need not be identical among all participants in financings of the Authority, but may be structured as determined by the Authority according to the needs of the contracting local governments and the Authority.

To the extent permitted by law for local obligations issued after July 1, 2003, local governments may enter into agreements with the Authority that provide for a local government to consider and make appropriations from the following: (i) funds or revenues from service districts created under Chapter 24 (§ [15.2-2400](#) et seq.) of Title 15.2, (ii) funds or revenues accumulated and held by the local government, or (iii) any funds or revenues to be received or generated by the local government in amounts sufficient to pay all or a specified portion of the amounts set forth in subsection A or to make deposits into the special fund or funds provided for in subsections B and C and to pledge and apply the amounts so appropriated for such purposes.

§ 62.1-216.1. Investigation by Governor of nonpayments; withholding state funds from nonpaying locality; payment of funds withheld; receipts, reports, etc

Whenever it appears to the Governor from an affidavit filed with him by the Authority as the purchaser, holder, or credit enhancer of local obligations (regardless of the security therefor) issued by any county, city or town that a payment has not been made on any local obligations, the Governor shall immediately make a summary investigation into the facts set forth in the affidavit. The Authority may, but shall not be required to, file such an affidavit unless the Authority has otherwise contracted to make such filing for the benefit of the holders of any of its bonds or the local obligations credit enhanced by it. The affidavit described in this section may be filed by a trustee to which the Authority has assigned the local obligations or the payment thereon as security for bonds of the Authority under a resolution or trust indenture or otherwise.

If it is established to the satisfaction of the Governor that such nonpayment has occurred, the Governor shall immediately make an order directing the Comptroller to withhold all further payment to the county, city or town of all funds, or of any part of them, appropriated and payable by the Commonwealth to the county, city or town for any and all purposes, until the unpaid sum is obtained. The Governor shall, while the nonpayment continues, direct in writing the payment of all sums withheld by the Comptroller, or as much of them as is necessary, to the Authority, so as to cure, or cure insofar as possible, nonpayment on the local obligations.

The Governor shall, as soon as practicable, give notice of the nonpayment and of the availability of funds with the Comptroller in writing to the Authority. Any payment so made by the Comptroller to the Authority shall be credited as if made directly by the county, city or town and shall be charged by the Comptroller against the first appropriations otherwise payable to the county, city or town as if paid to

the county, city or town. The Authority, at the time of payment or at the time of each payment shall receipt for the payment and deliver to the Comptroller all local obligations or other instruments or documents, in a form satisfactory to the Comptroller, evidencing the Authority's right to receive the amounts satisfied by the payment. The Comptroller shall report each payment made to the governing body of the nonpaying county, city or town and deliver or send by registered mail to the governing body all local obligations, or other instruments or documents received by the Comptroller under the provisions of this section.

Nothing in this section shall be construed to create any obligation on the part of the Comptroller or the Commonwealth to make any payment on behalf of the nonpaying county, city or town other than from funds appropriated and payable to the nonpaying county, city or town.

§ 62.1-217.Grants from Commonwealth

The Commonwealth may make grants of money or property to the Authority for the purpose of enabling it to carry out its corporate purposes and for the exercise of its powers, including deposits to the capital reserve funds. This section shall not be construed to limit any other power the Commonwealth may have to make grants to the Authority.

1984, c. 699.

§ 62.1-218.Grants to local governments

The Authority shall have the power and authority, with any funds of the Authority available for this purpose, to make grants to local governments. In determining which local governments are to receive grants, the Department of Environmental Quality, the Department of Health, the Department of Housing and Community Development, and the Virginia Waste Management Board shall assist the Authority in determining needs for wastewater treatment facilities; water supply facilities; solid waste treatment, disposal, or management facilities; housing, including housing for persons and families of low and moderate income; or recycling facilities, and the method and form of such grants.

§ 62.1-219.Exemption from taxation

As set forth in § [62.1-200](#), the Authority will be performing an essential governmental function in the exercise of the powers conferred upon it by this chapter. Accordingly, the Authority shall not be required to pay any taxes or assessments upon any project or any property or upon any operations of the Authority or the income therefrom, or any taxes or assessments upon any project or any property or local obligation acquired, credit enhanced or used by the Authority under the provisions of this chapter or upon the income therefrom. Any bonds and credit enhancements issued by the Authority under the provisions of this chapter, the transfer thereof and the income therefrom, including any profit

on the sale thereof, shall at all times be free from taxation and assessment of every kind by the Commonwealth and by the local governments and other political subdivisions of the Commonwealth.

§ 62.1-220. Bonds as legal investments and securities

The bonds issued by the Authority in accordance with the provisions of this chapter are declared to be legal investments in which all public officers or public bodies of the Commonwealth, its political subdivisions, all municipalities and municipal subdivisions; all insurance companies and associations and other persons carrying on insurance business; all banks, bankers, banking associations, trust companies, savings banks, savings associations, including savings and loan associations, building and loan associations, investment companies, and other persons carrying on a banking business; all administrators, guardians, executors, trustees and other fiduciaries; and all other persons who are now or may hereafter be authorized to invest in bonds or other obligations of the Commonwealth, may invest funds, including capital, in their control or belonging to them. The bonds of the Authority are also hereby made securities which may be deposited with and received by all public officers and bodies of the Commonwealth or any agency or political subdivision of the Commonwealth and all municipalities and public corporations for any purpose for which the deposit of bonds or other obligations of the Commonwealth is now or may be later authorized by law.

1984, c. 699.

§ 62.1-221. Deposit of money; expenditures; security for deposits

A. All money of the Authority, except as otherwise authorized by law or provided in this chapter, shall be deposited in an account or accounts in banks or trust companies organized under the laws of the Commonwealth or in national banking associations located in Virginia or in savings institutions located in Virginia organized under the laws of the Commonwealth or the United States. The money in these accounts shall be paid by check signed by the Executive Director or other officers or employees and designated by the Authority. All deposits of money shall, if required by the Authority, be secured in a manner determined by the Authority to be prudent, and all banks, trust companies and savings institutions are authorized to give security for the deposits.

B. Notwithstanding the provisions of subsection A the Authority shall have the power to contract with the holders of any of its bonds as to the custody, collection, securing, investment and payment of any money of the Authority and of any money held in trust or otherwise for the payment of bonds and to carry out such a contract. Money held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of money may be secured in the same manner as money of the Authority, and all banks and trust companies are authorized to give security for the deposits.

C. Subject to the provisions of subsection B hereof, funds of the Authority not needed for immediate use or disbursement, including any funds held in reserve, may be invested in (i) obligations or

securities which are considered lawful investments for fiduciaries, both individual and corporate, as set forth in § [2.2-4519](#), (ii) bankers' acceptances, or (iii) repurchase agreements, reverse repurchase agreements, rate guarantee or investment agreements or other similar banking arrangements.

D. Whenever investments are made in accordance with this section, no director, officer or employee of the Authority shall be liable for any loss therefrom in the absence of negligence, malfeasance, misfeasance or nonfeasance on his part.

§ 62.1-222. Annual reports; audit

The Authority shall, following the close of each fiscal year, submit an annual report on or before December 1 of its activities for the preceding year to the Governor and General Assembly. Each report shall set forth a complete operating and financial statement for the Authority during the fiscal year it covers. An independent certified public accountant or the Auditor of Public Accounts shall perform an audit of the books and accounts of the Authority at least once in each fiscal year.

§ 62.1-223. Liberal construction of chapter

The provisions of this chapter shall be liberally construed to the end that its beneficial purposes may be effectuated. No proceedings, notice or approval shall be required for the issuance of any bonds of the Authority or any instruments or the security thereof, except as provided in this chapter. Insofar as the provisions of this chapter are inconsistent with the provisions of any other law, general, special or local, the provisions of this chapter shall be controlling.

§ 3. Definitions.

As used in this Act, the following words and terms shall have the following meanings, unless the context requires a different meaning:

"Authority" means the Authority created under the provisions of this Act, or, if the Authority is abolished, the board, body or commission succeeding to the principal functions thereof or to whom the powers given by this Act to the Authority are given by law.

§ 4. Creation of the Authority.

A. The governing body of the municipality may by resolution signify its determination to organize an authority under the provisions of this Act. Such resolution may be adopted only after a public hearing thereon, notice of which hearing shall be given by publication at least once, not less than ten days prior to the date fixed for such hearing, in a newspaper having a general circulation in the municipality. Such notice shall contain a brief statement of the substance of the proposed resolution, shall set forth the proposed articles of incorporation of the Authority and shall state the time and place of the public hearing to be held thereon. Such municipality shall not be required to make any other publication of such resolution under the provisions of any other law.

B. Such resolution shall include articles of incorporation which shall set forth:

1. The name of the Authority;
2. A statement that such Authority is organized under this Act;
3. The name of the organizing municipality; and
4. The names and addresses of the first members of the Authority appointed by the organizing municipality.

Richmond Director of Finance, both of whom shall serve during the time they hold such offices. The successor of each member of the Authority shall be appointed for a term of two years (except the two city officers); any person appointed to fill a vacancy shall be appointed to serve only for the unexpired term and any member of the Authority may be reappointed.

Each member of the Board before entering upon his duties shall take and subscribe an oath or affirmation to support the Constitution of the United States and of the Commonwealth and to discharge faithfully the duties of his office, and a record of each such oath shall be filed with the Secretary of the Board.

The Board shall select from its membership one of its members as Chairman and another as Vice Chairman and shall also select a Secretary and a Treasurer who may, but need not, be members of the Authority. The offices of Secretary and Treasurer may be combined. A majority of the members of the Board shall constitute a quorum and the affirmative vote of a majority of all of the members of the Board shall be necessary for any action taken by the Authority. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all of the duties of the Authority. The members of the Board shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties, excepting city officers. (1991, c. 431)

§ 6. General grant of powers.

The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health, safety and welfare, and such Authority is hereby authorized and empowered to:

1. Provide emergency ambulance service originating in the city, nonemergency service within the Commonwealth, and mutual aid to other jurisdictions upon request of such jurisdictions and conduct such other activities as may be reasonably related to doing so, subject to such restrictions as may be imposed by Article 2.1 (§ [32.1-111.1](#) et seq.) of Chapter 4 of Title 32.1 or other state law or regulation;

5. Sue and be sued in its own name, plead and be impleaded;
6. Purchase, lease, equip, maintain, repair and operate motor vehicles, equipment and facilities within the corporate limits of the organizing municipality deemed necessary to perform its functions;

7. Fix and revise from time to time and charge and collect rates, rentals, fees and other charges for the services and facilities furnished by such Authority;
8. Acquire in the name of the Authority by gift, or lease-purchase, any motor vehicles and equipment, and to acquire such other personal property, as it may deem necessary in connection with the performance of its functions;
9. Lease all or any part of such motor vehicles, equipment and facilities upon such terms and conditions and for such term of years as it may deem advisable to carry out the provisions of this Act;
10. Make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this Act; and employ such financial experts, accountants and attorneys and such employees and agents as may, in the judgment of the Authority, be deemed necessary, and fix their compensation; however, all such expenses shall be payable solely from funds made available under the provisions of this Act;

§ 7. Revenues.

The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times to pay the cost of maintaining, repairing and operating the motor vehicles, equipment and facilities or parts thereof owned or operated by the Authority, including reserves for such purposes. Notwithstanding any of the foregoing provisions of this section, the Authority may enter into contracts relating to use of the services and motor vehicles, equipment and facilities of the Authority on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1991, c. 431)

§ 8. Exemption from taxation.

As services provided by the Authority are essential to the health, safety and general welfare of the public, and as the exercise of the powers conferred by this Act to effect such purposes constitute the

performance of essential governmental functions, and as motor vehicles, equipment and facilities acquired or operated under the provisions of this Act are necessary for the performance of essential governmental functions, and as such constitute public property and are used for governmental purposes, the Authority shall not be required to pay any taxes or assessments upon any such motor vehicles, equipment and facilities or any part thereof, or upon the income therefrom (including any profit made on the sale thereof), which shall at all times be free from taxation within the Commonwealth. (1991, c. 431)

§ 9. Contributions.

The municipality is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this Act from any available moneys for any purpose of the Authority. The municipality is hereby further authorized to enter into agreements with the Authority obligating the municipality to pay the Authority any part or all of the moneys as may be mutually agreed necessary or desirable to ensure the successful operation of the Authority or to cover an Authority deficit. (1991, c. 431)

§ 10. Actions taken by Authority.

§ 11. Severability.

The provisions of this Act are severable, and if any of its provisions are held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions. (1991, c. 431)

§ 12. Construction.

This Act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purpose thereof. (1991, c. 431)

Vacancies in the membership of the board of directors shall be filled in the same manner as the original appointment for the unexpired portion of the term. The board of directors so appointed shall enter upon the performance of its duties and shall initially and annually elect a chairman and a vice-chairman from its membership and shall also elect annually a secretary or secretary-treasurer, who need not be a member of the board of directors. The chairman, or in his absence the vice-chairman, shall preside at all meetings of the board of directors, and in the absence of both the chairman and vice-chairman, the board of directors shall elect a

chairman pro tempore who shall preside at such meetings. Nine directors shall constitute a quorum, and all action by the board of directors shall require the affirmative vote of a majority of the directors present and voting. The members of the board of directors shall be entitled to reimbursement for expenses incurred in attendance upon meetings of the board of directors or while otherwise engaged in the discharge of their duties, and each member shall also be paid the sum of \$50 per day for each day or portion thereof during which he is engaged in the performance of his duties. Such expenses and compensation shall be paid out of the treasury of the Authority in such manner as shall be prescribed by the Authority. No member of the Board shall receive health insurance, dental insurance, retirement benefits, or other such benefits as compensation for his service on the Board.

§ 33.2-2902. Powers of the Richmond Metropolitan Transportation Authority

In order to alleviate highway congestion; promote highway safety; expand highway construction; increase the utility and benefits and extend the services of public highways, including bridges, tunnels, and other highway facilities, both free and toll; and otherwise contribute to the economy, industrial and agricultural development, and welfare of the Commonwealth and the City of Richmond and the Counties of Henrico and Chesterfield, the Authority shall have the following powers:

1. To contract and be contracted with, to sue and be sued, and to adopt, use, and alter at its pleasure a seal;
2. To acquire and hold real or personal property necessary or convenient for its purposes;
3. To sell, lease, or otherwise dispose of any personal or real property or rights, easements, or estates therein deemed by the Authority not necessary for its purposes;
4. With the approval of the Mayor and the Council of the City of Richmond and the Boards of Supervisors of the Counties of Henrico and Chesterfield, to purchase, construct, or otherwise acquire ownership of or rights to manage limited access highways within the corporate limits of the City of Richmond and the Counties of Chesterfield and Henrico, including all bridges, tunnels, overpasses, underpasses, grade separations, interchanges, entrance plazas, approaches, tollhouses, administration buildings, storage buildings, and other buildings and facilities, and rights or licenses to operate existing toll roads that the Authority may deem necessary or convenient for the operation of such limited access highways. Title to any property acquired by the Authority shall be taken in the name of the Authority. Without the need of approval from such local governing bodies, the Authority may maintain, repair, and operate, or cause to be repaired, maintained, and operated, such limited access highways and related facilities;
5. With the approval of the Mayor and the City Council of the City of Richmond and the Boards of Supervisors of the Counties of Henrico and Chesterfield, to own, operate, maintain, and provide rapid and other transit facilities and services for the transportation of the public; to enter into contracts with

the City and the County or Counties and any public service corporations doing business as common carriers of passengers and property for the use of Authority facilities for such purpose; to enter into contracts for the transportation of passengers and property over facilities of localities other than those controlled by the Authority, as well as the property and facilities of the Authority; and to construct, acquire, operate, and maintain any other properties and facilities, including such offices and commercial facilities in connection therewith as are deemed necessary or convenient by the Authority, for the relief of traffic congestion, to provide vehicular parking, to promote transportation of persons and property, or to promote the flow of commerce that the City Council of the City of Richmond and the Boards of Supervisors of the Counties of Chesterfield and Henrico may request the Authority to provide;

6. With the approval of the Mayor and the City Council of the City of Richmond and the Boards of Supervisors of the Counties of Henrico and Chesterfield, to acquire land; to construct, own, and operate sports facilities of any nature, including facilities reasonably related thereto; to construct, own, and operate coliseums and arenas, including facilities reasonably related thereto; to own a baseball stadium of sufficient seating capacity and quality for the playing of baseball at the level immediately below Major League Baseball; and to lease such land, stadium, sports facilities, coliseums, arenas, and attendant facilities under such terms and conditions as the Authority may prescribe. In the event of a conflict between the provisions of this subdivision and any bond indenture to which the Authority is subject, the provisions of the bond indenture shall be controlling;

7. To acquire by the exercise of the power of eminent domain any lands, property rights, rights-of-way, franchises, easements, and other property, including public lands, parks, playgrounds, reservations, highways, or parkways, or parts thereof or rights therein, of any person, partnership, association, railroad, public service, public utility, or other corporation, or of any municipality, county, or other political subdivision, deemed necessary or convenient for the construction or the efficient operation of a project or necessary in the restoration, replacement, or relocation of public or private property damaged or destroyed whenever a reasonable price cannot be agreed upon with the governing body of such municipality, county, or other political subdivision as to such property owned by it or whenever the Authority cannot agree on the terms of purchase or settlement with the other owners because of the incapacity of such owners, because of the inability to agree on the compensation to be paid or other terms of settlement or purchase, or because such owners are nonresidents of the Commonwealth, are unknown, or are unable to convey valid title to such property. Such proceedings shall be in accordance with and subject to the provisions of any and all laws of the Commonwealth applicable to the exercise of the power of eminent domain in the name of the Commissioner of Highways and subject to the provisions of § [25.1-102](#) as fully as if the Authority were a corporation possessing the power of eminent domain. Title to any property condemned by the Authority shall immediately vest in the Authority, and the Authority shall be entitled to the immediate possession of

such property upon the deposit with the clerk of the court in which such condemnation proceedings are originated of the total amount of the appraised price of the property and court costs and fees as provided by law, notwithstanding that any of the parties to such proceedings shall appeal from any decision in such condemnation proceeding. Whenever the Authority makes such deposit in connection with any condemnation proceeding, the making of such deposit shall not preclude the Authority from appealing any decision rendered in such proceedings. Upon the deposit with the clerk of the court of the appraised price, any person entitled thereto may, upon petition to the court, be paid his or their pro rata share of 90 percent of such appraised price. The acceptance of such payment shall not preclude such person from appealing any decision rendered in such proceedings. If the appraisement is greater or less than the amount finally determined by the decision in such proceeding or by an appeal, the amount of the increase or decrease shall be paid by or refunded to the Authority.

The terms "appraised price" and "appraisement" as used in this subdivision mean the value determined by two competent real estate appraisers appointed by the Authority for such purposes.

The acquisition of any such property by condemnation or by the exercise of the power of eminent domain shall be and is hereby declared to be a public use of such property;

8. To determine the location of any limited access highways constructed or acquired by the Authority, subject to the approval of the Commonwealth Transportation Board, and to determine the design standards and materials of construction of such highways;

9. To designate, with the approval of the Commonwealth Transportation Board, the location in the City of Richmond and in the Counties of Henrico and Chesterfield and establish, limit, and control points of ingress to and egress from any limited access highway constructed by the Authority within the corporate limits of the City of Richmond and the Counties of Henrico and Chesterfield as may be necessary or desirable in the judgment of the Authority to insure the proper operation and maintenance of such highway; to prohibit entrance to and exit from such highway from any point not so designated; and to construct, maintain, repair, and operate service roads connecting with points of ingress to and egress from such highway at such locations in the City of Richmond and in the Counties of Henrico and Chesterfield as may be designated by the Authority;

10. To make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this chapter, including contracts or agreements authorized by this chapter with the Commonwealth Transportation Board, the City of Richmond, and the Counties of Henrico and Chesterfield;

11. To construct grade separations at intersections of any limited access highway constructed by the Authority with public highways or other public ways or places and to change and adjust the lines and grades thereof so as to accommodate the same to the design of the grade separation. The cost of such grade separations and any damage incurred in changing and adjusting the lines and grades of

such highways, ways, and places shall be ascertained and paid by the Authority as a part of the cost of such highway;

12. To vacate or change the location of any portion of any public highway or other public way or place, public utility, sewer, pipe, main, conduit, cable, wire, tower, pole, and other equipment and appliance of the Commonwealth, of the City of Richmond, or of the Counties of Henrico and Chesterfield, and to reconstruct the same in such new location as shall be designated by the Authority and of substantially the same type and in as good condition as the original highway, street, way, place, public utility, sewer, pipe, main, conduit, cable, wire, tower, pole, equipment, or appliance, with the cost of such reconstruction and any damage incurred in vacating or changing the location thereof ascertained and paid by the Authority as a part of the cost of the project in connection with such expenditures. Any public highway or other public way or place vacated or relocated by the Authority shall be vacated or relocated in the manner provided by law for the vacation or relocation of public highways, and any damages awarded on account thereof shall be paid by the Authority as a part of the cost of the project;

13. To enter upon any lands, waters, and premises for the purpose of making such surveys, soundings, borings, and examinations as the Authority may deem necessary or convenient for its purposes. Such entry shall not be deemed a trespass, nor shall an entry for such purposes be deemed an entry under any condemnation proceeding; however, the Authority shall pay any actual damage resulting to such lands, water, and premises as a result of such entry and activities;

14. To operate or permit the operation of vehicles for the transportation of persons or property for compensation on any limited access highway constructed or acquired by the Authority, provided that the Department of Motor Vehicles or the Federal Motor Carrier Safety Administration shall not be divested of jurisdiction to authorize or regulate the operation of such carriers;

15. To establish reasonable regulations for the installation, construction, maintenance, repair, renewal, relocation, and removal of pipes, mains, sewers, conduits, cables, wires, towers, poles, and other equipment and appliances (public utility facilities) of the City of Richmond and the Counties of Henrico and Chesterfield and of public utility and public service corporations and of any person, firm, or other corporation rendering similar services, owning or operating public utility facilities in, on, along, over, or under highways constructed by the Authority. Whenever the Authority shall determine that it is necessary that any public utility facilities should be relocated or removed, the Authority may relocate or remove the public utility facilities in accordance with the regulations of the Authority, and the cost and expense of such relocation or removal, including the cost of installing the public utility facilities in a new location and the cost of any lands or any rights or interests in lands and any other rights acquired to accomplish such relocation or removal, shall be paid by the Authority as a part of the cost of such highway. The owner or operator of the public utility facilities may maintain and operate the public utility facilities with the necessary appurtenances in the new location for as long a period and

upon the same terms and conditions as it had the right to maintain and operate the public utility facilities in the former location;

16. With the approval of the Mayor and the Council of the City of Richmond and the Boards of Supervisors of the Counties of Henrico and Chesterfield, to borrow money and issue bonds, notes, or other evidences of indebtedness for any of its corporate purposes, such bonds, notes, or other evidences of indebtedness to be payable solely from the revenues or other unencumbered funds available to the Authority that are pledged to the payment of such bonds, notes, or other evidences of indebtedness;

17. To fix, charge, and collect fees, tolls, rents, rates, and other charges for the use of Authority facilities and the parts or sections thereof;

18. To establish rules and regulations for the use of any Authority facilities as may be necessary or expedient in the interest of public safety with respect to the use of Authority facilities and property under the control of the Authority;

19. To employ consulting engineers, attorneys, accountants, construction and financial experts, superintendents, managers, trustees, depositaries, paying agents, and such other employees and agents as may be necessary in the discretion of the Authority to construct, acquire, maintain, and operate Authority facilities and to fix their compensation;

20. To receive and accept from any federal agency for or in aid of the construction of any Authority facility or for or in aid of any Authority undertaking authorized by this chapter, and to receive and accept from the Commonwealth, the City of Richmond, or the Counties of Henrico and Chesterfield and from any other source, grants, contributions, or other aid in such construction or undertaking, or for operation and maintenance, either in money, property, labor, materials, or other things of value; and

21. To do all other acts and things necessary or convenient to carry out the powers expressly granted in this chapter.

§ 33.2-2903. Issuance of revenue bonds

The Authority is hereby authorized to provide by resolution for the issuance of revenue bonds of the Authority for the purpose of paying all or any part of the cost of Authority facilities or any project or portion of such facilities. The principal of and interest on such bonds shall be payable solely from the revenues pledged for such payment. The bonds of each issue or series shall be dated, shall bear interest at such rate or rates not exceeding six percent per year, shall mature at such time or times not exceeding 50 years from the date or dates thereof, as may be determined by the Authority, and may contain provisions reserving the right of the Authority to redeem such bonds before maturity at such price or prices and upon such terms and conditions as may be fixed by the Authority in the resolution

authorizing such bonds. Such bonds may be issued in coupon form, registered form, or both as prescribed by the Authority, and provisions may be made for the registration of coupon bonds as to principal only or as to both principal and interest and for the reconversion of registered bonds into coupon bonds. Such bonds may be issued in any denomination and may be made payable at any bank or trust company within or without the Commonwealth as the Authority may determine. Such bonds and the coupons attached to coupon bonds shall be signed in such manner either manually or by facsimile signature, as shall be determined by the Authority, and sealed with the seal of the Authority or a facsimile thereof. In case any officer whose signature or facsimile thereof shall appear on any bond or coupon shall cease to be such officer before the delivery of such bonds, such signature or such facsimile signature shall nevertheless be valid and sufficient for all purposes, the same as if such officer or officers had remained in office until the delivery thereof. The Authority may sell such bonds in such manner either at public or private sale and for such price or prices as the Authority may determine, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than six percent per year, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding from such computation the amount of any premium to be paid on the redemption of any bond prior to maturity. Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bond that has become mutilated, destroyed, or lost.

2009, c. [471](#), § 15.2-7003; 2014, c. [805](#).

§ 33.2-2904. Rates and charges

Whenever the Authority has constructed or otherwise acquired Authority facilities and has issued bonds for such purpose, the Authority shall fix, revise, charge, and collect fees, tolls, rents, rates, and other charges for the use of such facilities and the different parts or sections thereof, sufficient, together with any other moneys made available and used for that purpose, to pay the principal of and interest on such bonds, together with reserves for such purposes, and to maintain and operate such facilities and to keep the same in good condition and repair. Such fees, tolls, rents, rates, and other charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or of any municipality, county, or other political subdivision of the Commonwealth, and all revenues, when collected, and the proceeds from the sale of revenue bonds, shall be held by the Authority in trust for the benefit of the holders of bonds of the Authority issued for the construction or acquisition of Authority facilities and for properly maintaining, operating, and repairing the Authority facilities.

Revenue bonds issued under the provisions of this chapter shall not be deemed to constitute a debt of the Commonwealth, the City of Richmond, the County of Henrico, or the County of Chesterfield or a

pledge of the full faith and credit of the Commonwealth, the City of Richmond, the County of Henrico, or the County of Chesterfield and shall be payable solely from the funds provided therefor from revenues.

§ 33.2-2905. Use of state highway maintenance and construction funds for Authority facilities

Until all bonds of the Authority, including refunding bonds, and the interest thereon are paid in full, the Commonwealth Transportation Board may use any part of funds available for the maintenance of state highways in the highway construction district in which the Authority's facilities are wholly or partly located to provide for such portion of the operation, maintenance, and repair of the facilities of the Authority as is deemed in the public interest; however, no part of such funds shall be used for the facilities of the Authority unless the fees, tolls, rents, rates, and other charges for the use thereof are not sufficient to make the required payments of principal and interest on the outstanding revenue bonds issued in connection therewith, and to operate, maintain, and repair the same.

2009, c. [471](#), § 15.2-7005; 2014, c. [805](#).

§ 33.2-2906. Refunding bonds

The Authority is hereby authorized by resolution to provide for the issuance of refunding revenue bonds with which to refund outstanding revenue bonds or any issue or series of such outstanding bonds, which refunding revenue bonds may be issued at or before the maturity or redemption date of the bonds to be refunded, and to include different issues or series of such outstanding revenue bonds by a single issue of refunding revenue bonds, and to issue refunding revenue bonds to pay any redemption premium and interest to accrue and become payable on the outstanding revenue bonds being refunded to the date of payment or redemption, and to establish reserves for such refunding revenue bonds. Such refunding revenue bonds shall be payable solely from all or that portion of the revenues of the Authority facilities pledged to the payment thereof in the bond resolution pursuant to which such bonds were issued. Such refunding revenue bonds may, in the discretion of the Authority, be exchanged at par for the revenue bonds that are being refunded or may be sold at public or private sale in such manner and at such price as the Authority shall deem for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than six percent per year, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding from such computation the amount of any premium to be paid on the redemption of any bonds prior to maturity, and may be issued and delivered at any time prior to the date of redemption or maturity date of the bonds to be refunded as the Authority determines to be in the best interests of the Authority. The interest rate or rates on refunding revenue bonds shall not be limited by the interest rate or rates borne by any of the revenue bonds to be refunded thereby. The proceeds derived from the sale of refunding revenue bonds issued under this chapter shall be invested in obligations of or guaranteed by the

United States government pending the application of such proceeds to the purpose for which such refunding revenue bonds have been issued. To further secure such refunding revenue bonds, the Authority may contract with the purchasers thereof with respect to the safekeeping and application of the proceeds thereof and the safekeeping and application of the earnings of such investments. The determination of the Authority with respect to the financial soundness and advantage of the issuance and delivery of refunding revenue bonds authorized under this chapter shall be conclusive, but nothing contained in this section shall require the holders of any outstanding revenue bonds being refunded to accept payment thereof otherwise than as provided in the outstanding bonds.

2009, c. [471](#), § 15.2-7006; 2014, c. [805](#).

§ 33.2-2907. Trust agreement

In the discretion of the Authority, any bonds issued under the provisions of this chapter may be secured by a trust agreement or indenture by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth, to be selected by the Authority in such manner as it may elect. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign all or any portion of the tolls and other revenues to be received by the Authority from the ownership and operation of Authority facilities, but shall not convey or mortgage any Authority facilities or any part thereof. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth that may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such resolution, trust agreement, or indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action by bondholders. In addition to the foregoing, any such resolution, trust agreement, or indenture may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the Authority facilities or portion thereof.

All or any portion of the revenues derived from the ownership and operation of Authority facilities, as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement or indenture securing such bonds, may be pledged to, and charged with, the payment of the principal of and the interest on such bonds as the payment shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust

agreement nor indenture by which a pledge is created need be filed or recorded except in the records of the Authority.

2009, c. [471](#), § 15.2-7007; 2014, c. [805](#).

§ 33.2-2908.Covenants to secure bonds

Any resolution authorizing the issuance of bonds of the Authority may, for the benefit and security of the holders of such bonds, contain covenants by the Authority for such a purpose, including covenants as to, among other things:

1. The operation, maintenance, and repair of the Authority facilities;
2. The purposes to which the proceeds of the sale of such bonds may be applied and the use and disposition thereof;
3. The use and disposition of the revenues of the Authority derived from the ownership or operation of Authority facilities and additions, improvements, and extensions thereof, including the investment thereof and the creation and maintenance of reserve funds and funds for working capital and all renewals and replacements to Authority facilities;
4. The amount, if any, of additional revenue bonds payable from such revenues that may be issued and the terms and conditions on which such additional revenue bonds may be issued;
5. Fixing, maintaining, collection, and deposit of fees, tolls, rents, rates, and other charges for all the services sold, furnished, or supplied by the Authority facilities;
6. The operation, maintenance, repair, management, accounting, and auditing of the Authority;
7. Limitations upon the right of the Authority to dispose of Authority facilities or any part thereof without providing for the payment of the outstanding revenue bonds;
8. The appointment of trustees, depositaries, and paying agents within or without the Commonwealth to receive, hold, disburse, invest, or reinvest the proceeds derived from the sale of revenue bonds and all or any part of the revenues derived by the Authority from the operation, ownership, and management of the Authority facilities; and
9. Such other covenants and agreements as may be determined necessary in the discretion of the Authority to advantageously market the revenue bonds of the Authority.

2009, c. [471](#), § 15.2-7008; 2014, c. [805](#).

§ 33.2-2909.Revenue bonds eligible for investment

Bonds issued by the Authority under the provisions of this chapter are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions and all insurance companies, trust companies, banks, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds,

including capital, in their control or belonging to them. Such bonds are also hereby made securities that may properly and legally be deposited with and received by any Commonwealth or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is or may be authorized by law.

2009, c. [471](#), § 15.2-7009; 2014, c. [805](#).

§ 33.2-2910. Authority obligations to be negotiable instruments; enforcement of bonds

Notwithstanding the provisions of this chapter, or any provision of law, any recital in any bond, any interim receipt, or any other obligation issued under the provisions of this chapter, all such bonds, interim receipts, or other obligations shall be deemed to be negotiable instruments under the laws of the Commonwealth. The provisions of this chapter, and of any resolution or indenture providing for the issuance and security of any revenue bonds, interim receipts, or other obligations issued pursuant to this chapter, shall constitute a contract with the holder of such revenue bonds, interim receipts, or other obligations, and the agreements and covenants of the Authority under this chapter and under such resolution, resolutions, or indentures shall be enforceable by any holder of revenue bonds, interim receipts, or other obligations issued under the provisions of this chapter and any representative of such holder, and any trustee appointed under the bond resolution and authorized to do so, may by suit, action, injunction, mandamus, or other proceeding issued by a court of competent jurisdiction enforce all rights of such holders under the laws of the Commonwealth or granted by this chapter and in any such bond resolution or indenture and may compel performance of all duties required to be performed by this chapter and by such bond resolutions or indenture by the Authority or by any officer or agent thereof, including the fixing, charging, and collecting of fees, tolls, rents, rates, and other charges for the use of the Authority facilities.

2009, c. [471](#), § 15.2-7010; 2014, c. [805](#).

§ 33.2-2911. Exemption from taxation

All property, real and personal, and all rights and interests therein and the income of the Authority, the revenue bonds and the interest thereon, and the transfer thereof and any profit made on the sale thereof, shall at all times be free from taxation or assessment by the Commonwealth and by any municipality, county, or other political subdivision thereof.

§ 33.2-2912. General powers of City of Richmond and Counties of Henrico and Chesterfield

The City of Richmond and the Counties of Henrico and Chesterfield may enter into and perform contracts or agreements with the Authority providing for furnishing to the Authority one or more of the following cooperative undertakings or any combination thereof:

2. The providing of engineering, planning and other professional and technical services, labor, or other things of value;

6. The making of payments or contributions to the Authority for the use of or in compensation for the services rendered by any Authority facility in lieu of the payment of tolls or other charges therefor, and such payments and contributions shall be deemed revenues of the project to the same extent as the tolls, rentals, fees, and other charges collected in the operation of the project;
7. When requested by the Authority, the vacating or changing of the location of any public highway or other public way or place or any portion thereof, public utility, sewer, pipe, main, conduit, cable, wire, tower, pole, or other equipment or appliance owned or controlled by or under the jurisdiction of either the City of Richmond or the County of Henrico or Chesterfield, in the manner required or authorized by law conferring such power on the City of Richmond or the County of Henrico or Chesterfield, and to construct the same in such new location as shall be designated by the governing body of the City of Richmond or the County of Henrico or Chesterfield, and the cost of vacating or changing the location or reconstruction thereof and any damages resulting therefrom required to be paid by the City of Richmond or County of Henrico or Chesterfield shall be reimbursed by the Authority as a part of the cost of the project in connection with which such expenditures have been made; and

§ 33.2-2913. Powers of City of Richmond and Counties of Henrico and Chesterfield with respect to revenue bonds issued by the Authority

A. The City of Richmond and the Counties of Henrico and Chesterfield each may enter into and perform contracts and agreements with the Authority to aid the Authority to pay the principal of and interest on revenue bonds or revenue refunding bonds issued by the Authority if, when, and as the revenues of the Authority may not be sufficient to pay such principal or interest when due. No such contract or agreement shall be deemed to be lending or granting credit to or in aid of any person, association, company, or corporation within the meaning of Section 10 of Article X of the Constitution

of Virginia, nor shall any such contract or agreement be deemed to be a pledge of the full faith and credit or of the taxing power of the City of Richmond, the County of Henrico, or the County of Chesterfield for the payment of such principal or interest except as may be otherwise provided in such contracts or agreements. Any holder of bonds, notes, certificates, or other evidences of borrowing issued by the Authority under the provisions of this chapter or of coupons appertaining thereto, and the representatives of such holders and the trustee under any bond resolution or indenture, may either at law or in equity, by suit, action, mandamus, or other proceeding, protect and enforce all rights of the Authority under or by virtue of any such contract or agreement.

B. Funds to perform any such contract or agreement may be provided by the City of Richmond, the County of Henrico, or the County of Chesterfield by appropriations of general or specific tax revenue, or by appropriations of accumulated funds allocated for public improvements generally, or allocated to the purposes of such contract or agreement, or by appropriations of the proceeds from the sale of bonds, which may be issued as provided in this chapter.

C. The City of Richmond, the County of Henrico, or the County of Chesterfield may issue bonds for the purpose of providing funds to perform any contract or agreement entered into with the Authority pursuant to the provisions of this chapter. Such bonds shall mature at such time not exceeding 40 years from their date, as may be determined by the governing body of the City of Richmond, the County of Henrico, or the County of Chesterfield issuing such bonds, and may be redeemable before maturity, at the option of the governing body of the City of Richmond, the County of Henrico, or the County of Chesterfield, at such price and under such terms and conditions as may be prescribed by such governing body prior to the issuance of the bonds. The City of Richmond, the County of Henrico, and the County of Chesterfield may provide for the issuance of refunding bonds for the purpose of refunding any outstanding bond that has been issued pursuant to the provisions of this subsection, including the payment of any redemption premium thereon, and any interest accrued or to accrue to the date of redemption of such bonds.

D. The authority of the City of Richmond, the County of Henrico, and the County of Chesterfield to contract and to issue bonds pursuant to this chapter is in addition to any existing authority to contract and issue bonds, anything in the laws of the Commonwealth, including the Charter of the City of Richmond, to the contrary notwithstanding, all of which laws and Charter are hereby amended or modified so as to effectuate the powers conferred by this chapter.

E. The governing bodies of the City of Richmond and of the Counties of Henrico and Chesterfield may exercise any of the powers granted by this chapter by resolution, and all proceedings of the City Council of the City of Richmond and the Boards of Supervisors of the Counties of Henrico and Chesterfield authorizing the execution of such contracts and providing for the issuance of bonds pursuant to the provisions of this chapter shall not be subject to the provisions of the Charter of the City or this Code permitting a referendum on actions taken by the City Council and Boards of

Supervisors except as required by the Constitution of Virginia, but all such proceedings shall take effect immediately upon the adoption thereof.

§ 33.2-2914. Powers of the Commonwealth Transportation Board

The Commonwealth Transportation Board may:

1. Enter into and perform contracts or agreements with the Authority to furnish it with surveys, engineering, borings, plans, and specifications and other technical services, reports, studies, and data, the cost of which shall be reimbursed by the Authority as a part of the cost of the project in connection with which such contracts or agreements were entered into;
2. Allocate to and for the construction, operation, or maintenance of any highways constructed by the Authority and pay to the Authority such funds as may be or become available to the Commonwealth Transportation Board for such purposes;
3. Permit the connection of any highways constructed or acquired by the Authority with highways under the control and jurisdiction of the Commonwealth Transportation Board; and
4. Employ independent consulting engineers having a nationwide and favorable reputé in estimating traffic over any such highways to determine whether the construction of such highways will result in substantial reduction in the volume of traffic over Interstate 95 and use funds under the control of the Commonwealth Transportation Board for that purpose.

2009, c. [471](#), § 15.2-7014; 2014, c. [805](#).

§ 33.2-2915. Acquisition of property

- A. The Authority may acquire, solely from funds provided under the provisions of this chapter, such lands, structures, properties, rights, rights-of-way, franchises, easements, and other interests in lands, including lands lying under water and riparian rights, as it may deem necessary or convenient for the construction and operation of Authority facilities, upon such terms and at such prices as may be considered by it to be reasonable and can be agreed upon between it and the owner thereof.
- B. The City of Richmond, the Counties of Henrico and Chesterfield, the Commonwealth Transportation Board, and, with the approval of the Governor, public agencies and commissions of the Commonwealth, notwithstanding any contrary provision of law, may lease, lend, grant, or convey to the Authority at its request upon such terms and conditions as the governing bodies of the City of Richmond, the Counties of Henrico and Chesterfield, the Commonwealth Transportation Board, or the proper authorities of such agencies or commissions of the Commonwealth may deem reasonable and fair and without the necessity of any advertisement, order of court, or other action or formality, other than the regular and formal action of the governing bodies or authorities concerned, any real property

that may be necessary or convenient for the effectuation of the authorized purposes of the Authority, including public highways and any other real property already devoted to public use.

C. The City of Richmond and the Counties of Henrico and Chesterfield may, subject to the provisions of § [25.1-102](#), acquire by the exercise of the power of eminent domain granted to or conferred upon them, and in accordance with the procedure prescribed therefor, any real property that may be necessary or convenient for the effectuation of the authorized purposes of the Authority and lease, lend, grant, or convey such property to the Authority upon such terms and conditions as the governing bodies of the City of Richmond or Counties of Henrico and Chesterfield may deem reasonable and fair; the acquisition of such real property by the exercise of the power of eminent domain and the disposition of the same to the Authority as provided in this section shall be and is declared to be for a public use of such property.

D. In any eminent domain proceedings by the Authority, the City of Richmond, or the County of Henrico or Chesterfield under this chapter, the court having jurisdiction of the suit, action, or proceeding may make such orders as may be just to the Authority, the City of Richmond, or the County of Henrico or Chesterfield and to the owners of the property to be condemned, and may require an undertaking or other security to secure such owners against any loss or damage by reason of the failure of the Authority, the City of Richmond, or the County of Henrico or Chesterfield to accept and pay for the property, or by reason of the taking of property occupied by such owners, but neither such undertaking or security nor any act or obligation of the Authority, the City of Richmond, or the County of Henrico or Chesterfield shall impose any liability upon the Commonwealth.

E. If the owner, lessee, or occupier of any property to be condemned or otherwise acquired pursuant to this chapter refuses to remove his property therefrom or give up possession thereof, the Authority, the City of Richmond, or the County of Henrico or Chesterfield may proceed to obtain possession in any manner provided by law.

F. When the Authority, the City of Richmond, or the County of Henrico or Chesterfield proposes to construct a highway across the tracks of any railroad, the exercise of the general power of eminent domain over the property of a railroad granted by § [33.2-2902](#) shall be limited with respect to the property, right-of-way, facilities, works, or appurtenances upon which the tracks at such proposed crossing are located, to the acquisition only of an easement therein, which crossing shall be constructed either sufficiently above or below the grade of any such railroad track so that neither the crossing then under construction nor any part thereof, including any bridge abutments, columns, supporting structures, and appurtenances, nor any traffic upon it shall interfere in any manner with the use, operation, or maintenance of the trains, tracks, works, or appurtenances of the railroad or interfere with or endanger the movement of the trains or traffic upon the tracks of the railroad. Prior to the exercise of the power of eminent domain for such an easement, plans and specifications of that portion of the project to be constructed across the railroad tracks showing compliance with such

requirements and showing sufficient and safe plans and specifications for such overhead or underground structure and appurtenances shall be submitted to the railroad for examination and approval. If the railroad fails or refuses within 30 days to approve the plans and specifications so submitted, the matter shall be submitted by the Authority, the City of Richmond, or the County of Henrico or Chesterfield to the State Corporation Commission, whose decision, arrived at after due consideration in accordance with its usual procedure, shall be final as to the sufficiency and safety of such plans and specifications and as to such elevations or distances above or below such tracks. The overhead or underground structures and appurtenances shall be constructed in accordance with such plans and specifications and in accordance with such elevations or distances above or below such tracks so approved by the railroad or the State Corporation Commission. A copy of the plans and specifications approved by the railroad or the State Corporation Commission shall be filed as an exhibit upon the institution of any proceeding brought in the exercise of the power of eminent domain.

G. The Commonwealth hereby consents, subject to the approval of the Governor, to the use by the Authority of any other lands or property owned by the Commonwealth, including lands lying under water, that are deemed by the Authority to be necessary for the construction or operation of any project being constructed by the Authority.

§ 33.2-2916. Transfer to City of Richmond

A. If the City of Richmond has rendered financial assistance or contributed in any manner to the cost of construction of a limited access highway by the Authority within or partly within and partly without the corporate limits of the City of Richmond, and the Authority has issued bonds for the construction of such limited access highway, then, when all such bonds, including refunding bonds, and the interest thereon have been paid or a sufficient amount of cash or United States government securities have been deposited and dedicated to the payment of all such bonds and the interest to the maturity or redemption date thereof in trust for the benefit of the holders of such bonds, all property, real and personal, acquired in connection with such limited access highway within the City of Richmond shall be transferred by the Authority to the City as compensation to the City for the financial assistance rendered by the City to the Authority in connection with the construction or acquisition of such limited access highway. Such highway shall upon the acceptance thereof by the City become a part of the street or highway system of the City and shall thereafter be maintained and operated as a limited access highway by the City. The governing body of the City of Richmond shall have the power to fix, revise, charge, and collect tolls for transit over such limited access highway and as compensation for other uses that may be made thereof. The proceeds from such tolls and compensation shall be first used to reimburse the City of Richmond and the Counties of Henrico and Chesterfield for any funds or expenditures made by each of them pursuant to contracts or agreements authorized by § [33.2-2913](#) for which reimbursement has not been made, and then for the operation, maintenance, improvement,

expansion, or extension of such limited access highway and to increase its utility and benefits and for the construction, reconstruction, maintenance, and operation of other projects or highways connected with such limited access highway or with the federal or state highway systems, and for such purpose the City of Richmond shall succeed to all the functions and shall have all the powers conferred on the Authority by this chapter.

B. If the Authority constructs a limited access highway project partly within and partly without the corporate limits of the City of Richmond, any extension thereof shall be constructed or acquired only when approved by the unanimous vote of all members of the board of directors or by a vote of three-fourths of the directors and approval by the City Council of the City of Richmond and the Boards of Supervisors of the Counties of Henrico and Chesterfield. If the Authority has issued bonds for the purpose of constructing such project or for the purpose of constructing or acquiring such extensions when all such bonds, including any refunding bonds, and the interest thereon have been paid or a sufficient amount of cash or United States government securities have been deposited and dedicated to the payment thereof in trust for the benefit of holders of such bonds, all property, real and personal, acquired in connection with such project or extension thereof not required to be transferred to the City of Richmond pursuant to subsection A shall be transferred by the Authority to the political subdivisions in which such property is located at the time of such transfer at no cost to such political subdivisions in the event the subdivisions adopt a resolution accepting such property. If not accepted by such subdivisions within 30 days from the offer of the property by the Authority, then the Authority shall transfer such property to the Commonwealth Transportation Board. If such property is accepted by the political subdivision where the property is located, the governing body of such subdivision shall have the power to fix, revise, charge, and collect tolls for transit over such limited access highway project or extension and as compensation for other uses that may be made thereof. The proceeds from such tolls and compensation shall be used first to reimburse the City of Richmond and the Counties of Henrico and Chesterfield for any funds or expenditures made by each of them pursuant to contracts or agreements authorized by § [33.2-2913](#) for which reimbursement has not been made and then for the operation, maintenance, improvement, expansion, or extension of such limited access highway project and to increase its utility and benefits and for the construction, reconstruction, maintenance, and operation of other projects or highways connected with such limited access highway or with the state or federal highway systems and for such purpose such political subdivisions shall succeed to all the functions and shall have all the powers conferred on the Authority by this chapter with respect to such property.

§ 33.2-2917. Miscellaneous

A. Any money set aside for the payment of the principal of or interest on any bonds issued by the Authority not claimed within two years from the day the principal of such bonds is due by maturity or

by call for redemption shall be paid into the state treasury. No interest shall accrue on such principal or interest from the day the same is due. The Comptroller shall keep an account of all money thus paid into the state treasury, and it shall be paid to the individual partnership, association, or corporation entitled thereto upon satisfactory proof that such individual, partnership, association, or corporation is so entitled to such money. If the claim so presented is rejected by the Comptroller, the claimant may proceed against the Comptroller for recovery in the Circuit Court of the City of Richmond. An appeal from the judgment of the circuit court shall lie to the Court of Appeals as in actions at law, and all laws and rules relating to practice and procedure in actions at law shall apply to such authorized proceedings. No such proceedings shall be filed after 10 years from the day the principal of or interest on such bonds is due; however, if the individual having such claim is an infant or insane person or is imprisoned at such due date, such proceedings may be filed within five years after the removal of such disability, notwithstanding the fact that such 10-year period has expired.

B. The Authority may contract with the City of Richmond, the Counties of Henrico and Chesterfield, and the Department of State Police for the policing of any Authority facilities, and the City of Richmond, the Counties of Henrico and Chesterfield, and the Department of State Police are hereby authorized to enter into contracts with the Authority for such purpose. Police officers providing police services pursuant to such contracts shall be under the exclusive control and direction of the authority providing such officers and shall be responsible to that authority exclusively for the performance of their duties and the exercise of their powers. The Authority shall reimburse the City of Richmond, the County of Henrico or Chesterfield, or the Commonwealth in such amounts and at such time as shall be mutually agreed upon for providing police service. Such officers shall be responsible for the preservation of the public peace, prevention of crime, apprehension of criminals, protection of the rights of persons and property, and enforcement of the laws of the Commonwealth and all regulations of the Authority made in accordance, and such officers shall have all the rights and duties of police officers as provided by the general laws of the Commonwealth. The violation of any such regulation shall be punishable as follows: if such a violation would have been a violation of law if committed on any public highway in the City of Richmond or the County of Henrico or Chesterfield, it shall be punishable in the same manner as if it had been committed on such public highway; otherwise it shall be punishable as a Class 1 misdemeanor. All other police officers of the Commonwealth, the City of Richmond, and the Counties of Henrico and Chesterfield shall have the same powers and jurisdiction within the areas of operations agreed upon by the parties that they have beyond such limits and shall have access to all such areas at any time without interference for the purpose of exercising such powers and jurisdiction. For the purpose of enforcing such laws and regulations, the court having jurisdiction for the trial of criminal offenses committed in the City of Richmond or in the Counties of Henrico and Chesterfield within whose boundaries any crime is committed shall have jurisdiction to try any person charged with the violation of any such laws and regulations within such boundaries. A copy of the regulations of the Authority, attested by the secretary or secretary-treasurer of the

Authority, may be admitted as evidence in lieu of the original. Any such copy purporting to be sealed and signed by such secretary or secretary-treasurer may be admitted as evidence without any proof of the seal or signature or of the official character of the person whose name is signed to it.

C. All actions at law and suits in equity and other proceedings, actions, and suits against the Authority, or any other person, firm, or corporation, growing out of the construction, maintenance, repair, operation, and use of any Authority facility, or growing out of any other circumstances, events, or causes in connection therewith, unless otherwise provided in this section, shall be brought and conducted in the court having jurisdiction of such actions, suits, and proceedings in the City of Richmond or the County of Henrico or Chesterfield within whose boundaries the causes of such actions, suits, and proceedings arise, and jurisdiction is hereby conferred on such court for that purpose. All such actions, suits, and proceedings on behalf of the Authority shall be brought and conducted in the Circuit Court of the City of Richmond, except as otherwise provided in this section, and exclusive jurisdiction is hereby conferred on such court for the purpose. Eminent domain proceedings instituted and conducted by the Authority shall be brought and conducted in the court having jurisdiction of such proceedings in the City of Richmond or the County of Henrico or Chesterfield within whose boundaries the land or other property to be so acquired or the major portion thereof is situated, and jurisdiction is hereby conferred on such court for such purpose.

D. On or before September 30 of each year, the Authority shall prepare a report of its activities for the 12-month period ending the preceding July 1 of such year and shall file a copy thereof with the Commonwealth Transportation Board, the City of Richmond, and the Counties of Henrico and Chesterfield. Each such report shall set forth an operating and financial statement covering the Authority's operations during the 12-month period covered by the report. The Authority shall cause an audit of its books and accounts to be made at least once in each year by certified public accountants to be selected by the Authority, and the cost of such audit shall be treated as a part of the cost of construction and operation of a project.

E. The records, books, and accounts of the Authority shall be subject to examination and inspection by duly authorized representatives of the Commonwealth Transportation Board, the governing bodies of the City of Richmond and the Counties of Henrico and Chesterfield, and any bondholder at any reasonable time, provided the business of the Authority is not unduly interrupted or interfered with thereby.

F. Any member, agent, or employee of the Authority who contracts with the Authority or is interested in contracting with the Authority or in the sale of any property, either real or personal, to the Authority shall be guilty of a misdemeanor and shall be subject to a fine of not more than \$1,000 or imprisonment in jail for not more than one year, either or both. Exclusive jurisdiction for the trial of such misdemeanors is hereby conferred upon the Circuit Court of the City of Richmond, provided that the term "contract," as used in this chapter, shall not be held to include the depositing of funds in, the

borrowing of funds from, or the serving as agent or trustee by any bank in which any member, agent, or employee of the Authority may be a director, officer, or employee or have a security interest, nor shall such term include contracts or agreements with the Commonwealth Transportation Board or the purchase of services from, or other transactions in the ordinary course of business with, public service corporations.

2014, c. [229](#) (§ 4)

§ 1. Title.

The provisions of this Act shall be known and may be cited as the "Riverside Regional Jail Authority Act." (1990, c. 726)

§ 2. Definitions.

As used in this Act, the following words and terms shall have the following meanings:

"Authority" means the Riverside Regional Jail Authority created in § 3 of this Act.

"Bonds" or "revenue bonds" means revenue bonds or revenue refunding bonds of the Authority issued under the provisions of this Act.

"Cost of the project" means and includes the cost of construction, the cost of all lands, properties, rights, easements, and franchises acquired and the cost of all conveyances in fee simple of the Authority's title thereto and leases thereof, the cost of preparing the land, the cost of a single impact fee in the amount of \$250,000 which shall be paid to the host jurisdiction, the cost of all machinery, equipment, and furnishings related to the operation of any project, financing charges, interest prior to and during construction, and for six months after completion of construction, cost of engineer, fiscal and legal expenses, and other expenses necessary or incident to determining the feasibility or practicability of the project, administrative expenses and such other expenses as may be necessary or incident to the financing herein authorized, and the cost of placing any project in operation. Any obligation or expense incurred for any of the foregoing purposes shall be regarded as a part of the "cost of the project" and may be paid or reimbursed as such out of any funds of the Authority, including the proceeds of any revenue bonds issued under the provisions of this Act for any such project or projects.

"Project" means and includes the acquisition, construction, equipping, maintenance, and operation of a regional jail or regional jail farm and the usual facilities related thereto, and enlargements, renovations, and improvements of such facilities, acquiring the necessary property therefor, both real and personal, and the lease, sale, or mortgage of any part or all of such facilities, including real and personal property, so as to ensure the efficient and proper development, maintenance, and operation of such facilities and areas, deemed by the Authority to be necessary, convenient, and desirable.

"Self-liquidating" is deemed to mean any project, if in the judgment of the Authority, the revenues and earnings to be derived by the Authority therefrom and all properties used, leased, and sold in

connection therewith will be sufficient to pay the principal and interest of the revenue bonds which may be issued to finance, in whole or in part, the cost of such project or projects. (1990, c. 726)

§ 3. Authority created.

There is hereby created and constituted a political subdivision of the Commonwealth to be known as the Riverside Regional Jail Authority, hereinafter referred to as the Authority. The exercise by the Authority of the powers conferred by this Act in the construction, operation, and maintenance of a project authorized by this Act shall be deemed and held to be in the performance of an essential governmental function. The Authority shall have perpetual existence and shall have sovereign immunity to the same extent as the jurisdictions served by the Authority. (1990, c. 726; 1993, c. 228)

§ 4. Members.

The Authority shall consist of fourteen members, unless increased as provided for herein, who are to be appointed or shall serve as follows:

1. One member to be appointed by the Board of Supervisors of the County of Charles City, Virginia, and the sheriff of the County;
2. One member to be appointed by the Board of Supervisors of the County of Chesterfield, Virginia, and the sheriff of the County;
3. One member to be appointed by the City Council of the City of Colonial Heights, Virginia, and the sheriff of the City;
4. One member to be appointed by the City Council of the City of Hopewell, Virginia, and the sheriff of the City;
5. One member to be appointed by the City Council of the City of Petersburg, Virginia, and the sheriff of the City;
6. One member to be appointed by the Board of Supervisors of the County of Prince George, Virginia, and the sheriff of the County; and
7. One member to be appointed by the Board of Supervisors of the County of Surry, Virginia, and the sheriff of the County.

No member of the governing body of the County of Chesterfield, the County of Charles City, the City of Colonial Heights, the City of Hopewell, the City of Petersburg, the County of Prince George, or the County of Surry may be a member of the Authority.

All nonsheriff members of the Authority shall serve for a term of four years. The initial term of office shall extend from the organizational meeting of the Authority until the Authority's annual meeting four years thereafter. Any nonsheriff member of the Authority may be appointed to succeed himself. Each duly appointed nonsheriff member shall hold office until his successor shall be duly appointed. Any

vacancy in the nonsheriff membership of the Authority, whether caused by expiration of term of office, death, resignation, or otherwise, shall be filled by the governing body of the city or county which appointed the member whose membership is then vacant. Any member appointed to fill an unexpired term shall serve only until the expiration of the term he was appointed to fill. Sheriffs shall serve a term coexistent with their term as sheriff.

Notwithstanding any other provision of law, special or general, alternate members may be appointed to the Authority by the governing body of the city or county in the same manner as regular members, except that sheriffs may appoint their own alternates. If a regular member is not present at the meeting of the Authority, the alternate for that member shall have all the voting and other rights of a regular member and shall be counted for purposes of determining a quorum at any meeting. (1990, c. 726; 1999, cc. [642](#), [675](#); 2014, c. [229](#))

§ 5. Officers; annual report.

The Authority shall elect one of its members as chairman and another member as vice-chairman, each of whom shall be elected for a term of one year. The first chairman and vice-chairman shall serve for a term extending from the organizational meeting of the Authority until the Authority's annual meeting on or about July 1, 1991. Subsequent chairmen and vice-chairmen shall be elected every year at the annual meeting of the Authority.

The Authority shall also elect a secretary and a treasurer, who may, but need not, be the same person. The secretary and treasurer may, but need not, be a member or members of the Authority. If they are not members of the Authority, the secretary and the treasurer shall have no voting rights and shall serve for such term as the Authority may determine. If a member of the Authority is elected to serve as secretary or treasurer or both, he shall be elected in the same manner and for the same term as the chairman and vice-chairman. Any officer may be elected to succeed himself, but in all cases, the chairman and vice-chairman must be members of the Authority. No member of the Authority may hold more than one office at a time except for service as both secretary and treasurer.

The Authority shall submit annually to the participating cities and counties a report showing its activities and its budget, which shall include all revenues, expenditures, and employee compensation schedules and other similar data. (1990, c. 726)

§ 6. Voting.

A majority of the members of the Authority shall constitute a quorum. A majority of the quorum is empowered to exercise all of the rights and perform all of the duties of the Authority, except where specifically provided otherwise herein or by agreement between the Authority and the participating jurisdictions, and no vacancy on the Authority shall impair the right of the quorum to act. In the event such agreement requires the affirmative vote of the jurisdictions holding a majority of prisoners in the jail for certain actions to be effective, the vote of the members appointed by the governing bodies or

their alternates shall be the only votes counted for such purposes. (1990, c. 726; 1993, c. 228; 1999, cc. [642](#), [675](#))

§ 7. Compensation.

The members of the Authority shall serve without compensation except that they shall be reimbursed for actual expenses incurred in the performance of their duties. The Authority may provide for compensation for its secretary or treasurer or both if he or they are not members of the Authority. (1990, c. 726)

§ 8. Conditions of participation; joinder and withdrawal.

As a condition of participation in the Authority, a city or county must enter into an agreement with the Authority for the use of the service furnished by the project. Any city or county may, with the approval of its governing body and with the consent of the members of the Authority, join and participate in the Authority under such additional terms and conditions for membership as may be prescribed by the Authority. Any city or county which is a member of the Authority may withdraw therefrom by resolution or ordinance of its governing body; however, no participating city or county may withdraw from the Authority except with the unanimous consent of its members until all obligations incurred by the Authority have been fully satisfied. (1990, c. 726)

§ 9. Powers.

The Authority shall have the following powers:

1. To have a seal and alter the same at pleasure;
2. To acquire by gift, purchase, lease, or otherwise, and to hold, to sell, at public or private sale, or exchange, lease, mortgage, pledge, subordinate interest in, or otherwise dispose of real and personal property of every kind and character for its corporate purposes;
3. To appoint, select, and employ officers, agents, and employees, including a superintendent of the regional correctional facility and necessary guards and employees therefor, and also including engineering and construction experts, fiscal agents and attorneys, and to fix their respective compensations;
4. To make contracts and leases and to execute all instruments necessary or convenient, including contracts for construction and financing of projects and leases of projects or contracts with respect to the use of projects which it causes to be erected or acquired, and to dispose by conveyance of its title in fee simple of real and personal property of every kind and character, and any and all political subdivisions, departments, institutions, or agencies of the Commonwealth are hereby authorized to enter into contracts, leases, or agreements with the Authority upon such terms and for such purposes as they deem advisable;

5. To construct, erect, acquire, own, repair, remodel, maintain, add to, extend, improve, equip, furnish, operate, and manage projects, as hereinabove defined, the cost of any such project to be paid in whole or in part from the proceeds or other funds made available to the Authority;
 6. To accept loans and grants of money or materials or property of any kind from the United States of America or any agency or instrumentality thereof, upon such terms and conditions as the United States of America or such agency or instrumentality may impose;
 7. To accept loans and grants of money or materials or property of any kind from the Commonwealth of Virginia or any agency or instrumentality or political subdivision thereof, upon such terms and conditions as the Commonwealth of Virginia or such agency or instrumentality or political subdivision may impose;
 8. To borrow money for any of its corporate purposes and to execute evidences of such indebtedness and to secure the same and to issue negotiable revenue bonds payable solely from funds pledged for that purpose and to provide for the payment of the same and for the rights of the holders thereof. Any city or county participating in the Authority may lend, advance, or give money or materials or property of any kind to the Authority;
 9. To exercise any power usually possessed by private corporations performing similar functions, which is not in conflict with the Constitution and laws of the Commonwealth;
 10. The Authority and any trustee acting under any trust indenture are specifically authorized from time to time to sell, lease, grant, exchange, or otherwise dispose of any surplus property, both real and personal, or interest therein not required in the normal operation of and usable in the furtherance of the purpose for which the Authority was created, except as such right and power may be limited as provided in § 10 hereof:
 11. To sue and be sued in its own name, plead and be impleaded;
 12. To adopt, amend, or repeal bylaws, rules, and regulations, not inconsistent with this Act or the general laws of the Commonwealth, for the regulation of its affairs and the conduct of its business and to carry into effect its powers and purposes; and
 13. To do all things necessary or convenient to carry out the powers expressly given in this Act.
- (1990, c. 726)

§ 10. Authority of superintendent and guards; oath and bond.

The superintendent appointed by the Authority to administer its regional correctional facility shall have and exercise the same control and authority over the prisoners committed or transferred to such facility as the sheriffs of this Commonwealth have by law over the prisoners committed or transferred to their jails.

During the term of their appointment, the superintendent and guards are hereby vested with the powers and authority of a conservator of the peace (i) within the limits of such correctional facility and within one mile thereof and (ii) in conveying prisoners to and from such facility.

Before entering upon the duties of their office, the superintendent and guards shall take and subscribe the oath prescribed by § [49-1](#) of the Code of Virginia. The Authority may require the superintendent or guards or both to give bond in such penalty and with such security as the Authority may prescribe, conditioned upon the faithful discharge of the duties of their offices. (1990, c. 726)

§ 11. Acquisition of interests in land.

The Authority is hereby authorized and empowered to acquire by gift or by lease or purchase solely from funds provided under the provisions of this Act such lands, structures, property, rights, rights-of-way, franchises, easements, and other interests in lands as it may deem necessary or convenient for the construction and operation of the project upon such terms and at such prices as may be considered by it to be reasonable and can be agreed upon between it and the owner thereof.

All public agencies and the commissions of the Commonwealth, with the approval of the Governor, are hereby authorized and empowered to lease, lend, grant, or convey to the Authority at its request, upon such terms and conditions as may be mutually agreed upon, without the necessity for any advertisement, order of court, or other action or formality, any real property which may be necessary or convenient to the effectuation of the authorized purposes of the Authority, including real property already devoted to public use. Title to any property acquired by the Authority shall be taken in the name of the Authority. (1990, c. 726)

§ 12. Issuance of revenue bonds.

The Authority is hereby authorized to provide by resolution for the issuance, at one time or from time to time, of revenue bonds of the Authority for the purpose of paying all or any part of the cost of the project. The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment. The bonds of each issue shall be dated, shall bear interest at such rate or rates as shall be fixed by the Authority, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form and the manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any other provision of this Act or any recitals in any bonds issued under the

provisions of this Act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest and for the interchange of registered and coupon bonds. The Authority may sell such bonds in such manner, either at public or negotiated sale, or for such price, as it may determine will best effectuate the purposes of this Act.

The proceeds of the bonds shall be used solely for the payment of the cost of the project and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issuance, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this Act without obtaining the consent of any department, division, commission, board, bureau, or agency of the Commonwealth, and without any other proceedings or the happening of any conditions other than those proceedings or conditions which are specifically required by this Act.

Revenue bonds issued under the provisions of this Act shall not be deemed to constitute a pledge of the faith and credit of the Commonwealth or of any political subdivision thereof. All such bonds shall contain a statement on their face substantially to the effect that neither the faith and credit of the Commonwealth nor the faith and credit of any county, city, town, or other subdivision of the Commonwealth are pledged to the payment of the principal of or the interest on such bonds. The issuance of revenue bonds under the provisions of this Act shall not directly or indirectly or contingently obligate the Commonwealth or any county, city, town, or other subdivision of the Commonwealth to levy any taxes whatever therefor or to make any appropriation for their payment except from the funds pledged under the provisions of this Act. (1990, c. 726)

§ 13. Trust agreements.

In the discretion of the Authority, any bonds issued under the provisions of this Act may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the charges and other revenues to be received but shall not convey or mortgage the project or any part thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation, and insurance of the project, the rates to be charged for services, and the custody, safeguarding, and application of all moneys. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depositary of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the project. (1990, c. 726)

§ 14. Charge for use of services.

The Authority is hereby authorized to fix, revise, and charge for the use of the service furnished by the project and to contract with any unit or department of government at any level, including cities, counties, towns, authorities, regional jail boards, and the state and federal governments and their respective departments, commissions and agencies, desiring the use of any part thereof, and to fix the terms, conditions, rents, and rates of charges for such use. Such charges shall be so fixed and adjusted in respect to the aggregate of the charges from the project as to provide a fund sufficient with other revenues, if any, to pay (i) the cost of maintaining, repairing, and operating such project and (ii) the principal of and interest on such bonds as the same shall become due and payable and to create reserves for such purposes. The revenues derived from the project, except such part thereof as may be necessary to pay such cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the revenues or other moneys so pledged and thereafter received by the Authority shall immediately be subject to the lien of

such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in for t, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. (1990, c. 726)

§ 15. Revenues and proceeds from sale of bonds.

All moneys received pursuant to the provisions of this Act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this Act. The Authority may provide for the payment of its revenues to such officer, board, or depository as it may designate for the custody thereof, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. The Authority shall, in the resolution authorizing the bonds or in the trust agreement securing such bonds, provide for the payment of the proceeds of the sale of the bonds to a trustee, which shall be any trust company or bank having the powers of a trust company within or without the Commonwealth, which shall act as trustee of the funds, and hold and apply the same to the purposes of this Act, subject to such regulations as this Act and such resolution or trust agreement may provide. The trustee may invest and reinvest such funds in such securities as may be provided in the resolution authorizing the bonds or in the trust agreement securing such bonds. (1990, c. 726)

§ 16. Rights of bond holders and trustees.

Any holder of bonds issued under the provisions of this Act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given, may be restricted by such trust agreement, may either at law or in equity, by suit, action, injunction, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this Act or under such trust agreement or the resolution authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this Act or by such agreement or resolution to be performed by the Authority or by any officer or agent thereof including the fixing, charging, and collection of such charges. (1990, c. 726)

§ 17. Exemption from taxes.

The exercise of the powers granted by this Act shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their safety, health, welfare, convenience, and prosperity, and as the operation and maintenance of the project by the Authority will constitute the performance of essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon the project or any property acquired or used by the

Authority under the provisions of this Act or upon the income therefrom; and the bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any municipality, county, or other political subdivision thereof. (1990, c. 726)

§ 18. Issuance of revenue refunding bonds.

The Authority is hereby authorized to provide by resolution for the issuance of its revenue refunding bonds for the purpose of refunding any bonds then outstanding which shall have been issued under the provisions of this Act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Authority, for the additional purpose of constructing enlargements, renovations, or improvements of the project. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties, and obligations of the Authority in respect of the same, shall be governed by the provisions of this Act insofar as the same may be applicable. (1990, c. 726)

§ 19. General purpose of Authority.

Without limiting the generality of any provisions of this Act, the general purpose of the Authority is declared to be that of acquiring, constructing, equipping, maintaining, and operating a regional jail or regional jail farm and the usual facilities appertaining to such undertakings; enlarging, renovating, and improving such facilities; acquiring the necessary property therefor, both real and personal, with the right of contract for the use of or to lease, mortgage, or sell any or all of such facilities, including real property; and doing any and all things deemed by the Authority necessary, convenient, and desirable for and incident to the efficient and proper development and operation of such types of undertakings. (1990, c. 726)

§ 20. Design-build contracts.

The Authority may enter into a contract for a regional jail on a fixed price or not-to-exceed price design-build basis or construction management basis in accordance with procedures consistent with those described in the Virginia Public Procurement Act for procurement of nonprofessional services through competitive negotiation. The Authority may authorize payment to no more than three responsive bidders who are not awarded the design-build contract if the Authority determines that such payment is necessary to promote competition. The Authority shall not be required to award a design-build contract to the lowest bidder but may consider price as one factor in evaluating the proposals received. The Authority shall maintain adequate records to allow post-project evaluation by the Commonwealth. (1990, c. 726)

§ 21. State reimbursement.

The Authority shall be eligible to receive state reimbursement for local correctional facility construction and operation under Article 3 of Chapter 3 of Title 53.1 of the Code of Virginia. State reimbursement for the cost of the project shall be determined as if each city or county participating in the Authority had

contributed its pro rata share of such cost. The Commonwealth shall fund the positions of superintendent, correctional officers, and two-thirds of the salaries of required medical or treatment personnel on a basis approved by the State Compensation Board. Such salaries shall be paid in the manner provided in Article 9 of Chapter 1 of Title 14.1 of the Code of Virginia, and such article shall be applicable mutatis mutandis to such superintendent.

The superintendent of the regional correctional facility shall report on the first day of each month to the Director of the State Department of Corrections to give the record of each prisoner received during the preceding month on blank forms to be furnished by the Director, to state whether the offense for each prisoner is for violation of state law or of city or town ordinance. The report shall be signed by both the superintendent and chairman of the Authority. Either signer found guilty of willfully falsifying the information contained in such report shall be guilty of a Class 1 misdemeanor.

If any superintendent fails to send such report within five days after the date when the report is to be forwarded, the Director shall notify the superintendent of such failure. If the superintendent fails to make the report within ten days from that date, then the Director shall cause the report to be prepared from the books of the superintendent and shall certify the cost thereof to the Comptroller. The Comptroller shall issue his warrant on the Treasurer for that amount, deducting the same from any funds that may be due the superintendent by the Commonwealth. (1990, c. 726)

§ 22. Duty to prescribe rules and regulations.

It shall be the duty of the Authority to prescribe rules and regulations, not inconsistent with standards of the State Board of Corrections, for the operation of the project or projects constructed under the provisions of this Act. (1990, c. 726)

§ 23. Supplemental and additional powers.

The foregoing sections of this Act shall be deemed to provide an additional and alternative method for the performance of acts authorized thereby, shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing. (1990, c. 726)

§ 24. Liberal construction.

This Act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purposes thereof. (1990, c. 726)

§ 25. Severability.

The provisions of this Act are severable and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions of this Act. It is hereby declared to be the legislative intent that this Act would have been adopted had such unconstitutional provisions not been included therein. (1990, c. 726)

§ 26. Inconsistent laws inapplicable.

All other general or special laws inconsistent with any provision of this Act are hereby declared to be inapplicable to the provisions of this Act. (1990, c. 726)

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of the "Roanoke Regional Airport Commission," such Commission shall be conclusively deemed to have been created as a body corporate, and to have been established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution as aforesaid by the governing bodies of such county and city declaring that there is a need for such Commission and that they should unite in its formation. (1986, c. 140)

§ 17. Fees, rents and charges.

The Commission is hereby authorized to and shall fix, revise. charge, and collect fees, rents and other charges for the use and services of any facilities. Such fees, rents, and other charges shall be so fixed

and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Commission, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall, to the extent necessary, be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Commission. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. (1986, c. 140)

The bonds of the Commission shall not be a debt of the Commonwealth or any political subdivision thereof, other than the Commission, and neither the Commonwealth nor any political subdivision thereof, other than the Commission, shall be liable thereon, nor shall such bonds be payable out of any funds or properties other than those of the Commission. All bonds of the Commission shall contain on the face thereof a statement to such effect. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. (1986, c. 140)

§ 19. Commissioners and persons executing bonds not liable thereon.

Neither the Commissioners nor any person executing the bonds shall be liable personally on the Commission's bonds by reason of the issuance thereof. (1986, c. 140)

Any holder of bonds issued under the provisions of this Act or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this Act or under such trust indenture agreement or the

Any resolution authorizing the issuance of the Commission's bonds or trust indenture or agreement securing the same may limit or abrogate the individual right of action by the holders of such bonds or coupons appertaining thereto. (1986, c. 140)

§ 21. Taxation.

The exercise of the powers granted by this Act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project which the Commission is authorized to undertake will constitute the performance of an essential governmental function, the Commission shall not be required to pay taxes on its real estate, tangible personal property and machinery and tools. Bonds issued under the provisions of this Act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations and organizations leasing property of the Commission or doing business on property of the Commission shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property and machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling and taxes upon consumers of gas, electricity, telephone and other public utility services. (1986, c. 140)

§ 22. Bonds as legal investments.

Bonds issued by the Commission under the provisions of this Act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law. (1986, c. 140)

§ 23. Appropriation by political subdivision.

Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located within sixty miles of a Commission facility, is authorized to provide services, to

donate real or personal property and to make appropriations to the Commission, for the acquisition, construction, maintenance, and operation of the Commission's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Commission, and such political subdivisions may enter into contracts obligating such bond proceeds to the Commission.

The Commission may agree to assume, or reimburse a participating political subdivision for, any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Commission. With the consent of the governing body of the participating political subdivision, any such agreement may be made subordinate to the Commission's indebtedness to others. (1986, c. 140)

§ 24. Fiscal year; Commission budget.

A. The fiscal year of the Commission shall begin on July 1 and end on June 30.

B. The Commission shall annually, prior to March 31, prepare and submit to the participating political subdivisions (i) a proposed operating budget showing its estimated revenues and expenses on an accrual basis for the forthcoming fiscal year, and if such estimated expenses exceed such estimated revenues, the portion of the deficit proposed to be borne by each participating political subdivision, and (ii) a proposed capital budget showing its estimated expenditures for such fiscal year for assets costing more than \$20,000 (or such higher amount as the Commission and the participating political subdivisions may determine) and having an estimated useful life of 20 years or more and the source of funds for such expenditures, including any amount requested from the participating political subdivisions. Depreciation shall be excluded from the Commission's operating budget with respect to assets purchased by the Commission with funds appropriated to it for such purpose by a participating political subdivision and, for this determination, it shall be assumed that any appropriation so made is for the purchase of assets set forth in the applicable Commission budget to the extent such purchase price is included in the approved budget. Assets purchased by the Commission with bond proceeds shall be depreciated over the useful life of such assets purchased with bond proceeds.

C. If the governing body of a participating political subdivision shall approve the Commission's proposed operating budget, it shall appropriate to the Commission such political subdivision's portion of such deficit. If during any fiscal year the Commission shall receive revenues in excess of those estimated by the Commission in its approved budget for such year, the budgeted deficit for such fiscal year shall automatically be reduced and, except as herein provided, the appropriation of each participating political subdivision shall be proportionately reduced. Notwithstanding the foregoing, with the consent of the governing bodies of the participating subdivisions, all or a portion of such appropriations may be maintained so as to enable the Commission to expend such excess revenues for its proper purposes.

D. If the governing body of a participating political subdivision shall approve the Commission's proposed capital budget, it shall appropriate to the Commission such participating political subdivision's portion of the expenditures set forth therein. Any such appropriation shall automatically be reduced by the participating political subdivision's proportionate share of any grant funds received by the Commission for the purchase of assets included in the Commission's approved capital budget in excess of the grant funds shown in such capital budget as a source of funds for such expenditure, unless prohibited by the basic provider of the grant funds.

E. The Commission may expend any and all moneys within its control without obtaining the approval of the participating political subdivisions, but, except as otherwise provided in this Act with respect to contracts and agreements between the Commission and any political subdivision, the Commission shall not commit any participating political subdivision in an amount in excess of that appropriated to the Commission by the governing body of such political subdivision.

F. If at any time during any fiscal year it shall appear that the cash disbursements of the Commission will exceed its cash receipts for such fiscal year, including amounts appropriated to it by the participating political subdivisions, the Commission may request supplemental appropriations from the participating political subdivisions and any other political subdivision. (1986, c. 140; 1996, c. [385](#); 2005, c. [279](#))

§ 25. Allocation of deficit; denial of voting privileges.

A. Any deficit budgeted by the Commission in any fiscal year, i.e., any excess of its estimated expenses over its estimated revenues, and the cost of any budgeted capital expenditures in excess of the amount shown as available therefor, as shown on the Commission's operating and capital budgets approved by the participating political subdivisions, shall be allocated among the participating political subdivisions in proportion to their respective populations as most recently before such fiscal year determined by the Tayloe Murphy Institute of Government. In the event the appropriation of any participating political subdivision is insufficient to pay its portion of the deficit incurred in any fiscal year, the allocation of any deficit for any succeeding fiscal year shall take into account the cumulative deficiency attributable to such participating political subdivision; however, no participating political subdivision shall be required to pay the Commission in any fiscal year any amount in excess of that appropriated to the Commission by the governing body of such participating political subdivision.

B. Any participating political subdivision not contributing its proportionate share of any deficit as determined by the Commission pursuant to § 25 of this Act, either of the Commission's operating budget or capital budget in accordance with a schedule established by the Commission shall automatically be denied voting privileges. The denial of voting privileges shall terminate upon the delivery of its proportionate share by such political subdivision. (1986, c. 140)

§ 26. Contracts with political subdivisions.

The Commission is authorized to enter into contracts with any one or more political subdivisions, which contracts may restrict the powers of the Commission otherwise granted by this Act. Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located within sixty miles of a Commission facility, is authorized to enter into contracts with the Commission, pursuant to which the Commission undertakes to provide the facilities and render the services specified therein. Any such contract or agreement may provide that the political subdivision will make payments to the Commission based on the services rendered by the Commission to the residents of such political subdivision, determined in such reasonable manner as the Commission and the political subdivision may mutually agree. Each political subdivision entering into such a service contract with the Commission is authorized to do everything necessary or proper to carry out and perform such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations. (1986, c. 140)

§ 27. Retirement benefits for certain employees formerly employed by a participating political subdivision.

When a local political subdivision joins the Commission, any employee of such local political subdivision who then becomes an employee of the Commission, if such employee is a member of a local retirement system, may elect to and may continue to be eligible to remain a member of such local retirement system in lieu of becoming a member of any retirement system with which the Commission may affiliate. Such election to remain a member of a local retirement system shall be made in writing within 120 days of such employee's political subdivision becoming a member of the Commission. In such event, service of such employee with the Commission shall be creditable as service with the participating political subdivisions and compensation received by such employee shall be deemed paid by the participating political subdivision for all purposes of the benefit programs of the participating political subdivision. Participation by an employee of the Commission in the local retirement system of a participating political subdivision shall be pursuant to all duly adopted ordinances and rules and regulations governing such retirement system. Any employee so electing shall not be entitled to any benefit under the Commission's retirement system, and the Commission shall pay the employer share of benefits provided the Commission's employees by such political subdivision. Nothing herein shall apply to any health and accident insurance plan or to the Federal Old Age and Survivors Insurance System. (1986, c. 140)

§ 28. Dissolution of Commission.

Whenever it shall appear to the Commission that the need for the Commission no longer exists, it may petition the circuit court of a participating political subdivision for the dissolution of the Commission. If the court shall determine that the need for the Commission as set forth in this Act no longer exists and that all debts and pecuniary obligations of the Commission have been fully paid or provided for, it may enter an order dissolving the Commission.

Upon dissolution, the court shall order any real property contributed to the Commission by a participating political subdivision, together with any improvements thereon, returned to such participating political subdivisions. The remaining assets of the Commission shall be distributed to the participating political subdivisions in proportion to their respective contributions theretofore made to the Commission.

Each participating political subdivision and all holders of the Commission's bonds shall be made parties to any such proceeding and shall be given notice as provided by law. Any party defendant may reply to such petition at any time within six months after the filing of the petition. From the final judgment of the court, an appeal shall lie to the Supreme Court of Virginia. (1986, c. 140)

§ 29. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Commission, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Commission that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Commission to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Commission is authorized to include this pledge and agreement in any contract with the holders of the Commission's bonds. (1986, c. 140)

§ 30. Liberal construction.

Neither this Act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers which the Commission might otherwise have under any laws of this Commonwealth, and this Act is cumulative to any such powers. This Act does and shall be construed to provide a complete, additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds, notes or other obligations. No proceedings, notice or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this Act. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act. (1986, c. 140)

§ 31. Application of local ordinances, service charges and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Commission's property from any applicable zoning, subdivision, erosion and sediment control and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Commission from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any

lessee of any of the Commission's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom. (1986, c. 140)

§ 32. Existing contracts, leases, franchises, etc., not impaired.

No provisions of this Act shall relieve, impair or affect any right, duty, liability or obligation arising out of any contract, concession, lease or franchise now in existence except to the extent that such contract, concession, lease or franchise may permit. Notwithstanding the foregoing provisions of this section, the Commission may renegotiate, renew, extend the term of or otherwise modify at any time any contract, concession, lease or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease or franchise consents to said renegotiation, renewal, extension or modification. Such funds shall not be used within economically strong counties without a two-thirds vote of approval by a quorum of the Board. Nothing herein shall prevent the Authority from applying for and receiving federal, state, or private funds to advance the purpose of the Authority regardless of distressed county status.

§ 15.2-7606. Duties of planning districts within the coastal region

Each member locality of the Authority may withdraw from the Authority only upon dissolution of the Authority as set forth herein. Whenever the Board determines that the purpose for which the Authority was created has been substantially fulfilled or is impractical or impossible to accomplish and that all obligations incurred by the Authority have been paid or that cash or a sufficient amount of United States government securities has been deposited for their payment, or provisions satisfactory for the timely payment of all its outstanding obligations have been arranged, the Board may adopt resolutions declaring and finding that the Authority shall be dissolved. Appropriate attested copies of such resolutions shall be delivered to the Governor so that legislation dissolving the Authority may be introduced in the General Assembly. The dissolution of the Authority shall become effective according to the terms of such legislation. The title to all funds and other property owned by the Authority at the time of such dissolution shall vest in the counties that have contributed to the Authority's resources in proportion to their respective contributions.

All interested persons who reside in or who own real property in (a) a proposed district or (b) an existing district in cases of enlargement shall have the right to appear and show cause why the property under consideration should or should not be included in the proposed district or enlargement of same at such hearing. Such hearing shall be subject to minimum standards regarding timeliness; notice of such hearing shall be given by publication once a week for three consecutive weeks in some newspaper of general circulation within the county to be designated by the governing body, with the first publication appearing no more than 21 days before the hearing. § 21-116. Enlargement of sanitary districts

The governing body of a county, upon the petition of 25 percent of the qualified voters, if any, residing within the limits of the territory proposed to be added, may, by ordinance, extend the boundaries and enlarge any sanitary district created under the provisions of this article, which ordinance shall prescribe the metes and bounds of the territory so added.

Upon the filing of the petition a hearing shall be had as provided in §§ [21-114](#) and [21-115](#), and the notice of such hearing may require all interested persons to appear and show cause why any special tax levied or to be levied in the sanitary district for special sanitary district purposes may not be likewise levied and collected in the territory proposed to be added to such district, and to appear and show cause why the net operating revenue derived in the added territory from the operation of any system or systems established under the provisions of § [21-118](#) may not be set apart to pay the interest on and retire at maturity the principal of any bonds theretofore issued in connection with such system or systems. Nothing in such ordinance enlarging a sanitary district as provided herein shall be construed to limit or adversely affect the rights and interests of any holder of bonds issued by the district, and such ordinance shall expressly preserve and protect such rights and interests. All interested persons who reside in or who own real property in (i) a proposed district or (ii) an existing district in cases of enlargement shall have the right to appear and show cause why the property under consideration should or should not be included in the proposed district or enlargement of same at such hearing.

§ 21-116.1. Alteration of boundaries or reduction of area of sanitary districts in certain counties

Chapter 549 of the Acts of 1950, as amended by Acts 1952, c. 202, relating to alteration of boundaries or reduction of area of sanitary districts in any county adjoining a county having a population in excess of 2,000 per square mile, is incorporated in this Code by this reference.

1950, c. 549; 1952, c. 202.

§ 21-117. Merger of sanitary districts

Any two or more sanitary districts heretofore or hereafter created in any county under the provisions of this article may be merged into a single district by the governing body of the county, by ordinance, upon the petition of not less than 50 qualified voters residing within the boundaries of each of the districts desiring to be so merged, which ordinance shall prescribe the metes and bounds and the

name or other designation of the single district created by such merger. From and after the adoption of such ordinance, the governing body of such county shall, as to the single districts so created, have all the powers and duties, and be subject to all the conditions and limitations prescribed by § [21-118](#), and all funds then on hand to the credit of each of the districts so merged shall be merged into a single fund for the use and benefit of the consolidated district, unless otherwise ordered by the governing body of the county upon the hearing next herein provided for.

Upon the filing of the petition, a hearing shall be had before the governing body of the county, after notice as provided by § [21-114](#), which notice shall require all interested parties to appear and show cause, if any they can, (i) why the funds then on hand to the credit of each of the merged districts should not be merged into a single fund for the purpose above mentioned; and (ii) why a special tax should not be levied on all the property within the limits of the consolidated district, subject to local taxation, sufficient to pay the interest and create a sinking fund for payment of the principal at maturity of any then outstanding bonds theretofore issued by any one or more of the districts so merged.

Upon the hearing, such ordinance shall be adopted as to the governing body of the county may seem equitable and proper, concerning the combination of the funds on hand to the credit of each of the districts so merged and the levying of a special tax on all the taxable property within the limits of the consolidated district, for the purposes hereinabove mentioned, provided that such ordinance shall preserve and protect the rights of the holders of any such outstanding bonds, whose rights and interests shall not be limited or affected by any of the provisions of this section.

1942, p. 247; Michie Code 1942, § 1560s1; 2017, c. [14](#).

§ 21-117.1. Abolishing sanitary districts

Any sanitary district heretofore or hereafter created in any county under the provisions of the preceding sections of this article may be abolished by ordinance adopted by the governing body of such county, upon the petition of no less than 50 qualified voters residing within the boundaries of the district desired to be abolished or, if the district contains less than 100 qualified voters, upon petition of 50 percent of the qualified voters residing within the boundaries of such district.

Upon filing of the petition, the governing body of the county shall fix a day for a hearing on the question of abolishing the sanitary district, which hearing shall embrace a consideration of whether the property in the sanitary district will or will not be benefited by the abolition thereof, and the governing body of the county shall be fully informed as to the obligations and functions of the sanitary district. Notice of such hearing shall be given by publication once a week for three consecutive weeks in some newspaper of general circulation within the county to be designated by the governing body of the county, with the first publication appearing no more than 21 days before the hearing. No such district shall be abolished until the notice has been given and the hearing had.

Any interested parties may appear and be heard on any matters pertaining to the subject of the hearing.

Upon the hearing, such ordinance shall be adopted as to the governing body of the county may seem equitable and proper, concerning the abolition of the district and as to the funds on hand to the credit of the district, provided, however, that no such ordinance shall be adopted abolishing the sanitary district unless any bonds of the sanitary district that have theretofore been issued have been redeemed and the purposes for which the sanitary district was created have been completed, or unless all obligations and functions of the sanitary district have been taken over by the county as a whole, or unless the purposes for which the sanitary district was created are impractical or impossible of accomplishment and no obligations have been incurred by said sanitary district.

1954, c. 135; 2017, c. [14](#); 2023, cc. [506](#), [507](#).

§ 21-118. Powers and duties of governing body

After the adoption of such ordinance creating a sanitary district in such county, the governing body thereof shall have the following powers and duties, subject to the conditions and limitations hereinafter prescribed:

1. To construct, maintain and operate water supply, sewerage, garbage removal and disposal, heat, light, fire-fighting equipment and power and gas systems and sidewalks for the use and benefit of the public in such sanitary districts.
2. To acquire by gift, condemnation, purchase, lease, or otherwise, and to maintain and operate any such water supply, sewerage, garbage removal and disposal, heat, light, fire-fighting equipment and power and gas systems and sidewalks in such district and to acquire by gift, condemnation, purchase, lease, or otherwise, rights, title, interest, or easements therefor in and to real estate in such district; and to sell, lease as lessor, transfer or dispose of any part of any such property, real, personal or mixed, so acquired in such manner and upon such terms as the governing body of the district may determine to be in the best interests of the district; provided a public hearing is first held with respect to such disposition at which inhabitants of the district shall have an opportunity to be heard. At least seven days' notice of the time and place of such hearing and a brief description of the property to be disposed shall be published in a newspaper of general circulation in the district. Such public hearing may be adjourned from time to time.
3. To contract with any person, firm, corporation or municipality to construct, establish, maintain and operate any such water supply, sewerage, garbage removal and disposal, heat, light, fire-fighting equipment and power and gas systems and sidewalks in such district.
4. To require owners or tenants of any property in the district to connect with any such system or systems, and to contract with the owners or tenants for such connections. The owners or tenants shall

have the right of appeal to the circuit court or the judge thereof in vacation within 10 days from action by the governing body.

5. To fix and prescribe or change the rates of charge for the use of any such system or systems after a public hearing upon notice as provided in § [21-118.4](#) (d), and to provide for the collection of such charges. In fixing such rates the sanitary district may seek the advice of the State Corporation Commission.

6. To levy and collect an annual tax upon all the property in such sanitary district subject to local taxation to pay, either in whole or in part, the expenses and charges incident to constructing, maintaining and operating water supply, sewerage, garbage removal and disposal, heat, light, fire-fighting equipment and power and gas systems and sidewalks for the use and benefit of the public in such sanitary district. Any locality imposing a tax pursuant to this subdivision may base the tax on the full assessed value of the taxable property within the district, notwithstanding any special use value assessment of property within the sanitary district for land preservation pursuant to Article 4 (§ [58.1-3229](#) et seq.) of Chapter 32 of Title 58.1, provided the owner of such property has given written consent.

7. To employ and fix the compensation of any technical, clerical or other force and help which from time to time, in their judgment, may be deemed necessary for the construction, operation or maintenance of any such system or systems and sidewalks.

8. To negotiate and contract with any person, firm, corporation or municipality with regard to the connections of any such system or systems with any other system or systems now in operation or hereafter established, and with regard to any other matter necessary and proper for the construction or operation and maintenance of any such system within the sanitary district.

9. The governing body shall have the same power and authority for the abatement of nuisances in such sanitary district as is vested by law in councils of cities and towns for the abatement of nuisances therein, and it shall be the duty of the governing body to exercise such power when any such nuisance shall be shown to exist.

10. Proceedings for the acquisition of rights, title, interest or easements in and to real estate, by such sanitary districts in all cases in which they now have or may hereafter be given the right of eminent domain, may be instituted and conducted in the name of such sanitary district. If the property proposed to be condemned is:

a. For a waterworks system, the procedure shall be in the manner and under the restrictions prescribed by Chapter 19.1 (§ [15.2-1908](#) et seq.) of Title 15.2, and by Chapter 2 (§ [25.1-200](#) et seq.) of Title 25.1;

b. For the purpose of constructing water or sewer lines, the proceedings shall be instituted and conducted in accordance with the procedures prescribed either by Chapter 2 of Title 25.1 or in Chapter 3 (§ [25.1-300](#) et seq.) of Title 25.1; or

c. For the purpose of constructing water and sewage treatment plants and facilities and improvements reasonably necessary to the construction and operation thereof, the proceedings shall be instituted and conducted in accordance with the procedures provided for the condemnation of land in Chapter 3 of Title 25.1.

11. To appoint, employ and compensate out of the funds of the district as many persons as special policemen as may be deemed necessary to maintain order and enforce the criminal and police laws of the Commonwealth and of the county within such district. Such special policemen shall have, within such district and within one-half mile thereof, all of the powers vested in policemen appointed under the provisions of Article 1 (§ [15.2-1700](#) et seq.) of Chapter 17 of Title 15.2.

§ 21-118.1. Authority to acquire property from United States or any agency thereof

Notwithstanding the provisions of any other law, the governing body of any sanitary district may, by ordinance or resolution, authorize the acquisition and purchase from the United States, or any agency thereof, whether now existing or hereafter created, of any equipment, supplies, materials, or other property, real or personal, in such manner as such governing body may determine.

It is the purpose of this section to enable sanitary districts to secure from time to time promptly the benefits of acquisitions and purchases as authorized by this section, to aid them in securing advantageous purchases, to prevent unemployment and thereby to assist in promotion of public welfare and to these ends such districts shall have power to do all things necessary or convenient to carry out such purpose, in addition to the expressed power conferred by this section. This section is remedial in nature and the powers hereby granted shall be liberally construed.

1945, p. 35; Michie Suppl. 1946, § 2734e.

§ 21-118.2. Certain counties authorized to use sanitary district funds for certain purposes

The board of supervisors of any county operating sanitary districts under the provisions of this chapter as amended or under the provisions of an act or acts continued in effect by § [21-120](#), may use sanitary district funds for police protection and for construction and operation of community houses within the district, provided that this section shall apply only to Chesterfield County and Henrico County. Action hereunder shall be subject to the rights of the holders of any bonds issued by such district.

1952, c. 26; 2007, c. [813](#).

§ 21-118.3. Levy and expenditure of taxes in certain counties; validation of expenditures

In addition to the powers granted in § [21-118](#) of the Code of Virginia, the governing body of any county having a population in excess of 30,000 but not in excess of 35,000 and containing two cities of the first class, in which a sanitary district has been created pursuant to the provisions of this article, may levy and collect an annual tax upon all the property in such sanitary district subject to local taxation to pay the whole or any part of the cost of construction of a sewerage and/or water supply system in such district and to pay the costs of preliminary engineering surveys and other expenses in connection with the construction of any such system.

Such governing body may expend funds from the general county levy to pay the costs for which taxes are hereinabove authorized to be levied in anticipation of the collection of such taxes. Should it be determined that a sewerage and/or water supply system in such district is not feasible, or for any other reason should the same not be constructed, the governing body of said county, after the creation of such district has been ordered, may levy and collect an annual tax upon all the property within the boundaries of such sanitary district subject to local taxation, to reimburse the county's general levy fund for any expenditures advanced therefrom in connection with engineering surveys and other expenses in and about the creation of any such district. Any such expenditure made prior to April 3, 1952, is hereby validated.

1952, c. 555.

§ 21-118.4. Certain additional powers of governing body

Notwithstanding any other provisions of law, when an ordinance has been adopted creating a sanitary district in such county, the board of supervisors or other governing body hereinafter referred to as "board of supervisors" shall have the following powers and duties, in addition to such powers and duties created by any law, subject to the conditions and limitations hereinafter prescribed:

(a) To construct, reconstruct, maintain, alter, improve, add to, and operate dams, motor vehicle parking lots, water supply, drainage, sewerage, garbage disposal, heat, light, power, gas, sidewalks, curbs, gutters, streets and street name signs, and fire-fighting systems, for the use and benefit of the public in such sanitary district and as to such motor vehicle parking lots systems to make such charges for the use of such facilities as may be prescribed by said board or body;

(a1) To acquire, construct, maintain, and operate, or to contract for such acquisition, construction, maintenance, and operation, within such sanitary district, such community buildings, community centers, other recreational facilities, and advisory community planning councils as the board may deem expedient or advisable, and to make such charges for the use of such facilities as may be prescribed by the board;

(b) To acquire by gift, condemnation, purchase, lease, or otherwise, and to maintain and operate any such dams, motor vehicle parking lots, water supply, drainage, sewerage, garbage disposal, heat,

light, power, gas, sidewalks, curbs, gutters, streets and street name signs, and fire-fighting systems in such district;

(c) To contract with any person, firm, corporation, municipality, county, authority, or the federal government or any agency thereof to acquire, construct, reconstruct, maintain, alter, improve, add to, and operate any such dams, motor vehicle parking lots, water supply, drainage, sewerage, garbage removal and disposal, heat, light, power, gas, sidewalks, curbs, gutters, streets and street name signs, and fire-fighting systems in such district, and to accept the funds of, or to reimburse from any available source, such person, firm, corporation, municipality, county, authority, or the federal government or any agency thereof for either the whole or any part of the costs, expenses, and charges incident to the acquisition, construction, reconstruction, maintenance, alteration, improvement, addition to, and operation of any such system or systems;

(d) To require owners or tenants of any property in the district to connect with any such system or systems, and to contract with the owners or tenants for such connections. In order to require owners or tenants of any property in the district to connect with any such system or systems, the board of supervisors shall have power and authority to adopt ordinances so requiring owners or tenants to connect with such systems, and to use the same, and the board of supervisors shall have power to provide for a punishment in the ordinance of not exceeding a \$50 fine for each failure and refusal to so connect with such systems, or to use the same. Before adopting any such ordinance the board of supervisors shall give public notice of the intention to propose the same for passage by posting handbill notices of such proposal in three or more public places in the sanitary district at least 10 days prior to the time the ordinance shall be proposed for passage. The ordinance shall not become effective after its passage until 10 days' like notice has been given by posting copies of such ordinance in three or more public places in the district. The board of supervisors, in lieu of giving notice in such manner, may cause notice to be published in the manner provided in § [15.2-1427](#) for imposing or increasing any tax or levy. Violations of such ordinances shall be tried before the county court of the county as is provided for trial of misdemeanors, and with like right of appeal;

(e) To fix and prescribe or change the rates of charge for the use of any such system or systems, the rate of charge for connection to any such system or systems, a late charge not to exceed 10 percent of the amount due or \$10, whichever is the greater, and interest on outstanding bills at the rate provided for in § [58.1-3918](#), after a public hearing upon notice as provided in subdivision (d) and to provide for the collection of such charges. In fixing such rates the sanitary district may seek the advice of the State Corporation Commission. The Commission may charge the district a reasonable fee for any advice given pursuant to this section. The board of supervisors may provide for the exemption from, deferral of or reduction of the rates of charge for the use of any garbage disposal system or systems by persons at least 65 years of age or persons permanently and totally disabled as defined in § [58.1-3217](#). Any such exemptions, deferrals or reductions may be conditioned upon only the income criteria

as provided by § 58.1-3211 as in effect on December 31, 2010. And to enable the board to enforce the collection of charges for the use of any such system against the person or persons, firm or corporation using the same, the charges when made for the use of any such system shall be collectible by distress, levy, garnishment, attachment or otherwise without recourse to court procedure, except so far as the selected procedure may require the same. And the board shall have power to designate as its agent for the purpose of collection such officer or officers or person or persons as it may determine, and the officer or officers or person or persons shall be vested with the same power and authority as a sheriff or constable may have in like procedure.

Water and sewer connection fees established by any county, city, town, or sanitary district shall be fair and reasonable. Such fees shall be reviewed by the county, city, town or sanitary district periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable. Nothing herein shall affect existing contracts with bondholders which are in conflict with any of the foregoing provisions.

If any rates, fees or charges for the use of and for the services furnished by any system acquired or constructed by the sanitary district under the provisions of this chapter shall not be paid within 30 days after the same shall become due and payable, and the person who incurred the debt is the occupant of such premises, the board may at the expiration of such 30-day period disconnect the premises from the water and/or sewer system, or otherwise suspend services, and the board may proceed to recover the amount of any such delinquent rates, fees or charges, with interest, in a civil action.

If any rates, fees, or charges for the use and services of any water or sewer system acquired or constructed by the sanitary district under the provisions of this chapter shall not be paid within 30 days after the same becomes due and payable, the occupant-debtor of such premises shall cease to dispose of sewage or industrial wastes originating from or on such premises by discharge thereof directly or indirectly into the sewer system until such rates, fees, or charges with interest shall be paid. If such occupant-debtor does not cease such disposal at the expiration of such 30-day period, the political subdivision or district or other public corporation, board, or body supplying water to or selling water for use on such premises may, within five days after the receipt of notice of such delinquency, cease to supply water to or to sell water to such occupant-debtor. If such political subdivision or district or public corporation, board, or body shall not, at the expiration of such five-day period, cease supplying water to or selling water for use by such occupant-debtor, then the governing body within whose geographical boundaries such sanitary district lies may shut off the supply of water to such person.

The water supply to or for any occupant-debtor shall not be shut off or stopped under the provisions of this section, if the State Health Commissioner, upon application of the local board of health or health officer of the county, city or town wherein such water is supplied or such real estate is located, shall have found and shall certify to the authorities charged with the responsibility of ceasing to supply or

sell such water, or to shut off the supply of such water, that ceasing to supply or shutting off such water supply will endanger the health of such person or the health of others in such county, city or town.

Any unpaid charge shall become a lien superior to the interest of any owner, lessee or tenant, and next in succession to county taxes, on the real property on which the use of any such system was made and for which the charge was imposed. However, such lien shall not bind or affect a subsequent bona fide purchaser of such real estate for valuable consideration without actual notice of such lien, except and until from the time that the amount of such charge is entered in the Judgment Lien Docket kept in the office where deeds may be recorded in the political subdivision wherein the real estate or a part thereof is located. It shall be the duty of the clerk in whose office deeds may be recorded to keep and preserve and hold available for public inspection such Judgment Lien Docket and to cause entries to be made and indexed therein from time to time upon certification by the board for which he shall be entitled to a fee of five dollars per entry to be paid by the board and added to the amount of the lien.

No such lien shall be placed by the board unless the board or its billing and collection agent (i) shall have advised the owner of such real estate at the time of initiating service to a lessee or tenant of such real estate that a lien will be placed on such real estate if the lessee or tenant fails to pay any fees, rents or other charges when due for services rendered to such lessee or tenant; (ii) shall have mailed to the owner of such real estate a duplicate copy of the final bill rendered to such lessee or tenant at the time of rendering the final bill to such lessee or tenant; and (iii) shall employ the same collection efforts and practices to collect amounts due the board from a lessee or a tenant as are employed with respect to collection of such amounts due from customers who are owners of the real estate for which service is provided.

Such lien on any real estate may be discharged by the payment to the board of the total amount of such lien, and interest accrued thereon to the date of such payment, and the entry fee of two dollars, and it shall be the duty of the board to deliver a certificate thereof to the person paying the same, and upon presentation thereof and the payment of the further fee of one dollar by such person, the clerk having the record of such lien shall mark the entry of such lien satisfied.

Jurisdiction to enforce any such lien shall be in equity and the court may decree the real estate subject to the lien, or any part thereof, to be sold and the proceeds applied to the payment of such lien and the interest which may accrue to the date of such payment.

Nothing contained herein shall be construed to prejudice the right of the board to recover the amount of such lien, or of the charge, and the interest which may accrue, by action at law or otherwise, which relief shall be cumulative and not alternative;

Sanitary Districts

- (f) To employ and fix the compensation of any technical, clerical, or other force and help which from time to time, in their judgment, may be deemed necessary for the construction, operation, or maintenance of any such system or systems;
- (g) To negotiate and contract with any person, firm, corporation, county, authority, or municipality with regard to the connection of any system or systems with any other system or systems now in operation or hereafter to be established, and with regard to any other matter necessary and proper for the construction or operation and maintenance of any such system within the sanitary district;
- (h) To contract for the extension of any such system into territory outside of the district, and for the use thereof, upon such terms and conditions as the board may from time to time determine upon;
- (i) With respect to the maintenance and operation of said motor vehicle parking lots system, the board is authorized to purchase, install, maintain, and operate, and to fix and charge parking meter fees for the use of, such parking lot or lots;
- (j) Insofar as is permitted by Article VIII, Section 5 and Article VIII, Section 7 of the Constitution of Virginia to construct or contract to construct within such sanitary district, at the request of the school board and subject to all provisions of law applicable to the construction of school buildings, and additions thereto;
- (k) To borrow not earlier than January 1 of any year, or the first day of the fiscal year of the district, for the purpose of meeting casual deficits in the revenue of the district or creating a debt in anticipation of the collection of the revenue of the district, a sum of money not to exceed one-half of the amount reasonably anticipated to be produced by the revenues of the district, including taxes levied pursuant to [§ 21-119](#), for the year in which the loan is negotiated; provided, there shall be excluded from the amount reasonably anticipated to be produced by the revenue of the district any anticipated tax revenues of the district which have not actually been levied and assessed against property within the district.

Notwithstanding any provisions of law to the contrary, any sanitary district is empowered to borrow in advance of grants and reimbursements due the district from the federal and state governments for the purpose of meeting appropriations for the then current fiscal year. "Grants" and "reimbursements" as used herein shall mean grants which the district has been formally advised in writing it will receive, and reimbursements on moneys which the federal or state governments are obligated to pay the district on account of expenditures made in anticipation of receiving such payment from the federal or state government. The district may borrow the full amount of the grant or reimbursement that the federal or state government is obligated to pay at the time the loan is issued. The loan shall be repaid within 60 days of the time the grant or reimbursement is received, but in any event, the loan shall be repaid within one year from the date of its issue.

Such temporary loans shall be evidenced by notes or bonds, negotiable or nonnegotiable as the board of supervisors may determine; shall bear interest at a rate as provided in § [2.2-5000](#); and shall be repaid not later than either December 15 of the year in which they are borrowed or 15 days before the last day of the fiscal year of the district. No extension of any such loan shall be valid. No additional loan under this subsection shall be made until all temporary loans of preceding years shall have been paid. No election shall be required for the issuance of any bond pursuant to the provisions of this subsection. Except as this subsection otherwise provides, any bonds issued pursuant to this subsection may be issued in accordance with the provisions of §§ [21-130](#) through [21-136](#);

(l) Notwithstanding any other provision of this chapter to the contrary, where the use of any water or sewer systems described in this section is contracted for by an occupant who is not the owner of the premises and where such occupant's premises are separately metered for service, the owner of any such premises shall be liable only for the payment of delinquent rates or charges applicable to three delinquent billing periods but not to exceed a period of 90 days for such delinquency. No board shall refuse to service other premises of the owner not occupied by an occupant who is delinquent in the payment of such rates or charges on account of such delinquency provided that such owner has paid in full any delinquent charges for which he would be responsible for paying. No board shall refuse to service or unreasonably delay reinstatement of service to premises where such occupant who is delinquent has vacated the premises and a new party has applied for service provided such owner has paid in full such delinquent charges as he would be responsible for paying.

§ 21-118.5. Unified water supply and sewerage systems for counties and sanitary districts; power of county governing body to fix rates; application of Public Finance Act

Whenever the board of supervisors of any county, as the governing board of such county, shall enter into, or has heretofore entered into, an agreement with one or more sanitary districts located within such county whereby the county has agreed to connect, operate, maintain, alter, improve, add to and extend within and without the territory of such sanitary district or districts the water supply or sewerage systems, or the water supply and sewerage systems, of such county and such district or districts, or the water supply or sewerage systems, or the water supply and sewerage systems, of two or more such sanitary districts, in the manner of and as a unified single water supply or sewerage system, or a unified single water supply and sewerage system, each of which is hereinafter referred to in this chapter as a "unified system," then, notwithstanding the provisions of the first sentence of § [21-118.4](#) (e), such board of supervisors is empowered to fix and prescribe the rate of charge for the use of such unified system with a view to the needs of such unified system as a whole. Such unified system shall constitute a "project" and a "revenue producing undertaking" for the purposes of and as defined in the

Public Finance Act, Chapter 26 (§ [15.2-2600](#) et seq.) of Title 15.2. Such county in respect of such project and revenue producing undertaking shall have all the powers granted to counties by the Public Finance Act. Water and sewer connection fees established by any county, city, town or sanitary district shall be fair and reasonable. Such fees shall be reviewed by the county, city, town or sanitary district periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable. Nothing herein shall affect existing contracts with bondholders which are in conflict with any of the foregoing provisions.

1972, c. 221; 1997, c. [12](#).

§ 21-118.6. Same; application of revenues; tax levy where revenues insufficient

Whenever a county and one or more sanitary districts have entered into an agreement for a unified water supply or sewerage system, or unified water supply and sewerage system, and such county has agreed therein to pay from the revenues of such unified system the principal of and interest on all bonds issued for water or sewer purposes, or both, as the case may be, by such sanitary district or districts, and to impose such schedule of rates, rentals, fees and charges for the use and services of such unified system so as to produce revenues sufficient for such payment, such county may also apply the revenues derived from such rates, rentals, fees and charges to the payment of the cost of operation and maintenance of the unified system, to the cost of renewals and replacements and to any other lawful purposes connected with or pertaining to such unified system, including the making of additions to and expansions of such unified system, to the payment of the principal of and interest on any bonds issued by such county for the purpose of such unified system and to the creation and maintenance of such reserves as may be deemed necessary by such county to effect any financing for such unified system. The order of any priority of the application of such revenues to any of the foregoing purposes, including to the payment of the principal of and interest on such bonds of the sanitary districts, may be determined by the board of supervisors as the governing body of the county. If at any time the revenues derived from rates, rentals, fees and charges for the use and services of such unified system, are insufficient to provide for the operation and maintenance of the unified system, and for payment of principal of and interest on such bonded indebtedness of the sanitary district as the same shall become due, such sanitary district shall levy an annual tax upon all property in such sanitary district subject to local taxation to pay such principal and interest as the same shall become due. Nothing contained in the immediately preceding sentence shall, however, be construed to relieve the county of its obligations under any such agreement to impose rates, rentals, fees and charges for the use and services of such system sufficient to pay such costs of operation and maintenance and to provide for the payment of such principal and interest.

1972, c. 221.

§ 21-118.7. Same; payment to county of revenues held by district

Any agreement for the creation of a unified system may provide for the payment over to the county of net revenues held by the district or districts theretofore derived from the water supply or sewerage systems, or both, of the district or districts that are to become part of such unified system.

1972, c. 221.

§ 21-118.8. Same; ratification of prior agreements

Any agreement heretofore entered by a county with one or more sanitary districts with respect to a unified system containing provisions substantially in compliance with §§ [21-118.5](#), [21-118.6](#) or [21-118.7](#), and the proceedings heretofore taken with respect to such agreement, are hereby ratified, validated, confirmed and approved, notwithstanding that any provisions of said agreement may have been inconsistent with the provisions of this chapter prior to the enactment of §§ [21-118.5](#) to [21-118.8](#).

1972, c. 221.

§ 21-119. Sanitary districts are special taxing districts; nature of improvements; jurisdiction of governing bodies, etc., not affected

A. Each sanitary district created or purported to be created by the governing body of a county, heretofore or hereafter made and adopted pursuant to any general law of the Commonwealth, is hereby determined to be and is hereby made, from and after the date of such creation or purported creation, a special taxing district for the purposes for which created; and any improvements heretofore or hereafter made by or for any such district are hereby determined to be general tax improvements and of general benefit to all of the property within the sanitary district, as distinct from peculiar or special benefits to some or all of the property within the sanitary district.

B. Neither the creation of the sanitary districts as special taxing districts nor any other provision in this chapter shall in any wise affect the authority, power and jurisdiction of the respective county governing bodies, sheriffs, treasurers, commissioners of the revenue, circuit courts, clerks, judges, magistrates or any other county, district or state officer over the area embraced in any such district, nor shall the same restrict or affect in any way any county, or the governing body of any county, from imposing on and collecting from abutting landowners, or other landowners receiving special or peculiar benefits, in any such district, taxes or assessments for local public improvements as permitted by the Constitution and by other statutes of the Commonwealth.

C. Notwithstanding subsections A and B, the board of supervisors of Buckingham County, Nottoway County, or Westmoreland County may impose on, and collect from, landowners abutting a street being improved by the sanitary district a user fee for such service. Such fee may be enforced as provided in § [21-118.4](#).

§ 21-119.1. Transfer of certain sanitary districts to towns

Sanitary Districts

(1) The governing body of any county in which a sanitary district has been established and subsequent thereto a town has been created, the boundaries of such town being the same as those of the sanitary district, is authorized to transfer all jurisdiction and control over such district to such town.

(2) Such transfer shall be subject to approval by the bondholders.

(3) Upon the transfer of such district to the town all power and authority of the county over the affairs of such district shall terminate and all such power and authority shall be transferred to and vest in the governing body of the town and all obligations and indebtedness of such district shall be and become an obligation of the town. Such transfer shall not be made, unless, in addition to the other conditions herein set forth, the governing body of such town assents thereto.

1977, c. 183.

§ 21-121.6.Sanitary districts in certain counties with a water and sewer authority

A. This section shall apply to any sanitary district created after January 1, 1993, in a county with an authority created pursuant to the Virginia Water and Waste Authorities Act (§ [15.2-5100](#) et seq.).

B. The circuit court shall not enter an order pursuant to § [21-123](#) requiring an election until a resolution of the governing body requesting the entry of such order has been filed with the circuit court.

C. Notwithstanding the provisions of §§ [21-125](#) and [21-128](#), if an election conducted pursuant to § [21-124](#) indicates that a majority of the qualified voters of the sanitary district voting on the question are in favor of issuing bonds for a purpose for which the sanitary district was created, no bonds of the sanitary district shall be issued, and the circuit court shall not require the issuance of such bonds, without the approval of the governing body of the county.

D. If a sanitary district levies a tax upon property within the sanitary district pursuant to subdivision 6 of § [21-118](#), such tax shall be based on the full assessed value of the taxable property within the sanitary district, notwithstanding any special use value assessment of property within the sanitary district for land preservation pursuant to Article 4 (§ [58.1-3229](#) et seq.) of Chapter 32 of Title 58.1. In addition to the notice required pursuant to § [21-114](#), the petitioners shall provide a written notice of the court hearing to each owner of property within the proposed district which is currently assessed at its use value pursuant to Article 4 (§ [58.1-3229](#) et seq.) of Chapter 32 of Title 58.1. Such notice shall be mailed, first class, at least twenty-one days prior to the hearing to each such owner as listed in the current real estate assessment records, and an affidavit shall be filed with the court evidencing that such notice has been mailed.

E. The county's claim of taxes and its lien on property pursuant to Article 11 (§ [58.1-3340](#) et seq.) of Chapter 32 of Title 58.1 shall have priority over any claim or lien for any tax levied pursuant to subdivision 6 of § [21-118](#).

F. The governing body of a sanitary district may enter into agreements with an authority created pursuant to the Virginia Water and Waste Authorities Act (§ [15.2-5100](#) et seq.) for the construction, operation, use, control, ownership, and maintenance of any water supply, sewerage or other systems or facilities located within or outside of the boundaries of the sanitary district. Such agreements may provide that the authority will provide any service which the authority is permitted to provide and which the sanitary district may provide through the construction, establishment, maintenance, and operation of its own system or systems. The governing body of the county shall have the power to issue bonds of the sanitary district for the construction, establishment, and maintenance of any systems providing such service, whether such systems are owned by the sanitary district or the authority. The sanitary district and the authority may also agree on the imposition, collection, and use of rates, fees, and charges relating to such systems, including reimbursements by or to persons utilizing such systems. Notwithstanding the provisions of subdivision 2 of § [21-118](#), the sanitary district may sell, lease as lessor, transfer or dispose of any of its property, real, personal or mixed, to the authority without holding a public hearing.

1993, c. 272.

§ 21-122. Authority to issue bonds; limitation of amount

The governing body of any county in which a sanitary district has been or may hereafter be created by general or special law shall have power, subject to the conditions and limitations of this article, to issue bonds of such sanitary district to an amount in the aggregate of not exceeding eighteen per centum of the assessed value of all real estate in the district subject to local taxation, for the purpose of raising the necessary funds to carry into effect any or all of the purposes specified in Article 1 (§ [21-112.22](#) et seq.) of Chapter 2 of Title 21, provided, however, that such limitation of eighteen per centum shall not apply if the petition required by § [21-123](#) states the maximum amount of bonds to be issued, and if such bonds are to be issued for a specific undertaking from which the sanitary district may derive revenue, but from and after a period to be determined by the governing body of the county, not exceeding five years from the date of the election authorized in § [21-123](#), whenever and for so long as such undertaking fails to produce sufficient revenue to pay the cost of operation and administration (including interest on bonds issued therefor), and the cost of insurance against loss by injury to persons or property, and an annual amount to be covered into a sinking fund sufficient to pay, at or before maturity, all bonds issued on account of such undertaking, all such bonds outstanding shall be included in determining such limitation.

1946, p. 180; Michie Suppl. 1946, § 1560z1; 1964, c. 165.

§ 21-122.1. Bonds for special purpose; no election required

The governing body of any county in which a sanitary district has been or may be created by general or special law shall have the power to issue bonds to satisfy improvements to water or sewerage systems mandated by the State Water Control Board, pursuant to the Federal Water Pollution Control Act, as amended (P.L. 92-500).

The principal and interest on bonds issued under this section shall be paid by the governing body exclusively from revenues and receipts from the water or sewerage system which is to be improved.

For the purposes of this section, the term "mandated" shall also mean any agreement between a governing body and the State Water Control Board to come into compliance with the requirements of the State Water Control Law.

Issuance of such bonds shall be subject to the conditions or limitations of this article; however, no bond referendum shall be required for bonds to be issued pursuant to this section. The sections of this article pertaining to election requirements and procedures shall not be applicable where bonds are to be issued for the purposes set forth herein. In addition, the provisions of §§ [21-137.2](#) and [21-138](#), authorizing an annual tax to be levied upon all the property in the district in order to pay the principal and interest due on the bonds, shall not be applicable to bonds issued under this section.

All bonds issued under the provisions of this section shall contain a statement on their face substantially to the effect that neither the faith and credit of the Commonwealth nor the faith and credit of any county, city, town or other subdivision of the Commonwealth are pledged to the payment of the principal of or the interest on such bonds. The issuance of revenue bonds under the provisions of this section shall not directly or indirectly or contingently obligate the Commonwealth or any county, city, town or other subdivision of the Commonwealth to levy any taxes whatever therefor or to make any appropriation for their payment except from the funds pledged under the provisions of this section.

1986, c. 340.

§ 21-123. Order requiring election

The circuit court of such county, upon the petition of a majority of the members of the governing body of the county, or upon the petition of fifty qualified voters residing in such sanitary district, shall make an order in accordance with § [24.2-684](#) requiring the officers of election to open a poll and take the sense of the qualified voters of the district on the question whether the governing body shall issue bonds for one or more of the purposes for which the sanitary district was created.

1946, p. 181; Michie Suppl. 1946, § 1560z2; 1976, c. 11.

§ 21-124. Conduct of election; canvass of returns, etc

The election shall be conducted in the manner prescribed by law for the conduct of regular elections, and the ballots shall be printed and voted, and the returns made and canvassed and the results certified, in accordance with the provisions of § [24.2-684](#).

1946, p. 181; Michie Suppl. 1946, § 1560z3.

§ 21-125.Procedure after election

If it shall appear from the report of the commissioners of election that a majority of the qualified voters of the sanitary district voting on the question are in favor of issuing the bonds, the circuit court, or the judge thereof in vacation, shall enter of record an order requiring the governing body to proceed at its next meeting to carry out the wishes of the voters as expressed at the election.

1946, p. 181; Michie Suppl. 1946, § 1560z4.

§ 21-126.Inquiry into election and returns

Whenever the sense of the qualified voters of the district shall be taken on the question whether the governing body shall issue bonds for one or more of the purposes for which the sanitary district was created, election and returns shall be subject to the inquiry, determination and judgment of the circuit court of the county upon the written complaint of twenty-five or more of the qualified voters of the district, of an undue election or false returns, two of whom shall take an oath that the facts set forth in such complaint are true to the best of their knowledge and belief, and the court shall, in judging of such election and returns, proceed upon the merits thereof and determine concerning the same according to the Constitution and laws of this Commonwealth, but such complaint shall not be valid unless it shall have been filed within thirty days after the election in the office of the clerk of the court. The governing body of the county shall be made a defendant by summons or notice to its chairman of the filing of the complaint, and after such service of notice on the chairman of such governing body, either party, upon reasonable notice to the other, shall be at liberty to take depositions to sustain or invalidate such election. Service of notice on any three of the complainants shall be sufficient. The court shall proceed at its next term after such service of summons or notice to determine the contest without a jury on the evidence, oral or written, unless good cause be shown for a continuance, and shall make a proper record of its judgment. If the judgment be that the election was a valid one in favor of the issuance of bonds in the district, the court shall make an order in conformity with § [21-125](#).

1946, p. 181; Michie Suppl. 1946, § 1560z5.

§ 21-127.Amount of bonds

The governing body at its next meeting or as soon thereafter as practicable, shall determine what amount of bonds shall be issued for the purposes defined in the order calling the election.

The maximum amount of bonds issued shall in no case exceed the limitations prescribed in § [21-122](#), and in the event such governing body does not at such meeting direct the present issuing of all bonds, it may thereafter, from time to time, direct the residue thereof to be issued to carry out the wishes of the voters, so far as necessary, as expressed in such election.

1946, p. 181; Michie Suppl. 1946, § 1560z6.

§ 21-127.1.Borrowing in anticipation of bond issue

(a) In anticipation of the issuance of bonds under the provisions of this chapter and of the receipt of the proceeds of sale of such bonds, the governing body may on behalf of the sanitary district borrow money for the purpose for which such bonds have been authorized and within the maximum authorized amount of the bond issue. Each such loan shall mature and be paid within two years from the date of its original issue; provided, that on or after such maturity, any loan now outstanding or hereafter made may be extended from time to time, provided, further, that no such extension shall mature and be paid later than five years from the date of the original issue of said loan. The governing body may, in its discretion, retire any such loans by means of current revenues, special assessments, or other funds, in lieu of retiring them by means of bonds; provided that the maximum amount of bonds that has been authorized shall be reduced by the amount of such loans retired in such manner.

(b) Negotiable notes or other obligations shall be issued for all moneys borrowed under subsection (a). Such notes or other obligations may be renewed from time to time and money may be borrowed upon notes or other obligations from time to time for the payment of any indebtedness evidenced thereby, but all such notes or other obligations shall mature within the time limited by said subsection (a). The issuance of such notes or other obligations and other details thereof shall be governed by the provisions of this chapter with respect to bonds insofar as the same may be applicable.

(c) All such notes or other obligations heretofore issued on behalf of a sanitary district and proceedings had in connection therewith which conform to this section are hereby ratified, validated and confirmed and declared to be legal and as fully binding obligations as if issued under this section.

1966, c. 189; 1970, c. 124.

§ 21-128.Failure or refusal to issue bonds

In event the governing body, for any reason, fails or refuses to issue the bonds so authorized to be issued, the circuit court of the county may, upon the complaint of ten qualified voters of the district, and after ten days' notice to the chairman of the governing body, for cause shown, issue an order directing it to issue such bonds or any unissued residue thereof, or such portion thereof as the court may, from time to time, deem proper to be issued in order to carry out the wishes of the voters as expressed in the election.

1946, p. 182; Michie Suppl. 1946, § 1560z6.

§ 21-129.Agents for sale of bonds

The governing body shall have power to appoint an agent or agents to sell the bonds and to pay such agent or agents a commission for negotiating the sale not exceeding three per centum of the amount of bonds sold by them, provided the bonds shall be sold to be paid for in lawful money only, and shall not be sold at less than their par value. When such a sale has been negotiated, the governing body shall issue the bonds.

1946, p. 182; Michie Suppl. 1946, § 1560z6.

§ 21-130. Form of bonds

Such bonds may be either registered or with coupons attached, as the governing body may prescribe, and coupon bonds may be registerable as to principal, or as to principal and interest, at the option of the holder, under such rules and regulations as may be prescribed by the governing body. The bonds shall be signed by the chairman and countersigned by the clerk of the governing body under its seal; shall be in denominations of \$100 or some multiple thereof; shall bear interest at a rate not exceeding six percent per annum, payable semi-annually, both principal and interest to be payable at such place or places as may be determined by the governing body, and shall be payable not exceeding thirty-four years from the date thereof, but may, in the discretion of the governing body, be made redeemable at such time or times within such period or periods and upon such notice as the governing body may prescribe and stipulate upon the face of the bond when issued.

1946, p. 182; Michie Suppl. 1946, § 1560z6.

§ 21-130.1. Bonds mutilated, lost or destroyed

Should any bond issued under this chapter become mutilated or be lost or destroyed, the governing body of the county may cause a new bond of like date, number and tenor to be executed and delivered in exchange and substitution for, and upon cancellation of, such mutilated bond and its interest coupons, or in lieu of and in substitution for such lost or destroyed bond and its unmatured interest coupons. Such new bond shall not be executed or delivered until the holder of the mutilated, lost or destroyed bond (1) has paid the reasonable expense and charges in connection therewith and (2) in the case of a lost or destroyed bond has filed with the governing body and the county treasurer evidence satisfactory to such governing body and treasurer that such bond was lost or destroyed and that the holder was the owner thereof and (3) has furnished indemnity satisfactory to the county treasurer.

1962, c. 208.

§ 21-131. Delivery to treasurer

The governing body shall deliver the bonds to the treasurer of the county, who shall deliver them to the purchasers thereof, or to their order, upon the payment of the purchase price thereof.

1946, p. 182; Michie Suppl. 1946, § 1560z6.

1946, p. 182; Michie Suppl. 1946, § 1560z6.

§ 21-133. Cost of giving surety on additional bond or bonds required

The treasurer shall receive the reasonable cost of giving surety on such additional bond or bonds as may be required of him, if any, on account of his receipts heretofore or hereafter of such funds.

1946, p. 182; Michie Suppl. 1946, § 1560z6; 1952, c. 283.

§ 21-134. Deposit of proceeds

The governing body may direct the treasurer to deposit the proceeds of the bond issue in such bank or banks as it may approve, to the credit of such treasurer, to be paid out on his checks therefor, and at the rate of interest to be specified, and all interest accrued therefrom shall be accounted for by the treasurer, and shall be expended for the purposes for which the bonds were issued, and insofar as not necessary therefor, shall be paid into the sinking fund to redeem the principal thereof at maturity.

1946, p. 182; Michie Suppl. 1946, § 1560z6.

§ 21-134.01. Allocation of county funds to sanitary districts

The governing body of any county may advance funds, not otherwise specifically allocated or obligated, from the general fund to a sanitary district to assist the sanitary district to initiate the project for which it was created.

1964, c. 242, § 15.1-26.1; 1997, c. 587.

§ 21-134.1. Reimbursement of county for advances to sanitary district

Notwithstanding the provisions of § [21-132](#), the governing body shall direct the treasurer to reimburse the general fund of the county from the proceeds of the bond issue or from any funds to the credit of the sanitary district, not otherwise specifically allocated or obligated to the extent that the county has made advances to the sanitary district from such general fund to assist the district to initiate or effectuate the project for which it was created.

1954, c. 321; 1962, c. 335.

§ 21-134.2. Validation of advances to sanitary district

The advancement of any funds heretofore advanced from the general fund by the board of supervisors of any county in this Commonwealth for the benefit of a sanitary district in effectuating a project lawful for such sanitary district is hereby validated and confirmed.

1954, c. 321.

§ 21-135. Insolvency of depository

The treasurer shall not be liable for any deposits which shall be lost by reason of the insolvency or failure of any bank in which he shall have been directed by the governing body to deposit them.

1946, p. 183; Michie Suppl. 1946, § 1560z6.

§ 21-136. Bond of depository

A bond with surety may be required by such governing body from any bank in which such deposits are made.

1946, p. 183; Michie Suppl. 1946, § 1560z6.

§ 21-137.1. Payment of interest on and maintenance of sinking fund for term bonds; tax levy; what constitutes "term bonds" and "serial bonds."

When term bonds have been issued the net revenue derived from the operation of such systems shall be set apart by the said board to pay the interest on the bonds so issued or to be issued, and to create a sinking fund to redeem the principal thereof at maturity. The board of supervisors is hereby authorized and empowered to apply any part or all of said sinking fund to the payment, if redeemable by their terms, or to the purchase of any such bonds, at any time, and all bonds so paid off or purchased by the board of supervisors shall be immediately cancelled, and shall not be reissued. The board of supervisors is authorized and empowered to invest all accumulations of money to the credit of the sinking fund in bonds of the United States, of the Commonwealth of Virginia, or of any county, city or town of the Commonwealth of Virginia, or to lend out, upon real estate security, the loan not to exceed fifty per centum of the assessed value of such real estate, or deposit in bank at interest, all accumulations of money to the credit of the sinking fund and to collect and reinvest the same and the interest accruing thereon from time to time, so often as is necessary or expedient, until the bonds become subject to call; provided that no money to the credit of the sinking fund shall be loaned out or deposited or invested by the board of supervisors unless such loan, deposit or investment is first approved by the circuit court of the county, or the judge in vacation, and the form of the security be examined and approved by the attorney for the Commonwealth of the county, which approval shall be entered of record in the order book of the court.

The treasurer shall not be liable for any funds herein provided for that are lost while on deposit made by order of the board of supervisors with any bank or banks, or when invested in any real estate security as provided herein, but the board of supervisors may require of any such bank a bond, with corporate or other surety, to secure such deposit, or may require a pledge of securities to secure such deposits as provided in §§ [58.1-3158](#) and [2.2-4400](#).

The board of supervisors shall, if necessary for the payment of interest on the bonds or to increase the sinking fund provided for hereunder, levy an annual tax upon all property in such sanitary district subject to local taxation to pay such interest and to make payments into such sinking fund. For the purposes of this section and § [21-137.2](#), the words "serial bonds" and "term bonds" shall have the respective meanings customarily given them in the municipal bond market. A finding made by the board of supervisors that an issue of bonds comprises term bonds or serial bonds, or that specified portions thereof comprise term bonds or serial bonds, as the case may be, shall be conclusive for all purposes of this section and § [21-137.2](#).

1972, c. 236.

§ 21-137.2.Payment of interest on serial bonds; no sinking fund required; tax levy; use of excess revenues

When serial bonds have been issued, the net revenue derived from the operation of such systems shall be applied to pay the interest on and the principal of such serial bonds as the same become due, but no sinking fund shall be required in respect of serial bonds.

The board shall, if necessary, levy an annual tax upon all property in such sanitary district, subject to local taxation, to pay such principal and interest as shall annually become due for payment. In the event net revenue exceeds the annual principal and interest due thereon, the board may use such net revenue for extensions and additions to the system, purchase and retirement of outstanding bonds of the district, or for any other lawful purpose consistent therewith.

1972, c. 236.

§ 21-138.Same; levy of tax

The governing body shall, if necessary for the payment of the interest on the bonds or to increase the sinking fund provided for hereunder, levy an annual tax upon all the property in the district subject to local taxation to pay such interest and to make payments into the sinking fund.

If the petition bears the signatures of the requisite number of registered voters of a county or city, or two or more cities, then the petition shall be deemed to be the joint petition of the particular combination of political subdivisions named in the petition. If the petition deals in whole or in part with a portion or portions of a political subdivision or subdivisions, then the number of signatures necessary for each portion of a political subdivision shall be the same as if the whole political subdivision were involved in the petition, and may come from the political subdivision at large.

Code 1950, § 21-13; 1964, c. 512; 1970, c. 480; 1988, c. 891.

§ 10.1-509. Disapproval of petition

If the Board disapproves the petition, its determination shall be recorded, and if the petitioners are the governing body of a district, county or city or a part of a county or city, the governing body shall be notified in writing. If the petitioners are the requisite number of registered voters prescribed by subdivision 4 of § [10.1-507](#), notification shall be by a notice printed once in a newspaper of general circulation within the area designated in the petition.

1970, c. 480, § 21-13.1; 1988, c. 891.

§ 10.1-510. Petition approved; Board to give notice of hearing

If the Board approves the petition, within sixty days after such determination, the Board shall provide due notice of the approval in a newspaper of general circulation in each county or city involved. The notice shall include notice of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the action proposed by the petition upon (i) the question of the appropriate boundaries to be assigned to such district, (ii) the propriety of the petition and other proceedings taken under this chapter, and (iii) all questions relevant to such inquiries.

§ 10.1-511. Adjournment of hearing when additional territory appears desirable

Code 1950, § 21-16; 1988, c. 891.

§ 10.1-512. Determination of need for district

After a public hearing, if the Board determines that there is need, in the interest of the public health, safety, and welfare, for the proposed district to function in the territory considered at the hearing, it shall record its determination, and shall define, by metes and bounds or by legal subdivisions the boundaries of the district. In so doing, the Board shall consider (i) the topography of the area considered and of the Commonwealth, (ii) the composition of soils in the area, (iii) the distribution of erosion, (iv) the prevailing land-use practices, (v) the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits the lands may receive from being included within such boundaries, (vi) the relation of the proposed area to existing watersheds and to other soil and water conservation districts already organized or proposed for organization, (vii) the existing political subdivisions, and (viii) other relevant physical, geographical, economic, and funding factors. The territory to be included within such boundaries need not be contiguous.

Code 1950, § 21-17; 1964, c. 512; 1970, c. 480; 1988, c. 891; 2002, c. [192](#).

§ 10.1-513.Determination that district not needed

If the Board determines after the hearing, and after due consideration of the relevant facts, that there is no need for a soil and water conservation district to function in the territory considered at the hearing, it shall record its determination and deny the petition.

Code 1950, § 21-18; 1964, c. 512; 1988, c. 891.

§ 10.1-514.Determination of feasibility of operation

After the Board has made and recorded a determination that there is need for the organization of the proposed district in a particular territory, and has defined the boundaries, it shall consider whether the operation of a district within such boundaries is administratively practicable and feasible. In making its determination, the Board shall consider the attitudes of the occupiers of lands lying within the defined boundaries, the probable expense of the operation of such district, the effect upon the programs of any existing districts, and other relevant economic and social factors. If the Board determines that the operation of a district is administratively practicable and feasible, it shall record its determination and proceed with the organization of the district. If the Board determines that the operation of a district is not administratively practicable and feasible, it shall record its determination and deny the petition. If the petition is denied, the Board shall notify the petitioner in the manner provided in this chapter.

Code 1950, § 21-20; 1964, c. 512; 1970, c. 480; 1988, c. 891.

§ 10.1-515.Composition of governing body

If the Board determines that the operation of the proposed district within the defined boundaries is administratively practicable and feasible, and the proposed district is created, then its governing body shall be a board of district directors appointed or elected in the number and manner specified as follows:

1. If the district embraces one county or city, or less than one county or city, the board of district directors shall consist of five members, three to be elected by the registered voters of the district and two appointed by the Board.
2. If the district embraces more than one county or city, or parts thereof, the board of district directors shall consist of two members elected by the registered voters from each county or city, or parts thereof embraced by the district. Two members-at-large shall be appointed by the Board.

§ 10.1-516.Status of district directors in event of transfer, merger, or division of districts

In the event of the transfer, merger, or division of districts, the status of the district directors involved shall be affected as follows:

1. The composition of an existing district board of a district to which territory is transferred shall remain in effect until the terms of office of the present elected members expire. Upon the transfer of a county

or city, or parts thereof, from one district to another district, (i) elected district directors residing within the territory transferred shall be appointed as directors of the district to which the territory is transferred for a term of office to coincide with that of the elected directors of the district to which the territory is transferred; and (ii) appointed district directors residing within the territory transferred shall be appointed as directors of the district to which the territory is transferred for a term of office to coincide with that of the appointed directors, either as an extension agent appointee or an at-large appointee of the district to which the territory is transferred. At the option of the petitioners, a petition may request that a proposed transfer be treated as a merger or division for the purpose of this section, and the Board at its discretion may grant or refuse such request.

2. Upon the merger of existing districts, or upon the separation from two or more existing districts of a county or city, or parts thereof, which merge to create a new district, all district directors residing within the territory merged shall be appointed as directors of the new district. Following the merger, (i) elected district directors residing within the territory of the new district shall be appointed as directors of the new district for a term of office to coincide with that of elected directors as provided in § [10.1-529](#); and (ii) appointed district directors residing within the new district shall be appointed as directors of the new district for a term of office to coincide with that of the appointed directors, either as an extension agent appointee or an at-large appointee of the district as provided in § [10.1-529](#).

3. Upon the division of an existing district, to create a new district, all elected or appointed district directors residing within the territory to be divided from the existing district shall be appointed as directors of the new district. Following the division, (i) elected district directors residing within the territory of the new district shall be appointed as directors of the new district for a term of office to coincide with that of elected directors as provided in § [10.1-529](#); and (ii) appointed district directors residing within the territory of the new district shall be appointed as directors of the new district for a term of office to coincide with that of the appointed directors, either as an extension agent appointee or an at-large appointee of the district as provided in § [10.1-529](#).

This section shall not be construed as broadening or limiting the size of a governing body of a district as prescribed by § [10.1-515](#). If the operation of this section results in a governing body larger or smaller than the appropriate size permitted by § [10.1-515](#), then such a variation, if not otherwise corrected by operation of this section, shall be cured by appropriate appointments by the Board and with the next general election after the transfer, merger, or division in which all those elected directors prescribed by § [10.1-515](#) may be elected.

1970, c. 480, § 21-27.2; 1988, c. 891; 2002, cc. [143](#), [236](#).

§ 10.1-517. Application and statement to the Secretary of the Commonwealth

Upon the creation of a district by any means authorized by this chapter, two district directors appointed by the Board and authorized by the Board to do so, shall present to the Secretary of the

Commonwealth an application signed by them, which shall set forth: (i) that a petition for the creation of the district was filed with the Board pursuant to the provisions of this chapter, and that the proceedings specified in this chapter were conducted; (ii) that the application is being filed in order to complete the organization of the district as a political subdivision under this chapter; (iii) that the Board has appointed them as district directors; (iv) the name and official residence of each of the district directors together with a certified copy of the appointments evidencing their right to office; (v) the term of office of each of the district directors; (vi) the proposed name of the district; and (vii) the location of the principal office of the district directors. The application shall be subscribed and sworn to by the two district directors authorized by the Board to make such application before an officer authorized by the laws of the Commonwealth to take and certify oaths. The application shall be accompanied by a certified statement by the Board that the district was created as required by law. The statement shall set forth the boundaries of the district as they have been defined by the Board.

If the creation of a district necessitates the dissolution of an existing district, an application shall be submitted to the Secretary of the Commonwealth, with the application for the district to be created, by the directors of the district to be dissolved, for the discontinuance of such district, contingent upon the creation of the new district. The application for discontinuance, duly verified, shall simply state that the lands encompassed in the district to be dissolved shall be included within the territory of the district created. The application for discontinuance of such district shall be accompanied by a certified statement by the Board that the discontinued district was dissolved as required by law and the new district was created as required by law. The statement shall contain a description of the boundaries of each district dissolved and shall set forth the boundaries of the district created as defined by the Board. The Secretary of the Commonwealth shall issue to the directors of each district a certificate of dissolution and shall record the certificate in an appropriate book of record in his office.

When the boundaries of districts are changed pursuant to the provisions of this chapter, the various affected district boards shall each present to the Secretary of the Commonwealth an application, signed by them, for a new certificate of organization evidencing the change of boundaries. The application shall be filed with the Secretary of the Commonwealth accompanied by a certified statement by the Board that the boundaries have been changed in accordance with the provisions of this chapter. The statement by the Board shall define the new boundary line in a manner adequate to describe the boundary changes of districts. When the application and statement have been filed with the Secretary of the Commonwealth, the change of boundary shall become effective and the Secretary of the Commonwealth shall issue to the directors of each of the districts a certificate of organization evidencing the change of boundaries.

Code 1950, § 21-28; 1964, c. 512; 1970, c. 480; 1988, c. 891.

§ 10.1-518. Action of Secretary on the application and statement; change of name of district

The Secretary of the Commonwealth shall examine the application and statement and, if he finds that the name proposed for the district is not identical to that of any other soil and water conservation district shall receive and file them and shall record the application in an appropriate book of record in his office. If the Secretary of the Commonwealth finds that the name proposed for the district is identical to that of any other soil and water conservation district, or so nearly similar as to lead to confusion and uncertainty, he shall certify such fact to the Board, which shall submit to the Secretary of the Commonwealth a new name for the district. Upon receipt of the new name, the Secretary of the Commonwealth shall record the application, with the name so modified, in an appropriate book of record in his office. When the application and statement have been made, filed and recorded, as herein provided, the district shall constitute a political subdivision of the Commonwealth. The Secretary of the Commonwealth shall make and issue to the directors a certificate, under the lesser seal of the Commonwealth, of the due organization of the district and shall record the certificate with the application and statement. The boundaries of the district shall include the territory as determined by the Board, but shall not include any area included within the boundaries of another district, except in those cases otherwise provided for in this article. The name of any district may be changed if a petition for such change is subscribed by twenty-five or more landowners from each county or city comprising the district and adopted by resolution of the district directors at any regular meeting. The district directors shall submit a copy of the resolution to the Board and, if the Board concurs, it shall present the resolution, together with a certified statement that it concurs, to the Secretary of the Commonwealth who shall file the resolution and issue a new or amended certificate of organization.

If the Board determines on its own motion to relocate or redefine district boundaries, the Board shall serve written notice of its determination, containing the full terms of the proposed relocation or redefinition, on the governing body of each district, county, city and town affected by the relocation or redefinition of boundaries. If within forty-five days from the date of service of such notice each governing body affected approves the Board's action by resolution of a majority of the members, the Board may then proceed to act on its motion without a public hearing.

A. The Authority shall annually prepare and submit to the participating political subdivisions (i) a proposed operating budget showing its estimated general fund revenues and expenses on an accrual basis for the forthcoming fiscal year and, if such estimated expenses exceed such estimated revenues, the portion of the deficit proposed to be borne by each participating political subdivision and (ii) a proposed capital budget showing its estimated expenditures for such fiscal year for all assets with itemization of assets costing more than \$20,000 (or such higher amount as the Authority and the participating political subdivisions may determine) and having an estimated useful life of twenty years or more and the source of funds for such expenditures, including any amount requested from the participating political subdivisions. No depreciation shall be included in the Authority's operating budget with respect to assets purchased by the Authority with funds appropriated to it for such purpose by a participating political subdivision and, for this determination, it shall be assumed that any appropriation so made is for the purchase of assets set forth in the applicable Authority budget to the extent such purchase price is included in the approved budget. Assets purchased by the Authority with bond proceeds shall be depreciated over the term of the Bond issue in proportion to the maturities, including sinking fund installments, of the bond issue.

B. If the governing body of a participating political subdivision shall approve the Authority's proposed operating budget, it shall appropriate to the Authority such political subdivision's portion of such budget.

C. If the governing body of a participating political subdivision shall approve the Authority's proposed capital budget, it shall appropriate to the Authority such participating political subdivision's portion of the expenditures set forth therein. Any such appropriation may be reduced by the participating political subdivision's proportionate share of any grant funds received by the Authority for the purchase of assets included in the Authority's approved capital budget in excess of the grant funds shown in such capital budget as a source of funds for such expenditure, unless prohibited by the basic provider of the grant funds.

D. The Authority may expend any and all moneys within its control without obtaining the approval of the participating political subdivisions, but, except as otherwise provided in this Act with respect to contracts and agreements between the Authority and any political subdivision, the Authority shall not commit any participating political subdivision in an amount in excess of that appropriated to the Authority by the governing body of such political subdivision.

E. If at any time during any fiscal year it shall appear that the cash disbursements of the Authority will exceed its cash receipts for such fiscal year, including amounts appropriated to it by the participating political subdivisions, the Authority may request supplemental appropriations from the participating political subdivisions and any other political subdivision. (1992, c. 371)

§ 25. Allocation of deficit, denial of voting privileges.

A. Any deficit budgeted by the Authority in any fiscal year, i.e., any excess of its estimated general fund expenses over its estimated general fund revenues, and the cost of any budgeted capital expenditures in excess of the amount shown as available therefor, as shown on the Authority's operating and capital budgets approved by the participating political subdivisions, shall be allocated among the participating political subdivisions in the following manner:

1. In the same proportion that each participating political subdivision's contract obligation to the Authority under § 4 bears to the total contractual obligations to the Authority entered into under § 4 hereof.
2. In the event the appropriation of any participating political subdivision is insufficient to its pay its portion of the deficit included in any fiscal year, the allocation of any deficit for any succeeding year shall take into account the cumulative deficiency attributable to such administrators, trustees, and other fiduciaries participating political subdivision; however, no participating political subdivision shall be required to pay the Authority in any fiscal year any amount in excess of that appropriated to the Authority by the governing body of such participating political subdivision.

B. Except as allowed by unanimous vote of all of the participating political subdivisions, the initial Board of Directors of the Authority shall not undertake or transact any business nor promulgate any rules or regulations until it has first prepared its first operating and capital budgets, submitted said budgets to the participating political subdivisions for approval, and obtained that approval and billed

each participating political subdivision for its portion as provided in its contract with the Authority. Said statements shall be due and payable forty-five days after the date of mailing of said statements. At the end of said forty-five day period, the Board of Directors may properly transact any and all proper and necessary business, but directors from participating political subdivisions which have not paid their portion of the budgets shall not be entitled to vote until the contractual obligations of their participating political subdivisions have been satisfied in full. Said directors shall remain on the Board in the capacity as advisory members.

The Board of Directors of the Authority shall cause the annual budgets called for in § 24 hereof to be prepared ninety days in advance of each fiscal year, in time for submission and approval by each participating political subdivision. If participating political subdivisions representing two-thirds or more of the financial contributions to the Authority refuse to approve the budget, the budget shall be revised and resubmitted in a fashion expected to obtain approval. Once the Authority budget has been approved by participating political subdivisions representing two-thirds or more of the financial contribution to the Authority, all participating political subdivisions shall be billed for their portion of the budgets. Failure of a participating political subdivision to pay its portion of the budgets within forty-five days of mailing of said statement shall operate to deprive the directors representing said subdivision of a vote until the obligations of said subdivision have been satisfied in full. Said directors shall remain on the Board in the capacity as advisory members.

No participating political subdivision shall be required to pay the Authority in any fiscal year any amount in excess of that appropriated to the Authority by the governing body of such participating political subdivision. (1992, c. 371)

§ 26. Contracts with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions, which contracts may restrict the powers of the Authority otherwise granted by this Act. Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located within sixty miles of an Authority facility, is authorized to enter into contracts with the Authority, pursuant to which the Authority undertakes to provide the facilities and render the services specified therein, Any such contract or agreement may provide that the political subdivision will make payments to the Authority based on the services rendered by the Authority to the residents of such political subdivision, determined in such reasonable manner as the Authority and the political subdivision may mutually agree. Each political subdivision entering into such a service contract with the Authority is authorized to do everything necessary or proper to carry out and perform such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations. (1992, c. 371)

§ 27. Retirement benefits for certain employees formerly employed by a participating political subdivision.

When a local political subdivision joins the Authority, any employee of such local political subdivision who then becomes an employee of the Authority, if such employee is a member of a local retirement system, may elect to and may continue to be eligible to remain a member of such local retirement system in lieu of becoming a member of any retirement system with which the Authority may affiliate. Such election to remain a member of a local retirement system shall be made in writing within 120 days of such employee's political subdivision becoming a member of the Authority. In such event, service of such employee with the Authority shall be creditable as service with the participating political subdivision and shall be pursuant to all duly adopted ordinances and rules and regulations governing such retirement system. Any employee so electing shall not be entitled to any benefit under the Authority's retirement system, and the Authority shall pay the employer share of benefits provided the Authority's employees by such political subdivision. Nothing herein shall apply to any health and accident insurance plan or to the Federal Old Age and Survivors Insurance System. (1992, c. 371)

§ 28. Dissolution of Authority.

Whenever it shall appear to the Authority or to any participating political subdivision that the need for the Authority no longer exists or in the event funding to extend the NE-SW runway at the Blackstone Army Airfield has not been appropriated within two years of the passage of this act, the Authority or, in the proper case, any such subdivision may petition the circuit court of a participating political subdivision for the dissolution of the Authority. If the court shall determine that the need for the Authority as set forth in this Act no longer exists and that all debts and pecuniary obligations of the Authority have been fully paid or provided for, it may enter an order dissolving the Authority.

Upon dissolution, the court shall order any real property contributed to the Authority by a participating political subdivision, together with any improvements thereon, returned to such participating political subdivision. The remaining assets of the Authority shall be distributed to the participating political subdivisions in proportion to their respective contributions theretofore made to the Authority.

Each participating political subdivision and all holders of the Authority's bonds shall be made parties to any such proceedings and shall be given notice as provided by law. Any party defendant may reply to such petition at any time within sixty days after filing of the petition. From the final judgment of the court, an appeal shall lie to the Supreme Court of Virginia. (1992, c. 371)

§ 29. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds. (1992, c. 371)

§ 30. Liberal construction.

Neither this Act nor anything contained herein is or shall be construed as a restriction or limitation upon any powers which the Authority might otherwise have under any laws of this Commonwealth, and this Act is cumulative to any such powers. This Act does and shall be construed to provide a complete, additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds, notes or other obligations. No proceedings, notice or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this Act. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act. (1992, c. 371)

§ 31. Application of local ordinances, service charges and taxes upon leasehold.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom. (1992, c. 371)

§ 32. Existing contracts, leases, franchises, etc., not impaired.

No provisions of this Act shall relieve, impair or affect any right, duty, liability or obligation arising out of any contract, concession, lease or franchise now in existence except to the extent that such contract, concession, lease or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of or otherwise modify at any time any contract, concession, lease or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease or franchise consents to said renegotiation, renewal, extension or modification. (1992, c. 371)

§ 33. Powers limited.

1. However, the powers of the Authority expressed in this Act shall be limited to those powers necessary for the operation of the Southside Regional Airport Authority at Blackstone. To that end, property acquired, owned or conveyed to the Authority, contracts entered into, financial assistance, indebtedness, rules and regulations adopted by the Authority and any other actions thereof may only pertain to said airport and the Authority shall be prohibited from acquiring, establishing, constructing,

improving, maintaining, equipping, operating or leasing any water or sewage treatment plants or facilities.

2. The total indebtedness of the Authority at no time shall exceed the amount of \$1,000,000 in principal, whether by purchase of encumbered property, direct loan, bonded indebtedness or debt in any other form except as agreed to by each participating political subdivision by resolution of the governing body thereof, in which case the total amount of indebtedness shall be expressed in the resolution of each such governing body.

3. The Authority shall not issue bonds unless and until the maximum amount of such issue and the general purposes thereof have been approved by the governing body of each participating political subdivision. (1992, c. 371)

§ 34. Sunset clause.

In the event funding to extend the NE-SW runway at the Blackstone Army Airfield has not been appropriated within two years of the passage of this Act, thus negating the need for this Act, the Southside Regional Airport Authority at Blackstone will automatically dissolve exactly three years from the date of passage of this Act; provided, however, any actions of the Board of Directors of the Authority taken prior to date of automatic dissolution shall be valid and binding. In the event of such automatic dissolution, any property acquired by the Authority from any participating political subdivision shall be reconveyed to said participating political subdivision free and clear of lien or encumbrance, provided the participating political subdivision agrees to accept it. Notwithstanding the provisions of § 28 hereof, a court, upon decreeing dissolution as provided for in § 28 shall not order real property returned to a participating political subdivision assent the agreement of said participating political subdivisions to accept such real property. (1992, c. 371)

Southwest Virginia Health Authority

§ 15.2-5368. Southwest Virginia Health Authority established

A. There is hereby established a Health Authority for the LENOWISCO and Cumberland Plateau Planning District Commissions, the Counties of Smyth and Washington, and the City of Bristol.

B. The General Assembly recognizes that rural communities such as those served by the Authority confront unique challenges in the effort to improve health care outcomes and access to quality health care. It is important to facilitate the provision of quality, cost-efficient medical care to rural patients. The provision of care by local providers is important to enhancing, fostering, and creating opportunities that advance health status and provide health-related economic benefits. The Authority shall establish regional health goals directed at improving access to care, advancing health status, targeting regional health issues, promoting technological advancement, ensuring accountability of the cost of care, enhancing academic engagement in regional health, strengthening the workforce for health-related careers, and improving health entity collaboration and regional integration where appropriate.

C. Technological and improved scientific methods have contributed to the improvement of health care in the Commonwealth. The cost of improved technology and improved scientific methods for the provision of hospital care, particularly in rural communities, contributes substantially to the increasing cost of hospital care. Cost increases make it increasingly difficult for hospitals in rural areas of the Commonwealth, including those areas served by the Authority, to offer care. Cooperative agreements among hospitals and between hospitals and others for the provision of health care services may foster improvements in the quality of health care, moderate increases in cost, improve access to needed services in rural areas of the Commonwealth, and enhance the likelihood that smaller hospitals in the Commonwealth will remain open in beneficial service to their communities.

§ 15.2-5384.1.Review of cooperative agreements

A. The policy of the Commonwealth related to each participating locality is to encourage cooperative, collaborative, and integrative arrangements, including mergers and acquisitions among hospitals, health centers, or health providers who might otherwise be competitors. To the extent such cooperative agreements, or the planning and negotiations that precede such cooperative agreements, might be anticompetitive within the meaning and intent of state and federal antitrust laws, the intent of the Commonwealth with respect to each participating locality is to supplant competition with a regulatory program to permit cooperative agreements that are beneficial to citizens served by the Authority, and to invest in the Commissioner the authority to approve cooperative agreements recommended by the Authority and the duty of active supervision to ensure compliance with the provisions of the cooperative agreements that have been approved. Such intent is within the public

policy of the Commonwealth to facilitate the provision of quality, cost-efficient medical care to rural patients.

B. A hospital may negotiate and enter into proposed cooperative agreements with other hospitals in the Commonwealth if the likely benefits resulting from the proposed cooperative agreements outweigh any disadvantages attributable to a reduction in competition that may result from the proposed cooperative agreements. Benefits to such a cooperative agreement may include, but are not limited to, improving access to care, advancing health status, targeting regional health issues, promoting technological advancement, ensuring accountability of the cost of care, enhancing academic engagement in regional health, strengthening the workforce for health-related careers, and improving health entity collaboration and regional integration where appropriate.

C. 1. Parties located within any participating locality may submit an application for approval of a proposed cooperative agreement to the Authority. In such an application, the applicants shall state in detail the nature of the proposed arrangement between them, including without limitation the parties' goals for, and methods for achieving, population health improvement, improved access to health care services, improved quality, cost efficiencies, ensuring affordability of care, and, as applicable, supporting the Authority's goals and strategic mission. The Authority shall determine whether the application is complete. If the Authority determines that the application is not complete, the Authority shall notify the applicants in writing of the additional items required to complete the application. A copy of the complete application shall be provided to the Commissioner and the Office of the Attorney General at the same time that it is submitted to the Authority. If the applicants believe the materials submitted contain proprietary information that are required to remain confidential, such information must be clearly identified and the applicants shall submit duplicate applications, one with full information for the Authority's use and one redacted application available for release to the public.

2. The Authority, promptly upon receipt of a complete application, shall publish notification of the application in a newspaper of general circulation in the LENOWISCO and Cumberland Plateau Planning Districts and on the Authority's website. The public may submit written comments regarding the application to the Authority within 20 days after the notice is first published. The Authority shall promptly make any such comments available to the applicants. The applicants may respond in writing to the comments within 10 days after the deadline for submitting comments. Following the close of the written comment period, the Authority shall, in conjunction with the Commissioner, schedule a public hearing on the application. The hearing shall be held no later than 45 days after receipt of the application. Notice of the hearing shall be mailed to the applicants and to all persons who have submitted written comments on the proposed cooperative agreement. The Authority, no later than 15 days prior to the scheduled date of the hearing, also shall publish notice of the hearing in a newspaper of general circulation in the LENOWISCO and Cumberland Plateau Planning Districts and on the Authority's website.

D. In its review of an application submitted pursuant to subsection C, the Authority may consider the proposed cooperative agreement and any supporting documents submitted by the applicants, any written comments submitted by any person, any written response by the applicants, and any written or oral comments submitted at the public hearing. The Authority shall review a proposed cooperative agreement in consideration of the Commonwealth's policy to facilitate improvements in patient health care outcomes and access to quality health care, and population health improvement, in rural communities and in accordance with the standards set forth in subsection E. Any applicants to the proposed cooperative agreement under review, and their affiliates or employees, who are members of the Authority, as well as any members of the Authority that are competitors, or affiliates or employees of competitors, of the applicants proposing such cooperative agreement, shall not participate as a member of the Authority in the Authority's review of, or decision relating to, the proposed cooperative agreement; however, this prohibition on such person's participation shall not prohibit the person from providing comment on a proposed cooperative agreement to the Authority or the Commissioner. The Authority shall determine whether the proposed cooperative agreement should be recommended for approval by the Commissioner within 75 days of the date the completed application for the proposed cooperative agreement is submitted for approval. The Authority may extend the review period for a specified period of time upon 15 days' notice to the parties.

E. 1. The Authority shall recommend for approval by the Commissioner a proposed cooperative agreement if it determines that the benefits likely to result from the proposed cooperative agreement outweigh the disadvantages likely to result from a reduction in competition from the proposed cooperative agreement.

2. In evaluating the potential benefits of a proposed cooperative agreement, the Authority shall consider whether one or more of the following benefits may result from the proposed cooperative agreement:

- a. Enhancement of the quality of hospital and hospital-related care, including mental health services and treatment of substance abuse, provided to citizens served by the Authority, resulting in improved patient satisfaction;
- b. Enhancement of population health status consistent with the regional health goals established by the Authority;
- c. Preservation of hospital facilities in geographical proximity to the communities traditionally served by those facilities to ensure access to care;
- d. Gains in the cost-efficiency of services provided by the hospitals involved;
- e. Improvements in the utilization of hospital resources and equipment;
- f. Avoidance of duplication of hospital resources;

g. Participation in the state Medicaid program; and

h. Total cost of care.

3. The Authority's evaluation of any disadvantages attributable to any reduction in competition likely to result from the proposed cooperative agreement shall include, but need not be limited to, the following factors:

a. The extent of any likely adverse impact of the proposed cooperative agreement on the ability of health maintenance organizations, preferred provider organizations, managed health care organizations, or other health care payors to negotiate reasonable payment and service arrangements with hospitals, physicians, allied health care professionals, or other health care providers;

b. The extent of any reduction in competition among physicians, allied health professionals, other health care providers, or other persons furnishing goods or services to, or in competition with, hospitals that is likely to result directly or indirectly from the proposed cooperative agreement;

c. The extent of any likely adverse impact on patients in the quality, availability, and price of health care services; and

d. The availability of arrangements that are less restrictive to competition and achieve the same benefits or a more favorable balance of benefits over disadvantages attributable to any reduction in competition likely to result from the proposed cooperative agreement.

F. 1. If the Authority deems that the proposed cooperative agreement should be recommended for approval, it shall provide such recommendation to the Commissioner.

2. Upon receipt of the Authority's recommendation, the Commissioner may request from the applicants such supplemental information as the Commissioner deems necessary to the assessment of whether to approve the proposed cooperative agreement. The Commissioner shall consult with the Attorney General regarding his assessment of whether to approve the proposed cooperative agreement. On the basis of his review of the record developed by the Authority, including the Authority's recommendation, as well as any additional information received from the applicants as well as any other data, information, or advice available to the Commissioner, the Commissioner shall approve the proposed cooperative agreement if he finds after considering the factors in subsection E that the benefits likely to result from the proposed cooperative agreement outweigh the disadvantages likely to result from a reduction in competition from the proposed cooperative agreement. The Commissioner shall issue his decision in writing within 45 days of receipt of the Authority's recommendation. However, if the Commissioner has requested additional information from the applicants, the Commissioner shall have an additional 15 days, following receipt of the supplemental information, to approve or deny the proposed cooperative agreement. The Commissioner may reasonably condition approval of the proposed cooperative agreement upon the parties' commitments to achieving the

improvements in population health, access to health care services, quality, and cost efficiencies identified by the parties in support of their application for approval of the proposed cooperative agreement. Such conditions shall be fully enforceable by the Commissioner. The Commissioner's decision to approve or deny an application shall constitute a case decision pursuant to the Virginia Administrative Process Act (§ [2.2-4000](#) et seq.).

G. If approved, the cooperative agreement is entrusted to the Commissioner for active and continuing supervision to ensure compliance with the provisions of the cooperative agreement. The parties to a cooperative agreement that has been approved by the Commissioner shall report annually to the Commissioner on the extent of the benefits realized and compliance with other terms and conditions of the approval. The report shall describe the activities conducted pursuant to the cooperative agreement, including any actions taken in furtherance of commitments made by the parties or terms imposed by the Commissioner as a condition for approval of the cooperative agreement, and shall include information relating to price, cost, quality, access to care, and population health improvement. The Commissioner may require the parties to a cooperative agreement to supplement such report with additional information to the extent necessary to the Commissioner's active and continuing supervision to ensure compliance with the cooperative agreement. The Commissioner shall have the authority to investigate as needed, including the authority to conduct onsite inspections, to ensure compliance with the cooperative agreement.

H. If the Commissioner has reason to believe that compliance with a cooperative agreement no longer meets the requirements of this chapter, the Commissioner shall initiate a proceeding to determine whether compliance with the cooperative agreement no longer meets the requirements of this chapter. In the course of such proceeding, the Commissioner is authorized to seek reasonable modifications to a cooperative agreement, with the consent of the parties to the agreement, in order to ensure that it continues to meet the requirements of this chapter. The Commissioner is authorized to revoke a cooperative agreement upon a finding that (i) the parties to the agreement are not complying with its terms or the conditions of approval; (ii) the agreement is not in substantial compliance with the terms of the application or the conditions of approval; (iii) the benefits resulting from the approved agreement no longer outweigh the disadvantages attributable to the reduction in competition resulting from the agreement; (iv) the Commissioner's approval was obtained as a result of intentional material misrepresentation to the Commissioner or as the result of coercion, threats, or intimidation toward any party to the cooperative agreement; or (v) the parties to the agreement have failed to pay any required fee. All proceedings initiated by the Commissioner under this chapter and any judicial review thereof shall be held in accordance with and governed by the Virginia Administrative Process Act (§ [2.2-4000](#) et seq.).

I. The Commissioner shall maintain on file all cooperative agreements that the Commissioner has approved, including any conditions imposed by the Commissioner. Any party to a cooperative

agreement that terminates its participation in such cooperative agreement shall file a notice of termination with the Commissioner within 30 days after termination.

J. The Commissioner may contract with qualified experts and consultants that he deems necessary in his review of an application for approval of a cooperative agreement or supervision of a cooperative agreement.

K. The Commissioner shall be entitled to reimbursement from applicants seeking approval of a cooperative agreement for all reasonable and actual costs incurred by the Commissioner in his review of the application for a cooperative agreement made pursuant to this chapter, including costs of experts and consultants retained by the Commissioner. The Commissioner shall incur only those costs necessary to adequately review the application as determined in his sole discretion. The Commissioner shall maintain detailed records of all costs incurred for which he seeks reimbursement from the applicant.

L. The Commissioner shall determine the activities needed to actively supervise the cooperative agreement and may incur only those expenses necessary for such supervision as determined in his sole discretion. The Commissioner shall be entitled to reimbursement from the parties to a cooperative agreement for all reasonable and actual costs incurred by the Commissioner in the supervision of the cooperative agreement approved pursuant to this chapter, including costs of experts and consultants retained by the Commissioner. Prior to contracting with experts or consultants, the Commissioner shall provide reasonable notice to the parties describing the proposed scope of work and anticipated costs of such experts and consultants. The parties shall be given a reasonable time period to provide to the Commissioner information related to possible alternatives to the use of such experts and consultants. The Commissioner shall consider the information submitted by the parties in determining whether to retain an expert or consultant. The Commissioner shall maintain detailed records of all costs incurred for which he seeks reimbursement from the parties. The guidelines may require that as a condition of receiving any grant or loan incentive that is based on employment goals, a recipient company must provide copies of employer quarterly payroll reports provided to the Virginia Employment Commission to verify the employment status of any position included in the employment goal. The guidelines should include provisions for geographic diversity and a cap on the amount of money available for a certain project. Revenues in the Fund shall be used to support the development of additional commercial air services in the Commonwealth, provided that such service advances the goals established in the commercial air service plan most recently adopted pursuant to § [5.1-2.2:2](#). Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Executive Director of the Authority.

B. The Fund shall be used by the Governor to provide or assist in the provision of marketing, advertising, or promotional activities by airlines in connection with the launch of new air passenger service at Virginia airports in order to incentivize airlines that have committed to commencing new air passenger service in Virginia. The Secretary of Transportation, in consultation with the Secretary of Commerce and Trade and the Secretary of Finance, shall develop guidelines and criteria to be used in awarding grants from the Fund. The guidelines shall include a provision that a grant from the Fund shall not be awarded if it can be reasonably anticipated to result in the reduction of existing commercial air service at another airport located within the Commonwealth. The guidelines may require that as a condition of receiving any grant from the Fund an airline enter into a performance agreement or memorandum of understanding with the Commonwealth (i) setting a minimum number of nonstop roundtrip flights per week, a minimum number of nonstop roundtrip flights within 12 months

of the start date of new air service, or a minimum passenger load factor, or any combination thereof, and (ii) providing that any grant received by an airline shall be repaid by the airline or reduced proportionately if such conditions are not met.

Transportation District Act of 1964

§ 33.2-1900. Declaration of policy

The development of transportation systems, composed of transit facilities, public highways, and other modes of transport, is necessary for the orderly growth and development of the urban areas of the Commonwealth; for the safety, comfort, and convenience of its citizens; and for the economical utilization of public funds. The provision of the necessary facilities and services cannot be achieved by the unilateral action of the counties and cities, and the attainment thereof requires planning and action on a regional basis, conducted cooperatively and on a continuing basis, between representatives of the affected political subdivisions and the Commonwealth Transportation Board. In those urban areas of the Commonwealth that together form a single metropolitan area, solutions must be jointly sought with the affected political subdivisions and highway departments. Such joint action should be conducted in a manner that preserves, to the extent the necessity for joint action permits, local autonomy over patterns of growth and development of each participating political subdivision or locality. The requisite joint action may best be achieved through the device of a transportation district, having the powers, functions, and duties set forth in this chapter. In the provision of improved or expanded transit facilities, it is the policy of the Commonwealth to make use of private enterprise to the extent reasonably practicable.

1964, c. 631, § 15.1-1343; 1986, c. 438; 1997, c. 587, § 15.1-4501; 2014, c. [805](#).

"Governing bodies" means the boards of supervisors of counties and councils of cities composing a transportation district.

"Metropolitan area" means a metropolitan statistical area as defined by the U.S. Census Bureau and the Office of Management and Budget or any contiguous counties or cities within the Commonwealth that together constitute an urban area.

"Person" means an individual, partnership, association, or corporation or any governmental agency or authority.

"State," when applied to a part of the United States, includes any of the 50 states and the District of Columbia.

"Transportation facilities," "transit facilities," or "facilities" means all those matters and things utilized in rendering transportation service by means of rail, bus, water, or air and any other mode of travel, including tracks, rights-of-way, bridges, tunnels, subways, and rolling stock for rail, motor vehicle, marine, and air transportation; stations, terminals, and ports; areas for parking; buildings; structures; and all equipment, fixtures, and business activities reasonably required for the performance of transportation service, but does not include any such facilities owned by any person, company, association, or corporation the major part of whose transportation service extends beyond a transportation district created in this chapter.

§ 33.2-1902. Authorization to issue summons

Conductors of railroad trains, motormen, and station and depot agents of any transportation district created pursuant to this chapter shall have the power to issue a summons for any violation of § [18.2-160.1](#) with respect to any train operated by or under contract with such transportation district.

§ 33.2-1903. Procedure for creation of districts

A. Any two or more counties or cities may, in conformance with the procedure set forth in this section, or as otherwise may be provided by law, constitute a transportation district and shall have and exercise the powers set forth in this section and such additional powers as may be granted by the General Assembly. A transportation district may be created by ordinance adopted by the governing body of each participating county and city, which ordinances shall (i) set forth the name of the proposed transportation district, which shall include the words "transit district" or "transportation district," (ii) fix the boundaries thereof, (iii) name the counties and cities that are in whole or in part to be embraced therein, and (iv) contain a finding that the orderly growth and development of the county or city and the comfort, convenience, and safety of its citizens require an improved transportation system, composed of transit facilities, public highways, and other modes of transport, and that joint action through a transportation district by the counties and cities that are to compose the proposed transportation district will facilitate the planning and development of the needed transportation system. Such ordinances shall be filed with the Secretary of the Commonwealth and, upon certification by that officer to the Tax Commissioner and the governing body of each of the participating counties and cities that the ordinances required by this chapter have been filed and, upon the basis of the facts set forth therein, satisfy such requirements, the territory defined in such ordinances, upon the entry of such

certification in the minutes of the proceedings of the governing body of each of the counties and cities, shall be and constitute a transportation district for all of the purposes of this chapter, known and designated by the name stated in the ordinances.

B. Notwithstanding the provisions of subsection A, any county or city may, subject to the applicable provisions of this chapter, constitute itself a transportation district in the event that no governing body of any contiguous county or city wishes to combine for such purpose, provided that the governing body of such single locality transportation district shall comply with the provisions of subsection A by adopting an ordinance that (i) sets forth the name of the proposed transportation district, which shall include the words "transit district" or "transportation district"; (ii) fixes, in such county or city, the boundaries thereof; (iii) names the county or city that is in whole or in part to be embraced therein; and (iv) contains a finding that the orderly growth and development of the county or city and the comfort, convenience, and safety of its citizens require an improved transportation district, composed of transit facilities, public highways, and other modes of transport, and that joint action with contiguous counties and cities has not been agreed to at this time, but that the formation of a transportation district will facilitate the planning and development of the needed transportation system, and shall file such ordinance in the manner and mode required by subsection A. At such time as the governing body of any contiguous county or city desires to combine with the original locality for the formation of an enlarged transportation district, it shall enter into an agreement with the commission of the original transportation district on such terms and conditions, consistent with the provisions of this chapter, as may be agreed upon by such commission and such additional county or city, and in conformance with the following procedures. The governing body of the county or city having jurisdiction over the territory to be added to the original transportation district shall adopt an ordinance specifying the area to be enlarged, containing the finding specified in clause (iv) of subsection A, and a statement that a contract or agreement between the county or city and the commission specifying the terms and conditions of admittance to the transportation district has been executed. The ordinance, to which shall be attached a certified copy of such contract, shall be filed with the Secretary of the Commonwealth and, upon certification by that officer to the Tax Commissioner, the commission, and the governing body of each of the component counties and cities that the ordinance required by this section has been filed, and that the terms thereof conform to the requirements of this section, such additional county, or part thereof, or city, upon the entry of such certification in the minutes of the proceedings of the governing body of such county or city, shall become a component government of the transportation district and the county, or portion thereof specified, or city shall be embraced by the transportation district.

Each such appointee shall serve at the pleasure of the appointing body; however, no appointee to a commission with powers as set forth in subsection B of § [33.2-1915](#) may continue to serve when he is no longer a member of the appointing body. The Secretary or his designee and any appointed member of the Northern Virginia Transportation Commission are authorized to serve as members of the board of directors of the Washington Metropolitan Area Transit Authority (§ 33.2-3100 et seq.) and while so serving the provisions of § [2.2-2800](#) shall not apply to such member. In appointing Virginia members of the board of directors of the Washington Metropolitan Area Transit Authority (WMATA), the Northern Virginia Transportation Commission shall include the Secretary or his designee as a principal member on the board of directors of WMATA. Any designee serving as the principal member must reside in a locality served by WMATA.

In selecting from its membership those members to serve on the board of directors of WMATA, the Northern Virginia Transportation Commission shall comply with the following requirements:

1. A board member shall not have been an employee of WMATA within one year of appointment to serve on the board of directors.
2. 3. A board member shall be a regular patron of the services provided by WMATA.
4. Board members shall serve a term of four years with a maximum of two consecutive terms. A board member's term or terms must coincide with his term on the body that appointed him to the Northern Virginia Transportation Commission. Any vacancy created if a board member cannot fulfill his term because his term on the appointing body has ended shall be filled for the unexpired term in the same manner as the member being replaced was appointed within 60 days of the vacancy. The initial appointments to a four-year term will be as follows: the Secretary, or his designee, for a term of four years; the second principal member for a term of three years; one alternate for a term of two years; and the remaining alternate for a term of one year. Thereafter, board members shall be appointed for terms of four years. Service on the WMATA board of directors prior to July 1, 2012, shall not be considered in determining length of service. Any person appointed to an initial one-year or two-year term, or

appointed to an unexpired term in which two years or less is remaining, shall be eligible to serve two consecutive four-year terms after serving the initial or unexpired term.

5. The reports shall include (i) the dates of attendance at WMATA board meetings, (ii) any reasons for not attending a specific meeting, and (iii) dates and attendance at other WMATA-related public events.

7. Each nonelected member of the Northern Virginia Transportation Commission appointed to the board of directors of WMATA shall be eligible to receive reasonable and necessary expenses and compensation pursuant to §§ [2.2-2813](#) and [2.2-2825](#) from the Northern Virginia Transportation Commission for attending meetings and for the performance of his official duties as a board member on that day.

Any entity that provides compensation to a WMATA board member for his service on the WMATA board shall be required to submit on July 1 of each year to the Secretary the amount of that compensation. Such letter will remain on file with the Secretary's office and be available for public review.

C. When the Northern Virginia Transportation Commission and the Potomac and Rappahannock Transportation Commission enter into an agreement to operate a commuter railway, the agreement governing the creation of the railway shall provide that the Chairman of the Commonwealth Transportation Board or his designee shall have one vote on the oversight board for the railway. For each year in which the state contribution to the railway is greater than or equal to the highest contribution from an individual locality, the total annual subsidy as provided by the member localities used to determine vote weights shall be recalculated to include the Commonwealth contributing an amount equal to the highest contributing locality. The vote weights shall be recalculated to provide the Chairman of the Commonwealth Transportation Board or his designee the same weight as the highest contributing locality. The revised vote weights shall be used in determining the passage of motions before the oversight board.

§ 33.2-1915. Powers and functions generally

A. Notwithstanding any other contrary provision of law, a commission shall, except as provided in subsection B, have the following powers and functions:

1. The commission shall prepare the transportation plan for the transportation district and shall revise and amend the plan in accordance with the planning process and procedures specified in Article 7 (§ [33.2-1928](#) et seq.).
2. The commission may, when a transportation plan is adopted according to Article 7 (§ [33.2-1928](#) et seq.), construct or acquire, by purchase or lease, the transportation facilities specified in such transportation plan.
3. The commission may enter into agreements or leases with private companies for the operation of its facilities or may operate such facilities itself.
4. The commission may enter into contracts or agreements with the counties and cities within the transportation district, with counties and cities that adjoin the transportation district and are within the same planning district, or with other commissions of adjoining transportation districts to provide, or cause to be provided, transit facilities and service to such counties and cities or to provide transit facilities and other modes of transportation between adjoining transportation districts. Such contracts or agreements, together with any agreements or leases for the operation of such facilities, may be utilized by the transportation district to finance the construction and operation of transportation facilities, and such contracts, agreements, or leases shall inure to the benefit of any creditor of the transportation district.

However, except in any transportation district containing any or all of the Counties of Chesterfield, Hanover, and Henrico or the City of Richmond, being so delegated by the respective local governments, the commission shall not have the power to regulate services provided by taxicabs, either within municipalities or across municipal boundaries, which regulation is expressly reserved to the municipalities within which taxicabs operate. In any transportation district containing any or all of the Counties of Chesterfield, Hanover, and Henrico or the City of Richmond, the commission may, upon proper authority granted by the respective component governments, regulate services provided by taxicabs, either within localities or across county or city boundaries.

B. The Northern Virginia Transportation Commission:

1. Shall not prepare a transportation plan or construct or operate transit facilities, but shall collaborate and cooperate in the manner specified in Article 7 (§ [33.2-1928](#) et seq.) with an agency in preparing, revising, and amending a transportation plan for such metropolitan area.
2. Shall, according to Article 7 (§ [33.2-1928](#) et seq.) and in cooperation with the governing bodies of the component governments embraced by the transportation district, formulate the tentative policy and decisions of the transportation district with respect to the planning, design, location, construction, operation, and financing of transportation facilities.
3. May, when a transportation plan applicable to such a transportation district is adopted, enter into contracts or agreements with an agency to contribute to the capital required for the construction or acquisition of transportation facilities and for meeting expenses and obligations in the operations of such facilities.
4. May, when a transportation plan applicable to such transportation district is adopted, enter into contracts or agreements with the counties and cities within the transportation district to provide or cause to be provided transportation facilities and service to such counties and cities.

 - b. May acquire land or any interest therein by purchase, lease, gift, condemnation, or otherwise in advance of need for sale or contribution to an agency, for use by that agency in connection with an adopted mass transit plan;
 - c. May, in accordance with the terms of any grant from or loan by the United States of America or the Commonwealth, or any agency or instrumentality thereof, or when necessary to preserve essential transportation service, acquire transit facilities or any carrier that is subject to the jurisdiction of the Washington Metropolitan Area Transit Commission by acquisition of the capital stock or transit facilities and other assets of any such carrier and shall provide for the performance of transportation by any such carrier or with such transit facilities by contract or lease. However, the contract or lease shall be for a term of no more than one year, renewable for additional terms of similar duration, and, in order to assure acceptable fare levels, may provide for financial assistance by purchase of service, operating subsidies, or otherwise. No such service shall be rendered that will adversely affect transit service rendered by the transit facilities owned or controlled by the agency or any existing private transit or transportation company. When notified by the agency that it is authorized to perform or cause to be performed transportation services with motor vehicle facilities, the commission, upon request by the agency, shall transfer such capital stock or transit facilities to the agency at a price to be agreed upon; and

C. The provisions of subdivisions B 1 through 4 and subdivisions B 5 b and c shall not apply (i) to any transportation district that may be established on or after July 1, 1986, and that includes any one or more localities that are located within a metropolitan area, but that were not, on January 1, 1986, members of any other transportation district or (ii) to any locality that, after July 1, 1989, joins a transportation district that was established on or before January 1, 1986. The provisions of this subsection shall apply only to any transportation district or locality that is contiguous to the Northern Virginia Transportation District. Any such district or locality shall be subject to the provisions of subsection A and further may exercise the powers granted by subdivision B 5 a to acquire land or any interest therein by purchase, lease, gift, condemnation, or otherwise and provide transportation facilities thereon for use in connection with any transportation service.

D. Until such time as a commission enters into contracts or agreements with its component governments under the provisions of subdivisions A 4 and B 4 and is receiving revenues thereunder adequate to meet the administrative expenses of the commission after paying or providing for the payment of the obligations arising under said subdivisions, the administrative expenses of the commission shall be borne by the component governments in the manner set forth in this section. The commission annually shall submit to the governing bodies of the component counties and cities a budget of its administrative requirements for the next year.

E. The administrative expenses of the Northern Virginia Transportation Commission, to the extent funds for such expenses are not provided from other sources, shall be allocated among the component governments on the basis of population as reflected by the latest population statistics of the U.S. Census Bureau; however, upon the request of any component government, the commission shall make the allocation upon estimates of population prepared in a manner approved by the commission and by the governing body of the component government making such request. The administrative expenses of the Northern Virginia Transportation Commission, to the extent funds for such expenses are not provided from other sources, shall be allocated among the component governments on the basis of the relative shares of state and federal transit aids allocated by the Commission among its component governments. Such budget shall be limited solely to the administrative expenses of the Commission and shall not include any funds for construction or acquisition of transportation facilities or the performing of transportation service. In addition, the Northern Virginia Transportation Commission annually shall submit to the governing bodies of the component counties and cities a budget of its other expenses and obligations for the ensuing year.

Such expenses and obligations shall be borne by the component counties and cities in accordance with prior arrangements made therefor.

F. When a transportation plan has been adopted under subdivision 4 of § [33.2-1929](#), the commission shall determine the equitable allocation among the component governments of the costs incurred by the district in providing the transportation facilities proposed in the transportation plan and any expenses and obligations from the operation thereof to be borne by each county and city. In making such determinations, the commission shall consider the cost of the facilities located within each county and city, the population of each county and city, the benefits to be derived by each county and city from the proposed transportation service, and all other factors that the commission determines to be relevant. Such determination, however, shall not create a commitment by the counties and cities, and such commitments shall be created only under the contracts or agreements specified in subdivisions A 4 and B 4.

Such protections shall include (i) assurances of employment to employees of such transportation systems to the fullest extent possible consistent with sound management, and priority of employment or, if terminated or laid off, reemployment; (ii) preservation of rights, privileges, and benefits, including continuation of pension rights and benefits, under existing collective bargaining agreements or otherwise; (iii) continuation of collective bargaining rights; (iv) protection of individual employees against a worsening of their positions with respect to their employment, to the extent provided by 49 U.S.C. § 5333 (b), also known as § 13(c) of the Federal Transit Act; and (v) paid training and retraining programs. The commission shall bear all costs of obtaining criminal history record information regarding such individual, including expenses incurred by the State Police in connection with such fingerprinting or criminal records check. The commission may require such individual or contractor to reimburse the commission for the cost of the fingerprinting or a criminal records check or both.

§ 33.2-1920. Authority to issue bonds and other obligations

A. 1. A transportation district may issue bonds or other interest-bearing obligations, as provided in this chapter, for any of its purposes and pay the principal and interest thereon from any of its funds, including any moneys paid to or otherwise received by the district pursuant to any law enacted or any contract or agreement or any grant, loan, or contribution authorized by this chapter. For the purposes of this chapter, bonds include bonds, notes, and other interest-bearing obligations, including notes issued in anticipation of the sale and issuance of bonds.

2. Neither the members of a transportation district nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of a district (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof, and only the district shall be liable thereon. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction except as provided under this section.

B. 1. Bonds of a transportation district shall be authorized by resolution, may be issued in one or more series, shall be dated, shall mature at such times not exceeding 40 years from their dates, shall bear interest at rates determined by the commission, and may be made redeemable before maturity, at the option of the commission at such price or prices and under such terms as the commission fixes prior to issuing the bonds. The commission shall determine the form of the bonds, including any interest coupons to be attached and the manner of execution of the bonds, and shall fix the denominations of the bonds and the places of payment of principal and interest, which may be at any bank or trust company within or outside the Commonwealth. If any officer whose signature or facsimile signature appears on any bonds or coupons ceases to be such officer before delivery of such bond, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any other provisions of this article or any recitals in any bonds issued under the provisions of this article, all such bonds shall be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the commission may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The transportation district may sell such bonds in such manner, either at public or private sale, and for such price as it may determine to be for the best interests of the district. A transportation district is authorized to enter into indentures or agreements with respect to all such matters, and such indentures or agreements may contain such other provisions as the commission may deem reasonable and proper for the security of the bondholders. The resolution may provide that the bonds shall be payable from and secured by all or any part of the revenues, moneys, or funds of the district as specified therein. Such pledge shall be valid and binding from the time the pledge is made, and such revenues, moneys, and funds so pledged and thereafter received by the district shall immediately be subject to the lien of such pledge

without any physical delivery thereof or further act. The lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the district, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the district. All expenses incurred in carrying out the provisions of such indentures or agreements may be treated as a purpose of the transportation district. A transportation district may issue refunding bonds for the purpose of redeeming or retiring any bonds before or at maturity, including the payment of any premium, accrued interest, and costs or expenses thereof.

2. Prior to the preparation of definitive bonds a transportation district may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery. A transportation district may also provide for the replacement of any bonds that have been mutilated, destroyed, or lost.

3. Bonds may be issued pursuant to this article without obtaining the consent of any commission, board, bureau, or agency of the Commonwealth or of any governmental subdivision, and without any referendum, other proceedings, or the happening of other conditions except for those proceedings or conditions that are specifically required by this article.

C. Any holder of bonds, notes, certificates, or other evidence of borrowing issued under this article or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, except to the extent of the rights given in this article may be restricted by such trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this article or under such trust indenture or agreement or the resolution authorizing the issuance of such bonds, notes, or certificates, and may enforce and compel the performance of all duties required by this article or by such trust indenture or agreement or resolution to be performed by the transportation district or by any officer or agent thereof.

D. The exercise of the powers granted by this article shall be in all respects for the benefit of the inhabitants of the Commonwealth, for the promotion of their safety, health, welfare, convenience, and prosperity, and any facility or service that a transportation district is authorized to provide will constitute the performance of an essential governmental function. The bonds of a district are declared to be issued for an essential public and governmental purpose and their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any governmental subdivision thereof.

E. Bonds issued by a transportation district under this article are securities in which all public officers and public bodies of the Commonwealth and its governmental subdivisions and all insurance companies, trust companies, banks, banking associations, investment companies, executors,

administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are securities that may properly and legally be deposited with and received by any state or local officer or any agency or governmental subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.

§ 33.2-1921. Judicial determination of validity of bonds

The provisions of Article 6 (§ [15.2-2650](#) et seq.) of Chapter 26 of Title 15.2 apply to all suits, actions, and proceedings of whatever nature involving the validity of bonds issued by a transportation district under the provisions of this article.

§ 33.2-1922. Contracts and payment thereof

A. Any county or city embraced by a transportation district is authorized to enter into contracts or agreements with the commission for such transportation district, or with an agency, pursuant to which such transportation district, subject to the limitations contained in this section, or such agency undertakes to provide the transportation facilities specified in a duly adopted transportation plan or to render transportation service. Any obligations arising from such contracts are deemed to be for a public purpose and may be paid for, in the discretion of each county or city, in whole or in part, by appropriations from general revenues or from the proceeds of a bond issue or issues; however, any such contract must specify the annual maximum obligation of any county or city for payments to meet the expenses and obligations of the transportation district or such agency or provide a formula to determine the payment of any such county or city for such expenses and obligations. Each county or city desiring to contract with a transportation district or an agency is authorized to do so, provided it complies with the appropriate provisions of law, and thereafter is authorized to do everything necessary or proper to carry out and perform every such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations.

B. Except as otherwise provided by law:

1. No bonded debt shall be contracted by any county to finance the payment of any obligations arising from its contracts hereunder unless the voters of such county shall approve by a majority vote of the voters voting in an election the contracting of any such debt, the borrowing of money, and issuance of bonds. Such debt shall be contracted and bonds issued and such election shall be held in the manner provided in and subject to the provisions of the Public Finance Act (§ [15.2-2600](#) et seq.) relating to counties; and

2. The contracting of debt, borrowing of money, and issuance of bonds by any city to finance the payment of any obligations arising from its contracts hereunder shall be effected in the manner provided in and subject to the provisions of the Public Finance Act (§ [15.2-2600](#) et seq.) relating to cities.

§ 33.2-1923.Venue

Every such contract shall be enforceable by the transportation district with which the contract is made, as provided under the laws of the Commonwealth, and, if any such contract is entered into with an agency or is relied upon in a contract between a commission and any such agency, the agency also shall have the right to enforce the contract. The venue for actions on any contract between a transportation district and a component government shall be as specified in subdivision 10 of § [8.01-261](#). Venue in all other matters arising hereunder shall be as provided by law.

§ 33.2-1924.Acquisition of median strips for transit facilities in interstate highways

When the district commission, the Commonwealth Transportation Board, and the governing bodies of the component governments determine that the time schedule for construction of any interstate highway, as defined in § [33.2-100](#), within the district makes it necessary to acquire median strips for transit facilities in such highway prior to the adoption of a transportation plan, each county and city within the district is authorized to pay to the Commonwealth Transportation Board such sums as may be agreed upon among the district commission and such counties and cities to provide the Commonwealth Transportation Board with the necessary matching funds to acquire the median strips. Any such acquisition shall be made by and in the name of the Commonwealth Transportation Board.

§ 33.2-1925.Appropriations

The governing bodies of counties and cities participating in a transportation district are authorized to appropriate funds for the administrative and other expenses and obligations (i) of the commission of the transportation district, as provided in subsection D of § [33.2-1915](#), (ii) of an agency, and (iii) for such other purposes as may be specified in a law creating a transportation district.

§ 33.2-1926.Powers granted are in addition to all other powers

The powers conferred by this chapter on counties and cities are in addition and supplemental to the powers conferred by any other law, and may be exercised by resolution or ordinance of the governing bodies thereof, as required by law, without regard to the terms, conditions, requirements, restrictions, or other provisions contained in any other law, general or special, or in any charter.

§ 33.2-1927.Liabilities of Commonwealth, counties, and cities

A. Except for claims cognizable under the Virginia Tort Claims Act, Article 18.1 (§ [8.01-195.1](#) et seq.) of Chapter 3 of Title 8.01, no pecuniary liability of any kind shall be imposed on the Commonwealth or upon any county or city constituting any part of any transportation district because of any act, agreement, contract, tort, malfeasance, misfeasance, or nonfeasance by or on the part of the commission of such transportation district, or any commission member, or its agents, servants, and employees, except as otherwise provided in this chapter with reference to contracts and agreements between the commission or interstate agency and any county or city.

B. Except for claims cognizable under the Virginia Tort Claims Act, Article 18.1 (§ [8.01-195.1](#) et seq.) of Chapter 3 of Title 8.01, the obligations and any indebtedness of a commission shall not be in any way a debt or liability of the Commonwealth, or of any county or city in whole or in part embraced by the transportation district, and shall not create or constitute any indebtedness, liability, or obligation of the Commonwealth or of any such county or city, legal, moral, or otherwise, and nothing in this chapter contained shall be construed to authorize a commission or district to incur any indebtedness on behalf of or in any way to obligate the Commonwealth or any county or city in whole or in part embraced by the transportation district; however, any contracts or agreements between the commission and any county or city provided for in subdivisions A 4 and B 4 of § [33.2-1915](#) shall inure to the benefit of any creditor of the transportation district or, when applicable, to an agency as therein provided.

C. For purposes of this section, "liability policy," as it is used in the Virginia Tort Claims Act, specifically includes any program of self-insurance maintained by a district and administered by the Department of the Treasury's Division of Risk Management.

§ 33.2-1928.Planning process

A. In performing the duties imposed under subsections A and B of § [33.2-1915](#), the commission shall cooperate with the governing bodies of the counties and cities embraced by the transportation district and agencies thereof, with the Commonwealth Transportation Board, and with an agency of which members of the district commission are also members, to the end that the plans, decisions, and policies for transportation shall be consistent with and shall foster the development and implementation of the general plans and policies of the counties and cities for their orderly growth and development.

B. Each commission member shall serve as the liaison between the commission and the body by which he was appointed, and those commission members who are also members of an agency shall provide liaison between the district commission and such agency, to the end that the district

commission, its component governments, the Commonwealth Transportation Board, and any such agency shall be continuously, comprehensively, and mutually advised of plans, policies, and actions requiring consideration in the planning for transportation and in the development of planned transportation facilities.

C. To assure that planning, policy, and decision-making are consistent with the development plans for the orderly growth of the counties and cities and coordinated with the plans and programs of the Commonwealth Transportation Board and are based on comprehensive data with respect to current and prospective local conditions, including land use, economic and population factors, the objectives for future urban development, and future travel demands generated by such considerations, the commission may:

1. Create, subject to their appointment, technical committees from the personnel of the agencies of the counties and cities and from the Commonwealth Transportation Board concerned with planning, collection, and analysis of data relevant to decision-making in the transportation planning process. Appointments to such technical committees, however, are to be made by the governing bodies of the counties and cities and by the Commonwealth Transportation Board; or
2. If the transportation district is located within an area that has an organized planning process created in conformance with the provisions of 23 U.S.C. § 134, utilize the technical committees created for such planning process.

D. The commission, on behalf of the counties and cities within the transportation district, but only upon their direction, is authorized to enter into the written agreements specified in 23 U.S.C. § 134 to assure conformance with the requirements of that law for continuous, comprehensive transportation planning.

§ 33.2-1929.Procedures

To ensure that the planning process specified in § [33.2-1928](#) is effectively and efficiently utilized, the commission shall conform to the following procedures and may prescribe such additional procedures as it deems advisable:

1. Commission meetings shall be held at least monthly and more often in the discretion of the commission, as the proper performance of its duties requires.
2. At such meetings the commission shall receive and consider reports from:
 - a. Its members who are also members of an agency, as to the status and progress of the work of such agency, and if the commission deems that such reports are of concern to them, shall fully inform its component governments, committees, and the Commonwealth Transportation Board with respect thereto, as a means of developing the informed views requisite for sound policy-making; and

b. Its members, technical and other committees, members of the governing bodies of the component governments, and consultants, presenting and analyzing studies and data on matters affecting the making of policies and decisions on a transportation plan and the implementation thereof.

3. The objective of the procedures specified in this section is to develop agreement, based on the best available information, among the district commission, the governing bodies of the component governments, the Commonwealth Transportation Board, and an interstate agency with respect to the various factors that affect the making of policies and decisions relating to a transportation plan and the implementation thereof. If any material disagreements occur in the planning process with respect to objectives and goals, the evaluation of basic data, or the selection of criteria and standards to be applied in the planning process, the commission shall exert its best efforts to bring about agreement and understanding on such matters. The commission may hold hearings in an effort to resolve any such basic controversies.

4. Before a transportation plan is adopted, altered, revised, or amended by the commission or by an agency on which it is represented, the commission shall transmit such proposed plan, alteration, revision, or amendment to the governing bodies of the component governments, to the Commonwealth Transportation Board, and to its technical committees and shall release to the public information with respect thereto. A copy of the proposed transportation plan, amendment, or revision shall be kept at the commission office and shall be available for public inspection. Upon 30 days' notice, published once a week for two successive weeks in one or more newspapers of general circulation within the transportation district, a public hearing shall be held on the proposed plan, alteration, revision, or amendment. The 30 days' notice period shall begin to run on the first day the notice appears in any such newspaper. The commission shall consider the evidence submitted and statements and comments made at such hearings and, if objections in writing to the whole or any part of the plan are made by the governing body of any component government, or by the Commonwealth Transportation Board, or if the commission considers any written objection made by any other person, group, or organization to be sufficiently significant, the commission shall reconsider the plan, alteration, revision, or amendment. If, upon reconsideration, the commission agrees with the objection, then the commission shall make appropriate changes to the proposed plan, alteration, revision, or amendment and may adopt them without further hearing. If, upon reconsideration, the commission disagrees with the objection, the commission may adopt the plan, alteration, revision, or amendment. No facilities shall be located in and no service rendered, however, within any county or city that does not execute an appropriate agreement with the commission or with an interstate agency as provided in § [33.2-1922](#); but in such case, the commission shall determine whether the absence of such an agreement so materially and adversely affects the feasibility of the transportation plan as to require its modification or abandonment.

§ 33.2-1930.Procedure for enlargement

A transportation district may be enlarged to include any additional county or part thereof, or city or part thereof, contiguous thereto, upon such terms and conditions, consistent with the provisions of this chapter, as may be agreed upon by the commission and such additional county or city and in conformance with the following procedures. The governing body of the county or city shall adopt an ordinance specifying the area to be enlarged, containing the finding specified in § [33.2-1903](#) and a statement that a contract or agreement between the county or city and the commission specifying the terms and conditions of admittance to the transportation district has been executed. The ordinance, to which shall be attached a certified copy of the contract, shall be filed with the Secretary of the Commonwealth. Upon certification by the Secretary of the Commonwealth to the Tax Commissioner, the commissioner, and the governing bodies of each of the component counties and cities that the ordinance required by this section has been filed and that its terms conform to the requirements of this section, the additional county or part thereof, or city or part thereof, upon the entry of such certification in the minutes of the proceedings of the governing body of such county or city, shall become a component government of the transportation district and part of the transportation district.

§ 33.2-1931.Resolution or ordinance

A county or city may withdraw from the transportation district by resolution or ordinance, as may be appropriate, adopted by a majority vote of its governing body. The withdrawal of any county or city shall not be effective until the resolution or ordinance of withdrawal is filed with the transportation district commission and with the Secretary of the Commonwealth.

§ 33.2-1933.Public purpose; exemption from taxation

It is hereby found, determined, and declared that the creation of any transportation district pursuant to this chapter and the carrying out of the corporate purposes of any such transportation district is in all respects for the benefit of the people of the Commonwealth and is a public purpose and that the transportation district and the commission will be performing an essential governmental function in the exercise of the powers conferred by this chapter. Accordingly, the transportation district shall not be required to pay taxes or assessments upon any of the property acquired by it or under its jurisdiction, control, possession, or supervision or upon its activities in the operation and maintenance of any

transportation facilities or upon any revenues therefrom, and the property and the income derived therefrom shall be exempt from all state, municipal, and local taxation. This exemption shall include all motor vehicle license fees, motor vehicle sales and use taxes, retail sales and use taxes, and motor fuel taxes. The governing body of any political subdivision within a transportation district may refund in whole or in part any payments for taxes or license fees or abate in whole or in part any assessments for taxes or license fees on any property exempt from taxation or license fees under this section that were assessed and levied prior to the acquisition of any transportation facilities by a transportation district.

§ 33.2-1934. Liability for torts

Every district shall be liable for its torts and those of its officers, employees, and agents committed in the conduct of any proprietary function but shall not be liable for any torts occurring in the performance of a governmental function. However, this section shall not apply to a transportation district subject to the provisions of the Virginia Tort Claims Act (§ [8.01-195.1](#) et seq.).

§ 33.2-1936. Transportation districts with unique needs

The General Assembly finds that transportation districts that (i) have a population of 1.7 million or more, as shown by the most recent United States Census, (ii) have not less than 1.5 million motor vehicles registered therein, and (iii) have a total transit ridership of not less than 75 million riders per year across all transit systems within the transportation district and in which a rapid heavy rail commuter mass transportation system operating on an exclusive right-of-way and a bus commuter mass transportation system are owned, operated, or controlled by an agency or commission as defined in § [33.2-1901](#) have unique transportation needs.

Created

1991 Acts of Assembly, c. 446.

§ 1. Short title.

This act shall be known and may be cited as the "Vienna Parking Authority Act." (1991, c. 446)

§ 2. Declaration of public necessity.

It is hereby determined and declared that the free circulation of traffic of all kinds through the streets of the Town of Vienna in the Commonwealth is necessary to the health, safety and general welfare of the public, whether residing in the municipality or traveling to, through, or from such municipality in the course of lawful pursuits; that in recent years the greatly increased use by the public of motor vehicles of all kinds has caused serious traffic congestion in the streets of the municipality; that the parking of motor vehicles in the streets has contributed to this congestion to such an extent as to constitute at the present time a public nuisance; that such parking prevents the free circulation of traffic in, through, and from the municipality, and endangers the health, safety and welfare of the general public; that this traffic congestion is not capable of being adequately abated except by provisions for sufficient off-street parking facilities; that adequate off-street parking facilities have not been heretofore provided; and that the enactment of the provisions of this act is hereby declared to be a public necessity. Any obligation or expense incurred by the Authority or by the organizing municipality prior to the issuance of bonds under the provisions of this act in connection with any of the foregoing items of cost may be regarded as a part of such cost.

"Governing body" means the council or other body by whatever name it may be known in which the general legislative powers of the municipality are vested.

(1991, c. 446)

§ 4. Creation of the Authority.

A. The governing body of the municipality may by resolution signify its determination to organize an Authority under the provisions of this act. Such resolution may be adopted only after a public hearing thereon, notice of which hearing shall be given by publication at least once, not less than ten days prior to the date fixed for such hearing, in a newspaper having a general circulation in the

municipality. Such notice shall contain a brief statement of the substance of the proposed resolution, shall set forth the proposed articles of incorporation of the Authority and shall state the time and place of the public hearing to be held thereon. Such municipality shall not be required to make any other publication of such resolution under the provisions of any other law.

B. Such resolution shall include articles of incorporation which shall set forth:

1. The name of the Authority;
2. A statement that such Authority is organized under this act;
3. The name of the organizing municipality; and
4. The names and addresses of the first members of the Authority appointed by the organizing municipality.

C. Passage of such resolution by the governing body shall constitute the Authority a public body and a body politic and corporate of the Commonwealth of Virginia. (1991, c. 446)

§ 5. Membership of the Authority.

The Authority organized under the provisions of this act shall consist of five members selected by the governing body of the organizing municipality who shall serve for terms expiring one, two, three, four, and five years, respectively, from the date of appointment, the term of each such member to be designated by the governing body. The successor of each member of the Authority shall be appointed for a term of five years; any person appointed to fill a vacancy shall be appointed to serve only for the unexpired term and any member of the Authority may be reappointed.

Each member of the Board before entering upon his duties shall take and subscribe an oath or affirmation to support the Constitution of the United States and of the Commonwealth and to discharge faithfully the duties of his office and a record of each such oath shall be filed with the Secretary of the Board.

The Board shall select one of its members as Chairman and another as Vice Chairman and shall also select a Secretary and a Treasurer who may but need not be members of the Authority. The offices of Secretary and Treasurer may be combined. The terms of office of the Chairman, Vice Chairman, Secretary and Treasurer shall be as provided in the bylaws of the Authority.

A majority of the members of the Board shall constitute a quorum and the affirmative vote of a majority of all of the members of the Board shall be necessary for any action taken by the Authority. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all of the duties of the Authority. The members of the Board shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties.

The Town Manager of the organizing municipality or his designee shall serve as an ex officio, nonvoting member of the Authority. (1991, c. 446)

§ 6. General grant of powers.

The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and such Authority is hereby authorized and empowered to:

1. Adopt bylaws for the regulation of its affairs and the conduct of its business;
2. Adopt an official seal and alter the same at pleasure;
3. Maintain an office at such place or places as it may designate;
4. Sue and be sued in its own name, plead and be impleaded;
5. Construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate parking facilities within the corporate limits of the organizing municipality;
6. Issue revenue bonds of the Authority as hereinafter provided to pay the cost of such construction, reconstruction, equipment, improvement, extension or enlargement;
7. Issue revenue refunding bonds of the Authority as hereinafter provided;
8. Fix and revise from time to time and charge and collect rates, rentals, fees and other charges for the services and facilities furnished by such parking facilities, and to establish and revise from time to time regulation in respect of the use, operation and occupancy of such parking facilities or part thereof;
9. Acquire in the name of the Authority by gift, or purchase, any lands or rights in lands and interest herein, and to acquire such personal property, as it may deem necessary in connection with the construction, reconstruction, improvement, extension, enlargement or operation of any parking facility;
10. Lease all or any part of such parking facilities upon such terms and conditions and for such term of years as it may deem advisable to carry out the provisions of this act; however, no enterprise involving the sale or dispensing of any product or commodity used in or for the servicing of motor vehicles shall be conducted on any space thereon;
11. Make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this act, including a trust agreement or trust agreements securing any revenue bonds issued hereunder, and to employ such consulting and other engineers, superintendents, managers, construction and financial experts, accountants and attorneys and such employees and agents as may, in the judgment of the Authority, be deemed

necessary, and to fix their compensation; however, all such expenses shall be payable solely from funds made available under the provisions of this act;

12. Do all acts and things necessary or convenient to carry out the powers granted by this act;

13. Make and enter into all contracts with competition with respect to any item of cost of parking facilities, including parking structures; and

14. Sell, exchange, donate, and convey any or all of its facilities or properties whenever its members shall find any such action to be in furtherance of the purposes for which the Authority was organized. (1991, c. 446)

§ 7. Revenue bonds.

The Authority is hereby authorized to issue at one time or from time to time, revenue bonds of the Authority for the purpose of paying the cost of constructing, reconstructing, equipping, improving, extending, enlarging, maintaining, repairing or operating any one or more parking facilities. The bonds of each issue shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates not exceeding the maximum rate allowed by law, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In any case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interest of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than the maximum rate allowed by law to be paid by public bodies, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity. The proceeds of the bonds of each issue shall be used solely for the purpose for which such bonds shall have been authorized and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of such bonds, by error of

estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the authorizing resolution or in the trust agreement securing such bonds, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the Authority may deem proper and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

Bonds may be issued under the provisions of this act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this act.

Revenue bonds issued under the provisions of this act shall not be deemed to constitute a debt of the Commonwealth or of any municipality or other political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any municipality or other political subdivision, but such bonds shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the bonds. (1991, c. 446)

§ 8. Revenues.

The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by any parking facilities or parts thereof owned or operated by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times to (i) pay the cost of maintaining, repairing and operating the parking facilities or parts thereof owned or operated by the Authority, including reserves for such purposes, and (ii) pay the principal of and the interest on all bonds issued by the Authority under the provisions of this act as the same shall become due and payable and to provide reserves therefor. Notwithstanding any of the foregoing provisions of this section, the Authority may enter into contracts relating to use of the services and facilities of the

parking facilities on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1991, c. 446)

§ 9. Trust agreement.

In the discretion of the Authority, each or any issue of revenue bonds may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. The resolution authorizing the issuance of the bonds or such trust agreement may pledge the revenues to be received. In connection with the issuance of such bonds or in order to secure the payment thereof, the Authority shall have power under such agreement to mortgage all or any part of its property, real or personal, then owned or thereafter acquired, to vest in the trustee thereunder the right to foreclose such mortgage and to provide the terms and conditions upon which such trustee or the holders of bonds or any proportion thereof may exercise the right of foreclosure. Such trust agreement or resolution providing for the issuance for such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the construction, reconstruction, equipment, improvement, maintenance, repair, operation and insurance of any parking facilities, the fixing and revising of rates, rentals, fees and charges, and the custody, safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such construction, reconstruction, improvement, maintenance and operation. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Such resolution or trust agreement may set forth the rights and remedies of the bondholders and of the trustee, if any, and may restrict the individual right of action by bondholders. Such resolution or trust agreement may contain such other provisions in addition to the foregoing as the Authority may deem reasonable and proper for the security of the bondholders. Except as in this act otherwise provided, the Authority may provide for the payment of the proceeds of the sale of the bonds and the revenues of any parking facilities or part thereof to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursements thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of such resolution or trust agreement may be treated as a part of the cost of operation.

All pledges of revenues under the provisions of this act shall be valid and binding from the time when such pledge is made. All such revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledges without any physical delivery thereof, or further action, and the lien of such pledges shall be valid and binding as against all parties having claims of

any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. (1991, c. 446)

§ 10. Trust funds.

All moneys received pursuant to the authority of this act shall be deemed to be trust funds, to be held and applied solely as provided in this act. Any officer to whom, or bank, trust company or fiscal agent to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purpose hereof, subject to such regulations as this act and the resolution authorizing the issuance of bonds or trust agreement securing such bonds may provide. (1991, c. 446)

§ 11. Remedies.

Any holder of revenue bonds issued under the provisions of this act and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds or such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this act or by such resolution or trust agreement to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of rates, rentals, fees and charges for the use of or for the services and facilities furnished by any parking facilities. (1991, c. 446)

§ 12. Exemption from taxation.

As adequate off-street parking facilities are essential to the health, safety and general welfare of the public, and as the exercise of the powers conferred by this act to effect such purposes constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this act constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this act constitute public property and are used for municipal purposes, the Authority shall not be required to pay any taxes or assessments upon any such parking facilities or any part thereof, or upon the income therefrom, and any bonds issued under the provisions of this act, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the Commonwealth. (1991, c. 446)

§ 13. Revenue refunding bonds.

The Authority is hereby authorized to issue from time to time revenue refunding bonds for the purpose of refunding any revenue bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. The Authority is further authorized to issue from time to time revenue bonds of the Authority for the combined purpose of (i) refunding any revenue bonds or revenue refunding bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and (ii) paying all or any part of the cost of

constructing any additional parking facilities or part thereof, or any improvements, extensions or enlargements of any parking facilities. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and the rights, powers, privileges, duties and obligations of the Authority with respect to the same, shall be governed by the foregoing provisions of this act insofar as the same may be applicable. (1991, c. 446)

§ 14. Competing parking facilities.

So long as any bonds issued under the provisions of this act are outstanding, the municipality shall not construct, operate or maintain any parking facilities competing with parking facilities of the Authority. (1991, c. 446)

§ 15. Contributions.

The municipality is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this act from any available moneys for any purpose of the Authority, including payment of principal and interest on its bonds. The municipality is hereby further authorized to enter into agreements with the Authority obligating the municipality to pay the Authority any part or all of the receipts from the operation of on-street parking meters and making such covenants as may be deemed necessary or desirable to ensure the successful and profitable operation of the on-street parking meters for so long as any bonds of the Authority remain outstanding. (1991, c. 446)

§ 16. Actions taken by Authority.

Any action taken by the Authority under the provisions of this act may be authorized by resolution at any regular or special meeting and each such resolution shall take effect immediately and need not be published or posted. (1991, c. 446)

§ 17. Additional method.

This act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of or as repealing any powers now existing under any other law, either general, special or local; however, the issuance of revenue bonds or revenue refunding bonds under the provisions of this act need not comply with the requirements of any other law applicable to the issuance of bonds. (1991, c. 446)

§ 18. Severability.

The provisions of this act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions. (1991, c. 446)

§ 19. Construction.

This act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purpose thereof. (1991, c. 446)

B. In the event that a majority of the members of each board do not agree upon the selection, removal, or conditions of appointment, including salary, of the chief executive officer as provided in subsection A, then each board shall appoint a committee of three members of its respective board to consider the matter upon which the boards disagree. The selection, removal, or conditions of appointment shall be made jointly by the two committees at a joint meeting of the committees upon a vote by a majority of the members of each committee present and voting at the joint meeting. In the event that a majority of the members of each committee agree upon the selection, removal, or conditions of appointment of the chief executive officer, then the decision shall be reported to the board and the board of visitors of the University, each of which shall be bound by the decision of the committees. In the event that a majority of the members of each committee do not agree on the selection, removal, or conditions of appointment of the chief executive officer within 30 days of the appointment of the committees by each board, then the president of the University shall decide upon the matter upon which the committees disagree. The president of the University shall report his decision to both boards, each of which shall be bound by the decision of the president.

A. The Authority may acquire, plan, design, construct, own, rent as landlord or tenant, operate, control, remove, renovate, enlarge, equip, and maintain, directly or through stock or nonstock corporations or other entities, any project as defined in this chapter. B. Notwithstanding any provision of law to the contrary, the Authority may invest its operating funds in any obligations or securities that are considered legal investments for public funds in accordance with the Investment of Public Funds Act (§ [2.2-4500](#) et seq.). The board shall adopt written investment guidelines and retain an independent investment advisory firm or consultant to review at least every

Such exemptions shall not extend to persons conducting businesses on the Authority's property for which payment of state or local taxes would otherwise be required.

B. Any bonds issued by the Authority under the provisions of this chapter, the transfer of such bonds, and the income from such bonds and all rents, fees, charges, gifts, grants, revenues, receipts, and other moneys received or pledged to pay or secure the payment of such bonds are exempt from taxation and assessment of every kind by the Commonwealth and by the local governing bodies and other political subdivisions of the Commonwealth.

1996, cc. [905](#), [1046](#), § 23-50.16:16; 2016, c. [588](#).

§ 23.1-2412. Transfer of existing hospital facilities

A. The University may lease, convey, or otherwise transfer to the Authority any or all assets and liabilities appearing on the balance sheet of MCV Hospitals and any or all of the hospital facilities, except real estate that may be leased to the Authority for a term not to exceed 99 years, upon such terms as may be approved by the University.

B. Any transfer of hospital facilities pursuant to subsection A is conditioned upon the existence of a binding agreement between the University and the Authority:

1. That requires the Authority to assume, directly or indirectly, hospital obligations that are directly relating to the hospital facilities or any part of the hospital facilities that are transferred, including rentals as provided in subsection C or a combination of rentals and other obligations in the case of a lease of hospital facilities;

2. That provides that, effective on the transfer date, the Authority shall assume responsibility for, defend, indemnify, and hold harmless the University and its officers and directors with respect to:

a. All liabilities and duties of the University pursuant to contracts, agreements, and leases for commodities, services, and supplies used by MCV Hospitals, including property leases;

b. All claims relating to the employment relationship between employees of the Authority and the University on and after the transfer date;

c. All claims for breach of contract resulting from the Authority's action or failure to act on and after the transfer date;

d. All claims relating to the Authority's errors and omissions, including medical malpractice, directors' and officers' liability, workers' compensation, automobile liability, premises liability, completed operations liability, and products liability resulting from the Authority's action or failure to act on and after the transfer date; and

3. By which the Authority shall accept and agree to abide by provisions that ensure the continued support of the education, research, patient care, and public service missions of MCV Hospitals, including:

a. A requirement that the Authority continue to provide emergency and inpatient indigent care services on the MCV campus of the University in locations including downtown Richmond; and

b. A requirement that the Authority continue to act as the primary teaching facility for the Virginia Commonwealth University School of Medicine and the Health Sciences Schools of the University.

C. Any lease of hospital facilities from the University to the Authority may include a provision that requires the Authority to pay the University a rental payment for the hospital facilities that are leased. For those hospital facilities for which rent is paid, the rent shall be at least equal to the greater of:

1. The debt service accruing during the term of the lease on all outstanding bonds issued for the purpose of financing the acquisition, construction, or improvement of the hospital facilities on which rent is paid; or

2. A nominal amount determined by the parties to be necessary to prevent the lease from being unenforceable because of a lack of consideration.

D. Any lease of hospital facilities shall include a provision that requires the Authority to continue to support the education, research, patient care, and public service missions of MCV Hospitals, including:

1. A requirement that the Authority continue to provide emergency and inpatient indigent care services on the MCV campus of the University in locations including downtown Richmond; and

2. A requirement that the Authority continue to act as the primary teaching facility for the Health Sciences Schools of the University.

E. All other agencies and officers of the Commonwealth shall take such actions as may be necessary or desirable in the judgment of the University to permit such conveyance and the full use and enjoyment of the hospital facilities, including the transfer of property of any type held in the name of the Commonwealth or an instrumentality or agency of the Commonwealth but used by the University in the operation of the hospital facilities.

F. The Authority may pay to or on behalf of the University some or all of the costs of the hospital facilities. The University may apply some or all of such proceeds to the payment or defeasance of its obligations issued to finance the hospital facilities, and the Authority may issue its bonds to finance or refinance such payment.

G. Funds held by or for the University or any of its predecessors or divisions, including funds held by the University Foundation or the MCV Foundation for the benefit of MCV Hospitals or any of its predecessors for use in operating, maintaining, or constructing hospital facilities, providing medical and health sciences education, or conducting medical or related research may be transferred, in whole or in part, to the Authority if the University or any foundation determines that the transfer is consistent with the intended use of the funds. The University may direct in writing that all or part of the money or property representing its beneficial interest under a will, trust agreement, or other donative instrument be distributed to the Authority if the University determines that such direction furthers any of the original purposes of the will, trust agreement, or other instrument. Such a direction shall not be considered a waiver, disclaimer, renunciation, assignment, or disposition of the beneficial interest by the University. A fiduciary's distribution to the Authority pursuant to such a written direction from the University is a distribution to the University for all purposes relating to the donative instrument, and the fiduciary has no liability for distributing any money or property to the Authority pursuant to such a

direction. Nothing in this section shall deprive any court of its jurisdiction to determine whether such a distribution is appropriate under its cy pres powers or otherwise.

H. The Authority shall not operate any hospital pursuant to this section prior to execution of the lease and agreement required by this section and such other agreements as may be necessary or convenient in the University's judgment to provide for the transfer of the operations of the hospital facilities to the Authority, unless and to the extent that the University approves otherwise.

I. The University may assign and the Authority may accept the rights and assume the obligations under any contract or other agreement of any type relating to financing or operating the hospital facilities. Upon evidence that such assignment and acceptance has been made, all agencies and instrumentalities of the Commonwealth shall consent to such assignment and accept the substitution of the Authority for the University as a party to such agreement to the extent that the University's obligations under such agreement relate to the ownership, operation, or financing of the hospital facilities. Indebtedness previously incurred by the Commonwealth, the Virginia Public Building Authority, the Virginia College Building Authority, and any other agency or instrumentality of the Commonwealth to finance the hospital facilities may continue to remain outstanding after the transfer and assignment of such agreement by the University to the Authority.

J. The transfer of the hospital facilities from the University to the Authority does not require a certificate of public need pursuant to Article 1.1 (§ [32.1-102.1](#) et seq.) of Chapter 4 of Title 32.1. All licenses, permits, certificates of public need, or other authorizations of the Commonwealth, any agency of the Commonwealth, or any locality held by the University in connection with the ownership or operation of the hospital facilities are transferred without further action to the Authority to the extent that the Authority undertakes the activity permitted by such authorizations. All agencies and officers of the Commonwealth and all localities shall confirm such transfer by the issuance of new or amended licenses, permits, certificates of public need, or other authorizations upon the request of the University and the Authority.

K. If for any reason the Authority cannot replace the University as a party to any agreement in connection with the financing, ownership, or operation of the hospital facilities, the Authority and the University may require the Authority to act as agent for the University in carrying out its obligations under such agreement or receiving the benefits under such agreement, or both.

1996, cc. [905](#), [1046](#), §§ 23-50.16:17, 23-50.16:20, 23-50.16:21, 23-50.16:22, 23-50.16:23; 2016, c. [588](#).

§ 23.1-2413. Capital projects

A. All capital projects of the Authority shall be approved by the board. Within 30 days after approval of any capital project in excess of \$5 million, the board shall notify the House Appropriations and Senate Finance Committees of the scope, cost, and construction schedule of the proposed capital project.

The board may undertake the project unless either Committee raises objections within 30 days of the notification, in which case the Authority shall not undertake the project until such objections are resolved.

B. Before the Authority materially increases the size or materially changes the scope of any capital project for which construction has commenced, such project shall be approved again by the board in accordance with subsection A and, in the case of any capital project in excess of \$5 million, presented again to the House Appropriations and Senate Finance Committees in accordance with subsection A.

C. Notwithstanding any provision of law to the contrary, the Authority is not subject to any further process or procedure that requires the submission, review, or approval of any capital project; however, the Authority shall ensure that Building Officials and Code Administrators (BOCA) Code or any successor code and fire safety inspections are conducted for any capital project and that such projects are inspected by the State Fire Marshal or his designee prior to certification for building occupancy.

1996, cc. [905](#), [1046](#), § 23-50.16:18; 2016, c. [588](#); 2017, c. [314](#).

§ 23.1-2414. Leases of property

Leases of real property that the Authority enters into are exempt from the provisions of § [2.2-1149](#) and from any policies, regulations, and guidelines of the Division of Engineering and Buildings.

1996, cc. [905](#), [1046](#), § 23-50.16:19; 2016, c. [588](#).

§ 23.1-2415. Employees of the Authority

A. Employees of the Authority shall be employed on such terms and conditions as established by the Authority. The board shall develop and adopt policies and procedures that afford its employees grievance rights, ensure that employment decisions are based upon the merit and fitness of applicants, and prohibit discrimination on the basis of race, religion, color, sex, sexual orientation, gender identity, or national origin.

B. The Authority shall issue a written notice to all individuals whose employment is transferred to the Authority. The date upon which such written notice is issued is referred to in this section as the "Option Date." Each individual whose employment is transferred to the Authority may, by written request made within 180 days of the Option Date, elect not to become employed by the Authority. Any employee of MCV Hospitals who (i) elects not to become employed by the Authority; (ii) is not reemployed by any department, institution, board, commission, or agency of the Commonwealth; (iii) is not offered alternative employment by the Authority; (iv) is not offered a position with the Authority for which the employee is qualified; or (v) is offered a position by the Authority that requires relocation or a reduction in salary is eligible for the severance benefits conferred by the provisions of the Workforce Transition Act (§ [2.2-3200](#) et seq.). Any employee who accepts employment with the

Authority has voluntarily separated from state employment and is not eligible for the severance benefits conferred by the provisions of the Workforce Transition Act.

C. Without limiting its power generally with respect to employees, the Authority may employ any University employee utilized in the operation of the hospital facilities and assume obligations under any employment agreement for such employee, and the University may assign any such contract to the Authority.

D. The Authority and the University may enter into agreements providing for the purchase of services of University employees utilized in the operation of the hospital facilities by paying agreed-upon amounts to cover all or part of the salaries and other costs of such employees.

E. Notwithstanding any other provision of law to the contrary, any employee whose employment is transferred to the Authority as a result of this chapter and who is a member of any plan for providing health insurance coverage pursuant to Chapter 28 (§ [2.2-2800](#) et seq.) of Title 2.2 shall continue to be a member of such health insurance plan under the same terms and conditions of such plan.

F. Notwithstanding subsection A of § [2.2-2818](#), the costs of providing health insurance coverage to employees who elect to continue to be members of the state employees' health insurance plan shall be paid by the Authority.

G. Any employee of the Authority may elect to become a member of any health insurance plan established by the Authority. The Authority may (i) establish a health insurance plan for the benefit of its employees, residents, and interns and (ii) enter into an agreement with the Department of Human Resource Management providing for the coverage of its employees, interns, and residents under the state employees' health insurance plan, provided that such agreement requires the Authority to pay the costs of providing health insurance coverage under such plan.

H. Notwithstanding any other provision of law to the contrary, any employee whose employment is transferred to the Authority as a result of this chapter and who is a member of the Virginia Retirement System or another retirement plan as authorized by Article 4 (§ [51.1-125](#) et seq.) of Chapter 1 of Title 51.1 shall continue to be a member of the Virginia Retirement System or such other authorized retirement plan under the same terms and conditions of such plan. Any such employee and any employee employed by the Authority between July 1, 1997, and June 30, 1998, who elected to be covered by the Virginia Retirement System may elect, during an open enrollment period from April 1, 2001, through April 30, 2001, to become a member of the retirement plan established by the Authority for the benefit of its employees pursuant to § [23.1-2416](#) by transferring assets equal to the actuarially determined present value of the accrued basic benefit as of the transfer date. The Authority shall reimburse the Virginia Retirement System for the actual cost of actuarial services necessary to determine the present value of the accrued basic benefit of employees who elect to transfer to the Authority's retirement plan. The following rules shall apply to such transfers:

1. With respect to any transferred employee who elects to remain a member of the Virginia Retirement System or another authorized retirement plan, the Authority shall collect and pay all employee and employer contributions to the Virginia Retirement System or such other authorized retirement plan for retirement in accordance with the provisions of Chapter 1 (§ [51.1-124.1](#) et seq.) of Title 51.1 for such transferred employees.

2. Transferred employees who elect to become members of the retirement plan established by the Authority for the benefit of its employees shall be given full credit for their creditable service as defined in § [51.1-124.3](#), vesting and benefit accrual under the retirement plan established by the Authority. For any such employee, employment with the Authority shall be treated as employment with any nonparticipating employer for purposes of the Virginia Retirement System or other retirement plan as authorized by Article 4 (§ [51.1-125](#) et seq.) of Chapter 1 of Title 51.1.

3. For transferred employees who elect to become members of the retirement plan established by the Authority, the Virginia Retirement System or other such authorized plan shall transfer to the retirement plan established by the Authority assets equal to the actuarially determined present value of the accrued basic benefit as of the transfer date. For the purposes of such calculation, the basic benefit is the benefit accrued under the Virginia Retirement System or another authorized retirement plan based on creditable service and average final compensation as defined in § [51.1-124.3](#) and determined as of the transfer date. The actuarial present value shall be determined on the same basis, using the same actuarial factors and assumptions used in determining the funding needs of the Virginia Retirement System or such other authorized retirement plan so that the transfer of assets to the retirement plan established by the Authority has no effect on the funded status and financial stability of the Virginia Retirement System or other such authorized retirement plan.

§ 23.1-2416. Retirement benefits for employees of the Authority

A. The Authority may establish and determine the effective date of one or more retirement plans covering in whole or in part its employees, including employees who, prior to the effective date of any plan established pursuant to this section, participated in any plan established pursuant to § [51.1-126](#) or [51.1-126.1](#) or former § 51.1-126.2. The Authority may make contributions for the benefit of its employees who elect to participate in such plan or arrangement rather than in any other retirement system established by Chapter 1 (§ [51.1-124.1](#) et seq.) of Title 51.1.

B. Except in the case of an employee of the Authority hired prior to July 1, 1998, who made an irrevocable election to participate in the retirement plan established by Chapter 1 (§ [51.1-124.1](#) et seq.) of Title 51.1 or any plan previously established by the Authority in accordance with guidelines

established by the Authority, each eligible employee of the Authority shall participate in a plan established by the Authority pursuant to subsection A.

C. D. Notwithstanding any other provision of law to the contrary, the contribution by the Authority to any other retirement plan established pursuant to subsection A on behalf of employees of the Authority hired before July 1, 1998, shall be equal to the lesser of (i) the contribution the Commonwealth would be required to make if the employee were a member of the retirement system established by Chapter 1 (§ [51.1-124.1](#) et seq.) of Title 51.1 or (ii) eight percent of creditable compensation. The contribution by the Authority to any retirement plan established pursuant to subsection A on behalf of employees of the Authority hired on or after July 1, 1998, shall be determined by the board.

E. If the University has adopted a retirement plan under § [51.1-126](#) for its employees who are engaged in the performance of teaching, administrative, or research duties, the plan established by the Authority pursuant to subsection A shall offer similar investment opportunities as are available to the participants of the plan established pursuant to § [51.1-126](#).

Authority employees are not required to present at their own expense evidence of insurability satisfactory to an insurance company for basic group life insurance coverage. Any employee hired prior to July 1, 1998, shall be provided basic group life insurance at the same level of coverage as provided by the Virginia Retirement System. Any employee hired on or after July 1, 1998, shall be provided basic group life insurance at a level of coverage determined by the board that is not less than the equivalent of the employee's annual salary. The Authority may require employees hired on or after July 1, 1998, to pay all or a portion of the required basic group life insurance coverage. Such payment may be collected through a payroll deduction program. The Authority may increase the insurance coverage under such policies to make available to active insured employees optional life, accidental death and dismemberment, and disability insurance. Authority employees are not covered by the Virginia Retirement System's group insurance program under § [51.1-501](#).

B. Notwithstanding Article 1 (§ [2.2-1800](#) et seq.) of Chapter 18 of Title 2.2, bonds may be issued under the provisions of this chapter without (i) obtaining the consent of any commission, board, bureau, political subdivision, or agency of the Commonwealth or (ii) any proceedings, conditions, or things other than those proceedings, conditions, or things that are specifically required by this chapter; however, each debt offering shall be submitted to the State Treasurer sufficiently prior to the sale of such offering to allow the State Treasurer to undertake a review for the sole purposes of determining (a) whether the offering may constitute tax-supported debt of the Commonwealth and (b) the potential impact of the offering on the debt capacity of the Commonwealth. After such review, the State Treasurer shall determine if the offering constitutes tax-supported debt of the Commonwealth and the potential impact of the offering on the debt capacity of the Commonwealth. If the State Treasurer determines that the debt offering may constitute tax-supported debt of the Commonwealth or may have an adverse impact on the debt capacity of the Commonwealth, then the debt offering shall be submitted to the Treasury Board for review and approval of the terms and structure of the offering in a manner consistent with § [2.2-2416](#).

C. The Authority may issue bonds payable as to principal and interest from any of the following sources: (i) its revenues generally; (ii) income and revenues derived from the operation, sale, or lease of a particular project or projects, whether or not they are financed or refinanced from the proceeds of such bonds; (iii) funds realized from the enforcement of security interests or other liens or obligations securing such bonds; (iv) proceeds from the sale of bonds; (v) payments under letters of credit, policies of municipal bond insurance, guarantees, or other credit enhancements; (vi) any reserve or sinking funds created to secure such payment; (vii) accounts receivable of the Authority; or (viii) other available funds of the Authority.

§ 23.1-2419. Liability on bonds

No member of the board; officer, employee, or agent of the Authority; or person executing bonds of the Authority is liable personally on the bonds by reason of issuing or executing such bonds. Bonds of the Authority are not a debt of the Commonwealth or any political subdivision of the Commonwealth other than the Authority and shall so state on their face. Neither the Commonwealth nor any political subdivision of the Commonwealth other than the Authority is liable for payment of bonds of the Authority, nor shall such bonds be payable out of any funds or properties of the Commonwealth or any political subdivision of the Commonwealth other than those of the Authority, except as permitted by § [23.1-2418](#). Bonds of the Authority are issued for an essential public and governmental purpose.

§ 23.1-2420. Form of bonds

A. Bonds of the Authority shall (i) be authorized by resolution setting forth the maximum principal amount issuable, (ii) be dated, and (iii) mature not more than 40 years from their date and may be (a) issued in one or more series and (b) made redeemable or subject to tender before maturity, at the option of the Authority, at such price or under such terms and conditions as may be fixed by the Authority or its agents prior to issuance.

B. Bonds of the Authority shall bear interest payable at such times and rates and in such manner as the Authority or its agents may determine, including rates approved by officers of the Authority under authorization of the board, rates tied to indices, rates of other securities, or other standards and determinations by agents designated by the Authority under guidelines established by the Authority.

C. The Authority shall determine the form, manner of execution, and denominations of its bonds and the place of payment of principal and interest, which may be at any bank or trust company or securities depository within or outside the Commonwealth. The bonds may be issued in coupon or registered form, or both, and provision may be made for their registration in whole or in part. Bonds issued in registered form may be issued under a system of book-entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds.

D. If any officer whose signature or a facsimile of whose signature appears on any bonds or coupons ceases to hold such office before delivery of such bond, such signature or facsimile is nevertheless valid and sufficient for all purposes.

E. The Authority may contract for the services of one or more banks, trust companies, financial institutions, or other entities or persons within or outside the Commonwealth for the authentication, registration, transfer, exchange, and payment of bonds or provide such services itself. The Authority may sell such bonds at public or private sale and for such price as it determines.

F. Notwithstanding any other provision of this chapter or any recitals in any bonds issued under the provisions of this chapter, all such bonds are negotiable instruments under the laws of the Commonwealth.

G. Prior to the preparation of definitive bonds, the Authority may issue interim receipts or temporary bonds that are exchangeable for definitive bonds when such bonds are executed and available for delivery.

§ 23.1-2421. Trust indentures and mortgages; security for the bonds

A. Any bond issued under this chapter may be issued pursuant to or secured by (i) a trust indenture, deed of trust, or mortgage of any project or other property of the Authority, whether or not financed in whole or in part from the proceeds of such bonds; (ii) a trust or other agreement with a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside the Commonwealth or another agent for bondholders; or (iii) any combination of issuance or security set forth in clause (i) or (ii). Any such trust indenture or other agreement, or the resolution providing for the issuance of bonds, may pledge or assign fees, rents, and other charges to be received and contain reasonable, proper, and lawful provisions for protecting and enforcing the rights and remedies of the bondholders, including covenants (a) providing for the collection and application of revenues and the repossession and sale of any project or other property by the Authority or any trustees under any trust indenture or agreement upon default; (b) setting forth duties of the Authority in relation to the acquisition, construction, maintenance, operation, and insurance of any project or other property of the Authority and the amount of fees, rents, and other charges to be charged; (c) providing for the collection of such fees, rents, and other charges and the custody, safeguarding, and application of all moneys of the Authority; (d) providing for the creation of sinking funds and the creation and maintenance of reserves; and (e) setting forth conditions or limitations with respect to incurring indebtedness or granting mortgages or other liens. Such trust indenture, trust, or other agreement or resolution may set forth the rights and remedies of the bondholders, trustee, or other agent for bondholders and restrict the individual right of action by bondholders.

B. The Authority may grant mortgages, deeds of trust, security interests, and other liens on its real and personal property, including its accounts receivable, to secure bonds. All pledges of revenues of the Authority for payment of bonds are valid and binding from the time the pledge is made. The revenues pledged and received by the Authority are subject immediately to the lien of such pledge without any physical delivery of such pledge or further act. The lien of any such pledge is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the Authority whether or not such parties have notice of the lien. The Authority may provide for the recording or

filing of any mortgage, deed of trust, security interest, other lien, financing statement, or other instrument necessary or desirable to create, perfect, or evidence any lien created pursuant to this chapter.

C. It is lawful for any bank or trust company within or outside the Commonwealth to (i) serve as depository of the proceeds of bonds or other revenues of the Authority, (ii) furnish indemnifying bonds, or (iii) pledge such securities as may be required by the Authority.

D. All expenses incurred in carrying out the provisions of such trust indenture, agreement, resolution, or other agreements relating to any project, including those to which the Authority may not be a party, may be treated as a part of the costs of a project.

§ 23.1-2422. Remedies of obligees of Authority

Except to the extent that the rights granted by this chapter may be restricted by such trust indenture or trust or other agreement, any (i) holder of bonds or coupons issued under the provisions of this chapter and (ii) trustee or other agent for bondholders under any trust indenture or trust or other agreement may, either at law or in equity, by suit, action, injunction, mandamus, or other proceedings, (a) protect and enforce any and all rights granted by this chapter or under the laws of the Commonwealth, such trust indenture, trust, or other agreement, or the resolution authorizing the issuance of such bonds and (b) enforce and compel the Authority or any agent or officer of the Authority to perform all duties required by this chapter or such trust indenture, trust, or other agreement or resolution, including the fixing, charging, and collecting of fees, rents, and other charges.

The Authority may assume or agree to make payments in amounts sufficient for the University to pay some or all of the hospital obligations incurred under resolutions previously adopted by the University with respect to the hospital facilities and may issue bonds to refund bonds issued under such

resolutions or refinance such payment obligations. If the Authority assumes all hospital obligations under any such bond resolution and operates substantially all of the hospital facilities financed or refinanced by such bond resolution, the University, State Treasurer, Virginia Public Building Authority, and Virginia College Building Authority shall take such steps as are appropriate to provide for the substitution of the Authority for the University under such resolution and transfer to the Authority any funds payable to the University under the terms of such resolution.

§ 1. Short title.

This Act shall be known and may be cited as the Virginia's Region 2000 Airport Authority Act. (2007, c. [812](#))

§ 2. Creation; public purpose.

If the governing body of the City of Lynchburg and the governing bodies of one or more of the Counties of Amherst, Appomattox, Bedford, and Campbell by resolution declare that there is a need for an airport authority to be created for the purpose of establishing or operating an airport for such participating political subdivisions, and that they should unite in its formation, an airport authority to be known as Virginia's Region 2000 Airport Authority (the Authority) shall thereupon exist for such participating city and counties and shall exercise its powers and functions as prescribed herein. The region for which such Authority shall exist shall be coterminous with the boundaries of the participating political subdivisions.

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of the Virginia's Region 2000 Airport Authority, such Authority shall be conclusively deemed to have been created as a body corporate and to have been established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution as aforesaid by the governing bodies of such counties and city declaring that there is a need for such Authority and that they should unite in its formation. A copy of such resolution duly certified by the clerks of the counties and city by which it is adopted shall be admissible as evidence in any suit, action, or proceedings.

Any political subdivision of the Commonwealth, all or part of which is located within 60 miles of an Authority facility, is authorized to join such Authority pursuant to the terms and conditions of this Act.

It is hereby declared that the ownership and operation by the Authority of modern and efficient air transportation and related facilities and the exercise of powers conferred by this Act are proper and essential governmental functions and public purposes and matters of public necessity for which public moneys may be spent and private property acquired through the power of eminent domain as hereinafter provided. It is also declared that the promotion and stimulation of industry and trade to induce the location, retention, and expansion of manufacturing, industrial, governmental, and commercial enterprises and institutions in the Authority's participating political subdivisions, and to vest the Authority with all powers that may be necessary to enable it to accomplish these purposes, are essential governmental functions and public purposes and are for the benefit of the inhabitants of the Commonwealth, either through the increase of their commerce or through the promotion of their safety, health, welfare, convenience, or prosperity. It is further declared that contract obligations of a city or town to provide payments over a period of more than one year to the Authority shall be excluded from existing indebtedness of such city or town for purposes of calculating debt limit

pursuant to Article VII, Section 10 (a) of the Constitution of Virginia. It is further declared that the Authority is a regional entity of government by or on behalf of which debt may be contracted by or on behalf of any county pursuant to Article VII, Section 10 (b) of the Constitution of Virginia. To that end, property acquired, owned, or conveyed to the Authority, contracts entered into, financial assistance, indebtedness, rules and regulations adopted by the Authority, and any other actions thereof may only pertain to said airport or business/industrial park.

The grant of regulatory authority by this Act, including regulations that displace, eliminate, or limit competition by or among persons or entities, is based on the policy of the Commonwealth to provide for the safe, adequate, economical, and efficient provision of air transportation and related facilities and services to the public. (2007, c. [812](#))

§ 8. Name of airport.

The name of the airport operated by the Authority within the boundaries of Campbell County shall be Lynchburg Regional Airport. The name of the airport may be changed upon approval of the majority of the governing bodies of the participating political subdivisions. (2007, c. [812](#))

§ 9. Rules and regulations.

The Authority shall have the power to adopt, amend, and repeal rules and regulations for the use, maintenance, and operation of its facilities and governing the conduct of persons and organizations using its facilities.

Unless the Authority shall by unanimous vote of the Board of Directors determine that an emergency exists, the Authority shall, prior to the adoption of any rule, regulation, or alteration or amendment or modification thereof:

1. Make such rule, regulation, alteration, amendment, or modification in convenient form available for public inspection in the office of the Authority for at least 10 days; and
2. Post in a public place a notice declaring the Board of Directors' intention to consider adopting such rule, regulation, alteration, amendment, or modification and informing the public that the Authority will at a public meeting consider the adoption of such rule or regulation or such alteration, amendment, or modification, on a day and at a time to be specified in the notice, after the expiration of at least 10 days from the first day of the posting of the notice thereof. The Authority's rules and regulations shall be available for public inspection in the Authority's principal office.

The Authority's rules and regulations relating to (i) traffic, including but not limited to motor vehicle moving violations and the location of and payment of public parking; (ii) access to Authority facilities, including but not limited to solicitation, handbilling, and picketing; and (iii) aircraft operation and maintenance shall have the force of law, as shall any other rule or regulation of the Authority which shall contain a determination by the Authority that it is necessary to accord the same force and effect of law in the interest of the public safety. All ordinances, rules, and regulations duly adopted for the regulation, administration, and operation of Lynchburg Regional Airport, in force at the effective date of this Act, shall remain in full force insofar as they or any part thereof are not inconsistent with the provisions of this Act until amended or repealed in accordance with this Act. (2007, c. [812](#))

§ 10. Police powers.

Authority employees meeting the minimum requirements of the Department of Criminal Justice Services shall be given police power by the circuit court of the political subdivision where the employee will normally be exercising enforcement authority. The authority conferred upon such police officers shall be exercised only upon Authority facilities located within such participating political subdivision, and shall be in all terms consistent with the requirements of Chapter 17 (§ [15.2-1700](#) et seq.) of Title 15.2 of the Code of Virginia.

Such police officers shall have all powers vested in police officers under Chapter 17 (§ [15.2-1700](#) et seq.) of Title 15.2 of the Code of Virginia and shall be responsible upon Authority facilities for enforcing Authority rules and regulations and all other applicable statutes, ordinances, rules, and regulations of the United States of America and agencies, and instrumentalities thereof and the Commonwealth and political subdivisions, agencies, and instrumentalities thereof.

Such police officers may issue summonses to appear, or arrest on view or on information without warrant as permitted by law, and conduct before any court of competent jurisdiction any person violating any rule or regulation of the Authority or other applicable statute, ordinance, rule, or regulation.

For the purpose of enforcing such statutes, ordinances, rules, and regulations, the court or courts having jurisdiction for the trial of criminal offenses of the participating political subdivision wherein the offense was committed shall have jurisdiction to try a person charged with the violation of any such statutes, ordinances, rules, or regulations. (2007, c. [812](#))

§ 11. Eminent domain.

The Authority is hereby granted full power to exercise the right of eminent domain in the acquisition of any lands, easements, privileges, or other property interests which are necessary for purposes related to the operations of Lynchburg Regional Airport, including, where necessary to provide unobstructed air space for the landing and taking off of aircraft utilizing its airport, avigation easements over lands or water outside the boundaries of its airport, even though such avigation easement may be either

inconsistent with the continued use of such land for the same purposes for which it had been used prior to such acquisition, or inconsistent with the maintenance, preservation, and renewal of any structure or any tree or other vegetation standing or growing on said land at the time of such acquisition. Proceedings for the acquisition of such land, easements, and privileges by condemnation may be instituted and conducted in the name of the Authority in accordance with Title 25.1 of the Code of Virginia.

In the exercise of its eminent domain powers, the Authority shall have the right to inspect property as provided in § [25.1-203](#) of the Code of Virginia. (2007, c. [812](#))

§ 12. Reports.

The Authority shall keep minutes of its proceedings, which minutes shall be open to public inspection during normal business hours. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually by an independent certified public accountant. Copies of each such audit shall be furnished to each participating political subdivision and shall be open to public inspection. (2007, c. [812](#))

§ 13. Procurement.

All contracts that the Authority may let for construction or materials shall be subject to the Virginia Public Procurement Act (§ [2.2-4300](#) et seq. of the Code of Virginia). This section shall not apply to contracts relating to the construction of facilities by tenants on land leased from the Authority or to the construction of facilities not owned by the Authority but for which the Authority is providing financial assistance through the issuance of its bonds to finance all or a portion of such construction. (2007, c. [812](#))

§ 14. Deposit and investment of funds.

Except as provided by contract with a participating political subdivision, all moneys received pursuant to the authority of this Act, whether as proceeds from the sale of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this Act. All moneys of the Authority shall be deposited as soon as practicable in a separate account or accounts in one or more banks or trust companies organized under the laws of the Commonwealth or national banking associations having offices in the Commonwealth. Such deposits shall be continuously secured in accordance with the Virginia Security for Public Deposits Act (§ [2.2-4400](#) et seq. of the Code of Virginia).

Funds of the Authority not needed for immediate use or disbursement may, subject to the provisions of any contract between the Authority and the holders of its bonds, be invested in securities which are considered lawful investments for fiduciaries. (2007, c. [812](#))

§ 15. Authority to issue bonds.

The Authority shall have power and is hereby authorized to issue bonds from time to time in its discretion for any of its purposes, including the payment of all or any part of the cost of any of its facilities and the refunding of any bonds previously issued by it.

The Authority shall not issue bonds unless and until the maximum amount of such issue and the general purposes thereof have been approved by the governing body of each participating political subdivision, with the exception of those allowed in subdivision 18 of § 7. Subject to the foregoing, bonds may be issued under this Act notwithstanding any debt or other limitation prescribed in any other statute and without obtaining the consent of any city, town, or county government or any authority, board, bureau, or agency of the Commonwealth or of any of the foregoing, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions, or things which are specifically required by this Act.

The Authority may issue such types of bonds as it may determine, specifically bonds payable as to principal and interest: (i) from its revenues generally; (ii) exclusively from the income and revenues of a particular project; or (iii) exclusively from the income and revenues of certain designated projects, whether or not they are financed in whole or in part from the proceeds of such bonds. Subject to the limitations set forth in § 7, any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, copartnership, association, or individual, as such participating political subdivision or other entities may be authorized to make under general law or by pledge of any income or revenues of the Authority, or a mortgage of any facilities of the Authority.

Bonds of the Authority shall be authorized by resolution and may be issued in one or more series, may be dated, may mature at such time or times not exceeding 40 years from their date or dates, may be subject to redemption or repurchase at such price or prices and under such terms and conditions, and may contain such other provisions, all as determined by the Authority before their issuance or in such manner as the Authority may provide. The bonds may bear interest at such rate or rates as may be determined by the Authority or in such manner as the Authority may provide, including the determination by reference to indices or formulas or by agents designated by the Authority under guidelines established by it. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this Act or any recitals in any bonds issued under the

provisions of this Act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the conversion and reconversion into coupon bonds of any bonds registered as to both principal and interest and vice versa. The Authority may sell such bonds in such manner, either at public or private sale, and for such price as it may determine to be for the best interests of the Authority.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. (2007, c. [812](#))

§ 16. Resolution or trust indenture to secure bonds.

In connection with the issuance of bonds and in order to secure the payment of such bonds, the Authority shall have power:

1. To pledge by resolution, trust indenture, or other agreement, all or any part of its fees, rents, or revenues;
2. To covenant to impose and maintain such schedule of fees, rents, and charges as will produce funds sufficient to pay operating costs and debt service;
3. To covenant against pledging all or any part of its fees, rents, and revenues to which its right then exists or the right to which may thereafter come into existence or against permitting or suffering any lien thereon;
4. To provide for the release of fees, rents, and revenues from any pledge and to reserve rights and powers in the fees, rents, and revenues which are subject to a pledge;
5. To covenant with respect to limitations on its right to sell, lease, or otherwise dispose of any facility or facilities of the Authority or any part thereof or with respect to limitations on its right to undertake additional projects;

7. To covenant as to what other, or additional, debt may be incurred by it;
8. To provide for the terms, forms, registration, exchange, execution, and authentication of bonds;
9. To provide for the replacement of lost, destroyed, or mutilated bonds;
10. To covenant as to the use of any or all of its property, real or personal, subject to the continued use of such property for airport or business/industrial park purposes;

11. To create or to authorize the creation of special funds in which there may be segregated: (i) the proceeds of any loan or grant; (ii) all of the fees, rents, and revenues of any facility or facilities or parts thereof; (iii) any moneys held for the payment of the costs of operation and maintenance of any such facilities or as a reserve for the meeting of contingencies in the operation and maintenance thereof; (iv) any moneys held for the payment of the principal and interest on its bonds or the sums due under its leases or as reserve for such payments; and (v) any moneys held for any other reserve or contingencies; and to covenant as to the use and disposal of the moneys held in such funds;

12. To redeem its bonds, and to covenant for their redemption and to provide the terms and conditions thereof;

13. To covenant against extending the time for the payment of its bonds or interest thereon, directly or indirectly, by any means or in any manner;

14. To prescribe the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

15. To covenant as to the maintenance of its facilities, the insurance to be carried thereon, and the use and disposition of insurance moneys;

16. To vest in a bondholder the right, in the event of the failure of the Authority to observe or perform any covenant on its part to be kept or performed, to cure any such default, and, subject to the limitation on total indebtedness expressed in this Act, to advance any moneys necessary for such purpose, and the moneys so advanced may be made an additional obligation of the Authority with such interest, security, and priority as may be provided in any trust indenture, lease, or contract of the Authority with reference thereto;

17. To covenant and prescribe as to the events of default and terms and conditions upon which any or all of its bonds shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived;

18. To covenant as to the rights, liabilities, powers, and duties arising upon the breach by it of any covenant, condition, or obligation;

19. To covenant to surrender possession of all or any part of any facility or facilities acquired or constructed from bond proceeds, the revenues from which have been pledged upon the happening of any event of default, as defined in the contract, and to vest in a bondholder the right without judicial proceeding to take possession and to use, operate, manage, and control such facility or any part thereof, and to collect and receive all fees, rents, and revenues arising therefrom in the same manner as the Authority itself might do and to dispose of the moneys collected in accordance with

the agreement of the Authority with such obligee, subject to the continued use of such facilities for airport purposes;

20. To vest in a trustee or trustees the right to enforce any covenant made to secure, to pay, or in relation to the bonds, to provide for the powers and duties of such trustee or trustees, to limit liabilities thereof and to provide the terms and conditions upon which the trustee or trustees or the bondholders or any proportion of them may enforce any such covenant;

21. To make covenants other than and in addition to the covenants herein expressly authorized, of like or different character;

22. To execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of its covenants or duties, which may contain such covenants and provisions, in addition to those above specified, as any purchaser of the bonds of the Authority may reasonably require;

23. To make such covenants and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds, or in the absolute discretion of the Authority which tend to make the bonds more marketable; notwithstanding that such covenant, acts, or things may not be enumerated herein, it being the intention hereof to give the Authority power to do all things in the issuance of bonds, and in the provisions for their security that are not inconsistent with the Constitution of the Commonwealth or this Act; and

24. In connection with, or incidental to, the issuance or carrying of notes or bonds or the acquisition or carrying of any investments, to enter into swap agreements or other contracts or arrangements that the Authority determines to be necessary or appropriate to place obligations or investments of the Authority, as represented by notes, bonds, or investments of the Authority, in whole or in part, on the interest rate, currency, cash flow, or other basis desired by the Authority or to hedge payment, currency, rate, spread, or other exposure. Such contracts or arrangements may be entered into by the Authority in connection with, or incidental to, entering into or maintaining (i) any agreement that secures notes or bonds of the Authority and is authorized or permitted by law or (ii) any investment, or contract providing for any investment, otherwise authorized or permitted by law.

Such contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Authority, after giving due consideration, to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate.

In connection with or incidental to any of these contracts or arrangements, the Authority may enter into credit enhancement or liquidity agreements with such terms and conditions as it shall determine.

(2007, c. [812](#))

§ 17. Fees, rents, and charges.

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents, and other charges for the use and services of any facilities. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be subject to supervision or regulation by any authority, board, bureau, or agency of the Commonwealth or any participating political subdivision.

The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary, be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. (2007, c. [812](#))

§ 18. Credit of Commonwealth and political subdivisions not pledged.

The bonds of the Authority shall not be a debt of the Commonwealth or any political subdivision thereof, other than the Authority, and neither the Commonwealth nor any political subdivision thereof, other than the Authority, shall be liable thereon, nor shall such bonds be payable out of any funds or properties other than those of the Authority. All bonds of the Authority shall contain on the face thereof a statement to such effect. The bonds shall not constitute indebtedness within the meaning of any debt limitation or restriction. (2007, c. [812](#))

§ 19. Directors and persons executing bonds not liable thereon.

Neither the Board of Directors nor any person executing the bonds shall be liable personally on the Authority's bonds by reasons of the issuance thereof. (2007, c. [812](#))

§ 20. Remedies of bondholder.

Any holder of bonds issued under the provisions of this Act or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this Act or under such trust indenture agreement or the resolution authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this Act or by such trust indenture or agreement or resolution to be performed by the Authority or by any officer or agent thereof, including the fixing, charging, and collection of fees, rents, and other charges.

Any resolution authorizing the issuance of the Authority's bonds or trust indenture or agreement securing the same may limit or abrogate the individual right of action by the holders of such bonds or coupons appertaining thereto. (2007, c. [812](#))

§ 21. Taxation.

The exercise of the powers granted by this Act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience, and prosperity, and as the operation and maintenance of any project which the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this Act, and the bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations, and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property and machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation, or calling, and taxes upon consumers of gas, electricity, telephone, and other public utility services. (2007, c. [812](#))

§ 22. Bonds as legal investments.

Bonds issued by the Authority under the provisions of this Act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of

the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law. (2007, c. [812](#))

§ 23. Appropriation by political subdivision.

Any participating political subdivision, or other political subdivision of the Commonwealth all or a part of which is located within 60 miles of an Authority facility, is authorized to provide services, to donate real or personal property, and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act (§ [15.2-2600](#) et seq. of the Code of Virginia) or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivision may enter into contracts obligating such bond proceeds to the Authority.

The Authority may agree to assume, or reimburse a participating political subdivision for, any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Authority. With the consent of the governing body of the participating political subdivision, any such agreement may be made subordinate to the Authority's indebtedness to others. (2007, c. [812](#))

§ 24. Fiscal year; Authority budget.

A. The fiscal year of the Authority budget shall begin on July 1 and end on June 30.

B. The Authority shall annually prepare its budget as agreed to by the participating jurisdictions. (2007, c. [812](#))

§ 25. Contracts with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions, which contracts may restrict the powers of the Authority otherwise granted by this Act. Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located within 60 miles of an Authority facility, is authorized to enter into contracts with the Authority, pursuant to which the Authority undertakes to provide the facilities and render the services specified therein. Any such contract or agreement may provide that the political subdivision will make payments to the Authority based on the services rendered by the Authority to the residents of such political subdivision, determined in such reasonable manner as the Authority and the political subdivision may mutually agree. Each political subdivision entering into such a service contract with the Authority is authorized to do everything necessary or proper to carry out and perform such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations. (2007, c. [812](#))

§ 26. Withdrawal of participating jurisdiction.

Whenever it shall appear beneficial to the Authority a participating jurisdiction may request to withdraw from the Authority subject to approval of the remaining political jurisdictions by resolution of

the governing bodies. In the event a jurisdiction withdraws from the Authority, that jurisdiction shall be responsible for any outstanding obligations previously agreed to and shall not be entitled to any benefit of the assets of the Authority. (2007, c. [812](#))

§ 27. Dissolution of Authority.

Whenever it shall appear to the Authority, or a majority of participating political subdivisions, that the need for the Authority no longer exists, the Authority, or in the proper case, any such subdivision, may petition the Circuit Court of Campbell County for the dissolution of the Authority and provide a plan for distribution of assets to the participating jurisdictions. If the court shall determine that the need for the Authority as set forth in this Act no longer exists and that all debts and pecuniary obligations of the Authority have been fully paid or provided for, it may enter an order dissolving the Authority.

Upon dissolution, the court shall order any real property contributed to the Authority by a participating political subdivision, together with any improvements thereon, returned to such participating political subdivision as set forth in the dissolution plan or as determined by the court if no plan exists. In the event no plan exists the remaining assets of the Authority shall be distributed to the participating political subdivisions in proportion to their respective contributions theretofore made to the Authority.

Each participating political subdivision and all holders of the Authority's bonds shall be made parties to any such proceeding and shall be given notice as provided by law. Any party defendant may reply to such petition at any time within six months after the filing of the petition. From the final judgment of the court, an appeal shall lie to the Supreme Court of Virginia. (2007, c. [812](#))

§ 28. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds. (2007, c. [812](#))

§ 29. Liberal construction.

Neither this Act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers which the Authority might otherwise have under any laws of the Commonwealth, and this Act is cumulative to any such powers. This Act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds, notes, or other obligations. No proceedings, notice, or approval

shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this Act. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act. (2007, c. [812](#))

§ 30. Application of local ordinances, service charges, and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom. (2007, c. [812](#))

§ 31. Existing contracts, leases, franchises, etc., not impaired.

No provisions of this Act shall relieve, impair or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession, lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification. 5. Each authorized carrier shall:

(A) Provide safe and adequate transportation service, equipment, and facilities; and

(B) On the effective date of this Act a person engaged in transportation subject to this Act under an existing "certificate of Public Convenience and Necessity" or order issued by the Commission shall be issued a new "certificate of Authority" within 120 days after the effective date of this amendment.

(II) The operations described in paragraph (I) of this subsection shall be performed according to the rates, regulations, and practices of the certificate holder on file with the Commission on the effective date of this Act.

7. (A) When an application is made under this section for a certificate of Authority, the Commission shall issue a certificate to any qualified applicant, authorizing all or any part of the transportation covered by the application, if it finds that:

(I) The applicant is fit, willing, and able to perform that transportation properly, conform to the provisions of this Act, and conform to the rules, regulations and requirements of the Commission; and

(II) That the transportation is consistent with the public interest.

(B) If the Commission finds that the requirements of subsection (A) of this section have not been met, the application shall be denied by the Commission.

(C) The Commission shall act upon applications under this Act as soon as possible.

(D) The Commission may attach to the issuance of a certificate and to the exercise of the rights granted under it any term, condition, or limitation that is consistent with the public interest.

(E) A term, condition, or limitation imposed by the Commission may not restrict the right of a carrier to add to equipment and facilities over the routes or within the territory specified in the certificate, as business development and public demand may require.

(F) A person applying for or holding a certificate of Authority shall comply with Commission regulations regarding maintenance of a surety bond, insurance policy, self-insurance qualification, or other security or agreement in an amount that the Commission may require to pay any final judgment against a carrier for bodily injury or death of a person, or for loss or damage to property of another, resulting from the operation, maintenance, or use of a motor vehicle or other equipment in performing transportation subject to this Act.

(G) A certificate of Authority is not valid unless the holder is in compliance with the insurance requirements of the Commission.

8. Application to the Commission for a certificate under this Act shall be:

(A) Made in writing;

(B) Verified; and

(C) In the form and with the information that the Commission regulations require.

9. (A) A certificate of Authority issued by the Commission shall specify the route over which a regularly scheduled commuter service or other regular-route service will operate.

(B) A certificate issued by the Commission authorizing irregular-route service shall be coextensive with the Metropolitan District.

(C) A carrier subject to this Act may not provide any passenger transportation for hire on an individual fare paying basis in competition with an existing, scheduled, regular-route, passenger transportation service performed by, or under a contract with, the federal government, a signatory to the Compact, a political subdivision of a signatory, or the Washington Metropolitan Area Transit Authority, notwithstanding any "Certificate of Authority."

(I) A provision of this Act;

(II) An order, rule, or regulation of the Commission; or

(D) The Commission may direct that a carrier cease an operation conducted under a certificate if the Commission finds the operation, after notice and hearing, to be inconsistent with the public interest.

(B) Upon application by a carrier, the Commission shall issue an order, after notice and hearing, if it finds that abandonment of the route is consistent with the public interest.

(C) The Commission, by regulation or otherwise, may authorize the temporary suspension of a route if it is consistent with the public interest.

(D) As long as the carrier has an opportunity to earn a reasonable return in all its operations, the fact that a carrier is operating a service at a loss will not, of itself, determine the question of whether abandonment of service is consistent with the public interest.

13. (A) When the Commission finds that there is an immediate need for service that is not available, the Commission may grant temporary authority for that service without a hearing or other proceeding up to a maximum of 180 consecutive days, unless suspended or revoked for good cause.

(B) A grant of temporary authority does not create any presumption that permanent authority will be granted at a later date.

Rates and Tariffs.

14. (A) Each carrier shall file with the Commission, publish, and keep available for public inspection tariffs showing:

- (I) Fixed-rates and fixed-fares for transportation subject to this Act; and

(B) Each tariff filed under subsection (A) of this section shall state a date on which the tariff shall take effect, which shall be at least seven calendar days after the date on which the tariff is filed, unless the Commission orders an earlier effective date or rejects the tariff.

(C) (I) A tariff filed for approval with the Commission may be refused acceptance for filing if it is not consistent with this Act and Commission regulations; and

(II) A tariff refused for filing shall be void.

16. (A) The Commission may hold a hearing upon complaint or upon the Commission's own initiative after reasonable notice to determine whether a rate, fare, regulation, or practice relating to a tariff is unjust, unreasonable, unduly discriminatory, or unduly preferential between classes of riders or between locations within the Metropolitan District.

(B) Within 120 days of the hearing, the Commission shall pass an order prescribing the lawful rate, fare, regulation, or practice, or affirming the tariff.

Through Routes, Joint Fares.

17. With the approval of the Commission, any carrier subject to this Act may establish through routes and joint fares with any other lawfully authorized carrier.

Taxicab Fares.

Whereas, in said Compact each of the Signatories pledged to each of the other signatory parties faithful cooperation in the solution and control of transit and traffic problems within said metropolitan area and, in order to effect such purposes, agreed to enact any necessary legislation to achieve the objectives of the Compact to the mutual benefit of the citizens living within said metropolitan area and for the advancement of the interests of the Signatories;

Whereas, it has been established by a decade of studies that a regional system of improved and expanded transit facilities, including grade-separated rail facilities in congested areas, is essential in said metropolitan area for the satisfactory movement of people and goods, the alleviation of present and future traffic congestion, the economic welfare and vitality of all parts of the area, the effectiveness of the departments and agencies of the federal government located within the area, the orderly growth and development of the District of Columbia and the Maryland and Virginia portions of the area, the comfort and convenience of the residents of and visitors to the area, and the preservation of the beauty and dignity of the Nation's Capital;

Whereas, the Congress has authorized Maryland, Virginia and the District of Columbia to negotiate a Compact for the establishment of an organization empowered to provide necessary transit facilities (P.L. 86-669, 74 Stat. 537) and in said legislation declared the policy, inter alia, that the development and administration of such transit facilities requires (1) cooperation among the federal, state and local government of the area, (2) financial participation by the federal government in the creation of major facilities that are beyond the financial capacity or borrowing powers of the private carriers, the District of Columbia and the local governments of the area, and (3) coordination of transit facilities with other public facilities and with the use of land, public and private;

Whereas, private transit companies should be utilized to the extent practicable in providing the regional transit facilities and services, consistent with the requirements of the public interest that the

publicly and privately owned facilities be operated as a coordinated regional system without unnecessary duplicating services;

Whereas, adequate provision should be made for the protection of transit labor in the development and operation of the regional system;

Whereas, adequate provisions should be made to eliminate any requirement of additional authentication of manual signature of bonds guaranteed by the United States of America; and

Whereas, it is hereby determined that an Authority to be created by interstate compact between the District of Columbia, the State of Maryland and the Commonwealth of Virginia, is the most suitable form of organization to achieve the stated objectives;

Now, therefore, the District of Columbia, the State of Maryland and the Commonwealth of Virginia, hereinafter referred to as Signatories, do hereby amend the Washington Metropolitan Area Transit Regulation Compact by adding thereto Title III, as hereinafter set forth, and do hereby covenant and agree substantially, as follows:

The thirty days' notice shall begin to run on the first day the notice appears in any such newspaper. The Board shall consider the evidence submitted and statements and comments made at such hearing and may make any changes in the proposed plan, amendment or revision which it deems appropriate and such changes may be made without further hearing.

Article VII. Financing.

Policy

16. With due regard for the policy of Congress for financing a mass transit plan for the Zone set forth in Section 204 (g) of the National Capital Transportation Act of 1960 (74 Stat. 537), it is hereby declared to be the policy of this Title that, as far as possible, the payment of all costs shall be borne by the persons using or benefiting from the Authority's facilities and services and any remaining costs shall be equitably shared among the federal, District of Columbia and participating local governments in the Zone. The allocation among such governments of such remaining cost shall be determined by agreement among them and shall be provided in the manner hereinafter specified.

(c) With respect to the federal government, the commitment or obligation to render financial assistance shall be created by appropriation or in such other manner, or by such other legislation, as the Congress shall determine. Commitments by the District of Columbia shall be by contract or agreement between the governing body of the District of Columbia and the Authority, pursuant to which the Authority undertakes, subject to the provisions of § 20 hereof, to provide transit facilities and service in consideration for the undertaking by the District of Columbia to contribute to the capital required for the construction and/or acquisition of facilities specified in a mass transit plan adopted as provided in Article VI, or in any alteration, revision or amendment thereof, and for meeting expenses and obligations incurred in the operation of such facilities.

Such acquisition shall be made upon such terms and conditions as may be agreed upon and subject to such authorization or approval by the Congress and the governing body of the District of Columbia, as may be required; provided, however, that if such acquisition imposes or may impose any further or additional obligation or liability upon the Washington Suburban Transit District, the Northern Virginia Transportation District, or any component government thereof, under any contract with the Authority, the Authority shall not make the acquisition until any such affected contract has been appropriately amended.

(b) For such purpose, the Authority is authorized to assume all liabilities and contracts relating thereto, to assume responsibility as primary obligor, endorser or guarantor on any outstanding revenue bonds, equipment trust certificates or other form of indebtedness authorized in this Act issued by such predecessor agency or agencies and, in connection therewith, to become a party to,

and assume the obligations of, any indenture or loan agreement underlying or issued in connection with any outstanding securities or debts.

Funding

22. The Board shall not construct or acquire any of the transit facilities specified in a mass transit plan adopted pursuant to the provisions of Article VI of this Title, or in any alteration, revision or amendment thereof, nor make any commitments or incur any obligations with respect thereto until funds are available therefor.

Adoption and Distribution of Budgets

25. (a) Following the adoption by the Board of annual capital and current expense budgets, the general manager shall transmit certified copies of such budgets to the principal budget officer of the federal government, the District of Columbia, the Washington Suburban Transit District and of the component governments of the Northern Virginia Transportation Commission at such time and in such manner as may be required under their respective budgetary procedures.

(b) Each budget shall indicate the amounts, if any, required from the federal government, the government of the District of Columbia, the Washington Suburban Transit District and the

component governments of the Northern Virginia Transportation District, determined in accordance with the commitments made pursuant to Article VII, § 18 of this Title, to balance each of said budgets.

Payment

26. Subject to such review and approval as may be required by their budgetary or other applicable processes, the federal government, the Government of the District of Columbia, the Washington Suburban Transit District and the component governments of the Northern Virginia Transportation District shall include in their respective budgets next to be adopted and appropriate or otherwise provide the amounts certified to each of them as set forth in the budgets.

Article IX. Revenue Bonds.

Borrowing Power

27. The Authority may borrow money for any of the purposes of this Title, may issue its negotiable bonds and other evidences of indebtedness in respect thereto and may mortgage or pledge its properties, revenues and contracts as security therefor.

All such bonds and evidences of indebtedness shall be payable solely out of the properties and revenues of the Authority. The bonds and other obligations of the Authority, except as may be otherwise provided in the indenture under which they were issued, shall be direct and general obligations of the Authority and the full faith and credit of the Authority are hereby pledged for the prompt payment of the debt service thereon and for the fulfillment of all other undertakings of the Authority assumed by it to or for the benefit of the holders thereof.

Funds and Expenses

28. The purposes of this Title shall include, without limitation, all costs of any project or facility or any part thereof, including interest during a period of construction and for a period not to exceed two years thereafter and any incidental expenses (legal, engineering, fiscal, financial, consultant and other expenses) connected with issuing and disposing of the bonds; all amounts required for the creation of an operating fund, construction fund, reserve fund, sinking fund, or other special fund; all other expenses connected with administration, the planning, design, acquisition, construction, completion, improvement or reconstruction of any facility or any part thereof; and reimbursement of advances by the Board or by others for such purposes and for working capital.

Credit Excluded; Officers, State, Political Subdivisions and Agencies

29. The Board shall have no power to pledge the credit of any Signatory party, political subdivision or agency thereof, or to impose any obligation for payment of the bonds upon any Signatory party, political subdivision or agency thereof, but may pledge the contracts of such governments and agencies; provided, however, that the bonds may be underwritten in whole or in part as to principal

and interest by the United States, or by any political subdivision or agency of any Signatory; provided, further, that any bonds underwritten in whole or in part as to principal and interest by the United States shall not be issued without approval of the Secretary of the Treasury. Neither the Directors nor any person executing the bonds shall be liable personally on the bonds of the Authority or be subject to any personal liability or accountability by reason of the issuance thereof.

Funding and Refunding

It may provide for the issuance, sale or exchange of refunding bonds for the purpose of redeeming or retiring any bonds (including the payment of any premium, duplicate interest or cash adjustment required in connection therewith) issued by the Authority or issued by any other issuing body, the proceeds of the sale of which have been applied to any facility acquired by the Authority or which are payable out of the revenues of any facility acquired by the Authority. Bonds may be issued partly to refund bonds and other obligations then outstanding, and partly for any other purpose of the Authority. All provisions of this Title applicable to the issuance of bonds are applicable to refunding bonds and to the issuance, sale or exchange thereof.

Bonds; Authorization Generally

31. Bonds and other indebtedness of the Authority shall be authorized by resolution of the Board. The Authority may issue bonds in one or more series and may provide for one or more consolidated bond issues, in such principal amounts and with such terms and provisions as the Board may deem necessary. The bonds may be secured by a pledge of all or any part of the property, revenues and franchises under its control. Bonds may be issued by the Authority in such amount, with such maturities and in such denominations and form or forms, whether coupon or registered, as to principal alone or as to both principal and interest, as may be determined by the Board. The Board may provide for redemption of bonds prior to maturity on such notice and at such time or times and with such redemption provisions, including premiums, as the Board may determine.

Bonds; Resolution and Indentures Generally

32. The Board may determine and enter into indentures or adopt resolutions providing for the principal amount, date or dates, maturities, interest rate, or rates, denominations, form, registration, transfer, interchange and other provisions of bonds and coupons and the terms and conditions upon which the same shall be executed, issued, secured, sold, paid, redeemed, funded and refunded. The resolution

of the Board authorizing any bond or any indenture so authorized under which the bonds are issued may include all such covenants and other provisions not inconsistent with the provisions of this Title, other than any restriction on the regulatory powers vested in the Board by this Title, as the Board may deem necessary or desirable for the issue, payment, security, protection or marketing of the bonds, including without limitation covenants and other provisions as to the rates or amounts of fees, rents and other charges to be charged or made for use of the facilities; the use, pledge, custody, securing, application and disposition of such revenues, of the proceeds of the bonds, and of any other moneys or contracts of the Authority; the operation, maintenance, repair and reconstruction of the facilities and the amounts which may be expended therefor; the sale, lease or other disposition of the facilities; the insuring of the facilities and of the revenues derived therefrom; the construction or other acquisition of other facilities; the issuance of additional bonds or other indebtedness; the rights of the bondholders and of any trustee for the bondholders upon default by the Authority or otherwise; and the modification of the provisions of the indenture and of the bonds. Reference on the face of the bonds to such resolution or indenture by its date of adoption or the apparent date on the face thereof is sufficient to incorporate all of the provisions thereof and of this Title into the body of the bonds and their appurtenant coupons. Each taker and subsequent holder of the bonds or coupons, whether the coupons are attached to or detached from the bonds, has recourse to all of the provisions of the indenture and of this Title and is bound thereby.

Maximum Maturity

33. No bond or its terms shall mature in more than fifty years from its own date and in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date herein authorized shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

Tax Exemption

34. All bonds and all other evidences of debt issued by the Authority under the provisions of this Title and the interest thereon shall at all times be free and exempt from all taxation by or under authority of any Signatory parties, except for transfer, inheritance and estate taxes.

Interest

35. Bonds shall bear interest at such rate or rates as may be determined by the Board, payable annually or semiannually.

Place of Payment

36. The Board may provide for the payment of the principal and interest of bonds at any place or places within or without the Signatory states, and in any specified lawful coin or currency of the United States of America.

Execution

37. The Board may provide for the execution and authentication of bonds by the manual, lithographed or printed facsimile signature of members of the Board, and by additional authentication by a trustee or fiscal agent appointed by the Board; provided, however, that one of such signatures shall be manual; and provided, further, that no such additional authentication or manual signatures need be required in the case of bonds guaranteed by the United States of America. If any of the members whose signatures or countersignatures appear upon the bonds or coupons cease to be members before the delivery of the bonds or coupons, their signatures or countersignatures are nevertheless valid and of the same force and effect as if the members had remained in office until the delivery of the bonds and coupons.

Holding Own Bonds

38. The Board shall have power out of any funds available therefor to purchase its bonds and may hold, cancel or resell such bonds.

Sale

39. The Board may fix terms and conditions for the sale or other disposition of any authorized issue of bonds. The Board may sell bonds at less than their par or face value but no issue of bonds may be sold at an aggregate price below the par or face value thereof if such sale would result in a net interest cost to the Authority calculated upon the entire issue so sold in excess of the applicable rate determined by the Board, payable semiannually, computed with relation to the absolute maturity of the bonds according to standard tables of bond values, deducting the amount of any premium to be paid on the redemption of any bonds prior to maturity. All bonds issued and sold pursuant to this Title may be sold in such manner, either at public or private sale, as the Board shall determine.

Negotiability

40. All bonds issued under the provisions of this Title are negotiable instruments.

Bonds Eligible for Investment and Deposit

41. Bonds issued under the provisions of this Title are hereby made securities in which all public officers and public agencies of the Signatories and their political subdivisions and all banks, trust companies, savings and loan associations, investment companies and others carrying on a banking business, all insurance companies and insurance associations and others carrying on an insurance business, all administrators, executors, guardians, trustees and other fiduciaries, and all other persons may legally and properly invest funds, including capital in their control or belonging to them. Such

bonds are hereby made securities which may properly and legally be deposited with and received by any officer of any Signatory, or of any agency or political subdivision of any Signatory, for any purpose for which the deposit of bonds or other obligations of such Signatory is now or may hereafter be authorized by law.

Validation Proceedings

42. Prior to the issuance of any bonds, the Board may institute a special proceeding to determine the legality of proceedings to issue the bonds and their validity under the laws of any of the Signatory parties. Such proceeding shall be instituted and prosecuted in rem and the final judgment rendered therein shall be conclusive against all persons whomsoever and against each of the Signatory parties.

43. No indenture need be recorded or filed in any public office, other than the office of the Board. The pledge of revenues provided in any indenture shall take effect forthwith as provided therein and irrespective of the date of receipt of such revenues by the Board or the indenture trustee. Such pledge shall be effective as provided in the indenture without physical delivery of the revenues to the Board or to the indenture trustee.

Pledged Revenues

44. Bond redemption and interest payments shall, to the extent provided in the resolution or indenture, constitute a first, direct and exclusive charge and lien on all revenues received from the use and operation of the facility, and on any sinking or other funds created therefrom. All such revenues, together with interest thereon, shall constitute a trust fund for the security and payment of such bonds and except as and to the extent provided in the indenture with respect to the payment therefrom of expenses for other purposes including administration, operation, maintenance, improvements or extensions of the facilities or other purposes shall not be used or pledged for any other purpose so long as such bonds, or any of them, are outstanding and unpaid.

Remedies

45. The holder of any bond may for the equal benefit and protection of all holders of bonds similarly situated: (1) by mandamus or other appropriate proceedings require and compel the performance of any of the duties imposed upon the Board or assumed by it, its officers, agents or employees under the provisions of any indenture, in connection with the acquisition, construction, operation, maintenance, repair, reconstruction or insurance of the facilities, or in connection with the collection, deposit, investment, application and disbursement of the revenues derived from the operation and use of the facilities, or in connection with the deposit, investment and disbursement of the proceeds received from the sale of bonds; or (2) by action or suit in a court of competent jurisdiction of any Signatory party require the Authority to account as if it were the trustee of an express trust, or enjoin any acts or things which may be unlawful or in violation of the rights of the holders of the bonds. The

enumeration of such rights and remedies does not, however, exclude the exercise or prosecution of any other rights or remedies available to the holders of bonds.

Article X. Equipment Trust Certificates.

Power

46. The Board shall have power to execute agreements, leases and equipment trust certificates with respect to the purchase of facilities or equipment such as cars, trolley buses and motor buses, or other craft, in the form customarily used in such cases and appropriate to effect such purchase, and may dispose of such equipment trust certificates in such manner as it may determine to be for the best interests of the Authority. Each vehicle covered by an equipment trust certificate shall have the name of the owner and lessor plainly marked upon both sides thereof, followed by the words "Owner and Lessor".

Payments

47. All moneys required to be paid by the Authority under the provisions of such agreements, leases and equipment trust certificates shall be payable solely from the revenue to be derived from the operation of the transit system or from such grants, loans, appropriations or other revenues, as may be available to the Board under the provisions of this Title. Payment for such facilities or equipment, or rentals thereof, may be made in installments, and the deferred installments may be evidenced by equipment trust certificates as aforesaid, and title to such facilities or equipment may not vest in the Authority until the equipment trust certificates are paid.

Procedure

48. The agreement to purchase facilities or equipment by the Board may direct the vendor to sell and assign the equipment to a bank or trust company, duly authorized to transact business in any of the Signatory states, or to the Housing and Home Finance Administrator, as trustee, lessor or vendor, for the benefit and security of the equipment trust certificates and may direct the trustee to deliver the facilities and equipment to one or more designated officers of the Board and may authorize the trustee simultaneously therewith to execute and deliver a lease of the facilities or equipment to the Board.

Agreements and Leases

49. The agreements and leases shall be duly acknowledged before some person authorized by law to take acknowledgments of deeds and in the form required for acknowledgment of deeds and such agreements, leases, and equipment trust certificates shall be authorized by resolution of the Board and shall contain such covenants, conditions and provisions as may be deemed necessary or appropriate to insure the payment of the equipment trust certificates from the revenues to be derived from the operation of the transit system and other funds.

The covenants, conditions and provisions of the agreements, leases and equipment trust certificates shall not conflict with any of the provisions of any resolution or trust agreement securing the payment of bonds or other obligations of the Authority then outstanding or conflict with or be in derogation of the rights of the holders of any such bonds or other obligations.

Law Governing

50. The equipment trust certificates issued hereunder shall be governed by Laws of the District of Columbia and for this purpose the chief place of business of the Authority shall be considered to be the District of Columbia. The filing of any documents required or permitted to be filed shall be governed by the Laws of the District of Columbia.

Article XI. Operation of Facilities.

Operation by Contract or Lease

51. Any facilities and properties owned or controlled by the Authority may be operated by the Authority directly or by others pursuant to contract or lease as the Board may determine.

The Operating Contract

52. Without limitation upon the right of the Board to prescribe such additional terms and provisions as it may deem necessary and appropriate, the operating contract shall:

- (a) specify the services and functions to be performed by the Contractor;
- (b) provide that the Contractor shall hire, supervise and control all personnel required to perform the services and functions assumed by it under the operating contract and that all such personnel shall be employees of the Contractor and not of the Authority;
- (c) require the Contractor to assume the obligations of the labor contract or contracts of any transit company which may be acquired by the Authority and assume the pension obligations of any such transit company;
- (d) require the Contractor to comply in all respects with the labor policy set forth in Article XIV of this Title;
- (e) provide that no transfer of ownership of the capital stock, securities or interests in any Contractor, whose principal business in the operating contract, shall be made without written approval of the Board and the certificates or other instruments representing such stock, securities or interests shall contain a statement of this restriction;
- (f) provide that the Board shall have the sole authority to determine the rates or fares to be charged, the routes to be operated and the service to be furnished;
- (g) specify the obligations and liabilities which are to be assumed by the Contractor and those which are to be the responsibility of the Authority;

(h) provide for an annual audit of the books and accounts of the Contractor by an independent certified public accountant to be selected by the Board and for such other audits, examinations and investigations of the books and records, procedures and affairs of the Contractor at such times and in such manner as the Board shall require, the cost of such audits, examinations and investigations to be borne as agreed by the parties in the operating contracts; and

(i) provided that no operating contract shall be entered into for a term in excess of five years; provided, that any such contract may be renewed for successive terms, each of which shall not exceed five years. Any such operating contract shall be subject to termination by the Board for cause only.

Compensation for Contractor

53. Compensation to the Contractor under the operating contract may, in the discretion of the Board, be in the form of (1) a fee paid by the Board to the Contractor for services, (2) a payment by the Contractor to the Board for the right to operate the system, or (3) such other arrangement as the Board may prescribe; provided, however, that the compensation shall bear a reasonable relationship to the benefits to the Authority and to the estimated costs the Authority would incur in directly performing the functions and duties delegated under the operating contract; and provided, further that no such contract shall create any right in the Contractor (1) to make or change any rate or fare or alter or change the service specified in the contract to be provided or (2) to seek judicial relief by any form of original action, review or other proceeding from any rate or fare or service prescribed by the Board. Any assertion, or attempted assertion, by the Contractor of the right to make or change any rate or fare or service prescribed by the Board shall constitute cause for termination of the operating contract. The operating contract may provide incentives for efficient and economical management.

Selection of Contractor

54. The Board shall enter into an operating contract only after formal advertisement and negotiations with all interested and qualified parties, including private transit companies rendering transit service within the Zone; provided, however, that, if the Authority acquires transit facilities from any agency of the federal or District of Columbia governments, in accordance with the provisions of Article VII, § 20 of this Title, the Authority shall assume the obligations of any operating contract which the transferor agency may have entered into.

Article XII. Coordination of Private and Public Facilities.

Declaration of Policy

55. It is hereby declared that the interest of the public in efficient and economical transit service and in the financial well-being of the Authority and of the private transit companies requires that the public and private segments of the regional transit system be operated, to the fullest extent possible, as a coordinated system without unnecessary duplicating service.

Implementation of Policy

56. In order to carry out the legislative policy set forth in § 55 of this Article XII

(a) The Authority--

- (1) except as herein provided, shall not, directly or through a Contractor, perform transit service by bus or similar motor vehicles;
- (2) shall, in cooperation with the private carriers and WMATC coordinate to the fullest extent practicable, the schedules for service performed by its facilities with the schedules for service performed by private carriers; and
- (3) shall enter into agreements with the private carriers to establish and maintain, subject to approval by WMATC, through routes and joint fares and provide for the division thereof, or, in the absence of such agreements, establish and maintain through routes and joint fares in accordance with orders issued by WMATC directed to the private carriers when the terms and conditions for such through service and joint fares are acceptable to it.

(b) The WMATC, upon application, complaint, or upon its own motion, shall--

- (1) direct private carriers to coordinate their schedules for service with the schedules for service performed by facilities owned or controlled by the Authority;
- (2) direct private carriers to improve or extend any existing services or provide additional service over additional routes;
- (3) authorize a private carrier, pursuant to agreement between said carrier and the Authority, to establish and maintain through routes and joint fares for transportation to be rendered with facilities owned or controlled by the Authority if, after hearing held upon reasonable notice, WMATC finds that such through routes and joint fares are required by the public interest; and
- (4) in the absence of such an agreement with the Authority, direct a private carrier to establish and maintain through routes and joint fares with the Authority, if, after hearing held upon reasonable notice, WMATC finds that such through service and joint fares are required by the public interest; provided, however, that no such order, rule or regulation of WMATC shall be construed to require the Authority to establish and maintain any through route and joint fare.

(c) WMATC shall not authorize or require a private carrier to render any service, including the establishment or continuation of a joint fare for a through route service with the Authority which is based on a division thereof between the Authority and private carrier which does not provide a reasonable return to the private carrier, unless the carrier is currently earning a reasonable return on its operation as a whole in performing transportation subject to the jurisdiction of WMATC. In determining the issue of reasonable return, WMATC shall take into account any income attributable

to the carrier, or to any corporation, firm or association owned in whole or in part by the carrier, from the Authority whether by way of payment for services or otherwise.

(d) If the WMATC is unable, through the exercise of its regulatory powers over the private carriers granted in subsection (b) hereof or otherwise, to bring about the requisite coordination of operations and service between the private carriers and the Authority, the Authority may in the situations specified in subsection (b) hereof, cause such transit service to be rendered by its Contractor by bus or other motor vehicle, as it shall deem necessary to effectuate the policy set forth in § 55 hereof. In any such situation, the Authority, in order to encourage private carriers to render bus service to the fullest extent practicable, may, pursuant to agreement, make reasonable subsidy payments to any private carrier.

(e) The Authority may acquire the capital stock or the transit facilities of any private transit company and may perform transit service, including service by bus or similar motor vehicle, with transit facilities so acquired, or with transit facilities acquired pursuant to Article VII, § 20. Upon acquisition of the capital stock or the transit facilities of any private transit company, the Authority shall undertake the acquisition, as soon as possible, of the capital stock or the transit facilities of each of the other private transit companies within the Zone requesting such acquisition. Lack of such request, however, shall not be construed to preclude the Authority from acquiring the capital stock or the transit facilities of any such company pursuant to § 82 of Article XVI.

Rights of Private Carriers Unaffected

57. Nothing in this title shall restrict or limit such rights and remedies, if any, that any private carrier may have against the Authority arising out of acts done or actions taken by the Authority hereunder. In the event any court of competent jurisdiction shall determine that the Authority has unlawfully infringed any rights of any private carrier or otherwise caused or permitted any private carrier to suffer legally cognizable injury, damages or harm and shall award a judgment therefor, such judgment shall constitute a lien against any and all of the assets and properties of the Authority.

Financial Assistance to Private Carriers

58. (a) The Board may accept grants from and enter into loan agreements with the Housing and Home Finance Administrator, pursuant to the provisions of the Urban Mass Transportation Act of 1964 (78 Stat. 302), or with any successor agency or under any law of similar purport, for the purpose of rendering financial assistance to private carriers.

(b) An application by the Board for any such grant or loan shall be based on and supported by a report from WMATC setting forth for each private carrier to be assisted (1) the equipment and facilities to be acquired, constructed, reconstructed, or improved, (2) the service proposed to be rendered by such equipment and facilities, (3) the improvement in service expected from such facilities and equipment, (4) how the use of such facilities and equipment will be coordinated with

the transit facilities owned by the Authority, (5) the ability of the affected private carrier to repay any such loans or grants and (6) recommended terms for any such loans or grants.

(c) Any equipment or facilities acquired, constructed, reconstructed or improved with the proceeds of such grants or loans shall be owned by the Authority and may be made available to private carriers only by lease or other agreement which contain provisions acceptable to the Housing and Home Finance Administrator assuring that the Authority will have satisfactory continuing control over the use of such facilities and equipment.

Article XIII. Jurisdiction; Rates and Service.

Washington Metropolitan Area Transit Commission.

59. Except as provided herein, this Title shall not affect the functions and jurisdiction of WMATC, as granted by Titles I and II of this Compact, over the transportation therein specified and the persons engaged therein and the Authority shall have no jurisdiction with respect thereto.

Public Facilities

60. Service performed by transit facilities owned or controlled by the Authority, and the rates and fares to be charged for such service, shall be subject to the sole and exclusive jurisdiction of the Board and, notwithstanding any other provision in this Compact contained, WMATC shall have no authority with respect thereto, or with respect to any contractor in connection with the operation by it of transit facilities owned or controlled by the Authority. The determinations of the Board with respect to such matters shall not be subject to judicial review nor to the processes to any court.

Standards

61. Insofar as practicable, and consistent with the provision of adequate service at reasonable fares, the rates and fares and service shall be fixed by the Board so as to result in revenues which will:

- (a) pay the operating expenses and provide for repairs, maintenance and depreciation of the transit system owned or controlled by the Authority;
- (b) provide for payment of all principal and interest on outstanding revenue bonds and other obligations and for payment of all amounts to sinking funds and other funds as may be required by the terms of any indenture of loan agreement;
- (c) provide for the purchase, lease or acquisition of rolling stock, including provisions for interest, sinking funds, reserve funds, or other funds required for the payment of any obligations incurred by the Authority for the acquisition of rolling stock; and
- (d) provide funds for any purpose the Board deems necessary and desirable to carry out the purposes of this title.

Hearings

62. (a) The Board shall not raise any fare or rate, nor implement a major service reduction, except after holding a public hearing with respect thereto.

(b) Any Signatory, any political subdivision thereof, any agency of the federal government and any person, firm or association served by or using the transit facilities of the Authority and any private carrier may file a request with the Board for a hearing with respect to any rates or charges made by the Board or any service rendered with the facilities owned or controlled by the Authority. Such request shall be in writing, shall state the matter on which a hearing is requested and shall set forth clearly the matters and things on which the request relies. As promptly as possible after such a request is filed, the Board, or such officer or employee as it may designate, shall confer with the protestant with respect to the matters complained of. After such conference, the Board, if it deems the matter meritorious and of general significance, may call a hearing with respect to such request.

(c) The Board shall give at least fifteen days' notice for all public hearings. The notice shall be given by publication in a newspaper of daily circulation throughout the Transit Zone and such notice shall be published once a week for two successive weeks. The notice period shall start with the first day of publication. Notices of public hearings shall be posted in accordance with regulations promulgated by the Board.

(d) Prior to calling a hearing on any matter specified in this section, the Board shall prepare and file at its main office and keep open for public inspection its report relating to the proposed action to be considered at such hearing. Upon receipt by the Board of any report submitted by WMATC, in connection with a matter set for hearing, pursuant to the provisions of § 63 of this Article XIII, the Board shall file such report at its main office and make it available for public inspection. For hearings called by the Board pursuant to paragraph (b), above, the Board also shall cause to be lodged and kept open for public inspection the written request upon which the hearing is granted and all documents filed in support thereof.

Reference of Matters to WMATC

63. To facilitate the attainment of the public policy objectives for operation of the publicly and privately owned or controlled transit facilities as stated in Article XII, § 55, prior to the hearings provided for by § 62 hereof--

(a) The Board shall refer to WMATC for its consideration and recommendations, any matter which the Board considers may affect the operation of the publicly and privately owned or controlled transit facilities as a coordinated regional transit system and any matter for which the Board has called a hearing, pursuant to § 62 of this Article XIII, except that temporary or emergency changes in matters affecting service shall not be referred; and

(b) WMATC, upon such reference of any matter to it, shall give the referred matter preference over any other matters pending before it and shall, as expeditiously as practicable, prepare and transmit

its report thereon to the Board. The Board may request WMATC to reconsider any part of its report or to make any supplemental reports it deems necessary. All of such reports shall be advisory only.

(c) Any report submitted by WMATC to the Board shall consider, without limitation, the probable effect of the matter or proposal upon the operation of the publicly and privately owned or controlled transit facilities as a coordinated regional system, passenger movements, fare structures, service and the impact on the revenues of both the public and private facilities.

Article XIV. Labor Policy.

Construction

64. The Board shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors in the construction, alteration or repair, including painting and decorating, of projects, buildings and works which are undertaken by the Authority or are financially assisted by it, shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), and every such employee shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in any workweek, as the case may be. A provision stating the minimum wages thus determined and the requirement that overtime be paid as above provided shall be set out in each project advertisement for bids and in each bid proposal form and shall be made a part of the contract covering the project, which contract shall be deemed to be a contract of the character specified in § 103 of the Contract Work Hours Standards Act (76 Stat. 357), as now or as may hereafter be in effect. The Secretary of Labor shall have, with respect to the administration and enforcement of the labor standards specified in this provision, the supervisory, investigatory and other authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176, 64 Stat. 1267, 5 U.S.C. 133z-15), and § 2 of the Act of June thirteen, nineteen hundred thirty-four, as amended (48 Stat. 948, as amended; 40 U.S.C. 276 (c)). The requirements of this section shall also be applicable with respect to the employment of laborers and mechanics in the construction, alteration or repair, including painting and decorating, of the transit facilities owned or controlled by the Authority where such activities are performed by a contractor pursuant to agreement with the operator of such facilities.

Equipment and Supplies

65. Contracts for the manufacture or furnishing of materials, supplies, articles and equipment shall be subject to the provisions of the Walsh-Healey Public Contracts Act (41 U.S.C. 35 et seq), as now or as may hereafter be in effect.

Operations

66. (a) The rights, benefits, and other employee protective conditions and remedies of § 13 (c) of the Federal Transit Act, as amended (49 U.S.C. Section 5333 (b)), as determined by the Secretary of Labor, shall apply to Washington Metropolitan Area Transit Authority employees otherwise covered by the Act. The Authority shall extend to employees whose positions are adversely affected by the expenditure of federal funds obtained by WMATA pursuant to congressional appropriations, the rights, benefits, and other employee protective conditions and remedies of section 13 (c) of the Federal Transit Act, as amended (49 U.S.C. § 5333(b)).

(b) The Authority shall deal with and enter into written contracts with employees as defined in § 152 of Title 29, United States Code, through accredited representatives of such employees or representatives of any labor organization authorized to act for such employees concerning wages, salaries, hours, working conditions, and pension or retirement provisions. Each such contract entered into after the effective date of this act shall prohibit the contracting employees from engaging in any strike or an employer from engaging in any lockout.

(c) In case of any labor dispute involving the Authority and such employees where collective bargaining does not result in agreement, either party may declare that an impasse has been reached between the parties and may, by written notification to the other party and to the Federal Mediation and Conciliation Service, request the Service to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on terms which are mutually acceptable. Within five days of the receipt of the request the Federal Mediation and Conciliation Service shall appoint a mediator in accordance with its rules and procedures for such appointment. The mediator shall meet with the parties forthwith, either jointly or separately, and shall take such steps as he or she deems appropriate to persuade the parties to resolve their differences and effect a mutually acceptable agreement. The mediator shall not, however, make findings of fact or recommend terms of settlement. Each party shall pay one-half of the expenses of such mediator. If the mediator is unable to effect settlement of the controversy within fifteen days after his or her appointment, the Authority shall submit such dispute to fact finding by a board composed of three persons, one appointed by the Authority, one appointed by the labor organization representing the employees, and a third member to be agreed upon by the labor organization and the Authority. The member agreed upon by the labor organization and the Authority shall act as chairman of the board. The determination of the majority of the fact finding board thus established shall be advisory as to all matters in dispute. If after a period of ten days from the date of the appointment of the two persons representing the Authority and the labor organization, the third person has not been selected, then either of the two persons may request the Federal Mediation and Conciliation Service to furnish a list of five persons from which the third person shall be selected; provided, however, that the list shall not include the name of the person who served as mediator unless inclusion of his or her name is mutually agreed to by both parties.

The persons appointed by the Authority and the labor organization, promptly after the receipt of such list shall determine by lot the order of elimination, and thereafter each shall in that order alternately eliminate one name until only one name remains. The remaining person on the list shall be the third member of the fact finding board. The term "labor dispute" shall be broadly construed and shall include any controversy concerning wages, salaries, hours, working conditions, or benefits including health and welfare, sick leave, insurance or pension or retirement provisions but not limited thereto, and including any controversy concerning any differences or questions that may arise between the parties including but not limited to the making or maintaining of collective bargaining agreements, the terms to be included in such agreements, and the interpretation or application of such collective bargaining agreements. Each party shall pay one-half of the expenses of such fact finding. Under no circumstances may the parties resort to binding arbitration after the date of enactment of this act or the expiration date of any contract requiring binding arbitration, whichever is later. This prohibition against binding arbitration shall not be interpreted to preclude such arbitration of individual employee grievances.

(d) The Authority is hereby authorized and empowered to establish and maintain a system of pensions and retirement benefits for such officers and employees of the Authority as may be designated or described by resolution of the Authority; to fix the terms of and restrictions on admission to such system and the classifications therein; to provide that persons eligible for admission in such pension system shall not be eligible for admission to, or receive any benefits from, any other pension system (except Social Security benefits), which is financed or funded, in whole or in part, directly or indirectly by funds paid or appropriated by the Authority to such other pension system, and to provide in connection with such pension system, a system of benefits payable to the beneficiaries and dependents of any participant in such pension system after the death of such participant (whether accidental or otherwise, whether occurring in the actual performance of duty or otherwise, or both) subject to such exceptions, conditions, restrictions and classifications as may be provided by resolution of the Authority. Such pension system shall be financed or funded by such means and in such manner as may be determined by the Authority to be economically feasible. Unless the Authority shall otherwise determine, no officer or employee of the Authority and no beneficiary or dependent of any such officer or employee shall be eligible to receive any pension or retirement or other benefits both from or under any such pension system and from or under any pension or retirement system established by an acquired transportation system or established or provided for, by or under the provisions of any collective bargaining agreement between the Authority and the representatives of its employees.

(e) Whenever the Authority acquires existing transit facilities from a public or privately owned utility either in proceeding by eminent domain or otherwise, the Authority shall assume and observe all existing labor contracts and pension obligations. When the Authority acquires an existing

transportation system, all employees who are necessary for the operation thereof by the Authority shall be transferred to and appointed as employees of the Authority, subject to all the rights and benefits of this Title. These employees shall be given seniority credit and sick leave, vacation, insurance and pension credits in accordance with the records or labor agreements from the acquired transportation system. Members and beneficiaries of any pension or retirement system or other benefits established by the acquired transportation system shall continue to have rights, privileges, benefits, obligations and status with respect to such established system. The Authority shall assume the obligations of any transportation system acquired by it with regard to wages, salaries, hours, working conditions, sick leave, health and welfare and pension or retirement provisions for employees. It shall assume the provisions of any collective bargaining agreement between such acquired transportation system and the representatives of its employees. The Authority and the employees, through their representatives for collective bargaining purposes, shall take whatever action may be necessary to have pension trust funds presently under the joint control of the acquired transportation system and the participating employees through their representative transferred to the trust fund to be established, maintained and administered jointly by the Authority and the participating employees through their representatives. No employee of any acquired transportation system who is transferred to a position with the Authority shall by reason of such transfer be placed in any worse position with respect to workmen's compensation, pension, seniority, wages, sick leave, vacation, health and welfare insurance or any other benefits, than he enjoyed as an employee of such acquired transportation system.

(f) The Authority shall not require any person, as a condition of employment or continuation of employment, to join any labor union or labor organization. The Authority shall not require any person, as a condition of employment or continuation of employment, to pay any dues, fees, or other charges of any kind to any labor union or labor organization.

Article XV. Relocation Assistance.

Relocation Program and Payments

67. Section 7 of the Urban Mass Transportation Act of 1964, and as the same may from time to time be amended, and all regulations promulgated thereunder, are hereby made applicable to individuals, families, business concerns and nonprofit organizations displaced from real property by actions of the Authority without regard to whether financial assistance is sought by or extended to the Authority under any provision of that Act; provided, however, that in the event real property is acquired for the Authority by an agency of the federal government, or by a State or local agency or instrumentality, the Authority is authorized to reimburse the acquiring agency for relocation payments made by it.

Relocation of Public or Public Utility Facilities

68. Notwithstanding the provisions of § 67 of this Article XV, any highway or other public facility or any facilities of a public utility company which will be dislocated by reason of a project deemed necessary by the Board to effectuate the authorized purposes of this Title shall be relocated if such facilities are devoted to a public use, and the reasonable cost of relocation, if substitute facilities are necessary, shall be paid by the Board from any of its moneys.

Article XVI. General Provisions.

Creation and Administration of Funds

69. (a) The Board may provide for the creation and administration of such funds as may be required. The funds shall be disbursed in accordance with rules established by the Board and all payments from any fund shall be reported to the Board. Moneys and such funds and other moneys of the Authority shall be deposited, as directed by the Board, in any branch or subsidiary of any state or national bank which has operations within the Zone, and having a total paid-in capital of at least one million dollars (\$1,000,000). The trust department of any such state or national bank may be designated as a depository to receive any securities acquired or owned by the Authority. The restriction with respect to paid-in capital may be waived for any such bank which agrees to pledge federal securities to protect the funds and securities of the Authority in such amounts and pursuant to such arrangements as may be acceptable to the Board.

(b) Any moneys of the Authority may, in the discretion of the Board and subject to any agreement or covenant between the Authority and the holders of any of its obligations limiting or restricting classes of investments, be invested in: (i) Direct obligations of or obligations guaranteed by the United States of America; (ii) Bonds, debentures, notes or other evidences of indebtedness issued by agencies of the United States of America, including but not limited to the following: Bank for Cooperatives; Federal Intermediate Credit Banks; Federal Home Loan Bank System; Export-Import Bank of the United States; Federal Land Banks, Federal National Mortgage Association; Student Loan Marketing Association; Government National Mortgage Association; Tennessee Valley Authority; or United States Postal Service; (iii) Securities that qualify as lawful investments and may be accepted as security for fiduciary, trust and public funds under the control of the United States or any officer or officers thereof, or securities eligible as collateral for deposits of moneys of the United States, including United States Treasury tax and loan accounts; (iv) Domestic and Eurodollar certificates of deposit; and (v) Bonds, debentures, notes or other evidences of indebtedness issued by a domestic corporation, such as a corporation organized under the laws of one of the states of the United States, provided that such obligations are nonconvertible and at the time of their purchase are rated in the highest rating categories by a nationally recognized bond rating agency.

Annual Independent Audit

70. (a) As soon as practical after the closing of the fiscal year, an audit shall be made of the financial accounts of the Authority. The audit shall be made by qualified certified public accountants selected by the Board, who shall have no personal interest direct or indirect in the financial affairs of the Authority or any of its officers or employees. The report of audit shall be prepared in accordance with generally accepted auditing principles and shall be filed with the Chairman and other officers as the Board shall direct. Copies of the report shall be distributed to each Director, to the Congress, to the Mayor and Council of the District of Columbia, to the Governors of Virginia and Maryland, to the Washington Suburban Transit Commission, to the Northern Virginia Transportation Commission and to the governing bodies of the political subdivisions located within the Zone which are parties to commitments for participation in the financing of the Authority and shall be made available for public distribution.

(b) The financial transactions of the Board shall be subject to audit by the United States General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions and under such rules and regulations as may be prescribed by the Comptroller General of the United States. The audit shall be conducted at the place or places where the accounts of the Board are kept.

(c) Any Director, officer or employee who shall refuse to give all required assistance and information to the accountants selected by the Board or who shall refuse to submit to them for examination such books, documents, records, files, accounts, papers, things or property as may be requested shall, in the discretion of the Board, forfeit his office.

Reports

71. The Board shall make and publish an annual report on its programs, operations, and finances, which shall be distributed in the same manner provided by § 70 of this Article XVI for the report of annual audit. It may also prepare, publish and distribute such other public reports and informational materials as it may deem necessary or desirable.

Insurance

72. The Board may self-insure or purchase insurance and pay the premiums therefor against loss or damage to any of its properties; against liability for injury to persons or property; and against loss of revenue from any cause whatsoever. Such insurance coverage shall be in such form and amount as the Board may determine, subject to the requirements of any agreement arising out of insurance of bonds or other obligations by the Authority.

Contracting and Purchasing

73. (a) (1) Except as provided in subsections (b), (c), and (f) of this section, and except in the case of procurement procedures otherwise expressly authorized by statute, the Authority in conducting a procurement of property, services, or construction shall:

(A) obtain full and open competition through the use of competitive procedures in accordance with the requirements of this Section; and

(B) use the competitive procedure or combination of competitive procedures that is best suited under the circumstances of the procurement.

(2) In determining the competitive procedure appropriate under the circumstances, the Authority shall:

(A) solicit sealed bids if:

(i) time permits the solicitation, submission, and evaluation of sealed bids;

(ii) the award will be made on the basis of price and other price-related factors;

(iii) it is not necessary to conduct discussions with the responding sources about their bids; and

(iv) there is a reasonable expectation of receiving more than one sealed bid; or

(B) request competitive proposals if sealed bids are not appropriate under clause (A) of this paragraph.

(b) The Authority may provide for the procurement of property, services, or construction covered by this Section using competitive procedures but excluding a particular source in order to establish or maintain an alternative source or sources of supply for that property, service, or construction if the Authority determines that excluding the source would increase or maintain competition and would likely result in reduced overall costs for procurement of property, services, or construction.

(c) The Authority may use procedures other than competitive procedures if:

(1) the property, services, or construction needed by the Authority is available from only one responsible source and no other type of property, services, or construction will satisfy the needs of the Authority; or

(2) the Authority's need for the property, services, or construction is of such an unusual and compelling urgency that the Authority would be seriously injured unless the Authority limits the number of sources from which it solicits bids or proposals; or

(3) the Authority determines that it is necessary in the public interest to use procedures other than competitive procedures in the particular procurement; or

(4) the property or services needed can be obtained through federal or other governmental sources at reasonable prices.

(d) For the purpose of applying subsection (c) (1) of this Section:

(1) in the case of a contract for property, services, or construction to be awarded on the basis of acceptance of an unsolicited proposal, the property, services, or construction shall be deemed to be available from only one responsible source if the source has submitted an unsolicited proposal that demonstrates a concept:

(A) that is unique and innovative or, in the case of a service, for which the source demonstrates a unique capability to provide the service; and

(B) the substance of which is not otherwise available to the Authority and does not resemble the substance of a pending competitive procurement.

(2) in the case of a follow-on contract for the continued development or production of a major system or highly specialized equipment or the continued provision of highly specialized services, the property, services, or construction may be deemed to be available from only the original source and may be procured through procedures other than competitive procedures if it is likely that award to a source other than the original source would result in:

(A) substantial duplication of cost to the Authority that is not expected to be recovered through competition; or

(B) unacceptable delays in fulfilling the Authority's needs.

(e) If the Authority uses procedures other than competitive procedures to procure property, services, or construction under subsection (c) (2) of this Section, the Authority shall request offers from as many potential sources as is practicable under the circumstances.

(f)(1) To promote efficiency and economy in contracting, the Authority may use simplified acquisition procedures for purchases of property, services and construction.

(2) For the purposes of this subsection, simplified acquisition procedures may be used for purchases for an amount that does not exceed the simplified acquisition threshold adopted by the federal government.

(3) A proposed purchase or contract for an amount above the simplified acquisition threshold may not be divided into several purchases or contracts for lesser amounts in order to use the procedures under paragraph (1) of this subsection.

(4) In using simplified acquisition procedures, the Authority shall promote competition to the maximum extent practicable.

(g) The Board shall adopt policies and procedures to implement this Section. The policies and procedures shall provide for publication of notice of procurements and other actions designed to secure competition where competitive procedures are used.

(h) The Authority in its discretion may reject any and all bids or proposals received in response to a solicitation.

Rights-of-Way

74. The Board is authorized to locate, construct and maintain any of its transit and related facilities in, upon, over, under or across any streets, highways, freeways, bridges and any other vehicular facilities, subject to the applicable laws governing such use of such facilities by public agencies. In the absence of such laws, such use of such facilities by the Board shall be subject to such reasonable conditions as the highway department or other affected agency of a Signatory party may require; provided, however, that the Board shall not construct or operate transit or related facilities upon, over, or across any parkways or park lands without the consent of, and except upon the terms and conditions required by, the agency having jurisdiction with respect to such parkways and park lands, but may construct or operate such facilities in a subway under such parkways or park lands upon such reasonable terms and conditions as may be specified by the agency having jurisdiction with respect thereto.

Compliance with Laws, Regulations and Ordinances

75. The Board shall comply with all laws, ordinances and regulations of the Signatories and political subdivisions and agencies thereof with respect to use of streets, highways and all other vehicular facilities, traffic control and regulation, zoning, signs and buildings.

Police Security

76. (a) The Authority is authorized to establish and maintain a regular police force, to be known as the Metro Transit Police, to provide protection for its patrons, personnel, and Transit facilities. The Metro Transit Police shall have the powers and duties and shall be subject to the limitations set forth in this section. It shall be composed of both uniformed and plain clothes personnel and shall be charged with the duty of enforcing the laws of the Signatories, and the laws, ordinances, and regulations of the political subdivisions thereof in the Transit Zone, and the rules and regulations of the Authority. The jurisdiction of the Metro Transit Police shall include all the Transit facilities (including bus stops) owned, controlled, or operated by the Authority, but this restriction shall not limit the power of the Metro Transit Police to make arrests in the Transit Zone for violations committed upon, to, or against such Transit facilities committed from within or outside such Transit facilities while in hot or close pursuit, or to execute traffic citations and criminal process in accordance with subsection (c) below. The members of the Metro Transit Police shall have concurrent jurisdiction in the performance of their duties with the duly constituted law-enforcement agencies of the Signatories and of the political subdivisions thereof in which any Transit facility of the Authority is located or in which the Authority operates any Transit service. On-duty Metro Transit Police officers are authorized to make arrests off of Transit facilities within the Transit Zone when immediate action is necessary to protect the health,

safety, welfare or property of an individual from actual or threatened harm or from an unlawful act. Nothing contained in this section shall either relieve any Signatory or political subdivision or agency thereof from its duty to provide police, fire, and other public safety service and protection, or limit, restrict, or interfere with the jurisdiction of or the performance of duties by the existing police, fire, and other public safety agencies. For purposes of this section, "bus stop" means that area within 150 feet of a MetroBus bus stop sign, excluding the interior of any building not owned, controlled or operated by the Washington Metropolitan Area Transit Authority.

(b) A member of the Metro Transit Police shall have same powers, including the power of arrest, and shall be subject to the same limitations, including regulatory limitations, in the performance of his duties as a member of the duly constituted police force of the political subdivision in which the Metro Transit Police member is engaged in the performance of his duties. A member of the Metro Transit Police is authorized to carry and use only such weapons, including handguns, as are issued by the Authority. A member of the Metro Transit Police is subject to such additional limitations in the use of weapons as are imposed on the duly constituted police force for the political subdivision in which he is engaged in the performance of his duties.

(c) Members of the Metro Transit Police shall have power to execute on the Transit facilities owned, controlled, or operated by the Authority any traffic citation or any criminal process issued by any court of any Signatory or of any political subdivision of a Signatory, for any felony, misdemeanor, or other offense against the laws, ordinances, rules, or regulations specified in subsection (a). With respect to offenses committed upon, to, or against the Transit facilities owned, controlled, or operated by the Authority, the Metro Transit Police shall have power to execute criminal process within the Transit Zone.

(d) Upon the apprehension or arrest of any person by a member of the Metro Transit Police pursuant to the provisions of subsection (b), the officer, as required by the law of the place of apprehension or arrest, shall either issue a summons or a citation against the person, book the person, or deliver the person to the duly constituted police or judicial officer of the Signatory or political subdivision where the apprehension or arrest is made, for disposition as required by law.

(e) The Authority shall have the power to adopt rules and regulations for the safe, convenient, and orderly use of the Transit facilities owned, controlled, or operated by the Authority, including the payment and the manner of the payment of fares or charges therefor, the protection of the Transit facilities, the control of traffic and parking upon the Transit facilities, and the safety and protection of the riding public. In the event that any such rules and regulations contravene the laws, ordinances, rules, or regulations of a Signatory or any political subdivision thereof which are existing or subsequently enacted, these laws, ordinances, rules, or regulations of the Signatory or the political subdivision shall apply and the conflicting rule or regulation, or portion thereof, of the Authority shall be void within the jurisdiction of that Signatory or political subdivision. In all other respects the rules

and regulations of the Authority shall be uniform throughout the Transit Zone. The rules and regulations established under this subsection shall be adopted by the Board following public hearings held in accordance with Section 62 (c) and (d) of this Compact. The final regulation shall be published in a newspaper of general circulation within the Zone at least 15 days before its effective date. Any person violating any rule or regulation of the Authority shall be subject to arrest and, upon conviction by a court of competent jurisdiction, shall pay a fine of not more than two hundred fifty dollars (\$250) and costs. Criminal violations of any rule or regulation of the Authority shall be prosecuted by the Signatory or political subdivision in which the violation occurred, in the same manner by which violations of law, ordinances, rules and regulations of the Signatory or political subdivisions are prosecuted.

(f) With respect to members of the Metro Transit Police, the Authority shall:

- (1) Establish classifications based on the nature and scope of duties, and fix and provide for their qualification, appointment, removal, tenure, term, compensation, pension, and retirement benefits;
- (2) Provide for their training and, for this purpose, the Authority may enter into contracts or agreements with any public or private organization engaged in police training, and this training and the qualifications of the uniformed and plain clothes personnel shall at least equal the requirements of each Signatory and of the political subdivisions therein in the Transit Zone for their personnel performing comparable duties; and
- (3) Prescribe distinctive uniforms to be worn.

(g) The Authority shall have the power to enter into agreements with the Signatories, the political subdivisions thereof in the Transit Zone, and public safety agencies located therein, including those of the Federal Government, for the delineation of the functions and responsibilities of the Metro Transit Police and the duly constituted police, fire, and other public safety agencies, and for mutual assistance.

(h) Before entering upon the duties of office, each member of the Metro Transit Police shall take or subscribe to an oath or affirmation, before a person authorized to administer oaths, faithfully to perform the duties of that office.

Exemption from Regulation

77. Except as otherwise provided in this Title, any Transit service rendered by Transit facilities owned or controlled by the Authority and the Authority or any corporation, firm or association performing such transit service pursuant to an operating contract with the Authority, shall, in connection with the performance of such service, be exempt from all laws, rules, regulations and orders of the Signatories and of the United States otherwise applicable to such transit service and persons, except that laws,

rules, regulations and orders relating to inspection of equipment and facilities, safety and testing shall remain in force and effect; provided, however, that the Board may promulgate regulations for the safety of the public and employees not inconsistent with the applicable laws, rules, regulations or orders of the Signatories and of the United States.

Tax Exemption

78. It is hereby declared that the creation of the Authority and the carrying out of the corporate purposes of the Authority is in all respects for the benefit of the people of the Signatory states and is for a public purpose and that the Authority and the Board will be performing an essential governmental function, including, without limitation, proprietary, governmental and other functions, in the exercise of the powers conferred by this Title. Accordingly, the Authority and the Board shall not be required to pay taxes or assessments upon any of the property acquired by it or under its jurisdiction, control, possession or supervision or upon its activities in the operation and maintenance of any Transit facilities or upon any revenues therefrom and the property and income derived therefrom shall be exempt from all federal, State, District of Columbia, municipal and local taxation. This exemption shall include, without limitation, all motor vehicle license fees, sales taxes and motor fuel taxes.

Reduced Fares

79. The District of Columbia, the Northern Virginia Transportation District, the Washington Suburban Transit District and the component governments thereof, may enter into contracts or agreements with the Authority to make equitable payments for fares lower than those established by the Authority pursuant to the provisions of Article XIII hereof for any specified class or category of riders.

Liability for Contracts and Torts

80. The Authority shall be liable for its contracts and for its torts and those of its Directors, officers, employees and agents committed in the conduct of any proprietary function, in accordance with the law of the applicable Signatory (including rules on conflict of laws), but shall not be liable for any torts occurring in the performance of a governmental function. The exclusive remedy for such breach of contracts and torts for which the Authority shall be liable, as herein provided, shall be by suit against the Authority. Nothing contained in this Title shall be construed as a waiver by the District of Columbia, Maryland, Virginia and the counties and cities within the Zone of any immunity from suit.

Jurisdiction of Courts

81. The United States District Courts shall have original jurisdiction, concurrent with the courts of Maryland, Virginia and the District of Columbia, of all actions brought by or against the Authority and to enforce subpoenas issued under this Title. Any such action initiated in a State or District of

Columbia Court shall be removable to the appropriate United States District Court in the manner provided by Act of June 25, 1948, as amended (28 U.S.C. 1446).

Condemnation

82. (a) The Authority shall have the power to acquire by condemnation, whenever in its opinion it is necessary or advantageous to the Authority to do so, any real or personal property, or any interest therein, necessary or useful for the transit system authorized herein, except property owned by the United States, by a Signatory, or any political subdivision thereof, whenever such property cannot be acquired by negotiated purchase at a price satisfactory to the Authority.

(b) Proceedings for the condemnation of property in the District of Columbia shall be instituted and maintained under the Act of December 23, 1963 (77 Stat. 577-581, D.C. Code 1961, Supp. IV, Sections 1351-1368). Proceedings for the condemnation of property located elsewhere within the Zone shall be instituted and maintained, if applicable, pursuant to the provisions of the Act of August 1, 1888, as amended (25 Stat. 357, 40 U.S.C. 257) and the Act of June 25, 1948 (62 Stat. 935 and 937, 28 U.S.C. 1358 and 1403) or any other applicable act; provided, however, that if there is no applicable federal law, condemnation proceedings shall be in accordance with the provisions of the state law of the Signatory in which the property is located governing condemnation by the highway agency of such state. Whenever the words "real property," "realty," "land," "easement," "right-of-way," or words of similar meaning are used in any applicable federal or state law relating to procedure, jurisdiction and venue, they shall be deemed, for the purposes of this Title, to include any personal property authorized to be acquired hereunder.

(c) Any award or compensation for the taking of property pursuant to this Title shall be paid by the Authority, and none of the Signatory parties nor any other agency, instrumentality or political subdivision thereof shall be liable for such award or compensation.

Enlargement and Withdrawal; Duration

83. (a) When advised in writing by the Northern Virginia Transportation Commission or the Washington Suburban Transit Commission that the geographical area embraced therein has been enlarged, the Board, upon such terms and conditions as it may deem appropriate, shall by resolution enlarge the Zone to embrace the additional area.

(b) The duration of this Title shall be perpetual but any Signatory thereto may withdraw therefrom upon two years' written notice to the Board.

(c) The withdrawal of any Signatory shall not relieve such Signatory, any transportation district, county or city or other political subdivision thereof from any obligation to the Authority, or inuring to the benefit of the Authority, created by contract or otherwise.

Amendments and Supplements

84. Amendments and supplements to this Title to implement the purposes thereof may be adopted by legislative action of any of the Signatory parties concurred in by all of the others. When one Signatory adopts an amendment or supplement to an existing Section of the Compact, that amendment or supplement shall not be immediately effective, and the previously enacted provision or provisions shall remain in effect in each jurisdiction until the amendment or supplement is approved by the other Signatories and is consented to by Congress.

Construction and Severability

85. The provisions of this Title and of the agreements thereunder shall be severable and if any phrase, clause, sentence or provision of this Title or any such agreement is declared to be unconstitutional or the applicability thereof to any Signatory party, political subdivision or agency thereof is held invalid, the constitutionality of the remainder of this Title or any such agreement and the applicability thereof to any other Signatory party, political subdivision or agency thereof or circumstance shall not be affected thereby. It is the legislative intent that the provisions of this Title be reasonably and liberally construed.

Effective Date; Execution

86. This Title shall be adopted by the Signatories in the manner provided by law therefor and shall be signed and sealed in four duplicate original copies. One such copy shall be filed with the Secretary of State of each of the Signatory parties or in accordance with laws of the State in which the filing is made, and one copy shall be filed and retained in the archives of the Authority upon its organization. This Title shall become effective ninety days after the enactment of concurring legislation by or on behalf of the District of Columbia, Maryland and Virginia and consent thereto by the Congress and all other acts or actions have been taken, including the signing and execution of the Title by the Governors of Maryland and Virginia and the Mayor and Council of the District of Columbia. § 15.2-5102.1.(Contingent expiration date) Hampton Roads area refuse collection and disposal system authority

Any authority, or any subsidiary thereof, organized pursuant to § [15.2-5102](#) to operate a refuse collection and disposal system that has among its members the Cities of Norfolk, Virginia Beach, Portsmouth, Chesapeake, Suffolk, and Franklin and the Counties of Isle of Wight and Southampton shall, notwithstanding any other law to the contrary, comply with the following requirements:

1. Each locality that is a member of the authority shall nominate individuals to fill one position on the Board of Directors (the Board) by submitting a list of three potential directors, each of whom shall possess general business knowledge and shall not be an elected official, to the Governor. The Governor shall then select and appoint one director from each of the lists of nominees prepared by the member localities. In addition, each member locality shall be authorized to directly appoint, upon a majority vote of the governing body of the member locality, one ex officio member of the Board who shall be an employee of the member locality. The members of the Board shall be appointed for terms of four years each. Vacancies occurring other than by expiration of a term shall be filled for the unexpired term. Vacancies shall be filled in the same manner as the original appointments. No member shall serve for more than two consecutive four-year terms, except that (i) any member appointed to the unexpired term of another shall be eligible to serve two consecutive four-year terms and (ii) a member directly appointed by the governing body of a member locality shall not be subject to a term limit.

2. The authority shall develop and maintain a financial plan that shall cover a period of at least five years forward from the year in which it is submitted and approved by the Board. The plan shall include at a minimum a five-year projection of revenues and expenses, a five-year capital improvement and equipment replacement schedule, and the proposed funding for the plan. The plan shall be reviewed

annually to determine whether amendments are needed. Any such amendments shall be submitted to the board of directors for approval.

3. The authority's core purpose shall be defined as "management of the safe and environmentally sound disposal of regional waste." The authority shall devote its time and effort to activities associated with its core purpose. A vote of a majority of the Board shall be required prior to undertaking any activities not associated with the authority's core purpose.

4. The authority shall develop and maintain a strategic operating plan identifying all elements of its core business units and core purpose, how each business and administrative unit will support the overall strategic plan, and how the authority will achieve its stated mission and core purpose. The strategic operating plan shall be subject to review and approval of the Board on an annual basis.

5. The authority shall consider outsourcing any or all functions that may result in reduced costs to the authority and issuing requests for proposals that potentially reduce the costs of any of its programs. In addition, the authority shall, in accordance with the authority's procurement policies, consider any proposals the authority receives under the Public-Private Education Facilities and Infrastructure Act of 2002 (§ [56-575.1](#) et seq.) that potentially reduce the costs of any of the authority's programs.

6. The authority shall evaluate its landfill capacity annually, taking into consideration and projecting future changes in the quantity of waste disposed of in its landfill, or landfills reasonably situated or contractually obligated to accept its waste.

7. The authority shall keep records of its costs, revenue, debts, and capital expenses by fiscal year for each program and records of costs for each individual capital project. The authority shall not dispose of or destroy such records except pursuant to the Virginia Public Records Act (§ [42.1-76](#) et seq.).

8. If the authority incurs long-term debt or issues new debt, the authority shall maintain a detailed financing plan that shall include a plan for the retirement of all debt and a plan for the funding of all planned capital projects. The plan for the funding of all planned capital projects shall specify the amount of debt the authority will issue in furtherance of the projects and the debt repayment plan for any new debt created by the capital projects, including the revenue source that will be used to repay the debt. The detailed financing plan shall be updated by the authority with the advice and assistance of an external certified public accountant or other qualified financial consultant and approved annually by the Board.

9. Prior to issuance of new debt, the authority shall, with the advice and assistance of an external certified public accountant or other qualified financial consultant, perform a due diligence investigation of the appropriateness of issuing the debt, including an analysis of the costs of repaying the debt. Such analysis shall be reviewed by the Board and approved by a vote of a minimum of 75 percent of the Board. The issuance of new debt shall require a vote of a minimum of 75 percent of the Board of Directors of the authority. The authority shall not issue long-term bond indebtedness to fund

operational expenses. The provisions of this subdivision shall not apply to the issuance of new debt issued for the purpose of refunding or refinancing debt incurred by the authority prior to September 30, 2009.

10. In the interest of open and transparent government, the authority shall adhere strictly to the requirements of the Freedom of Information Act (§ [2.2-3700](#) et seq.).

11. The executive director of the authority shall not be permitted to execute or commit the authority to any contract, memorandum of agreement, or memorandum of understanding without an informed vote of approval by the Board. This subdivision shall not apply in the case of (i) contracts involving matters with a value of less than \$100,000 that are consistent with the Board-approved annual budget and, if applicable, the authority's approved procurement policy and (ii) sole source and emergency procurements made pursuant to subsections E and F of § [2.2-4303](#).

§ 15.2-5103. Ordinance, agreement or resolution creating authority to include articles of incorporation

A. The ordinance, agreement or resolution creating an authority shall include articles of incorporation which shall set forth:

1. The name of the authority and address of its principal office.
2. The name of each participating locality and the names, addresses and terms of office of the first members of the board of the authority.
3. The purposes for which the authority is being created and, to the extent that the governing body of the locality determines to be practicable, preliminary estimates of capital costs, proposals for any specific projects to be undertaken by the authority, and preliminary estimates of initial rates for services of such projects as certified by responsible engineers.
4. If there is more than one participating locality, the number of board members who shall exercise the powers of the authority and the number from each participating locality.

B. Any such ordinance, agreement or resolution that does not set forth the information required in subdivision 3 of subsection A regarding capital cost estimates, project proposals and project service rate estimates shall set forth a finding by the governing body that inclusion of such information is impracticable.

C. Any ordinance, agreement or resolution adopted pursuant to §§ [15.2-5152](#) through [15.2-5157](#) shall provide that any bonds issued by the community development authority shall be a debt of the authority, not the local government. Unless otherwise provided in the ordinance which establishes the authority, the local government shall not retire any part of the bonds or pay any debt service of an authority out of revenues or funds derived from sources other than those set out in § [15.2-5158](#), except

that, where the authority finances improvements not contemplated by the original ordinance, the local government may, by ordinance or resolution, make such provisions for repayment as are otherwise permitted under general law. This subsection shall have no effect upon authorities formed pursuant to § [15.2-5102](#).

§ 15.2-5104. Advertisement of ordinance, agreement or resolution and notice of hearing

The governing body of each participating locality shall cause to be advertised at least one time in a newspaper of general circulation in such locality a copy of the ordinance, agreement or resolution creating an authority, or a descriptive summary of the ordinance, agreement or resolution and a reference to the place within the locality where a copy of the ordinance, agreement or resolution can be obtained, and notice of the day, not less than seven days after publication of the advertisement, on which a public hearing will be held on the ordinance, agreement or resolution.

§ 15.2-5105. Hearing; referendum

If at the hearing, in the judgment of the governing body of the participating locality, substantial opposition is heard, the governing body may at its discretion petition the circuit court to order a referendum on the question of adopting or approving the ordinance, agreement or resolution. The provisions of § [24.2-684](#) shall govern the order for a referendum. When two or more localities are participating in the formation of such authority, the referendum, if ordered, shall be held on the same date in all participating localities. If ten percent of the qualified voters in a locality file a petition with the governing body at the hearing calling for a referendum, such governing body shall petition the circuit court to order a referendum in that locality as provided in this section.

Code 1950, § 15-764.6; 1950, p. 1315; 1962, c. 623, § 15.1-1244; 1970, c. 617; 1972, c. 370; 1973, c. 478; 1975, c. 517; 1997, c. 587.

§ 15.2-5106. Voters' petition requesting agreement and referendum

The qualified voters of any locality whose governing body has not acted to create an authority under § [15.2-5102](#) may file with the governing body of such locality a petition asking the governing body to effect an agreement in accordance with § [15.2-5102](#) with the localities named in the petition. Such petition shall be signed by at least ten percent of the number of the locality's voters who voted in the last presidential election and in no case be signed by fewer than fifty voters. The petition shall ask the governing body to petition the circuit court for a referendum on the question of the creation of the authority.

If the governing body is unable, or for any reason fails, to perfect such agreement within three months of the day the petition was filed with such governing body, then the circuit court for the locality shall appoint a committee of five representative citizens of the locality to act for and in lieu of the governing body in perfecting the agreement and in petitioning for a referendum. The agreement shall not take effect unless approved in the referendum by a majority of the voters voting in the referendum.

§ 15.2-5107. Filing articles of incorporation

After adoption or approval of an ordinance, resolution or agreement creating an authority, the governing bodies of the participating localities shall file with the State Corporation Commission the authority's articles of incorporation.

Code 1950, § 15-764.7; 1950, p. 1316; 1962, c. 623, § 15.1-1245; 1973, c. 478; 1997, c. 587.

§ 15.2-5108. Issuance of certificate or charter

The State Corporation Commission shall issue a certificate of incorporation or charter to the authority if it finds that:

1. The articles of incorporation conform to law; and
2. The estimated costs and rates for services of the proposed projects are fair and equitable, and have been advertised under § [15.2-5104](#) or subsection A of § [15.2-5156](#), as applicable.

Upon the issuance of the certificate or charter such authority shall be conclusively deemed to have been lawfully and properly created and established and authorized to exercise its powers under this chapter.

§ 15.2-5109. Dissolution and termination of authority

Whenever the board of an authority determines that the purposes for which it was created have been completed or are impractical or impossible or that its functions have been taken over by one or more political subdivisions and that all its obligations have been paid or have been assumed by one or more of such political subdivisions or any authority created thereby or that cash or United States government securities have been deposited for their payment, it shall adopt and file with the governing body of each political subdivision which is a member of the authority a resolution declaring such facts. If all the governing bodies adopt resolutions concurring in such declaration and finding that the authority should be dissolved, they shall file appropriate articles of dissolution with the State Corporation Commission. When the affairs of the authority have been wound up and all of its assets have been distributed, the governing bodies shall file appropriate articles of termination of corporate existence with the State Corporation Commission.

If any of the governing bodies refuse to adopt resolutions concurring in such declaration, then the authority may petition the circuit court for any locality which is a member of the authority to order one or more of such governing bodies to create a new authority. The circuit court may order the governing body of the political subdivision requesting dissolution of the existing authority to adopt an ordinance establishing a new authority to which the provisions of §§ [15.2-5102](#) through [15.2-5106](#) shall not apply. Thereafter, the court may order that the assets be divided among the authorities and, subject to the approval of any debt holder, require the assumption of a proportionate share of the obligations of the existing authority by the new authority.

Notwithstanding the provisions of subdivision 1 of § [15.2-5114](#), an authority shall continue in existence and shall not be dissolved because the term for which it was created, including any extensions thereof, has expired, unless all of such authority's functions have been taken over and its obligations have been paid or have been assumed by one or more political subdivisions or by an authority created thereby, or cash or United States government securities have been deposited for their payment.

§ 15.2-5110. Amendment of articles of incorporation

The articles of incorporation of any authority created under the provisions of this chapter may be amended with respect to the name or powers of such authority or in any other manner not inconsistent with this chapter by following the procedure prescribed by law for the creation of an authority.

Code 1950, § 15-764.12; 1950, p. 1318; 1954, c. 554; 1958, cc. 400, 402; 1960, c. 430; 1962, cc. 130, 623, § 15.1-1250; 1968, cc. 355, 556; 1970, cc. 444, 617; 1972, c. 161; 1979, c. 280; 1980, c. 159; 1981, c. 610; 1983, c. 422; 1984, c. 554; 1994, c. [477](#); 1997, c. 587.

§ 15.2-5111. Specification of projects

If they have specified the initial purpose or purposes of the authority and insofar as practicable, any project or projects to be undertaken by the authority, the governing bodies of any of the localities organizing an authority may, at any time by ordinance or resolution, after a public hearing, and with or without a referendum, specify further projects to be undertaken by the authority. No other projects shall be undertaken by the authority than those so specified. If the governing bodies of the localities organizing the authority fail to specify any project or projects to be undertaken, then the authority shall be deemed to have all the powers granted by this chapter.

Code 1950, § 15-764.9; 1950, p. 1316; 1962, c. 623, § 15.1-1247; 1984, c. 239; 1997, c. 587.

§ 15.2-5112. Joinder of another locality or authority; withdrawal from authority

A. Any locality may become a member of any existing authority, and any locality that is a member of an existing authority may withdraw therefrom upon unanimous consent of the remaining members of the authority in accordance with this section. However, no locality may withdraw from any authority

that has outstanding bonds without the unanimous consent of all the holders of such bonds unless all such bonds have been paid or cashed or United States government obligations have been deposited for their payment.

B. The governing body of any locality wishing to withdraw from an existing authority shall signify its desire by resolution or ordinance.

C. The governing body of any locality wishing to become a member of an existing authority and the governing bodies of the political subdivisions then members of the authority shall by concurrent resolutions or ordinances or by agreement provide for the joinder of such locality. The resolutions, ordinances, or agreement creating the expanded authority shall specify the number and terms of office of members of the board of the expanded authority which are to be appointed by each of the participating political subdivisions, and the names, addresses, and terms of office of initial appointments to board membership. Upon the date of issuance of the certificate by the State Corporation Commission as provided in this section, the terms of office of the board members of the existing authority shall terminate and the appointments made in the resolutions, ordinances, or agreement creating the expanded authority shall become effective.

D. If the authority by resolution expresses its consent to withdrawal or joinder of a locality, the governing body of such locality and the governing bodies of the political subdivisions then members of the authority shall advertise the ordinance, resolution, or agreement and hold a public hearing in accordance with § [15.2-5104](#).

Upon adoption or approval of the ordinance, resolution, or agreement, the governing body seeking to withdraw or join the authority shall file either an application to withdraw from or an application to become a member of the authority, whichever applies, with the State Corporation Commission. A joinder application shall set forth all of the information required in the case of original incorporation and shall be accompanied by certified copies of the resolutions, ordinances, or agreement described in subsection C. Joinder and withdrawal applications shall be executed by the proper officers of the withdrawing or incoming locality under its official seal, and shall be joined in by the proper officers of the governing board of the authority, and in the case of a locality seeking to become a member of the authority also by the proper officers of each of the political subdivisions that are then members of the authority, pursuant to resolutions by the governing bodies of such political subdivisions.

E. If the State Corporation Commission finds that the application conforms to law, it shall approve the application. When all proper fees and charges have been paid, it shall file the approved application and issue to the applicant a certificate of withdrawal or a certificate of joinder, whichever applies, attached to a copy of the approved application. The withdrawal or joinder shall become effective upon the issuing of such certificate.

F. Any authority may join an existing authority if the joinder is approved by concurrent ordinances or resolutions of the localities which created the joining authority, notwithstanding any contrary provisions of § [15.2-5150](#). However, if the localities, at the time of the creation of an authority, state that the authority is created with the intention of joining an existing authority, such concurrent ordinances or resolutions shall not be necessary. The provisions of this section pertaining to a locality becoming a member or withdrawing from an authority shall also apply, mutatis mutandis, to an authority becoming a member or withdrawing.

Code 1950, § 15-764.10; 1950, p. 1316; 1960, c. 313; 1962, c. 623, § 15.1-1248; 1968, c. 355; 1973, c. 478; 1993, cc. 670, 690; 1995, cc. [414](#), [415](#), [634](#); 1997, c. [587](#); 2021, Sp. Sess. I, c. [487](#).

§ 15.2-5113. Members of authority board; chief administrative or executive officer

A. 1. The powers of each authority created by the governing body of a single locality shall be exercised by an authority board of five members, or at the option of the board of supervisors of a county, a number of board members equal to the number of members of the board of supervisors. The powers of each authority created by the governing bodies of two or more localities shall be exercised by the number of authority board members specified in its articles of incorporation, which shall be not less than one member from each participating locality and not less than a total of five members. The board members of an authority shall be selected in the manner and for the terms provided by the agreement or ordinance or resolution or concurrent ordinances or resolutions creating the authority. One or more members of the governing body or one or more directors of an industrial or economic development authority of a locality may be appointed board members of the authority, the provisions of any other law to the contrary notwithstanding. No board member shall be appointed for a term of more than four years. When one or more additional political subdivisions join an existing authority, each of such joining political subdivisions shall have at least one member on the board. Board members shall hold office until their successors have been appointed and may succeed themselves. The board members of the authority shall elect one of their number chairman, and shall elect a secretary and treasurer who need not be members. The offices of secretary and treasurer may be combined.

2. Notwithstanding the provisions of subdivision A 1, if the City of Virginia Beach forms a community development authority pursuant to the provisions of Article 6 (§ [15.2-5152](#) et seq.) for the purpose of developing the sports and entertainment district, as defined in § [15.2-5928](#), the board of such authority may consist of a number of members equal to the number of members of the governing body of the City of Virginia Beach.

B. A majority of board members shall constitute a quorum and the vote of a majority of board members shall be necessary for any action taken by the authority. An authority may, by bylaw, provide a method to resolve tie votes or deadlocked issues.

C. No vacancy in the board membership of the authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the authority. If a vacancy occurs by reason of the death, disqualification or resignation of a board member, the governing body of the political subdivision which appointed the authority board member shall appoint a successor to fill the unexpired term. Whenever a political subdivision withdraws its membership from an authority, the term of any board member appointed to the board of the authority from such political subdivision shall immediately terminate. Board members shall receive such compensation as fixed by resolution of the governing body or bodies which are members of the authority, and shall be reimbursed for any actual expenses necessarily incurred in the performance of their duties.

D. Alternate board members may also be selected. Such alternates shall be selected in the same manner and shall have the same qualifications as the board members except that an alternate for an elected board member need not be an elected official. The term of each alternate shall be the same as the term of the board member for whom each serves as an alternate; however, the alternate's term shall not expire because of the board member's death, disqualification, resignation, or termination of employment with the member's political subdivision. If a board member is not present at a meeting of the authority, the alternate for that board member shall have all the voting and other rights of a board member and shall be counted for purposes of determining a quorum.

E. The board members may appoint a chief administrative or executive officer who shall serve at the pleasure of the board members. He shall execute and enforce the orders and resolutions adopted by the board members and perform such duties as may be delegated to him by the board members.

Code 1950, § 15-764.11; 1950, p. 1317; 1962, c. 623, § 15.1-1249; 1968, c. 355; 1972, c. 544; 1973, cc. 135, 521; 1974, c. 276; 1979, cc. 273, 280; 1980, c. 67; 1995, c. [285](#); 1997, c. [587](#); 2009, c. [655](#); 2020, c. [467](#).

§ 15.2-5114. Powers of authority

Each authority is an instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each authority may:

1. Exist for a term of 50 years as a corporation, and for such further period or periods as may from time to time be provided by appropriate resolutions of the political subdivisions which are members of the authority; however, the term of an authority shall not be extended beyond a date 50 years from the date of the adoption of such resolutions;
2. Adopt, amend or repeal bylaws, rules and regulations, not inconsistent with this chapter or the general laws of the Commonwealth, for the regulation of its affairs and the conduct of its business and to carry into effect its powers and purposes;
3. Adopt an official seal and alter the same at pleasure;
4. Maintain an office at such place or places as it may designate;

5. Sue and be sued;
6. Acquire, purchase, lease as lessee, construct, reconstruct, improve, extend, operate and maintain any system or any combination of systems within, outside, or partly within and partly outside one or more of the localities which created the authority, or which after February 27, 1962, joined such authority; acquire by gift, purchase or the exercise of the right of eminent domain lands or rights in land or water rights in connection therewith, within, outside, or partly within and partly outside one or more of the localities which created the authority, or which after February 27, 1962, joined such authority; and sell, lease as lessor, transfer or dispose of all or any part of any property, real, personal or mixed, or interest therein, acquired by it; however, in the exercise of the right of eminent domain the provisions of § [25.1-102](#) shall apply. In addition, the authority in any county or city to which §§ [15.2-1906](#) and [15.2-2146](#) are applicable shall have the same power of eminent domain and shall follow the same procedure provided in §§ [15.2-1906](#) and [15.2-2146](#). No property or any interest or estate owned by any political subdivision shall be acquired by an authority by the exercise of the power of eminent domain without the consent of the governing body of such political subdivision. Except as otherwise provided in this section, each authority is hereby vested with the same authority to exercise the power of eminent domain as is set out in Chapter 2 (§ [25.1-200](#) et seq.) or Chapter 3 (§ [25.1-300](#) et seq.) of Title 25.1. In acquiring personal property or any interest, right, or estate therein by purchase, lease as lessee, or installment purchase contract, an authority may grant security interests in such personal property or any interest, right, or estate therein;
7. Issue revenue bonds of the authority, such bonds to be payable solely from revenues to pay all or a part of the cost of a system;
8. Combine any systems as a single system for the purpose of operation and financing;
9. Borrow at such rates of interest as authorized by the general law for authorities and as the authority may determine and issue its notes, bonds or other obligations therefor. Any political subdivision that is a member of an authority may lend, advance or give money to such authority;
10. Fix, charge and collect rates, fees and charges for the use of, or for the services furnished by, or for the benefit derived from, any facilities or systems owned, operated or financed by the authority. Such rates, fees, rents and charges shall be charged to and collected by such persons and in such manner as the authority may determine from (i) any person contracting for any such services and/or (ii) the owners or tenants who own, use or occupy any real estate or improvements that are served by, or benefit from, any such facilities or systems, and, if authorized by the authority, customers of facilities within a community development authority district. Water and sewer connection fees established by any authority shall be fair and reasonable, and each authority may establish and offer rate incentives designed to encourage the use of green roofs. If established, the incentives shall be based on the percentage of stormwater runoff reduction the green roof provides. Such fees and incentives shall be

reviewed by the authority periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable. Nothing herein shall affect existing contracts with bondholders that are in conflict with any of the foregoing provisions;

11. Enter into contracts with the federal government, the Commonwealth, the District of Columbia or any adjoining state or any agency or instrumentality thereof, any unit or any person. Such contracts may provide for or relate to the furnishing of services and facilities of any system of the authority or in connection with the services and facilities rendered by any like system owned or controlled by the federal government, the Commonwealth, the District of Columbia or any adjoining state or any agency or instrumentality thereof, any unit or any person, and may include contracts providing for or relating to the right of an authority, created for such purpose, to receive and use and dispose of all or any portion of the refuse generated or collected by or within the jurisdiction or under the control of any one or more of them. In the implementation of any such contract, an authority may exercise the powers set forth in §§ [15.2-927](#) and [15.2-928](#). The power granted authorities under this chapter to enter into contracts with private entities includes the authority to enter into public-private partnerships for the establishment and operation of systems, including the authority to contract for, and contract to provide, meter reading, billing and collections, leak detection, meter replacement and any related customer service functions;

12. Contract with the federal government, the Commonwealth, the District of Columbia, any adjoining state, any person, any locality or any public authority or unit thereof, on such terms as the authority deems proper, for the construction, operation or use of any project which is located partly or wholly outside the Commonwealth;

13. Enter upon, use, occupy, and dig up any street, road, highway or private or public lands in connection with the acquisition, construction or improvement, maintenance or operation of a system, or streetlight system in King George County, subject, however, to such reasonable local police regulation as may be established by the governing body of any unit having jurisdiction;

14. Contract with any person, political subdivision, federal agency, or any public authority or unit, on such terms as the authority deems proper, for the purpose of acting as a billing and collecting agent for rates, fees, rents or charges imposed by any such authority;

15. Install, own and lease pipe or conduit for the purpose of carrying fiber optic cable, provided that such pipe or conduit and the rights-of-way in which they are contained are made available on a nondiscriminatory, first-come, first-served basis to retail providers of broadband and other telecommunications services unless the facilities have insufficient capacity for such access and additional capacity cannot reasonably be added to the facilities; and

16. Create, acquire, purchase, own, maintain, use, license, and sell intellectual property rights, including any patent, trademark, or copyright, relating to the business of the authority.

§ 15.2-5115. Same; contracts relating to use of systems

An authority may make and enter into all contracts or agreements, as the authority may determine, which are necessary or incidental to the performance of its duties and to the execution of the powers granted by this chapter, including contracts with any federal agency, the Commonwealth, the District of Columbia or any adjoining state or any unit thereof, on such terms and conditions as the authority may approve, relating to (i) the use of any system, or streetlight system in King George County acquired or constructed by the authority under this chapter, or the services therefrom or the facilities thereof, or (ii) the use by the authority of the services or facilities of any system, or streetlight system in King George County owned or operated by an owner other than the authority.

The contract shall be subject to such provisions, limitations or conditions as may be contained in the resolution of the authority authorizing revenue bonds of the authority or the provisions of any trust agreement securing such bonds. Such contract may provide for the collecting of fees, rates or charges for the services and facilities rendered to a unit or to the inhabitants thereof, by such unit or by its agents or by the agents of the authority, and for the enforcement of delinquent charges for such services and facilities. The provisions of the contract and of any ordinance or resolution of the governing body of a unit enacted pursuant thereto shall not be repealed so long as any of the revenue bonds issued under the authority of this chapter are outstanding and unpaid. The provisions of the contract, and of any ordinance or resolution enacted pursuant thereto, shall be for the benefit of the bondholders. The aggregate of any fees, rates or charges which are required to be collected pursuant to any such contract, ordinance or resolution shall be sufficient to pay all obligations which may be assumed by the other contracting party.

§ 15.2-5116. Same; effect of annexation

In the event of any annexation by a municipality not a member of the authority of lands, areas, or territory served by the authority, an authority may continue to do business and exercise its jurisdiction over its properties and facilities in and upon or over such lands, areas or territory as long as any bonds or indebtedness remain outstanding or unpaid, or any contracts or other obligations remain in force.

§ 15.2-5118. Powers of Authority; streetlights in King George County

Notwithstanding any contrary provision of law in this chapter, an authority may lease as lessee or otherwise contract for the provision of, operate, and maintain streetlights in King George County. The lessor or other contractual provider of such streetlights shall be a public service corporation that holds a certificate of public convenience and necessity to provide retail electric service in the territory in which such streetlights are located. King George County may contribute funds to the authority by act of its governing body for use by the authority in carrying out the authority's powers listed in this section. In addition, the authority may fix, charge, and collect fees, rates, and charges for the use of the service described in this section or for such service furnished by the authority. Such fees, rates, and charges shall be charged to and collected from any person contracting for the service, or lessee, or tenant, or any other person who uses or occupies any real estate served by or benefiting from the service.

§ 15.2-5119. Power to provide and operate electric energy systems

Notwithstanding any contrary provision of law in this chapter, an authority operating a water supply impoundment facility may, in connection with such facility, generate, produce, transmit, deliver, exchange, purchase or sell electric power and energy at wholesale and enter into contracts for such purposes.

§ 15.2-5120. Powers of authority in certain counties and cities

An authority or authorities created pursuant to the provisions of this chapter by Arlington County and the City of Alexandria, singularly or jointly, may enter into contracts relating to the furnishing of services and facilities for refuse collection and disposal and conversion of same to energy (system) with any person or partnership or corporation (entity). The contract shall not have a term in excess of 30 years from the date on which service is first provided. It may make provisions for:

1. The use by the authority of all or a portion of the disposal capacity of such system for the authority's present or future requirements;
2. The delivery by or for the account of the authority of specified quantities of refuse, whether or not the authority collects such refuse;
3. The making of payments in respect of such quantities of refuse, whether or not the refuse is delivered, including payments in respect of revenues lost if such refuse is not delivered;
4. Adjustments to payments to be made by the authority because of inflation, changes in energy prices or residue disposal costs, taxes imposed upon the system, or other events beyond the control of the entity or in respect of the actual costs of maintaining, repairing, or operating the system, including debt service or capital lease payments, capital costs, or other financing charges relating to the system; and
5. The collection by the entity of fees, rates, or charges from persons using disposal capacity for which the authority has contracted.

The authority may fix, charge, and collect fees, rates, and charges for services furnished or made available by the entity operating the system to provide sufficient funds at all times during the term of the contract, together with other funds available to the authority for such purposes, to pay all amounts due from time to time under such contract and to provide a margin of safety for such payment. The authority may covenant with the entity to establish and maintain fees, rates, and charges at such levels during the term of the contract for such purposes.

Such fees, rates, and charges shall not apply to refuse generated, purchased, or utilized by any enterprise located in the service area and engaged in the business of manufacturing, mining, processing, refining, or conversion that is not disposed at or through such system.

The fees, rates, and charges may be imposed upon the owners, tenants, or occupants of each occupied lot or parcel of land that the authority determines (with the concurrence at the time of such determination of the local government in which such parcel is located) is in the service area, or portion thereof, of the system for which the authority has contracted, whether or not refuse generated from such parcel is actually delivered to such system.

The fees, rates, and charges shall be fixed in accordance with the procedures set forth in subsection D of § [15.2-5136](#). Such fees, rates, and charges may be allocated among the owners, tenants, or occupants of each lot or parcel of land that the authority determines is in the service area, or portion thereof, of the system for which the authority has contracted. Such allocation may be based upon:

1. Waste generation estimates, the average number of persons residing, working in, or otherwise connected with such premises, the type and character of such premises, or upon any combination of the foregoing factors;
2. The amount of refuse delivered to such system;

3. The assessed value of such parcels; or
4. A combination of the foregoing.

There shall be a lien on real estate for the amount of such fees, rates, and charges as provided in § [15.2-5139](#). The authority is empowered by resolution or other lawful action to enforce the payment of the lien by means of the actions described in § [15.2-5138](#).

The power to establish such fees, rates, and charges shall be in addition to any other powers granted hereunder, and such fees, rates, and charges shall not be subject to the jurisdiction of any commission, authority, or other unit of government. The entity contracting with the authority, except to the extent that rights herein given may be restricted by the contract, either at law or in equity, by suit, mandamus, or other proceedings, may protect and enforce any and all rights granted under such contract and may force and compel the performance of all duties required by this chapter or by such contract to be performed by the authority or by any officer thereof, including without limitation the fixing, charging, and collecting of fees, rates, and charges in accordance with this chapter and such contract.

Such contract, with the irrevocable consent of the entity, may be made directly with the trustee for indebtedness issued to finance such system and provide for payment directly to such trustee. The authority may pledge fees, rates, and charges made in respect of the contract with the entity, and such pledge shall be valid and binding from the time it is made. Fees, rates, and charges so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery or further act, and the lien of such pledge shall be valid and binding against all parties having claims of any kind, in tort, contract, or otherwise, irrespective of whether such parties have notice thereof. Neither the contract nor any assignment thereof need be filed or recorded except in the records of the authority.

The requirements and restrictions of § [15.2-5121](#) shall not apply to any contract of the authority with respect to the system if the entity for such system will not collect refuse from the generators of the same and there are no such facilities located in the area served by the authority.

1997, c. [587](#); 2019, c. [632](#).

§ 15.2-5121. Operation of refuse collection systems; displacement of private companies

A. No authority shall operate or contract for the operation of a refuse collection and disposal system for any political subdivision, or collect service charges therefor, unless the authority, and subsequently the locality's governing body find: (i) that privately owned and operated refuse collection and disposal services are not available on a voluntary basis by contract or otherwise, (ii) that the use of such privately owned services has substantially endangered the public health or has resulted in substantial public nuisance, (iii) that the privately owned refuse collection and disposal service is not able to perform the service in a reasonable and cost-efficient manner, or (iv) that operation by such authority

or the contract for such operation, in spite of any potential anti-competitive effect, is important in order to provide for the development and/or operation of a regional system of refuse collection and disposal for two or more units.

B. Notwithstanding the provisions of subsection A, an authority formed under this chapter shall not operate or contract for the operation of a refuse collection and disposal system which displaces a private company engaged in the provision of refuse collection and disposal unless it provides the company with five years' notice of its decision to operate such a system. As an alternative to delaying displacement five years, the governing body or authority may pay a displaced company an amount equal to the company's preceding twelve months' gross receipts for the displaced service in the displacement area. Such five-year period shall lapse as to any private company being displaced when such company ceases to provide service within the displacement area.

C. For purposes of this section, "displace" or "displacement" means an authority's provision of a system which prohibits a private company from providing the same service and which it is providing at the time the decision that will result in the displacement is made. Displace or displacement does not mean: (i) competition between the public sector and private companies for individual contracts; (ii) situations in which an authority, at the end of a contract with a private company, does not renew the contract and either awards the contract to another private company or, following a competitive process conducted in accordance with the Virginia Public Procurement Act, decides for any reason to provide such service itself; (iii) situations in which action is taken against a private company because the company has acted in a manner threatening to the public health and safety or resulting in a substantial public nuisance; (iv) situations in which action is taken against a private company because the company has materially breached its contract with the political subdivision; (v) entering into a contract with a private company to provide refuse collection and disposal so long as such contract is not entered into pursuant to an ordinance which displaces or authorizes the displacement of another private company providing refuse collection and disposal; or (vi) situations in which a private company refuses to continue operations under the terms and conditions of its existing agreement during the five-year notice period.

D. An authority shall not make the findings required by subsection A or proceed to seek to operate a refuse collection and disposal system for any political subdivision that would displace a private company pursuant to subsection B until it has provided (i) public notice; (ii) a public hearing; and (iii) no less than forty-five days prior to the public hearing, written notice mailed first class to all private companies providing a refuse collection and disposal system in the political subdivision that can be identified through the political subdivision's records.

E. The requirements and restrictions of this section shall not apply in any political subdivision wherein refuse collection and disposal services are being operated or contracted for by any sanitary district located therein, as of July 1, 1983.

F. Notwithstanding the provisions of this section, a political subdivision need not comply with the requirements of this section if:

1. The authority proposes to contract with the private sector for services or systems involving discarded or waste materials removed from the nonhazardous solid waste stream for recycling; or
2. The authority proposes to contract with the private sector for services or systems involving collection and disposal of nonhazardous solid waste and (i) the collected waste will be disposed of in a state-permitted waste management facility; (ii) the authority has a contract for services which shall be paid for through a supporting financial agreement approved by the participating locality's governing body; and (iii) such action will not displace a private company engaged in refuse collection and disposal. For purposes of this section, "recycling" means the process of separating a particular nonhazardous waste material from the waste stream and processing it so that it may be used again as a new material.

§ 15.2-5122. Approval for certain water supply impoundment facilities

No locality or authority shall construct, provide or operate outside its boundaries any water supply impoundment system without first obtaining the consent of the governing body of the locality in which such system is to be located; however, no consent shall be required for the operation of any such water supply impoundment system in existence on July 1, 1976, or in the process of construction or for which the site has been purchased or for the orderly expansion of such water supply system.

In any case in which the approval by such governing body is withheld, the party seeking such approval may petition for the convening of a special court, pursuant to §§ [15.2-2135](#) through [15.2-2141](#).

§ 15.2-5123. Sewage treatment plants to include certain capability

Whenever an authority is constructing a new sewage treatment plant, the facility shall be designed and constructed so that it has the capability to treat the sewage from all onsite sewage disposal systems which are not served by another approved disposal site located within the area of the locality or localities which created the authority to be served by such plant.

§ 15.2-5125. Issuance of revenue bonds

An authority may provide by resolution for the issuance of revenue bonds of the authority for the purpose of paying the whole or any part of the cost of any system. A community development authority

created under Article 6 (§ [15.2-5152](#) et seq.) of this chapter may provide by resolution for the issuance of revenue bonds of the authority for the purpose of paying the whole or any part of the cost of such facilities which may be provided by the authority under § [15.2-5158](#). The principal of and the interest on the bonds shall be payable solely from the funds provided for in this chapter for such payment. The full faith and credit of a political subdivision shall not be pledged to support the bonds. The bonds of each issue may be dated, may mature at any time or times not exceeding forty years from their date or dates, may be subject to redemption or repurchase at such price or prices and under such terms and conditions, and may contain such other provisions, all as determined before their issuance by the authority or in such manner as the authority may provide. The bonds may bear interest payable at such time or times and at such rate or rates as determined by the authority or in such manner as the authority may provide, including the determination by reference to indices or formulas or by agents designated by the authority under guidelines established by it. The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or outside the Commonwealth. If any officer whose signature or a facsimile of whose signature appears on any bonds or coupons, ceases to be an officer before the delivery of such bonds, his signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until delivery. All revenue bonds issued under the provisions of this chapter shall have, as between successive holders, all the qualities and incidents of negotiable instruments under the negotiable instruments law of the Commonwealth. The bonds may be issued in coupon, bearer, registered or book entry form, or any combination of such forms, as the authority may determine. Provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The issuance of such bonds shall not be subject to any limitations or conditions contained in any other law, and the authority may sell such bonds in such manner, either at a public or a private sale, and for such price, as it may determine to be for the best interest of the authority and the political subdivisions to be served thereby.

§ 15.2-5126. Time for contesting validity of proposed bond issue; when bonds presumed valid

For a period of thirty days after the date of the filing with the circuit court having jurisdiction over any of the political subdivisions which are members of the authority a certified copy of the initial resolution of the authority authorizing the issuance of bonds, any person in interest may contest the validity of the bonds, the rates, fees and other charges for the services and facilities furnished by, for the use of, or in connection with, any water or waste system or, for authorities created under Article 6 (§ [15.2-5152](#) et

seq.) of this chapter, such other facilities which may be provided by the authority under § [15.2-5158](#), the pledge of the revenues of any water or waste system, or any combination of any thereof or, for authorities created under Article 6 of this chapter, such other facilities which may be provided by the authority under § [15.2-5158](#), any provisions which may be recited in any resolution, trust agreement, indenture or other instrument authorizing the issuance of bonds, or any matter contained in, provided for or done or to be done pursuant to the foregoing. If such contest is not given within the thirty-day period, the authority to issue the bonds, the validity of the pledge of revenues necessary to pay the bonds, the validity of any other provision contained in the resolution, trust agreement, indenture or other instrument, and all proceedings in connection with the authorization and the issuance of the bonds shall be conclusively presumed to have been legally taken and no court shall have authority to inquire into such matters and no such contest shall thereafter be instituted.

Upon the delivery of any bonds reciting that they are issued pursuant to this chapter and a resolution or resolutions adopted under this chapter, the bonds shall be conclusively presumed to be fully authorized by all the laws of the Commonwealth and to have been sold, executed and delivered by the authority in conformity with such laws, and the validity of the bonds shall not be questioned by a party plaintiff, a party defendant, the authority, or any other interested party in any court, anything in this chapter or in any other statutes to the contrary notwithstanding.

1997, c. 587.

§ 15.2-5127.Proceeds of bonds

The proceeds of bonds issued pursuant to § [15.2-5125](#) shall be used solely for the payment of the cost of the system or systems for which they were issued and shall be disbursed in such manner and under such restrictions, if any, as the authority may provide in the authorizing resolution or in any trust agreement. If the proceeds of the bonds, by error of estimates or otherwise, are less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit and, unless otherwise provided in the authorizing resolution or in the trust agreement securing them, shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose. If the proceeds of the bonds of any issue exceed the amount required for the purpose for which such bonds were issued, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Code 1950, § 15-764.15; 1950, p. 1322; 1962, c. 623, § 15.1-1253; 1997, c. 587.

§ 15.2-5128.Interim receipts and temporary bonds; bonds mutilated, lost or destroyed

Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery.

If any bond issued under this chapter is mutilated, lost or destroyed, the authority may cause a new bond of like date, number and tenor to be executed and delivered upon the cancellation in exchange or substitution for a mutilated bond and its interest coupons, or in lieu of and in substitution for a lost or destroyed bond and its unmatured interest coupons. Such new bond or coupon shall not be executed or delivered until the holder of the mutilated, lost or destroyed bond has (i) paid the reasonable expense and charges in connection therewith and, in the case of a lost or destroyed bond, has filed with the authority and its treasurer evidence satisfactory to such authority and its treasurer that such bond was lost or destroyed and that the holder was the owner and (ii) furnished indemnity satisfactory to the treasurer of the authority.

§ 15.2-5129.Provisions of chapter only requirements for issue

Bonds may be issued under the provisions of this chapter without obtaining the approval or consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceeding or the happening of any other condition or thing than those proceedings, conditions or things which are specifically required by this chapter.

§ 15.2-5130.Limitations in bond resolution or trust agreement

The resolution providing for the issuance of revenue bonds of the authority, and any trust agreement securing such bonds, may contain such limitations upon the issuance of additional revenue bonds as the authority deems proper. Such additional revenue bonds shall be issued under such limitations.

Code 1950, § 15-764.18; 1950, p. 1323; 1962, c. 623, § 15.1-1256; 1997, c. 587.

§ 15.2-5131.Bonds not debts of Commonwealth or participating political subdivision

A. Revenue bonds issued under the provisions of this chapter shall not constitute a pledge of the faith and credit of the Commonwealth or of any political subdivision. All bonds shall contain a statement on their face substantially to the effect that neither the faith and credit of the Commonwealth nor the faith and credit of any political subdivision are pledged to the payment of the principal of or the interest on the bonds. The issuance of revenue bonds under the provisions of this chapter shall not directly or indirectly or contingently obligate the Commonwealth or any political subdivision to levy any taxes or to make any appropriation for their payment except from the funds pledged under the provisions of this chapter.

B. Unless otherwise provided in the ordinance which forms the authority or in a subsequent ordinance or resolution authorizing additional improvements, neither the Commonwealth nor any locality shall pay any part of the principal or interest of any bonds issued by a community development authority formed pursuant to §§ [15.2-5152](#) through [15.2-5157](#), nor shall any locality carry any part of such bonds on its financial statements as a contingent obligation; except that if a community development

authority fails to pay such bonds, to the extent that a locality has imposed a real property tax surcharge or a special assessment at the request of a community development authority pursuant to subdivisions A 3 or A 5 of § [15.2-5158](#), funds collected from such sources may be paid against such debt.

C. Debt issued by a community development authority formed pursuant to §§ [15.2-5152](#) through [15.2-5157](#) shall not be considered in determining the debt limit of any locality.

Code 1950, § 15-764.19; 1950, p. 1323; 1962, c. 623, § 15.1-1257; 1997, cc. [363](#), 587.

§ 15.2-5132. Exemption from taxation

No authority shall be required to pay any taxes or assessments upon any system acquired or constructed by it under the provisions of this chapter or upon the income therefrom. The bonds issued under the provisions of this chapter, their transfer and the income therefor, including any profit made on their sale, shall be free from taxation within the Commonwealth.

§ 15.2-5133. Trust agreement; bond resolution

In the discretion of the authority, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside the Commonwealth. The resolution authorizing the issuance of the bonds or the trust agreement may pledge or assign the revenues to be received. The resolution or trust agreement shall not convey or mortgage any stormwater control system or water or waste system or any part thereof, or any improvement financed pursuant to § [15.2-5158](#) which is, or will be, dedicated to a public entity other than the authority financing such improvement. However, a bond issued by a community development authority pursuant to subdivision A 2 of § [15.2-5158](#) may pledge or assign a mortgage in other real property or improvements not otherwise proscribed hereunder and may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law. Such provisions may include covenants setting forth the duties of the authority in relation to the acquisition, construction, improvement, maintenance, operation, repair and insurance of the system or systems for which such bonds are issued and provisions for the custody, safeguarding and application of all moneys and for the employment of consulting engineers in connection with such construction, reconstruction, or operation. The resolution or trust agreement may set forth the rights and remedies of the bondholders, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds or debentures of corporations. The resolution or trust agreement may also contain such other provisions as the authority deems reasonable and proper for the security of the bondholders. Except as otherwise

provided in this chapter, the authority may provide for the payment of the proceeds of the sale of the bonds and its revenues to such officer, board or depositary as it may designate for the custody thereof, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of the resolution or trust agreement may be treated as part of the cost of operation.

§ 15.2-5134. Disposition of unclaimed funds due on matured bonds or coupons

Any authority having bonds outstanding on which principal, premium or interest has matured for a period of more than five years may pay any money being held to pay the matured principal, premium or interest into the general fund of the authority. Thereafter, the owners of the matured bonds may look only to the authority for payment. The authority shall maintain a record of the bonds for which the funds were held.

1997, c. 587.

§ 15.2-5135. Contracts concerning interest rates, currency, cash flow and other basis

A. Any authority may enter into any contract which the authority determines to be necessary or appropriate to place the obligation or investment of the authority, as represented by the bonds or the investment of their proceeds, in whole or in part, on the interest rate, cash flow or other basis desired by the authority. Such contracts may include without limitation contracts commonly known as interest rate swap agreements and futures or contracts providing for payments based on levels of, or changes in, interest rates. Such contracts or arrangements may be entered into by the authority in connection with, or incidental to, entering into or maintaining any (i) agreement which secures bonds or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the authority, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency.

B. Any money set aside and pledged to secure payments of bonds or any contracts entered into pursuant to this section, may be invested in accordance with Chapter 45 (§ [2.2-4500](#) et seq.) of Title 2.2 and may be pledged to and used to service any of the contracts or agreements entered into pursuant to this section, and any other criteria as may be appropriate.

1997, c. 587.

§ 15.2-5136. Rates and charges

A. The authority may fix and revise rates, fees and other charges (which shall include, but not be limited to, a penalty not to exceed 10 percent on delinquent accounts, and interest on the principal), subject to the provisions of this section, for the use of and for the services furnished or to be furnished

by any system, or streetlight system in King George County, or refuse collection and disposal system or facilities incident thereto, owned, operated or maintained by the authority, or facilities incident thereto, for which the authority has issued revenue bonds as authorized by this chapter. Such rates, fees and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times (i) to pay the cost of maintaining, repairing and operating the system or systems, or facilities incident thereto, for which such bonds were issued, including reserves for such purposes and for replacement and depreciation and necessary extensions, (ii) to pay the principal of and the interest on the revenue bonds as they become due and reserves therefor, and (iii) to provide a margin of safety for making such payments. The authority shall charge and collect the rates, fees and charges so fixed or revised.

B. The rates for water (including fire protection) and sewer service (including disposal) shall be sufficient to cover the expenses necessary or properly attributable to furnishing the class of services for which the charges are made. However, the authority may fix rates and charges for the services and facilities of its water system sufficient to pay all or any part of the cost of operating and maintaining its sewer system (including disposal) and all or any part of the principal of or the interest on the revenue bonds issued for such sewer or sewage disposal system, and may pledge any surplus revenues of its water system, subject to prior pledges thereof, for such purposes.

C. Rates, fees and charges for the services of a sewer or sewage disposal system shall be just and equitable, and may be based upon:

1. The quantity of water used or the number and size of sewer connections;
2. The number and kind of plumbing fixtures in use in the premises connected with the sewer or sewage disposal system;
3. The number or average number of persons residing or working in or otherwise connected with such premises or the type or character of such premises;
4. Any other factor affecting the use of the facilities furnished; or
5. Any combination of the foregoing factors.

However, the authority may fix rates and charges for services of its sewer or sewage disposal system sufficient to pay all or any part of the cost of operating and maintaining its water system, including distribution and disposal, and all or any part of the principal of or the interest on the revenue bonds issued for such water system, and to pledge any surplus revenues of its water system, subject to prior pledges thereof, for such purposes.

D. Water and sewer rates, fees and charges established by any authority shall be fair and reasonable. An authority may charge fair and reasonable rates, fees, and charges to create reserves for expansion of its water and sewer or sewage disposal systems. Such rates, fees, and charges shall be reviewed

by the authority periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable. However, any authority may charge and collect rates, fees, and charges to create a reserve fund for reasonable expansion of its water, sewer, or sewage disposal system. Nothing herein shall affect existing contracts with bondholders which are in conflict with any of the foregoing provisions.

E. Rates, fees and charges for the service of a streetlight system shall be just and equitable, and may be based upon:

1. The portion of such system used;
2. The number and size of premises benefiting therefrom;
3. The number or average number of persons residing or working in or otherwise connected with such premises;
4. The type or character of such premises;
5. Any other factor affecting the use of the facilities furnished; or
6. Any combination of the foregoing factors.

However, the authority may fix rates and charges for the service of its streetlight system sufficient to pay all or any part of the cost of operating and maintaining such system.

F. The authority may also fix rates and charges for the services and facilities of a water system or a refuse collection and disposal system sufficient to pay all or any part of the cost of operating and maintaining facilities incident thereto for the generation or transmission of power and all or any part of the principal of or interest upon the revenue bonds issued for any such facilities incident thereto, and to pledge any surplus revenues from any such system, subject to prior pledges thereof, for such purposes. Charges for services to premises, including services to manufacturing and industrial plants, obtaining all or a part of their water supply from sources other than a public water system may be determined by gauging or metering or in any other manner approved by the authority.

G. No rates, fees or charges shall be fixed under subsections A through F of this section or under subdivision 10 of § [15.2-5114](#) until after a public hearing at which all of the users of the systems or facilities; the owners, tenants or occupants of property served or to be served thereby; and all others interested have had an opportunity to be heard concerning the proposed rates, fees and charges. After the adoption by the authority of a resolution setting forth the preliminary schedule or schedules fixing and classifying such rates, fees and charges, notice of a public hearing, setting forth the proposed schedule or schedules of rates, fees and charges, shall be published once a week for two successive weeks in a newspaper having a general circulation in the area to be served by such systems or facilities, with the first notice appearing no more than 14 days before the hearing. The hearing may be adjourned from time to time. A copy of the notice shall be mailed to the governing

bodies of all localities in which such systems or facilities or any part thereof is located. After the hearing the preliminary schedule or schedules, either as originally adopted or as amended, shall be adopted and put into effect.

H. A copy of the schedule or schedules of the final rates, fees and charges fixed in accordance with subsection G shall be kept on file in the office of the clerk or secretary of the governing body of each locality in which such systems or any part thereof is located, and shall be open to inspection by all interested parties. The rates, fees or charges so fixed for any class of users or property served shall be extended to cover any additional properties thereafter served which fall within the same class, without the necessity of a hearing or notice. Any increase in any rates, fees or charges under this section shall be made in the manner provided in subsection G. Any other change or revision of the rates, fees or charges may be made in the same manner as the rates, fees or charges were originally established as provided in subsection G.

I. No rates, fees or charges established, fixed, changed or revised before January 1, 2013, by any authority pursuant to this section or to subdivision 10 of § [15.2-5114](#) shall be invalidated because of any defect in or failure to publish or provide any notice required under this section or any predecessor provision.

§ 15.2-5137. Water and sewer connections; exceptions

A. Upon or after the acquisition or construction of any water system or sewer system under the provisions of this chapter, the owner, tenant, or occupant of each lot or parcel of land (i) which abuts a street or other public right of way which contains, or is adjacent to an easement containing, a water main or a water system, or a sanitary sewer which is a part of or which is or may be served by such sewer system and (ii) upon which a building has been constructed for residential, commercial or industrial use, shall, if so required by the rules and regulations or a resolution of the authority, with concurrence of the locality in which the land is located, connect the building with the water main or sanitary sewer, and shall cease to use any other source of water supply for domestic use or any other method for the disposal of sewage, sewage waste or other polluting matter. All such connections shall be made in accordance with rules and regulations adopted by the authority, which may provide for a reasonable charge for making such a connection. A private water company which purchases water from a regional authority for sale or delivery to or within a municipality may impose a charge for connection to the water company's system in the same manner, and subject to the same restrictions, as an authority may impose for connection to its water system, subject to the approval of the State Corporation Commission.

B. Notwithstanding any other provision of this chapter, those persons having a domestic supply or source of potable water shall not be required to discontinue the use of such water. However, persons not served by a water supply system, as defined in § [15.2-2149](#), producing potable water meeting the standards established by the Virginia Department of Health may be required to pay a connection fee, a front footage fee, and a monthly nonuser service charge, which charge shall not be more than that proportion of the minimum monthly user charge, imposed by the authority, as debt service bears to the total operating and debt service costs, or any combination of such fees and charges. In York County and James City County, the monthly nonuser fee may be as provided by general law or not more than 85 percent of the minimum monthly user charge imposed by the authority, whichever is greater.

C. Notwithstanding any other provision of this chapter, those persons having a private septic system or domestic sewage system meeting applicable standards established by the Virginia Department of Health shall not be required under this chapter to discontinue the use of such system. However, such persons may be required to pay a connection fee, a front footage fee, and a monthly nonuser service charge, which charge shall not be more than that proportion of the minimum monthly user charge, imposed by the authority, as debt service bears to the total operating and debt service costs, or any combination of such fees and charges.

D. Persons who have obtained exemption from or deferral of taxation pursuant to an ordinance authorized by § [58.1-3210](#) may be exempted or deferred by the authority from paying any charges and fees authorized by subsection C, to the same extent as the exemption from or deferral of taxation pursuant to such ordinance.

E. Water and sewer connection fees established by any authority shall be fair and reasonable. Such fees shall be reviewed by the authority periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable. Nothing herein shall affect existing contracts with bondholders which are in conflict with any of the foregoing provisions.

§ 15.2-5138. Enforcement of charges

Any resolution or trust agreement providing for the issuance of revenue bonds under the provisions of this chapter may include any of the following provisions, and may require the authority to adopt such resolutions or to take such other lawful action as is necessary to effectuate such provisions. The authority may adopt such resolutions and take such other actions as follows:

1. Require the owner, tenant or occupant of each lot or parcel of land who is obligated to pay rates, fees or charges for the use of or for the services furnished by any system acquired or constructed by the authority under the provisions of this chapter to make a reasonable deposit with the authority in

advance to insure the payment of such rates, fees or charges and to be subject to application to the payment thereof if delinquent.

2. If any rates, fees or charges for the use of and for the services furnished by any system acquired or constructed by the authority under the provisions of this chapter are not paid within thirty days after due, the authority may at the expiration of such thirty-day period disconnect the premises from the water or sewer system, or otherwise suspend services and proceed to recover the amount of any such delinquent rates, fees or charges, with interest, in a civil action.

3. If any rates, fees or charges for the use and services of any sewer system acquired or constructed by the authority under the provisions of this chapter are not paid within thirty days after they become due, require that the owner, tenant or occupant of such premises cease disposing of sewage or industrial wastes originating from or on such premises by discharge directly or indirectly into the sewer system until such rates, fees or charges, with interest, are paid. If such owner, tenant or occupant does not cease such disposal at the expiration of the thirty-day period, the authority may require any political subdivision, district, private corporation, board, body or person supplying water to or selling water for use on such premises to cease supplying water to or selling water for use on such premises within five days after the receipt of notice of such delinquency from the authority. If such political subdivision, district, private corporation, board, body or person does not, at the expiration of such five-day period, cease supplying water to or selling water for use on such premises, then the authority may shut off the supply of water to such premises.

The water supply to or for any person, or for use on real estate of any person, shall not be shut off or stopped under this section if the State Health Commissioner, upon application of the local board of health or health officer of the locality in which such water is supplied or such real estate is located, has found and certifies to the authorities charged with the responsibility of ceasing to supply or sell such water, or to shut off the supply of such water, that ceasing to supply or shutting off such water supply will endanger the health of such person and the health of others in the locality.

Code 1950, § 15-764.24; 1950, p. 1326; 1962, c. 623, § 15.1-1262; 1997, c. 587.

§ 15.2-5138.1. Enforcement of certain charges when authority does not provide water services

A. This section shall apply only to an authority operating in Planning District 1 or Planning District 2.

B. If any rates, fees or charges for the use and services of any sewer system acquired or constructed by the authority under the provisions of this chapter are not paid within 60 days after they become due, the authority may require that the owner, tenant or occupant of such premises cease disposing of sewage or industrial wastes originating from or on such premises by discharge directly or indirectly into the sewer system until such rates, fees or charges, with interest, are paid. If such owner, tenant or occupant does not cease such disposal at the expiration of the 60-day period, the authority may require any political subdivision, district, private corporation, board, body or person supplying water to

or selling water for use on such premises to cease supplying water to or selling water for use on such premises within five days after the receipt of notice of such delinquency from the authority. If such political subdivision, district, private corporation, board, body or person does not, at the expiration of such five-day period, cease supplying water to or selling water for use on such premises, then the authority may shut off the supply of water to such premises.

C. The water supply to or for any person, or for use on real estate of any person, shall not be shut off or stopped under this section if the State Health Commissioner, upon application of the local board of health or health officer of the locality in which such water is supplied or such real estate is located, has found and certifies to the authorities charged with the responsibility of ceasing to supply or sell such water, or to shut off the supply of such water, that ceasing to supply or shutting off such water supply will endanger the health of such person and the health of others in the locality.

§ 15.2-5139.Lien for charges

An authority may place a lien upon the real property of an owner only in the same manner provided by § [15.2-2119](#), and such lien may only be processed, recorded, and released in accordance therewith. An authority may only provide services to lessees or tenants of property owners in accordance with § [15.2-2119.4](#).

An authority may contract with a locality to collect amounts due on properly recorded utility liens in the same manner as unpaid real estate taxes due the locality.

§ 15.2-5140.Trust funds

All moneys received pursuant to this chapter shall be deemed to be trust funds, to be held and applied solely as provided in this chapter. The resolution or trust agreement providing for the issuance of revenue bonds of the authority shall provide that any officer to whom, or any bank, trust company or other fiscal agent to which, such moneys are paid shall act as trustee of such moneys and shall hold and apply the same for the purposes provided in this chapter, subject to such regulations as such resolution or trust agreement may provide.

§ 15.2-5141.Bondholder's remedies

Any holder of revenue bonds issued by an authority under this chapter, or of any of the coupons appertaining thereto, except to the extent the rights given by this chapter may be restricted by the resolution or trust agreement providing for the issuance of such bonds, may, either at law or in equity,

by suit, mandamus or other proceeding, enforce all rights under the laws of Virginia or granted by this chapter or under such resolution or trust agreement. Such holder may also compel the performance of all duties required by this chapter or by the resolution or trust agreement to be performed by the authority or by any officer thereof, including the fixing, charging and collecting of rates, fees and charges for the use of or for the services furnished by any system.

§ 15.2-5142. Refunding bonds

An authority may provide by resolution for the issuance of revenue refunding bonds of the authority to refund any revenue bonds outstanding and issued under this chapter, whether or not such outstanding bonds have matured or are then subject to redemption. Proceeds of such revenue refunding bonds may be used to discharge the revenue bonds, or such revenue refunding bonds may be exchanged for the revenue bonds. Each such authority may provide by resolution for the issuance of a single issue of revenue bonds of the authority for the combined purposes of (i) paying the cost of any system, or any combination thereof, or the improvement, extension, addition or reconstruction thereof, and (ii) refunding revenue bonds of the authority which have been issued under the provisions of this chapter which are outstanding, whether or not such outstanding bonds have matured or are then subject to redemption. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the bondholders, and the rights, powers, privileges, duties and obligations of the authority with respect to such bonds, shall be governed by the foregoing provisions of this chapter to the extent that they are applicable.

§ 15.2-5143. Purchase in open market or otherwise

Provision may be made in the proceedings authorizing refunding revenue bonds for the purchase of the refunded revenue bonds in the open market or pursuant to tenders made from time to time when there is available in the escrow or sinking fund for the payment of the refunded revenue bonds a surplus in an amount or amounts to be fixed in such proceedings.

§ 15.2-5144. Investment in bonds

Any bonds issued pursuant to this chapter are hereby made securities in which all public officers, bodies and political subdivisions of the Commonwealth; all insurance companies and associations; and all savings banks and savings institutions, including savings and loan associations, trust companies, beneficial and benevolent associations, administrators, guardians, executors, trustees and other fiduciaries in the Commonwealth, may properly and legally invest funds in their control.

Such disclaimer shall be filed with the appropriate court and shall have the legal force and effect of disclaiming, releasing, and renouncing all of the right, title, and interest of the Commonwealth in and to such lands.

§ 15.2-5150. Creating or joining more than one authority

No governing body that is a member of an authority, shall create or join with any other governing body in the creation of another authority or join another authority if the latter authority would duplicate the services being performed in any part of the areas being served by the authority of which the governing body is a member.

Code 1950, § 15-764.13; 1950, p. 1321; 1958, c. 402; 1962, c. 623, § 15.1-1251; 1968, c. 355; 1997, c. 587.

§ 15.2-5151. Water utilities may act as billing agents

Any public utility supplying water to the owners, lessees or tenants of real estate which is or will be served by any sewer or sewage disposal system of an authority may act as the billing and collecting agent of the authority for any rates, fees, rents or charges imposed by the authority for the service rendered by such sewer or sewage disposal system. Such water utility shall furnish to the authority copies of its regular periodic meter reading and water consumption records and other pertinent data as may be required for the authority to act as its own billing and collecting agent. The authority shall pay to the water utility the reasonable additional cost of clerical services and other expenses incurred by the water utility in rendering such services to the authority. Upon the inability of the authority and the water utility to agree upon the terms and conditions under which the water utility will act as the billing and collecting agent of the authority, either or both may petition the State Corporation Commission for a determination of the terms and conditions under which the water company shall act as the billing and collecting agent of the authority. If the water utility acts as the billing and collecting agent of an authority it shall set forth separately on its bills the rates, fees or charges imposed by the authority. However, both the water and sewage disposal charges shall be payable to and collected by the water utility, and payment of either shall be refused unless both are paid. The authority shall pay to the water utility the cost of shutting off any water service on account of nonpayment of the sewage disposal charge. In the event of such discontinuance of water service the water service shall not be reestablished until the sewage disposal charge has been paid.

§ 15.2-5155.Ordinance or resolution creating authority

A. Any locality authorized to consider petitions under this article may, by ordinance or resolution not inconsistent with the petition proposing the creation of the authority, create a community development authority, a public body politic and corporate and political subdivision of the Commonwealth.

Community development authorities proposed for districts that are within any two or more localities may be formed by concurrent ordinances of each locality, and such localities may contract with one another for administration of the authority. If the boundaries of the proposed community development authority district are located wholly in a town, the owner or owners shall petition the town and need not petition the county and the town may create the authority without action by the county. If the petition for the creation of a community development authority so provides, the ordinance or resolution creating the community development authority may provide for the locality at any time after the creation of the community development authority to adjust the boundaries of the community development authority district to exclude certain land as long as the owners of at least 51 percent of the land area or assessed value of land remaining in the community development authority district after the adjustment petitioned for the creation of the community development authority.

B. An ordinance or resolution creating a community development authority shall not permit the community development authority to provide services which are provided by, or are obligated to be provided by, any authority already in existence whose charter requires or permits service within the proposed community development district, unless the existing authority first certifies to the governing body that the services provided by the proposed community development authority will not have a negative impact upon the existing authority's operational or financial condition. Such certification shall not be unreasonably withheld by the existing authority.

§ 15.2-5156. Hearing; notice

A. An ordinance or resolution creating a community development authority shall not be adopted or approved until a public hearing has been held by the governing body on the question of its adoption or approval. Notice of the public hearing shall be published once a week for three successive weeks in a newspaper of general circulation within the locality, with the first notice appearing no more than 21 days before the hearing. The petitioning landowners shall bear the expense of publishing the notice. The hearing shall not be held sooner than ten days after completion of publication of the notice.

B. After the public hearing and before adoption of the ordinance or resolution, the local governing body shall mail a true copy of its proposed ordinance or resolution creating the development authority to the petitioning landowners or their attorney in fact. Unless waived in writing, any petitioning landowner shall have thirty days from mailing of the proposed ordinance or resolution in which to withdraw his signature from the petition in writing prior to the vote of the local governing body on such

ordinance or resolution. If any signatures on the petition are so withdrawn, the local governing body may pass the proposed ordinance or resolution only upon certification by the petitioners that the petition continues to meet the requirements of § [15.2-5152](#). If all petitioning landowners waive the right to withdraw their signatures from the petition, the local governing body may adopt the ordinance or resolution upon compliance with the provisions of subsection A and any other applicable provisions of law.

§ 15.2-5157. Recording in land records

The local governing body, upon approving the resolution or ordinance creating the district, shall direct that a copy of the resolution or ordinance be recorded in the land records of the circuit court for the locality in which the district is located for each parcel included in the district and be noted on the land books of the locality. For the purposes of this section, "parcel" is defined as tax map parcel.

§ 15.2-5158. Additional powers of community development authorities

A. Each community development authority created under this article, in addition to the powers provided in Article 3 (§ [15.2-5110](#) et seq.) of Chapter 51 of this title, may:

1. Subject to any statutory or regulatory jurisdiction and permitting authority of all applicable governmental bodies and agencies having authority with respect to any area included therein, finance, fund, plan, establish, acquire, construct or reconstruct, enlarge, extend, equip, operate, and maintain the infrastructure improvements enumerated in the ordinance or resolution establishing the district, as necessary or desirable for development or redevelopment within or affecting the district or to meet the increased demands placed upon the locality as a result of development or redevelopment within or affecting the district, including, but not limited to:
 - a. Roads, bridges, parking facilities, curbs, gutters, sidewalks, traffic signals, storm water management and retention systems, gas and electric lines and street lights within or serving the district which meet or exceed the specifications of the locality in which the roads are located.
 - b. Parks and facilities for indoor and outdoor recreational, cultural and educational uses; entrance areas; security facilities; fencing and landscaping improvements throughout the district.
 - c. Fire prevention and control systems, including fire stations, water mains and plugs, fire trucks, rescue vehicles and other vehicles and equipment.
 - d. School buildings and related structures, which may be leased, sold or donated to the school district, for use in the educational system when authorized by the local governing body and the school board.

e. Infrastructure and recreational facilities for age-restricted active adult communities, and any other necessary infrastructure improvements as provided above, with a minimum population approved under local zoning laws of 1,000 residents. Such development may include security facilities and systems or measures which control or restrict access to such community and its improvements.

2. Issue revenue bonds of the development authority as provided in § [15.2-5125](#), including but not limited to refunding bonds, subject to such limitation in amount, and terms and conditions regarding capitalized interest, reserve funds, contingent funds, and investment restrictions, as may be established in the ordinance or resolution establishing the district, for all costs associated with the improvements enumerated in subdivision 1 of this subsection. Such revenue bonds shall be payable solely from revenues received by the development authority. The revenue bonds issued by a development authority shall not require the consent of the locality, except where consent is specifically required by the provisions of the resolution authorizing the collection of revenues and/or the trust agreement securing the same, and shall not be deemed to constitute a debt, liability, or obligation of any other political subdivision, and shall not impact upon the debt capacity of any other political subdivision.

3. Request annually that the locality levy and collect a special tax on taxable real property within the development authority's jurisdiction to finance the services and facilities provided by the authority. Notwithstanding the provisions of Article 4 (§ [58.1-3229](#) et seq.) of Chapter 32 of Title 58.1, any such special tax imposed by the locality shall be levied upon the assessed fair market value of the taxable real property. Unless requested by every property owner within the proposed district, the rate of the special tax shall not be more than \$.25 per \$100 of the assessed fair market value of any taxable real estate or the assessable value of taxable leasehold property as specified by § [58.1-3203](#). The proceeds of the special taxes collected shall be kept in a separate account and be used only for the purposes provided in this chapter. All revenues received by the locality from such special tax shall be paid over to the development authority for its use pursuant to this chapter subject to annual appropriation. No other funds of the locality shall be loaned or paid to the development authority without the prior approval of the local governing body.

4. Provide special services, including: garbage and trash removal and disposal, street cleaning, snow removal, extra security personnel and equipment, recreational management and supervision, and grounds keeping.

5. Finance the services and facilities it provides to abutting property within the district by special assessment thereon imposed by the local governing body. All assessments pursuant to this section shall be subject to the laws pertaining to assessments under Article 2 (§ [15.2-2404](#) et seq.) of Chapter 24; provided that any other provision of law notwithstanding, (i) the taxes or assessments shall not exceed the full cost of the improvements, including without limitation the legal, financial and other directly attributable costs of creating the district and the planning, designing, operating and financing

of the improvements which include administration of the collection and payment of the assessments and reserve funds permitted by applicable law; (ii) the taxes or assessments may be imposed upon abutting land which is later subdivided in accordance with the terms of the ordinance forming the district, in amounts which do not exceed the peculiar benefits of the improvements to the abutting land as subdivided; and (iii) the taxes or assessments may be made subject to installment payments for up to 40 years in an amount calculated to cover principal, interest and administrative costs in connection with any financing by the authority, without a penalty for prepayment. Notwithstanding any other provision of law, any assessments made pursuant to this section may be made effective as a lien upon a specified date, by ordinance, but such assessments may not thereafter be modified in a manner inconsistent with the terms of the debt instruments financing the improvements. All assessments pursuant to this section may also be made subject to installment payments and other provisions allowed for local assessments under this section or under Article 2 of Chapter 24. All revenues received by the locality pursuant to any such special assessments which the locality elects to impose upon request of the development authority shall be paid over to the development authority for its use under this chapter, subject to annual appropriation, and may be used for no other purposes.

6. Fix, charge, and collect rates, fees, and charges for the use of, or the benefit derived from, the services and/or facilities provided, owned, operated, or financed by the authority benefiting property within the district. Such rates, fees, and charges may be charged to and collected by such persons and in such manner as the authority may determine from (i) any person contracting for the services or using the facilities and/or (ii) the owners, tenants, or customers of the real estate and improvements that are served by, or benefit from the use of, any such services or facilities, in such manner as shall be authorized by the authority in connection with the provision of such services or facilities.

7. Purchase development rights that will be dedicated as easements for conservation, open space or other purposes pursuant to the Open-Space Land Act (§ [10.1-1700](#) et seq.). For purposes of this subdivision, "development rights" means the level and quantity of development permitted by the zoning ordinance expressed in terms of housing units per acre, floor area ratio or equivalent local measure. An authority shall not use the power of condemnation to acquire development rights.

8. Subject to any statutory or regulatory jurisdiction and permitting authority of all applicable governmental bodies and agencies having authority with respect to any area included therein, finance and fund the acquisition of land within the district. All financing authority and methods provided by subsections 2, 3, 4, 5, 6, and 7 shall be permitted for the acquisition of land as provided herein.

9. Any special tax levied pursuant to subdivision 3 and any special assessment imposed pursuant to subdivision 5, whether previously or hereafter levied or imposed, constitute a lien on real estate ranking on parity with real estate taxes, and any such delinquent special tax or delinquent special assessment may be collected in accordance with the procedures set forth in Article 4 (§ [58.1-3965](#) et seq.) of Chapter 39 of Title 58.1, provided that the enforcement of the lien for any special assessment

under subdivision 5 made subject to installment payments shall be limited to the installment payments due or past due at the time the lien is enforced through sale in accordance with Article 4 (§ [58.1-3965](#) et seq.) of Chapter 39 of Title 58.1, and any sale to enforce payment of any delinquent taxes, assessments, or other levies shall not extinguish installment payments that are not yet due.

B. Nothing contained in this chapter shall relieve the local governing body of its general obligations to provide services and facilities to the district to the same extent as would otherwise be provided were the district not formed.

§ 15.2-5159. Validation of creation of authorities; bonds issued

All proceedings heretofore taken with respect to the creation of a community development authority by any locality pursuant to this chapter are hereby presumed to be valid and all such authorities are presumed to be legally created. All proceedings heretofore taken by any community development authority with respect to the authorization, issuance, sale, execution, delivery, and repayment of bonds by any community development authority are presumed to be valid, and any such bonds so issued are presumed valid and legal obligations of such community development authority, enforceable in accordance with law.

§ 1. Short title.

This Act shall be known and may be cited as the "Winchester Parking Authority Act." (1964, c. 221)

§ 2. Declaration of public necessity.

It is hereby determined and declared that the free circulation of traffic of all kinds through the streets of the city of Winchester in the Commonwealth is necessary to the health, safety and general welfare of the public, whether residing in the municipality or traveling to, through or from such municipality in the course of lawful pursuits; that in recent years the greatly increased use by the public of motor vehicles of all kinds has caused serious traffic congestion in the streets of the municipality; that the parking of motor vehicles in the streets has contributed to this congestion to such an extent as to constitute at the present time a public nuisance; that such parking prevents the free circulation of traffic in, through and

from the municipality, and endangers the health, safety and welfare of the general public; that this traffic congestion is not capable of being adequately abated except by provisions for sufficient off-street parking facilities; that adequate off-street parking facilities have not been heretofore provided; and that the enactment of the provisions of this Act is hereby declared to be a public necessity. The members of the Authority shall serve without compensation but shall be reimbursed for the amount of actual expenses incurred by them in the performance of their duties. (1964, c. 221)

§ 6. General grant of powers.

The Authority created hereunder shall be deemed to be a public instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each such Authority is hereby authorized and empowered:

- (k) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this Act, including a trust agreement or trust

§ 7. Revenue bonds.

The Authority is hereby authorized to issue at one time or from time to time, revenue bonds of the Authority for the purpose of paying the cost of constructing, reconstructing, equipping, improving, extending or enlarging any one or more parking facilities. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this Act or any recitals in any bonds issued under the provisions of this Act, all such bonds shall be deemed to be negotiable instruments under the laws of this Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than six per centum (6%) per annum, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the purpose for which such bonds shall have been authorized and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of such bonds, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the authorizing resolution or in the trust agreement securing such bonds, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of revenue bonds, and any trust agreement securing such bonds, may also contain such limitations upon the issuance of additional revenue bonds as the Authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

Bonds may be issued under the provisions of this Act without obtaining the consent of any commission, board, bureau or agency of the Commonwealth of Virginia or of any political subdivision, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this Act.

Revenue bonds issued under the provisions of this Act shall not be deemed to constitute a debt of the Commonwealth or of any municipality or other political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any municipality or other political subdivision, but such bonds shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the bonds. (1964, c. 221; 1966, c. 515)

§ 8. Revenues.

The Authority shall fix, and may revise from time to time, rates, rentals, fees and other charges for the use of and for the services and facilities furnished or to be furnished by any parking facilities or parts thereof owned or operated by the Authority. Such rates, rentals, fees and charges shall not be subject to supervision or regulation by any bureau, board, commission or other agency of the Commonwealth or of any political subdivision. Such rates, rentals, fees and charges shall be fixed and revised so that the revenues of the Authority, together with any other available funds, will be sufficient at all times (a) to pay the cost of maintaining, repairing and operating the parking facilities or parts thereof owned or operated by the Authority, including reserves for such purposes, and (b) to pay the principal of and the

interest on all bonds issued by the Authority under the provisions of this Act as the same shall become due and payable and to provide reserves therefor. Notwithstanding any of the foregoing provisions of this section, the Authority may enter into contracts relating to use of the services and facilities of the parking facilities on such terms as the Authority shall determine to be proper, which contracts shall not be subject to revision except in accordance with their terms. (1964, c. 221)

§ 9. Trust agreement.

In the discretion of the Authority, each or any issue of revenue bonds may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. The resolution authorizing the issuance of the bonds or such trust agreement may pledge the revenues to be received. In connection with the issuance of such bonds or in order to secure the payment thereof, the Authority shall have power under such agreement to mortgage all or any part of its property, real or personal, then owned or thereafter required, to vest in the trustee thereunder the right to foreclose such mortgage and to provide the terms and conditions upon which such trustee or the holders of bonds or any proportion thereof may exercise the right of foreclosure. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the construction, reconstruction, equipment, improvement, maintenance, repair, operation and insurance of any parking facilities, the fixing and revising of rates, rentals, fees and charges, and the custody, safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such construction, reconstruction, improvement, maintenance and operation. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Such resolution or trust agreement may set forth the rights and remedies of the bondholders and of the trustee, if any, and may restrict the individual right of action by bondholders. Such resolution or trust agreement may contain such other provisions in addition to the foregoing as the Authority may deem reasonable and proper for the security of the bondholders. Except as in this Act otherwise provided, the Authority may provide for the payment of the proceeds of the sale of the bonds and the revenues of any parking facilities or part thereof to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursements thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of such resolution or trust agreement may be treated as a part of the cost of operation.

All pledges of revenues under the provisions of this Act shall be valid and binding from the time when such pledge is made. All such revenues so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledges without any physical delivery thereof or further

action, and the lien of such pledges shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. (1964, c. 221; 1966, c. 515)

§ 10. Trust funds.

All moneys received pursuant to the authority of this Act shall be deemed to be trust funds, to be held and applied solely as provided in this Act. Any officer to whom, or bank, trust company or fiscal agent to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this Act and the resolution authorizing the issuance of bonds or trust agreement securing such bonds may provide. (1964, c. 221)

§ 11. Remedies.

Any holder of revenue bonds issued under the provisions of this Act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds or such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this Act or by such resolution or trust agreement to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of rates, rentals, fees and charges for the use of or for the services and facilities furnished by any Parking Facilities. (1964, c. 221)

§ 12. Exemption from taxation.

As adequate off-street Parking Facilities are essential to the health, safety and general welfare of the public, and as the exercise of the powers conferred by this Act to effect such purposes constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this Act constitute the performance of essential municipal functions, and as parking facilities constructed under the provisions of this Act constitute public property and are used for municipal purposes, the Authority shall not be required to pay any taxes or assessments upon any such parking facilities or any part thereof, or upon the income therefrom, and any bonds issued under the provisions of this Act, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the Commonwealth. (1964, c. 221)

§ 13. Revenue refunding bonds.

The Authority is hereby authorized to issue from time to time revenue refunding bonds for the purpose of refunding any revenue bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. The Authority is further authorized to issue from time to time revenue bonds of the Authority for the combined purpose of (a) refunding any revenue bonds or revenue refunding bonds of the Authority then outstanding, including the payment of any redemption premium thereon and any interest accrued

or to accrue to the date of redemption of such bonds, and (b) paying all or any part of the cost of constructing any additional parking facilities or part thereof, or any improvements, extensions or enlargements of any parking facilities. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and the rights, powers, privileges, duties and obligations of the Authority with respect to the same, shall be governed by the foregoing provisions of this Act in so far as the same may be applicable. (1964, c. 221)

§ 13-a. Competing parking facilities.

So long as any bonds issued under the provisions of this act are outstanding, the municipality shall not construct, operate or maintain any parking facilities competing with parking facilities of the Authority. (1966, c. 515)

§ 14. Contributions.

The municipality is hereby authorized to make contributions or advances to an Authority which it organizes under the provisions of this Act, from any available moneys for any purpose of the Authority, including payment of principal and interest on its bonds. The municipality is hereby further authorized to enter into agreements with the Authority obligating the municipality to pay to the Authority any part or all of the receipts from the operation of on-street parking meters and making such covenants as may be deemed necessary or desirable to assure the successful and profitable operation of the on-street parking meters for so long as any bonds of the Authority remain outstanding. (1964, c. 221; 1966, c. 515)

§ 15. Actions taken by Authority.

Any action taken by the Authority under the provisions of this Act may be authorized by resolution at any regular or special meeting and each such resolution shall take effect immediately and need not be published or posted. (1964, c. 221)

§ 16. Additional method.

This Act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of or as repealing any powers now existing under any other law, either general, special or local; provided, however, that the issuance of revenue bonds or revenue refunding bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds. (1964, c. 221)

§ 17. Construction.

This act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purpose thereof. (1966, c. 515)

1995, cc. [258](#), [338](#) (§ 5)

§ 1. Short title.

This act shall be known and may be cited as the Winchester Regional Airport Authority Act. (1987, c. 687)

§ 2. Creation; public purpose.

If the governing bodies of the Counties of Clarke, Frederick, Shenandoah and Warren and the City of Winchester by resolution declare that there is a need for an airport authority to be created for the purpose of establishing or operating an airport for such participating political subdivisions, and that they should unite in its formation, an airport authority to be known as the Winchester Regional Airport Authority shall thereupon exist for such participating counties and city and shall exercise its powers and functions as prescribed herein. The region for which such Authority shall exist shall be coterminous with the boundaries of the participating political subdivisions.

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of the Winchester Regional Airport Authority, such authority shall be conclusively deemed to have been created as a body corporate and to have been established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution as aforesaid by the governing bodies of such counties and city declaring that there is a need for such authority and that they should unite in its formation. A copy of such resolution duly certified by the clerks of the counties and city by which it is adopted shall be admissible as evidence in any suit, action or proceedings. Any political subdivision of the Commonwealth, all or part of which is located within sixty miles of an Authority facility, is authorized to join such Authority pursuant to the terms and conditions of this act.

It is hereby declared that the ownership and operation by the Authority of modern and efficient air transportation and related facilities and the exercise of powers conferred by this act are proper and essential governmental functions and public purposes and matters of public necessity for which public moneys may be spent and private property acquired through the power of eminent domain as hereinafter provided. It is also declared that contract obligations of a city or town to provide payments over a period of more than one year to the Authority shall be excluded from existing indebtedness of such city or town for purposes of calculating debt limit pursuant to Section 10 (a) of Article VII of the Constitution of Virginia. It is further declared that the Authority is a regional entity of government by or on behalf of which debt may be contracted by or on behalf of any county pursuant to Section 10 (b) of Article VII of the Constitution of Virginia. (1987, c. 687)

resolution of the governing body thereof, in which case the total amount of indebtedness shall be expressed in the resolution of each such governing body;

c. Notwithstanding any other provision of law, no interest or right in the real property conveyed, in any form, to the Authority by a participating political subdivision, shall be conveyed, pledged, or otherwise transferred by the Authority for the purpose of obtaining or securing any indebtedness, nor shall any such property be encumbered by the Authority unless and until such subdivision has approved the nature of, terms of, and amount of such conveyance, pledge, transfer or encumbrance, by resolution of the governing body of said subdivision;

18. 21. To do all things necessary or convenient to the purposes of this act. However, the powers of the Authority expressed in this act shall be limited to those powers necessary for the operation of the Winchester Regional Airport. To that end, property acquired, owned, or conveyed to the Authority, contracts entered into, financial assistance, indebtedness, rules and regulations adopted by the Authority and any other actions thereof may only pertain to said airport.

The grant of regulatory authority by this act, including regulations that displace, eliminate or limit competition by or among persons or entities, is based on the policy of the Commonwealth to provide for the safe, adequate, economical and efficient provision of air transportation and related facilities and services to the public. (1987, c. 687)

§ 8. Name of airport.

The name of the airport operated by the Authority within the boundaries of Frederick County shall be Winchester Regional Airport. The name of the airport may be changed upon approval of the governing bodies of the participating political subdivisions. (1987, c. 687)

§ 9. Rules and regulations.

The Authority shall have the power to adopt, amend, and repeal rules and regulations for the use, maintenance and operation of its facilities and governing the conduct of persons and organizations using its facilities.

Unless the Authority shall by unanimous vote of the Board of Directors determine that an emergency exists, the Authority shall, prior to the adoption of any rule or regulation or alteration, amendment or modification thereof:

1. Make such rule, regulation, alteration, amendment or modification in convenient form available for public inspection in the office of the Authority for at least ten days; and
2. Post in a public place a notice declaring the Board of Directors' intention to consider adopting such rule, regulation, alteration, amendment or modification and informing the public that the Authority will at a public meeting consider the adoption of such rule or regulation or such alterations, amendment, or modification, on a day and at a time to be specified in the notice, after the expiration of at least ten days from the first day of the posting of the notice thereof. The Authority's rules and regulations shall be available for public inspection in the Authority's principal office.

The Authority's rules and regulations relating to: (i) traffic, including but not limited to motor vehicle speed limits and the location of and payment of public parking; (ii) access to Authority facilities, including but not limited to solicitation, handbilling, and picketing; and (iii) aircraft operation and maintenance shall have the force of law, as shall any other rule or regulation of the Authority which shall contain a determination by the Authority that it is necessary to accord the same the force and effect of law in the interest of the public safety. However, with respect to motor vehicle traffic rules and regulations, the Authority shall obtain the approval of the traffic engineer or comparable official of the political subdivision in which such rules or regulations are to be enforced. The violation of any rule or regulation of the Authority relating to motor vehicle traffic shall be tried and punished in the same manner as if it had been committed on the public roads of the participating political subdivision in which such violation occurred. All other violations of the rules and regulations having the force of law shall be punishable as misdemeanors.

All ordinances, rules and regulations duly adopted for the regulation, administration and operation of Winchester Regional Airport, in force at the effective date of this act shall remain in full force insofar as they or any part thereof are not inconsistent with the provisions of this act until amended or repealed in accordance with this act. (1987, c. 687)

§ 10. Police powers.

Authority employees meeting the minimum requirements of the Department of Criminal Justice Services shall be given special police power by the circuit court of any participating political subdivision. The authority conferred upon such special policemen shall be exercised only upon Authority facilities located within such participating political subdivision, and shall be in all terms consistent with the requirements of Chapter 3 of Title 15.1 of the Code of Virginia.

Such special policemen shall have all powers vested in police officers under Chapter 3 of Title 15.1 of the Code of Virginia and shall be responsible upon Authority facilities for enforcing Authority rules and regulations and all other applicable statutes, ordinances, rules, and regulations of the United States of America and agencies and instrumentalities thereof and this Commonwealth and political subdivisions, agencies and instrumentalities thereof.

Such special policemen may issue summons to appear, or arrest on view or on information without warrant as permitted by law, and conduct before any court of competent jurisdiction any person violating any rule or regulation of the Authority or other applicable statute, ordinance, rule or regulation.

For the purpose of enforcing such statutes, ordinances, rules and regulations, the court or courts having jurisdiction for the trial of criminal offenses of the participating political subdivision wherein the offense was committed shall have jurisdiction to try a person charged with the violating of any such statutes, ordinances, rules or regulations. (1987, c. 687)

§ 11. Eminent domain.

The Authority is hereby granted full power to exercise the right of eminent domain within the participating political subdivisions in the acquisition of any lands, easements, privileges or other property interests which are necessary for airport purposes, including, where necessary to provide unobstructed air space for the landing and taking off of aircraft utilizing its airport, avigation easements over lands or water outside the boundaries of its airport, even though such avigation easement may be either inconsistent with the continued use of such land for the same purposes for which it had been used prior to such acquisition, or inconsistent with the maintenance, preservation and renewal of any structure or any tree or other vegetation standing or growing on said land at the time of such acquisition. Proceedings for the acquisition of such land, easements and privileges by condemnation may be instituted and conducted in the name of the Authority in accordance with Title 25 of the Code of Virginia. (1987, c. 687)

§ 12. Reports.

The Authority shall keep minutes of its proceedings, which minutes shall be open to public inspection during normal business hours. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually by an independent certified public accountant. Copies of each such audit shall be furnished to each participating political subdivision and shall be open to public inspection. (1987, c. 687)

§ 14. Deposit and investment of funds.

Except as provided by contract with a participating political subdivision, all moneys received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this act. All moneys of the Authority shall be deposited as soon as practicable in a separate account or accounts in one or more banks or trust companies organized under the laws of the Commonwealth or national banking associations having their principal offices in the Commonwealth. Such deposits shall be continuously secured in accordance with the Virginia Security for Public Deposits Act.

Funds of the Authority not needed for immediate use or disbursement may, subject to the provisions of any contract between the Authority and the holders of its bonds, be invested in securities which are considered lawful investments for fiduciaries. (1987, c. 687)

§ 15. Authority to issue bonds.

The Authority shall have power and is hereby authorized to issue bonds from time to time in its discretion for any of its purposes, including the payment of all or any part of the cost of any of its facilities and the refunding of any bonds previously issued by it.

The Authority shall not issue bonds unless and until the maximum amount of such issue and the general purposes thereof have been approved by the governing body of each participating political subdivision. Subject to the foregoing, bonds may be issued under this act notwithstanding any debt or other limitation prescribed in any other statute and without obtaining the consent of any city, town, or county government or any commission, board, bureau, or agency of the Commonwealth or of any of the foregoing, and without any other proceedings or the happening of other conditions or things than those proceedings, conditions or things which are specifically required by this act.

The Authority may issue such types of bonds as it may determine, specifically bonds payable as to principal and interest: (i) from its revenues generally; (ii) exclusively from the income and revenues of a particular project; or (iii) exclusively from the income and revenues of certain designated projects, whether or not they are financed in whole or in part from the proceeds of such bonds. Subject to the limitations set forth in § 7 of this act, any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision, the Commonwealth or any political subdivision, agency or instrumentality thereof, any federal agency or any unit, private corporation, copartnership, association, or individual, as such participating political subdivision, or other entities may be authorized to make under general law or by pledge of any income or revenues of the Authority, or where such mortgage has been approved by the participating political subdivisions, a mortgage of any facilities of the Authority.

Bonds of the Authority shall be authorized by resolution and may be issued in one or more series, shall be dated, shall mature at such time or times not exceeding forty years from their date or dates and shall bear interest at such rate or rates as may be determined by the Authority, and may be made

redeemable before maturity at the option of the Authority at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or registered form or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the conversion and reconversion into coupon bonds of any bonds registered as to both principal and interest and vice versa. The Authority may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Authority.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. (1987, c. 687)

§ 16. Resolution or trust indenture to secure bonds.

In connection with the issuance of bonds and in order to secure the payment of such bonds, the Authority shall have power:

1. To pledge by resolution, trust indenture, or other agreement, all or any part of its fees, rents, or revenues;
2. To covenant to impose and maintain such schedule of fees, rents and charges as will produce funds sufficient to pay operating costs and debt service;
3. To covenant against pledging all or any part of its fees, rents, and revenues to which its right then exists or the right to which may thereafter come into existence or against permitting or suffering any lien thereon;
4. To provide for the release of fees, rents, and revenues from any pledge and to reserve rights and powers in the fees, rents and revenues which are subject to a pledge;
5. To covenant with respect to limitations on its right to sell, lease or otherwise dispose of any facility or facilities of the Authority or any part thereof or with respect to limitations on its right to undertake additional projects;

6. To covenant as to the bonds to be issued pursuant to any resolution, trust indenture, or other instrument and as to the issuance of such bonds in escrow or otherwise, and as to the use and disposition of the proceeds thereof;
7. To covenant as to what other, or additional, debt may be incurred by it;
8. To provide for the terms, forms, registration, exchange, execution, and authentication of bonds;
9. To provide for the replacement of lost, destroyed, or mutilated bonds;
10. To covenant as to the use of any or all of its property, real or personal, subject to the continued use of such property for airport purposes;
11. To create or to authorize the creation of special funds in which there may be segregated: (i) the proceeds of any loan or grant; (ii) all of the fees, rents and revenues of any facility or facilities or parts thereof; (iii) any moneys held for the payment of the costs of operation and maintenance of any such facilities or as a reserve for the meeting of contingencies in the operation and maintenance thereof; (iv) any moneys held for the payment of the principal and interest on its bonds or the sums due under its leases or as reserve for such payments; and (v) any moneys held for any other reserve or contingencies; and to covenant as to the use and disposal of the moneys held in such funds;
12. To redeem its bonds, and to covenant for their redemption and to provide the terms and conditions thereof;
13. To covenant against extending the time for the payment of its bonds or interest thereon, directly or indirectly, by any means or in any manner;
14. To prescribe the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto and the manner in which such consent may be given;
15. To covenant as to the maintenance of its facilities, the insurance to be carried thereon and the use and disposition of insurance moneys;
16. To vest in a bondholder the right, in the event of the failure of the Authority to observe or perform any covenant on its part to be kept or performed, to cure any such default, and, subject to the limitation on total indebtedness expressed in this act, to advance any moneys necessary for such purpose, and the moneys so advanced may be made an additional obligation of the Authority with such interest, security and priority as may be provided in any trust indenture, lease or contract of the Authority with reference thereto;

17. To covenant and prescribe as to the events of default and terms and conditions upon which any or all of its bonds shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived;

18. To covenant as to the rights, liabilities, powers, and duties arising upon the breach by it of any covenant, condition or obligation;

19. To covenant to surrender possession of all or any part of any facility or facilities acquired or constructed from bond proceeds, the revenues from which have been pledged upon the happening of any event of default, as defined in the contract, and to vest in a bondholder the right without judicial proceeding to take possession and to use, operate, manage, and control such facility or any part thereof, and to collect and receive all fees, rents, and revenues arising therefrom in the same manner as the Authority itself might do and to dispose of the moneys collected in accordance with the agreement of the Authority with such obligee, subject to the continued use of such facilities for airport purposes;

20. To vest in a trustee or trustees the right to enforce any covenant made to secure, to pay, or in relation to the bonds, to provide for the powers and duties of such trustee or trustees, to limit liabilities thereof and to provide the terms and conditions upon which the trustee or trustees or the bondholders or any proportion of them may enforce any such covenant;

21. To make covenants other than and in addition to the covenants herein expressly authorized, of like or different character;

22. To execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of its covenants or duties, which may contain such covenants and provisions, in addition to those above specified, as any purchaser of the bonds of the Authority may reasonably require; and

23. To make such covenants and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds, or in the absolute discretion of the Authority which tend to make the bonds more marketable; notwithstanding that such covenant, acts or things may not be enumerated herein, it being the intention hereof to give the Authority power to do all things in the issuance of bonds, and in the provisions for their security that are not inconsistent with the Constitution of the Commonwealth or this act. (1987, c. 687)

§ 17. Fees, rents and charges.

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents and other charges for the use and services of any facilities. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be

subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary, be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement. (1987, c. 687)

§ 18. Credit of Commonwealth and political subdivisions not pledged.

The bonds of the Authority shall not be a debt of the Commonwealth or any political subdivision thereof, other than the Authority, and neither the Commonwealth nor any political subdivision thereof, other than the Authority, shall be liable thereon, nor shall such bonds be payable out of any funds or properties other than those of the Authority. All bonds of the Authority shall contain on the face thereof a statement to such effect. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. (1987, c. 687)

§ 19. Directors and persons executing bonds not liable thereon.

Neither the Board of Directors nor any person executing the bonds shall be liable personally on the Authority's bonds by reasons of the issuance thereof. (1987, c. 687)

§ 20. Remedies of bondholder.

Any holder of bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust indenture agreement or the resolution authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this act or by such trust indenture or agreement or resolution to be performed by the Authority or by any officer or agent thereof, including the fixing, charging and collection of fees, rents

and other charges. Any resolution authorizing the issuance of the Authority's bonds or trust indenture or agreement securing the same may limit or abrogate the individual right of action by the holders of such bonds or coupons appertaining thereto. (1987, c. 687)

§ 21. Taxation.

The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project which the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act and the bonds issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property and machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling and taxes upon consumers of gas, electricity, telephone and other public utility services. (1987, c. 687)

§ 22. Bonds as legal investments.

Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law. (1987, c. 687)

§ 23. Appropriation by political subdivision.

Any participating political subdivision, or other political subdivision of the Commonwealth all or a part of which is located within sixty miles of an Authority facility, is authorized to provide services, to donate real or personal property and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in

the Public Finance Act or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority. The Authority may agree to assume, or reimburse a participating political subdivision for any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Authority. With the consent of the governing body of the participating political subdivision, any such agreement may be made subordinate to the Authority's indebtedness to others. (1987, c. 687)

§ 24. Authority budget.

A. The Authority shall annually prepare and submit to the participating political subdivisions (i) a proposed operating budget showing its estimated general fund revenues and expenses on an accrual basis for the forthcoming fiscal year, and if such estimated expenses exceed such estimated revenues, the portion of the deficit proposed to be borne by each participating political subdivision, and (ii) a proposed capital budget showing its estimated expenditures for such fiscal year for assets costing more than \$20,000 (or such higher amount as the Authority and the participating political subdivisions may determine) and having an estimated useful life of twenty years or more and the source of funds for such expenditures, including any amount requested from the participating political subdivisions. No depreciation shall be included in the Authority's operating budget with respect to assets purchased by the Authority with funds appropriated to it for such purpose by a participating political subdivision and, for this determination, it shall be assumed that any appropriation so made is for the purchase of assets set forth in the applicable Authority budget to the extent such purchase price is included in the approved budget. Assets purchased by the Authority with bond proceeds shall be depreciated over the term of the bond issue in proportion to the maturities, including sinking fund installments, of the bond issue.

B. If the governing body of a participating political subdivision shall approve the Authority's proposed operating budget, it shall appropriate to the Authority such political subdivision's portion of such budget.

C. If the governing body of a participating political subdivision shall approve the Authority's proposed capital budget, it shall appropriate to the Authority such participating political subdivision's portion of the expenditures set forth therein. Any such appropriation may be reduced by the participating political subdivision's proportionate share of any grant funds received by the Authority for the purchase of assets included in the Authority's approved capital budget in excess of the grant funds shown in such capital budget as a source of funds for such expenditure, unless prohibited by the basic provider of the grant funds.

D. The Authority may expend any and all moneys within its control without obtaining the approval of the participating political subdivisions, but, except as otherwise provided in this act with respect to contracts and agreements between the Authority and any political subdivision, the Authority shall not

commit any participating political subdivision in an amount in excess of that appropriated to the Authority by the governing body of such political subdivision.

E. If at any time during any fiscal year it shall appear that the cash disbursements of the Authority will exceed its cash receipts for such fiscal year, including amounts appropriated to it by the participating political subdivisions, the Authority may request supplemental appropriations from the participating political subdivisions and any other political subdivision. (1987, c. 687)

§ 25. Allocation of deficit; denial of voting privileges.

A. Any deficit budgeted by the Authority in any fiscal year, i.e., any excess of its estimated general fund expenses over its estimated general fund revenues, and the cost of any budgeted capital expenditures in excess of the amount shown as available therefor, as shown on the Authority's operating and capital budgets approved by the participating political subdivisions, shall be allocated among the participating political subdivisions in the following manner:

1. During the five fiscal years beginning July 1, 1987, the County of Frederick and the City of Winchester shall each contribute half of the amount budgeted annually by the Authority for capital expenditures in excess of the amounts shown as available therefor after subtracting from such amount the annual contribution of the other participating political subdivisions.
2. No later than the fifth fiscal year, the participating political subdivisions shall evaluate the division of capital contributions made by each such subdivision and shall agree as to the division of such contributions for the fiscal year beginning July 1, 1992, and thereafter.
3. In the event the appropriation of any participating political subdivision is insufficient to pay its portion of the deficit incurred in any fiscal year, the allocation of any deficit for any succeeding fiscal year shall take into account the cumulative deficiency attributable to such participating political subdivision; however, no participating political subdivision shall be required to pay the Authority in any fiscal year any amount in excess of that appropriated to the Authority by the governing body of such participating political subdivision.

B. Any participating political subdivision not contributing its proportionate share of any deficit as determined by the Authority pursuant to § 25 of this act, either of the Authority's operating budget or capital budget in accordance with a schedule established by the Authority, shall automatically be denied voting privileges. The denial of voting privileges shall terminate upon the delivery of its proportionate share by such political subdivision. (1987, c. 687)

§ 26. Contracts with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions, which contracts may restrict the powers of the Authority otherwise granted by this act. Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located within sixty miles of an Authority facility, is authorized to enter into contracts with the Authority,

pursuant to which the Authority undertakes to provide the facilities and render the services specified therein. Any such contract or agreement may provide that the political subdivision will make payments to the Authority based on the services rendered by the Authority to the residents of such political subdivision, determined in such reasonable manner as the Authority and the political subdivision may mutually agree. Each political subdivision entering into such a service contract with the Authority is authorized to do everything necessary or proper to carry out and perform such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations. (1987, c. 687)

§ 27. Retirement benefits for certain employees formerly employed by a participating political subdivision.

When a local political subdivision joins the Authority, any employee of such local political subdivision who then becomes an employee of the Authority, if such employee is a member of a local retirement system, may elect to and may continue to be eligible to remain a member of such local retirement system in lieu of becoming a member of any retirement system with which the Authority may affiliate. Such election to remain a member of a local retirement system shall be made in writing within 120 days of such employee's political subdivision becoming a member of the Authority. In such event, service of such employee with the Authority shall be creditable as service with the participating political subdivision and shall be pursuant to all duly adopted ordinances and rules and regulations governing such retirement system. Any employee so electing shall not be entitled to any benefit under the Authority's retirement system, and the Authority shall pay the employer share of benefits provided the Authority's employees by such political subdivision. Nothing herein shall apply to any health and accident insurance plan or to the Federal Old Age and Survivors Insurance System. (1987, c. 687)

§ 28. Dissolution of Authority.

Whenever it shall appear to the Authority, or to any participating political subdivision that the need for the Authority no longer exists, the Authority, or in the proper case, any such subdivision may petition the circuit court of a participating political subdivision for the dissolution of the Authority. If the court shall determine that the need for the Authority as set forth in this act no longer exists and that all debts and pecuniary obligations of the Authority have been fully paid or provided for, it may enter an order dissolving the Authority.

Upon dissolution, the court shall order any real property contributed to the Authority by a participating political subdivision, together with any improvements thereon, returned to such participating political subdivisions. The remaining assets of the Authority shall be distributed to the participating political subdivisions in proportion to their respective contributions theretofore made to the Authority.

Each participating political subdivision and all holders of the Authority's bonds shall be made parties to any such proceeding and shall be given notice as provided by law. Any party defendant may reply

to such petition at any time within six months after the filing of the petition. From the final judgment of the court, an appeal shall lie to the Supreme Court of Virginia. (1987, c. 687)

§ 29. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds. (1987, c. 687)

§ 30. Liberal construction.

Neither this act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers which the Authority might otherwise have under any laws of this Commonwealth, and this act is cumulative to any such powers. This act does and shall be construed to provide a complete, additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this act need not comply with the requirements of any other law applicable to the issuance of bonds, notes or other obligations. No proceedings, notice or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this act. The provisions of this act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this act. (1987, c. 687)

§ 31. Application of local ordinances, service charges and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom. (1987, c. 687)

§ 32. Existing contracts, leases, franchises, etc., not impaired.

No provisions of this act shall relieve, impair or affect any right, duty, liability or obligation arising out of any contract, concession, lease or franchise now in existence except to the extent that such contract, concession, lease or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of or otherwise modify at any time any contract, concession, lease or franchise now in existence in such manner and on such terms and

conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease or franchise consents to said renegotiation, renewal, extension or modification.

§ 15.2-5431.3. Creation of authority

The governing body of a locality may by resolution, or two or more localities may by concurrent resolutions, create an authority, the name of which shall contain the word "authority." The authority shall be a public body politic and corporate. The resolution creating the authority shall not be adopted or approved until a public hearing has been held in each participating locality on the question of its adoption or approval.

2003, c. [643](#); 2005, c. [299](#).

§ 15.2-5431.4. Resolution creating authority to include articles of incorporation

The resolution creating an authority shall include articles of incorporation, which shall set forth:

1. The name of the authority and address of its principal office.
2. The name of the locality creating the authority and the names, addresses and terms of office of the first members of the board of the authority.

The provisions of § [24.2-684](#) shall govern the order for a referendum. If 10 percent of the qualified voters in a locality file a petition with the governing body at the hearing calling for a referendum, such governing body shall petition the circuit court to order a referendum in that locality as provided in this section.

2021, Sp. Sess. I, c. [487](#).

§ 15.2-5431.9. Dissolution and termination of authority

A. Whenever the board of an authority determines that the purposes for which it was created have been completed or are impractical or impossible and that all its obligations have been paid or have been assumed by one or more of such political subdivisions or any authority created thereby or that cash or United States government securities have been deposited for their payment, it shall adopt and file with the governing body a resolution declaring such facts. If the governing body adopts a resolution concurring in such declaration and finding that the authority should be dissolved, it shall file appropriate articles of dissolution with the State Corporation Commission. When the affairs of the authority have been wound up and all of its assets have been distributed, the governing bodies shall file appropriate articles of termination of corporate existence with the State Corporation Commission.

B. If any of the governing bodies refuses to adopt a resolution concurring in such declaration, then the authority may petition the circuit court for any locality that is a member of the authority to order one or more of such governing bodies to create a new authority. The circuit court may order the governing body of the political subdivision requesting dissolution of the existing authority to adopt an ordinance establishing a new authority to which the provisions of §§ [15.2-5431.3](#) through [15.2-5431.6](#) shall not apply. Thereafter, the court may order that the assets be divided among the authorities and, subject to the approval of any debt holder, require the assumption of a proportionate share of the obligations of the existing authority by the new authority.

C. Notwithstanding the provisions of subdivision 1 of § [15.2-5431.11](#), an authority shall continue in existence and shall not be dissolved because the term for which it was created, including any extensions thereof, has expired, unless all of such authority's functions have been taken over and its obligations have been paid or have been assumed by one or more political subdivisions or by an authority created thereby, or cash or United States government securities have been deposited for their payment.

2003, c. [643](#); 2021, Sp. Sess. I, c. [487](#).

§ 15.2-5431.9:1. Joinder of another locality or authority; withdrawal from authority

A. Any locality may become a member of any existing authority, and any locality that is a member of an existing authority may withdraw therefrom upon unanimous consent of the remaining members of the authority in accordance with this section. However, no locality may withdraw from any authority that has outstanding bonds without the unanimous consent of all the holders of such bonds unless all

such bonds have been paid or cashed or United States government obligations have been deposited for their payment.

B. The governing body of any locality wishing to withdraw from an existing authority shall signify its desire by resolution or ordinance.

C. The governing body of any locality wishing to become a member of an existing authority and the governing bodies of the political subdivisions then members of the authority shall by concurrent resolutions or ordinances or by agreement provide for the joinder of such locality. The resolutions, ordinances, or agreement creating the expanded authority shall specify the number and terms of office of members of the board of the expanded authority who are to be appointed by each of the participating political subdivisions, and the names, addresses, and terms of office of initial appointments to board membership. Upon the date of issuance of the certificate by the State Corporation Commission as provided in this section, the terms of office of the board members of the existing authority shall terminate and the appointments made in the resolutions, ordinances, or agreement creating the expanded authority shall become effective.

D. If the authority by resolution expresses its consent to withdrawal or joinder of a locality, the governing body of such locality and the governing bodies of the political subdivisions then members of the authority shall advertise the ordinance, resolution, or agreement and hold a public hearing in accordance with § [15.2-5431.5](#).

Upon adoption or approval of the ordinance, resolution, or agreement, the governing body seeking to withdraw or join the authority shall file either an application to withdraw from or an application to become a member of the authority, whichever applies, with the State Corporation Commission. A joinder application shall set forth all of the information required in the case of original incorporation and shall be accompanied by certified copies of the resolutions, ordinances, or agreement described in subsection C. Joinder and withdrawal applications shall be executed by the proper officers of the withdrawing or incoming locality under its official seal and shall be joined in by the proper officers of the governing board of the authority, and in the case of a locality seeking to become a member of the authority also by the proper officers of each of the political subdivisions that are then members of the authority, pursuant to resolutions by the governing bodies of such political subdivisions.

E. If the State Corporation Commission finds that the application conforms to law, it shall approve the application. When all proper fees and charges have been paid, it shall file the approved application and issue to the applicant a certificate of withdrawal or a certificate of joinder, whichever applies, attached to a copy of the approved application. The withdrawal or joinder shall become effective upon the issuing of such certificate.

F. Any authority may join an existing authority if the joinder is approved by concurrent ordinances or resolutions of the localities that created the joining authority, notwithstanding any contrary provisions

of § [15.2-5431.35:1](#). However, if the localities, at the time of the creation of an authority, state that the authority is created with the intention of joining an existing authority, such concurrent ordinances or resolutions shall not be necessary. The provisions of this section pertaining to a locality becoming a member or withdrawing from an authority shall also apply, mutatis mutandis, to an authority becoming a member or withdrawing.

2021, Sp. Sess. I, c. [487](#).

§ 15.2-5431.10.Members of authority board; chief administrative or executive officer

A. The powers of each authority created by the governing body of a locality shall be exercised by an authority board of five or seven members, or at the option of the board of supervisors of a county, a number of board members equal to the number of members of the board of supervisors. The board members of an authority shall be selected in the manner and for the terms provided by the agreement or ordinance or resolution or concurrent ordinances or resolutions creating the authority. One or more members of the governing body of a locality may be appointed board members of the authority, the provisions of any other law to the contrary notwithstanding. No board member shall be appointed for a term of more than four years. When one or more additional political subdivisions join an existing authority, each of such joining political subdivisions shall have at least one member on the board. Board members shall hold office until their successors have been appointed and may succeed themselves. The board members of the authority shall elect one of their number chairman, and shall elect a secretary and treasurer who need not be members. The offices of secretary and treasurer may be combined.

B. A majority of board members shall constitute a quorum and the vote of a majority of board members shall be necessary for any action taken by the authority. An authority may, by bylaw, provide a method to resolve tie votes or deadlocked issues.

C. No vacancy in the board membership of the authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the authority. If a vacancy occurs by reason of the death, disqualification or resignation of a board member, the governing body of the locality that created the authority shall appoint a successor to fill the unexpired term. Whenever a political subdivision withdraws its membership from an authority, the term of any board member appointed to the board of the authority from such political subdivision shall immediately terminate. Board members shall receive such compensation as fixed by resolution of the governing body that created the authority, and shall be reimbursed for any actual expenses necessarily incurred in the performance of their duties.

D. The board members may appoint a chief administrative or executive officer who shall serve at the pleasure of the board members. He shall execute and enforce the orders and resolutions adopted by the board members and perform such duties as may be delegated to him by the board members.

§ 15.2-5431.11.Powers of authority

Each authority is an instrumentality exercising public and essential governmental functions to provide for the public health and welfare, and each authority may:

1. Exist for a term of 50 years as a corporation, and for such further period or periods as may from time to time be provided by appropriate resolutions of the political subdivision creating the authority; however, the term of an authority shall not be extended beyond a date 50 years from the date of the adoption of such resolutions;
2. Adopt, amend or repeal bylaws, rules and regulations, not inconsistent with this chapter or the general laws of the Commonwealth, for the regulation of its affairs and the conduct of its business and to carry into effect its powers and purposes;
3. Adopt an official seal and alter the same at pleasure;
4. Maintain an office at such place or places as it may designate;
5. Sue and be sued;
6. Acquire, construct, reconstruct, improve, enlarge, operate or extend any project;
7. Issue revenue bonds of the authority, such bonds to be payable solely from revenues to pay all or a part of the cost of a project;
8. Borrow at such rates of interest as authorized by the general law for authorities and as the authority may determine and issue its notes, bonds or other obligations therefor. The political subdivision creating the authority may lend, advance or give money to such authority;
9. Fix, charge and collect rates, fees and charges for the use of or for the services furnished by or for the benefit from any project operated by the authority. Such rates, fees, rents and charges shall be charged to and collected from any person contracting for the services or the lessee or tenant who uses or occupies any real estate that is served by or benefits from any such project. Connection and service fees established by an authority shall be fair and reasonable. Such fees shall be reviewed by the authority periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable; and
10. Contract with any person, political subdivision, federal agency, or any public authority or unit, on such terms as the authority deems proper, for the purpose of acting as a billing and collecting agent for service fees, rents or charges imposed by an authority.

2003, c. [643](#).

§ 15.2-5431.12.Contracts relating to use of systems

An authority may make and enter into all contracts or agreements, as the authority may determine, which are necessary or incidental to the performance of its duties and to the execution of the powers

granted by this chapter, on such terms and conditions as the authority may approve. The contract shall be subject to such provisions, limitations or conditions as may be contained in the resolution of the authority authorizing revenue bonds of the authority or the provisions of any trust agreement securing such bonds. Such contract may provide for the collecting of fees, rates or charges for the services and facilities rendered to a subscriber thereof services provided by the authority and for the enforcement of delinquent charges for such services and facilities. The provisions of the contract and of any resolution of the governing body shall not be repealed so long as any of the revenue bonds issued under the authority of this chapter are outstanding and unpaid. The provisions of the contract, and of any resolution enacted pursuant thereto, shall be for the benefit of the bondholders.

2003, c. [643](#).

§ 15.2-5431.13. Insurance for employees

An authority may establish retirement, group life insurance, and group accident and sickness insurance plans or systems for its employees in the same manner as localities are permitted under §§ [51.1-801](#) and [51.1-802](#).

2003, c. [643](#).

§ 15.2-5431.14. Issuance of revenue bonds

An authority may provide by resolution for the issuance of revenue bonds of the authority for the purpose of paying the whole or any part of the cost of any project. The principal of and the interest on the bonds shall be payable solely from the funds provided for in this chapter for such payment. The full faith and credit of the locality shall not be pledged to support the bonds. The bonds of each issue may be dated, may mature at any time or times not exceeding 40 years from their date or dates, may be subject to redemption or repurchase at such price or prices and under such terms and conditions, and may contain such other provisions, all as determined before their issuance by the authority or in such manner as the authority may provide. The bonds may bear interest payable at such time or times and at such rate or rates as determined by the authority or in such manner as the authority may provide, including the determination by reference to indices or formulas or by agents designated by the authority under guidelines established by it. The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or outside the Commonwealth. If any officer whose signature or a facsimile of whose signature appears on any bonds or coupons, ceases to be an officer before the delivery of such bonds, his signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until delivery. All revenue bonds issued under the provisions of this chapter shall have, as between successive holders, all the qualities and incidents of negotiable instruments under the negotiable instruments law of the Commonwealth. The bonds may be issued in coupon, bearer, registered or

book entry form, or any combination of such forms, as the authority may determine. Provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The issuance of such bonds shall not be subject to any limitations or conditions contained in any other law, and the authority may sell such bonds in such manner, either at a public or a private sale, and for such price, as it may determine to be for the best interest of the authority and the political subdivisions to be served thereby.

2003, c. [643](#).

§ 15.2-5431.15. Time for contesting validity of proposed bond issue; when bonds presumed valid

A. For a period of 30 days after the date of the filing with the circuit court having jurisdiction over the locality creating the authority, any person in interest may contest the validity of the bonds, the rates, fees and other charges for the services and facilities furnished by, for the use of, or in connection with, any such project, the pledge of the revenues of therefrom, or any combination of any thereof. If such contest is not given within the 30-day period, the authority to issue the bonds, the validity of the pledge of revenues necessary to pay the bonds, the validity of any other provision contained in the resolution, trust agreement, indenture or other instrument, and all proceedings in connection with the authorization and the issuance of the bonds shall be conclusively presumed to have been legally taken and no court shall have authority to inquire into such matters and no such contest shall thereafter be instituted.

B. Upon the delivery of any bonds reciting that they are issued pursuant to this chapter and a resolution or resolutions adopted under this chapter, the bonds shall be conclusively presumed to be fully authorized by all the laws of the Commonwealth and to have been sold, executed and delivered by the authority in conformity with such laws, and the validity of the bonds shall not be questioned by a party plaintiff, a party defendant, the authority, or any other interested party in any court, anything in this chapter or in any other statutes to the contrary notwithstanding.

2003, c. [643](#).

§ 15.2-5431.16. Proceeds of bonds

The proceeds of bonds issued pursuant to § [15.2-5431.14](#) shall be used solely for the payment of the cost of the project or projects for which they were issued and shall be disbursed in such manner and under such restrictions, if any, as the authority may provide in the authorizing resolution or in any trust agreement. If the proceeds of the bonds, by error of estimates or otherwise, are less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit and, unless otherwise provided in the authorizing resolution or in the trust agreement securing them, shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose. If the proceeds of the bonds of any issue

exceed the amount required for the purpose for which such bonds were issued, the surplus shall be deposited to the credit of the sinking fund for such bonds.

2003, c. [643](#).

§ 15.2-5431.17. Interim receipts and temporary bonds; bonds mutilated, lost or destroyed

A. Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery.

B. If any bond issued under this chapter is mutilated, lost or destroyed, the authority may cause a new bond of like date, number and tenor to be executed and delivered upon the cancellation in exchange or substitution for a mutilated bond and its interest coupons, or in lieu of and in substitution for a lost or destroyed bond and its unmatured interest coupons. Such new bond or coupon shall not be executed or delivered until the holder of the mutilated, lost or destroyed bond has (i) paid the reasonable expense and charges in connection therewith and, in the case of a lost or destroyed bond, has filed with the authority and its treasurer evidence satisfactory to such authority and its treasurer that such bond was lost or destroyed and that the holder was the owner and (ii) furnished indemnity satisfactory to the treasurer of the authority.

2003, c. [643](#).

§ 15.2-5431.18. Provisions of chapter only requirements for issue

Bonds may be issued under the provisions of this chapter without obtaining the approval or consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceeding or the happening of any other condition or thing than those proceedings, conditions or things that are specifically required by this chapter.

2003, c. [643](#).

§ 15.2-5431.19. Limitations in bond resolution or trust agreement

The resolution providing for the issuance of revenue bonds of the authority, and any trust agreement securing such bonds, may contain such limitations upon the issuance of additional revenue bonds as the authority deems proper. Such additional revenue bonds shall be issued under such limitations.

2003, c. [643](#).

§ 15.2-5431.20. Bonds not debts of Commonwealth or participating political subdivision

Revenue bonds issued under the provisions of this chapter shall not constitute a pledge of the faith and credit of the Commonwealth or of any political subdivision or locality. All bonds shall contain a statement on their face substantially to the effect that neither the faith and credit of the Commonwealth nor the faith and credit of any political subdivision are pledged to the payment of the principal of or the interest on the bonds. The issuance of revenue bonds under the provisions of this chapter shall not

directly or indirectly or contingently obligate the Commonwealth or any political subdivision to levy any taxes or to make any appropriation for their payment except from the funds pledged under the provisions of this chapter.

2003, c. [643](#).

§ 15.2-5431.21.Exemption from taxation

No authority shall be required to pay any taxes or assessments upon any project acquired or constructed by it under the provisions of this chapter or upon the income therefrom. The bonds issued under the provisions of this chapter, their transfer and the income therefor, including any profit made on their sale, shall be free from taxation within the Commonwealth.

2003, c. [643](#).

§ 15.2-5431.22.Trust agreement; bond resolution

In the discretion of the authority, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside the Commonwealth. The resolution authorizing the issuance of the bonds or the trust agreement may pledge or assign the revenues to be received. The resolution or trust agreement may set forth the rights and remedies of the bondholders, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds or debentures of corporations. The resolution or trust agreement may also contain such other provisions as the authority deems reasonable and proper for the security of the bondholders. Except as otherwise provided in this chapter, the authority may provide for the payment of the proceeds of the sale of the bonds and its revenues to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out the provisions of the resolution or trust agreement may be treated as part of the cost of operation.

2003, c. [643](#).

§ 15.2-5431.23.Disposition of unclaimed funds due on matured bonds or coupons

Any authority having bonds outstanding on which principal, premium or interest has matured for a period of more than five years may pay any money being held to pay the matured principal, premium or interest into the general fund of the authority. Thereafter, the owners of the matured bonds may look only to the authority for payment. The authority shall maintain a record of the bonds for which the funds were held.

2003, c. [643](#).

§ 15.2-5431.24.Contracts concerning interest rates, currency, cash flow and other basis

A. Any authority may enter into any contract that the authority determines to be necessary or appropriate to place the obligation or investment of the authority, as represented by the bonds or the investment of their proceeds, in whole or in part, on the interest rate, cash flow or other basis desired by the authority. Such contracts may include without limitation contracts commonly known as interest rate swap agreements and futures or contracts providing for payments based on levels of, or changes in, interest rates. Such contracts or arrangements may be entered into by the authority in connection with, or incidental to, entering into or maintaining any (i) agreement that secures bonds or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the authority, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency.

B. Any money set aside and pledged to secure payments of bonds or any contracts entered into pursuant to this section, may be invested in accordance with Chapter 45 (§ [2.2-4500](#) et seq.) of Title 2.2 and may be pledged to and used to service any of the contracts or agreements entered into pursuant to this section, and any other criteria as may be appropriate.

2003, c. [643](#).

§ 15.2-5431.25.Rates and charges

A. The authority may fix and revise rates, fees and other charges (which shall include, but not be limited to, a penalty not to exceed 10 percent on delinquent accounts, and interest on the principal), subject to the provisions of this section, for the use of a project or any portion thereof and for the services furnished or to be furnished by the authority, or facilities incident thereto, owned, operated or maintained by the authority, or facilities incident thereto, for which the authority has issued revenue bonds as authorized by this chapter or received loan funding from other sources. Such rates, fees and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times (i) to pay the cost of maintaining, repairing and operating the project or systems, or facilities incident thereto, for which such bonds were issued or loans obtained, including reserves for such purposes and for replacement and depreciation and necessary extensions, (ii) to pay the principal of and the interest on the revenue bonds as they become due and reserves therefor, or other loan principal and interest, and (iii) to provide a margin of safety for making such payments. The authority shall charge and collect the rates, fees and charges so fixed or revised. The authority shall maintain records demonstrating compliance with the requirements of this section concerning the fixing and revision of rates, fees, and charges that shall be made available for inspection and copying by the public pursuant to the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.).

B. No rates, fees or charges shall be fixed under subsection A until after a public hearing at which all of the users of such facilities; the owners, tenants or occupants of property served or to be served thereby; and all others interested have had an opportunity to be heard concerning the proposed rates,

fees and charges. After the adoption by the authority of a resolution setting forth the preliminary schedule or schedules fixing and classifying such rates, fees and charges, notice of a public hearing, setting forth the proposed schedule or schedules of rates, fees and charges, shall be published once a week for two successive weeks in a newspaper having a general circulation in the area to be served by such systems, with the first notice appearing no more than 14 days before the hearing. The hearing may be adjourned from time to time. A copy of the notice shall be mailed to the governing bodies of all localities in which such systems or any part thereof is located. After the hearing the preliminary schedule or schedules, either as originally adopted or as amended, shall be adopted and put into effect.

C. A copy of the schedule or schedules of the final rates, fees and charges fixed in accordance with subsection B shall be kept on file in the office of the clerk or secretary of the governing body of the locality, and shall be open to inspection by all interested parties. The rates, fees or charges so fixed for any class of users or property served shall be extended to cover any additional properties thereafter served which fall within the same class, without the necessity of a hearing or notice. Any increase in any rates, fees or charges under this section shall be made in the manner provided in subsection B. Any other change or revision of the rates, fees or charges may be made in the same manner as the rates, fees or charges were originally established as provided in subsection B.

D. Connection fees established by any authority shall be fair and reasonable. Such fees shall be reviewed by the authority periodically and shall be adjusted, if necessary, to assure that they continue to be fair and reasonable. Nothing herein shall affect existing contracts with bondholders which are in conflict with any of the foregoing provisions.

§ 15.2-5431.26. Enforcement of charges

Any resolution or trust agreement providing for the issuance of revenue bonds under the provisions of this chapter may include any of the following provisions, and may require the authority to adopt such resolutions or to take such other lawful action as is necessary to effectuate such provisions. The authority may adopt such resolutions and take such other actions as follows:

1. Require any person who subscribes to pay rates, fees or charges for the use of or for the services furnished by any system acquired or constructed by the authority under the provisions of this chapter to make a reasonable deposit with the authority in advance to insure the payment of such rates, fees or charges and to be subject to application to the payment thereof if delinquent.
2. If any rates, fees or charges for the use of and for the services furnished by any system acquired or constructed by the authority under the provisions of this chapter are not paid within 30 days after due, the authority may at the expiration of such period disconnect the premises from the system, or

otherwise suspend services and proceed to recover the amount of any such delinquent rates, fees or charges, with interest, in a civil action.

2003, c. [643](#).

§ 15.2-5431.27.Lien for charges

A. There shall be a lien upon real estate for the amount of any fees other charges by an authority to the owner or lessee or tenant of the real estate for the use and services of any system of the authority by or in connection with the real estate from the time when the fees, rents or charges are due, and for the interest which may accrue thereon. Such lien shall be superior to the interest of any owner, lessee or tenant of the real estate and rank on a parity with liens for unpaid real estate taxes. An authority may contract with a locality to collect amounts due on properly recorded liens in the same manner as unpaid real estate taxes due the locality. A lien for delinquent rates or charges applicable to three or fewer delinquent billing periods not exceeding 30 days each may be placed by an authority if the authority or its billing and collection agent (i) has advised the owner of such real estate at the time of initiating service to a lessee or tenant of such real estate that a lien will be placed on the real estate if the lessee or tenant fails to pay any fees, rents or other charges when due for services rendered to the lessee or tenant; (ii) has mailed to the owner of the real estate a duplicate copy of the final bill rendered to the lessee or tenant at the time of rendering the final bill to such lessee or tenant; and (iii) employs the same collection efforts and practices to collect amounts due the authority from a lessee or a tenant as are employed with respect to collection of such amounts due from customers who are owners of the real estate for which service is provided.

B. The lien shall not bind or affect a subsequent bona fide purchaser of the real estate for valuable consideration without actual notice of the lien until the amount of such fees, rents and charges is entered in a judgment lien book in the office where deeds may be recorded in the locality in which the real estate or a part thereof is located. The clerk in whose office deeds may be recorded shall make and index the entries therein upon certification by the authority, for which he shall be entitled to a fee of \$2 per entry, to be paid by the authority and added to the amount of the lien. The authority shall give the owner of the real estate notice in writing that it has made such certification to the clerk.

C. The lien on any real estate may be discharged by the payment to the authority of the total lien amount, and the interest which has accrued to the date of the payment. The authority shall deliver a certificate thereof to the person making the payment. Upon presentation of such certificate, the clerk having the record of the lien shall mark the entry of the lien satisfied, for which he shall be entitled to a fee of \$1.

2003, c. [643](#).

§ 15.2-5431.28.Trust funds

All moneys received pursuant to this chapter shall be deemed to be trust funds, to be held and applied solely as provided in this chapter. The resolution or trust agreement providing for the issuance of revenue bonds of the authority shall provide that any officer to whom, or any bank, trust company or other fiscal agent to which, such moneys are paid shall act as trustee of such moneys and shall hold and apply the same for the purposes provided in this chapter, subject to such regulations as such resolution or trust agreement may provide.

2003, c. [643](#).

§ 15.2-5431.29.Bondholder's remedies

Any holder of revenue bonds issued by an authority under this chapter, or of any of the coupons appertaining thereto, except to the extent the rights given by this chapter may be restricted by the resolution or trust agreement providing for the issuance of such bonds, may, either at law or in equity, by suit, mandamus or other proceeding, enforce all rights under the laws of Virginia or granted by this chapter or under such resolution or trust agreement. Such holder may also compel the performance of all duties required by this chapter or by the resolution or trust agreement to be performed by the authority or by any officer thereof, including the fixing, charging and collecting of rates, fees and charges for the use of or for the services furnished by any system.

2003, c. [643](#).

§ 15.2-5431.30.Refunding bonds

An authority may provide by resolution for the issuance of revenue refunding bonds of the authority to refund any revenue bonds outstanding and issued under this chapter, whether or not such outstanding bonds have matured or are then subject to redemption. Proceeds of such revenue refunding bonds may be used to discharge the revenue bonds, or such revenue refunding bonds may be exchanged for the revenue bonds. Each such authority may provide by resolution for the issuance of a single issue of revenue bonds of the authority for the combined purposes of (i) paying the cost of any project or the improvement, extension, addition or reconstruction thereof, and (ii) refunding outstanding revenue bonds of the authority which have been issued under the provisions of this chapter, whether or not such outstanding bonds have matured or are then subject to redemption. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the bondholders, and the rights, powers, privileges, duties and obligations of the authority with respect to such bonds, shall be governed by the foregoing provisions of this chapter to the extent that they are applicable.

2003, c. [643](#).

§ 15.2-5431.31.Purchase in open market or otherwise

Provision may be made in the proceedings authorizing refunding revenue bonds for the purchase of the refunded revenue bonds in the open market or pursuant to tenders made from time to time when

there is available in the escrow or sinking fund for the payment of the refunded revenue bonds a surplus in an amount or amounts to be fixed in such proceedings.

2003, c. [643](#).

§ 15.2-5431.32. Investment in bonds

Any bonds issued pursuant to this chapter are hereby made securities in which all public officers, bodies and political subdivisions of the Commonwealth; all insurance companies and associations; and all savings banks and savings institutions, including savings and loan associations, trust companies, beneficial and benevolent associations, administrators, guardians, executors, trustees and other fiduciaries in the Commonwealth, may properly and legally invest funds in their control.

2003, c. [643](#).

§ 15.2-5431.33. Financial report; authority budget; audit

Any locality may, by resolution, require an authority to:

1. Submit to it an annual financial statement in a form prescribed by the Auditor of Public Accounts; or
2. Have an audit conducted for any fiscal year according to generally accepted auditing and accounting standards or according to the audit specifications and audit program prescribed by the Auditor of Public Accounts.

2003, c. [643](#).

§ 15.2-5431.34. Use of state land

The Commonwealth hereby consents to the use of all lands above or under water and owned or controlled by it which are necessary for the construction, improvement, operation or maintenance of any project; except that the use of any portion between the right-of-way limits of any primary or secondary highway in this Commonwealth shall be subject to the approval of the Commissioner of Highways.

2003, c. [643](#).

§ 15.2-5431.35. Powers of localities to make grants and conveyances to and contracts with authority

Each political subdivision may:

1. Convey or lease to any authority, with or without consideration, any systems or facilities for the provision of qualifying communications services as authorized by Article 5.1 (§ [56-484.7:1](#) et seq.) of Chapter 15 of Title 56;
2. Contract, jointly or severally, with any authority for the provision of qualifying communications services as authorized by Article 5.1 (§ [56-484.7:1](#) et seq.) of Chapter 15 of Title 56;

3. Contract with any authority for terminating any service furnished by the authority to any premises that is connected to the system of the authority if the owner, tenant or occupant of such premises fails to pay any rates, fees or charges for the use of or for the services furnished by the authority within the time or times specified in such contract; and

4. In any instance in which a locality makes rights-of-way, poles, conduits or other permanent distribution facilities available to the authority, the authority shall make these facilities available to private providers of communications services in a nondiscriminatory basis unless the facilities have insufficient capacity for such access and additional capacity cannot reasonably be added to the facilities.

2003, c. [643](#).

§ 15.2-5431.35:1. Creating or joining more than one authority

No governing body that is a member of an authority shall create or join with any other governing body in the creation of another authority or join another authority if the latter authority would duplicate the services being performed in any part of the areas being served by the authority of which the governing body is a member.

2021, Sp. Sess. I, c. [487](#).

§ 15.2-5431.36. Liability of members or officers

No member of any authority or officer of any governing body of locality creating such authority, or person or persons acting in their behalf, while acting within the scope of their authority shall be subject to any personal liability by reason of his carrying out of any of the powers expressly given in this chapter.

2003, c. [643](#).

§ 15.2-5431.37. Provisions of chapter cumulative; construction

Neither this chapter nor anything herein contained shall be construed as a restriction or limitation upon any powers which an authority or governmental unit acting under the provisions of this chapter might otherwise have under any laws of the Commonwealth, but shall be construed as cumulative of any such powers. This chapter shall be construed as complete and independent authority for the performance of each and every act and thing authorized by this chapter. No proceedings, notice or approval shall be required for the organization of an authority or the issuance of any bonds or any instrument as security therefor, except as herein provided, any other law to the contrary notwithstanding. However, nothing herein shall be construed to deprive the Commonwealth and its political subdivisions of their respective police powers over properties of an authority or to impair any power thereover of any official or agency of the Commonwealth and its political subdivisions that may be otherwise provided by law. Nothing contained in this chapter shall be deemed to authorize an authority to occupy or use any land, streets, buildings, structures or other property of any kind, owned

or used by any political subdivision within its jurisdiction, or any public improvement or facility maintained by such political subdivision for the use of its inhabitants, without first obtaining the consent of the governing body thereof.
